IN 2023 AND
COMPENSATION PAID IN 2022

2022

LETTER OF THE CHAIRMAN OF THE REMUNERATION AND NOMINATIONS COMMITTEE

Dear Shareholders,

as Chairman of the Remuneration and Nominations Committee, I am pleased to submit for your review the "Report on the Remuneration Policy in 2023 and Compensation Paid in 2022", prepared in compliance with current legislation and approved by the Board of Directors on March 8, 2023, which represents for Italmobiliare an important moment of open and transparent communication versus shareholders and other stakeholders about the Group's remuneration system.

2022 was another year marked by extraordinary and dramatic events. Faced with an increase in the cost of raw materials and energy as a result of these events, Italmobiliare has shown evidence of considerable resilience, managing to achieve a significant level of growth in the overall turnover of the portfolio companies, while limiting the decline in profit margins. Our strong point was a pro-active approach to risk management, financial planning, the introduction of strategic sustainability policies and initiatives and the activation of intra-group synergies. At the same time, Italmobiliare's development policy was not put on hold and new investments were made to ensure that the portfolio companies could keep growing and creating value.

The remuneration policy represents a key element for achieving results, guiding corporate conduct and helping to strengthen Italmobiliare's values. In carrying out its functions, the Committee has continued to oversee the process of policy definition, implementation and monitoring, which is designed to ensure alignment with constantly evolving regulatory provisions and with a sustainable strategy on the part of Group, facilitating the achievement of results in line with its sustainable mission.

The 2022 Remuneration Policy received broad consensus from the Shareholders' Meeting. This Report aims to pursue the objective of transparency and clarity in presenting the information in line with the path undertaken in recent years. As in the past, the 2023 Remuneration Policy has been established with the aim of responding to the expectations of the main shareholders and stakeholders, taking market best practices into consideration. In preparing this policy, we continued listening to and analysing the suggestions and indications received from all stakeholders, identifying any areas for improvement suggested by the main proxy advisors with whom we maintain an open and constructive dialogue.

The 2023 Remuneration Policy has some new elements. Given that 2022 saw the end of the 2020-2022 Phantom Stock Grant Plan with bonuses due to be paid in 2023, the Policy provides for the launch of a new Phantom Stock Grant Plan for the period 2023-25, subject to the approval of the Shareholders' Meeting. In order to strengthen Italmobiliare's commitment to sustainability, the new Plan includes ESG objectives, already envisaged in the annual incentive plan, identified in close coordination with the Sustainability Committee. Furthermore, an in-depth analysis of the incentive practices adopted by companies similar to Italmobiliare by sector, most of them unlisted, and the objective of focusing management more on creating value in their handling of the Company's individual shareholdings, led the Committee to propose the introduction of a medium-long term incentive, the Value Creation Sharing Incentive. Its aim is to share the value created by extraordinary transactions and the Report provides details of this plan.

As Chairman of the Remuneration and Nominations Committee, I renew the Company's commitment to ensure that its Policies contribute to the implementation and success of the programmes and strategic objectives pursued by the Group, in the hope that they will receive positive feedback from the Shareholders and Stakeholders. I will now pass on the baton to the next Remuneration and Nominations Committee, which will take office after the appointment of the new Board of Directors, as the current mandate is about to expire. Trusting that you will appreciate the important work that we have performed and that you will find the information useful and comprehensive, we submit for your attention the Group's "Report on the Remuneration Policy in 2023 and the Compensation paid in 2022". We hope that we will have your support during the Shareholders' Meeting.

Vittorio Bertazzoni
***Chairman of the Remuneration and
Nominations Committee***

SUMMARY

Purpose and principles of the Remuneration Policy and how it is linked to strategy

Italmobiliare's 2023 Remuneration Policy, defined in accordance with the Company's governance model and the recommendations made by the Corporate Governance Code to which the Company adheres, has the aim of ensuring the alignment of management's interests with the interests of shareholders and all its stakeholders. In this sense, it constitutes one of the fundamental tools for pursuing the sustainable success of the Italmobiliare Group, through the creation of long-term shared value, thereby contributing to the global challenges and, at the same time, protecting and strengthening its financial performance for the benefit of the shareholders and of all other stakeholders.

In fact, the Italmobiliare Group is inspired by and promotes values in its own sphere of activity and in that of the other Group companies that are consistent with the most advanced international governance practices. Among these, there is the United Nations Global Compact, the most important strategic initiative of corporate responsibility. The Italmobiliare Group adheres to it through a formal and substantial declaration of commitment to promote a healthy, inclusive and sustainable global economy, respectful of labour and human rights, able to safeguard the environment and actively involved in promoting integrity in every aspect of the business. To this end, Italmobiliare shares, supports and applies the Ten Fundamental Principles of the Global Compact in its sphere of influence and actively contributes to achieving the United Nations Sustainable Development Goals.

By establishing a direct relationship between pay and performance, the Remuneration Policy aims to attract, retain and motivate people with the professional qualities required to manage the Company in line with its Mission to play *"an active and continuous role in the process of portfolio growth and enhancement by combining development, internationalisation and innovation with an effective governance and risk management model, and full ESG integration at all stages of investing"*.

3. Remuneration and Nominations Committee

The Remuneration and Nominations Committee has the following composition at the date of this Report:

Members of the Remuneration and Nominations Committee

Chairman	Vittorio Bertazzoni
Member	Chiara Palmieri
Member	Valentina Casella

The Board of Statutory Auditors and Human Resources Director are also regularly invited to attend the Committee meetings. No Director is present at the part of meetings when their remuneration is discussed. Minutes are taken of the meetings and the Chairman informs the Board of the meetings held at the first opportunity.

