These additional Beneficiaries of the Plan will also be identified by the Company's Board of Directors following the resolution of the Shareholders' Meeting convened in a single call for 03 May 2023 in consideration of the importance of their roles in the Company's organisation as well as the key role they play in the pursuit of the Company's sustainable success in the medium to long term.

2 REASONS FOR ADOPTING THE PLAN

2.1 Objectives to be achieved through Plan allocation and, in particular, the reasons and criteria on the basis of which the Issuer has decided to establish a given ratio between incentive compensation based on financial instruments and other components of total remuneration, the purposes of the long-term incentive schemes and the criteria for defining the time horizon underlying the incentive schemes

The Plan, in compliance with the applicable regulations as well as in line with the best practice on the subject (including the recommendations of the Corporate Governance Code), is a management incentive and retention tool and is aimed at aligning the interests of the Beneficiaries with those of the shareholders in the medium-long term, rewarding the achievement of the targets set out in the Group's industrial plan, retaining the figures considered strategic for the implementation of the business development and growth plan of the Company and the Group, and emphasising GVS's commitment to ESG issues.

The Plan is thus developed over a medium to long-term time horizon with a three-year vesting period and forms of retention and retention of shares for a further time period following the Allocation of Shares. This time horizon was deemed by the Board of Directors to be suitable for the achievement of the aforementioned objectives pursued with the Plan.

The Plan is also consistent with the Remuneration Policy for the year 2023, submitted for approval to the Shareholders' Meeting convened in a single call for 3 May 2023, and with the principles set forth therein in terms of the composition of the overall variable remuneration component and the weight attributed, within it, to the annual monetary bonus and long-term bonus in financial instruments, respectively.

2.2 Key variables and performance indicators considered for the purposes of the allocation of the Plan, with an indication of the factors, also in terms of performance, and the criteria used to identify the particular features relating to the terms of the compensation based on financial instruments of the manner in which such terms were identified in relation to directors, general managers Executives with Strategic Responsibilities, other specific categories of employees or collaborators for whom plans with particular conditions are envisaged, or collaborators both of the Issuer and of the relevant companies in a control relationship, and the reasons underlying the choice of the specific remuneration envisaged in such plans, also in relation to the achievement of the identified long-term objectives.

The Allocation of Shares to each Beneficiary, as a result of their respective Right to Receive Shares, is subject to the positive outcome of the Board of Directors' verification, after receiving the opinion of the Nomination and Remuneration Committee, at the end of the Vesting Period, on the assumption of the approval of the Company's consolidated financial

statements for the financial year ending 31 December 2025, of the fulfilment of both of the following conditions:

- (i) the achievement by the Company of at least one of the Performance Targets; and
- (ii) as far as each Beneficiary is concerned that, as at the Date of Allocation the Relationship between the Beneficiary and the Company, or the relevant Subsidiary, is still in existence (and is not under a notice period) and that the Beneficiary's status as a Beneficiary has not ceased to be within the Company, the relevant Subsidiary or the Group, with reference to the role held, except in the case of Good Leaver.

The Plan Performance Objectives to be achieved by the Company at the consolidated level at the end of the Vesting Period are independent and contribute to the determination of the award each according to its relative weight, and consist of:

- (i) Adjusted EBITDA Margin (relative weight 30%);
- (ii) NFP at the end of the period (relative weight 30%);
- (iii) ESG metrics (relative weight 20%);
- (iv) Relative TSR (relative weight 20%).

As indicated above, one of the main purposes underlying the Plan is to provide incentives to the top management to achieve the targets envisaged in the Group's industrial plan, so that the Performance Objectives covered by the Plan must be closely interconnected with those of the aforementioned industrial plan, the drafting of which is currently being completed and is expected to be approved in 2023. Therefore, without prejudice to the so-called KPIs mentioned above, the specific numerical targets associated with each Performance Objective will thus be defined after the final approval of the business plan.

The assessment of the achievement of the Performance Objectives and the possible Allocation of the Shares to each Beneficiary will be carried out by the Board of Directors, based on the indications provided by the Nomination and Remuneration Committee and the competent functions, no later than the 15th calendar day following the date of approval of the Group's consolidated financial statements for the year ending 31 December 2025.

