Parma, 28 March 2023

On Friday 24 March, the Board of Directors of **MAPS** (**MAPS:IM**; IT0005364333), an innovative SME listed on Euronext Growth Milan and operating in the *digital transformation sector*, approved the separate Draft Financial Statements of Maps S.p.A. and the Consolidated Financial Statements of Maps Group as at 31 December 2022.

Marco Ciscato, Executive Chairman of the Maps Group said: "2022 was a positive year for our Group in which revenues and profitability grew compared to 2021. Growth was driven by the proprietary solutions, especially those in the Healthcare Business Unit. Strong interest in the proprietary solutions of our Energy Business Unit was also confirmed, with significant orders from leading players, and the revenues which are strongly up on the previous year are beginning to make a significant contribution to the overall results. The increase in revenues from the ESG Business Unit is due to the positive contribution of the acquisitions. Generally, the M&A operations in recent years have generated excellent results, confirming the value of our strategy based on a strong supply synergy. As fully expected, the project-based activities were down, especially in the first half of the year. The overall increase in revenues is therefore due to the excellent performance of the proprietary solutions which more than offset the reduction in the project line of business. The increase in the Net Financial Position is due to the activities supporting the growth in the proprietary solutions through investments in R&D and to finalize extraordinary transactions. The results obtained therefore confirm the validity of our business model, characterized by high scalability and the profit margins of our products".

MAIN CONSOLIDATED RESULTS AS AT 31 DECEMBER 2022

The Value of Production amounts to \in 27.5 million, up (+17%) on the figure of \in 23.5 million reported in 2021.

Revenues amount to \leq 24.7 million, up (+15%) on the figure of \leq 21.5 million in 2021, with a fundamental contribution by the Healthcare Business Unit (+26%) in addition to the contribution from the new Energy Business Unit. The Revenue breakdown demonstrates the following:

- Revenues from proprietary solutions amount to € 20.1 million, up (+33%) on the figure of € 15.2 million in 2021; the incidence on Core Business Revenues now stands at 84% compared to 72% reported in 2021.
- Revenues from recurring fees amount to € 9.4 million, up (+31%) on the figure of € 7.2 million in 2021; the incidence on Core Business Revenues now stands at 39% compared to 34% reported in 2021.

The **Contribution Margin**¹ stands at \in 11.8 million, up (+18%) compared to \in 10.0 million in 2021, consolidating the proportion as a percentage of core business revenues that stands at 49% in 2022 (2021: 48%).

The Earnings before interest, taxes, depreciation and amortization (EBITDA) amounts to \in 5.9 million, up (+17%) on the figure of \in 5.0 million in 2021, and corresponding to an EBITDA Margin of 23.8% (2021: 23,4%). The increase in the profit margins is due to the fact that the business is almost entirely based on scalable proprietary solutions by now.

The **Earnings before interest and taxes (EBIT)** amounts to \in 2.9 million, up (+30%) compared to the figure of \in 2.2 million in 2021, after amortization of \in 2.8 million (2021: \in 2.6 million) and non-recurring costs of \in 0.2 million due to M&A operations.

Group Shareholders' Equity stands at € 18 million, substantially in line (- 0.2%) with 2021.

Operations generated a positive **cash flow** of \in 1.5 million, down from the figure of \in 3.3 million generated in 2021. The reduction is mainly due to the increase of trade receivables and Inventories.

BUSINESS OUTLOOK

In 2022, the digital market proved once again to be a highly dynamic segment of the Italian economy. The macroeconomic climate continues to be highly uncertain mainly due to the energy crises and the Russian-Ukrainian conflict. Despite this, analysts confirm that trends in digital transformation will continue strongly in the medium-term. For example, implementation of the National Recovery and Resilience Plan will continue with its positive effects on the economic fabric, especially in areas in which the investments of the MAPS Group have been focused in recent years: mainly in the healthcare market, but also the ongoing energy transformation in the market, the evaluation of non-financial performance and data enrichment to manage customers. Despite the above-mentioned uncertainties, the Group believes that its growth path will continue into the future.

CALLING THE ORDINARY SHAREHOLDERS' MEETING

The Board of Directors decided to call an ordinary session of the Shareholders' Meeting for **27 April 2023, in first call** and 28 April 2023 in second call to discuss and pass resolutions on the following agenda:

²Adjusted by the costs incurred and not capitalized for advisory and due diligence services linked to M&A.

Related and consequent resolutions. Presentation of the consolidated financial statements of Maps Group as at 31 December 2022.
- 2. Allocation of profit for the year. Related and consequent resolutions.

It is hereby expected that the Shareholders' Meeting will be quorate and able to pass resolutions on first call.

The documentation relating to the items on the agenda will be made available to the public at the registered office and on the website **www.mapsgroup.it** within the deadlines imposed by prevailing laws.