The Remuneration and Nominations Committee has the aim of **guaranteeing that the remuneration policies established for Directors**, including those who have been delegated powers or appointed to particular positions, **and for Key Management Personnel are formulated by a body that does not have any interest in them**, in compliance with recommendation 26 of the Corporate Governance Code, to which the Company adheres. The Committee only plays an advisory role; the power to determine the remuneration of Executive Directors and Directors holding particular offices lies with the Board of Directors, which consults with the Board of Statutory Auditors in accordance with art. 2389, third subsection of the Italian Civil Code.

Tasks of the Remuneration and Nominations Committee (in the remuneration area)

It makes proposals to the Board on the definition of the remuneration policy; it periodically assesses the overall adequacy and consistency of the remuneration policy, monitoring its application in practice.

It assesses proposals to introduce short- and long-term incentive systems, cash- and share-based, to be submitted for the approval of the Board of Directors.

It submits proposals to the Board of Directors, or expresses opinions, on the remuneration of Executive Directors and other Directors holding particular offices, as well as on setting performance objectives.

It proposes performance objectives to the Board related to the variable component of the remuneration of Executive Directors, Directors holding particular offices and Key Management Personnel.

It checks, also making use of information received from the relevant company departments, achievement of the performance objectives to which the long-term incentive plans and variable remuneration are linked.

It expresses opinions on the indemnities to be paid to key management personnel in the event of their early termination; it evaluates the possible effects of termination on the rights assigned as part of incentive plans based on financial instruments.

It proposes to the Board temporary exceptions to the Remuneration Policy in the presence of exceptional circumstances and in compliance with the Related Party Transactions Procedure.

In going about its duties, the Committee can use corporate departments and resources as necessary each time to ensure the best possible fulfilment of its tasks, or independent third-party experts. The duties of the Committee and how it is meant to function are governed by the Regulation of the Board of Directors adopted in 2021, which can be found in the “Governance/Documents and Procedures” section of the Company’s website.

The Committee met three times during 2022 with the participation of all of its members and those of the Board of Statutory Auditors; meetings lasted approximately one hour on average. In two out of three meetings it performed the functions of both the Nominations Committee and the Remuneration Committee; in one it only performed the functions of the Remuneration Committee.

The Committee was assisted by Willis Tower Watson, an independent consultancy, in preparing the remuneration policy for 2022 and 2023 and in the definition of the new long-term incentive plan for the period 2023-2025 to be submitted to the Shareholders’ Meeting, in addition to the introduction of a new medium-long term incentive system, the Value Creation Sharing Incentive, aimed at sharing the value created by extraordinary transactions.

In 2022, the Committee carried out the following activities concerning remuneration: it examined the Company’s report on the remuneration policy in 2022 and compensation paid in 2021 to be submitted to the Board of Directors and subsequently to the Shareholders’ Meeting; it verified achievement of the performance objectives for the purpose of determining the short-term variable remuneration to be paid to the Chief Executive Officer/Chief Operating Officer and to key management personnel (MBO 2021); it made a proposal to the Board of Directors for the variable remuneration of the Chief Executive Officer/Chief Operating Officer and key management personnel for 2022 (MBO 2022); launched in-depth activities aimed at preparing the Company’s new long-term incentive plan and introducing the new medium-long term variable system to support extraordinary transactions and definition of the remuneration policy for 2023.

As regards its functions as the Nominations Committee, in 2022 the Committee examined the results of the 2021 self-assessment process, which were then submitted to the Board of Directors; reviewed the questionnaire to be used for the 2022 self-assessment process, after agreeing not to use an independent consultant; started the preparatory preliminary investigations for the formulation of the opinion on the quantitative and qualitative composition of the Board of Directors, in view of the renewal of the corporate bodies.

In 2023, up to the date of approval of the Report, the Committee has met twice, performing the functions of both the Nominations Committee and the Remuneration Committee at both meetings. Among its activities involving remuneration, it has examined this Company's report on the remuneration policy for 2023 and on the compensation paid in 2022 to be submitted to the Board of Directors and subsequently to the Shareholders' Meeting; checked whether the performance objectives had been achieved in order to determine the short-term variable remuneration to be assigned to the Chief Executive Officer/Chief Operating Officer and key management personnel (MBO 2022) and the long-term variable remuneration (Phantom Stock Grant Italmobiliare 2020-2022); shared the structure of the MBO 2023 of the Chief Executive Officer/Chief Operating Officer and of key management personnel; examined the structure and the disclosure document of the new long-term incentive plan (Phantom Stock Grant Italmobiliare 2023-2025), and the proposed introduction of a new medium-long term variable component, the Value Creation Sharing Incentive; examined a benchmark analysis, which was then submitted to the Board of Directors, regarding the remuneration of directors and statutory auditors, for use in the preparation of a proposal for the Shareholders' Meeting.

Furthermore, in its capacity as Nominations Committee, it examined the results of the 2022 self-assessment process, which were then submitted to the Board of Directors; it also made a proposal regarding the guidance opinion on the qualitative and quantitative composition of the newly appointed Board of Directors, which was subsequently approved by the Board.

Italmobiliare's 2023 Remuneration Policy was approved by the Board of Directors upon proposal by the Remuneration and Nominations Committee, in the meeting held on March 8, 2023, concurrently with its approval of this Report.

4. Board of Statutory Auditors

With regard to remuneration, the Board of Statutory Auditors expresses opinions required by governing regulations in reference to, in particular, the remuneration of Directors holding particular offices, pursuant to Art. 2389 of the Italian Civil Code, verifying their consistency with the Company's Remuneration Policy. The Board of Statutory Auditors regularly attends the meetings of the Remuneration and Nominations Committee.