The number of Shares to be allocated to each Beneficiary under the terms and conditions set forth in the Rules shall be determined by the Board of Directors on the basis of the Target Number of Shares, reduced or increased according to the level of achievement of the Performance Objectives, it being understood that in any case, regardless of any over-performance level possibly achieved, the total number of Shares allocated to each Beneficiary shall not exceed 150% of his/her Target Number of Shares.

In particular, given the Target Number of Shares for each Beneficiary, the number of Shares to be allocated to that Beneficiary will depend on:

- (i) for 30% of its amount, by the achievement of the Performance Target based on the Adjusted EBITDA Margin;
- (ii) for 30% of its amount, by the achievement of the Performance Target based on the NFP at the end of the period;
- (iii) for 20% of its amount, by the achievement of the Performance Objective based on the ESG Metrics;
- (iv) for the remaining 20% of its amount, by the achievement of the Performance Target based on the relevant TSR.

For further clarification, this implies that:

- (a) no averaging (not even weighted) of the level of achievement of the Performance Targets will take place;
- (b) the (partial or total) achievement of a Performance Objective may give rise, independently of the (partial or total) achievement of the other Performance Objectives, to the Allocation of Shares.

The methods for calculating the Performance Targets will be set out in detail in the Rules.

2.3 Criteria for the determination of the number of Shares to be granted, with an indication of: the factors taken into account in deciding the remuneration amounts, the elements taken into consideration for amendment with respect to similar previous plans, the way in which any remuneration achievable on the basis of such previous plans influenced such determination, the indications on the consistency between the elements underlying the determination of the remuneration and the objectives established.

The Target Number of Shares for each Beneficiary is established by the Board of Directors which will define, following the approval of the Plan by the Shareholders' Meeting, a pre-established Target Number of Shares for each Beneficiary, divided into categories of Beneficiaries that are homogeneous in terms of the strategic nature of the role held, the Beneficiary's responsibilities, the degree of exposure to the market, the impact of the respective activity for the benefit of the entire Group and the remuneration levels. The Target Number of Shares is this notified to each Beneficiary at the start of the Plan in the respective Letter of Assignment. This target number is within certain percentage ranges with respect to the fixed remuneration of the Beneficiaries¹, in accordance with the principles established (as to the proportion between fixed and variable components) in the Company's remuneration policy.

¹ Based on the average value of the Shares in the 30 days preceding the meeting of the Board of Directors called to approve the terms of the Plan.

Once the conditions for the Allocation of the Shares have been verified, the Board of Directors, after receiving the opinion of the Nomination and Remuneration Committee, will determine, after the end of the Vesting Period, the actual number of Shares to be allocated to each Beneficiary in a lump sum depending on the level of achievement of the Performance Objectives.

The total number of shares to be allocated is subject to reaching the threshold value of at least one of the Performance Targets.

The actual number of Shares allocated to each Beneficiary may not exceed 150% of its Target Number of Shares.

It should be noted that, with respect to the "2020-2022 Performance Shares Plan", the Board of Directors resolved to increase the number of Shares servicing the Plan in order to align with market averages in terms of the number of shares serviced in relation to the share capital and to keep the payout opportunity of the Plan unchanged, in consideration of the reduction in the Share value compared to the previous plan.

2.4 Reasons for any decision to award compensation plans based on financial instruments not issued by the Company

Not applicable. The Plan is based solely on Company Shares.

2.5 Consideration of significant tax and accounting implications that affected the design of the plans

Not applicable. There were no significant tax and accounting implications that affected the definition of the Plan.

2.6 Possible support for the Plan by the Special Fund for the encouragement of worker participation in enterprises, referred to in Article 4, paragraph 112, of Law No. 350 of 24 December 2003.

Not applicable. The Plan does not receive any support from the Special Fund for the Encouragement of Workers' Participation in Enterprises, referred to in Article 4(112) of Law 350 of 24 December 2003.

3 APPROVAL PROCESS AND TIMING OF THE PLAN

3.1 Powers and functions delegated by the Shareholders' Meeting to the Board of Directors for Plan implementation

At the Shareholders' Meeting of the Company convened in a single call for 03 May 2023, following the approval of the Plan by the Company, the proposal will be submitted to confer on the Board of Directors, with the right to sub-delegate, all the powers necessary to implement and manage the Plan.

3.2 Persons entrusted with the administration of the Plan

The party entrusted with the administration of the Plan is the Board of Directors of the Company, with the right to sub-delegate to third parties (including, by way of example, the Chief Executive Officer, the Appointments and Remuneration Committee of the Company, the Chief Financial Officer or the Director of Human Resources and Organisation), within the limits set forth by the legislation in force at the time and taking into account the powers delegated by the Shareholders' Meeting.

