Introduction

Since the Company's listing in 2017, Avio's Remuneration Policy has included variable management compensation plans linked to the Company's long-term performance, which seek to align management's interests with those of shareholders, ensuring retention of key people and rewarding the achievement of strategic plan goals. The third and final cycle of Avio's 2020-24 monetary long-term incentive plan was launched in 2022. This provided for annual grants. The Company therefore intends to introduce a new plan. In line with market practices, Avio intends to introduce a Share-based Plan to strengthen the link between management remuneration and the perspective of institutional investors and shareholders.

On March 13, 2023, the Board of Directors resolved to submit for approval to the Shareholders' Meeting in ordinary session called for April 27, 2023, in single call, an incentive plan that provides for the right to proceed with the grant of rights to be received free of charge up to a total maximum of 130,000 Shares of the Company, subject to the achievement of predetermined Performance Targets, at the end of the Performance Period (the "**Plan**").

The Plan is addressed to the Chief Executive Officer/General Manager, Senior Executives and other Managers with strategic roles for Avio, identified by the Board of Directors, after consulting the Appointments and Remuneration Committee, among those who hold key positions with a significant impact on the creation of value for the Shareholders within the Company and/or its Subsidiaries.

This Prospectus was prepared in accordance with Article 114-*bis* of the CFA and Article 84-*bis* of the Issuers' Regulation and complies with, also in terms of the numbering of the relative paragraphs, the indications of Schedule 7 of Annex 3A of the same Issuers' Regulation. As better specified in this Prospectus, some aspects related to the implementation of the Plan will be defined by the Board of Directors on the basis of the powers granted to it by the Shareholders' Meeting.

2. Reasons for the adoption of the Plan

2.1 Plan objectives

The Plan is a valuable tool for incentivising and retaining Beneficiaries, as parties playing a key role in achieving Avio's objectives, and aligning their interests with those of the shareholders.

The incentivisation and retention of Beneficiaries through the allocation of instruments representing the value of the Company on the basis of the achievement of certain Performance Targets is, in fact, an indispensable tool for the Company to pursue its path in line with the objectives it has set itself.

Specifically, by adopting the Plan the Company intends to:

- align the interests of the Beneficiaries with those of the shareholders and Avio's strategic plan;
- link the remuneration of the Beneficiaries, as subjects who play a key role in the achievement of Avio's objectives, to the achievement of specific pre-set long-term objectives in line with the indications of the Code;
- support and reward the achievement of long-term objectives, allowing the priority objective of value creation to be pursued over a long-term horizon while directing Beneficiaries towards decisions that pursue the creation of value for the Company in the medium to long term;
- support the attraction, retention and engagement of key staff in line with the corporate culture, while pursuing an efficient choice in terms of the costs generated by the Plan;

The plan includes:

- the Grant of a certain number of Rights to Beneficiaries;
- a three-year performance period;
- the Allocation and Delivery of shares subject to the Board of Directors' verification of the Performance Targets achieved in the reference year.

The Board of Directors believes that an incentive plan based on the vesting of the right to the free allocation of shares deferred over the medium term and based on Performance Targets is the incentive tool that most effectively responds to the Company's interests.

In particular, the three-year Performance Period allows Beneficiaries to take advantage of a reasonable time frame to achieve the economic benefits of the Plan, consistent with the objectives of loyalty and alignment of the interests of Beneficiaries and Shareholders in the medium to long term that the Plan proposes.

For the purposes of retention, the Allocation of the Shares is subject to the verification by the Board of Directors, *inter alia*, that on the Date of Allocation of the Shares the Beneficiary's relationship with the Company or with the relevant Subsidiary is still in force and that, with reference to the role held, he/she is still a Beneficiary within the Company or the relevant Subsidiary.

The Allocation of Shares is closely linked to the creation of value for the Company and aims to motivate, involve and incentivise the Beneficiary to achieve the Company's objectives, also aligning its activities with those of its stakeholders.

The Plan is part of a remuneration policy strategy that seeks to balance the fixed and variable components that form the remuneration of Avio's top management, considering the advisability of offering an incentive able to drive long-term results according to certain Performance Targets, in line with market best practices.

2.2 Key variables and performance indicators.

The Allocation of Shares is subject to the achievement of the Performance Targets for the three-year period 2023/2025.

The Performance Targets identified by the Board of Directors consist of:

- *Three-year cumulative reported EBITDA*, which allows a measurement of medium-term profitability that does not take into account non-recurring components, with an incentive determination weighting of 42%;
- *Average Return on Invested Capital*, defined as EBIT Reported / Net Invested Capital, with an incentive determination weighting of 42%;
- ESG indicators, with a 16% overall incentive determination weighting:
 - *Gender diversity*, defined as the ratio between female employees and male employees (4%).
 - *Gender pay gap*, defined as the ratio between the remuneration of female employees and male employees (4%)
 - *Waste management*, defined as the percentage of waste recovered (4%).
 - *Employee training*, Defined as the total number of hours of training provided (4%).