PURPOSE AND PRINCIPLES OF THE REMUNERATION POLICY AND HOW IT IS LINKED TO ITALMOBILIARE'S STRATEGY

Italmobiliare's 2023 Remuneration Policy, explained in this Report, is defined in accordance with the Company's governance model and the recommendations made by the Corporate Governance Code, to which the Company adheres, and has the aim of **ensuring the alignment of management's interests with the interests of shareholders and all its stakeholders.**

By establishing a **direct relationship between pay and performance**, the Remuneration Policy aims **to attract, retain and motivate people with the professional qualities** required to manage the Company **in line with its Mission** to play "an active and continuous role in the process of portfolio growth and enhancement by combining development, internationalisation and innovation with an effective governance and risk management model, and full ESG integration at all stages of investing."

The Remuneration Policy is also defined taking into account the best market practices adopted by listed companies and a continuous monitoring and control of risk. To this end, each of the components of the remuneration offered to the Company's management team responds to a precise purpose in pursuit of this strategic vision and, thanks to a **suitable balance of fixed and variable components**, helps structure a compensation package that guarantees effective alignment between management's remuneration and shareholders' interests, expressed first and foremost by the proportional nature of the variable components accrued and the results achieved in the short and long term.

In its long history as a holding company of diversified interests in the industrial and financial sector, Italmobiliare was **one of the first in Italy to adopt a modern approach to sustainability**. Already in the 1990s it had launched ambitious sustainability programmes at its main industrial subsidiaries, fully integrated into the strategic development priorities and coordinated by dedicated functions. Thanks to this experience, the Company has developed a full-time commitment to best practices, from principles to policies, from processes to products, from local and global initiatives to reporting tools.

Today, through the flow of investments and disposals and the management over time of the investments held in its portfolio, Italmobiliare Investment Holding wants to achieve sustainable success for the entire Group, assigning priorities and mobilizing financial resources in a targeted and selective manner. The aim is to contribute to global challenges and, at the same time, protect and strengthen financial performance for the benefit of the shareholders and all other stakeholders. The sustainability of the portfolio companies' development is the metric for evaluating the creation of shared value over time.

Confirming its commitment, in 2020 the Italmobiliare Group joined the **United Nations Global Compact**, with a view to integrating ESGs even more deeply into the holding company's business strategy with increasingly effective supervision of subsidiaries and associates:

1. assessment of the ESG profile of the companies subject to potential investment, applying the principles and criteria defined by the Responsible Investment Policy;
2. active ownership during the management of portfolio companies, through active dialogue and continuous support towards the integration of environmental, social and governance success levers into the business strategy;
3. transparency and reporting of ESG performance in all management phases up to disposal, also with a view to ensuring that the path undertaken will continue.

In June 2021, taking inspiration from the highest global points of reference, Italmobiliare's Board of Directors approved a profound review of the Group's own points of reference in terms of identity and governance: a **Code of Ethics**, **Sustainability Policies** and a **Responsible Investment Policy**, three interdependent and coordinated documents that trace the path consistently and effectively from a commitment to certain values to day-to-day operations.

Together, they apply in all of the Group's activities, in relations with all its companies or counterparties and in the active involvement of all stakeholders in its sphere of influence, supporting Italmobiliare in best expressing the ultimate role of the investor: transformative capacity, expertise, management skills and capital for a healthy,

inclusive and sustainable global economy, respectful of labour and human rights, able to safeguard the environment and actively involved in promoting integrity in all aspects of the business.

For this reason, specific objectives have been adopted within the short-term incentive plan scorecard since 2022, aimed particularly at creating, refining and rationalising the essential elements to consolidate the path, just begun, to integrate ESGs with the Group’s internal processes. Similarly, the 2023-25 long-term incentive plan provides for the introduction of ESG metrics.

The Italmobiliare Remuneration Policy, with reference to the type of components of remuneration to be paid to the various categories of policy beneficiaries, is defined in such a way as to be consistent with the indications given in the Corporate Governance Code and the guidelines issued by the main proxy advisors, as well as with market practice. Specifically:

- The remuneration of Non-Executive Directors consists only of **fixed compensation**, so it is not linked to the Company's results;
- The remuneration of the Chief Executive Officer/Chief Operating Officer and Key Management Personnel consists of a **fixed part and a variable part**, with the latter in turn consisting of a short-term and a medium/long-term component and representing significant part of total remuneration; starting from 2023, an additional stable but non-recurring medium-long term variable component will also be introduced, linked to the creation of value in extraordinary transactions (Value Creation Sharing Incentive).
- The remuneration of the Financial Reporting Officer and the Head of Internal Audit consists of a **fixed part which is predominant with respect to the variable part**. The short-term variable component is primarily linked to goals relating to the role and responsibilities.

EMPLOYEES' REMUNERATION AND WORKING CONDITIONS

The Company monitors working conditions and remuneration on an annual basis in order to promote a consistent remuneration policy for all employees, at the level of both the Parent Company and the Subsidiaries, in line with the Principles of the Sustainability Policies. The greatest efforts in the Human Resources area include initiatives in the following areas:

- Health & Safety
- Training
- Engagement
- Diversity & Inclusion, also with a focus on the gender gap and gender representation in portfolio companies
- Benefits and Welfare Policies.

1. Pay Mix

The Remuneration Policy is defined in such a way as to **guarantee a suitable balance of fixed and variable components** and, of the latter, between short-term (annual) and medium/long-term (multi-year) variable components. The method by which the adequacy of said balance has been defined is connected with the nature of the role, its impact on the pursuit of corporate objectives and market practice for similar roles.

