**1.** As of March 2023

## INSURANCE: GROWTH OF VOLUMES & MARGINS IN LIFE AND PROTECTION (REMITTANCE RATIO OF POSTE VITA TO BE INCREASED IN 2023

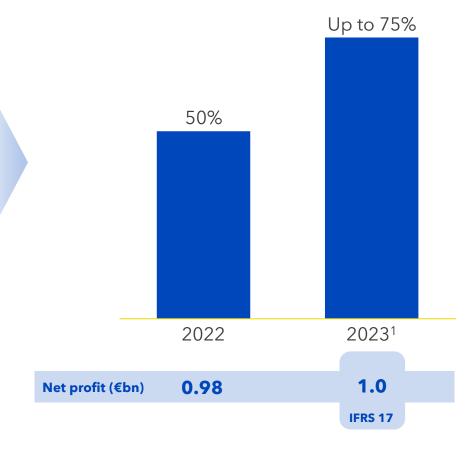

### 2023 growth drivers

- Life positive net flows and product mix driving higher profitability - investment yields increasing
- Protection business profitable growth to continue leveraging on a still low penetration on group large and loyal customer base, helped by the launch of an integrated investment and protection advisory and sales platform
- IFRS17 to improve visibility on underlying value of the insurance business, with 11bn CSM and 12bn comprehensive equity arising from transition and neutral or slightly positive impact on P&L
- c.1bn gross SCR mass lapse insurance transaction ahead of internal model implementation
- High and less volatile solvency ratio, at 253%, allows for an increased remittance to the parent company

### Remittance to parent to be increased

<sup>1.</sup> Dividends to be paid in 2024 based on 2023 P&L