Performance Targets will be measured relative to the specific three-year span 2023/2025.

For each of the indicators, there is:

- a minimum performance level (threshold), upon achievement of which the minimum number of Rights granted, equal to 50% of the Base Number, are allocated and below which no bonus is recognised;

- a target performance level, upon achievement of which the Base Number (target) of the Rights granted are allocated;
- a maximum performance level, upon achievement of which the maximum number of Rights granted, equal to 150% of the Base Number, are allocated.
- for intermediate performance levels, a number of Rights calculated by linear interpolation are granted.

The following diagram summarises, for each target, the percentage weighting for the purpose of determining the incentive and the expected performance range:

| Indicator | | Weighting | Performance levels | | |
|---------------------------------------|-------------------|-----------|--------------------|--------------|--------------------|
| | | | Minimum | Target | Maximum |
| Cumulative three-year Reported EBITDA | | 42% | 80% of the budget | Budget | 120% of the budget |
| Average Return on Invested Capital | | 42% | 75% of the budget | Budget | 125% of the budget |
| ESG Indicators | Gender diversity | 4% | 90% | 16.6% | 110% |
| | Gender pay gap | 4% | 96% | 98% | 102% |
| | Waste management | 4% | 90% | 60% | 110% |
| | Employee training | 4% | 90% | 28.000 hours | 110% |

The details of the Performance Targets will be communicated to the Beneficiaries in the Grant Letter, which must be signed for acceptance by the Beneficiary.

2.3 Criteria for determining the number of shares to be allocated

The Grant of Rights will be made by the Company's Board of Directors, after consultation with the Appointments and Remuneration Committee, subject to approval of the Plan by the Shareholders' Meeting on April 28, 2023.

In determining the number of Rights to be granted to each Beneficiary, the Board of Directors mainly takes into account the role covered and the importance of the function within the Avio Group.

The number of Rights to be granted to Grantees shall be determined by the Board of Directors at the time of the Grant, after consultation with the Appointments and Remuneration Committee. The number of Rights is calculated considering the average Avio share price in the month preceding the meeting of the Board of Directors that approved the financial statements.

In addition, the Plan provides a mechanism for granting dividends distributed during the Performance Period. Specifically, should the Shareholders' Meeting distribute dividends to Shareholders during the Performance Period, the Beneficiaries will be allocated a number of additional shares determined by the amount of total dividends distributed during the three-year period. The additional shares will be determined by considering the value of the Share at the time of the Grant, calculated as the average Avio share price in the month preceding the Board of Directors meeting that approved the financial statements for the year before the plan began.

2.4 Reasoning behind any decision to allocate remuneration plans based on financial instruments not issued by the Company.

Not applicable. The Plan is based solely on Shares of the Company.

2.5 Assessments concerning significant tax and accounting implications

The preparation of the Plan was not influenced by significant tax or accounting considerations.

2.6 Support to the Plan by the special fund for investment for the incentivisation of the involvement of workers in enterprises, as per Article 4, paragraph 112 of Law No. 350 of December 24, 2003.

The Plan does not receive support from the special fund for the incentivisation of the involvement of workers in enterprises, as per Article 4, paragraph 112 of Law No. 350 of December 24, 2003.

3. Approval procedure and timeframe for the granting of the instruments.

3.1 *Powers and functions delegated by the Shareholders' Meeting to the Board of Directors to implement the Plan.*

On March 13, 2023, the Board of Directors, having heard the opinion of the Appointments and Remuneration Committee which met on March 9, 2023, resolved to submit the approval of the Plan to the Shareholders' Meeting in ordinary session to be held on April 28, 2023, in single call.

In addition to approving the Plan, the Ordinary Shareholders' Meeting will be called upon to resolve to grant the Board of Directors all powers necessary or appropriate to implement the Plan. These include (by way of example only) all powers to (i) approve the Regulation, (ii) identify the Beneficiaries by name; (iii) determine the number of Rights to be granted to each Beneficiary; (iv) proceed with the Allocation of the Shares, as well as to perform all acts, formalities and communications that are necessary or appropriate to implement and/or manage the Plan.

3.2 Individuals assigned to administer the Plan.

Responsibility for administering the Plan rests with the Board of Directors. The Board of Directors is granted all powers to implement the Plan, subject to the advice of the Appointments and Remuneration Committee, which performs advisory and propositional functions in connection with the implementation of the Plan, including, without limitation:

- (i) the power to identify Beneficiaries;
- (ii) the power to verify the achievement of the Performance Targets for the Allocation of Shares;
- (iii) the power to ask the Beneficiaries to return any Shares allocated under the Plan if the same have been received on the basis of data that subsequently prove to be manifestly incorrect (Clawback);
- (iv) the power to define the terms and conditions of the Allocation of Shares in the event of a Change of Control or delisting;
- (v) the power to amend the Plan as set out in Section 3.3 below.