3.3 Existing procedures for Plan revision

Without prejudice to the competence of the Shareholders' Meeting in the cases provided for by law, the Board of Directors has the power to make any amendments or additions to the Rules, after consulting the Remuneration Committee, in the most appropriate manner, that it deems useful or necessary for the best pursuit of the purposes of the Plan, taking into account the interests of the Company and the Group and the Beneficiaries.

In the case of events not specifically covered by the Rules, such as:

- a) extraordinary transactions on the Company's capital, including but not limited to, capital reductions due to losses through the cancellation of shares, increases in the Company's capital, whether free or against payment, offered in option to shareholders or without pre-emptive rights, possibly also to be paid for by contribution in kind, regrouping or splitting of Shares that may affect the Shares;
- b) mergers or demergers, purchase or sale of participations, companies or branches of companies;
- c) legislative or regulatory changes or other events likely to affect the Rights to Receive Shares, the Shares, the Company;

the Board of Directors may make to the Rules, autonomously and without the need for further approval by the Shareholders' Meeting of the Company, after hearing the opinion of the Appointments and Remuneration Committee, all the amendments and additions deemed necessary or appropriate to keep the substantial and economic contents of the Plan unchanged, within the limits allowed by the laws applicable from time to time.

In addition, if, during the Vesting Period:

- a) should a Change of Control occur;
- b) a public takeover offer, or a public exchange offer, concerning the Shares is concluded;
or
- c) the listing of the Shares on Euronext Milan, a market organised and managed by Borsa Italiana S.p.A., is revoked (delisting) or resolutions and/or commitments were passed that would make the delisting definitive,

the Board of Directors shall have the power to proceed with the early allocation of the Shares to the Beneficiaries, or to provide for the early termination of the Plan. This decision will be binding on the Beneficiaries.

In the event of a significant revision of the targets of the Group's industrial plan (such as, by way of example and not limited to, acquisitions, disposals of companies or business units, which entail a new approval of the industrial plan), the Board of Directors shall have the power, subject to the opinion of the Appointments and Remuneration Committee, to approve any changes to the Performance Targets in order to adjust them to the changes in the industrial plan and keep the substantial and economic contents of the Plan unchanged, while maintaining its main incentive and loyalty-enhancing purposes. This decision will be binding on the Beneficiaries.

Lastly, in the event of major market discontinuity (e.g., the occurrence of material changes in macroeconomic conditions or a worsening of the financial environment), the Board of Directors, again subject to the opinion of the Appointments and Remuneration Committee, may reassess the general consistency and fairness of the Plan, implementing the necessary corrective measures, including and in particular with reference to the reference targets, the relevant metrics and assessment methods, as they are functional to maintaining unchanged - within the limits allowed by the laws applicable from time to time, and without prejudice to compliance with the limits and general principles set forth in the GVS Remuneration Policy - the essential substantive and economic contents of the Plan, preserving its main incentive purposes.

3.4 Arrangements for determining the availability and allocation of Shares

Following the vesting of the allotted Rights to Receive Shares, the Beneficiaries will be entitled to the Free Allocation of no. 1 Share for each allotted Right to Receive Shares.

The Shares attributable to the Beneficiaries pursuant to the Plan will revert in whole or in part (i) from the treasury shares held by the Company or possibly purchased by the Company in execution of the authorisations issued by the Shareholders' Meeting or, if necessary, of further authorisations to be issued by the Shareholders' Meeting pursuant to Articles 2357 and 2357-ter of the Italian Civil Code; (ii) from any capital increase, also pursuant to Article 2349, paragraph 1 of the Italian Civil Code.

3.5 Role played by each director in determining the characteristics of the Plan and the possible onset of conflict of interests for the directors concerned

In accordance with the provisions of the Corporate Governance Code, the Appointments and Remuneration Committee - composed of three non-executive directors, the majority of whom are independent - was involved in the various stages of study and preparation of the Plan, to the extent of its competence.

The Board of Directors, having acknowledged the proposal made by the Appointments and Remuneration Committee and with the favourable opinion of the Issuer's Board of Statutory Auditors pursuant to Article 2389 of the Italian Civil Code, approved the Plan proposal and resolved to submit it to the Shareholders' Meeting for approval pursuant to Article 114-*bis* of the CFA (TUF).