The current pay mix referring, for the Chief Executive Officer/Chief Operating Officer, to the 2020-2022 term of office is shown below:

The "Target" pay mix refers to the potential full achievement of the performance objectives linked to the annual variable component (MBO) and the long-term variable component (LTI) (100% achievement of objectives). Similarly, the "Maximum" pay mix refers to the scenario whereby there is an overperformance of all objectives linked to the annual variable component (MBO) and the long-term variable component (LTI) (maximum score of objective achievement). The presentation does not take into consideration the component connected to the Value Creation Sharing Incentive: this element, albeit stable, envisages a time horizon for measuring performance and paying bonuses directly linked to investment transactions which cannot be defined ex-ante; moreover, since its value is linked to capital gains deriving from investments, it cannot be communicated ex-ante for reasons of confidentiality.

Monetary disbursements may also be envisaged that from time to time, through bonuses and one-off discretionary payments, reward certain results or performance that are not already included in the short and medium/long-term variable components of remuneration. The disbursement of one-off cash bonuses to particularly strategic management figures who have stood out by making exceptional individual contributions, is an important mechanism by which to differentiate and ensure meritocratic selection and, therefore, to retain excellent resources. These forms of remuneration are assigned by the Board of Directors on the recommendation of the Remuneration and Nominations Committee, after hearing the opinion of the Board of Statutory Auditors pursuant to art. 2389 of the Italian Civil Code, if appropriate.

MARKET PRACTICE

The Company regularly monitors the main national and international market practices, also by carrying out specific benchmarking remuneration analyses, carried out by the independent international consultancy firm Willis Tower Watson, in order to verify the competitiveness of its remuneration offer.

At the date of this Report, Italmobiliare's Board of Directors consists of an Executive Director, i.e. the Chief Executive Officer/Chief Operating Officer, and Non-Executive Directors. The remuneration of the Chief Executive Officer/Chief Operating Officer is described in the next section. The other Directors who hold particular offices (Chairman, Deputy Chairman) receive an additional remuneration approved by the Board of Directors, following the April 2020 Shareholders' Meeting that appointed it, on the proposal of the Remuneration and Nominations Committee, having heard the opinion of the Board of Statutory Auditors, pursuant to art. 2389 paragraph 3 of the Italian Civil Code. Non-Executive Directors only receive a fixed remuneration linked to the office and an attendance fee to be paid on the basis of participation at meetings of the Board Committees, in accordance with the resolutions of the Shareholders' Meeting. Non-Executive Directors do not receive variable components of remuneration. The composition of this remuneration is based on the complexity of the positions held and the time commitment required, in line with market benchmarks.

The Directors are also entitled to reimbursement of the expenses incurred for their office and a D&O (Directors & Officers) Liability insurance policy, which covers third-party liability of the corporate bodies in going about their duties. The Chairman may also be assigned specific illness and injury policies.

COMPENSATION OF THE BOARD OF DIRECTORS IN OFFICE UP TO THE DATE OF APPROVAL OF THE FINANCIAL STATEMENTS AT DECEMBER 31, 2022

Chairman	340,000 € *
Deputy Chairman	60,000 € *

The Board of Directors that will take office after the Shareholders' Meeting called in April 2023 to approve the 2022 financial statements, on the proposal of the Remuneration and Nominations Committee and having heard the opinion of the Board of Statutory Auditors, will resolve, within the scope of its powers, the compensation pursuant to art. 2389 paragraph 3 of the Italian Civil Code in compliance with the guidelines of this Policy.

In particular, the proposal that will be submitted to the Shareholders' Meeting takes into account the evidence of the benchmark analysis carried out with the help of the advisor Willis Tower Watson. This proposal provides for a basic fee for each Director of € 40,000 per year, as well as an attendance fee of € 3,000 for each Board committee meeting attended.

Likewise, the next Shareholders' Meeting will be called upon to appoint the Board of Statutory Auditors, which will remain in office until the approval of the financial statements at December 31, 2025, establishing at the time of appointment the related remuneration which will be defined in a way that is appropriate for the competence, professionalism and commitment required, and consistent with the results of the benchmark analysis carried out with the help of Willis Tower Watson. This proposal provides for a fee for the Chairman of € 75,000 per year and a fee for each Standing Auditor of € 60,000 per year for their entire term of office.

REMUNERATION OF THE CHIEF EXECUTIVE OFFICER/CHIEF OPERATING OFFICER

Remuneration of the Chief Executive Officer/Chief Operating Officer is defined in line with the powers conferred and the principles and purpose of the Company’s Remuneration Policy, as well as in line with market benchmarks for similar positions in comparable companies.

The remuneration package of the Chief Executive Officer/Chief Operating Officer is structured into its various components in such a way as to guarantee:

- Consistency between the results achieved and the variable remuneration schemes implemented by establishing performance objectives that involve a reasonable amount of challenge for the person concerned;
- Alignment with the best market practices in terms of remuneration pay mix (fixed and variable components of remuneration);
- A link between the short- and long-term Company results, in terms of creating value;
- The correct remuneration according to role, powers and responsibilities;
- Long-term loyalty and retention.

The remuneration of the Chief Executive Officer/Chief Operating Officer is defined according to criteria that assure a suitable balance of fixed and variable components of remuneration and, with regard to the latter component, of short- and long-term variable components also taking into consideration the introduction of the Value Creation Sharing Incentive in 2023. This structure promotes a solid alignment between the remuneration disbursed and/or accrued and the creation of value in the long-term.

The policy for the remuneration of the Chief Executive Officer/Chief Operating Officer is made up as follows:

1. Fixed Remuneration

In line with the decision-making process already described, the Board of Directors that will be appointed for the 2023-2025 term of office will determine the remuneration of the Chief Executive Officer/Chief Operating Officer on the proposal of the Remuneration Committee.