The Board of Directors, in exercising the powers to be conferred on it by the Shareholders' Meeting in relation to the Plan, may delegate its powers, duties and responsibilities regarding the execution of the Plan to one or more of its members.

3.3 Existing Procedures for Plan Review.

The Board of Directors of the Company, where deemed necessary or appropriate to keep the essential contents of the Plan as unchanged as possible, within the limits allowed by the regulations in force from time to time, shall regulate the emerging rights and/or amend and/or supplement the conditions for the Grant of the Rights upon the occurrence of, *inter alia*, the following transactions: splitting and regrouping of the Shares, free increase in the Company's capital, increase in the Company's capital for payment, distribution of extraordinary dividends, to the Shares, capital reductions for losses by cancellation of the Shares.

Upon the occurrence of extraordinary events that render the performance scenarios used to formulate the Performance Targets set in the Plan essentially out of date, the Company's Board of Directors may, on the proposal of the Appointments and Remuneration Committee, make the corrections to those Performance Targets required to ensure that the Plan's substantial and economic contents remain unchanged.

For the purposes of the above, "extraordinary events" are defined as: (i) events of an extraordinary and/or non-recurring nature and/or not attributable to the core business of the Avio Group (including, without limitation, acquisitions or disposals of equity investments or business units) considered of particular importance and/or currently not provided for in company planning that entail a significant change in the scope of the Company or the Avio Group; (ii) significant changes in the macroeconomic and/or competitive scenario or other extraordinary factors with a significant impact beyond the actions within the management's control; and/or (iii) significant events, not only of an economic or financial nature.

Any changes to Performance Targets must safeguard the principles and guidelines according to which the Plan has been formulated by not introducing undue advantages or penalties for either the Beneficiaries of the plan or the Company.

The Board of Directors, at its sole discretion, shall also have the power, subject to the opinion of the Appointments and Remuneration Committee, to grant the Beneficiaries the right to receive all or part of the Allocated Shares in advance, also in consideration of the actual achievement of the Performance Targets, and to provide for the early termination of the Plan in the event of:

- (a) Change of Control;
- (b) a public tender offer or a public exchange offer concerning the Avio Shares;
- (c) revocation of the listing of the Shares on the MTA (delisting).

This decision shall be binding on the Beneficiaries.

The Board of Directors is responsible for defining the terms and conditions of the Allocation of Shares in the event of a Change of Control or delisting.

3.4 Methods by which to determine the availability and Allocation of Shares.

The Shares allocated will be made available using only treasury shares held by the Company.

3.5 Role carried out by each Director in establishing the characteristics of the Plan; any conflicts of interest.

The Beneficiaries of the Plan include a Director of the Company, identified by the Board of Directors. Board motions for the Granting of Rights and the Allocation of Shares shall be adopted in compliance with the applicable regulatory provisions.

It is understood that in the event of transfer of the Relationship from the Company or from the Subsidiary to another Group company and/or in the event of termination of the Relationship and simultaneous establishment of a new Relationship within the Group, the Beneficiary will keep, *mutatis mutandis*, the Rights assigned.

4.9 Indication of any other causes of the Plan's cancellation.

If, following the entry into force of primary and/or secondary legislation (including social security and tax legislation) and/or following the issuance of official interpretative clarifications and/or following changes in current interpretations of the applicable rules, the implementation of the Plan should entail additional charges not currently envisaged for the Company, of a tax, social security or other nature, the Plan may be temporarily suspended, amended or cancelled.

In such event, the Company shall not be liable for any damages, indemnities or other charges whatsoever to the Beneficiaries and none of the Beneficiaries shall have any claim against the Company in respect of the Rights granted to them to receive free Shares not yet allocated.

4.10 Reasons for any provision for redemption by the Company of the financial instruments covered by the Plan.

We note that the Plan does not provide for a right of redemption by the Company.

4.11 Loans or other subsidies for the purchase of Shares.

There are no loans or other facilities for the purchase of the Shares as they are allocated free of charge.

4.12 Indication on the valuations regarding the expected charge upon the Company at the relative assignment date, as may be estimated on the basis of the terms and conditions thus far defined, for the total amount and in relation to each Plan instrument.

The expected charge to the Company is the fair value of the Plan Shares, which will be precisely determined on the Grant Date of the Rights.

Information regarding the total cost of the Plan will be provided according to the methods and within the terms indicated in Article 84-*bis*, paragraph 5, letter a) of the Issuers' Regulation.

4.13 Any dilutive effects caused by the Plan.

The Shares serving the Plan and referring to the three-year period as a whole represent 0.49% of Avio's share capital.

Since the Plan is based on the allocation of Shares already held in the Company's portfolio, it will not lead to dilutive effects on Avio's share capital.

4.14 Any limits on voting rights and concerning the allocation of equity rights.

There are no limits on the exercise of equity and voting rights with respect to Shares to be granted under the Plan.

4.15 Information on the allocation of Shares not traded on regulated markets