Given that the possible Beneficiaries of the Plan also include the Chief Executive Officer, in the event of any recurrence of situations of conflict of interest, the Board of Directors' resolution to assign the Rights to Receive Shares will be adopted in compliance with the provisions of Article 2391 of the Italian Civil Code and, insofar as necessary, Article 2389 of the Italian Civil Code.

3.6 Date of the decision taken by the body competent to propose the approval of the Plan to the Shareholders' Meeting and any proposal by the Appointments and Remuneration Committee

conditions have been met for the Share Allocation set forth in paragraph 2.2 above of the Disclosure.

The Shares allocated under the Plan will have regular dividend rights and thus equal to those of the other Shares in circulation on the date of their issue.

4.2 Plan implementation period

The Plan is a three-year closed plan with a single allocation. The Vesting Period runs from 1 January 2023 to 31 December 2025. An additional Lock-Up Period is envisaged as defined in Section 4.6 of the Disclosure.

4.3 Termination of the Plan

The Plan provides for a Vesting Period ending on 31 December 2025, to be followed by the possible Allocation, in 2026, of the Shares, which are then subject to the Lock-up Period provided for in Section 4.6. (after which the Plan will have completed its implementation period).

4.4 Maximum Number of Shares Allocated

The Board of Directors has set at 1,400,000 the maximum number of Shares that may be allocated to the Beneficiaries in execution of the Plan and that may be extended up to a maximum of 2,300,000 Shares in the event of the inclusion of additional Beneficiaries by the Chief Executive Officer in accordance with the provisions of the Paragraph 1.2 of the Disclosure.

4.5 Procedures and clauses for Plan implementation

At the end of the Vesting Period, the free Allocation of Shares to each Beneficiary is subject to the verification by the Board of Directors of the following conditions: (i) the existence of the Beneficiary's relationship with the Company or the Subsidiary; and (ii) the achievement of the Performance Objectives (for further information, please refer to paragraph 2.2 of this Disclosure).

The number of Shares that will actually be allocated to each Beneficiary on the Date of Allocation of the Shares will be determined by the Board of Directors depending on the achievement of the Performance Objectives described in paragraph 2.2 above of this Disclosure, according to the criteria indicated in the Rules.

In place of and in substitution for the allotment of the Shares, according to the terms and conditions of the Plan, on the Date of Grant the Company reserves the right to substitute, in whole or in part, the Shares with the payment of the Cash Equivalent.

With reference to each Beneficiary, the value of the Cash Equivalent will be determined by the Board of Directors of the Company and will be calculated on the arithmetic average of the official prices of the Shares on the Euronext Milan as reported by Borsa Italiana S.p.A. in the 30 days preceding the Date of Grant or, if the Shares are no longer listed, on the basis of their normal value pursuant to Article 9 of Presidential Decree (D.P.R.) no. 917 of 22 December 1986, as determined by an independent expert appointed by the Company.

4.6 Availability constraints on the Issuer's Shares allocated upon conversion of the Shares

Each Right to Receive Shares shall be attributed in a personal capacity to each Beneficiary and may not be transferred by deed between living persons (*inter vivos*), nor be subject to liens, or be the subject of any other act of disposal in any capacity whatsoever.

The Plan also provides that all Beneficiaries, unless otherwise determined by the Board of Directors, must maintain at least 50% of the Shares that may be Allocated, for a Lock-up Period (from the effective date of their Allocation) equal to 2 years, net of the Shares that may be sold to cover the applicable legal charges.

This is without prejudice to the possibility of disposing of Shares in order to fulfil tax obligations, possibly also by means of the “sell to cover” mode.

4.7 Possible termination conditions in relation to the Plan in the event that the recipients carry out hedging transactions to neutralise any prohibitions on the sale of the Shares.

Not applicable, as there are no termination conditions if the Beneficiary engages in hedging transactions.

4.8 Effects brought about by the termination of the employment or administrative relationship

Since the Right to Receive the Shares is genetically and functionally linked to the continuation of the Relationship between the Beneficiaries and the Company or its Subsidiaries, in the event of the termination of the Relationship, the provisions as described in this Disclosure shall apply, unless otherwise determined by the Board of Directors, after consulting the Appointments and Remuneration Committee, in a more favourable sense for the Beneficiaries.

In case of Relationship termination after the occurrence of a Bad Leaver event during the vesting period or, in any case, before the delivery of the shares, the beneficiary will definitively and fully lose the right to receive the shares assigned.