In total, the fixed component is determined in such a way as to ensure an adequate and sustainable remuneration, even if the variable component should decline. This is in accordance with the objectives of this policy. The Remuneration and Nominations Committee conducts regular analyses of the external competitiveness of the fixed remuneration, so as to assess the consistency of the remuneration of the Chief Executive Officer/Chief Operating Officer with respect to the same roles held in comparable companies. This analysis was carried out in early 2020 and, in view of the renewal of the corporate bodies at the beginning of 2023, with the help of Willis Tower Watson as advisor.

The compensation for the roles held in subsidiary companies and/or associates are repaid in full to Italmobiliare.

For the 2020-2022 mandate, the fixed component of remuneration of the Chief Executive Officer/Chief Operating Officer established by the Board of Directors on the proposal of the Remuneration and Nominations Committee was considered commensurate with the powers and responsibilities assigned to him. It was confirmed at € 1,000,000 per year.

2. Short-term variable remuneration (MBO)

The Chief Executive Officer/Chief Operating Officer, as well as other Key Managers of the Company, are recipients of an annual incentive scheme (the MBO plan), which entitles them to receive a cash bonus when specific performance objectives are achieved, measured over a time frame of one year and consistent with the Company's strategic objectives, set annually.

The MBO plan envisages the assignment of **objectives that are challenging, feasible, measurable, able to be influenced by the persons to whom they are assigned and which are consistent with their responsibilities**. The objectives are a combination of Group economic-financial metrics, strategic and operational objectives that are under the influence of each manager and specific objectives related to ESG factors.

As a rule, the MBO plan's annual performance scorecard includes between two and five objectives. For each objective, a minimum level is defined, below which it is considered that the objective has not been attained, a target level at which the objective is deemed to have been achieved 100% and a maximum level, set as a for the maximum achievement. The target performance level, achievement of which gives entitlement to receive 100% of the incentive assigned, is normally defined in line with the Company's budget.

The level of achievement of the MBO card as a whole is defined as the weighted sum of the level of achievement of each objective for the weight assigned.

If objectives are achieved at target level, i.e. 100% of performance, the Chief Executive Officer/Chief Operating Officer accrues the right to receive a monetary bonus equal to 100% of the MBO target; this bonus has a value of up to 72.5% of the fixed remuneration.

The MBO plan envisages payment of a bonus in the event that the minimum level of results is achieved, at which point the bonus accrued is 66% of the MBO target. Achievement of the maximum level of results entails the accrual of a bonus equal to 166% of the MBO target.

PERFORMANCE CURVE / PAYOUT

Below are the objectives that make up the scorecard of the MBO plan, **attributable to profitability, value creation and sustainability requirements**, and which favour the orientation of the main corporate priorities in the short term. These objectives were considered in line with the strategic management priorities in terms of both development and cost control, as well as being in line with best practices as emerged from the analyses carried out with the support of external consultants.

MBO SCORECARD FOR THE CHIEF EXECUTIVE OFFICER/CHIEF OPERATING OFFICER

Type	Objectives	Weight
Economic and financial objectives 80%	Annual growth in NAV per share compared with the expected growth in the target per year	40%
	Growth in adjusted EBITDA of subsidiaries/associate companies compared with expected target growth per year	40%
Sustainability goals 20%	Specific ESG objectives	20%

The Company reserves the right not to disclose the value of the targets underlying the indicators, as it considers such information to be sensitive.

3. Long-term variable remuneration

A significant component of the Italmobiliare Remuneration Policy is focused on a medium/long-term time frame, so as to **strengthen the link with the shareholders' interest in creating value**. The Chief Executive Officer/Chief Operating Officer, Key Management Personnel and some key managers of the Company selected by the Chief Executive Officer are recipients of the "2023-2025 Phantom Stock Grant Plan" (LTI Plan), whose main characteristics are described below. For more details, please refer to the Disclosure Document available on the Company's website in the section on Governance/ Shareholders' Meeting.

The LTI plan's main aim is to link a significant portion of the remuneration of the Chief Executive Officer/Chief Operating Officer as well as of the other beneficiary managers, to the achievement of economic-financial performance that can be sustained over time and is consistent with the primary goal of creating value for shareholders. The LTI plan also strengthens management retention and commitment towards achieving strategic company objectives.

The LTI plan aims to remunerate long-term performance measured by achieving two targets: **the first one is the net asset value (NAV) per share**; this objective, in addition to being in line with best practices as emerged from the analyses carried out with the support of external consultants, was considered in line with the business priorities in terms of both development and cost control, as well as being in line with the short-term goals. **The second objective is the ESG Performance**, assessed by the main specialist rating agencies (CDP, Sustainalytics, S&P), considering both the number of ratings that have improved and any improvement in terms of assessment. The chosen indicator synthetically reflects all aspects of sustainability (E, S, G) considering the entire investment portfolio. The three ratings chosen are defined in "rate the raters" studies as those most appreciated by investors and ESG experts.

The Plan provides for the assignment of a specific number of Rights to receive **Phantom Stocks linked to the value of the Company's shares** at the end of the Performance Period, **in relation to the achievement of the objectives described above in the three-year period of reference**.

Thanks to the structure that creates a direct link between the remuneration to be paid, the performance of Italmobiliare's share price and the Company's results, this type of Plan aims to ensure a correlation between the creation of value for the shareholders and for the managers who perform key functions in the achievement of strategically important results.

OBJECTIVES OF THE 2023-2025 PHANTOM STOCK GRANT PLAN

Type	Objectives	Weight
Economic-financial objective	Growth in NAV per share compared with the target growth expected in the 3-year reference period	80%
Performance ESG	ESG rating (CDP, Sustainalytics, S&P)	20%

The final bonus therefore depends on:

- the number of Phantom Stocks accrued (based on Group performance);
- the value of the Shares, based on stock market performance.

