**ENERGY S.P.A.:  UPDATE OF FINANCIAL CALENDAR FOR THE YEAR 2023**

*S. Angelo di Piove di Sacco (PD), 27th January 2023* – **Energy S.p.A.** (ISIN Code **IT0005500712**, Ticker **ENY**), a company offering integrated Energy Storage Systems listed on Euronext Growth Milan ("EGM), following the announcement dated 9 January 2023, announces, pursuant to Article 17 of the EGM Issuers' Regulations, the update of its financial calendar for the year 2023 as follows:

- **24th January 2023** – Board of Directors to approve the preliminary financial figures as at 31st December 2022 (unaudited);

- **25th January 2023 at 3:00 pm** – Webinair to present the market with preliminary financial figures as at 31st December 2022;

- **28th March 2023** – Board of Directors to approve the fully-audited draft of Financial Statements as at 31st December 2022;

- **28th April 2023** – First call of the Ordinary General Shareholders' Meeting to approve the fully-audited Financial Statements as at 31st December 2022;

- **2nd May 2023** – Second call of the Ordinary General Shareholders' Meeting to approve the fully-audited Financial Statements as at 31st December 2022;

- **19th July 2023** – Board of Directors to approve preliminary financial figures as at 30th June 2023 (unaudited);

- **20th July 2023**– Webinair to present the market with preliminary financial figures as at 30th June 2023;

- **27th September 2023** – Board of Directors to approve the half-yearly Financial Report as at 30th June 2023, subject to limited audit.

The calendar is available in the *Investors* area of the Energy S.p.A. website, via the link https://www.energysynt.com/investors/calendario-finanziario

The Company will promptly communicate to the market any changes to the calendar.

**About Energy**

*Energy S.p.A., founded in 2013 by **Davide Tinazzi**, **Andrea Taffurelli** and **Massimiliano Ghirlanda**, is a company headquartered in the province of Padua, Italy, as an **industry leader in offering energy storage systems** for both residential and large-scale applications. Such systems allow energy to be stored then released in accordance with the energy needs of customers. To date, **Energy has sold over 53,000 systems that have already been installed nationwide**, dedicated to the residential, commercial, industrial, utilities and electric mobility markets. Amongst the most significant projects to be realised are the large plant in Comiso, Sicily, consisting of an agricultural-solar plant and a photovoltaic field, the large installation dedicated to the CAAB in Bologna, Smart Grids in numerous municipalities of Sardinia and Lombardy, along with a Condominium Energy Community in Switzerland where individual hubs exchange energy in line with need. Energy's sales channels include both generalist electrical distributors and solar specialists, with the company*

*also working with large European EPCs. The proximity of Energy's logistics to the headquarters of major distributors has led the company to forge strong partnerships with players in the Italian and European markets. The company sources components from leading international suppliers, combined with proprietary Zero $Co_2$ software into systems in compliance with EU standards.*