In case of Relationship termination due to a Good Leaver hypothesis during the Vesting Period, or in any case before the Awarding of the Shares, the Beneficiary (or his heirs) shall retain the

right to receive the Shares in proportion to the duration of the Relationship with respect to the Vesting Period (i.e. *pro rata temporis*), on the basis of the actual level of achievement of the Performance Objectives, as ascertained at the end of the Plan for the generality of the Beneficiaries, and all the further terms and conditions set forth in the Plan (as regards the timing of the allocation, Lock-up Period, *malus* and clawback, etc.).

In the event of transfer of the Relationship to another Group company and/or in the event of termination of the relationship and simultaneous establishment of a new relationship within the Group, on the other hand, the beneficiary will retain, *mutatis mutandis*, all rights assigned by the Rules.

4.9 Indication of other possible causes for cancellation of the Plan

Except as indicated in the preceding paragraphs and in paragraph 3.3 of the Disclosure, there are no other causes for cancellation of the Plan.

4.10 Reasons for the possible provision of a “redemption” of the Shares by the Company

The Plan provides for the adoption of *malus* and claw-back clauses. In particular, if, within the term of 3 years from the Date of Allocation, it transpires that the Performance Objectives have been ascertained by the Board of Directors on the basis of data that have proven to be manifestly erroneous, or it is ascertained that the Beneficiary is liable for:

- (i) fraudulent or grossly negligent conduct to the detriment of the Group;
- (ii) breach of obligations of loyalty to the Group; or
- (iii) conduct that resulted in a significant financial or asset loss for the Group;

the Board of Directors, reserves the right to obtain (a) the restitution of the Shares (in whole or in part), deducting an amount corresponding to the tax, social security and welfare charges related to the Allocation of the Shares, or if the Shares have already been sold, (b) the restitution of the sale value (in whole or in part), deducting the amount corresponding to the tax, social security and welfare charges related to the Allocation of the Shares, possibly also by offsetting the amount with the Beneficiary's wages and/or severance pay. Upon the occurrence of any of the aforementioned events prior to the Shares Allocation, the Company may also not proceed (in whole or in part) with the relevant Allocation (so called *malus*).

4.11 Any loans or other incentives for the purchase of the Shares

Not applicable. There are no loans or other incentives for the purchase of the Shares as they are allocated free of charge.

4.12 Valuation of the expected cost for the Company at the date of the relevant assignment, as it may be assessed based on the terms and conditions already defined, by the total amount and in relation to each instrument of the Plan.

The implementation of the Plan provides for the Allocation of the Shares arising from the vested Rights to Receive Shares within 15 calendar days from the date of approval of the Group's consolidated financial statements for the year ended 31 December 2025.

The total cost for the Company may not, therefore, be assessed in advance as it is a function of the actual total number of Shares allocated. The notional cost that may be recognised in the financial statements in the fiscal years covering the duration of the Plan is a function of the probability of the Shares Allocation and the "fair value" attributable to the Rights to Receive Shares granted to the Beneficiaries, as well as the Company's tax and social security bracket of the Plan itself.

Further information on the cost of the Plan for the Company will be provided in the manner and within the terms indicated in Article 84-*bis*, paragraph 5, letter a), of the Issuers' Regulation and, in any case, by the regulatory provisions in force at the time.

4.13 Any dilutive effects brought about by the Plan

If treasury shares are used, no dilutive effects on capital are expected. On the other hand, in the event of the creation of a stock for the Plan exclusively through capital increases, the maximum dilutive effect, if any, is 0.00000002%.

4.14 Possible limits for the exercise of voting rights and the allocation of property rights

Not applicable. There are no limits on the exercise of equity and voting rights in relation to the Shares to be allocated under the terms of the Plan.

4.15

Not applicable. The Shares are traded on Euronext Milan, a market organised and managed by Borsa Italiana S.p.A.

4.16 - 4.23

These sections, as they relate to stock option grants, are not applicable to the Plan.

4.24 Table

As of the Date of the Disclosure, the Plan has not yet been approved by the Shareholders' Meeting of the Company.

The information set forth in Table No. 1 attached to Schedule 7 of Annex 3A of the Regulation on Issuers, where applicable, will be provided, from time to time, pursuant to Article 84-*bis*, paragraph 5, letter a) of the Regulation on Issuers.
