PRESS RELEASE – ENERGY S.P.A

ENERGY IS ATTENDING THE GERMAN SPRING CONFERENCE 2023

S. Angelo di Piove di Sacco (PD), May 3, 2023 – **Energy S.p.A.**, (“Company” or “Energy”), a company offering integrated Energy Storage Systems listed on Euronext Growth Milan (EGM), a multilateral trading facility organised and managed by Borsa Italiana S.p.A. (ISIN Code IT0005500712, Ticker ENY), announces that on **April,16 2023**, it is attending the “**German Spring Conference 2023**”, an event organized by Equity Forum, dedicated to meetings between listed European SMIDs and institutional investors which will take place in Frankfurt at the Le Meridien Hotel, Wiesenhuettenplatz 28-38.

Davide Tinazzi, Co-founder and CEO, together with Daniele Manfroi, CFO of Energy will meet the financial community during the event and in one-to-one and group meetings, sharing 2022 results and the latest company news.

The corporate presentation will be made available on the website www.energysynt.com, section "Investor/Company Presentation".

This press release is available on Energy S.p.A. website www.energysynt.com in the section Investor Relations/Press Releases and on www.emarketstorage.com.

Energy S.p.A, founded in 2013 by Davide Tinazzi, Andrea Taffurelli and Massimiliano Ghirlanda, is headquartered in the province of Padua (Italy) and is an energy storage systems for both residential and largescale applications sector leader. Our systems allow energy to be stored and released according to customers' energy needs. Energy has to date sold and installed more than 53,000 systems across the country, with a focus on the residential, commercial, industrial, Utilities and electric mobility markets. The biggest projects executed include the large-scale plant in Comiso (Sicily), consisting of an agrivoltaic plant and a photovoltaic field, the large-scale plant at the CAAB Centre in Bologna, the Smart Grids at numerous municipalities in Sardinia and Lombardy and a Condominium Energy Community in Switzerland where individual hubs exchange energy as needed. Energy's sales channels include both general electrical distributors and PV specialists, while the Company also works with large European EPCs. The proximity of Energy's logistics to the headquarters of major distributors has allowed the Company to establish strong partnerships with the Italian and European market players. The Company purchases components from major international suppliers and combines them with its "Zero Co2" proprietary software to build EU standard compliant systems.