Performance objectives linked to the target NAV per share and relating to the ESG performance are set by the Board of Directors in accordance with the Company's strategic objectives.

Each objective contributes independently to the determination of the Plan.

If objectives are achieved at target level, i.e. 100% of performance, the Chief Executive Officer/Chief Operating Officer accrues the right to receive a monetary bonus equal to 100% of the LTI target. This bonus has a value upon assignment of up to 150% of the fixed remuneration per year.

A threshold level is envisaged, below which the right to receive the incentive is not accrued, and a maximum limit, upon achievement of which the maximum incentive is accrued.

The number of Phantom Stock attributable will be defined according to the following incentive curve:

- on reaching a minimum level of performance, a number of Phantom Stocks equal to 66% of the rights to receive the assigned Phantom Stocks will be attributed. No Phantom Stock will be attributed below this minimum level;
- on reaching the target performance level (100%), a number of Phantom Stocks equivalent to the number of rights to receive the assigned Phantom Stocks (100%) will be attributed;
- on reaching a maximum level of performance, a number of Phantom Stocks equal to 166% of the rights to receive the assigned Phantom Stocks will be attributed. No additional Phantom Stock will be attributed on reaching a performance level above this cap;
- for intermediate performances between the minimum level and the target, and between the target and the maximum, a calculation by linear interpolation will be applied, with reference to the share of the incentive linked to NAV. With reference to ESG performance, the bonuses are calculated on the basis of a scalar curve.

Given the direct connection between the bonus and the value of the share, the impact of any distribution of dividends during the 3-year vesting period has to be taken into account. So, in order to maintain the plan's incentive effect unchanged, at the end of the vesting period a number of additional Phantom Stocks equal to the value of any dividends paid out during the performance period will be assigned.

4. Value Creation Sharing Incentive

Consistent with the purpose of **strengthening the link between variable remuneration and the creation of shareholder value**, the 2023 Remuneration Policy provides for the introduction of a medium-long term incentive plan called the **Value Creation Sharing Incentive**.

The purpose of the Value Creation Sharing Incentive is to reward management's contribution to value creation in relation to investment management: the plan recognizes a monetary bonus directly correlated to the capital gains generated by exit operations. The Incentive promotes retention and has been defined taking into consideration the remuneration models applied by European companies, often unlisted, with a business model close to that of Italmobiliare, but in such a way as to guarantee bonuses that are not excessive in value and, in any case, defined in accordance with the overall economic performance of the Company.

For each transaction, the Incentive provides for the definition of a bonus pool at the exit equal to a percentage of the financial performance of the transaction above the target threshold in terms of Internal Rate of Return (IRR). The bonus pool determined in this way is paid to the managers involved in managing the investment according to distribution criteria defined ex-ante and consistent with the critical nature and responsibilities of the individual recipient's role. There is a cap on the value of the incentive paid at an individual level, equal three times the total annual remuneration (face value).

The recipients of the Value Creation Sharing Incentive are the Chief Executive Officer/Chief Operating Officer, the Key Management Personnel and the managers recipients of the LTI Plan.

In the context of the Value Creation Sharing Incentive, the measurement of performance considers a medium-long term period, consistent with the time horizon of the investment. For each investment, the incentive provides for possible payment of bonuses after the exit.

5. Benefits

Non-monetary benefits may be granted, such as company car for both personal and business use. There are also supplementary pension plans, health insurance and life insurance policies to integrate those provided for by the National Collective Labour Agreement for Managers of companies producing goods and services, in line with market practices.

As with other Directors, the Chief Executive Officer/Chief Operating Officer benefits from a third-party liability insurance policy that has been taken out for events related to the exercise of his functions, in compliance with the provisions set forth with regard to his offices, except in cases of wilful misconduct and fraud.

Italmobiliare already has welfare plans in place for Company employees which can also be extended to managers.

REMUNERATION POLICY FOR KEY MANAGEMENT PERSONNEL

Italmobiliare promotes a remuneration policy for Key Management Personnel that is consistent with that described in the previous section for the Chief Executive Officer/Chief Operating Officer. This policy takes into account:

- recognition of the role and responsibilities in terms of their strategic nature;
- competitiveness with market remunerations;
- internal fairness for figures of similar or comparable level;
- retention and loyalty.

The remuneration policy applicable to Key Management Personnel is structured as follows:

The compensation package is structured in such a way as to assure a suitable balance of fixed and variable components of remuneration and, with regard to the latter component, of short- and long- term variable components. This structure promotes a solid alignment between the remuneration disbursed, the results achieved during the year and the creation of value in the long term.

Italmobiliare has currently chosen the Head of Investment Management, the Administrative Director/Financial Reporting Officer and two managers from the Development & Investment Department, as Key Management Personnel.

1. Fixed Remuneration

The fixed component of the remuneration of Key Management Personnel is the remuneration from employment as Company managers. Fixed remuneration is determined in such a way as to remunerate the role even if the variable remuneration should decline. The Company regularly monitors the consistency of the fixed remuneration with market rates in respect of similar roles in companies comparable with Italmobiliare.

Any compensation received by Key Management Personnel for roles held in subsidiary companies and/or associates are repaid in full to Italmobiliare.

2. Short-term variable remuneration (MBO)

The Key Management Personnel benefit from an annual incentive system (the MBO Plan), which entitles them to receive a cash bonus where specific performance objectives are achieved, measured over a time frame of one year.

The MBO Plan envisages the assignment of **objectives that are challenging, feasible, measurable, able to be influenced by the person to whom they are assigned and which are consistent with their responsibilities**. The objectives are a combination of economic-financial metrics and strategic and operational objectives coming under the influence and purview of each manager.

