Press Release

## Salcef Group: second contract in Romania for the modernization of the Caransebeş - Timișoara - Arad railway

Rome, 18 November 2022 - Salcef Group S.p.A. informs that the consortium between Webuild S.p.A. and the subsidiary Salcef S.p.A. signed a contract with the Romanian national railway company for the modernization of the Lot 4 of the *Caransebeş - Timișoara - Arad* railway. The contract is worth approximately 440 million euros, of which about 27% pertaining to the Group.

Along the about 55 km of railway between *Ronaț Triaj Gr. D and Arad*, the project entails modernization and track doubling without traffic outages on the existing line. The Group's scope of work includes the design and construction of trackworks and electrification systems only, with the remaining activities, including the civil works, in the hands of the partner.

The project is financed by the European funds of the Operational Programme for Large Infrastructure (POIM), whose objectives include the development of the trans-European transport network TEN-T, of which the *Caransebeş - Timișoara - Arad* railway is part within the *Rhine - Danube* corridor.

Overall, the activities on lot 3 and 4 of the *Caransebeş - Timișoara - Arad* railway have a value for the Group of around 200 million euros which, together with the two framework agreements for track renewal in the *Timișoara* and *Cluj* areas, signed at the end of September, brings the total amount of new contracts signed in Romania over the last two months to 275 million euros.
