Rome, 24 February 2023

The Board of Directors of Iccrea Banca examined the consolidated results of the BCC Iccrea Group as at 31 December 2022.

In 2022, the BCC Iccrea Group, the largest cooperative banking group, confirmed its strong roots in the areas where the banks are located, providing loans to customers for a total of € 90.9 billion, up by 2.4% versus 2021 equal to over € 2.1 billion, with an improvement in general credit quality.

Indeed, in keeping with the Group's strategic objectives aimed at fostering derisking while maintaining robust capital safeguards, a competitive process was concluded that led to the definition of a transaction for the disposal of NPEs (UTPs and bad loans) for a total amount of about €0.5 billion,³ the finalisation and relative definitive derecognition of which is expected within Q1 2023, and other transactions of smaller amounts were finalised that also involved the lease segment.

These operations, together with ordinary management and recovery actions, led to a significant improvement in credit quality, which at year-end showed a gross NPL ratio⁴ of 4.5% (6.9% in 2021) and a net NPL ratio of 1.5% (2.7% in 2021). The coverage ratio on total impaired loans further improved to 67.4%, 5 percentage points higher than in 2021 (62.7%) and about 12 points higher than in 2020 (55.7%). This figure is

⁴ Proforma figure excluding credit items included in discontinued assets (€ 461 million gross and € 147 million, pursuant to IFRS 5) subject to the sale finalised in February 2023.

particularly significant in view of the high proportion of non-performing loans backed by collateral and the increasingly small share of bad loans in the portfolio (about 1/3 of total NPLs).

Confidence of the market towards the Cooperative Credit Banks (BCCs) belonging to the Group remained high in 2022, with funding from ordinary customers of € 120.8 billion, substantially in line with the figures at the end of 2021.

The main liquidity indicators remain well above regulatory requirements: LCR of 231% and NSFR of 144%.

In terms of revenue, the Group reported net interest and other banking income of € 5,104 million in 2022 (+12.6% over 2021), thanks mainly to the positive trend in net interest income, which amounted to € 3,694 million (+34% versus 2021) and benefited from the market environment (rising interest rates and higher yields on inflation-linked bonds in the portfolio). Net commissions also performed well, amounting to € 1,338 million (+4.1% compared to 2021).

Operating costs amounted to € 3,026 million.

The Group's cost/income ratio thus stood at 59.3% (64.0% in 2021).

The net profit was € 1,795 million, up from € 461 million in 2021, due both to the aforementioned positive trend in net interest income and the presence of non-recurring items (extraordinary income of € 442 million from the sale of the monetics/BCC Pay).

Consolidated shareholders' equity rose to € 11.9 billion (10.7 billion in 2021) and own funds to € 13.0 billion (12.0 billion in 2021).

Risk-weighted assets (RWA) stood at € 63.9 billion, broadly in line with the end of 2021 (€ 63.7 billion).

The Group's CET1 ratio was 19.2% (17.7% at the end of 2021) while the TC ratio was 20.4% (18.9% at the end of 2021), well above regulatory requirements.

The BCC Iccrea Group is Italy's largest cooperative banking group, the only national banking group with 100% Italian capital and the fourth largest in Italy in terms of assets, with total consolidated assets as at 31 December 2022 amounting to €173.5 billion. Today the BCC Iccrea Group is made up of 118 BCCs, present in over 1,700 Italian municipalities with almost 2,500 branches, and other banking, financial and product companies controlled by BCC Banca Iccrea. The BCCs of the Group at 31 December 2022 made around € 91 billion of net loans throughout Italy and took in direct funding from ordinary customers of around € 121 billion, with over 5 million customers and about 850 thousand shareholders. The BCC Iccrea Group is among the best banking groups in terms of capital quality with a CET 1 Ratio of 19.2% (data as at 31 12 2022).