The scorecard of MBO plan objectives for 2022 is structured as follows:

MBO SCORECARD KEY MANAGEMENT PERSONNEL*		
Type	Objectives	Weight
Economic and financial objectives 80%	Annual growth in NAV per share compared with the expected growth in the target per year	30%
	EBIT/EBITDA of specific “controlled companies” Specific function objectives Project milestones	50%
Sustainability objectives 20%	Specific ESG objectives	20%

(*) excluding the Financial Reporting Officer and the Head of Internal Audit for whom a significant portion of the goals (70% or more) are objectives relating to the adoption of the best governance and control standards and monitoring of regulatory and legal compliance for the Financial Reporting Officer and objectives linked to the activities of the internal control department for the Head of Internal Audit. It is specified that the definition and assessment of objectives for the Head of Internal Audit is carried out by the Control and Risk Committee, in order to guarantee complete independence and avoid onset of potential conflicts of interests.

Consistently with the provisions for the Chief Executive Officer/Chief Operating Officer, the objectives that make up the MBO scorecard are linked to profitability, value creation and sustainability requirements.

As a rule, the annual MBO scorecard comprises between two and five objectives. For each objective, a minimum level is defined, below which it is considered that the objective has not been attained, a target level at which the objective is deemed to have been achieved 100% and a maximum level, set as a cap for the maximum achievement. The target performance level, achievement of which gives entitlement to receive 100% of the incentive assigned, is, as a rule, defined in line with the Company’s budget.

The level of achievement of the MBO card as a whole is defined as the weighted sum of the level of achievement of each objective for the weight assigned.

The incentive for Key Management Personnel if they achieve the target performance level averages out at between 40% and 80% of fixed remuneration.

The target incentive is lower for the Financial Reporting Officer and the Head of Internal Audit and stands at 21% of fixed remuneration.

3. Long-term variable remuneration

Similarly to that envisaged for the Chief Executive Officer/Chief Operating Officer, a significant portion of the variable remuneration of the Italmobiliare Key Management Personnel is focused on a medium/long-term time frame, so as to **strengthen the link with the shareholders' interest in creating value**. The Key Management Personnel are recipients of the **"2020-2022 Phantom Stock Grant Plan"** (LTI Plan), the main characteristics of which are described in the section relating to the remuneration of the Chief Executive Officer/Chief Operating Officer.

4. Value Creation Sharing Incentive

In line with the provisions for the Chief Executive Officer/Chief Operating Officer, in order to **strengthen the link between variable remuneration and the interests of creating value for the shareholders**, the Key Management Personnel are recipients of the **Value Creation Sharing Incentive**, the main features of which are described in the section on the Remuneration Policy for the Chief Executive Officer/Chief Operating Officer.

5. Benefits

Non-monetary benefits may be granted (such as a company car for both personal and business use) as well as other supplementary benefits, over and above those on the National Collective Labour Agreement, such as pension plans, health insurance and life insurance policies, in line with market practice for similar managerial positions.

Italmobiliare already has Welfare Plans in place for Company employees which can also be extended to managers.

CLAWBACK

The Company has **adopted claw back clauses** in connection with any bonuses accrued and paid out under the MBO plan, the Phantom Stock plans and the Value Creation Sharing Incentive. In accordance with the provisions of the Corporate Governance Code, the adoption of such clauses gives the Company the right to request the return of all or part of the variable components of remuneration paid in connection with the plans described above if any of the following circumstances should arise: *(i)* the economic-financial data and information on which basis the performance objectives were assessed prove to be clearly incorrect or falsified, and/or *(ii)* the beneficiary is liable for misconduct or negligence that was key to the disbursement of the bonus. The obligation to return the money remains effective for up to 36 months from payment of the bonus.

SEVERANCE INDEMNITY POLICY

The Company does not envisage any ex-ante indemnity in the event of resignation, dismissal or termination of employment and/or mandate of Directors and Key Management Personnel. The Company may agree specific treatment in connection with the termination of an office or employment, which may even be better than the provisions of the National Collective Labour Agreement, for parties with a contract of employment in place. Such agreements shall be defined in compliance with the benchmarks and within the limits defined by case-law and standard practice. In particular, in addition to what is provided by way of notice, the indemnity is equal to a maximum of 2 times the total annual remuneration including the fixed remuneration, the value of the benefits received in the 12 months prior to the date of termination, the average variable remuneration received in the last three calendar years of service prior to the aforementioned date, the amount of any compensation received in relation to the corporate offices held in the last 12 months (with the exception of compensation that is paid over to the Company).

The effects of the termination of the contract of employment and/or mandate on the rights deriving from the LTI Plan are regulated by the specific company regulation with the aim of avoiding any penalisation of beneficiaries terminating their employment as “good leavers”. In the event of termination of the Relationship before payment of the bonus for reasons other than:

- disciplinary dismissal;
- resignation not for just cause;
- revocation of a director for just cause;
- resignation of a director not for just cause;

the right (for the beneficiary or for their heirs or assignees) to receive a portion of the bonus will be maintained by applying the “pro-rata temporis” criterion and proportionally with the degree of performance achieved, method and timing established.

In the event of:

- transfer of the work relationship, collaboration or mandate by the Company to another Group company;
- termination with simultaneous establishment of a new work relationship, collaboration or mandate within the Group;

the beneficiary will retain ownership of the Rights at the same terms and conditions.

There is no provision for the assignment or maintenance of non-monetary benefits in favour of individuals or for the stipulation of consultancy contracts for a period subsequent to termination of the relationship.

