FLIGHT VV22: FAILURE OF THE MISSION

Colleferro, 21 December 2022 – Approximately two minutes and 27 seconds after the liftoff of the Vega C launcher, an anomaly occurred shortly after the second stage (Zefiro 40) was ignited, leading to the premature termination of the mission. Mission data analysis is underway to clarify the reasons for what happened.

A press conference organized by Arianespace on Zoom is scheduled for Dec. 21 at 4 PM CET, accessible at the link: <https://arianespace.zoom.us/j/65576582999>

Avio S.p.A.

Avio is a leading international group engaged in the construction and development of space launchers and solid and liquid propulsion systems for space travel. The experience and know-how built up over more than 50 years puts Avio at the cutting-edge of the space launcher sector, solid, liquid and cryogenic propulsion and tactical propulsion. Avio operates in Italy, France and French Guyana with 5 facilities, employing approx. 1,200 highly-qualified personnel, of which approx. 30% involved in research and development. Avio is a prime contractor for the Vega programme and a sub-contractor for the Ariane programme, both financed by the European Space Agency (“ESA”), placing Italy among the limited number of countries capable of producing a complete spacecraft.