The Company does not have any non-competition agreements in place for Directors and Key Management Personnel. However, the remuneration policy does include the possibility of stipulating agreements with certain managers, including Executive Directors and/or Key Management Personnel who hold particularly critical professional roles, insofar as they are subject to greater risks of attraction on the market. Any such agreements in the favour of Executive Directors and/or Key Management Personnel will be introduced with the approval of the Board of Directors and on the recommendation of the Remuneration and Nominations Committee.

In addition, the Company does not provide for the assignment or maintenance of non-monetary benefits in favour of Directors and Key Management Personnel or the stipulation of consultancy contracts for a period subsequent to termination of the relationship.

SECTION II - REPORT ON COMPENSATION PAID IN 2022

PART I

Result of the 2022 vote on Section II – Report on the Compensation Paid

Recognizing the importance of constant dialogue and continuous interaction with its main stakeholders, Italmobiliare has dedicated its attention to the information received at the last Shareholders' Meeting regarding Section II of the Report on the Remuneration Policy and Compensation Paid.

With a view to assessing and implementing the main areas for improvement indicated by the Shareholders and Proxy Advisors in particular, **clear and transparent presentation of the information** was sought in relation to the components of variable remuneration and the performances achieved, in line with current regulations.

Business results for 2022

After a 2021 characterized by a decisive recovery that affected almost all production sectors, 2022 suffered, especially in the second half of the year, the effects of the war in Ukraine and the consequent inflationary trends in raw material and energy costs, largely already sustained in the dynamics of having to adjust production chains. This context was inevitably reflected in the overall performance of the portfolio companies which had to face unprecedented pressure on their cost structure and on profit margins as a result. Nonetheless, active management of the portfolio companies allowed Italmobiliare's investment portfolio to confirm its high level of resilience. This was achieved through a combination of meticulous industrial development plans implemented with the direct support of the holding company, and a proactive approach to risk management and financial planning, together with the introduction of strategic sustainability policies and initiatives. In fact, the aggregate turnover of the portfolio companies grew by more than 16%, with a very limited drop in profit margins (less than 12%), also thanks to the timely activation of intra-group synergies to limit the impact of energy costs. This was thanks to collaboration with

Group companies that operate in the production and supply of energy (Italgen and AGN Energia) and despite the investment and development plans in progress which require managerial resources and corporate and production structures capable of activating and executing the main growth initiatives.

At December 31, 2022 the NAV per share of Italmobiliare was equal to 48.0 euro, with a decrease of approximately 2.5% compared to the previous year (49.2 euro per share) after the payment of dividends totalling 1.40 euro per share (i.e. a yield of 2.8% compared with the NAV 2021). Please refer to the annual financial report at December 31, 2022 for an explanation of the main factors that characterised the results of operations in 2022.

Description of the compensation paid to Directors, Statutory Auditors and Key Management Personnel

The following is a description of the items comprising the remuneration paid in 2022 to the Chairman, Deputy Chairman, Chief Executive Officer/Chief Operating Officer, Non-Executive Directors, and Key Management Personnel.

During 2022, 4 managers of Italmobiliare were considered Key Management Personnel.

The compensation paid in 2022 is in line with the Remuneration Policy approved by the Shareholders' Meeting on April 21, 2022.

CHAIRMAN

Remuneration for office	<p>The gross annual remuneration of the Chairman of the Board of Directors is € 300,000 in addition to the gross ordinary remuneration of € 40,000 for the office of Director for the 2020-2022 period. Annual change in compensation and performance

In line with the regulatory requirement introduced by Consob with resolution 21623 of December 10, 2020, in light of the remuneration levels just highlighted, the following table compares the annual variation, between 2018 and 2022, of:

- Company results (expressed in terms of NAV per share);
- Total remuneration, calculated as the sum of the fixed, variable short and long term remuneration, other compensation and benefits, of the Chief Executive Officer/Chief Operating Officer and the Chairman of the Board of Directors;
- Average gross annual remuneration, calculated as the sum of fixed, variable, short and long-term remuneration, other remuneration and benefits, based on the full-time employees of Italmobiliare S.p.A. (headcount), with the exception of the Chief Executive Officer/Chief Operating Officer.

* The figures considered for 2019 are strongly impacted by the disbursement of the 2017-2019 LTI plan, as explained below.

** The figures considered for 2022 are strongly impacted by the disbursement of the 2020-2022 LTI plan, as explained below.

Moreover, in 2022 no changes were made to the Remuneration Policy with regard to the members of the Board of Directors. For the sake of completeness of analysis, observing the entire period 2017-2021, an increase in their remuneration was approved on the renewal of the Board of Directors by the Shareholders' Meeting called to approve the 2019 financial statements. On this occasion, the meeting approved an increase in the remuneration for 2020 compared with the previous year of 50% for the Chairman of the Board, of 7% for the Deputy Chairman, of 11% for each Director, eliminating the Executive Committee and consequently the fee for attending meetings.

No significant changes were made to the remuneration policy of members of the Board of Statutory Auditors during the period.

With regard to the more significant changes that took place during the period, in addition to the changes made to the remuneration for members of the Board of Directors described above, the following matters are worth mentioning:

- The amount paid for the 2020-2022 LTI Plan was all accounted for in 2022;
- The amount paid for the 2017-2019 LTI Plan was all accounted for in 2019;
- As regards the position of Chairman of the Board of Directors, a one-off bonus was paid in 2019, in order to recognize her immense professional commitment and the role played by the Chairman during the previous three-year term of office. Her fixed remuneration was also revised to bring it into line with market benchmarks. It should also be noted that the Chairman of the Board of Directors has been in office since April 19, 2017; in the months prior to that date she only held the position of Director.

For the sake of completeness, the following shows the evolution of the ratio between the total remuneration of the Chief Executive Officer/Chief Operating Office and the average gross annual remuneration of the other employees of the Parent Company, calculated as explained above:
