Il Presidente dichiara che:

- non risulta siano state effettuate sollecitazioni di deleghe di voto ai sensi dell'art. 136 e seguenti del Testo Unico della Finanza;

- il capitale sociale sottoscritto e versato alla data odierna è di Euro 1.306.110.000,00 suddiviso in numero 1.306.110.000 azioni ordinarie prive di indicazione del valore nominale;

- alla data odierna la società detiene n. 7.535.991 azioni proprie, pari a circa lo 0,58% del capitale sociale. La Società non detiene ulteriori azioni proprie in portafoglio, neanche per il tramite di società controllate;

- ricorda che, ai sensi dell'art. 2357-ter, comma 2, del codice civile, le azioni proprie sono computate ai fini del calcolo delle maggioranze e delle quote richieste per la costituzione e per le deliberazioni della presente Assemblea, mentre il relativo diritto di voto risulta sospeso. Pertanto, hanno diritto di voto, escluse le indicate azioni proprie, n. 1.298.574.009 azioni ordinarie;

- le azioni della Società sono ammesse alle negoziazioni presso il mercato Euronext Milan (già Mercato Telematico Azionario) organizzato e gestito da Borsa Italiana S.p.A.;

Ministero dell'Economia e delle Finanze per n. azioni 382.127.890 pari al 29,3%;

- la Società non è a conoscenza dell'esistenza di patti parasociali stipulati tra i soci.

Il Presidente ricorda che:

- non può essere esercitato il diritto di voto inerente alle azioni per le quali non siano stati adempiuti gli obblighi di comunicazione di cui agli articoli 120 e 122, primo comma, del Testo Unico della Finanza, concernenti rispettivamente le partecipazioni superiori al 3% e i patti parasociali;

- con riferimento agli obblighi di comunicazione di cui all'art. 120 citato, sono considerate partecipazioni anche le azioni in relazione alle quali il diritto di voto spetti in virtù di delega, purché tale diritto possa essere esercitato discrezionalmente in assenza di specifiche istruzioni da parte del delegante;
- ai sensi dell'art. 6.5 dello statuto sociale e dell'art. 3 del D.L. 31 maggio 1994 n. 332, convertito con modificazioni con Legge 30 luglio 1994 n. 474 è previsto un limite al possesso azionario che comporti una partecipazione superiore al 5% (cinque per cento) del capitale sociale. Tale disposizione di cui all'art. 6.5 dello statuto sociale non si applica alla partecipazione al capitale della Società detenuta dal Ministero dell'Economia e delle Finanze, da Enti pubblici o da soggetti da questi controllati;
- il limite massimo di possesso azionario è calcolato anche tenendo conto delle partecipazioni azionarie complessive facenti capo: al controllante, persona fisica o giuridica, ente o società; a tutte le controllate dirette o indirette nonché alle controllate da uno stesso soggetto controllante; ai soggetti collegati nonché alle persone fisiche legate da rapporti di parentela o di affinità fino al secondo grado o di coniugio, sempre che si tratti di coniuge non legalmente separato. Il controllo ricorre, anche con riferimento a soggetti diversi dalle società, nei casi previsti dall'art. 2359, commi 1 e 2, del codice civile. Il collegamento ricorre nelle ipotesi di cui all'art. 2359, comma 3, del codice civile, nonché tra soggetti che, direttamente o indirettamente, tramite controllate, diverse da quelle esercenti fondi comuni di investimento, aderiscano, anche con terzi, ad accordi relativi all'esercizio del diritto di voto o al trasferimento di azioni o quote di società terze o comunque ad accordi o patti di cui all'art. 122 del Testo Unico della Finanza, in relazione a società terze, qualora tali accordi o patti riguardino almeno il 10% (dieci per cento) del capitale con diritto di voto, se si tratta di società quotate, o il 20% (venti per cento) se si tratta di società non quotate. Ai fini del computo del su riferito limite di possesso azionario si tiene conto anche delle azioni detenute tramite fiduciarie e/o interposta persona e in genere da soggetti interposti;
- il diritto di voto e gli altri diritti aventi contenuto diverso da quello patrimoniale inerenti alle azioni detenute in eccedenza rispetto al limite massimo sopra indicato non possono essere esercitati; nel caso in cui il limite massimo di possesso azionario - calcolato ai sensi del citato articolo 6.5 dello statuto sociale - sia superato da più soggetti, si riduce proporzionalmente il diritto di voto che sarebbe spettato a ciascuno dei soggetti ai quali sia riferibile il limite di possesso azionario, salvo preventive

indicazioni congiunte dei soci interessati. In caso di inosservanza, la deliberazione è impugnabile ai sensi dell'art. 2377 del codice civile se la maggioranza richiesta non fosse raggiunta senza i voti in eccedenza rispetto al limite massimo precedentemente indicato;

- le azioni per le quali non può essere esercitato il diritto di voto sono comunque computate ai fini della regolare costituzione dell'assemblea.

Il testo di tali eventuali interventi verrà allegato al verbale assembleare, unitamente alle risposte che verranno predisposte dalla Società in relazione alle domande eventualmente contenute nell'ambito degli interventi medesimi, ferma rimanendo la facoltà della Società, prima di procedere in tal senso, di valutarne la pertinenza e l'inerenza rispetto ai punti all'ordine del giorno.

Il Presidente passa quindi a trattare congiuntamente tutti gli argomenti all'ordine del giorno della presente Assemblea, in precedenza indicati in fase di apertura dei lavori assembleari.

In considerazione del fatto che la Società ha messo a disposizione del pubblico la documentazione predisposta per la presente Assemblea, che tale documentazione - che sarà allegata al verbale assembleare - è stata trasmessa a coloro che ne hanno fatto richiesta e non essendoci opposizioni, il Presidente omette la lettura di tutti i documenti relativi alla presente riunione, limitando la lettura - durante la successiva fase di votazione - alle sole proposte di deliberazione.

Prima di procedere con la discussione su tutti i punti all'ordine del giorno di parte ordinaria, per quanto riguarda il bilancio, il Presidente segnala che:

- la società di revisione legale Deloitte & Touche S.p.A., ha espresso un giudizio senza rilievi sia sul bilancio di

esercizio al 31 dicembre 2022 sia sul bilancio consolidato alla stessa data di Poste Italiane S.p.A., nonché giudizio di coerenza con il bilancio e di conformità alle norme di legge della relazione sulla gestione e delle informazioni di cui all'articolo 123-bis, comma 1, lettere c), d), f), l), m) e comma 2, lettera b), del Testo Unico della Finanza, presentate nella relazione sul governo societario e gli assetti proprietari. La società di revisione ha altresì verificato che siano state fornite le informazioni di cui al comma 2, lett. a), c), d), e d-bis) dell'art. 123-bis del Testo Unico della Finanza, nonché l'avvenuta approvazione da parte degli amministratori della dichiarazione non finanziaria ai sensi del D.Lgs. 254 del 30 dicembre 2016, come risulta dalle relazioni rilasciate in data 5 aprile 2023;

- la stessa società di revisione legale Deloitte & Touche S.p.A. ha rilasciato sempre in data 5 aprile 2023 l'attestazione di conformità sulla dichiarazione non finanziaria;

e, con riferimento alla società di revisione legale, rende da ultimo informativa all'Assemblea in merito all'integrazione degli onorari da corrispondere alla stessa per Euro 180 mila per ciascuno degli esercizi dal 2022 al 2028, a seguito di deliberazione in proposito assunta dal Consiglio di Amministrazione, recepito il parere favorevole del Collegio Sindacale e sentito il Comitato Controllo e Rischi, in data 25 gennaio 2023, in ossequio a quanto al riguardo previsto dalla disciplina dell'incarico affidato alla stessa società di revisione con delibera assembleare del 28 maggio 2019 nonché dalla "Linea Guida Conferimento Incarichi alla Società di revisione" adottata dalla Società. Tale integrazione si è resa necessaria per le attività e verifiche aggiuntive conseguenti (i) alla redazione del bilancio in formato "ESEF", (ii) all'implementazione del nuovo principio IFRS17, e (iii) alla significativa variazione del perimetro di consolidamento di Gruppo.

Il Presidente dichiara quindi aperta l'unica discussione su tutti i punti all'ordine del giorno e domanda all'esponente di Monte Titoli S.p.A. presente in assemblea di dichiarare se al Rappresentante Designato siano state impartite dagli aventi diritto al voto - che hanno rilasciato delega e/o subdelega al Rappresentante Designato medesimo ai sensi dell'art. 135-novies del Testo Unico della Finanza - indicazioni e/o istruzioni o domande relative ad interventi specifici sui punti all'ordine del giorno in discussione.

MONTE TITOLI DICHIARA DI NON AVER RICEVUTO INTERVENTI/DOMANDE

Il Presidente dichiara quindi chiusa l'unica discussione su tutti i punti all'ordine del giorno.

LA NOSTRA STORIA NEL FUTURO DEL PAESE

Il 2022 è stato l'anno in cui abbiamo celebrato i 160 anni di Poste Italiane: un'Azienda che ha tenuto fede nel tempo al suo ruolo di **perno del sistema Paese**, accompagnando cittadini, imprese, istituzioni locali e centrali in una storia di evoluzione e di progresso.

Tenendo fede al suo ruolo, negli ultimi anni l'Azienda ha avviato un percorso condiviso con *stakeholder* e comunità per massimizzare la produzione di valore economico e sociale e assicurare rispetto e tutela dell'ambiente.

Con il nostro Piano Strategico, continuiamo a sostenere la crescita e lo sviluppo dell'Italia, promuovendo una continua innovazione e digitalizzazione dei territori. Con i suoi **12.800 Uffici Postali**, Poste Italiane non solo è **tra le più grandi reti in Italia** ma svolge un ruolo cruciale, assicurando servizi essenziali sia nelle grandi città che nei piccoli centri.

Il *concept* grafico della Relazione Finanziaria Annuale parte, dunque, dai nostri 160 anni di storia, reinterpretati in funzione di **otto opere d'arte contemporanea** realizzate per rappresentare gli altrettanti pilastri su cui si

fonda la politica ESG di Poste Italiane e che richiamano elementi legati alla nostra storia e a quella del Paese.

Il ruolo svolto dall'Azienda, come sostegno e propulsore del tessuto economico e sociale italiano è racchiuso nel *payoff* "La nostra **storia** nel futuro del **Paese**", a sottolineare l'importanza del nostro passato nella realizzazione di obiettivi futuri che contemplano l'evoluzione e il benessere di Poste Italiane e dell'intero Paese.

In termini di contenuti, il Bilancio di Poste Italiane 2022 mira ad illustrare gli obiettivi e i risultati ottenuti dall'Azienda in ambito economico-finanziario, includendo anche l'aspetto sociale, sostenibile ed evolutivo che contraddistingue la nostra realtà.

Questi aspetti sono riconducibili agli **otto pilastri aziendali** – Integrità e trasparenza, Valorizzazione delle persone, Valore al territorio, Innovazione, Transizione *green*, Diversità e inclusione, *Customer experience*, Finanza sostenibile – che costituiscono il Piano Strategico ESG, attraverso cui Poste Italiane si pone l'obiettivo di conseguire una crescita responsabile ed accompagnare il percorso di sostenibilità e di inclusione sociale del Paese.

1. Introduzione

Lettera del Presidente e dell'Amministratore Delegato

Maria Bianca Farina
Presidente

Matteo Del Fante
Amministratore Delegato
e Direttore Generale

Cari azionisti,

con grande soddisfazione Vi presentiamo, a nome dell'intero Consiglio di Amministrazione, che ringraziamo per l'impegno profuso, il quinto Bilancio Integrato del Gruppo Poste Italiane.

Il 2022 è stato un anno impegnativo, trascorso nella piena volontà di ripresa dalla crisi sanitaria da Covid-19 e nella consapevolezza di operare, oggi e nel prossimo futuro, in un contesto sempre più mutevole e imprevedibile. Il conflitto russo-ucraino e la conseguente crisi umanitaria e di approvvigionamento di fonti energetiche, hanno messo a dura prova la resilienza dell'economia e della comunità in cui viviamo. Questo evento drammatico, di forte discontinuità negli equilibri geopolitici a livello globale, che ha segnato i primi mesi dello scorso anno e i cui effetti, tuttavia, perdurano, riporta l'attenzione sulla necessità per le imprese di orientare le proprie strategie di *business* verso un percorso di transizione ad un'economia più sostenibile, che ponga al centro le esigenze delle comunità e dei territori in cui operano. Inoltre, il perdurare della pandemia per il terzo anno consecutivo, sebbene abbia rappresentato un'opportunità di cambiamento ed abbia accelerato processi cruciali per lo sviluppo del Paese come quello della transizione digitale, rischia tuttavia, di aggravare, in un contesto più ampio le disuguaglianze, erodendo la coesione sociale e aumentando la forbice sociale. Infatti, tale rischio, secondo il rapporto *Global Risk Report 2023* del *World Economic*

Forum, è al settimo posto a livello mondiale tra quelli più gravosi del prossimi dieci anni, insieme al cambiamento climatico, alla perdita di biodiversità, alla migrazione involontaria su larga scala e all'esaurimento delle risorse naturali disponibili.

Per affrontare le molteplici sfide che derivano dal contesto attuale siamo fermamente convinti della validità del nostro modello di *business* sostenibile nel medio-lungo termine, a fronte di una strategia solida e basata su obiettivi misurabili che tengano conto delle istanze di tutti gli *stakeholder*, nell'impegno di mantenere un rapporto di dialogo costante. Gli aspetti relativi all'innovazione e alla sostenibilità sono al centro di tutte le strategie del Gruppo sin dal 2020, ma nel 2022 sono stati ulteriormente rafforzati e integrati negli obiettivi sfidanti contenuti nel Piano Strategico. Grazie alle numerose iniziative e progettualità in coerenza con una visione integrata, possiamo affermare che il Gruppo è solido e sostenibile, capace di dare le risposte più innovative per cogliere le migliori opportunità anche in un contesto altamente sfidante e mutevole.

Poste Italiane mira a sostenere lo sviluppo sostenibile del Paese e a rappresentare una guida per la crescita responsabile e l'evoluzione digitale attraverso la definizione e il raggiungimento di obiettivi finanziari, operativi e di sostenibilità – intesa nella sua accezione più ampia. Relativamente alla sostenibilità ambientale, negli ultimi anni abbiamo riscontrato una crescente rilevanza di

queste tematiche sia a livello globale, con la grande risonanza della COP 26 e con il successo storico dell'istituzione del fondo Loss & Damage durante la COP 27, sia a livello europeo, con le pubblicazioni relative alla Tassonomia ambientale. A livello nazionale, invece, i consistenti stanziamenti previsti dal PNRR per la transizione verde del Paese confermano la necessità di implementare processi sempre più incentrati su economia circolare, mobilità sostenibile, efficienza energetica degli edifici e monitoraggio dell'inquinamento, al fine di migliorare la sostenibilità del sistema economico per il raggiungimento di una società a impatto ambientale zero. A tal proposito, per recepire le richieste delle istituzioni e dei nostri *stakeholder* abbiamo continuato a portare avanti numerose attività di contrasto al cambiamento climatico. Gli ambiziosi impegni assunti da Poste Italiane sono finalizzati al raggiungimento della *carbon neutrality* entro il 2030, in largo anticipo rispetto alla tempistica definita dall'Unione Europea, e al contempo rispecchiano l'innovativa filosofia *green* adottata dal Gruppo che pervade tutti i nostri servizi, processi e prodotti. L'approccio olistico si riflette, altresì, in un maggior coinvolgimento dei clienti attraverso un programma di compensazione di emissioni di CO₂, la "*Green Challenge*", che premia i loro "*green behaviours*", ovvero tutti quei comportamenti virtuosi benefici per l'ambiente.

Dal punto di vista sociale, nel 2022 Poste Italiane ha dimostrato nuovamente di essere vicina alle persone e ai territori fornendo un rilevante contributo al Paese. Infatti, il Gruppo, in continuità con il 2021, ha messo a disposizione dei cittadini i propri canali per le richieste di prenotazione della quarta dose di vaccino anti Covid-19, dando loro

la possibilità di prenotarsi con diverse modalità. Inoltre, l'impegno di Poste Italiane per accompagnare la ripresa del Paese è ulteriormente testimoniato dal Progetto Polaris, un programma di inclusione sociale che ha l'obiettivo di contrastare lo spopolamento dei piccoli centri e di contribuire al loro sviluppo socio-economico, alimentando l'interazione con i territori e le sinergie con le istituzioni locali.

Poste Italiane ha saputo, ancora una volta, monitorare i cambiamenti di un mercato sempre più impegnativo, identificando le sfide del futuro attraverso l'adozione di una prospettiva di lungo periodo per il raggiungimento del vantaggio competitivo. Ne è una dimostrazione il recente ingresso del Gruppo nel mercato dell'energia, che conferma l'Azienda quale punto di riferimento per soddisfare i bisogni delle famiglie italiane, non più soltanto relativi a risparmio, investimento, finanziamento, telefonia fissa, mobile e fibra, ma anche legati a luce e gas. L'evoluzione delle nostre attività e il nostro percorso di crescita sono da sempre orientati ai nostri clienti, i quali possono contare sulla presenza capillare della nostra organizzazione che vanta una rete fisica di circa 13.000 Uffici Postali, oltre ad un'ampia infrastruttura digitale in grado di servire l'intera popolazione nazionale. Ed è proprio per anticipare le esigenze economiche e sociali dei cittadini, soprattutto in un momento delicato come quello dettato dall'attuale crisi energetica, che Poste Italiane investe sulle proprie competenze a 360°, con particolare riguardo allo sviluppo e al miglioramento continuo della propria offerta di prodotti e servizi.

Il Gruppo Poste Italiane ricopre un ruolo centrale per l'economia del Paese, che con un fatturato di circa 11,9 miliardi di

euro ed il più alto numero di dipendenti tra le aziende italiane si conferma anche nel 2022 come il primo datore di lavoro e la più grande azienda del settore logistico in Italia, con una forte *leadership* anche nei settori finanziario, assicurativo e dei servizi di pagamento. Il recente ingresso del Gruppo nel settore energetico rafforza ancora di più la nostra presenza nel territorio e la capacità di soddisfare i bisogni dei cittadini anche in un contesto di crisi.

Traguardi come questi sono sicuramente frutto della validità del percorso intrapreso verso la creazione di valore condiviso, nell'ottica di raggiungimento degli Obiettivi di Sviluppo Sostenibile (SDGs) così come definiti dalle Nazioni Unite. Il modello di *business* adottato da Poste Italiane è in continua evoluzione e si adatta alle esigenze dettate dal contesto economico e sociale e alle istanze degli *stakeholder* aziendali, pur mantenendo fermi nel tempo i propri valori e principi.

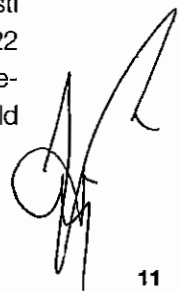

In particolare, la Strategia di Sostenibilità di Poste Italiane è costituita dal Piano Strategico, che contiene *target* e obiettivi di sostenibilità allineati ai più alti obiettivi a livello nazionale, europeo e mondiale, e da un *corpus* normativo aziendale comprensivo di tutte le Politiche di Sostenibilità che regolano gli aspetti non finanziari del Gruppo, i suoi principi e i valori aziendali.

Sebbene nel 2022 abbiamo potuto sperimentare una condizione di effettivo ritorno alle abitudini venute meno a causa della pandemia da Covid-19, si è rafforzata la volontà di stabilire un approccio di *business* sempre più resiliente. L'integrazione dei fattori sociali, ambientali e di *governance* nel nostro modello di *business* – che ci hanno permesso di superare un periodo di destabi-

lizzazione improvvisa – è stata e continuerà ad essere la chiave per una valutazione dei rischi più ampia, che permetta al Gruppo di ragionare in ottica di lungo termine.

Dato il contesto storico in cui operiamo, e in qualità di prima Azienda del comparto logistico in Italia, il rapporto con i nostri *stakeholder* assume un valore sempre più centrale, e promuovere il dialogo con essi ci consente di mantenere un solido rapporto di fiducia, basato su valori condivisi come la trasparenza e l'inclusione, che sono alla base del nostro percorso di crescita verso un futuro sostenibile. A tal proposito, anche quest'anno il *Forum Multistakeholder* ha rappresentato una fondamentale opportunità di confronto e di ascolto degli *stakeholder*, nella piena condivisione degli obiettivi chiave della Strategia di Sostenibilità del Gruppo, basata su otto pilastri: Integrità e trasparenza, Valorizzazione delle persone, Diversità e inclusione, Valore al territorio, Transizione *green*, *Customer experience*, Innovazione e Finanza sostenibile. L'evento, giunto alla sua sesta edizione, si è tenuto in diretta *streaming* e ha visto la partecipazione di oltre 1.000 persone insieme alle quali si è proceduto alla valutazione della significatività degli impatti di sostenibilità legati alla nostra attività e alla definizione dei temi materiali per Poste Italiane, in linea con le evoluzioni normative degli *standard* GRI e della CSRD.

I molteplici riconoscimenti ottenuti, a livello nazionale e internazionale, dalle più prestigiose agenzie di *rating* confermano l'efficacia e la lungimiranza delle strategie sostenibili intraprese dal Gruppo in questi anni. In continuità con il 2021, nel 2022 Poste Italiane ha confermato la sua presenza nel Dow Jones Sustainability World

Index, un autorevole indice di sostenibilità che include le società ritenute migliori nella gestione sostenibile del proprio *business*, e in particolare nel più selettivo segmento Europe. In aggiunta, il Gruppo non solo è stato riconfermato *leader* nella lotta al cambiamento climatico da CDP (ex *Carbon Disclosure Project*), collocandosi per il terzo anno consecutivo nella fascia "*Leadership*" della classifica internazionale con un *rating A-*, ma è anche stato classificato da *Sustainalytics* come top ESG *performer* su un *panel* che conta oltre 15.000 aziende valutate a livello globale, ottenendo un *ESG Risk Rating* pari a 12,7 (*Low Risk*). A questi prestigiosi riconoscimenti seguono ulteriori conferme in indici altrettanto importanti, come Bloomberg Gender-Equality Index (GEI), FTSE4GOOD, MIB ESG e Euronext Vigeo-Eiris World 120. Relativamente a quest'ultimo, siamo fieri di poter comunicare che l'Azienda si è classificata nuovamente al primo posto tra quasi 5.000 imprese valutate in base alle *performan-*

ce di sostenibilità. Inoltre, il Gruppo, oltre ad essere stato incluso anche quest'anno nell'edizione 2023 del *Sustainability Yearbook* di S&P Global rientrando nella fascia di valutazione Top 5% S&P Global ESG Score 2022, ha anche conquistato la valutazione "AA" da parte di MSCI, per i grandi progressi compiuti con riferimento alla sfera sociale, migliorando la propria *performance* di sostenibilità aziendale e di *leadership* nel settore.

I risultati raggiunti nel 2022, perseguiti con grande determinazione grazie alle nostre persone, oltre a renderci particolarmente soddisfatti del percorso intrapreso, rafforzano la nostra reputazione poiché evidenziano l'impegno concreto di Poste Italiane nella creazione di valore condiviso. Siamo consapevoli, inoltre, che è possibile affrontare le nuove sfide di sviluppo sostenibile solo attraverso un ascolto e dialogo costante rispetto alle esigenze dei nostri *stakeholder* e il perseguimento di obiettivi comuni.

Presentazione del Bilancio Integrato

PRINCIPALI
CAPITALI COLLEGATI

Il Bilancio Integrato del Gruppo Poste Italiane giunge quest'anno alla sua quinta edizione ed ha l'obiettivo di illustrare come la sostenibilità sia sempre più integrata nel modello di *business* e nelle strategie aziendali, fornendo una rappresentazione chiara ed esaustiva delle *performance* finanziarie, ambientali, sociali e di governance dell'Azienda.

Il Bilancio Integrato permette a Poste Italiane di rappresentare efficacemente l'interrelazione tra gli elementi di carattere finanziario e di sostenibilità che concorrono alla definizione del modello di *business* e della strategia di Gruppo, come contesto esterno, strategia, modello di *business* e forme di capitale finanziario e non finanziario. Il documento si pone come uno strumento utile agli *stakeholder* per comprendere in maniera completa quali sono i processi messi in atto dal Gruppo per supportare la crescita del Paese e creare valore condiviso, descrivendo i traguardi raggiunti ed offrendo al contempo una panoramica su ambizioni e obiettivi di breve, medio e lungo termine.

Gli impatti generati dal Gruppo a livello sociale e ambientale pongono il percorso di integrazione della sostenibilità nel modello di *business* al centro del processo di creazione di valore per l'Azienda e per tutti i suoi *stakeholder*, con l'obiettivo di contribuire al raggiungimento degli Obiettivi di Sviluppo Sostenibile delle Nazioni Unite. Il percor-

so intrapreso dal Gruppo è sostenuto da determinate scelte strategiche e di investimento nelle principali forme di capitale, quali finanziario, umano, fisico-strutturale, intellettuale, sociale-relazionale e naturale, ovvero *asset* da cui dipende il successo sostenibile dell'Azienda ma che dall'altro lato sono impattati dalle attività dell'impresa stessa. Per questo motivo, in continuità con gli anni precedenti, il documento presenta al suo interno una rappresentazione della correlazione tra le *performance* aziendali e i capitali sopraelencati, e per ognuno di essi vengono illustrati i risultati raggiunti nel Capitolo 2 "*Highlights*".

Poste Italiane, attraverso numerose progettualità in ambito ESG, ha l'obiettivo di guidare il percorso di sostenibilità del Paese, costruire una società inclusiva e offrire un futuro più verde. Attraverso il presente documento, il Gruppo mira a rappresentare la propria strategia *green*, volta a proseguire il percorso di ingresso nel mercato dell'energia, accelerando il processo di transizione energetica del *business*. Oltre alla proposizione di prodotti e offerte sostenibili, l'ingresso nel mercato energetico consente a Poste Italiane di avere un'ulteriore spinta nell'ingaggiare i Clienti e guidarli verso comportamenti consapevoli verso l'ambiente.

In continuità con la redazione del precedente Bilancio Integrato e coerentemente alle richieste normative, il Bilancio Integrato

2022 contiene la sezione dedicata alla Tassonomia ambientale europea, presente all'interno del Capitolo 9 "Dichiarazione Consolidata di carattere non Finanziario". A tale scopo, il Gruppo ha intrapreso un'attenta analisi delle proprie attività e del quadro normativo emanato dalle istituzioni europee ed ha elaborato uno specifico approccio metodologico finalizzato a fornire una *disclosure* adeguata. In linea con il Regolamento UE n.852/2020 (Regolamento Tassonomia), il Bilancio Integrato di Poste Italiane include una differenziata *disclosure* dei KPI disciplinati, in virtù della propria operatività industriale (*Non Financial Undertakings*) e finanziaria (*Financial Undertakings*); in relazione all'operatività industriale, il Gruppo ha effettuato un *assessment* al fine di identificare la propria quota di Fatturato, Capex e Opex allineata alla Tassonomia, mentre relativamente all'operatività finanziaria ha previsto – per il secondo anno di rendicontazione – la *disclosure* dei KPI ai sensi delle analisi di *Eligibility*, in linea con il Regolamento. Inoltre, all'interno del Capitolo 5 è descritta la metodologia adottata dal Gruppo per l'analisi di materialità, revisionata in ottica di conformità con le previsioni contenute nell'aggiornamento 2021 degli *standard* GRI per la prospettiva *inside-out*, e tenendo in considerazione i nuovi *standard* di *reporting* di sostenibilità dell'EFRAG, seppur ancora in *draft*, per la prospettiva *outside-in*. L'adozione del processo di doppia materialità per l'identificazione dei temi materiali di Poste Italiane consente al Gruppo di anticipare i tempi rispetto all'entrata in vigore della *Corporate Sustainability Reporting Directive*, prevista per il FY 2024. A tal proposito, il principale elemento di novità rispetto agli anni precedenti è rap-

presentato dall'aggiornamento del sistema di indicatori utilizzati per la rendicontazione delle *performance* ESG, in linea con i nuovi GRI *Universal Standard* 2021.

In continuità con gli anni precedenti, il Bilancio Integrato 2022 contiene al suo interno la Dichiarazione consolidata di carattere non finanziario, integrata nella Relazione sulla Gestione al Capitolo 9 dello stesso. La DNF è stata redatta in conformità a quanto richiesto dagli articoli 3 e 4 del D.Lgs. 254/2016 e ai "*Global Reporting Initiative Sustainability Reporting Standards*" definiti dal GRI – *Global Reporting Initiative* (di seguito "*GRI Standards*") secondo l'opzione "*in accordance*". Nel cap. 9, al paragrafo "Principi e criteri di *reporting*" è presente una tabella di raccordo che indica i contenuti informativi richiesti dal Decreto e il relativo posizionamento all'interno del Bilancio Integrato, con lo scopo di rendere più semplice rintracciare tutte le informazioni di carattere non finanziario. Inoltre, tali contenuti vengono anche segnalati, per renderli facilmente identificabili, dalla presente infografica:

Il quinto Bilancio Integrato del Gruppo è stato redatto applicando il *framework* per l'*Integrated Reporting* pubblicato dall'*International Integrated Reporting Council* (IIRC). Inoltre, Poste Italiane ha, altresì, fornito *disclosure* degli impatti derivanti dall'invasione russa in Ucraina che ESMA¹ ha richiesto agli emittenti di rendicontare nelle Relazioni finanziarie annuali e nelle Dichiarazioni di carattere non finanziario

1. Documento ESMA sulle priorità di vigilanza comuni europee 2022 «*European common enforcement priorities for 2022 annual financial reports*» pubblicato il 28 ottobre 2022.

2022. Oltre agli impatti del conflitto, ESMA identifica anche i temi legati al cambiamento climatico come prioritari nel report non finanziario per il 2022. A conferma dell'impegno di Poste Italiane nella lotta al cambiamento climatico, si segnala che a partire dal 2021 il Gruppo è entrato ufficialmente a far parte dei sostenitori della *Task Force on Climate-related Financial Disclosure*. Al fine di ampliare la *disclosure* del Gruppo circa la gestione dei rischi e delle opportunità legate al cambiamento climatico, nel presente documento sono infatti illustrate le modalità di gestione dei rischi e delle opportunità connesse alle attività del Gruppo secondo le raccomandazioni della TCFD, predisponendo inoltre una tabella di raccordo tra le raccomandazioni della TCFD e i contenuti del Bilancio Integrato. Infine, con l'obiettivo di riflettere i potenziali sviluppi futuri circa il cambiamento climatico, anche quest'anno Poste Italiane ha effettuato un riesame degli scenari climatici prendendo come riferimento i documenti redatti dalle organizzazioni *International Energy Agency (IEA)* e *Intergovernmental Panel on Climate Change (IPCC)* e la principale letteratura in tema.

In linea con gli anni precedenti, gli indicatori utilizzati per la redazione del Bilancio Integrato 2022 sono stati riclassificati secondo gli *standard SASB (Sustainability Accounting Standards Board)*, con l'obiettivo di contribuire allo sviluppo di un *framework* condiviso e universale per quanto riguarda la rendicontazione non finanziaria. In tal senso, sono stati riportati anche quest'anno gli indicatori relativi ai "*material ESG metrics*" presenti nell'ultima versione, di settembre 2020, del documento "*Towards Common Metrics and Consistent Reporting of Sustainable Value*

Creation" presentato nel gennaio dello stesso anno al *World Economic Forum*. Attraverso l'aggiornamento continuo della propria metodologia di rendicontazione non finanziaria, il Gruppo Poste Italiane dimostra il suo impegno nei confronti delle richieste del mercato finanziario, sempre più focalizzato sulla valutazione delle imprese secondo criteri ambientali, sociali e di *governance*.

All'interno del documento è inoltre presente una tabella di raccordo tra gli obiettivi perseguiti dal Gruppo, gli indicatori GRI *Standards* e gli SDGs, che rappresenta uno strumento utile ad illustrare come l'Azienda contribuisce al raggiungimento dei 17 Obiettivi di Sviluppo Sostenibile delle Nazioni Unite e i relativi 169 *target*, recependo altresì le ultime indicazioni contenute nell'ultima versione del documento "SDG Compass" redatto da GRI, UN Global Compact e WBCSD (*World Business Council for Sustainable Development*).

Oltre al Bilancio Integrato, la Relazione Finanziaria Annuale è composta dai seguenti documenti: il Bilancio consolidato del Gruppo Poste Italiane, il Bilancio separato di Poste Italiane comprensivo del Rendiconto separato del Patrimonio BancoPosta, le connesse attestazioni ai sensi dell'art.154-bis comma 5 del D.Lgs. 58/1998 e le relazioni del Collegio Sindacale e della Società di Revisione, riferiti all'esercizio chiuso al 31 dicembre 2022, e la Relazione sul Governo Societario e gli assetti proprietari pubblicata sul sito internet della Società, nella sezione *Governance*, da considerare parte integrante e alla quale si rimanda per ulteriori approfondimenti sugli assetti di *Corporate Governancè*.

La presente Relazione Finanziaria Annuale, approvata dal Consiglio di Amministrazione di Poste Italiane S.p.A. in data 29 marzo 2023, sarà resa disponibile al pubbli-

co entro i termini previsti dalla normativa vigente (ossia, entro il 30 aprile 2023) sulla seguente pagina *web*: <https://www.posteitaliane.it/it/bilanci-e-relazioni.html#/>

2.2 Gli impatti generati da Poste Italiane

PRINCIPALI
CAPITALI COLLEGATI

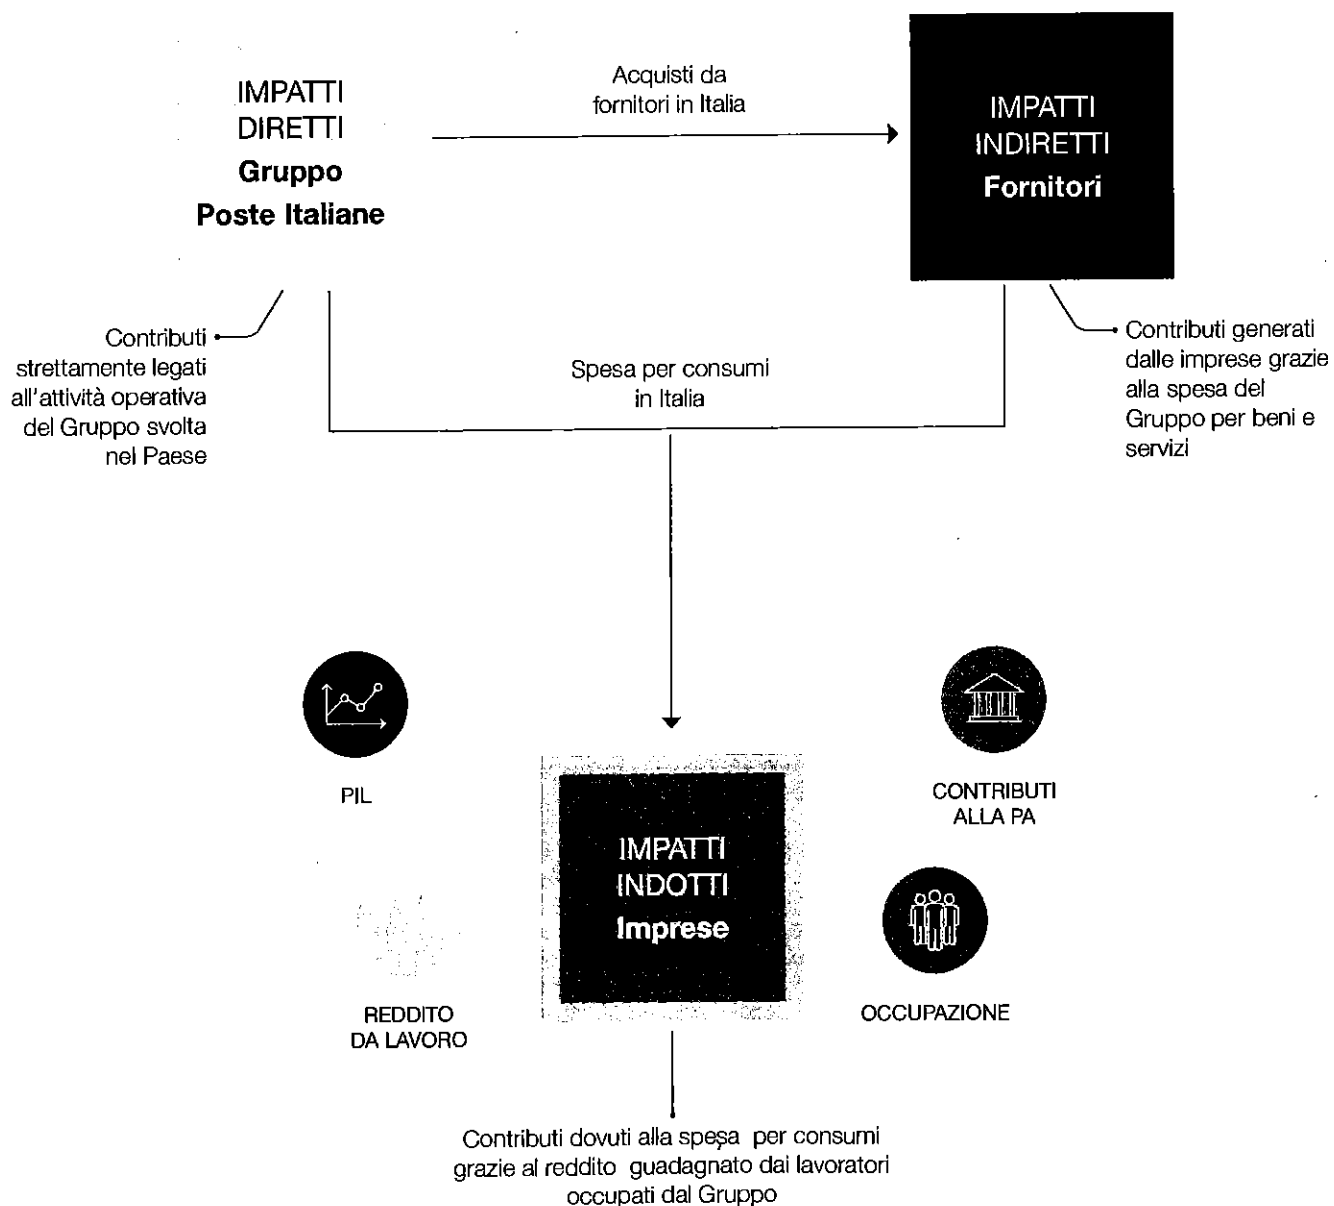

Attraverso il ruolo di *leadership* ricoperto nel settore logistica, finanziario, assicurativo e dei servizi di pagamento, Poste Italiane ricopre una funzione di primaria importanza nella creazione di valore economico sia per gli *stakeholder* direttamente impattati dall'attività d'impresa che per l'intero Sistema Paese.

In particolare, l'attività svolta da Poste Italiane permette di generare impatti su PIL, reddito da lavoro, occupazione e contributi alle PA. Gli impatti si possono distinguere in:

- **Impatti diretti:** impatti generati dall'attività operativa svolta direttamente da Poste Italiane;
- **Impatti indiretti:** impatti generati lungo la catena di fornitura grazie alla spesa per beni e servizi (3,2 miliardi di euro nel 2022) che Poste Italiane effettua nei confronti di fornitori italiani;
- **Impatti indotti:** impatti generati dalla spesa per consumi che si realizza grazie al reddito guadagnato dai lavoratori occupati direttamente e indirettamente dal Gruppo.

Il Gruppo Poste Italiane nel 2022 ha generato impatti sul Paese in termini di Prodotto Interno Lordo (PIL) per un valore complessivo di 12,9 miliardi di euro e, sostenendo un totale di circa 181 mila posti di lavoro, ha contribuito alle entrate della Pubblica Amministrazione con circa 2,1 miliardi di euro in termini di gettito fiscale. Inoltre, è possibile stimare che Poste Italiane abbia contribuito direttamente e indirettamente alla distribuzione di redditi ai lavoratori, per un totale di 7 miliardi di euro.

Il lavoro e l'impegno quotidiano delle singole persone del Gruppo contribuisce alla creazione di valore da parte di Poste Italiane. A tal proposito, nel corso del 2022, ogni persona di Poste Italiane ha contribuito alla creazione di impatti economici per il territorio pari a 107 mila € di PIL, 58 mila € di reddito per le famiglie, 11,6 mila € di contributi fiscali e all'occupazione di 1,5 persone.

OCCUPAZIONE

Di seguito si riportano due focus sull'area dei fornitori di Poste Italiane, rispettivamente gli impatti generati dai fornitori italiani nelle singole Aree Territoriali e i contributi indiretti originati dai fornitori PMI italiane.

Impatti generati nelle singole Aree Territoriali nel 2022

Considerando la regione della sede legale dei fornitori, sono stati identificati gli impatti indiretti generati dagli stessi in ciascuna Area Territoriale nel 2022.

In riferimento alle varie zone esaminate, si riscontrano valori di Prodotto Interno Lordo compresi tra i 70 milioni e un miliardo di euro. Da ciò risulta un livello occupazionale non minore a 1.500 persone e un reddito da lavoro compreso tra i 45 e i 490 milioni di euro circa.

Impatti dei fornitori italiani PMI

Considerando i parametri definiti dalla Commissione Europea, sono stati identificati i fornitori italiani che si caratterizzano come Piccole e Medie Imprese (PMI) e gli impatti indiretti a questi riconducibili.

Nel 2022, le PMI hanno impattato sul livello del Prodotto Interno Lordo per un valore pari a 1,1 miliardi di euro, portando all'occupazione di 17.000 persone e ad una distribuzione di reddito di 527 milioni di euro. Infine, sono stati creati oltre 340 milioni di euro in termini di gettito fiscale.

Il valore economico generato e distribuito dal Gruppo Poste Italiane

Poste Italiane fornisce, inoltre, un quadro del valore economico generato e distribuito dall'Azienda ai propri *stakeholder* quali fornitori, dipendenti, finanziatori, comunità, Pubblica Amministrazione e azionisti. Tale valore rappresenta la ricchezza prodotta dall'Azienda e il relativo impatto sulle principali categorie di *stakeholder*, in conformità ai requisiti dello *standard* di rendicontazione 201-1 dei GRI *Standards*.

Nell'esercizio 2022, oltre l'84% della ricchezza aziendale prodotta è stata distribuita ai propri *stakeholder*; in particolare, dipendenti e fornitori rientrano tra le categorie di *stakeholder* che beneficiano maggiormente della ricchezza prodotta dall'Azienda, rispettivamente per il 51,65% e il 29,91% del valore distribuito totale.

Il valore economico creato nel 2022 ammonta a oltre **11,9 miliardi di euro**, di cui l'**84%** circa **distribuito** agli *stakeholder*

2.3 Creare valore condiviso per il raggiungimento degli SDGs DNF

Poste Italiane è parte integrante del sistema economico, sociale e produttivo del Paese, in quanto realtà unica in Italia per dimensioni, riconoscibilità e capillarità. Le attività dell'Azienda generano quindi impatti significativi su tutto il territorio, anche in ottica di raggiungimento degli Obiettivi di Sviluppo Sostenibile (SDGs).

La seguente rappresentazione mette in risalto la correlazione tra gli *outcome* del modello di *business* di Poste Italiane e i «social need» del territorio italiano, identificati attraverso l'analisi della quinta edizione del Rapporto SDGs (2022) elaborata dall'ISTAT. La rappresentazione fornisce una descrizione dell'impatto del Gruppo sugli SDGs delle Nazioni Unite.

Goal 1: sradicare la povertà in tutte le sue forme e ovunque nel mondo

Italia

- Nel 2021, circa 5,6 milioni di individui (9,4%) sono in condizioni di **povertà assoluta**. - Gran parte dell'eccesso del 2021 è dovuto al **Covid-19** ed è stato osservato nel primo quadrimestre, quando la copertura vaccinale era molto bassa.
- La **pandemia** e le misure per contenerla continuano a influenzare l'andamento della **mobilità e dell'incidentalità stradale** anche nel 2021.
- Il perdurare dell'emergenza sanitaria ha portato i cittadini a rinunciare a molte **prestazioni sanitarie**: l'11% ha desistito per problemi economici o per difficoltà di accesso al servizio e per gli **effetti della pandemia** (erano il 9,6% nel 2020 e il 6,3% nel 2019).

- Nel 2021, la **rappresentanza femminile italiana al Parlamento europeo** è pari al 39,5% (+0,5 p.p. rispetto alla media Ue27). In lieve aumento nel 2021 la quota di donne elette nei Consigli regionali.
- Alla fine del 2021, l'Italia occupa la seconda posizione (38,8%) dopo la Francia (45,3%) per **presenza femminile nei CdA** e nei ruoli di alta dirigenza delle grandi società quotate in borsa. 3. Evoluzione prevedibile della gestione

Dall'inizio dell'anno 2022 l'attività economica globale ha mostrato segnali progressivi di rallentamento correlati, inizialmente, alla diffusione delle varianti del Covid-19 e, successivamente, allo scoppio del conflitto russo-ucraino nel mese di febbraio. L'instabilità della situazione geopolitica è proseguita nel corso dell'anno accompagnata dalla crisi energetica, in gran parte conseguenza del conflitto, e da pressioni sulle catene di approvvigionamento; tali fattori hanno comportato un'escalation dei prezzi dell'energia e la loro trasmissione a quelli degli altri beni e servizi. A ciò si è aggiunto nel periodo il ripetuto rialzo dei tassi di interesse deciso dalle principali banche centrali per mitigare la crescita dell'inflazione. Tale contesto ha provocato una crescente incertezza sulle prospettive economiche, con inevitabili rischi di deterioramento dello scenario macroeconomico per il 2023.

In tale contesto, il Gruppo Poste Italiane ha realizzato nel 2022 risultati finanziari record, in linea con la *upgraded guidance* comunicata alla "comunità finanziaria" a novembre 2022, che hanno consentito di incrementare il dividendo riconosciuto agli azionisti per l'anno 2022 (DPS a €0,650, +10% a/a rispetto al +7% a/a previsto dalla *dividend policy*). Il Gruppo Poste Italiane, oltre a contraddistinguersi per una struttura di *business* diversificata che consente di beneficiare di un costante effetto di fisiologico bilanciamento tra i *trend* che interessano i suoi *business*, ha storicamente dimostrato resilienza nei momenti di incertezza economica e turbolenza finanziaria, affermandosi anzi come un "porto sicuro" per i risparmiatori, grazie a un portafoglio di offerta finanziaria caratterizzato da prodotti con ridotta esposizione al rischio e volatilità. Al riguardo, si evidenzia che il Gruppo ha esposizioni trascurabili verso gli istituti di credito recentemente coinvolti in situazioni di dissesto finanziario. La struttura dei costi del Gruppo è flessibile, con una significativa componente di costi variabili correlata ai ricavi; il Gruppo si approvvigiona e compete principalmente nell'ambito del mercato domestico, non ha unità produttive dislocate nei paesi colpiti dal conflitto russo-ucraino, o limitrofi, e ha trascurabili rapporti commerciali con tali Paesi; pertanto, non ha ripercussioni dirette che potrebbero comportare impatti significativi sui propri *business* o ricadute di rilievo sulla propria redditività. Il Gruppo beneficia infine degli effetti di azioni poste in essere in momenti di mercato favorevoli, finalizzate a mitigare le oscillazioni di prezzo dei fattori produttivi ovvero operazioni di copertura dal rischio di oscillazione dei prezzi del carburante e delle forniture di gas ed energia. Il Contratto Collettivo Nazionale del Lavoro è in corso di validità fino alla fine del 2023.

Il 30 marzo 2023 è stato presentato alla comunità finanziaria l'aggiornamento della strategia per l'anno in corso rivedendo le prospettive delle diverse *Strategic Business Unit*. Confermato l'obiettivo di configurare Poste Italiane quale azienda piattaforma che evolve verso un modello di *business* diversificato e integrato per offrire agli italiani un punto di accesso unico e omnicanale per una gamma sempre più ampia di prodotti/servizi.

Nella *Strategic Business Unit* Corrispondenza, Pacchi e Distribuzione: dopo un 2022 di sostanziale stabilità nel comparto dei pacchi e della logistica, si prevede il ritorno ad un percorso di crescita, comunque condizionato dall'incertezza delle variabili macroeconomiche di riferimento. In tale scenario il Gruppo mira ad accelerare il percorso di trasformazione verso un "operatore logistico a 360 gradi": rientrano in tale strategia l'acquisizione di Plurima, volta a entrare nel settore specifico della logistica ospedaliera, il rinnovo della *partnership* con Amazon per 5 anni e la recente *partnership* con DHL (annunciata il 10 marzo 2023) che conferma l'impegno del Gruppo nello sviluppo del *business* internazionale. La SBU, nel comparto della corrispondenza, continuerà ad adeguare la propria offerta e le proprie tariffe, gestendo lo strutturale declino legato al *mail* per l'*e-substitution*.

Nella *Strategic Business Unit* Servizi Finanziari il Risparmio Postale rimarrà al centro dell'offerta di servizi finanziari del Gruppo, disponendo di una proposizione commerciale rinnovata e competitiva, confermandosi uno strumento semplice e trasparente per i risparmiatori; al tempo stesso il margine di interesse continuerà a contribuire ai ricavi supportato da tassi superiori in un mutato contesto macro.

La *Strategic Business Unit* Servizi Assicurativi conferma la sua rilevanza nella profittabilità del gruppo anche a seguito dell'implementazione del principio contabile IFRS17, con il riconoscimento di un *Contractual Service Margin* (CSM) in transizione pari a circa 11 miliardi di euro che supporterà una profittabilità sostenibile nel tempo. Il Gruppo fa leva sulla posizione di *leadership* nel comparto Vita e mira a sviluppare il comparto Danni con un'offerta integrata modulare composta da soluzioni personalizzate di protezione, assistenza e servizi. L'acquisizione di Net Insurance, che si perfezionerà nel corso del secondo trimestre, contribuirà ad accelerare la crescita e la redditività del *business* della protezione.

Con riferimento alla *Strategic Business Unit* Pagamenti e Mobile, l'acquisizione della società LIS, leader nei pagamenti di prossimità, garantirà un'accelerazione della strategia omnicanale del Gruppo, con lo sviluppo di nuovi servizi e facendo leva sulla complementarietà della rete del tabaccai con gli Uffici Postali e i canali digitali. Inoltre, a partire da gennaio 2023 è stata lanciata sul mercato la nuova offerta di Poste Energia per luce e gas, ora disponibile sui canali digitali web e app, con oltre 150 mila contratti

sottoscritti a fine marzo. L'offerta è esemplare della chiarezza della proposizione commerciale e semplicità d'uso dei servizi di Poste Italiane, garantendo una esclusiva esperienza omnicanale dei clienti.

Proseguirà l'impegno per la *digital transformation* del Gruppo con il supporto ai cittadini, alle imprese e alla PA nel processo di digitalizzazione, Poste Italiane conferma il proprio ruolo di pilastro strategico connettendo in maniera effettiva ed efficace il Paese. La recente acquisizione di Sourcesense, operante nello sviluppo di soluzioni *cloud-native* basate su tecnologia *open source*, mira a accelerare la *digital transformation* del Gruppo con l'internalizzazione di competenze chiave a supporto di una piattaforma operativa all'avanguardia, mentre attraverso l'acquisizione di Agile Lab, il Gruppo rafforzerà la propria presenza nella moderna "industria dei dati", potenziando le proprie capacità di costruire attività "data-driven" per l'utilizzo interno e per il mercato.

Nell'ambito del Piano Nazionale di Ripresa e Resilienza, il Gruppo investirà significative risorse nella realizzazione di 'Polis', progetto strategico a supporto della coesione sociale del Paese con particolare riferimento a circa 7.000 comuni con una popolazione inferiore ai 15 mila abitanti divenendo casa dei servizi digitali della pubblica amministrazione. È inoltre prevista la realizzazione di circa 250 spazi di *coworking* a livello nazionale e l'implementazione di numerose iniziative a supporto della transizione energetica del Paese.

Nel percorso di transizione intrapreso verso la *carbon neutrality* entro il 2030, proseguiranno gli investimenti e le iniziative strategiche, quali il rinnovo della flotta di recapito con mezzi a basse emissioni, l'installazione di pannelli fotovoltaici per l'approvvigionamento energetico, l'ammodernamento della flotta con veicoli a bassa emissione di CO₂ e l'efficientamento degli immobili; continuerà inoltre la sostituzione delle attuali carte Postepay con carte realizzate con materiali ecosostenibili e con carte digitali, nonché lo sviluppo di specifiche offerte volte a valorizzare i comportamenti sostenibili dei clienti.

e *warrant*

In data 28 settembre 2022 il CdA di Poste Vita ha approvato la promozione di un'OPA volontaria totalitaria per cassa su azioni ordinarie e *warrant* di **Net Insurance S.p.A.** ("Net Insurance"), di concerto con alcuni azionisti. Il corrispettivo che è stato offerto per ciascuna azione è pari a 9,50 euro (corrispondente a un premio del 28% sulla media ponderata dei prezzi ufficiali giornalieri di Borsa Italiana dell'ultimo mese) e il corrispettivo che è stato offerto per ciascun *warrant* è pari a 4,81 euro (corrispondente ad un premio del 60% sulla media ponderata dei prezzi ufficiali giornalieri di Borsa Italiana dell'ultimo mese).

Net Insurance, società con azioni scambiate sul mercato regolamentato denominato Euronext STAR Milan ("ESM") organizzato e gestito da Borsa Italiana S.p.A., è una compagnia assicurativa la cui offerta è dedicata alle coperture assicurative connesse al mondo del credito e, in particolare, dei prestiti assistiti dalla cessione del quinto dello stipendio o della pensione ("CQ"), alla protezione e all'*insurtech*⁷, grazie ad accordi con *partner* tecnologici.

L'operazione è finalizzata all'acquisto del controllo di Net Insurance da parte del gruppo assicurativo che fa capo a Poste Vita e consentirà allo stesso, di conseguire una significativa crescita nel segmento assicurativo danni/protezione. Nello specifico, Poste Vita intende individuare Net Insurance come: (i) "centro di competenza" del gruppo assicurativo per i prodotti assicurativi legati alla Cessione del Quinto e (ii) fabbrica prodotto di riferimento con riguardo alla distribuzione di prodotti assicurativi su reti terze, con particolare riferimento alle reti bancarie.

L'operazione, inoltre, è volta a realizzare una *partnership* strategica e commerciale di lungo periodo con IBL Banca S.p.A. La fusione si pone nell'ottica di una riorganizzazione societaria che permetterà a Poste Italiane di detenere direttamente azioni della società quotata NEXI S.p.A., semplificando in tal modo la struttura societaria del Gruppo.

Sempre a tal fine, in data 29 settembre 2022, è stata approvata la **fusione inversa di Plurima Bidco S.r.l. in Plurima** dalle assemblee delle due società. L'operazione, che ha previsto l'applicazione delle semplificazioni previste dalla normativa per le operazioni di fusione di società interamente possedute, è divenuta efficace con decorrenza 1° gennaio 2023.

4.4.1 Strategia omnicanale DNF

La **trasformazione digitale** intrapresa da Poste Italiane negli ultimi anni ha coinvolto non solo la propria offerta, ma anche il modello di distribuzione che, attraverso una strategia omnicanale, consente all'Azienda di erogare i servizi in modalità coerente con i mutati bisogni della clientela.

I canali digitali, e più in generale i canali remoti, supportano ogni giorno il canale fisico, asset storico di Poste Italiane, nella gestione della relazione con il cliente. Nel 2022 la piattaforma di interazione omnicanale di Poste Italiane ha raggiunto più di 20 milioni di interazioni al giorno.

La pandemia ha favorito l'accelerazione del passaggio al nuovo modello operativo permettendo all'Azienda di rispondere rapidamente ai cambiamenti intervenuti nel mercato, facendo leva sulle proprie piattaforme digitali – che sfruttano le opportunità derivanti dall'innovazione tecnologica per creare nuovi prodotti e servizi personalizzati – e sull'apertura di ulteriori canali di comunicazione con i propri clienti.

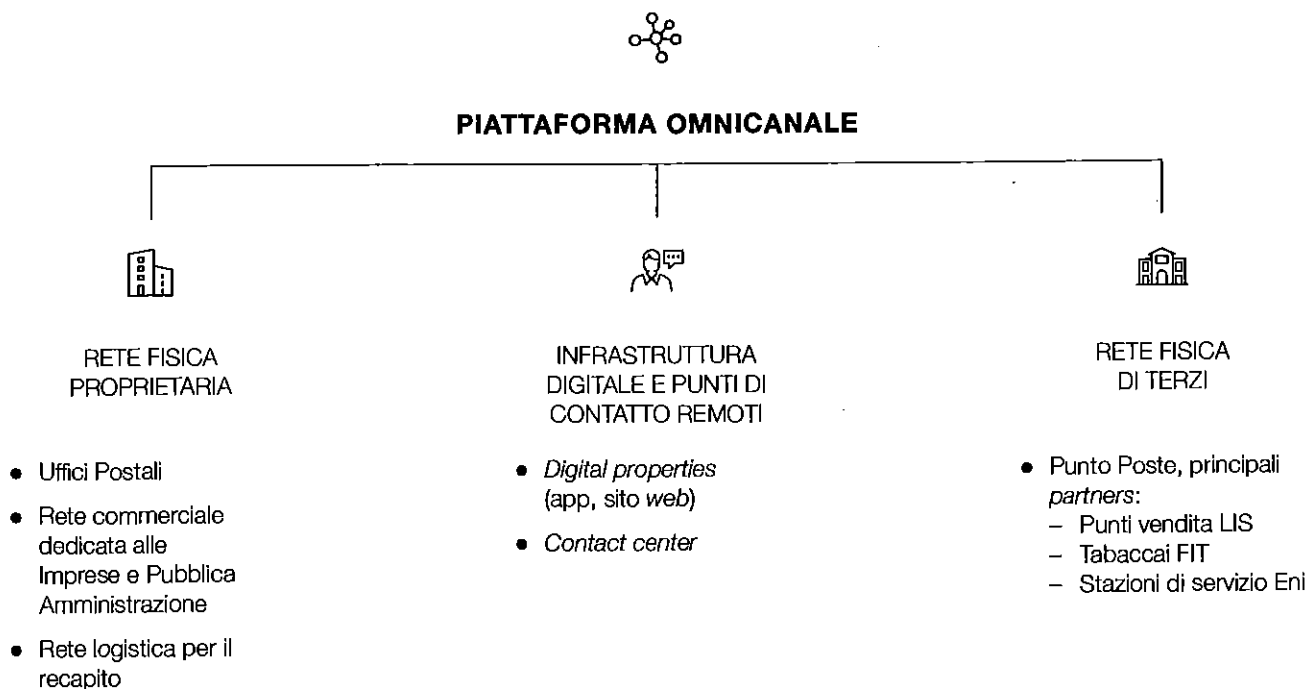

La piattaforma multicanale integrata del Gruppo prevede il presidio della clientela e l'erogazione dei servizi attraverso **3 canali**:

- **la rete fisica proprietaria:** è composta dagli Uffici Postali, dalla forza vendita sulla clientela *business* e dalla rete logistica per il recapito della corrispondenza e dei pacchi;
- **un'infrastruttura digitale e punti di contatto remoti:** costituita da tutte le **digital properties**  del Gruppo e dal *contact center*, in grado di servire l'intera popolazione nazionale;
- **la rete fisica di terzi:** costituita da circa 58 mila punti, frutto di accordi commerciali di *partnership* per la commercializzazione di prodotti e servizi del Gruppo gestiti anche attraverso la recente acquisizione della società LIS. 4.4.1.3 La rete logistica

I servizi di corrispondenza e pacchi del Gruppo sono erogati attraverso due *network* logistici integrati e sinergici fra loro: il **network della rete logistica postale** per la gestione della corrispondenza, oggi evoluto per permettere anche la gestione dei pacchi di piccole dimensioni, e il **network della logistica dei pacchi** per la gestione di tutte le tipologie di pacchi.

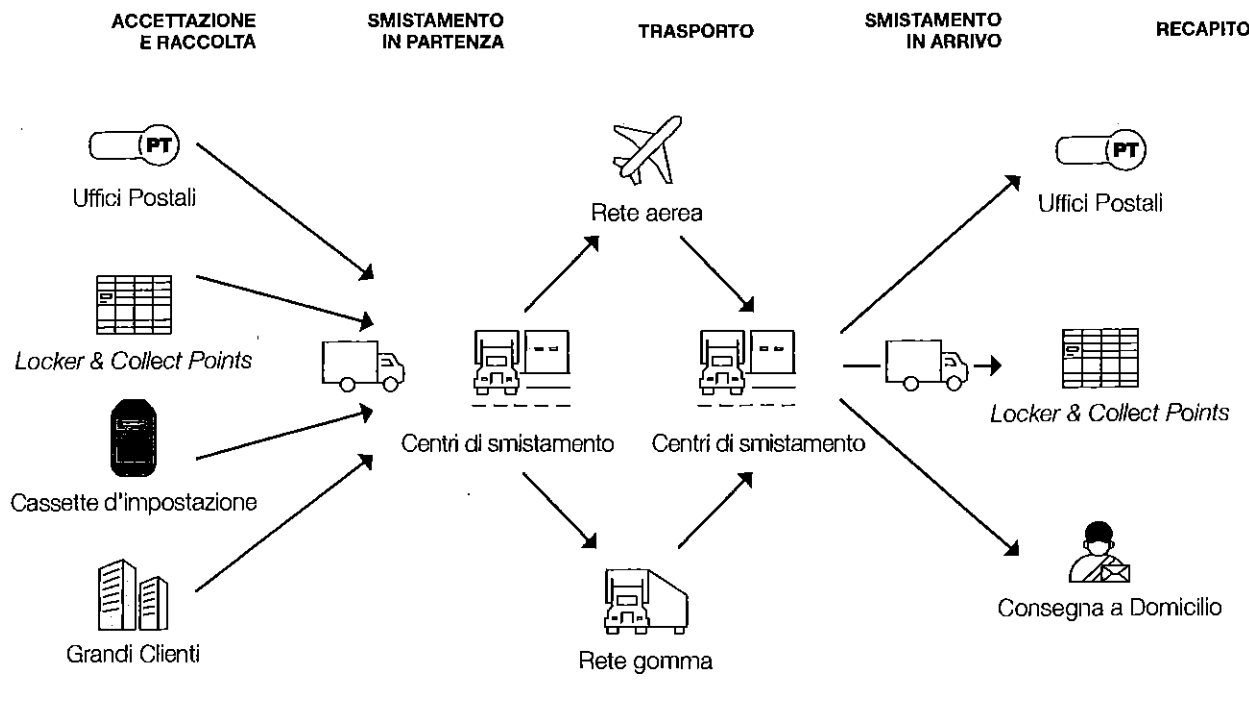

L'integrazione tra i due *network* è stata rafforzata già dal 2020 attraverso l'incremento dell'interscambio dei volumi dei pacchi di piccole dimensioni (c.d. "portalettabili" ovvero al di sotto dei 5 chilogrammi), utilizzando come discriminante l'efficienza economica. Il recapito di tali prodotti sul territorio italiano può essere effettuato in maniera indistinta dalla rete logistica postale e dalla rete logistica dei pacchi secondo un approccio dinamico, finalizzato a massimizzare l'efficienza per singola area territoriale.

Attività della rete logistica postale

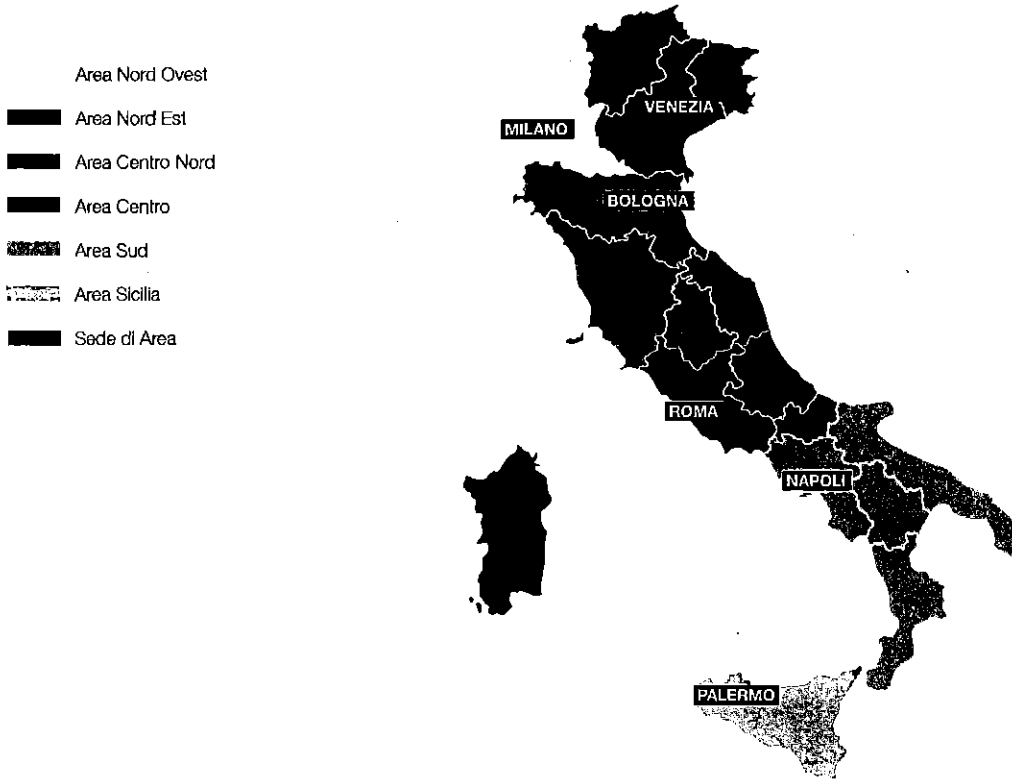

La rete logistica postale accetta, smista e recapita i prodotti di corrispondenza e i pacchi di piccole dimensioni (portalettabili). La rappresentazione che segue mostra in sintesi la catena del valore del processo logistico postale e i principali driver quantitativi.

ELEMENTI PRINCIPALI DELLA RETE LOGISTICA POSTALE

Il modello di governo della rete logistica postale è strutturato su 6 Macro Aree Logistiche coordinate centralmente che gestiscono tutte le fasi della catena del valore: accettazione e raccolta, smistamento in partenza, trasporto, smistamento in arrivo e recapito. Tale modello permette al contempo di avere una gestione unica su tutto il territorio e di poterla declinare secondo ciascuna realtà specifica con interventi mirati.

L'evoluzione dell'organico dell'anno 2022, rappresentato nella tabella che segue, riflette un andamento in linea o in riduzione, rispetto al precedente esercizio, in tutti gli ambiti organizzativi.

4.4.1.4 Infrastruttura digitale e punti di contatto remoti – web, app e Contact Center

A supporto della trasformazione digitale del Gruppo è stato implementato un motore tecnologico, basato su **cloud**  ibrido, **API**  aperte e tecnologie esponenziali¹⁰, applicato a tutte le attività e infrastrutture IT del Gruppo. Il Gruppo ha posto in essere un programma di trasformazione digitale di tutti i suoi modelli di servizio e di offerta, al fine di garantire ai propri clienti esperienze di contatto in logica *full digital*. Tale programma ha subito una decisa accelerazione a partire dal 2021, in considerazione degli effetti dell'emergenza sanitaria da Covid-19, per rendere disponibile alla clientela un'ampia accessibilità ai prodotti del Gruppo in condizioni di assoluta sicurezza.

Le **Digital Properties** del Gruppo sono le seguenti:

-  **sito web poste.it:** Poste.it è il portale consumer e *business* del Gruppo, dove sono disponibili le gamme di servizi offerti alla clientela. Il portale consente ai clienti anche di consultare e gestire i prodotti in possesso.
-  **app Postepay:** app per acquistare e gestire le carte di pagamento Postepay, i prodotti telco e l'offerta Energia; è possibile effettuare tramite app pagamenti anche in mobilità.
-  **app BancoPosta:** app per acquistare e gestire in mobilità l'offerta finanziaria/assicurativa del Gruppo: conti, Risparmio Postale e polizze assicurative.
-  **app Ufficio Postale:** app che consente di individuare l'Ufficio Postale e prenotare l'appuntamento riducendo i tempi di attesa. Tramite l'app è possibile verificare lo stato di una spedizione, prenotare il ritiro in Ufficio Postale o spedire pacchi o corrispondenza.
- ID** **app PosteID:** app dell'Identità Digitale di Poste Italiane (SPID – Sistema Pubblico d'Identità Digitale).

Nel corso del periodo il Gruppo ha lavorato per il rafforzamento del canale di vendita digitale, ampliando la gamma di prodotti e servizi acquistabili direttamente attraverso le *digital properties*.

Tra le principali tecnologie esponenziali possiamo citare Intelligenza Artificiale e Data Science, Internet of Things, Virtual & Augmented Reality.

I canali digitali *web* e *app* di Poste Italiane costituiscono il punto di accesso ai servizi *online* per 36,8 milioni di utenti *retail* (33,8 milioni al 31 dicembre 2021) e si posizionano sia come canali di vendita diretta che di post vendita. Il 68% delle interazioni di Poste Italiane e il 36% delle operazioni sono gestite ogni giorno tramite canali remoti (in particolare circa il 20% da canali digitali). La media giornaliera degli utenti *web* e *app* per il 2022 è stata di 5,8 milioni (4,3 milioni gli utenti medi giornalieri nel 2021). In aumento anche le transazioni del canale digitale, che nel 2022 sono state pari a 152,6 milioni per un valore transato di 40,3 miliardi di euro (124,7 milioni di transazioni nel 2021 per un valore transato di 32,7 miliardi di euro).

4.4.1.5 Rete fisica di terzi

Nella strategia omnicanale del Gruppo un ruolo cruciale è rappresentato dalle reti terze che sono state potenziate per garantire alla clientela di Poste Italiane una valida alternativa agli uffici postali per l'accesso ai servizi transazionali. L'obiettivo è quello di creare una piattaforma per l'integrazione dei prodotti del Gruppo con i canali di distribuzione di terzi e per l'utilizzo dei servizi di terze parti all'interno delle offerte commerciali del Gruppo, introducendo anche servizi innovativi ad elevato valore aggiunto. Poste Italiane ha convenzionato un'ampia rete di punti di contatto, ulteriormente potenziata nel corso dell'anno con l'acquisizione di LIS, che conta al 31 dicembre 2022, 58 mila punti di contatto.

L'acquisizione di LIS, avvenuta nel mese di settembre 2022, ha consentito di aumentare l'operatività della piattaforma omnicanale, incrementando di circa 0,6 milioni le interazioni medie giornaliere con i clienti.

In particolare, l'operatività è aumentata significativamente sul canale delle reti terze, che è stato integrato dei nuovi prodotti gestiti in seguito all'operazione di acquisizione (ricariche telefoniche di altri operatori, pagoPA e altri servizi), raggiungendo circa un milione di operazioni medie giornaliere (+161% rispetto al 2021), di cui LIS rappresenta circa l'88%.

L'importanza in ottica omnicanale della rete di prossimità è confermata dalla significativa crescita della gestione pacchi (accettazione e consegna) sulle reti terze, che con 17,2 milioni di pacchi gestiti nel 2022 registra una crescita del 173% rispetto al 2021.

Nel corso dell'anno 2022 la Rete Punto Poste¹¹ si è ampliata con l'entrata di oltre 1.600 nuovi punti. Al 31 dicembre 2022 la Rete Punto Poste conta oltre 15.000 punti di contatto.

Contesto macroeconomico

Nel corso del 2022 l'economia mondiale è stata condizionata dalle ripercussioni dell'invasione ucraina da parte della Russia e dalle nuove misure di *lockdown* adottate in Cina fino al mese di novembre, in risposta alla nuova ondata di Covid-19. Lo scoppio del conflitto russo-ucraino ha esercitato pressioni sulle catene mondiali di approvvigionamento e sui mercati delle materie prime alimentando dinamiche inflazionistiche su scala globale.

Nelle principali economie avanzate il rallentamento dell'attività economica nel 2022 è riconducibile all'indebolimento della domanda e all'avvio di un ciclo di inasprimento delle politiche monetarie restrittive adottate dalle principali banche centrali, per contrastare l'aumento delle pressioni inflazionistiche.

L'allentamento delle restrizioni connesse alla pandemia e delle strozzature dal lato dell'offerta, a partire dalla primavera, hanno sostenuto l'attività fino al terzo trimestre, ma negli ultimi mesi si è acuita l'incertezza tra gli operatori economici e gli indicatori congiunturali segnalano un peggioramento della fase ciclica.

Il Fondo Monetario Internazionale stima¹² che il prodotto mondiale decelererà nel corso del 2023 al 2,9% (dal 3,4% del 2022). Il rallentamento sarà più marcato nell'area dell'euro, per la quale il Fondo stima una crescita pari allo 0,7% nel 2023. La stima della Commissione Europea nel mese di novembre è di appena lo 0,3%.

La dinamica dell'economia globale, già caratterizzata da aree in rallentamento, se non in contrazione, dipenderà nei prossimi mesi in modo rilevante da una calibrazione efficace della politica monetaria, dall'evoluzione del conflitto e dall'emergere di eventuali nuove strozzature di offerta, legate alle nuove ondate pandemiche presenti in Cina.

L'inflazione ha continuato nel corso dell'anno a mantenersi a livelli elevati; a novembre 2022, nell'area dell'euro, l'inflazione ha raggiunto il 10% e la BCE ritiene che si manterrà su un livello superiore all'obiettivo del 2% per un prolungato periodo di tempo. Il Consiglio direttivo nella riunione di dicembre 2022 ha innalzato di 50 punti base i tre tassi di interesse di riferimento¹³, per la quarta volta consecutiva, abbandonando definitivamente l'orientamento accomodante della politica monetaria mantenuto nel periodo pandemico.

+3,7%
La crescita del PIL italiano del 2022

Nel mese di luglio 2022 la BCE ha annunciato il *Transmission Protection Instrument* (TPI), uno strumento che consentirà di sostenere una trasmissione efficace della politica monetaria in tutti i Paesi dell'Eurozona, sempre per adempiere all'obiettivo primario di garantire la stabilità dei prezzi.

L'economia italiana, dopo la profonda recessione del 2020 ha registrato una vigorosa ripresa, con sette trimestri consecutivi di crescita superiore alle aspettative, la quale nel terzo trimestre 2022 ha portato il PIL a superare di 0,5 punti percentuali il livello del trimestre precedente e del 2,6% il livello del terzo trimestre 2021, grazie all'aumento dei consumi di servizi e beni durevoli e all'andamento ancora molto favorevole degli investimenti in beni strumentali¹⁴. Nel quarto trimestre del 2022 il prodotto interno

12. *World Economic Outlook Update* – gennaio 2023.
13. Il tasso di interesse sulle operazioni di rifinanziamento principali, sulle operazioni di rifinanziamento marginale e sui depositi presso la banca centrale sono stati innalzati rispettivamente al 2,50%, al 2,75% e al 2,00%, con effetto dal 21 dicembre 2022.
14. ISTAT – Conti Economici Trimestrali – III Trimestre 2022.

lordo è diminuito dello 0,1% rispetto al trimestre precedente e cresciuto dell'1,4% rispetto al quarto trimestre del 2021¹⁵, consolidando una crescita per il 2022 che rimane sostenuta al 3,7% nell'intero anno.

Il tasso di disoccupazione è sceso di oltre un punto percentuale nel corso dell'anno e si è mantenuto stabile nell'ultimo trimestre 2022 al 7,8%¹⁶.

A ottobre e novembre 2022, l'inflazione armonizzata ha toccato un picco del 12,6% dal 9,4% registrato a settembre attestandosi a dicembre al 12,3% a/a, con una media annua dell'8,7%.

Nella Nota di aggiornamento al DEF¹⁷, approvata dal Consiglio dei Ministri nel mese di dicembre, il Governo ha rivisto al rialzo il sentiero del deflatore¹⁸ dei consumi delle famiglie e quello del PIL. Rivista al rialzo per il 2022 anche la crescita, con un livello tendenziale del Prodotto Interno Lordo (PIL) che aumenta al 3,7% rispetto al 3,3% programmato dal DEF nel mese di settembre. Per contro, la previsione per il 2023 scende in misura sostanziale, dal 2,4% allo 0,4%.

Le entrate tributarie e contributive nei primi otto mesi del 2022 sono state superiori alle attese, nonostante le imponenti misure di mitigazione del costo dell'energia. A seguito del cambiamento introdotto nel trattamento contabile dei crediti di imposta da parte dell'ISTAT, l'indebitamento netto delle Amministrazioni Pubbliche per il 2022¹⁹ in rapporto al PIL, pari all'8,0% del PIL, è aumentato rispetto alle previsioni del Governo (5,1% del PIL). Secondo le nuove proiezioni²⁰ l'elevata crescita nominale dell'economia prevista per quest'anno ed il miglioramento del saldo primario porteranno a una discesa del rapporto tra debito lordo e PIL più accentuata rispetto a quanto previsto nel DEF, che passerà dal 149,8% del 2021 al 144,7% nel 2022 (147% nel DEF).

Il **mercato postale** sta attraversando una fase di profondi cambiamenti in gran parte riconducibili alla digitalizzazione, che influenza in modo diverso i volumi di lettere e di pacchi in circolazione. A livello di *macrotrend*, al continuo calo strutturale dei volumi di corrispondenza tradizionale, sostituiti da forme di comunicazione digitale (e-mail, messaggistica istantanea, ecc.), si accompagna un aumento dei volumi di pacchi spediti.

In particolare, per il mercato della corrispondenza, dopo il calo consistente dei volumi 2020 (-19% rispetto al 2019)²¹, il 2021 ha confermato un *trend* di sostanziale stabilità (+0,2% rispetto al 2020)²¹. Nel 2022 il mercato ha registrato un'ulteriore decrescita (-5,3% rispetto al 2021)²¹, principalmente come conseguenza degli effetti legati alla *e-substitution*.

Il comparto pacchi ha vissuto nel 2022 un periodo di incertezza, che non ha intaccato comunque il valore del mercato, cresciuto fortemente negli anni di pandemia. Gli effetti che condizionano la prosecuzione del *trend* di crescita registrato negli ultimi anni sono riassumibili nell'aumento generalizzato dei costi determinato dal conflitto russo-ucraino, nell'aumento dell'inflazione con conseguente diminuzione del potere di acquisto dei consumatori e della minore propensione agli acquisti privati (anche *online*). Tale *trend* è visibile anche a livello globale, come testimoniato dai risultati di diverse aziende *leader*.

Per il comparto pacchi italiano, le stime per il 2022²² evidenziano pertanto una stabilità del valore del mercato rispetto al 2021.

Contesto normativo ed evoluzione dello scenario regolatorio

Onere del Servizio Postale Universale

Il **30 dicembre 2019** è stato sottoscritto tra il Ministero dello Sviluppo Economico e Poste Italiane il nuovo **Contratto di Programma per gli anni 2020-2024**; la sua efficacia decorre dal 1° gennaio 2020 e si conclude il 31 dicembre 2024.

Il **1° dicembre 2020** la **Commissione europea ha approvato le compensazioni**, per gli obblighi di servizio pubblico previste dal Contratto di Programma 2020-2024, nell'ammontare di **262 milioni di euro annui**. Il sistema delle compensazioni per gli obblighi di servizio pubblico assunti dalla Società è stato ritenuto essere pienamente conforme con le applicabili norme UE in materia di aiuti di Stato.

Il 1° luglio 2021 è stata pubblicata la **Delibera AGCom 199/21/CONS** con la quale si è concluso il procedimento di verifica del **costo netto del servizio postale universale sostenuto da Poste Italiane** per gli anni **2017, 2018 e 2019**. In particolare, l'onere del servizio postale universale per tali anni è stato quantificato, rispettivamente, in 354,5, 334,5 e 175 milioni di euro. Per l'esercizio 2019, sebbene l'onere quantificato (175 milioni di euro) sia inferiore alle compensazioni autorizzate (262 milioni di euro), l'onere per la fornitura del servizio postale universale sull'intero periodo (ovvero il previgente Contratto di Programma 2016-2019) risulta in ogni caso superiore alle compensazioni autorizzate dalla Commissione Europea. L'Autorità ha stabilito inoltre che l'onere del servizio universale per gli anni 2017, 2018 e 2019 è iniquo e che, per i medesimi anni, in continuità con quanto stabilito negli anni precedenti, non è istituito il Fondo di Compensazione di cui all'art. 10 del D.Lgs.n. 261/1999. Avverso il suddetto provvedimento, in data 22 settembre 2021 Poste Italiane ha presentato ricorso al TAR Lazio.

Il TAR, con sentenza n.11416/2022 pubblicata in data 5 settembre 2022, ha parzialmente accolto il ricorso sulla verifica dell'onere per gli anni 2011-2012 riconoscendo la mancata attivazione del fondo di compensazione per l'anno 2011. Poste Italiane e AGCom hanno proposto appello al Consiglio di Stato contro la sentenza del TAR e l'udienza di merito è stata fissata al 18 maggio 2023.

Con **Delibera AGCom 28/23/CONS**, pubblicata il 24 febbraio 2023, l'Autorità ha avviato il procedimento di verifica del calcolo del costo netto del servizio postale universale per gli anni 2020 e 2021.

A agevolazioni tariffarie editoriali

Il **D.L. 30 dicembre 2019, n. 162** – come convertito dalla L. 28 febbraio 2020, n. 8 – ha disposto che i rimborsi delle agevolazioni tariffarie editoriali a Poste Italiane proseguano "per una durata pari a quella dell'affidamento del servizio postale universale" (ovvero fino ad aprile 2026). L'applicazione della norma è subordinata all'approvazione da parte della Commissione europea.

Nel mese di agosto 2020 è stato avviato il **procedimento di pre-notifica del Servizio di interesse economico generale (SIEG)** alla Commissione per il periodo 2020-2026.

La **legge di Bilancio 2022** (Legge 30 dicembre 2021, n. 234) ha lasciato invariati gli stanziamenti per gli anni **2022 e 2023**, pari a **52,5 milioni di euro**, e **previsto il medesimo importo per il 2024**.

La **legge di Bilancio 2023** (Legge 30 dicembre 2022, n. 197) ha previsto che il rimborso delle agevolazioni postali editoriali venga effettuato tramite le risorse del Fondo per il pluralismo e l'innovazione dell'informazione. A tal fine, il Fondo è stato integrato con l'importo di **75,9 milioni di euro per l'anno 2023 e di 55 milioni di euro a decorrere dall'anno 2024**, in luogo degli importi previsti dalla precedente Legge di Bilancio.

AGCom
Manovra Tariffaria

Con la **Delibera AGCom 454/22/CONS** del 30 dicembre 2022 sono state definite le **nuove tariffe base universali dei prodotti editoriali a tariffa agevolata** rientranti nel **Servizio Universale**. La Delibera ha previsto un incremento progressivo delle tariffe base a decorrere dal 1° settembre 2022, con ulteriori incrementi con decorrenza 1° gennaio 2024, 2025 e 2026, senza alcun impatto sulle tariffe agevolate pagate dai mittenti e con un conseguente incremento della compensazione ricevuta da Poste Italiane per singolo invio spedito a tariffa agevolata.

Con la **Delibera AGCom 171/22/CONS** "Provvedimento finale di analisi del mercato dei servizi di consegna della corrispondenza e determinazione delle tariffe massime dei servizi postali universali – valutazione del livello di concorrenza e definizione dei rimedi regolamentari" del 6 giugno 2022 sono state definite le **nuove tariffe del Servizio Universale**; la Delibera accoglie la gran parte delle proposte formulate dalla Società in materia di variazioni tariffarie, compresa quella di eliminare il divieto di aumento dei prezzi sino al 2024 proposto dall'AGCom in sede di consultazione pubblica; potranno quindi essere proposte all'Autorità ulteriori future variazioni. Le nuove tariffe sono entrate in vigore progressivamente a partire dal 27 giugno 2022.

Con **Delibera 29/23/CONS**, pubblicata il 14 febbraio 2023, l'Autorità ha deciso l'avvio di un ulteriore procedimento di determinazione di nuove tariffe massime dei servizi postali universali.

AGCom
Obblighi di accesso

AGCom ha modificato e integrato gli attuali **obblighi di accesso** definiti dall'AGCM stessa nell'ambito dell'acquisizione di Nexive, con particolare riferimento agli Uffici Postali (il cui numero è stato ampliato da 2.000 a 4.000) e alle condizioni economiche di alcune offerte (che sono state ridotte). Poste Italiane ha pubblicato nel mese di ottobre 2022, su richiesta dell'Autorità, le offerte wholesale modificate in base a quanto disposto dalla Delibera AGCOM 171/22/CONS. Ai fini dell'approvazione di tali ultime offerte, l'**AGCom**, con **Delibera 391/22/CONS**, pubblicata il 23 novembre 2022, ha avviato una consultazione pubblica alla quale l'Azienda ha risposto inviando il 23 dicembre il proprio posizionamento su tutti i temi oggetto delle valutazioni dell'Autorità.

Con la **Delibera AGCom 30/23/CONS**, pubblicata il 22 febbraio 2023, l'Autorità ha approvato le offerte di Poste Italiane relative ai servizi di accesso *wholesale*.

Concorrenza nel
mercato di consegna
dei pacchi

A seguito di un articolato processo di consultazione, avviato nell'agosto 2021 dalla Delibera 255/21/CONS, l'Autorità ha concluso, con la **Delibera 94/22/CONS** del 5 maggio 2022, il procedimento di individuazione dei mercati rilevanti dei servizi di consegna pacchi e di valutazione del livello di concorrenzialità.

Con la delibera vengono imposti **obblighi informativi specifici** in capo ad Amazon, in quanto "operatore dotato di significativo potere di mercato" sul segmento B2C, ed alcuni obblighi agli altri operatori, ivi inclusa Poste Italiane, presenti sul mercato delle consegne pacchi di medio-grandi dimensioni.

In particolare, gli operatori dovranno trasmettere annualmente una serie di informazioni relative alle condizioni economiche dei servizi offerti al pubblico e a quelle di riferimento per le diverse categorie di clienti *business*, ai contratti vigenti che regolano i rapporti commerciali con le imprese di settore e agli schemi tipo di contratto di lavoro per il personale.

In data 15 dicembre 2022, AGCom ha notificato la richiesta annuale di informazioni, a cui Poste Italiane darà riscontro entro il 31 marzo 2023.

Replicabilità delle offerte (aree EU2)

Con **Delibera 27/22/CONS** del 4 febbraio 2022 "**Revisione dei criteri di definizione delle aree EU2 e individuazione dei relativi CAP**" AGCom ha concluso il procedimento di revisione dei criteri di definizione delle "Aree EU2"23, con l'individuazione dei CAP EU2 sia per la corrispondenza indescritta, sia per la posta descritta. Il nuovo perimetro definito dall'Autorità sarà utilizzato, in particolare, ai fini della individuazione delle coperture territoriali delle offerte *wholesale* di accesso alla propria rete di cui al procedimento AGCM C12333, (provvedimento n.28497 del 22 dicembre 2020 con cui sono state prescritte in capo a Poste Italiane alcune misure comportamentali conseguenti all'approvazione dell'operazione di concentrazione tra Poste Italiane S.p.A. e Nexive Group S.r.l.), nonché ai fini del test di replicabilità delle offerte di invii multipli di Poste Italiane, disciplinato dalla Delibera AGCom 452/18/CONS.

In data 19 settembre 2022, AGCom ha avviato, con la **Delibera 309/22/CONS**, il procedimento istruttorio relativo alla **revisione del test di replicabilità**, ovvero il test che Poste Italiane è tenuta a svolgere prima della presentazione di tutte le offerte di corrispondenza (presentate in ambito gare pubbliche e private) di valore superiore a 500.000 euro e a comunicare all'Autorità nei successivi 30 giorni, a dimostrazione che l'offerta della Società è "replicabile" da parte di un ipotetico concorrente efficiente. I termini del procedimento sono fissati in 180 giorni dalla data di pubblicazione della delibera. Poste Italiane ha inviato il proprio contributo.

Cassette d'impostazione

Ai sensi dell'art. 2, comma 7, del Contratto di Programma 2020-2024, Poste Italiane ha presentato all'AGCom, in data 24 giugno 2020, una proposta di **adeguamento del numero delle cassette di impostazione alla mutata dimensione del mercato e ai bisogni dei clienti**, tenuto conto dell'andamento dei volumi postali e dell'effettivo utilizzo delle stesse da parte degli utenti.

A valle della conclusione della consultazione pubblica e, anche a seguito delle osservazioni inviate da Poste Italiane, il 27 settembre 2022 è stata pubblicata la **Delibera n. 308/22/CONS** che ha **ridefinito i criteri relativi alla distribuzione delle cassette d'impostazione** adottando, in particolare, quello della distanza dalla cassetta più vicina per percentuale di popolazione residente. Secondo quanto previsto dalla citata Delibera, Poste Italiane il 29 novembre 2022 ha inviato all'Autorità il relativo Piano di attuazione che, concluso il periodo di attuazione (24 mesi), a regime consentirà di raggiungere gli obiettivi fissati nella delibera. Sono in corso di svolgimento ulteriori interlocuzioni con l'Autorità alla quale Poste Italiane dovrà inviare, con cadenza semestrale, un aggiornamento sulla progressiva attuazione del Piano.

Contesto di mercato

Mercati finanziari

Nel complesso, il 2022 ha rappresentato un anno particolarmente difficile sia per gli investitori azionari che per quelli obbligazionari. I mercati dei capitali hanno riflesso nelle quotazioni dei titoli tale scenario, facendo registrare un calo simultaneo dei prezzi delle obbligazioni e delle azioni, evento verificatosi solo una volta negli ultimi 50 anni (1994); i mercati azionari mondiali hanno perso il 19,4% da inizio anno²⁷, mentre i mercati obbligazionari sono scesi del 13,7%²⁸. L'andamento dei mercati azionari è stato guidato da una discesa dei multipli di mercato²⁹ mentre le stime sugli utili sono rimaste relativamente stabili sia nell'Unione Europea che negli Stati Uniti, aiutate in parte dal settore energetico e dalla possibilità per alcune società di trasferire ai propri clienti l'incremento dei costi di produzione derivante dall'aumento dei prezzi delle materie prime. Nel corso del 2022 gli indici³⁰ S&P 500 e Nikkei 225 hanno perso rispettivamente circa il 20% e il 9%, mentre l'EuroStoxx 50 ha perso circa il 12%.

Il ciclo di rialzi dei tassi delle banche centrali ha portato un significativo *repricing* del comparto obbligazionario europeo: il rendimento del Buono del Tesoro Poliennale (BTP) a 10 anni, pari a circa 1,2% ad inizio anno, è progressivamente aumentato, raggiungendo nel mese di ottobre il 4,8%, livello massimo dell'anno. Contemporaneamente è salito anche lo spread BTP-BUND, che ad ottobre ha raggiunto i 250 punti base. Dalla metà di ottobre alla metà di dicembre i tassi di rendimento sui titoli pubblici a lungo termine delle maggiori economie avanzate (in particolare, Stati Uniti, Europa, Regno Unito), sono sensibilmente diminuiti, rientrando su valori prossimi ai rendimenti registrati nel primo semestre 2022. A tale andamento ha contribuito l'attenuarsi del processo di restrizione della politica monetaria delle banche centrali, che ha modificato le aspettative degli operatori riguardo il passo e la durata del processo di restrizione monetaria. Attese di una restrizione più decisa delle politiche monetarie si sono diffuse in seguito alle riunioni di dicembre delle banche centrali delle maggiori economie avanzate ed il BTP a 10 anni ha terminato il 2022 con un rendimento pari al 4,7% e lo *spread BTP-Bund* in area 210 punti base.

Il mercato azionario italiano, con il **FTSE MIB**  calato nel 2022 del 13% su base annua³¹.

Le obbligazioni *corporate*, in questo contesto di incertezze e rendimenti al rialzo, hanno registrato un incremento per buona parte dell'anno, in particolare sulla componente più speculativa. Verso fine anno, tuttavia, gli *spread* di credito sono parzialmente rientrati, favoriti da una riduzione generalizzata della volatilità e dal ritorno di interesse per l'*asset class* da parte degli investitori, dati i livelli raggiunti dagli *spread* in autunno.

Di seguito la tabella che rappresenta i rendimenti puntuali espressi in termini percentuali di fine periodo dei BTP e degli *Interest Rate Swap*³².

La componente degli impieghi alle famiglie e alle società non finanziarie è stata leggermente più dinamica, registrando a dicembre 2022 un incremento del 2,1% su base annua.

Nel corso del 2022 si è registrata un'accelerazione nella dinamica dei tassi di interesse sulle consistenze dei prestiti alle famiglie (dal 2,13% a 3,22%), analogamente per i tassi sulle nuove operazioni con le imprese (da 1,18% a 3,44%) e per i nuovi prestiti alle famiglie per l'acquisto di abitazioni (dal 1,4% al 3,09%).

Risparmio gestito

I dati Assogestioni evidenziano, al 31 dicembre 2022³⁴, patrimoni complessivamente pari a 2.212 miliardi di euro, in calo del 14,7% rispetto ai 2.594 miliardi di euro di fine 2021 (risultato fortemente influenzato dalle *performance* negative registrate dai mercati finanziari nel periodo di riferimento).

In termini di raccolta netta l'industria del risparmio gestito presenta nel 2022 un saldo positivo di circa 14,9 miliardi di euro (rispetto ai 93 miliardi di euro del 2021).

Banca d'Italia

Il 10 gennaio 2022 la Banca d'Italia, a seguito di una segnalazione *whistleblowing*, ha inviato una richiesta di aggiornamento in merito a potenziali criticità nell'attività formativa dei consulenti neo-assunti e presunte prassi operative non coerenti con criteri di **sicurezza informatica** . La nota di risposta è stata inviata il 10 marzo 2022.

In data 20 maggio 2022 l'Autorità ha trasmesso al Patrimonio BancoPosta il Provvedimento a conclusione del procedimento relativo all'imposizione di **requisiti patrimoniali aggiuntivi** ai sensi dell'articolo 53-bis, comma 1, lettera d), del D.Lgs. 1° settembre 1993, n. 385 (TUB).

In particolare, a partire dalla segnalazione di vigilanza relativa al 30 giugno 2022, Bancoposta dovrà detenere i seguenti requisiti minimi di capitale: (i) coefficiente di capitale primario di classe 1 (CET 1 ratio): 7,80%; (ii) coefficiente di capitale di classe 1 (*Tier 1 ratio*): 9,55%; (iii) coefficiente di capitale totale (*Total Capital ratio*): 11,95%. Inoltre, per assicurare il rispetto delle misure vincolanti sopra evidenziate e garantire che i fondi propri di Bancoposta possano assorbire eventuali perdite derivanti da scenari di stress, tenendo conto dei risultati delle prove di stress effettuate dall'intermediario in ambito ICAAP (*Internal Capital Adequacy Assessment Process*), la Banca d'Italia ha individuato i seguenti livelli di capitale che Bancoposta sarà invitato a mantenere: (i) coefficiente di capitale primario di classe 1 (CET 1 ratio): 8,55%; (ii) coefficiente di capitale di classe 1 (*Tier 1 ratio*): 10,30%; (iii) coefficiente di capitale totale (*Total Capital ratio*): 12,70%.

Il rispetto di tali requisiti non ha comportato la necessità di apporti di capitale aggiuntivo da parte di BancoPosta.

In data 20 luglio 2022, la Banca d'Italia ha fornito a Poste Italiane S.p.A. – Patrimonio BancoPosta e PostePay, una comunicazione in merito alle modalità di gestione dei fondi ricevuti da PostePay a fronte dell'emissione di moneta elettronica. Si ricorda che le Disposizioni di Vigilanza per gli IMEL prevedono che tale raccolta possa essere depositata presso una banca autorizzata ad operare in Italia, investita in titoli di debito qualificati o particolari quote di fondi comuni di investimento armonizzati. A partire dalla costituzione di PostePay tali somme sono depositate su un conto corrente postale (c.d. conto di tutela) e concorrono alla raccolta da clientela privata del Patrimonio BancoPosta che, in base al vincolo di impiego, viene investita in titoli governativi dell'area euro. In merito, l'Autorità ha avviato nel corso del 2021 un'interlocuzione con BancoPosta e PostePay, in considerazione del fatto che BancoPosta non è stato ritenuto un soggetto assimilabile alla nozione di "ente creditizio" prevista dalla normativa europea di riferimento. A fronte di un approccio alternativo prospettato, volto ad equiparare il deposito presso BancoPosta delle somme raccolte da PostePay ad un investimento diretto in titoli di debito qualificati, nella citata comunicazione l'Autorità ha richiesto a BancoPosta e PostePay un'ulteriore riflessione, volta a individuare una soluzione operativa che consenta il pieno allineamento con le disposizioni normative in materia. All'esito dello svolgimento degli ulteriori approfondimenti richiesti, è stata individuata una soluzione transitoria, anche sulla base delle interlocuzioni con l'Autorità. Il riscontro sarà fornito da BancoPosta entro il secondo trimestre 2023.

La Banca d'Italia, dal 14 marzo 2022 al 15 luglio 2022, ha condotto una verifica ispettiva in Poste Italiane S.p.A. – Patrimonio BancoPosta, su redditività e modello di *business*, sistemi di governo e controllo, modalità di gestione del rischio di tasso ivi inclusa la relativa modellistica interna, nuovo *business* dei crediti d'imposta e rischi ad esso associati. Per maggiori approfondimenti si rinvia a quanto riportato nel capitolo "Procedimenti in corso e principali rapporti con le Autorità" della sezione I bilanci di Poste Italiane.

Il 10 agosto 2022 la Banca d'Italia ha avviato un'indagine sull'impiego delle DLT (*Distributed Ledger Technology* tecnologia dei registri distribuiti) e sulle cripto-attività, al fine di disporre di un quadro aggiornato e completo circa la diffusione di queste tecnologie nel sistema bancario e finanziario italiano. BancoPosta, in coordinamento con PostePay (destinataria anch'essa del questionario), ha risposto in data 13 settembre 2022.

Il riscontro è stato fornito il 1° aprile 2022.

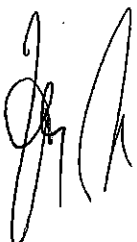

Nel mese di aprile 2022 l'Autorità ha avviato un'indagine tematica avente ad oggetto le modalità adottate dagli intermediari per assolvere agli **obblighi di informativa ex-post alla clientela retail sui costi e gli oneri sostenuti**. Il riscontro è stato fornito il 4 luglio 2022.

Il **6 luglio 2022**, la CONSOB ha inviato una richiesta di aggiornamento relativa a specifici aspetti (profilazione della clientela e rischio di concentrazione), precedentemente trattati nei riscontri forniti (rispettivamente il 16 luglio 2021 e l'11 febbraio 2022), a seguito della nota tecnica con gli esiti degli **accertamenti ispettivi** condotti dall'Autorità da gennaio a ottobre 2020. La nota di risposta è stata fornita il 3 agosto 2022.

Il 26 gennaio 2023, la CONSOB ha trasmesso un'ulteriore richiesta di aggiornamento in merito al riscontro fornito ad agosto. La nota di risposta è stata fornita il 10 marzo 2023.

Per i principali procedimenti pendenti e gli ulteriori rapporti con le Autorità si rimanda a quanto riportato nel capitolo "Procedimenti in corso e principali rapporti con le Autorità" della sezione I bilanci di Poste Italiane.

43. La prima indagine sul tema è stata avviata dalla CONSOB nel mese di marzo 2021 e ella quale è stato dato riscontro il 19 aprile 2021.

Il vigente Allegato 6 del Regolamento n.7/2007 è stato sostituito dal nuovo Allegato 4 "Relazione sulle poste del bilancio consolidato relative ai contratti di pertinenza delle imprese di assicurazione", il quale prevede che, con riferimento al solo esercizio 2023, debba essere fornita un'informativa sulla transizione al nuovo principio, distinguendo tra contratti assicurativi emessi, cessioni in riassicurazione e contratti di investimento emessi con elementi di partecipazione discrezionale. Tale informativa dovrà essere trasmessa all'Istituto insieme alla documentazione relativa alla relazione semestrale consolidata.</p>
<p>IVASS Regolamento n.52 del 30 agosto 2022</p>	<p>Il Regolamento dà attuazione al decreto legge 21 giugno 2022, n. 73, convertito con modificazioni con legge 4 agosto 2022, n. 122, che, considerata l'eccezionale situazione di turbolenza nei mercati finanziari, consente alle imprese che non adottano i principi contabili internazionali, di derogare alle norme del Codice civile sui criteri di valutazione dei titoli "non durevoli" e pertanto attribuisce alle imprese la facoltà di valutare i titoli non durevoli in base al valore risultante dall'ultimo bilancio annuale.</p> <p>Poste Vita ha optato in merito all'applicazione della deroga⁵⁴ consentita dal Regolamento ai fini della redazione del bilancio civilistico al 31 dicembre 2022.</p>

Informativa sulla
transizione ai principi
contabili IFRS 17 e
IFRS 9

Banca d'Italia, CONSOB e IVASS hanno pubblicato un comunicato avente ad oggetto l'informativa da fornire nel bilancio 2022 sulla transizione all'IFRS 17 e all'IFRS 9. In particolare, le imprese che redigono il bilancio – d'esercizio o consolidato – nel rispetto dei principi contabili internazionali IAS/IFRS, dal 1° gennaio 2023 hanno iniziato ad applicare l'IFRS 17 "Contratti Assicurativi" e, a partire dalla stessa data, molteplici imprese di assicurazione hanno cominciato ad adottare anche l'IFRS 9 "Strumenti finanziari".

Il principio contabile internazionale IAS 8 "Principi contabili, cambiamenti nelle stime contabili ed errori" richiede infatti che l'impresa fornisca, in caso di principi emessi ma non entrati ancora in vigore, "informazioni conosciute o ragionevolmente stimabili, rilevanti per valutare il possibile impatto che l'applicazione del nuovo Principio o della nuova Interpretazione avrà sul bilancio dell'entità nell'esercizio di applicazione iniziale". Le informazioni sono di tipo sia qualitativo che quantitativo.

Per l'informativa fornita a tal riguardo si rimanda al paragrafo "Principi contabili e interpretazioni di nuova e di prossima applicazione" della sezione "I Bilanci di Poste Italiane al 31 dicembre 2022".

Lettera al mercato
del 6 dicembre 2022:
Polizze Dormienti

Nuova richiesta dei codici fiscali degli assicurati per l'incrocio con l'Anagrafe Tributaria al fine di accertare l'eventuale decesso degli assicurati – L'IVASS ha comunicato che, in attesa della definizione delle modalità di accesso diretto delle imprese di assicurazione alle informazioni dell'Anagrafe Tributaria o all'ANPR (Anagrafe nazionale della popolazione residente) previste dalla normativa in materia di polizze dormienti, l'Autorità offre anche quest'anno alle compagnie, nell'interesse dei beneficiari delle polizze, il servizio di incrocio tra i codici fiscali degli assicurati e l'Anagrafe Tributaria, in collaborazione con l'Agenzia delle Entrate, al fine di **verificare l'esistenza in vita degli assicurati di contratti vita ed infortuni**⁵⁵. Richiede pertanto alle imprese coinvolte di fornire, entro il 20⁵⁶ dicembre 2022 gli elenchi dei codici fiscali degli assicurati dei suddetti contratti in vigore al 30 novembre 2022 presenti nei propri portafogli ed emessi nell'esercizio.

Le Compagnie Poste Vita S.p.A. e Poste Assicura S.p.A. hanno provveduto ad inviare i dati richiesti nei termini previsti.

55. Limitatamente ai contratti che prevedono prestazioni in caso di decesso dell'assicurato conseguente a infortunio.

56. Il termine, originariamente previsto per il 16 dicembre, è stato prorogato al 20 dicembre 2022 con una lettera inviata dall'IVASS alle Compagnie in data 9 dicembre 2022.

Sospensione
temporanea delle
minusvalenze per i
titoli non durevoli

Il documento di consultazione n.1/2023 contiene le modifiche che si intendono apportare:

- al **Regolamento IVASS n. 52/2022**, a seguito dell'entrata in vigore del Decreto Aiuti *Quater*⁵⁷, in virtù del quale è stato consentito solo alle imprese di assicurazione, la possibilità di dedurre dall'ammontare della riserva indisponibile la quota parte, attribuibile agli assicurati, della mancata svalutazione dei titoli, riferita all'esercizio di bilancio e fino ai cinque esercizi successivi (c.d. **Shadow accounting** ☒). La modifica ha l'effetto di vincolare una parte minore del patrimonio dell'impresa consentendo una più elevata distribuzione di utili;
- al **Regolamento ISVAP n. 38/2011**, in particolare, l'articolo 8 comma 2, per chiarire che, nel determinare l'ammontare minimo delle attività da confrontare alla riserva matematica delle polizze afferenti a una gestione separata, le imprese devono fare riferimento ai criteri *Local Gaap* anche se redigono il bilancio di esercizio secondo i principi contabili internazionali. Poste Vita redige già il bilancio di esercizio secondo i principi contabili *Local Gaap*, pertanto, non è impattata dalla normativa citata.

A seguito della conclusione della procedura di consultazione, l'IVASS ha emanato il Provvedimento n. 127 del 14/02/2023, che ha apportato modifiche al Regolamento IVASS n. 52/2022 e al Regolamento ISVAP n. 38/2011 per l'attuazione delle **disposizioni sulla sospensione temporanea delle minusvalenze per i titoli non durevoli**, a seguito delle modifiche al D.L. Aiuti *Quater*, attraverso il quale il legislatore, ha previsto per le sole imprese di assicurazione, la possibilità di dedurre dall'ammontare della riserva indisponibile la quota parte, attribuibile agli assicurati, della mancata svalutazione dei titoli, riferita all'esercizio di bilancio e fino ai cinque esercizi successivi (cosiddetto *Shadow accounting*). Tale modifica ha l'effetto di vincolare una parte minore del patrimonio dell'impresa consentendo una più elevata distribuzione di utili.

Tale intervento ha inoltre apportato modifiche al Regolamento ISVAP n. 38/2011 per chiarire che, nel determinare l'ammontare minimo delle attività da confrontare alla riserva matematica delle polizze afferenti a una gestione separata, le imprese devono fare riferimento ai criteri *Local Gaap* anche se redigono il bilancio di esercizio secondo i principi contabili internazionali.

Contesto di mercato

Gli ultimi dati disponibili⁵⁹ sul mercato italiano delle **carte di pagamento** mostrano una forte crescita del transato complessivo nazionale che, a settembre 2022, ha sfiorato i 265 miliardi di euro, in aumento del 17% rispetto a settembre 2021 grazie alla ripresa dei consumi. Il numero delle transazioni cresce del 18% rispetto allo stesso periodo dell'anno precedente e si attesta a 5,6 miliardi, segno di un utilizzo quotidiano delle carte sempre più consolidato, anche grazie ad una maggiore propensione e accettazione all'utilizzo di **pagamenti digitali**  da parte degli esercizi commerciali (pagamenti e-commerce e **contactless** ). Le transazioni con **carte di debito**  crescono del 24% rispetto a settembre 2021 e rappresentano oltre la metà del totale transazioni (circa il 60%), con un transato che supera i 155 miliardi di euro (+21% rispetto a settembre 2021). Anche le **carte prepagate**  avanzano a ritmi sostenuti (+18% delle transazioni e +19% del transato rispetto a settembre 2021), per un valore complessivo che si attesta ad oltre 46 miliardi di euro, merito del costante sviluppo dell'e-commerce e dell'aumento della penetrazione presso i punti fisici. I primi nove mesi del 2022 sono risultati positivi anche per le **carte di credito**  che chiudono il periodo in crescita con transazioni in aumento del 3,9% e transato in crescita dell' 8,3% rispetto a settembre 2021, per un valore complessivo di quasi 64 miliardi di euro e con un *ticket* medio che si attesta sui livelli di fine 2021.

Al 30 settembre 2022 il numero di **carte attive** sul mercato supera i **93 milioni**, in aumento dell'1,5% rispetto allo stock di carte attive al 31 dicembre 2021: la crescita maggiore si registra sulle carte di debito che crescono del 2% rispetto al 31 dicembre 2021, per un totale di quasi 48 milioni di carte attive. In aumento anche lo stock delle carte prepagate il cui numero supera i 30 milioni (+1% rispetto al dato di fine dicembre 2021) e riprende la crescita anche delle carte di credito (+0,4% rispetto al 31 dicembre 2021) con oltre 15 milioni di carte attive.

Il **mercato della telefonia mobile**, sulla base degli ultimi dati disponibili⁶⁰, ha evidenziato una penetrazione delle linee mobili totali che si attesta a circa il 181% della popolazione, con una quota degli operatori mobili virtuali (*Mobile Virtual Network Operator* - MVNO) pari al 14,8%⁶¹. Le linee complessive al 30 settembre 2022 sono pari a 107,1 milioni (+1,3% rispetto allo stesso periodo del 2021) comprensive di 28,6 milioni di **SIM Machine to Machine (M2M)**  (+2,8% rispetto allo stesso periodo del 2021).

Il **mercato energetico** nel corso dell'anno ha risentito fortemente del contesto geopolitico internazionale: dapprima la pandemia da Covid-19 e negli ultimi mesi il conflitto russo-ucraino stanno influenzando i mercati e i prezzi delle materie prime, tra le quali in primis il gas con significative ripercussioni sul mercato dell'energia elettrica⁶². Il prezzo del gas all'ingrosso, già dall'ultimo trimestre del 2021, ha subito forti aumenti a seguito della ripresa correlata al miglioramento dello scenario pandemico e della crescita delle tensioni internazionali, sfociate nel mese di febbraio 2022, nel citato conflitto, il quale ha inasprito tali aumenti. Il prezzo del gas è arrivato a superare di oltre il 500%⁶³ il livello registrato nel primo semestre 2021; anche il terzo trimestre 2022 è stato caratterizzato da uno scenario di forti tensioni sui prezzi delle *commodity* energetiche, attestati a livelli ancora più alti rispetto a quanto registrato nel secondo trimestre dell'anno: i costi di acquisto molto alti e l'elevata volatilità dei prezzi sono correlati inoltre alle incertezze sull'affidabilità delle forniture di gas proveniente dalla Russia.

Nel corso dell'estate, le scorte europee del gas sono cresciute rapidamente mentre le fonti alternative al gas (idroelettrico, nucleare e carbone) hanno dovuto ridurre significativamente la loro produzione per temperature elevate e carenza di acqua; le istituzioni europee hanno annunciato misure⁶⁴ per fronteggiare il caro energia e il rischio di carenza di gas con l'approssimarsi della stagione invernale (piano per la riduzione dei consumi di elettricità e gas, interventi sulla regolazione ed il funzionamento dei mercati energetici, la valutazione di meccanismi di "price cap" al prezzo dell'energia).

Nel quarto trimestre 2022, il prezzo del gas è sceso intorno a 80 euro per megawattora, grazie al conseguimento degli obiettivi di stoccaggio dei principali paesi europei, pur registrando un valore sette volte superiore al livello osservato all'inizio del 2021.

Al fine di fronteggiare l'aumento dei prezzi delle materie prime, il Governo ha emanato una serie di provvedimenti di urgenza con

62. L'aumento del prezzo del gas ha trainato al rialzo anche i prezzi dell'energia elettrica, dato che in Italia e in molti altri Paesi Europei il prezzo marginale dell'elettricità è definito dai costi di generazione delle centrali termoelettriche a gas naturale.

TLC Terminazione delle chiamate vocali	<p>Nell'ambito del Regolamento, pubblicato in Gazzetta Ufficiale il 22 aprile 2021, in materia di tariffa unica massima di terminazione per le chiamate su reti mobile e su reti fisse nell'Unione Europea, è previsto che le tariffe applicabili in Italia siano le seguenti:</p> <ul style="list-style-type: none">● dal 1° luglio 2021 0,07 centesimi di euro per minuto (IVA esclusa) per la terminazione fissa;● dal 1° gennaio 2022 0,55 centesimi di euro per minuto (IVA esclusa) per la terminazione mobile (dal 1° gennaio 2023 è stato ridotto a 0,4 centesimi di euro per minuto IVA esclusa). <p>PostePay ha adottato il regime tariffario nei tempi previsti dal quadro normativo.</p>
TLC Roaming internazionale	<p>La Commissione Europea, in data 24 febbraio 2021, ha proposto di prorogare il Regolamento vigente sul <i>roaming</i> internazionale per ulteriori 10 anni (fino al 30 giugno 2032), riducendo nel contempo le tariffe massime all'ingrosso praticate tra operatori per garantire la sostenibilità della fornitura di servizi di <i>roaming</i> al dettaglio a prezzi nazionali, introducendo inoltre nuove misure per aumentare la trasparenza e garantire un'effettiva esperienza di <i>roaming</i> a tariffa nazionale ("<i>roam-like-at-home</i>") in termini di qualità del servizio e accesso ai servizi di emergenza in <i>roaming</i>. La riduzione dei massimali all'ingrosso ha un impatto rilevante per un operatore mobile virtuale (MVNO) come PostePay, che acquista servizi di <i>roaming</i> da un operatore di rete mobile (MNO), nella misura in cui consente la fornitura di servizi ("<i>roam-like-at-home</i>") ai rispettivi clienti garantendo nel contempo il recupero dei costi sostenuti a livello <i>wholesale</i>. Il regolamento vigente ha cessato di produrre effetti a decorrere dal 30 giugno 2022.</p> <p>Il nuovo Regolamento è entrato in vigore il 1° luglio 2022 e, a seguire, il BEREC (<i>Body of European Regulators for Electronic Communications</i>) ha pubblicato le linee guida utili per definire alcuni aspetti relativi all'implementazione delle nuove regole. Il testo del nuovo regolamento è stato approvato dal Parlamento il 24 marzo 2022 e dal Consiglio il 6 aprile 2022 (pubblicato nella Gazzetta Ufficiale dell'Unione Europea il 13 aprile 2022 il Regolamento 2022/612). Il testo conferma i principi fondamentali del Regolamento vigente e prevede riduzioni progressive dei tetti massimi ai prezzi all'ingrosso per i servizi di <i>roaming</i> dati, voce ed SMS coerenti con le stime della Società; prevede inoltre misure ulteriori di trasparenza, protezione della clientela e garanzia della qualità del servizio.</p> <p>PostePay ha assicurato la conformità dei propri servizi al Regolamento secondo la decorrenza stabilita.</p>

Erogazioni per
Operatori di

Elettronica

In base alla Direttiva UE 2015/2366 (PSD2) e al D.Lgs. n.218/2017, è previsto che i fornitori di reti o servizi di comunicazione elettronica, operando nel c.d. regime di esenzione⁶⁵ dalla piena applicazione della PSD2, possano offrire alla clientela finale servizi di comunicazione elettronica che abilitino operazioni di pagamento con addebito dei costi di accesso ai servizi o in fattura (servizi di comunicazione elettronica post pagati) o sul c.d. conto telefonico prepagato (servizi di comunicazione elettronica prepagati/ricaricabili).

Gli operatori dovranno inoltre notificare alle Autorità competenti di operare in regime di esenzione, affinché queste ultime possano valutare se siano o meno soddisfatti i requisiti prescritti (art.37, Direttiva 2015/2366).

La Banca d'Italia il 5 aprile 2022 ha emanato il "Provvedimento di attuazione dell'articolo 2, comma 4-bis, del Decreto legislativo n. 11 del 27 gennaio 2010, relativo ai servizi di pagamento", abrogando l'obbligo, per i fornitori di reti o servizi di comunicazione elettronica, di comunicare annualmente alla Banca d'Italia il "numero di utenze che usufruiscono dei servizi e valore complessivo delle operazioni di pagamento". Tale modifica è efficace a partire dal 17 aprile 2022.

Restano fermi gli obblighi di prima notifica, in fase di iscrizione, e di aggiornamento delle informazioni, nonché la possibilità, per la Banca d'Italia, di richiedere – nel caso in cui lo ritenga necessario – una nuova notifica contenente informazioni aggiornate.

Pertanto a partire dal 17 aprile 2022 PostePay non è più tenuta alla comunicazione annuale di tali informazioni.

Legge di Bilancio
2022/2023

Al fine di **contenere gli aumenti dei prezzi nel settore elettrico e del gas naturale**, il Decreto Legge n. 234 del 30 dicembre 2021, c.d. Legge di Bilancio 2022, ha previsto per il primo trimestre 2022:

- l'azzeramento degli oneri generali per i clienti domestici elettrici e altri usi;
- la riduzione degli oneri generali per il settore del gas naturale;
- l'aumento degli importi dei *bonus* sociali elettrico e gas.

Il citato decreto ha inoltre disposto la riduzione dell'IVA al 5% per la somministrazione di gas per gli usi civili e l'obbligo per le società di vendita di energia elettrica e gas di offrire ai clienti domestici un piano di rateizzazione senza interessi in caso di mancato pagamento delle bollette emesse nel periodo compreso tra il 1° gennaio e il 30 giugno 2022.

Tali agevolazioni sono state sostanzialmente prorogate al terzo e quarto trimestre 2022 e al primo trimestre 2023⁶⁶ (Decreto Legge n. 17 del 1 marzo 2022, Decreto Legge n. 21 del 21 marzo 2022, Decreto Legge n. 80 del 30 giugno 2022, Decreto Legge "Aiuti Bis" n.115 del 9 agosto 2022 e Decreto Legge n. 197 del 29 dicembre 2022 c.d. **Legge di Bilancio 2023**). Il **Decreto Legge "Aiuti Bis"** interviene inoltre sospendendo, fino al 30 aprile 2023, l'efficacia delle clausole contrattuali che consentono ai venditori di energia elettrica e gas di modificare unilateralmente le condizioni generali di contratto relative alla definizione del prezzo (sono rese inefficaci anche le variazioni notificate ai clienti prima del 10 agosto 2022, salvo che non si siano già perfezionate a tale data).

Il citato decreto, in vista della fine dei prezzi regolati per il gas, inizialmente prevista per il 1° gennaio 2023 (il Decreto Legge 176 del 18 novembre 2022 c.d. "Aiuti Quater" ha prorogato la scadenza al 10 gennaio 2024 allineandola a quella prevista per la Maggior Tutela elettrica), ha inoltre ridefinito il perimetro dei clienti "vulnerabili"⁶⁷ prevedendo che dal 1° gennaio 2023, i fornitori debbano rendere disponibile un'offerta per la fornitura di gas naturale a condizioni contrattuali ed economiche che saranno definite da AREGRA con uno o più provvedimenti *ad hoc*. In particolare, le condizioni economiche dovranno riflettere il costo effettivo di approvvigionamento nel mercato all'ingrosso e i costi efficienti per l'attività di commercializzazione.

65. Le operazioni di pagamento in regime di esenzione sono consentite per l'acquisto di contenuti digitali e servizi a tecnologia vocale (indipendentemente dal dispositivo utilizzato); l'esecuzione di attività di beneficenza o di acquisto di biglietti (effettuate da o tramite un dispositivo elettronico), e condizione che, per singolo cliente (post pagato o ricaricabile): il valore di ogni singola operazione di pagamento, sia non superiore a €50; il valore complessivo delle operazioni di pagamento sia non superiore a €300 mensili.

66. Le agevolazioni tariffarie previste per contenere gli effetti degli aumenti delle bollette dei clienti sono state prorogate sebbene l'azzeramento degli oneri generali del settore elettrico sia stato limitato ai clienti con potenza disponibile fino a 16,5 kW. Inoltre, è stata ampliata la fascia dei beneficiari ammessi al *bonus* sociali perché il livello ISEE necessario per usufruirne, per il 2023, sale a 15.000 euro (dai precedenti 12.000 euro), e la soglia a 20.000 euro per le famiglie numerose.

67. Il nuovo perimetro dei clienti "vulnerabili" include anche coloro che versano in condizioni economicamente svantaggiate, soggetti con disabilità, clienti intestatari di utenze nelle isole minori non interconnesse o in strutture abitative di emergenza a seguito di eventi calamitosi e i clienti di età superiore ai 75 anni.

Interventi ARERA

Gli interventi governativi sopra esposti sono stati attuati, per quanto di competenza, dall'Autorità di Regolazione per Energia Reti e Ambiente (ARERA), con le delibere 635/2021/R/com del 30 dicembre 2021, 141/2022/R/com del 30 marzo 2022 e 241/2022/R/com del 31 maggio 2022.

Con la Delibera 636/2021/R/com del 30 dicembre 2021, ARERA ha dato attuazione alle disposizioni riguardanti il succitato obbligo di rateizzazione delle bollette per i clienti finali domestici di energia elettrica e gas naturale.

Nel corso del 2022 ARERA ha emanato ulteriori provvedimenti di rilievo per il settore della vendita di energia elettrica e gas naturale ai clienti finali tra i quali si evidenziano:

- le Delibere 146/2022/R/eel e 147/2022/R/gas hanno aggiornato, per il 2022, il valore delle componenti di commercializzazione e vendita rispettivamente dell'energia elettrica e del gas naturale per i clienti serviti nel servizio di tutela⁶⁸. La valorizzazione di tali componenti ha impatti non solo per i venditori che operano nel mercato tutelato e che fatturano tali costi nella misura determinata da ARERA, ma anche per quelli che operano nel mercato libero, laddove i prezzi regolati fungono comunque da termine di riferimento nel processo di definizione dei prezzi delle offerte;
- la Delibera 135/2022/R/com ha standardizzato le modalità di definizione dei "codici offerta"⁶⁹ in modo da contenere informazioni sintetiche su alcune caratteristiche dell'offerta, facilmente individuabili ed utilizzabili per la raccolta delle informazioni anche a livello aggregato sulle caratteristiche delle offerte sottoscritte dai clienti;
- la Delibera 374/2022/R/gas, entrata in vigore il 1° ottobre 2022 ha modificato le modalità di determinazione del prezzo del gas per i clienti appartenenti al mercato tutelato, prevedendo che il prezzo del gas sia indicizzato al Punto di Scambio Virtuale⁷⁰, ossia al prezzo di riferimento del gas sul mercato all'ingrosso italiano. A seguito di tale modifica, non si fa più riferimento alle quotazioni rilevate presso l'*hub Title Transfer Facility* (TTF)⁷¹ e alle quotazioni a termine, bensì alla media mensile dei prezzi effettivi del mercato all'ingrosso italiano e aumenta la frequenza di aggiornamento del prezzo (da trimestrale a mensile);
- la Delibera 637/2022/R/com, contiene ulteriori modifiche al contenuto informativo obbligatorio delle bollette dei clienti, con obblighi di sviluppo da parte degli operatori che decorreranno nel corso del 2023. 5.1 L'integrazione della Sostenibilità nella Strategia di Poste Italiane

DNF

Per Poste Italiane essere sostenibili significa definire una chiara strategia sulle tematiche ESG e integrarle in maniera strutturale negli obiettivi definiti nel Piano Strategico⁸¹. All'interno del Piano sono previsti investimenti per 3,1 miliardi di euro nelle attività strategiche per raggiungere obiettivi finanziari. A queste si aggiunge il "Progetto Polis" che, nell'ambito del PNRR, mira sia a rinnovare e modernizzare gli Uffici Postali che a valorizzare il patrimonio immobiliare del Gruppo con iniziative di *coworking*.

Piano Strategico

CORRISPONDENZA
PACCHI E DISTRIBUZIONE

L'obiettivo strategico del segmento Corrispondenza, Pacchi e Distribuzione è quello di accelerare la propria trasformazione da puro operatore di corrispondenza a operatore logistico completo, garantendo la sostenibilità economica e ambientale delle proprie operazioni. La realizzazione della strategia si basa sull'efficientamento delle reti distributive, ivi inclusa l'integrazione di Nexive, acquisita a fine 2020, il consolidamento della *leadership* nel mercato B2C e la crescita nei segmenti C2X e B2B grazie all'introduzione di offerte specifiche e di iniziative finalizzate al miglioramento della *customer experience*. In tale ottica, l'acquisizione di Plurima permette di rafforzare il comparto *contract logistics*. Tramite l'implementazione di queste linee strategiche, il segmento mira al raggiungimento di un utile operativo nel 2024.

L'acquisizione di LIS, in quest'ottica, è un ulteriore contributo alla strategia omnicanale del Gruppo. L'ampliamento dei prodotti, unitamente alla possibilità di poter sfruttare i canali fisici, digitali e le reti terze, permette di sfruttare appieno le opportunità di *cross-selling* della clientela, aumentando così il valore per Poste Italiane nel suo complesso.

OBIETTIVI FINANZIARI

SERVIZI
FINANZIARI

Servizi Finanziari si pone come obiettivo un'ulteriore evoluzione del modello di servizio, affiancando al tradizionale modello fisico le opportunità fornite dall'innovazione tecnologica. Le priorità del Piano Strategico prevedono una crescita in ambito *wealth management*, grazie alla diversificazione dei portafogli dei clienti per ottimizzarne il profilo di rischio-rendimento, l'integrazione delle polizze danni all'interno del modello di consulenza ed un rinnovato *focus* sui prestiti, con particolare enfasi sul segmento CQS, anche grazie alle *partnership* siglate con primari operatori del settore. Poste Vita ha l'obiettivo di confermarsi *leader* nel ramo Vita, continuando ad offrire ai clienti prodotti sicuri e al contempo più profittevoli ed efficienti dal punto di vista del capitale. La strategia del ramo Danni prevede, infine, l'aumento della profittabilità grazie all'offerta modulare, completata dall'assicurazione auto, fornita ai clienti senza assunzione di rischio grazie agli accordi distributivi siglati con primarie società di assicurazione italiane.

5.2 La Strategia di Sostenibilità di Poste Italiane

DNF

PRINCIPALI
CAPITALI COLLEGATI

La Strategia di Sostenibilità di Poste Italiane, costituita dal Piano Strategico ESG e da un insieme di Politiche di Sostenibilità, è volta al raggiungimento degli obiettivi nazionali e internazionali di sviluppo sociale e ambientale. Tale Strategia è coerente con le attività e con i criteri di *business* di Poste Italiane, nell'ambito del quadro strategico più ampio definito dal Gruppo.

Il Piano Strategico ESG comprende tutti gli obiettivi e i *target* specifici, sia di natura qualitativa che quantitativa, che il Gruppo ha fissato ai fini del miglioramento costante delle proprie *performance* di sostenibilità. Inoltre, tutti i principi, gli obiettivi qualitativi e le differenti modalità di gestione sono incorporati nelle politiche adottate, che regolamentano in modo sinergico le diverse tematiche emerse dall'analisi di materialità e gli ambiti richiesti dal D.Lgs. 254/2016.

Temi di sostenibilità prioritari per Poste Italiane

Poste Italiane ha elaborato un processo di analisi di materialità finalizzato all'identificazione dei temi prioritari, sulla base della significatività degli impatti ad essi correlati, da includere nella Strategia di Sostenibilità del Gruppo e da formalizzare in termini di politiche e *target*.

In un'ottica di continuo miglioramento, Poste Italiane ha perfezionato quanto avviato nel 2021 revisionando la metodologia di analisi di materialità allineandola alle previsioni contenute nell'aggiornamento 2021 degli *standard* GRI per la prospettiva *inside-out*, e ha tenuto conto delle disposizioni dell'EFRAG, contenute nei nuovi *standard* di sostenibilità, seppur ancora in *draft*, per la prospettiva *outside-in*, facendo un esercizio di doppia materialità in anticipo rispetto all'entrata in vigore prevista per il FY 2024.

Il processo di definizione dei temi materiali, approvato in ultimo dal CdA, si è articolato nelle 3 fasi di seguito riportate:

IDENTIFICAZIONE

Identificazione degli impatti positivi e negativi, attuali e potenziali, in relazione agli aspetti rilevanti emersi dall'analisi di contesto, con particolare riferimento ai rischi ESG

VALUTAZIONE

Coinvolgimento degli *stakeholder* interni ed esterni al fine di valutare la significatività degli impatti emersi

PRIORITIZZAZIONE

Aggregazione dei risultati al fine di ottenere per ogni tema materiale un valore di *impact materiality* (prospettiva *inside-out*) e un valore di *financial materiality* (prospettiva *outside-in*), è successiva prioritizzazione dei temi

Per identificare gli impatti positivi e negativi, attuali e potenziali, è stata condotta un'approfondita analisi di scenario in merito alle attività svolte dal Gruppo, alle sue relazioni di *business*, al contesto di sostenibilità in cui opera e alle aspettative dei propri *stakeholder*. In particolare, l'analisi ha preso in considerazione le disposizioni derivanti dalle fonti normative e dalle principali linee guida di sostenibilità a livello internazionale, il Piano Strategico e il modello di gestione dei rischi del Gruppo, nonché le richieste dei principali questionari predisposti dalle agenzie di *rating* ESG e le analisi dei *trend* attuali di settore.

Nella fase di valutazione, la significatività degli impatti individuati è stata definita attraverso il coinvolgimento diretto degli *stakeholder*. Di seguito è riportata la lista di impatti sottoposti alla valutazione da parte dei portatori di interesse del Gruppo.

Secondo la prospettiva *inside-out*, l'Azienda ha preso in considerazione gli impatti significativi, attuali o potenziali, su persone e ambiente direttamente connessi alle proprie attività, prodotti e servizi, comprese le attività a monte e a valle della sua catena del valore. Nell'ambito della prospettiva *outside-in* ha tenuto conto, invece, dei rischi e delle opportunità di sostenibilità che possono influenzare positivamente o negativamente i flussi di cassa futuri e quindi creare o erodere il valore aziendale nel breve, medio o lungo termine, influenzandone lo sviluppo, la *performance* ed il posizionamento.

Il coinvolgimento degli *stakeholder*

Al fine di contribuire alla creazione di valore condiviso per l'Azienda e tutti i suoi *stakeholder*, Poste Italiane integra le visioni e le esigenze variabili dei soggetti direttamente e indirettamente coinvolti nelle attività del Gruppo all'interno della propria Strategia di Sostenibilità. La considerazione delle istanze degli *stakeholder* permette al Gruppo di rafforzare la propria crescita a livello reputazionale e, allo stesso tempo, mantenere un rapporto di fiducia e trasparenza nel contesto sociale ed economico in cui opera.

Per individuare tutti i portatori d'interesse che influenzano o che vengono a loro volta influenzati dal processo di raggiungimento degli obiettivi strategici di Gruppo, Poste Italiane ha condotto un'accurata mappatura delle categorie di *stakeholder* con i quali interagisce nel corso dello svolgimento delle proprie attività, in conformità con lo *Standard Internazionale AA1000-Stakeholder Engagement Standard (SES)*. L'analisi ha consentito l'identificazione di sette macrocategorie di *stakeholder*, ovvero: Azionisti e Investitori, Comunità e Territorio (associazioni di categoria, media, mondo accademico), Clienti (associazioni di consumatori), Enti ed Istituzioni (Autorità, Fondimpresa), Fornitori (*Business Partner*), Personale (persone di Poste Italiane, sindacati) e Ambiente.

Le sette macrocategorie di *stakeholder* sono riportate all'interno della seguente tabella, che indica le principali modalità di coinvolgimento e di comunicazione relative ad ognuna di esse.

La sesta edizione del *Forum Multistakeholder*, tenutasi in diretta *streaming* al fine di garantire la più ampia partecipazione possibile, ha visto la presenza di circa 1.100 *stakeholder*, più del doppio rispetto all'anno precedente, e ha rappresentato un importante momento di confronto con i principali interlocutori del Gruppo sulle strategie, sui temi dello sviluppo sostenibile e sull'integrazione di questi all'interno dei progetti industriali dell'Azienda definiti nel Piano Strategico.

Durante l'evento, i partecipanti hanno preso parte a cinque *Focus Group* legati agli otto Pilastri di Sostenibilità. In particolare, il primo *Focus Group*, rivolto principalmente a Fornitori e *Business partner*, si è concentrato sui Pilastri "Integrità e trasparenza" e "Transizione *green*"; il secondo *Focus Group*, rivolto prevalentemente ai Clienti, si è concentrato sui Pilastri "Customer experience" e "Innovazione"; il terzo *Focus Group*, condotto in lingua inglese e rivolto soprattutto a Fornitori e *Business partner*, Azionisti e Investitori ha riguardato esclusivamente il Pilastro "Finanza sostenibile" al fine di approfondire la tematica dell'integrazione dei fattori ESG all'interno delle politiche di assicurazione e investimento del Gruppo; il quarto *Focus Group*, rivolto ai Dipendenti, è stato dedicato ai Pilastri "Valorizzazione delle persone" e "Diversità e inclusione"; il quinto *Focus Group*, rivolto in primo luogo a Enti istituzionali e Comunità e Territorio, si è concentrato infine sul Pilastro "Valore al territorio".

I partecipanti al *Forum* hanno espresso le proprie valutazioni in merito ai temi materiali per l'Azienda tramite un *tool* digitale, accessibile da *smartphone* e *pc*, che ha favorito una visualizzazione immediata e dinamica dei risultati.

I risultati del processo di *engagement* dei principali *stakeholder* del Gruppo hanno evidenziato una maggior significatività degli impatti sottostanti i seguenti temi: l'innovazione e la digitalizzazione, gli impatti ambientali della logistica e la sicurezza informatica per quanto riguarda la prospettiva *inside-out*; l'innovazione e la digitalizzazione, la formazione e lo sviluppo del personale e l'integrità e la trasparenza in merito alla prospettiva *outside-in*.

La matrice di materialità

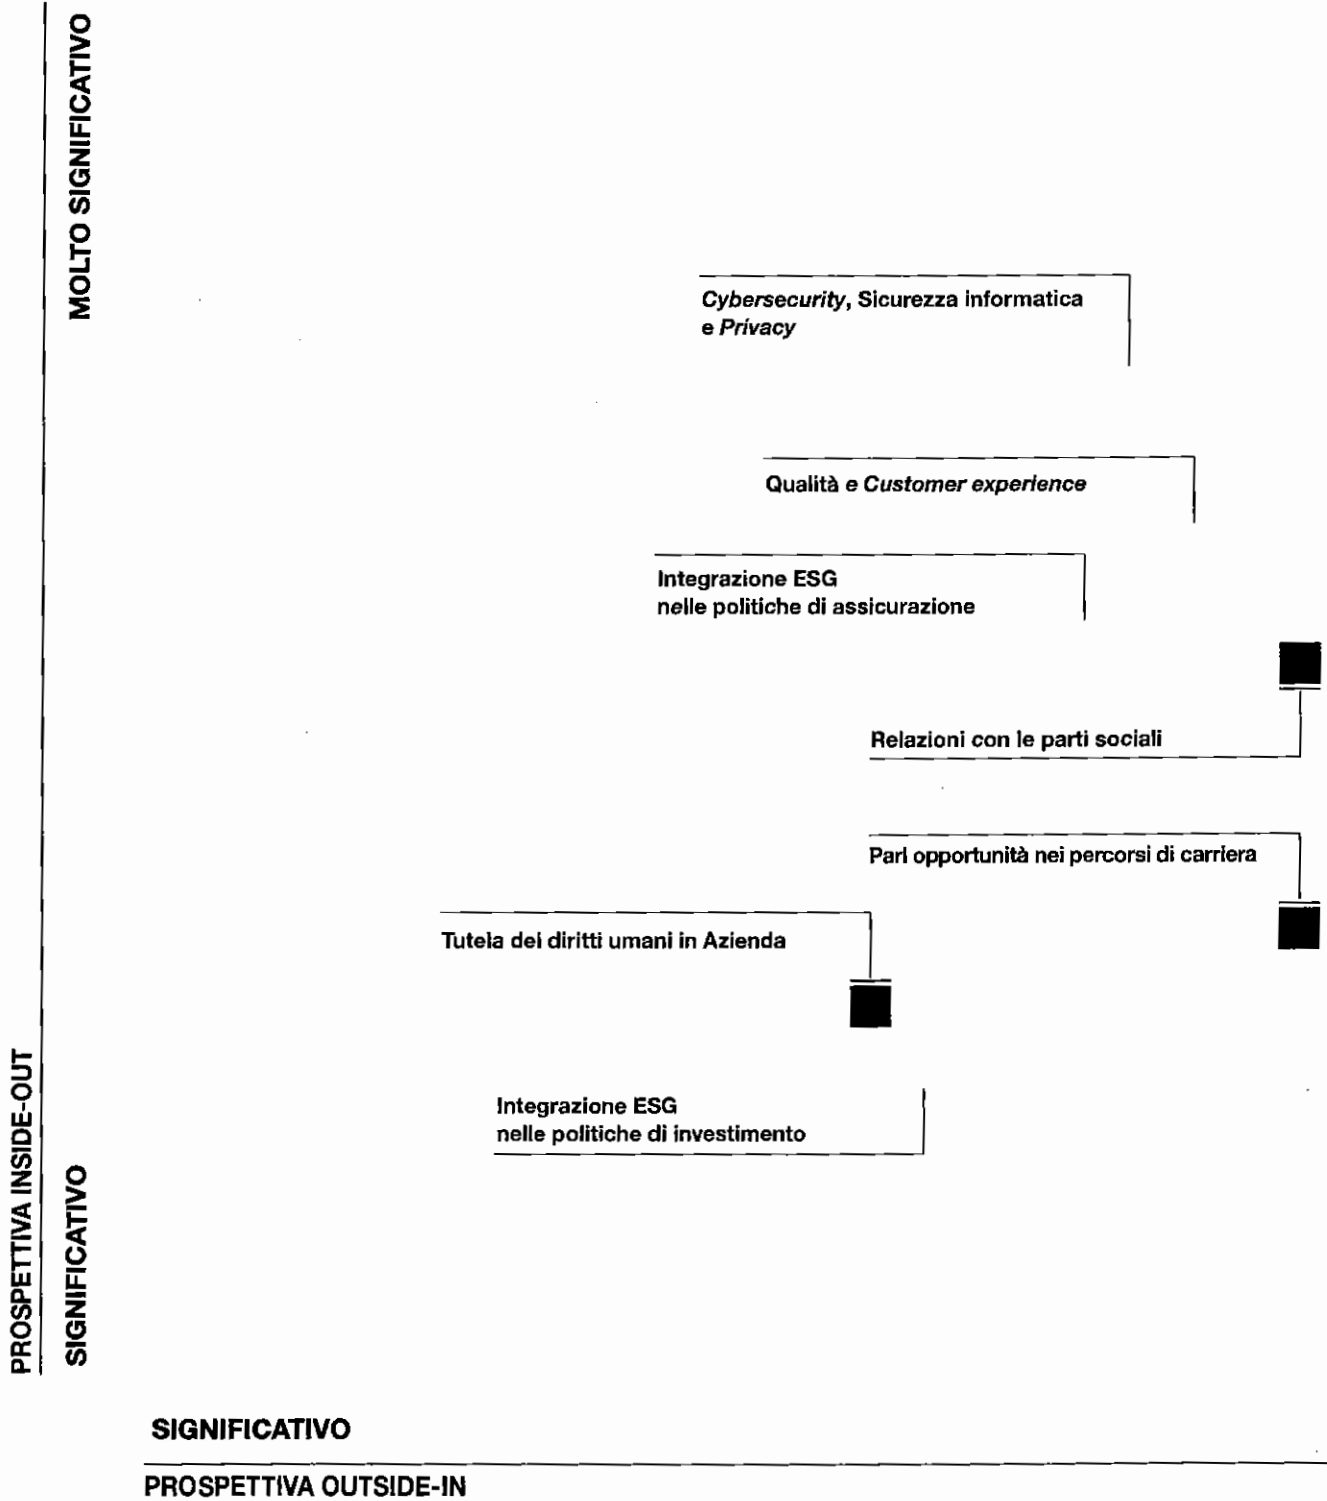

La matrice di materialità, riportata di seguito, rappresenta graficamente il risultato del processo di individuazione dei temi prioritari a partire dalla valutazione della significatività degli impatti ad essi correlati, secondo una duplice prospettiva: *inside-out* e *outside-in*. Ad ognuno dei 18 temi materiali sono infatti associati un valore di *impact materiality* (prospettiva *inside-out*) e uno di *financial materiality* (prospettiva *outside-in*), come prodotto tra magnitudo e probabilità dei singoli impatti afferenti allo stesso tema materiale. L'ordine di priorità dei temi è stato definito sulla base dei valori ottenuti e attraverso la definizione di una soglia di materialità.

La matrice è un efficace strumento a supporto della Strategia di Sostenibilità del Gruppo ed è il risultato del processo di allineamento alle nuove disposizioni *GRI* per la prospettiva *inside-out*, che risente altresì dell'influenza delle disposizioni, ancora in *draft*, emanate dall'EFRAG, per la prospettiva *outside-in*.

- Incarico assegnato dalla Corte dei Conti con decorrenza 1° gennaio 2020.
- Società incaricata della revisione legale dei conti per gli esercizi 2020-2028, con delibera dell'Assemblea ordinaria del 28 maggio 2019. L'incarico a Deloitte & Touche è stato affidato per tutto il Gruppo.

L'assetto di *Corporate Governance* riflette le disposizioni contenute nel D.Lgs. 24 febbraio 1998 n. 58 (TUF) ove applicabili, le Disposizioni di Vigilanza emanate da Banca d'Italia applicabili a Poste Italiane in ragione delle attività condotte per il tramite del Patrimonio destinato BancoPosta, la normativa applicabile agli Istituti di moneta elettronica per le attività svolte da Poste Italiane in esecuzione degli accordi sottoscritti con PostePay – patrimonio IMEL, nonché le raccomandazioni del Codice di *Corporate Governance* (entrato in vigore il 1° gennaio 2021 in sostituzione del precedente Codice di Autodisciplina promosso da Borsa Italiana e vigente fino al 31 dicembre 2020).

**Nuovo Codice
di *Corporate
Governance* in
vigore dal 1°
gennaio 2021**

Il modello di *governance* adottato è di tipo tradizionale, caratterizzato dalla dicotomia tra Consiglio di Amministrazione e Collegio Sindacale; la revisione legale dei conti è affidata a una Società di Revisione.

La gestione finanziaria di Poste Italiane è sottoposta al controllo della Corte dei Conti (legge 21 marzo 1958 n. 259); tale attività è svolta da un **Magistrato della Corte dei Conti**, che assiste alle sedute del Consiglio di Amministrazione e del Collegio Sindacale.

L'**Assemblea degli Azionisti** ha il compito di nominare e revocare i componenti del Consiglio di Amministrazione e del Collegio Sindacale, nonché la società di revisione, prevedendone i compensi. Inoltre, l'Assemblea degli azionisti approva il bilancio annuale, delibera sulle modifiche statutarie e sulle operazioni di carattere straordinario, quali aumenti di capitale, fusioni e scissioni nei casi in cui la legge esclude la competenza del Consiglio di Amministrazione.

Il **Consiglio di Amministrazione** è composto da nove membri (di cui otto non esecutivi e uno esecutivo) e si riunisce di norma con cadenza mensile per esaminare e deliberare in merito all'andamento della gestione, ai risultati consuntivi, alle proposte relative al modello organizzativo e a operazioni di rilevanza strategica. Nel corso dell'esercizio 2022 si è riunito 14 volte. Dei nove membri del Consiglio sei sono in possesso dei requisiti di indipendenza previsti dal TUF, dallo Statuto sociale, nonché dal nuovo Codice di *Corporate Governance*.

In conformità a quanto disposto dal Codice Civile, il Consiglio di Amministrazione ha delegato parte delle proprie competenze gestionali all'Amministratore Delegato e ha nominato al proprio interno, in linea con le indicazioni previste dal Codice di *Corporate Governance* e dalle disposizioni di vigilanza di Banca d'Italia, cinque Comitati con funzioni propositive e consultive: il Comitato Nomine e *Corporate Governance*, il Comitato Remunerazioni, il Comitato Controllo e Rischi, il Comitato Sostenibilità e il Comitato Parti Correlate e Soggetti Collegati.

**5 Comitati
endoconsiliari
con funzioni
propositive e
consultive**

Il **Presidente del Consiglio di Amministrazione** ha il ruolo di impulso e di vigilanza sul funzionamento del Consiglio di Amministrazione, ha la rappresentanza legale della Società e gli altri poteri previsti dallo Statuto sociale e dalla legge, nonché quelli conferitigli dal Consiglio di Amministrazione nell'adunanza del 15 maggio 2020.

L'**Amministratore Delegato e Direttore Generale**, cui riportano tutte le strutture organizzative di primo livello (con esclusione della Funzione Controllo Interno che riporta direttamente al Consiglio di Amministrazione sotto la supervisione – con finalità di raccordo rispetto al Consiglio di Amministrazione – del Presidente), ha i poteri per l'amministrazione della Società a eccezione di quelli diversamente attribuiti dalla legge e dallo Statuto e salvo i poteri che il Consiglio di Amministrazione si è riservato. All'Amministratore Delegato compete altresì la rappresentanza legale della Società nell'ambito dei poteri a lui delegati.

Il **Collegio Sindacale** è costituito da 3 membri effettivi e 3 membri supplenti. Ha il compito di vigilare sull'osservanza della Legge e dello Statuto, sul rispetto dei principi di corretta amministrazione e in particolare sull'adeguatezza dell'assetto organizzativo, amministrativo e contabile adottato dalla Società e sul suo concreto funzionamento. Nel corso dell'esercizio il Collegio Sindacale si è riunito 39 volte di cui 11 volte congiuntamente al Comitato Controllo e Rischi.

L'**Organismo di Vigilanza** è costituito da tre membri. È dotato di autonomi poteri di iniziativa e controllo, vigila sul funzionamento e sull'osservanza del Modello Organizzativo ex D.Lgs. n. 231/2001 e ne cura l'aggiornamento in relazione all'evolversi della struttura organizzativa e del contesto normativo di riferimento, mediante proposte motivate all'Amministratore Delegato, il quale provvede a sottoporle al Consiglio di Amministrazione.

La **revisione legale dei conti** è affidata per gli esercizi 2020-2028 alla società di revisione Deloitte & Touche S.p.A. per tutto il Gruppo. Il suddetto incarico è stato attribuito ai sensi del D.Lgs 39/2010 di attuazione della direttiva 2006/43/CE e del Regolamento Europeo 537/2014 relativo agli enti di interesse pubblico e all'attività di revisione sugli enti di interesse pubblico, in vigore dal 17 giugno 2016.

Con riferimento alla *governance* del Patrimonio BancoPosta, le regole di organizzazione, gestione e controllo che ne disciplinano il funzionamento sono contenute nel "Regolamento del Patrimonio BancoPosta" richiamato nella **Relazione sulla gestione del Patrimonio BancoPosta**, a cui si rimanda.

Per effetto dell'emanazione da parte di Banca d'Italia il 27 maggio 2014 delle Disposizioni di Vigilanza applicabili al Patrimonio BancoPosta, Poste Italiane, nell'esercizio dell'attività finanziaria presso il pubblico, è equiparabile – ai fini dell'applicazione delle disposizioni sul governo societario – alle banche di maggiori dimensioni e complessità operativa.

Per ogni ulteriore approfondimento sugli assetti di *Corporate Governance* si rimanda al citato documento "Relazione sul Governo Societario e gli Assetti Proprietari – esercizio 2022".

La Governance di Sostenibilità

La sostenibilità è una componente integrante delle attività, dei processi e della strategia aziendale e rappresenta un *driver* fondamentale nelle scelte strategiche e finanziarie del Gruppo. Con questa consapevolezza, Poste Italiane negli anni ha intrapreso un importante percorso di sviluppo della propria strategia di *business*, integrandola in maniera strutturale con i principi *Environmental, Social and Governance* (ESG) e orientando gli sforzi del Gruppo verso la creazione di valore condiviso per gli *stakeholder* e al consolidamento della propria reputazione. Per Poste Italiane essere sostenibili significa, dunque, definire una chiara strategia sulle tematiche ESG e integrare queste ultime in maniera trasversale negli obiettivi strategici definiti all'interno dei piani di *business*.

Il Gruppo ha adottato una strategia di sostenibilità che mette a sistema una *Governance* in ambito ESG, un insieme di politiche e linee guida di sostenibilità, parte del *corpus* normativo aziendale (dove si individuano principi generali, obiettivi per il futuro e modalità di gestione degli ambiti non-finanziari prioritari per l'Azienda e per gli *stakeholder*) e un Piano Strategico ESG, ossia un complesso di obiettivi di sostenibilità che contribuisce al benessere del Paese e che garantisce a Poste Italiane di essere allineata ai più ambiziosi obiettivi comuni definiti a livello mondiale nell'ambito della sostenibilità. Tale strategia permette al Gruppo di andare ben oltre gli attuali obblighi normativi e di ricoprire un ruolo centrale nella creazione di valore sostenibile per la comunità.

Gruppo Poste Italiane – La Governance di Sostenibilità

- definisce gli indirizzi ed obiettivi di sostenibilità e responsabilità sociale d'Impresa, identificando il set di indicatori per il monitoraggio delle performance in ambito ESG
- costituisce, a livello di Gruppo, il presidio di riferimento unico per il governo e la gestione di tutti i rischi, servendosi, a tal fine, del contributo delle unità specialistiche a suo diretto riporto e degli altri presidi di rischio presenti in Poste Italiane e nelle Società del Gruppo

In tale contesto, Poste Italiane ha adottato La Linea Guida "Il Processo ESG nel Gruppo Poste Italiane" che descrive il funzionamento del processo di gestione e integrazione dei principi ESG nell'ambito del Gruppo attraverso l'integrazione trasversale, uniforme e coerente dei principi alla base del concetto di sostenibilità alle diverse attività aziendali e il coinvolgimento permanente, trasparente e proattivo degli *stakeholder*.

La citata Linea Guida è stata aggiornata nel luglio 2022 al fine di allineare il documento alle principali *leading practice* in materia e al nuovo assetto organizzativo della Società.

6.2 Il Sistema di Controllo Interno e Gestione dei Rischi Integrato di Poste Italiane

DNF

PRINCIPALI CAPITALI COLLEGATI

In un contesto caratterizzato da un'elevata complessità operativa e regolamentare e dall'esigenza di competere in modo sempre più efficiente nei mercati di riferimento, la gestione dei rischi e i relativi sistemi di controllo assumono un ruolo centrale nei processi decisionali, nell'ottica della creazione di valore nel lungo termine a beneficio non solo degli azionisti, ma anche in considerazione degli interessi degli altri *stakeholder* rilevanti per la società.

Il Sistema di Controllo Interno e Gestione dei Rischi (SCIGR) di Poste Italiane è l'insieme di strumenti, procedure, regole e strutture organizzative volte a consentire una conduzione d'impresa sana, corretta e coerente con gli obiettivi aziendali nonché a perseguire il successo sostenibile, mediante un adeguato processo di definizione di attori, compiti e responsabilità dei vari organi e funzioni di controllo e di identificazione, misurazione, gestione e monitoraggio dei principali rischi, così come attraverso la strutturazione di adeguati flussi informativi volti a garantire la circolazione delle informazioni.

Tale Sistema rappresenta un elemento fondamentale della *Corporate Governance* di Poste Italiane poiché consente al Consiglio di Amministrazione di guidare la Società perseguendo la creazione di valore nel lungo termine, definendo altresì la natura e il livello di rischio compatibili con gli obiettivi strategici, includendo nelle proprie valutazioni tutti gli elementi che possono assumere rilievo nell'ottica del successo sostenibile. In particolare, in linea con le principali *leading practice* che pongono particolare enfasi all'integrazione della sostenibilità nelle strategie, nella gestione dei rischi e nelle politiche di remunerazione, il SCIGR di Poste Italiane si pone l'obiettivo di contribuire al successo sostenibile della Società attraverso la definizione di ruoli e responsabilità in ambito ESG, dei flussi informativi tra gli attori coinvolti nel sistema di controllo interno e verso gli organi aziendali nonché delle modalità di gestione dei relativi rischi. Inoltre, per il raggiungimento di tale obiettivo la Società ha deciso di promuovere un dialogo con gli *stakeholder* rilevanti, al fine di assicurare un costante confronto sulle strategie d'impresa e sulla loro realizzazione.

Il SCIGR, in linea con le normative e le *best practice* di riferimento, si articola su tre livelli di controllo e coinvolge una pluralità di attori presenti all'interno dell'organizzazione aziendale. I presidi di controllo di primo livello identificano, valutano, gestiscono e monitorano i rischi di competenza in relazione ai quali individuano e attuano specifiche azioni di trattamento volte ad assicurare il corretto svolgimento delle operazioni. I presidi di controllo di secondo livello, il cui ruolo consiste principalmente nel definire i modelli di gestione del rischio e nell'effettuare attività di monitoraggio, svolgono un ruolo determinante ai fini dell'integrazione e del funzionamento complessivo del Sistema di Controllo Interno e Gestione dei Rischi. I presidi di controllo di terzo livello, rappresentati in Poste Italiane dalla funzione Controllo Interno, forniscono *assurance* indipendente sull'adeguatezza e sull'effettiva operatività del primo e secondo livello di controllo e, in generale, sul SCIGR.

Attività di *assurance* del SCIGR

La funzione Controllo Interno assume una posizione rilevante nel sistema di controllo interno e gestione dei rischi, in quanto è responsabile dell'attività di controllo di terzo livello.

L'azione della funzione Controllo Interno per l'anno 2022 è proseguita in continuità con l'impostazione adottata negli anni precedenti, ed è stata ispirata dalle seguenti linee strategiche:

- salvaguardare il conseguimento degli obiettivi del Piano Industriale e la *Sustainability*;
- sostenere la *Governance* di Gruppo;
- promuovere creazione di valore, efficienza e *leadership* agile.

Nella seduta del 22 febbraio 2022, il Consiglio di Amministrazione, sentiti i pareri preventivi del Comitato Controllo Rischi e del Collegio Sindacale, ha preso atto della Relazione di Valutazione SCIGR 2021 approvandola e, nella medesima sessione, ha approvato il Piano di *Audit* per l'anno 2022. La Relazione, elaborata in coerenza con i requisiti di *Corporate Governance* delle società quotate e le disposizioni di vigilanza, ha tenuto conto degli esiti delle attività di *audit* effettuate nel 2020 sulla base dei Piani *Audit* di tutte le funzioni di Controllo coinvolte e del quadro generale dello SCIGR del Gruppo Poste Italiane, considerando gli impatti connessi agli interventi organizzativi adottati, alle evoluzioni intervenute ed agli eventi verificatisi nel corso dell'anno. La Relazione ha espresso la valutazione complessiva del Sistema di Controllo Interno e Gestione dei Rischi del Gruppo Poste Italiane in modalità di "*Positive Assurance*", rilevando che, sulla base di quanto riscontrato, alla data della menzionata relazione

e per il periodo di riferimento della stessa, tale sistema è risultato complessivamente adeguato al contenimento dei rischi che minacciano il perseguimento degli obiettivi aziendali.

La Relazione ha fornito contestualmente una rappresentazione per processo dei principali esiti di *audit*, dei vari contributi al rafforzamento dello SCIGR e la sintesi delle attività di controllo interno svolte nell'anno di riferimento

Il 22 febbraio 2022 il Consiglio di Amministrazione di Poste Italiane ha altresì approvato il **Piano di Audit 2022** della funzione Controllo Interno, elaborato, sulla base di un consolidato approccio metodologico, secondo una logica di valutazione sistemica rispetto al livello di rischio potenziale dei principali processi (compresi i rischi ex D.Lgs. 231/01) in coerenza con il *framework Enterprise Risk Management* (ERM) e con gli obiettivi aziendali. Il Piano di *Audit* 2022 è stato impostato secondo logiche di *assurance* agli Organi di Governo e Controllo, nonché di supporto al *management* sulle tematiche di controllo interno, garantendo una copertura adeguata e progressiva nel tempo dei processi riferibili alle Società controllate del Gruppo Poste Italiane. L'approccio utilizzato assicura compatibilità e coerenza con gli *standard* e le *best practice* internazionali in tema di controllo interno.

Gli orientamenti strategici sono stati:

- assicurare il conseguimento del Piano Strategico rispetto agli obiettivi Industriali e di Sostenibilità;
- promuovere il cambiamento e il miglioramento dei processi in termini di efficacia ed efficienza dei sistemi di controllo, tenendo conto di quelli considerati critici/maggiormente significativi da parte del *management*, con un approccio integrato alle tematiche di sicurezza;
- sostenere la *Governance* in tutta l'articolazione organizzativa aziendale e del Gruppo garantendo, in modalità integrata, un'attività di valutazione indipendente sui processi caratterizzati da rilevanti vincoli normativi (D.Lgs. 231/01, L. 262/05) e/o da specifiche prescrizioni di Vigilanza (Banca d'Italia, CONSOB, IVASS, COVIP, AGCom, ecc.), nonché soddisfare le esigenze di controllo dei soggetti vigilati del Gruppo con particolare riguardo alle rispettive normative di riferimento (ad esempio Banco Posta ecc...).

Il Piano di *Audit* 2022, strutturato per incrementare il dinamismo e l'efficienza della struttura matriciale valorizzando le *performance* professionali, ha garantito complessivamente livelli di copertura triennale elevata per circa il 90% dei processi dell'*Audit Universe*, di cui circa il 24% in ottica di *continuous auditing*, molti dei quali sottoposti a vincoli normativi o a vigilanza, e copertura Media per circa il 40% dei processi.

Il Piano 2022 ha interessato gli ambiti di erogazione di prodotti/servizi Assicurativi, Finanziari e Transazionali (con *audit* su circa 1600 strutture), nonché i processi Postali e di Logistica (circa 110 strutture). Le attività previste hanno coperto, inoltre, i principali processi di gestione delle risorse quali l'IT (con *audit* su 14 processi/applicativi), gli immobili e gli acquisti (3 strutture), le risorse umane (42 strutture), i processi amministrativo-contabili (15 strutture) e vari ambiti di *compliance* (21 strutture). Infine, a presidio del sistema di controllo interno e di gestione dei rischi dell'intero Gruppo Poste Italiane, 10 Società del Gruppo sono state oggetto di *audit* nell'anno 2022.

Il programma di attività previsto dal documento di Piano *Audit* 2022, sfruttando l'esperienza del biennio precedente, ha garantito la saturazione delle risorse anche attraverso lo svolgimento di attività di *audit* da remoto; infatti, la funzione Controllo Interno, capitalizzando gli impatti generati dall'emergenza sanitaria per il Covid-19, ha ulteriormente incrementato gli sforzi di innovazione ed evoluzione degli strumenti informatici di supporto, nonché definito e sviluppato modalità operative alternative per lo svolgimento delle attività di controllo; ciò ha consentito di attenuare l'impatto delle assenze generate dal Covid-19 che, nel corso del 2022, hanno fatto registrare un incremento di circa il 800% rispetto allo stesso periodo dell'anno precedente.

La funzione Controllo Interno, al fine di potenziare l'efficacia del presidio del sistema di controllo di Gruppo, ha ulteriormente integrato le attività di verifica da eseguire sulle Società del Gruppo prive di una propria funzione di *internal audit*, in continuità con le linee adottate negli anni precedenti.

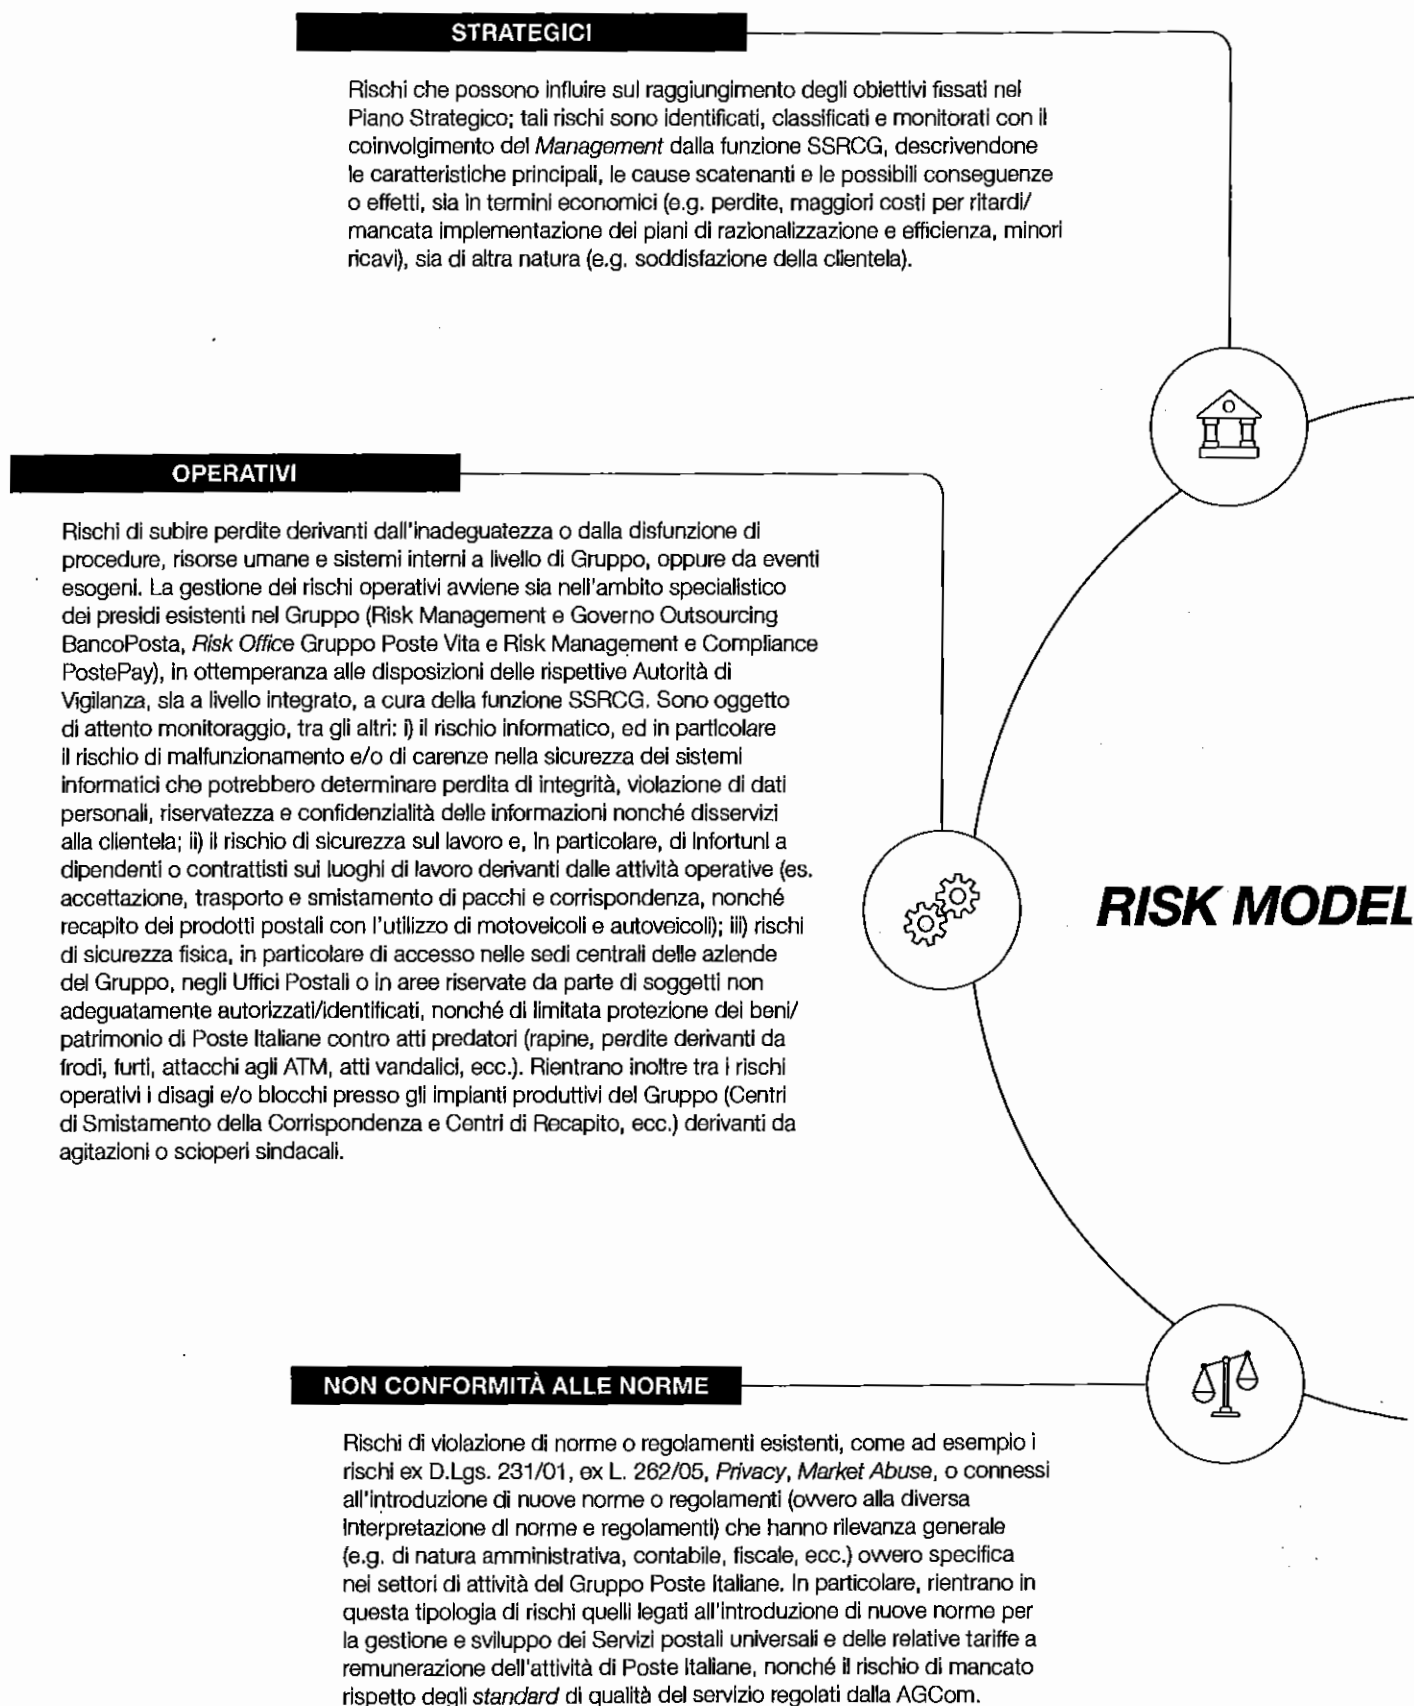

In continuità con il biennio precedente, per le Società del Gruppo maggiormente significative non dotate di una propria funzione di *internal auditing* le suddette attività sono state regolate da appositi accordi attuativi sottoscritti con le Società SDA Express Courier, Poste Air Cargo S.r.l. e Postel S.p.A.

Modello di *Risk Management* e analisi dei rischi

Poste Italiane ha implementato un sistema di gestione dei rischi basato sul *framework* di *Enterprise Risk Management* (ERM), finalizzato a fornire una visione organica e integrata e una risposta univoca ed efficace ai rischi a cui il Gruppo è esposto. La funzione Sviluppo Sostenibile, *Risk* e *Compliance* di Gruppo ("SSRCG"), nell'ambito della funzione Corporate Affairs, ha il compito di garantire tali obiettivi, principalmente attraverso la definizione di un processo di *risk management* integrato che coinvolga in modo coordinato tutti gli attori del Sistema di Controllo Interno e Gestione dei Rischi e, in particolare, i diversi presidi di controllo specialistico di secondo livello, l'armonizzazione dei modelli e delle metriche rispetto ai criteri di Gruppo, il disegno e l'implementazione di strumenti comuni di analisi e gestione dei rischi. A tal ultimo riguardo, a partire dal 2018 è stata implementata la Piattaforma GRC di Gruppo (*Governance, Risk & Compliance*) di supporto al processo di *risk management* integrato. Lo strumento informatico consente l'analisi e la gestione dei rischi operativi, ex D.Lgs. 231/01, di frode, di sicurezza IT, strategici, ESG, reputazionali, fiscali, sicurezza fisica, *Compliance* Integrata, *privacy* e corruzione nonché di *compliance* alle norme applicabili ai servizi finanziari e di pagamento. Inoltre, nel corso del 2022 la piattaforma è stata ulteriormente ampliata attraverso implementazioni evolutive e lo sviluppo di nuove funzionalità con riferimento ai moduli già esistenti. Si realizza così lo strumento per la massima integrazione del processo di *risk management* di Gruppo, in grado di assicurare la condivisione delle metodologie di analisi dei rischi tra tutte le funzioni di presidio specialistico che operano al 2° livello di controllo, il miglioramento della comunicazione verso i vertici e gli organi aziendali e tra le funzioni di controllo, nonché la minimizzazione del rischio di informazioni carenti o ridondanti.

Di seguito si riportano le principali categorie di rischio connesse alle attività del Gruppo Poste Italiane, come individuate nel *Risk Model* di Gruppo.

REPUTAZIONALI

Rischi che possono derivare da una percezione negativa da parte degli *stakeholder* del Gruppo, per i quali il *framework* adottato prevede l'attivazione di un intervento di analisi e di gestione (*stakeholder engagement*) al fine di intercettare e valutare le fonti di rischio. Tra gli elementi di rischio reputazionale a cui l'attività del Gruppo è fisiologicamente esposta, si rileva l'andamento delle *performance* di mercato riconducibile prevalentemente al collocamento dei prodotti del risparmio postale e di strumenti di investimento emessi da soggetti terzi (obbligazioni, *certificates* e quote di fondi immobiliari) ovvero da parte di Società del Gruppo (polizze assicurative emesse dalle controllate Poste Vita e Poste Assicura e fondi comuni di investimento gestiti da BancoPosta Fondi SGR), nonché la qualità del servizio percepita ed erogata sui servizi legati all'attività di corrispondenza e recapito pacchi.

ESG

Rischi derivanti da fattori riconducibili a problematiche ambientali, sociali e di *governance* (in particolare, collegati ai diritti umani, ai cambiamenti climatici e alla finanza sostenibile).

DI GRUPPO

FINANZIARI E ASSICURATIVI

Rischi finanziari che sono regolamentati e vigilati dalle Autorità (Banca d'Italia e IVASS) e presidiati dalle strutture di Risk Management dei rispettivi settori, coordinati dal referente unico in ambito Sviluppo Sostenibile, Risk e Compliance di Gruppo. I rischi della gestione finanziaria attengono principalmente all'operatività del Patrimonio BancoPosta e del Patrimonio Separato IMEL di PostePay (gestione attiva della liquidità raccolta su conti correnti postali, gestione di incassi e pagamenti in nome e per conto di terzi), alle operazioni di finanziamento dell'attivo e impiego della liquidità propria nonché, per quanto riguarda il Gruppo assicurativo Poste Vita, agli investimenti effettuati a copertura delle obbligazioni contrattuali assunte nei confronti degli assicurati. I rischi della gestione assicurativa attengono alla stipula dei contratti assicurativi e delle condizioni previste nei contratti stessi (basi tecniche adottate, calcolo del premio, condizioni di riscatto, ecc.). Con riferimento alla Compagnia Poste Vita, sotto il profilo tecnico i principali fattori di rischio sono quelli relativi alla mortalità, ossia ogni rischio riconducibile all'aleatorietà della durata della vita degli assicurati, e ai riscatti.

GPO

Con particolare riferimento alle attività di *assessment* dei principali rischi di Poste Italiane, oltre alla consueta attività di analisi del contesto interno, si è posta particolare attenzione al contesto esterno, anche in considerazione degli obiettivi generali del Paese per una ripresa economica sostenibile, nonché in considerazione dell'attuale contesto geopolitico caratterizzato da una forte instabilità, anche alla luce della crisi umanitaria ed energetica causate dal conflitto tra Russia e Ucraina. In particolare, le attività di *risk assessment* si sono dapprima incentrate sull'analisi dei rischi e delle opportunità legate alla gestione dei temi materiali, e successivamente, sulla base di tale analisi, sono state approfondite alcune tipologie di rischio che possono avere un impatto trasversale su tali temi, quali il cambiamento climatico, la tutela dei diritti umani e i rischi emergenti. In particolare, con riferimento ai diversi temi materiali, sono stati analizzati:

Climate change

I rischi legati al cambiamento climatico, categorizzati in rischi di transizione e rischi fisici, nonché le opportunità collegate e le specifiche azioni di mitigazione, in considerazione sia degli impatti che i fenomeni legati al cambiamento climatico possono avere sul *business* di Poste Italiane, che di quelli che le attività di Poste Italiane possono avere sul clima (La gestione dei rischi e delle opportunità legati al cambiamento climatico)

Tutela dei diritti umani

I potenziali rischi che possono compromettere il rispetto dei diritti umani, sia nell'ambito delle attività proprie di Poste Italiane che in relazione ad attività affidate a terzi/ condotte con i *partner* (L'impegno di Poste Italiane nella gestione dei rischi legati ai diritti umani)

Rischi Emergenti

I rischi emergenti che consistono in eventi esogeni con caratteristiche *disruptive* che possono minacciare il modello di *business* su un lungo orizzonte temporale e che sono potenziali *game changer*, quali l'attuale instabilità geopolitica (La gestione dei rischi emergenti e delle opportunità correlate)

Rischi associati ai temi materiali

I potenziali rischi correlati alla strategia di sostenibilità di Poste Italiane nonché alle tematiche di sostenibilità rilevanti per Poste Italiane (Identificate attraverso il processo di analisi di materialità (Rischi associati ai temi materiali e modalità di gestione)

Le attività di analisi dei principali rischi per Poste Italiane sono state svolte tenendo in considerazione le forme di capitale finanziario e non-finanziario che caratterizzano il modello di *business* del Gruppo. Inoltre, tali attività di analisi sono state condotte adottando le *common metrics* definite dal World Economic Forum, tenendo conto del loro impatto rispetto al raggiungimento degli Obiettivi di Sviluppo Sostenibile. In particolare, ciascun rischio è stato classificato in base a tali metriche, evidenziandone altresì la correlazione rispetto ai pilastri di Sostenibilità di Poste Italiane e ai rispettivi temi materiali. Un esempio di tale attività di *assessment* è riportato nell'ambito del paragrafo, relativo ai rischi emergenti.

6.3 Rischi associati ai temi materiali e modalità di gestione

PRINCIPALI CAPITALI COLLEGATI

Con l'obiettivo di assicurare un'efficace integrazione dei fattori ambientali, sociali e di *governance* all'interno della strategia e nei processi aziendali, è stata effettuata un'analisi dei rischi legati ai temi materiali identificati, individuando gli *stakeholder* coinvolti, l'impatto su Poste Italiane e sugli *stakeholder*, le principali modalità di gestione adottate dal Gruppo e i correlati capitali finanziari e non finanziari.

6.4 L'impegno di Poste Italiane nella gestione dei rischi legati ai diritti umani

PRINCIPALI CAPITALI COLLEGATI

Al fine di monitorare e gestire rischi e opportunità relativi ai diritti umani in tutte le loro forme, la "Politica aziendale in materia di tutela e protezione dei Diritti Umani" si pone come uno strumento utile a definire un approccio chiaro sulla gestione delle attività di Poste Italiane e di quelle affidate a terzi o condotte con i *partner*, a conferma dell'impegno del Gruppo nella realizzazione di un'attività di investimento e di gestione socialmente responsabile.

Poste Italiane ha adottato una specifica "*Policy Diversity & Inclusion*" allo scopo di incentivare una cultura aziendale basata sul rispetto e sulla valorizzazione della diversità, in linea con quanto già affermato all'interno del Codice Etico e nella Politica Aziendale in materia di tutela e protezione dei Diritti Umani. La Politica, inoltre, ha lo scopo di definire le modalità di creazione di valore all'interno degli ambienti lavorativi, valorizzando la diversità in tutte le sue forme e valutando i rischi collegati al verificarsi di discriminazioni dentro l'Azienda.

Inoltre, il modello di gestione dei rischi di Gruppo prevede, attraverso l'applicazione di procedure di *risk assesment*, l'individuazione periodica delle attività aziendali e delle aree organizzative che potrebbero comportare un rischio di violazione dei diritti umani. Tale processo è svolto almeno annualmente, nonché in funzione di specifiche esigenze (ad esempio, previa autorizzazione di una qualsiasi operazione societaria) ed è strutturato come segue:

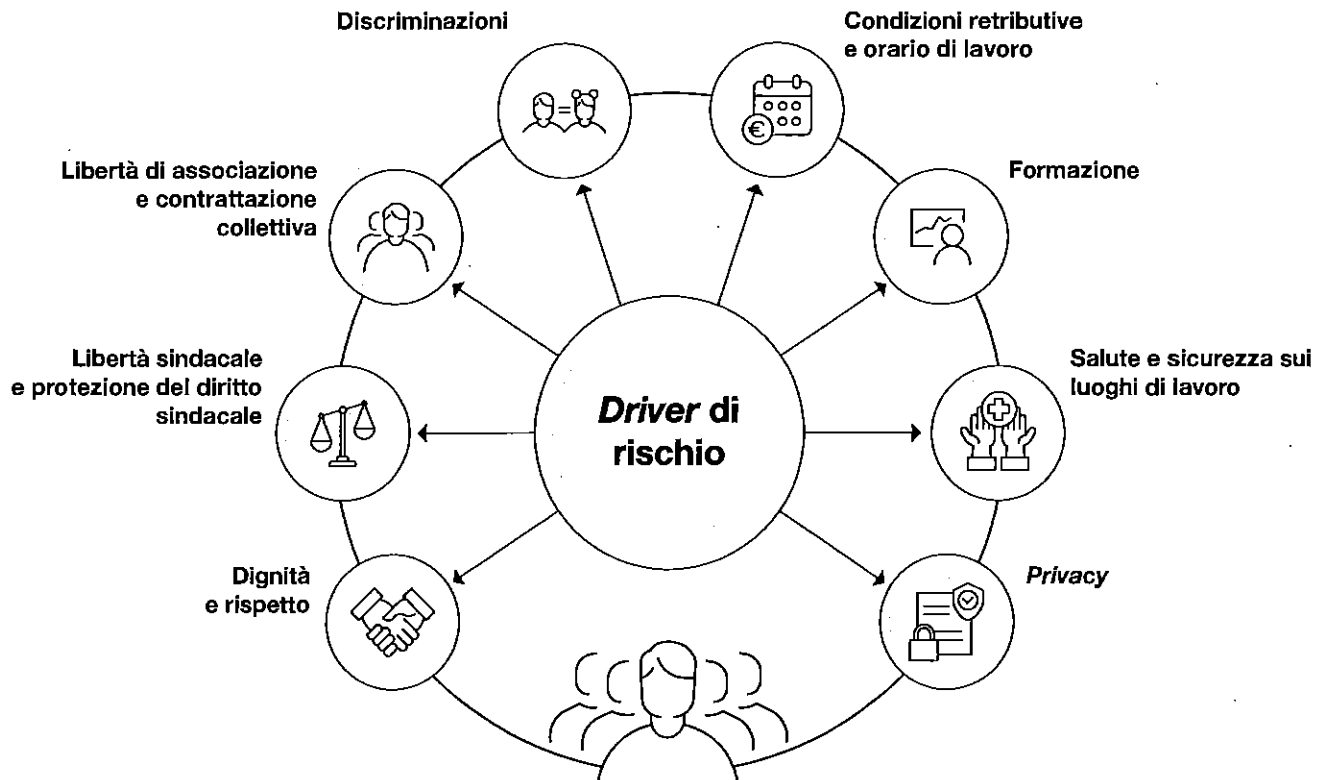

- identificazione dei *driver* di rischio legati ai diritti umani (es. libertà di associazione, dignità e rispetto diritti umani, discriminazione, parità retributiva, lavoro forzato, traffico di esseri umani, lavoro minorile, ecc.);
- identificazione e analisi dei *driver* più rilevanti rispetto al *business* di Poste Italiane;
- esecuzione di un *assessment* con lo scopo di:
 - identificare le aree maggiormente esposte al rischio di violazione dei diritti umani;
 - identificare misure atte alla mitigazione di tale rischio (es. certificazioni, linee guida, politiche, accordi contrattuali, *due diligence*, formazioni, *audit*, ecc.);
 - definire potenziali piani di azione nel caso tali misure fossero assenti o inadeguate;
 - monitorare l'implementazione dei piani di azione.

L'esito di tale attività è riportato all'interno della seguente *heatmap* di rischio al fine di prioritizzare le eventuali modalità di intervento in base al livello di rischio di ciascuna area analizzata.

In particolare, tali attività vengono individuate sia in funzione degli impatti diretti, ossia generati direttamente dalla Società, che in funzione degli impatti indiretti, ossia generati da parti terze che collaborano con la Società. Le analisi si concentrano da un lato sulle operazioni proprie di Poste Italiane, con riferimento alla tutela dei diritti umani dei propri dipendenti e degli ulteriori *stakeholder*, e dall'altro sulle attività svolte da terze parti connesse alla Società, quali fornitori, sub-fornitori, clienti, comunità locali, comunità finanziaria. Inoltre, le analisi sono altresì svolte previa approvazione di nuove relazioni commerciali e operazioni societarie, quali ad esempio fusioni, acquisizioni, *joint venture* e *partnership*.

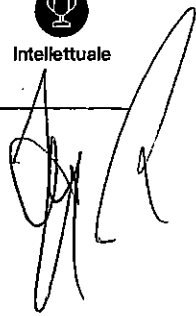

Si riportano di seguito i diversi *driver* che sono stati individuati come maggiormente rilevanti rispetto al *business* di Poste Italiane. Tali *driver* sono stati considerati al fine di identificare e analizzare i rischi legati ai diritti umani, diretti e indiretti, in relazione ai diversi temi materiali e ai capitali finanziari e non finanziari, nonché per l'individuazione delle specifiche azioni di mitigazione.

6.5 La gestione dei rischi e delle opportunità legate al cambiamento climatico

PRINCIPALI
CAPITALI COLLEGATI

Poste Italiane è consapevole della rilevanza che l'Azienda assume in termini di capillarità all'interno del territorio in cui opera. Pertanto, il Gruppo si pone l'obiettivo di ridurre il proprio impatto ambientale e contribuire alla transizione *low-carbon* dell'economia del Paese.

Considerando la rilevanza dell'identificazione dei potenziali impatti economici derivanti dai rischi legati al cambiamento climatico, il Gruppo adotta un approccio responsabile nello svolgimento delle proprie attività.

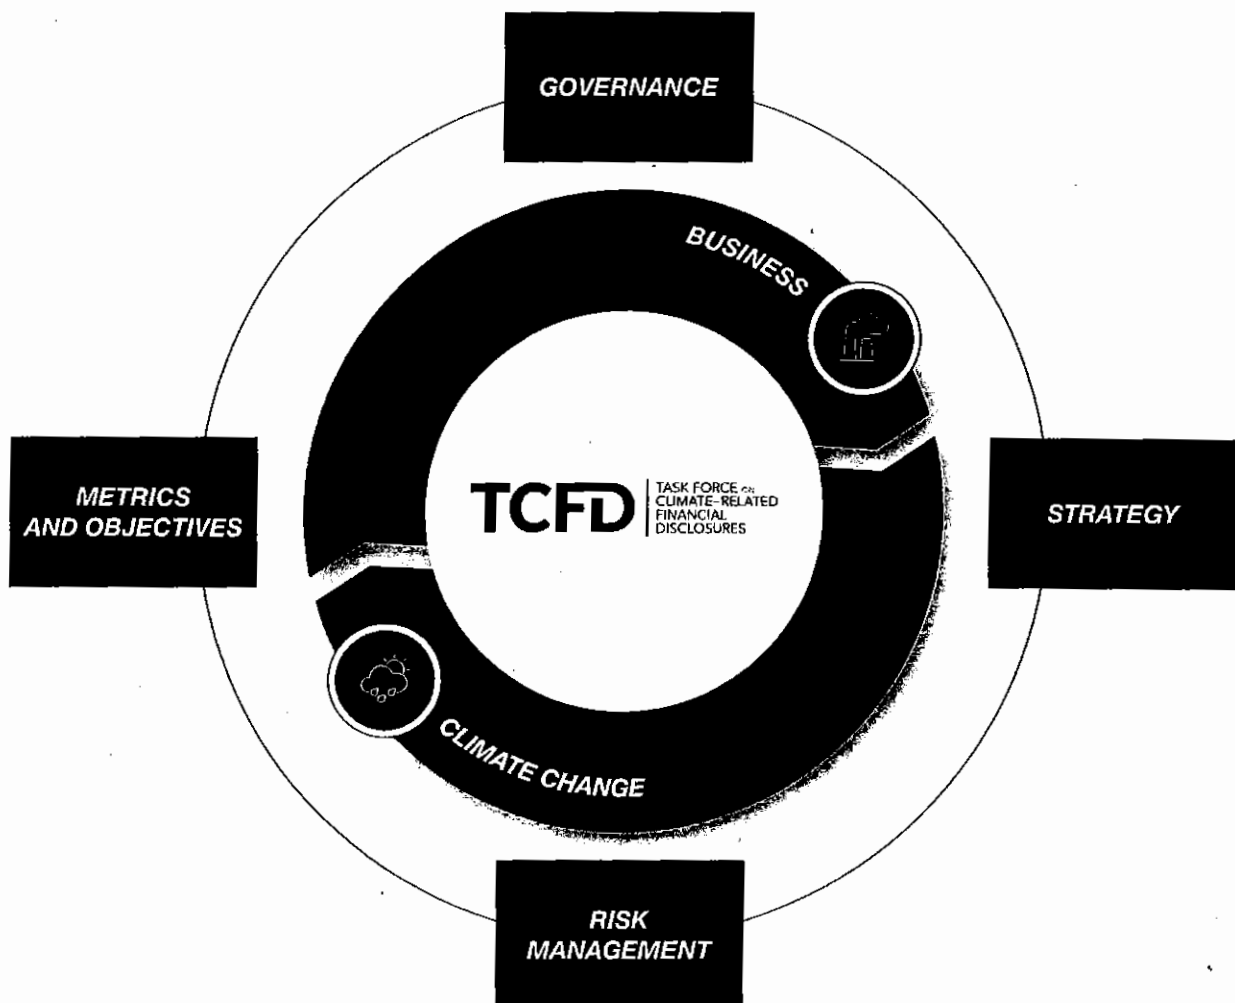

Tale impegno è in linea con quanto espresso nella nuova edizione del "Global Risks Report" pubblicata dal World Economic Forum a gennaio 2023. Il documento traccia le percezioni sui rischi globali tra gli esperti del settore e i *leader* mondiali a vari livelli, esaminandoli in cinque categorie: economici, ambientali, geopolitici, sociali e tecnologici. Il *report* rivela come i primi tre rischi globali da affrontare nel corso del prossimo decennio siano tutti ambientali. Al lato si riporta la classifica dei "5 Top Global Risk" individuati nel *report*.

15 Top Global Risk

- 1 **Failure to mitigate climate change**
(incapacità di migliorare i cambiamenti climatici)
- 2 **Failure of climate change adaptation**
(incapacità di adattarsi ai cambiamenti climatici)
- 3 **Natural disaster and extreme weather event**
(Disastri naturali ed eventi meteorologici estremi)
- 4 **Biodiversity loss and ecosystem collapse**
(Perdita di biodiversità e collasso degli ecosistemi)
- 5 **Large scale involuntary migration**
(Migrazione involontaria su larga scala)

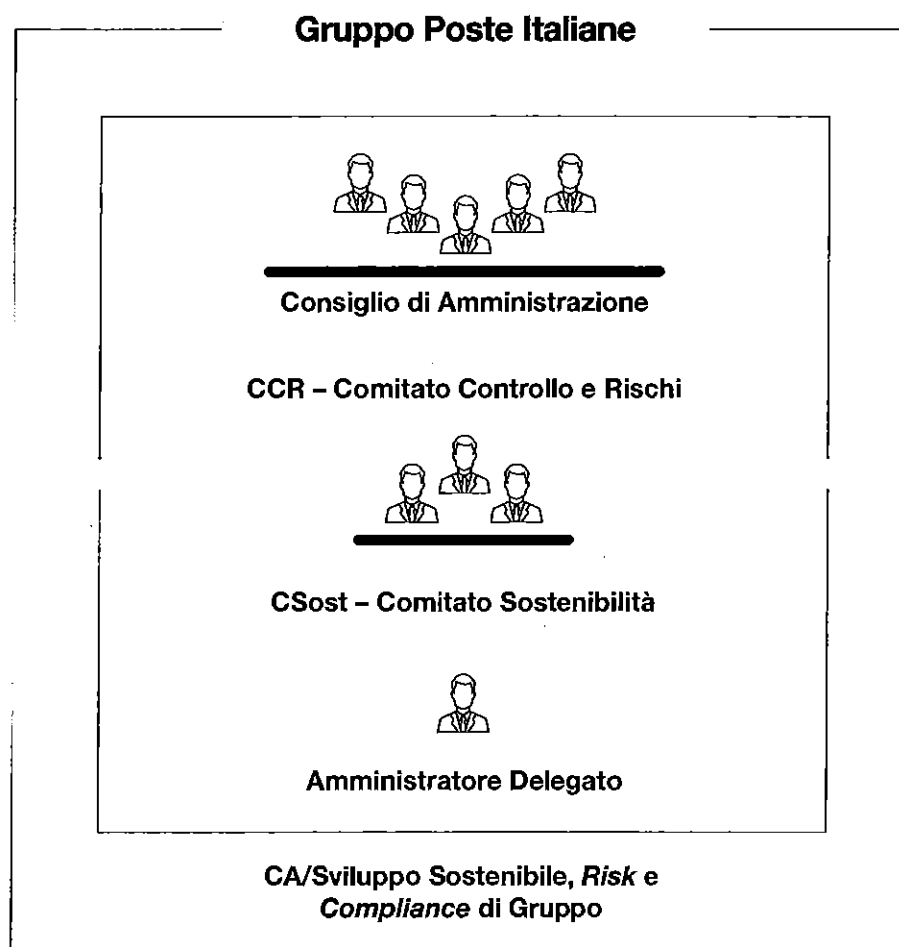

10 anni

Poste Italiane, in accordo con i principali *trend* normativi e in risposta alle crescenti richieste da parte della comunità finanziaria e dei principali *stakeholder*, rendiconta le informazioni riguardanti il cambiamento climatico sulla base degli ambiti definiti dalla Task Force on Climate-related Financial Disclosures (TCFD): *Governance*, *Strategia*, *Gestione dei Rischi*, *Metriche e Obiettivi*. La TCFD, istituita nel 2015 dal Financial Stability Board (FSB), ha pubblicato una serie di raccomandazioni al fine di assistere le società nella rendicontazione delle informazioni sui rischi e le opportunità che il cambiamento climatico può comportare per le *performance* aziendali, in modo trasparente e completo.

La presente sezione integra e completa le informazioni riguardo l'impegno, l'approccio e le iniziative a favore della riduzione dell'impatto ambientale presenti all'interno del Pilastro "Transizione *green*".

Governance

L'assetto organizzativo e di *governance* rispecchia l'impegno del Gruppo nella corretta gestione delle tematiche ambientali, e prevede ruoli e responsabilità specifiche.

- Il Consiglio di Amministrazione di Poste Italiane S.p.A. approva le linee guida e le strategie di Sostenibilità sulla base di valutazioni che considerano, tra le altre cose, i rischi e le opportunità legati al cambiamento climatico che possono risultare rilevanti in termini di reputazione per il Gruppo.
- Il Comitato di Sostenibilità (CSost) ha il compito di coadiuvare il Consiglio di Amministrazione, con funzioni istruttorie, propositive e consultive, nel perseguire il successo sostenibile, anche attraverso il supporto nelle valutazioni e decisioni relative ai fattori ambientali, sociali e di *governance*.

504

Nello specifico, il CSost svolge, nell'ambito delle sue funzioni, un'attività dedicata specificamente al cambiamento climatico. Il Comitato infatti esamina, valuta e formula proposte in materia di strategia ambientale, sociale e di *governance* (quest'ultima con riferimento alla Sostenibilità) del Gruppo, comprese le strategie relative al cambiamento climatico, gli obiettivi annuali e i risultati da raggiungere, tenendo in considerazione i potenziali progetti relativi a tali tematiche e monitorandone l'attuazione nel tempo. Inoltre, il CSost monitora i rischi e le opportunità legati al clima e tutte le iniziative intraprese dall'Azienda per fronteggiare tali questioni coordinandosi con il Comitato Controllo e Rischi e fornendone informativa al Consiglio di Amministrazione. A livello manageriale, le principali funzioni specifiche relative alle tematiche ambientali sono affidate all'Amministratore Delegato e alla funzione Sviluppo Sostenibile, *Risk* e *Compliance* di Gruppo. L'AD di Poste Italiane S.p.A. ha infatti il compito di istituire, mantenere e assicurare l'efficacia del Sistema di Controllo Interno e Gestione dei Rischi (SCIGR), nonché di formulare le strategie di Sostenibilità connesse alle tematiche ambientali e di presiedere alla loro attuazione, monitorandone continuamente l'adeguatezza e l'efficacia, sempre considerando la valutazione dei rischi e delle opportunità collegati.

La funzione Sviluppo Sostenibile, *Risk* e *Compliance* di Gruppo di Poste Italiane S.p.A., istituita all'interno della funzione *Corporate Affairs*:

- definisce, in collaborazione con le funzioni coinvolte, gli indirizzi e gli obiettivi di Sostenibilità e responsabilità sociale d'impresa per l'Azienda, attraverso l'identificazione di un set di indicatori per il monitoraggio delle *performance* di Sostenibilità, e l'utilizzo di specifiche metriche impiegate al fine di monitorare rischi e le opportunità legate al clima, in linea con le *best practice* e le relative linee guida internazionali;
- costituisce, grazie al contributo delle unità specialistiche a suo diretto riporto (c.d. "presidi diretti") e degli altri presidi di rischio (c.d. "presidi indiretti") presenti in Poste Italiane e nelle Società del Gruppo, il presidio di riferimento unico per il governo e la gestione di tutti i rischi.

Infine, con lo scopo di identificare e gestire correttamente i rischi e le opportunità legati al clima anche per i processi di investimento e di assicurazione, sono stati istituiti ulteriori presidi. Relativamente ai processi di investimento, BancoPosta Fondi SGR e Poste Vita hanno istituito dei comitati responsabili di analizzare e valutare periodicamente il rischio ESG (compreso, quindi, anche il rischio ambientale) dei portafogli e i criteri di valutazione dei profili ESG degli emittenti. Per quanto riguarda i processi di assicurazione, invece, la funzione *Risk Office* di Poste Vita si occupa di individuare, analizzare e valutare i segnali di cambiamento derivanti dalle diverse dimensioni dell'ambiente esterno, con particolare attenzione ai fattori legati ai cambiamenti climatici. L'individuazione di tali segnali avviene congiuntamente al "Comitato Prodotti – Valutazioni ESG", che esamina e valuta periodicamente i criteri per la definizione dei profili ESG e del catalogo prodotti del Gruppo.

Poste Italiane considera diversi *driver* di rischio, riconducibili ai due macro-ambiti rischi di transizione e rischi fisici, per classificarli relativamente al cambiamento climatico. Dopo l'individuazione e l'associazione dei rischi a ciascun *driver*, l'Azienda ha proseguito collegando i temi materiali e capitali impattati, definendo le opportunità e i potenziali impatti negativi correlati e individuando le azioni di mitigazione specifiche da attuare. Durante il processo di valutazione dei rischi, Poste Italiane ha tenuto in considerazione sia le proprie attività dirette, che le operazioni di *upstream* e *downstream*, includendo infine i clienti in quanto principali beneficiari dei prodotti dell'Azienda. Il Gruppo ha definito attività e azioni per il *business* rispetto a prospettive di breve (0-3 anni), medio (3-5 anni) e lungo termine (5-10 anni), considerando l'arco temporale 2019-2030.

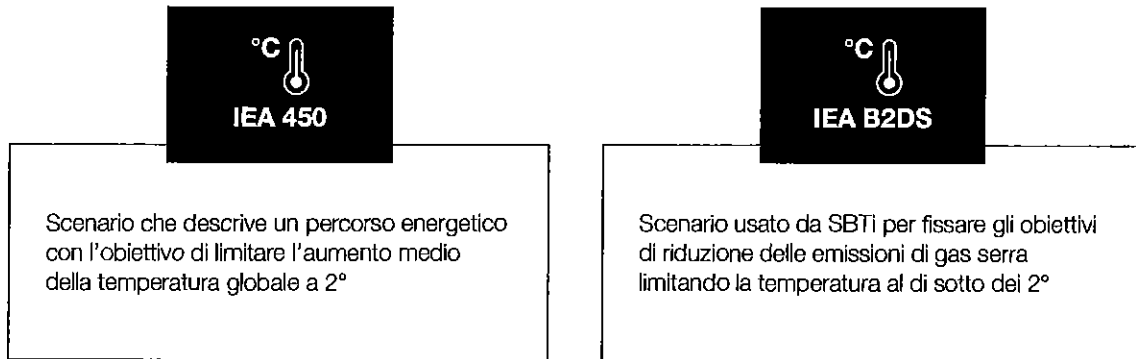

Poste italiane sostiene la transizione verso un'economia a basse emissioni di carbonio attraverso il suo impegno nella riduzione di emissioni nelle operazioni commerciali comprese nel Piano Industriale, coerentemente al raggiungimento della Carbon Neutrality entro il 2030, e in supporto all' Accordo di Parigi nella limitazione del riscaldamento globale a 1,5°C.

Relativamente ai rischi di transizione, considerando le organizzazioni International Energy Agency (IEA) e Intergovernmental Panel on Climate Change (IPCC) e la principale letteratura in tema come riferimento, il Gruppo ha eseguito una verifica di diversi scenari per avere un quadro sui potenziali sviluppi futuri. In particolare, Poste Italiane ha impiegato, dopo una valutazione delle possibili alternative, due scenari, IAE 450 e IEA B2DS, ritenuti i più coerenti il lasso temporale previsto per i beni e le attività, e di conseguenza i più adatti al *business* e agli obiettivi del Gruppo rispetto all'allineamento verso il mantenimento della temperatura globale ad 1,5°C.

Lo scenario IEA 450 descrive un percorso energetico coerente con l'obiettivo di contenere l'aumento medio della temperatura globale a 2°C, limitando la concentrazione di gas serra nell'atmosfera a circa 450 parti per milione di CO₂ equivalente. Entro l'anno 2030, lo scenario prevede che il settore energetico sia fortemente caratterizzato dalle energie rinnovabili, con un netto miglioramento dell'efficienza dei veicoli e dei processi, e una diffusa sostituzione del carbone con il gas naturale nella produzione di energia. In quest'ottica, a partire dal 2019, il Gruppo ha implementato un Piano di Rinnovo che prevede la sostituzione completa dell'intero parco veicoli con modelli di nuova generazione a propulsione elettrica, ibrida ed endotermica a basse emissioni, che garantiranno una riduzione dei consumi energetici. Al fine di misurare il valore generato dalla sostituzione della flotta, Poste Italiane ha adottato una specifica metodologia di valutazione degli investimenti che combina la tradizionale prospettiva finanziaria con quella non finanziaria, il cosiddetto "True Value bridge". Tale metodologia è uno strumento utile a elaborare una pianificazione strategica integrata che consenta di creare valore condiviso tra Azienda e territorio, identificando gli impatti netti generati dalla flotta *green* rispetto a quelli che genererebbe una flotta tradizionale⁸².

Lo scenario IEA B2DS è stato preso in considerazione, anche data la rilevanza attribuitagli da SBTi (Science Based Target Initiative) per fissare gli obiettivi di riduzione delle emissioni di gas serra. Il focus è sulle ipotesi di sviluppo di politiche climatiche e di tecnologie per ridurre le emissioni di gas serra. Poste Italiane si è impegnata ufficialmente, infatti, a fissare *target science-based* per le proprie emissioni di gas serra.

L'analisi di scenario condotta dall'Azienda, oltre a considerare le ipotesi di base dei modelli, ha preso in considerazione i *trend* del settore dei trasporti e la stima delle previsioni e dello sviluppo nei prossimi anni. Il Gruppo ha successivamente effettuato delle proiezioni del proprio *business* volte all'identificazione di rischi e opportunità collegate. Il perimetro dell'analisi ha coinvolto il settore della logistica, includendo, quindi, i trasporti, gli edifici e le strutture, *asset* chiave per il *business* dell'Azienda e per l'obiettivo di Carbon Neutrality.

A valle delle diverse attività di analisi, i rischi di transizione individuati da Poste Italiane risultano essere i seguenti:

1. EVOLUZIONE NORMATIVA

I risultati ottenuti si presentano, sia per BancoPosta Fondi SGR che per Poste Vita, superiori rispetto alla <i>performance</i> ESG del <i>benchmark</i> di riferimento.</p> <p>Inoltre, a partire dal 2022 il Gruppo è entrato nel mercato dell'energia con un'offerta 100% <i>green</i> nella luce e 100% compensata in termini CO₂ per il gas. Nell'ambito della strategia che il Gruppo Poste Italiane ha avviato al fine di perseguire gli obiettivi definiti in materia di Sostenibilità, acquista particolare rilevanza anche l'integrazione di principi ESG nei processi di investimento, attraverso investimenti in settori che contribuiscono agli Obiettivi di Sviluppo Sostenibile ("SDGs") (es. investimenti in bond Inquadrabili nelle categorie "Green", "Social" e "Sustainable" in linea con gli <i>standard</i> e i principi definiti dall'<i>International Capital Market Association</i>).</p>

3. EVOLUZIONE TECNOLOGICA E INNOVAZIONE

RISCHIO	POTENZIALI IMPATTI SIGNIFICATIVI PER POSTE ITALIANE	PRINCIPALI AZIONI E STRUMENTI PER LA GESTIONE DEL RISCHIO

In quest'ottica, a partire dal 2019, il Gruppo ha implementato un Piano di Rinnovo della flotta che prevede la sostituzione dell'intero parco veicoli impiegati per il recapito dei prodotti postali con mezzi "green". I risultati di questa politica sono evidenti, in quanto l'Azienda è passata dall'11% di mezzi green del 2016 al 37% del 2022, aumentando più del doppio questa percentuale rispetto al 2021, con l'obiettivo di sostituire l'intera flotta aziendale con mezzi a basse emissioni entro il 2024, determinando una riduzione di CO₂ pari a quella di circa 80.000 alberi.</p> <p>Tale impegno viene rafforzato anche in relazione alle iniziative intraprese dal Gruppo a supporto dei Piccoli Comuni. A tal proposito, l'Azienda punta ad offrire servizi ad emissioni zero in 800 piccoli Comuni ed in 35 centri storici entro il 2024.</p> <p>Poste Italiane ha inoltre ampliato la rosa dei servizi offerti grazie all'ingresso nel settore energetico, con un prodotto 100% green, prodotto esclusivamente in Italia da fonti rinnovabili e certificata tramite garanzie d'origine. Questo progetto permette al Gruppo di correlare le tematiche legate alla transizione green con quelle di innovazione e digitalizzazione, rappresentando al contempo una grande opportunità di sviluppo sostenibile a livello nazionale.</p> <p>Infine, nell'ambito del nuovo Progetto Polis, è prevista la realizzazione presso gli Uffici Postali di interventi improntati alla sostenibilità ambientale e alla crescita sociale delle comunità. In particolare, è prevista l'installazione di 5.000 mila colonnine di ricarica per veicoli elettrici, di 1.000 impianti fotovoltaici che contribuiranno all'abbattimento delle emissioni di CO₂, 1.000 spazi esterni attrezzati per accogliere iniziative culturali, di salute e benessere, e di 4.800 sistemi di <i>smart building</i> e sensori di monitoraggio ambientale. Inoltre, fornendo la possibilità di accedere ai servizi della Pubblica Amministrazione da uno Sportello Unico e attraverso la realizzazione di spazi di <i>co-working</i>, verranno ridotti gli spostamenti dei cittadini e il conseguente congestionamento di strade e uffici pubblici, permettendo la riduzione delle emissioni di CO₂.</p>

4. REPUTAZIONE

RISCHIO	POTENZIALI IMPATTI SIGNIFICATIVI PER POSTE ITALIANE	PRINCIPALI AZIONI E STRUMENTI PER LA GESTIONE DEL RISCHIO

Il processo di identificazione e valutazione dei rischi e delle modalità di gestione ambientale si estende anche alle controparti (fornitori, <i>business partner</i>, altre società), impattando i processi di approvvigionamento e le eventuali operazioni di finanza straordinaria, prevedendo, tra l'altro, l'identificazione dei fornitori e dei <i>partner</i> che possono presentare rischi collegati alla salvaguardia dell'ambiente, anche attraverso un'analisi multidimensionale che prende in considerazione parametri, quali: possesso di certificazioni ambientali, di qualità e delle prestazioni energetiche e adozione di sistemi di gestione ambientale, <i>standard</i> etici di comportamento e Criteri Ambientali Minimi (CAM).</p> <p>La corretta identificazione e valutazione dei rischi e delle opportunità "<i>climate-related</i>" è assicurata anche dalle attività di ascolto degli <i>stakeholder</i> che sono periodicamente coinvolti nell'ambito del <i>Forum Multistakeholder</i> organizzati da Poste Italiane. Viene inoltre messo a disposizione un sistema di segnalazione che consente loro di portare all'attenzione dell'Azienda eventuali rischi percepiti.</p> <p>Poste Italiane, in linea con la strategia di decarbonizzazione e in attuazione delle linee guida per l'esercizio del diritto di voto ed attività di <i>engagement</i> e per l'investimento in settori sensibili, attraverso le partecipate Poste Vita e BancoPosta Fondi SGR è entrato a far parte di <i>Climate Action 100+</i>, un'iniziativa di <i>engagement</i> collaborativo internazionale per sensibilizzare i più grandi emittenti di gas a effetto serra a livello mondiale sulle tematiche del <i>climate change</i>.</p> <p>Poste Italiane è orientata al perseguimento dello sviluppo sostenibile continuando ad investire in progetti volti al rafforzamento delle iniziative in ambito ESG. Al fine di ridurre gli impatti diretti che le attività di Poste Italiane possono avere sul clima, l'Azienda sta costantemente avanzando nel ricorso a fonti energetiche che non utilizzano combustibili fossili (es. energia solare da pannelli fotovoltaici sugli immobili) e nella riduzione del consumo energetico (es. sostituzione delle lampade al neon e utilizzo di led), anche al fine di fronteggiare potenziali repentini cambiamenti di prezzi dell'energia. Tra gli altri, Poste Italiane, in coerenza con l'adesione all'Accordo di Parigi e al <i>New Green Deal</i>, si è posta l'ambizioso obiettivo di dare il suo contributo al raggiungimento degli obiettivi internazionali di <i>carbon neutrality</i> entro il 2030, in largo anticipo rispetto alla tempistica definita dall'Unione Europea.</p>

Relativamente alla valutazione dei rischi fisici, la *Governance* di Poste Italiane dedicata ai rischi e alla sostenibilità, in linea con quanto sviluppato dall'IPCC su scala mondiale in materia di proiezioni climatiche, ha aggiornato la propria metodologia di valutazione del rischio climatico e idrico per avere un quadro chiaro sul rischio e sulla valutazione dei potenziali rischi fisici e delle possibili opportunità. In tal senso, l'Azienda ha effettuato una valutazione puntuale, comprendendo nell'analisi tutti i siti produttivi e di smistamento del Gruppo situati in diverse aree d'Italia.

Nello specifico, Poste Italiane, a seguito di un ampio processo di analisi che ha previsto la valutazione dei principali Percorsi Rappresentativi di Concentrazione (*Representative Concentration Pathways*, RCP) di gas serra, e la coerenza di tali percorsi con la durata dei beni e delle attività, ha individuato e scelto due scenari: RCP 2.6 e RCP 8.5. Il Gruppo seleziona l'RCP 2.6 come scenario di riferimento, in considerazione della natura ambiziosa delle attività di mitigazione dei rischi previste dal Piano Industriale relativamente al panorama identificato dall'IPCC. Lo scenario RCP 2.6 prefigura un picco delle emissioni in una fase iniziale, con una successiva diminuzione causata dalla rimozione attiva dell'anidride carbonica all'interno dell'atmosfera. L'RCP 2.6 è anche conosciuto come RCP 3PD, in relazione al picco di metà secolo di $-3W/m^2$ a cui seguirà un declino importante. Con l'obiettivo di azzeramento delle emissioni di gas serra entro il 2100, questo scenario si avvale di un massiccio intervento in tema di regolamentazione e *policy*, che conduce ad una riduzione quasi immediata delle emissioni di gas serra (GHG). L'Azienda considera anche lo scenario "RCP 8.5" dell'IPCC, in quanto fornisce un esempio del *worst-case scenario*, ovvero della condizione di aumento continuo di emissioni durante il corso del XXI secolo. Il percorso RCP 8.5 deriva da un insufficiente sforzo di riduzione delle emissioni e rappresenta un fallimento nell'arginare il riscaldamento entro il 2100. Relativamente alle proiezioni climatiche rispetto ai due scenari, infatti, per RCP 8.5 le aree geografiche del Mediterraneo subiranno un incremento di temperatura e una riduzione delle precipitazioni, che registreranno un'intensificazione nella seconda metà del secolo con un *trend* crescente fino al 2100. Secondo lo scenario RCP 2.6, invece, ci saranno effetti simili ma di minor intensità nella prima metà del secolo, con un *trend* di decremento nella seconda metà. Questo porta ad una netta differenza tra i due scenari nel 2100.

Poste Italiane ha svolto un *risk assessment* con l'obiettivo di valutare i potenziali impatti derivanti da eventi fisici legati all'evoluzione dei cambiamenti climatici sul *business*. Il *risk assessment* ha considerato l'entità del rischio già esistente nei siti e il rischio futuro fino all'anno 2024 (scenario di medio termine), in un'ottica di scenario RCP 2.6 e RCP 8.5. Oltre alle ipotesi di base dei modelli scelti, l'Azienda ha inoltre condotto un ulteriore studio relativo ai dati derivanti dai parametri di precipitazione e di temperatura principali dei diversi scenari, confrontandoli poi con i dati attuali con l'obiettivo di determinare l'importanza della variazione rispetto al rischio esistente nei siti esaminati, in linea con lo scenario RCP 2.6 e tenendo in considerazione le possibili implicazioni del *worst case scenario* di RCP 8.5. Le proiezioni future dei cambiamenti dei livelli di rischio fisico legati alle catastrofi naturali sono rilevanti in termini strategici, anche se nella maggior parte dei casi non vi è ancora certezza. D'altra parte, è necessario evitare un'eccessiva fiducia in quello che è già noto dalla scienza del clima. Pertanto, la valutazione del rischio di Poste Italiane è adeguata al livello di rischio crescente nel proprio *business* e operazioni.

La valutazione dei rischi fisici copre la totalità dei ricavi generati dal Gruppo, pari a, nel 2022, € 11,9 mld delle operazioni esistenti provenienti principalmente dagli Uffici Postali e dagli *hub*, siti potenzialmente maggiormente impattati da condizioni climatiche estreme. Inoltre, in ottica di orizzonte temporale di lungo termine, in linea con il Piano Industriale e l'obiettivo di Carbon Neutrality al 2030, tutte le nuove operazioni sono sottoposte a *risk assessment* che tengono in considerazione anche i rischi fisici climatici.

Il risultato di prodotto del *risk assessment* viene successivamente convertito in giorni potenziali di interruzione dell'attività e poi moltiplicato per il valore in termini di ricavi persi (euro) di un giorno di interruzione dell'attività. I rischi principali che sono emersi dall'analisi di scenario sono quelli relativi agli eventi meteorologici estremi e ai cambiamenti nell'andamento delle precipitazioni. La maggiore gravità degli eventi meteorologici estremi quali piogge, temporali, nevicate e possibili alluvioni o gelate, con conseguenti frane e inondazioni, potrebbe causare interruzioni della produzione, dello smistamento e quindi delle attività logistiche, nonché danni ai siti e maggiori costi logistici. La *performance* finanziaria del Gruppo, e quindi i risultati e i flussi di cassa sono impattati negativamente dal verificarsi tali danni fisici acuti e dall'interruzione della distribuzione di energia, con un conseguente peggioramento della reputazione e perdita di fiducia da parte dei clienti. Ne sono un esempio le alluvioni verificatesi a Genova nel

2016, 2019 e 2020 a seguito delle quali il Gruppo ha collaborato con le istituzioni nazionali e locali, nonché le più recenti alluvioni verificatesi in Sicilia nel 2018, 2020 e 2021. Tali eventi hanno comportato il danneggiamento degli Uffici Postali di Poste Italiane, con conseguente sospensione dei servizi. Fenomeno di natura simile si è verificato a Ischia nell'ottobre 2022, dove la sede di Poste Italiane ha rappresentato un punto di riferimento per la popolazione, un luogo dove poter incontrare nuovamente i vicini di cui non si avevano notizie e raccogliere le prime informazioni su ciò che era accaduto sul resto dell'isola.

Proprio in considerazione di una possibile interruzione dell'attività, Poste Italiane ha effettuato un'analisi basata sui propri stabilimenti di produzione e smistamento dislocati in diverse zone d'Italia. In questo modo il Gruppo ha potuto valutare i potenziali impatti finanziari legati agli eventi climatici, rispetto al 2024. I siti con il maggiore impatto finanziario potenziale dovuto alle inondazioni nel 2024 sono situati nelle regioni dell'Italia settentrionale. In particolare, i nuovi *hub* di Bologna e Landriano sono stati identificati tra i siti a maggior rischio e che comporterebbero consistenti perdite di ricavi in caso di interruzione dell'attività, a causa della loro rilevanza operativa. Relativamente ai rischi fisici, il Gruppo prevede specifiche misure di mitigazione in risposta a condizioni climatiche estreme (es. frane, valanghe, inondazioni, ecc.), di seguito esplicitate all'interno della tabella.

Protezione Civile, Difesa Civile) e si intreccia con gli enti preposti e con gli organismi internazionali di protezione e di difesa (es. partecipazione a esercitazioni o altre iniziative, ecc.)</p>

Nell'ottica del continuo miglioramento della gestione dei fattori climatici e ambientali e del loro impatto sui diversi rischi prudenziali, nei primi mesi del 2023, BancoPosta Fondi, PostePay e LIS Pay, in qualità di intermediari finanziari non bancari, si sono allineate alle raccomandazioni della Banca d'Italia per quanto riguarda le "Aspettative di vigilanza sui rischi climatici e ambientali". I tre istituti hanno dunque avviato i lavori per la predisposizione di un piano d'azione finalizzato all'integrazione dei rischi climatici e ambientali (fisici e di transizione) nei sistemi di governo e controllo, nel modello di *business* e nella strategia aziendale, nel sistema organizzativo e nei processi operativi, nel sistema di gestione dei rischi e nell'informativa al mercato.

6.6 La gestione dei rischi emergenti e delle opportunità correlate

PRINCIPALI
CAPITALI COLLEGATI

Poste Italiane ha ritenuto necessario includere e gestire i rischi emergenti all'interno dei processi di *risk management*, data la rilevanza degli stessi. I rischi emergenti considerati consistono in eventi esogeni con caratteristiche *disruptive* che possono influenzare il modello di *business* su un orizzonte temporale di lungo periodo (fino a 20 anni) e che rappresentano potenziali fattori di cambiamento per il settore e il contesto di riferimento in cui operano le organizzazioni. Solitamente, i rischi emergenti sono caratterizzati da elementi, quali:

- incertezza e visibilità: assenza di dati utili ad analizzare il fenomeno e difficoltà nel reperire competenze, conoscenza e consapevolezza in merito agli effetti potenziali che questi hanno sul modello di *business*;
- *timing* dei mutamenti: i mutamenti derivano da cambiamenti radicali del contesto esterno di riferimento (socio-ambientale, legislativo, tecnologico, abitudini, ecc.) che alterano i processi sotto diversi punti di vista, in modo distruttivo e non prevedibile nel tempo;
- complessità gestionale: complessità crescente delle modalità di gestione, relativa all'assenza di azioni di risposta immediate agli eventi derivanti da fattori esogeni fortemente interconnessi e con forti dipendenze sistemiche ed accelerazioni temporali.

Il mancato adeguamento a questi *trend* comporta la perdita di opportunità di *business*, riduzione dei ricavi, ricadute quali-quantitative in termini di *mix* dei propri dipendenti, sanzioni da parte delle Autorità di regolamentazione e controllo. Le tabelle che seguono sintetizzano, per ciascun rischio emergente, i *trend* provenienti da fattori esogeni, i potenziali impatti significativi per l'Azienda (attraverso l'indicazione delle SBU, delle categorie di rischio, dei pilastri di sostenibilità e dei capitali finanziari e non potenzialmente impattati, nonché attraverso la declinazione dei principali impatti negativi e le opportunità) e le principali modalità di gestione.

INVECCHIAMENTO DELLA POPOLAZIONE:

Aumento della longevità unito al basso tasso di natalità con conseguente modifica sfavorevole a Poste Italiane della distribuzione generazionale della clientela

PRINCIPALI TREND	POTENZIALI IMPATTI SIGNIFICATIVI PER POSTE ITALIANE	PRINCIPALI MODALITÀ DI GESTIONE DEL RISCHIO
<p>Il processo di invecchiamento della popolazione è un fenomeno già ben visibile nelle economie dell'area euro, destinato ad accentuarsi nei prossimi decenni, con una riduzione della popolazione in età lavorativa rispetto a quella più anziana che invece tenderà ad aumentare.</p> <p>In Italia, in particolare, si registra maggiore longevità in buone condizioni di salute e minore natalità, insieme alla riduzione del numero di donne in età fertile.</p> <p>L'invecchiamento potrebbe influenzare in misura molto rilevante anche la crescita economica e avere un impatto negativo sulla produttività. Tale aspetto è accentuato anche dalla modifica degli equilibri tra popolazione attiva e popolazione pensionata nonché dalla irregolare e poco elevata capacità reddituale del più giovani con conseguenti effetti sfavorevoli sul sistema previdenziale.</p> <p>Tuttavia, l'innalzamento dell'aspettativa di vita e l'aumento dell'età media potrebbero supportare la nascita di nuovi mercati e nuovi <i>business</i>.</p> <p>Trend: Increasing</p> <p>Rischi Impattati:</p> <ul style="list-style-type: none"> • Operativi • Finanziari e Assicurativi <p>SBU Impattate:</p> <ul style="list-style-type: none"> • Servizi Assicurativi • Corrispondenza, Pacchi e Distribuzione • Pagamenti e Mobile • Servizi Finanziari <p>Pilastri e temi rilevanti Impattati:</p> <p> Diversità e Inclusione</p> <p>Tutela dei diritti umani in azienda; Pari opportunità nei percorsi di carriera.</p> <p><i>Prosegue</i></p>	<p>Impatti negativi:</p> <ul style="list-style-type: none"> • Inadeguatezza dei prodotti offerti (es. piani tariffari per telefonia mobile) e dei servizi postali (es. eccessiva digitalizzazione dei servizi) per le mutate esigenze dei consumatori • Aumento degli oneri assicurativi sostenuti dal Gruppo correlati alla cura, all'assistenza e alle spese previdenziali destinate agli anziani • Difficoltà di sviluppare modelli previsionali attendibili che consentano al Gruppo di prevedere le evoluzioni nel mercato <p>Opportunità:</p> <ul style="list-style-type: none"> • Aumento delle opportunità di <i>business</i> dovuto alle variazioni nei bisogni dei consumatori, basandosi sul soddisfacimento delle esigenze della popolazione più matura • Aumento della domanda di prodotti assicurativi ramo vita e del ramo danni 	<p>Il Gruppo, consapevole delle opportunità legate all'invecchiamento della popolazione e in considerazione del forte impatto del trend demografico sui propri servizi, ha sviluppato prodotti specifici per fasce di popolazione con bisogni in evoluzione quali, ad esempio, il prodotto assicurativo "Postaprotezione Infortuni Senior Più" specificamente dedicato alle persone di età compresa tra i 59 e i 79 anni. Ogni prodotto offerto dall'Azienda è accompagnato da informazioni chiare e fruibili a tutte le tipologie di clientela al fine di consentire loro di prendere sempre scelte consapevoli.</p> <p>Poste Italiane ha lanciato il Programma "Silver Economy" dedicato al <i>senior</i>, con l'obiettivo di gestire in un unico quadro sinergico tutte le azioni del Gruppo dedicate a questo importante segmento di popolazione. Si tratta di un pacchetto di servizi finanziari e di risparmio, assicurativi, di telefonia, di spedizione e consegna, soluzioni ideali studiate su misura per la specifica clientela, ponendo Poste Italiane come interlocutore unico in grado di soddisfare diversi bisogni. Il programma ha l'obiettivo di contribuire a migliorare la conoscenza degli strumenti finanziari e digitali, attraverso un percorso di formazione condotto da esperti finanziari e digitali di Poste Italiane.</p> <p>Poste Italiane promuove strategie integrate a favore del dialogo e dello scambio intergenerazionale all'interno dell'Azienda, anche in considerazione delle prospettive demografiche e dei relativi impatti sul <i>turnover</i>. A tale scopo, il Gruppo promuove la contaminazione delle differenti esperienze sociali, culturali e lavorative, oltre che delle diverse abilità, conoscenze e competenze tipiche di ciascuna generazione, incoraggiando il confronto in una logica di complementarità e apertura necessaria a favorire lo scambio di esperienze a supporto dell'inclusione e possibilità di impiego. In particolare, nell'ambito delle azioni a sostegno dello scambio intergenerazionale all'interno dell'organizzazione, promuove la survey "Generazioni connesse", iniziativa che si pone in continuità con il progetto "FishBowl generation", che ha l'obiettivo di focalizzare linguaggi, stili di lavoro e fabbisogni delle principali generazioni presenti in Azienda per identificare e valorizzare azioni condivise in grado di stimolare l'alleanza generazionale.</p> <p><i>Prosegue</i></p>

POTENZIALI IMPATTI SIGNIFICATIVI PER POSTE ITALIANE

Impatti negativi:

- Possibili ricadute economiche legate ad una eventuale recessione globale, con conseguente riduzione dei consumi in relazione ai prodotti offerti da Poste e difficoltà nell'affrontare la ripresa
- Adozione di nuovi modelli di lavoro, che possono creare una maggiore esposizione agli attacchi informatici e all'utilizzo fraudolento dei dati
- Difficoltà nella gestione tempestiva di nuove pandemie e impossibilità di garantire la continuità aziendale nell'erogazione dei propri servizi
- Amplificazione e accelerazione degli effetti dei principali rischi esistenti o emergenti (es. interruzione delle catene di approvvigionamento necessarie all'esecuzione delle attività di *business* di Poste Italiane e gestione a distanza del personale)
- Focalizzazione dell'attenzione sullo sviluppo della pandemia, con impatti reputazionali dovuti alla riduzione dell'impegno su tematiche ESG (es. riduzione degli investimenti in ambito ambientale)

Opportunità:

- Aumento dell'efficienza e della produttività dovuta all'adozione di modelli di *smart working* e di soluzioni digitali a supporto del *business*
- Accelerazione della transizione verso la digitalizzazione, con conseguente aumento della domanda dei prodotti digitali offerti da Poste Italiane
- Aumento delle opportunità di *business* dovute alle variazioni nei bisogni dei consumatori, basandosi sul soddisfacimento delle esigenze determinate dagli effetti della pandemia sull'evoluzione del contesto socio-economico
- Riduzione dei costi (es. trasferte; gestione Immobiliare)

PRINCIPALI MODALITÀ DI GESTIONE DEL RISCHIO

L'esperienza maturata nell'ambito della gestione dell'emergenza sanitaria derivante dalla diffusione del Covid-19, ha permesso al Gruppo di sviluppare modalità operative che hanno consentito di ridurre notevolmente i potenziali impatti sulla continuità aziendale (es. misure organizzative di rimodulazione operatività per la rete di sportelli e per le attività logistico-postali; acquisto di portatili e *software* per l'esecuzione delle attività in modalità *smart working*; ampliamento e rafforzamento degli strumenti per la connessione da remoto, gestione delle trasferte). In particolare, il Gruppo è stato attivamente coinvolto in un monitoraggio costante dell'evoluzione del virus, che ha consentito una gestione proattiva dei relativi effetti anche a lungo termine attraverso investimenti su nuove tecnologie, sulla sicurezza delle infrastrutture IT e sulla formazione del personale, rendendo possibile l'erogazione dei servizi nel rispetto dei protocolli di sicurezza necessari a contrastare la diffusione del Covid-19.

I presidi implementati durante la pandemia, potranno rappresentare risorse utili per la gestione di eventuali future condizioni di emergenza.

In particolare, la pandemia da Covid-19 ha favorito l'implementazione di *business model* improntati su una strategia omnicanale, forzando le aziende ad adottare modelli operativi liquidi e aperti che combinano innovazione tecnologica, la gestione dei dati a servizio dell'ecosistema e *operation* digitali e *customer oriented* per affrontare con successo i cambiamenti repentini del mercato. Difatti, la strategia omnicanale ha trasformato Poste Italiane in una *platform company*, resiliente rispetto alla pandemia e agli sconvolgimenti finanziari prodotti dalla guerra in Ucraina.

Con riferimento all'eventuale gestione di nuove misure emergenziali e/o di una nuova pandemia, il Gruppo può far leva su alcuni specifici punti di forza legati alla diversificazione delle attività, alla sua multicanalità e alla crescita del comparto digitale, che assicurano il servizio anche fuori dai tradizionali Uffici Postali. La maggior parte dei ricavi complessivi del Gruppo non sono legati all'attività commerciale di breve termine e il *business model* di BancoPosta è *capital light*, non assumendo rischio di credito.

Inoltre, l'attuale pandemia ha accelerato il percorso di digitalizzazione del Gruppo che ha, pertanto, non solo sviluppato prodotti e servizi digitali, sostenibili nel tempo, in ambito postale, assicurativo, finanziario e di pagamento, ma ha anche introdotto nuove modalità di vendita e di comunicazione con i clienti quali, ad esempio, l'introduzione del servizio di assistenza clienti intermediato dall'intelligenza artificiale via voce (*voicebot*) e *chat* (*chatbot* e *appbot*), con l'obiettivo di promuovere un radicale cambiamento culturale, organizzativo e tecnologico nel modello di assistenza, sollevando gli operatori dai compiti più ripetitivi, permettendo loro di dedicarsi ad attività che richiedono un intervento umano e alla gestione di situazioni più complesse ed emergenti. Poste Italiane, contestualmente alla gestione dell'emergenza sanitaria, è orientata al perseguimento dello sviluppo sostenibile continuando ad investire in progetti volti al rafforzamento delle iniziative in ambito ESG, come individuate nella strategia di Sostenibilità

INNOVAZIONI TECNOLOGICHE:

Conseguenze avverse per persone, imprese ed ecosistemi, dovute allo sviluppo di soluzioni tecnologiche innovative (es. disuguaglianze digitali, concentrazione del mercato digitale, ecc.)

PRINCIPALI TREND

La trasformazione digitale e i progressi tecnologici non hanno solo creato un ampio spettro di vantaggi per le società, ma hanno anche amplificato i rischi che devono essere compresi e gestiti. In particolare, lo sviluppo della tecnologia è un processo che genera impatti che si muovono in una duplice direzione: positiva, per le innovazioni che consentono di perseguire soluzioni più efficienti e sostenibili; negativa, per le conseguenze che robotica e *data center* possono avere sull'ambiente, in termini di emissioni inquinanti e consumi energetici.

Inoltre, in considerazione delle attività svolte da Poste Italiane, è necessario considerare che la *e-substitution* sta disegnando un nuovo perimetro del mercato, prodotto dagli sconfinamenti del mercato digitale (comunicazioni elettroniche) e del segmento Pacchi (soprattutto per effetto della diffusione del commercio elettronico), nonché modifiche sulle abitudini e sui modelli di comportamento della popolazione.

- Sviluppo di nuove tecnologie per irrobustire i processi di Poste Italiane
- Maggiore capacità rispetto ai *competitor* nella comprensione dei bisogni dei clienti, anche con riferimento ai *target* in "*digital divide*"
- Maggiore richiesta dei prodotti offerti da Poste Italiane, grazie alla fiducia dei clienti rispetto alla gestione delle tematiche *privacy* e di sostenibilità

PRINCIPALI MODALITÀ DI GESTIONE DEL RISCHIO

Innovazione e digitalizzazione costituiscono, per Poste Italiane, due *driver* centrali per il progresso strategico e consentono di garantire ai propri clienti soluzioni tecnologiche innovative, anche attraverso l'integrazione dei propri prodotti e servizi con quelli di terze parti.

Poste Italiane ha intrapreso un percorso di digitalizzazione che ha influenzato sia la propria offerta che i processi aziendali attraverso l'evoluzione del proprio modello di distribuzione in ottica omnicanale, che permette all'Azienda di erogare i servizi in maniera agile e al passo con i bisogni della clientela.

Attraverso un percorso di digitalizzazione dei servizi, Poste Italiane intende rendere disponibili soluzioni digitali integrate.

Sono altresì in evoluzione continua i canali di comunicazione con la clientela, che hanno portato allo sviluppo di soluzioni di *Artificial intelligence*. Tali soluzioni hanno diversi impatti positivi sia per i clienti che per l'Azienda, in quanto permettono di avere un servizio di assistenza clienti attivo 24 ore su 24, per 365 giorni l'anno, che contribuisce ad avvicinare e far familiarizzare parte della popolazione con sistemi tecnologici evoluti.

Tra le azioni finalizzate a ridurre il *digital divide*, già negli ultimi anni Poste Italiane ha intrapreso un percorso di educazione digitale della cittadinanza, realizzato anche attraverso l'organizzazione di diversi incontri di formazione con l'obiettivo di fornire un prezioso contributo alla digitalizzazione dell'Italia e attraverso l'ampliamento della sezione dedicata del sito internet con video pillole, giochi, infografiche, podcast e glossario.

Attraverso il programma, il Gruppo ha adottato un approccio fortemente inclusivo, al fine di facilitare e agevolare l'utilizzo delle nuove tecnologie a tutti i propri clienti e non solo.

Poste Italiane ha realizzato il progetto "*Smart Letter Box*", al fine di rinnovare le classiche cassette postali e dotare le stesse di tecnologie IoT e sensori. In aggiunta a sensori per il rilevamento della corrispondenza, le nuove *Smart Letter Box* di Poste Italiane sono state dotate di sensori in grado di rilevare determinati parametri quali la temperatura, l'umidità, la pressione atmosferica, la rilevazione delle polveri sottili e del biossido di azoto. Nel 2022 sono state oltre 400 cassette *smart* su tutto il territorio italiano, delle quali 300 nei piccoli Comuni.

Il Gruppo ha identificato nel capitale umano una risorsa di vitale importanza per l'innovazione. Per questo motivo, oltre a proseguire la sua politica di *open innovation* e di crescita inorganica con l'acquisizione o la partecipazione maggioritaria in alcune tra le aziende e le *startup* più Innovative, sta anche attuando una politica di "*reshoring*", assumendo e riportando a casa diversi "cervelli" emigrati per lavoro. In questo modo, l'Azienda contribuisce alla digitalizzazione e alla modernizzazione del Paese e combina la virtualizzazione dei servizi con una presenza costante e qualificata sul territorio.

Inoltre, con il nuovo Progetto Polis, Poste Italiane intende favorire la coesione economica, sociale e territoriale del Paese e il superamento del *digital divide* nei piccoli centri e nelle aree interne, dando un contributo diffuso, concreto e resiliente alle missioni volte a digitalizzare il Paese e a garantire una maggiore inclusione e coesione sociale. In particolare, la creazione di un'infrastruttura tecnologica innovativa per la fornitura di servizi alla cittadinanza e l'accompagnamento di PA, cittadini e imprese nell'adozione delle competenze digitali necessarie, riducendo i divari oggi esistenti, offrono gli strumenti per competere globalmente e rilanciare l'economia locale.

Il progetto Polis, lo SPID, il lancio di servizi di connessione con la fibra e l'entrata nel mercato dell'energia mostrano come Poste Italiane sia un facilitatore della trasformazione tecnologica del Paese.

Nell'ambito della *Cybersecurity* Poste Italiane ha ottenuto le seguenti certificazioni:

- ISO/IEC 27001/2013, norma per l'impostazione e la gestione di un sistema di gestione della sicurezza delle informazioni. Lo *standard* include anche i requisiti per la valutazione ed il trattamento dei rischi per la sicurezza delle informazioni personalizzati sulla base dei bisogni di ciascuna organizzazione.
- ISO 2000-1/2018, *standard* internazionale per la gestione dei servizi IT (*IT Service Management*) e incentrato sulla qualità degli stessi. Esso si basa sulla gestione del rischio, con l'obiettivo di ridurre al minimo i rischi associati a reazioni sempre più dure dei clienti in situazioni di "discrepanza" con le loro aspettative, esigenze e requisiti, inclusa la gestione degli incidenti, le richieste, la continuità, l'accessibilità, il livello di servizio, il catalogo dei servizi e la capacità del servizio.

Per poter garantire a livello di Gruppo il presidio delle attività di *cybersecurity* e *data protection*, e contrastare in maniera attiva la criminalità informatica, nel 2021 Poste Italiane ha istituito il CERT (*Computer Emergency Response Team*). Il *team* si compone di esperti di sicurezza informatica che esplicano le proprie funzioni operando in tempo reale 24 ore su 24 per prevenire i rischi, gestire gli incidenti informatici che colpiscono i sistemi aziendali e elaborare azioni in risposta ad eventi di tipo cibernetico, rafforzando in questo modo la capacità di difesa dell'intera Azienda. Inoltre, Poste Italiane collabora con la struttura CNAIPIC (Centro Nazionale Anticrimine Informatico per la Protezione delle Infrastrutture Critiche) della Polizia Postale.

Al fine di garantire adeguati livelli di riservatezza, integrità e disponibilità dei dati, delle informazioni e dei servizi erogati alla clientela, Poste Italiane ha inoltre sviluppato e adottato un apposito *framework Privacy*. La funzione *Privacy* garantisce un presidio unico a livello di Gruppo per tutte le responsabilità relative alle tematiche di *privacy* e supervisiona lo sviluppo del suddetto *framework*. Poste Italiane predispone la figura del *Data Protection Officer*, soggetto esperto di *privacy* che assume la responsabilità di osservare, valutare e indirizzare la gestione del trattamento dei dati personali, così come disposto dal GDPR. Poste Italiane, in linea con la strategia di decarbonizzazione e in attuazione delle linee guida per l'esercizio del diritto di voto ed attività di *engagement* e per l'investimento in settori sensibili, attraverso le partecipate Poste Vita e BancoPosta Fondi SGR è entrato a far parte di *Climate Action 100+*, un'iniziativa di *engagement* collaborativo internazionale per sensibilizzare i più grandi emittenti di gas a effetto serra a livello mondiale sulle tematiche del *climate change*.

I portafogli di BancoPosta Fondi SGR e Poste Vita sono periodicamente sottoposti ad analisi ESG per valutarne il grado di responsabilità sociale, e della *carbon footprint*, con l'obiettivo di mitigare eventuali rischi. I risultati ottenuti si presentano, sia per BancoPosta Fondi SGR che per Poste Vita, superiori rispetto alla *performance ESG del benchmark* di riferimento.

Nell'ambito della strategia che il Gruppo Poste Italiane ha avviato al fine di perseguire gli obiettivi definiti in materia di Sostenibilità, acquista particolare rilevanza anche l'integrazione di principi ESG nei processi di investimento, attraverso investimenti in settori che contribuiscono agli Obiettivi di Sviluppo Sostenibile ("SDGs") (es. investimenti in *bond* Inquadrabili nelle categorie "Green", "Social" e "Sustainable" in linea con gli *standard* e i principi definiti dall'*International Capital Market Association*).

Poste Italiane, in accordo con i principali *trend* normativi e in risposta alle crescenti richieste da parte della comunità finanziaria e dei principali *stakeholder*, rendiconta le informazioni riguardanti il cambiamento climatico sulla base degli ambiti definiti dalla TCFD: Governance, Strategia, Gestione dei Rischi, Metriche e Obiettivi. Per un maggior dettaglio si veda il paragrafo "La gestione dei rischi e delle opportunità legati al cambiamento climatico".

Al fine di ridurre gli impatti diretti che le attività di Poste Italiane possono avere sul clima, il Gruppo sta costantemente avanzando nel ricorso a fonti energetiche che non utilizzano combustibili fossili (es. energia solare da pannelli fotovoltaici sugli immobili) e nella riduzione del consumo energetico (es. sostituzione delle lampade al neon e utilizzo di led), anche al fine di fronteggiare potenziali repentini cambiamenti di prezzi dell'energia (già oggi il 99% del fabbisogno di energia elettrica del Gruppo Poste Italiane proviene da fonti rinnovabili).

Tra gli altri, Poste Italiane, in coerenza con l'adesione all'Accordo di Parigi e al *New Green Deal*, si è impegnata a ridurre le proprie emissioni del 30% entro il 2025 e si è posta l'ambizioso obiettivo di dare il suo contributo al raggiungimento degli obiettivi internazionali di *carbon neutrality* entro il 2030, in largo anticipo rispetto alla tempistica definita dall'Unione Europea.

EVOLUZIONE DEL SISTEMA DEI PAGAMENTI:

POTENZIALI IMPATTI SIGNIFICATIVI PER POSTE ITALIANE

Impatti negativi:

- Risposta non tempestiva di Poste Italiane ai *trend* emergenti in ambito pagamenti con conseguente perdita di quote di mercato
- Incapacità di mantenere attrattività verso la clientela tradizionale, potenzialmente più avversa ai canali digitali, per i servizi di pagamento elettronici di Poste Italiane
- Aumento dei concorrenti di Poste Italiane nel settore dei pagamenti (es. organizzazioni che introducono nuovi sistemi di pagamento)

Opportunità:

- Adozione di strategie di crescente personalizzazione dell'offerta di servizi di pagamento
- Adozione di nuove tecnologie estendibili all'attuale *target* clienti di Poste Italiane
- Segmentazione e differenziazione dell'offerta, attraverso l'ampliamento del *target* clienti di Poste Italiane (es. giovani)
- Creazione di un'offerta specifica per i clienti di Poste Italiane evoluti digitalmente

PRINCIPALI MODALITÀ DI GESTIONE DEL RISCHIO

Al fine di fornire nuove soluzioni di pagamento e di rispondere alle mutate esigenze dei propri clienti, Poste Italiane sta sviluppando nuovi servizi di pagamento digitale, intercettando e guidando le abitudini dei clienti nell'ambito della trasformazione digitale, attraverso la creazione di prodotti e servizi innovativi e in grado di semplificare la vita di tutti i giorni, quali ad esempio:

- Postepay Connect, il primo prodotto integrato in ambito pagamenti e *mobile* che consente di gestire, tramite un'unica app, i servizi di telefonia e di pagamento in modo intuitivo e sicuro;

- Codice Postepay, un'app che consente di acquistare nei negozi utilizzando un *QR Code* e di ottenere sconti e benefit presso i *partner* convenzionati. Nel corso dell'anno è stata evoluta l'esperienza d'uso della modalità di pagamento con Codice attraverso il lancio di "QR Code Web" (Codice Web), la soluzione che permette al titolare della carta di inquadrare il *QR code* generato automaticamente nella pagina di pagamento, senza *click* aggiuntivi.
- Accordi di collaborazione con *start up* per lo sviluppo di soluzioni innovative in ambito servizi finanziari e pagamenti;
- Nell'ottica dell'ampliamento dei servizi, PostePay S.p.A. ha reso disponibile la possibilità di effettuare pagamenti *contactless* anche ai clienti in possesso di iPhone, Apple Watch, iPad e Mac tramite Apple Pay, dando la possibilità di aggiungere la propria carta Postepay, prepagata o di debito associata al conto corrente BancoPosta, all'interno del *wallet* di Apple.

PRINCIPALI TREND

Il settore dei trasporti è soggetto ad una trasformazione profonda, spinta prevalentemente dalle innovazioni tecnologiche e dall'impatto che il digitale sta apportando alle abitudini, alle esigenze e alle preferenze di mobilità di passeggeri e imprese.

POTENZIALI IMPATTI SIGNIFICATIVI PER POSTE ITALIANE

Impatti negativi:

- Limitazione dell'operatività di Poste Italiane, con particolare riferimento alle attività di recapito, dovuta a restrizioni alla circolazione (es. blocco mezzi inquinanti)
- Limitata disponibilità di mezzi "green" adeguati all'espletamento delle attività logistiche e di recapito di Poste Italiane
- Impatti negativi sull'ambiente e sulla reputazione di Poste Italiane dovuti all'utilizzo di mezzi inquinanti

Opportunità:

- Diminuzione di consumi energetici totali del Gruppo da fonti non rinnovabili (es. combustibili fossili)
- Abbattimento delle emissioni connesse all'utilizzo dei mezzi che compongono la flotta aziendale
- Gestione più snella ed efficiente delle *operations*
- Riduzione dei costi

PRINCIPALI MODALITÀ DI GESTIONE DEL RISCHIO

Poste Italiane, consapevole che i mezzi utilizzati per lo svolgimento delle attività logistiche e di recapito non si prestano a nessun tipo di ottimizzazione, negli ultimi anni sta procedendo alla loro sostituzione con mezzi equivalenti a trazione elettrica, migliorando la propria flotta per ridurre le emissioni inquinanti in atmosfera. Tra le società del settore *utility*, Poste Italiane dispone di una delle più grandi flotte di veicoli commerciali 100% elettrici del Paese.

Nel corso dell'anno, Poste Italiane ha continuato ad implementare iniziative di sostenibilità, con particolare riferimento alla riduzione dell'impatto ambientale della flotta aziendale, attraverso l'impiego di ulteriori veicoli ad alimentazione alternativa (elettrico, metano e GPL).

Il Piano di Rinnovo della flotta, già attivato nel 2019 con l'obiettivo di sostituire l'intero parco veicoli impiegati per il recapito dei prodotti postali con mezzi *green*, è proseguito nel 2022 attraverso misure volte alla riduzione dei consumi energetici, minori emissioni in atmosfera, maggiore sicurezza e maggiore capacità di carico per la consegna. Poste Italiane ha dimostrato il suo impegno nel portare avanti il piano di rinnovamento completo del parco mezzi, incrementando la componente *green* della flotta stessa, tramite l'introduzione di auto e motocicli elettrici ed ibridi in linea con gli obiettivi ESG di riduzione del 40% delle emissioni. I risultati di questa politica sono evidenti, in quanto l'Azienda è passata dall'11% di mezzi *green* del 2016 al 37% del 2022, aumentando più del doppio questa percentuale rispetto al 2021, con l'obiettivo di sostituire l'intera flotta aziendale con mezzi a basse emissioni entro il 2024, determinando una riduzione di CO₂ pari a quella di circa 80.000 alberi.

Nel 2022 Poste Italiane ha completato l'infittimento di circa 2.000 elettrici ed ha acquistato 40 colonnine a doppia presa per la ricarica di furgoni elettrici, con successiva installazione prevista per il 2023. La flotta *green* ha raggiunto nel 2022 il 37% del totale della flotta di Poste Italiane.

Nei prossimi anni, nell'ambito degli obiettivi definiti nel Piano Strategico Poste Italiane punta a sostituire l'intero parco mezzi con 27.800 veicoli *green* di nuova generazione, a ridotto impatto ambientale dotati di propulsione elettrica, ibrida ed endotermica, arrivando a diminuire del 40% le emissioni inquinanti.

Per quanto riguarda l'acquisto di servizi logistici, Poste Italiane mantiene una condotta coerente con le tematiche di sostenibilità, selezionando e premiando i fornitori in linea con le tematiche ambientali, sociali e di *governance* di cui il Gruppo Poste Italiane si fa promotore. In particolare, l'Azienda effettua una verifica di idoneità tecnica professionale dei propri fornitori andando a richiedere, ai fini della qualifica, il possesso di specifici requisiti, tra cui composizione e tipologia di mezzi in flotta.

EVOLUZIONE DEL COMPORTAMENTO DEI CONSUMATORI IN FUNZIONE DELLO SCENARIO MACRO-ECONOMICO E DEI CAMBIAMENTI NELLE PREFERENZE DI ACQUISTO:

Cambiamenti delle abitudini di acquisto dei consumatori in funzione dello scenario macro-economico nonché delle esigenze e delle aspettative della clientela, che richiedono di cogliere in breve tempo tali mutamenti e di rispondere attraverso adattamenti operativi e produttivi anche profondi

PRINCIPALI TREND

Le logiche e le abitudini di acquisto sono in continuo cambiamento e con esso stanno evolvendo anche i bisogni e le esigenze del consumatore: l'ampliamento della gamma di offerta di prodotti e servizi sul mercato e l'immediata accessibilità agli stessi resa possibile dall'innovazione tecnologica, richiede alle aziende sempre maggiori sforzi per la fidelizzazione del cliente e per rispondere alle mutate esigenze degli stessi in termini di preferenze e *product experience*.

Inoltre, l'attuale contesto macro-economico – caratterizzato da forte instabilità, volatilità e persistente aumento dell'inflazione – incide sulla capacità di acquisto dei consumatori e sulle scelte di investimento (es. in funzione dei tassi di mercato).

In particolare, si sta assistendo a un radicale cambiamento che vede il momento dell'acquisto non più limitato unicamente alla valutazione, scelta ed eventuale acquisizione di un prodotto o servizio sulla base delle caratteristiche e del prezzo, bensì sempre più considerato come una vera e propria esperienza, in cui il consumatore è coinvolto in prima persona. Inoltre, i consumatori prestano sempre maggiore attenzione a tematiche sociali e ambientali nelle proprie decisioni di acquisto e sono disposti a pagare un premio per la sostenibilità dei prodotti e dei servizi che acquistano.

In uno scenario in continua evoluzione, permeato dai *device* mobili, le piattaforme di *social networking*, l'*e-commerce* e il *multichannel*, per le aziende risulta necessario stabilire rapporti di fiducia e complicità con la propria clientela, al fine di intercettare ogni cambiamento nelle esigenze e nei comportamenti di questi ultimi.

- Difficoltà di sviluppare modelli previsionali attendibili che consentano al Gruppo di prevedere le evoluzioni nel mercato
- Riduzione del potere di acquisto e modifica delle scelte di investimento dei consumatori che potrebbero avere effetti negativi sui margini e sulla liquidità di Poste Italiane, nonché sull'appetibilità dei prodotti offerti

Opportunità:

- Adozione di nuove tecnologie per velocizzare e semplificare l'accesso ai prodotti/servizi di Poste Italiane

- Maggiore capacità rispetto ai *competitor* nella comprensione dei bisogni dei clienti
- Sviluppo di prodotti e servizi orientati a tematiche sociali e ambientali

PRINCIPALI MODALITÀ DI GESTIONE DEL RISCHIO

Poste Italiane riserva particolare attenzione alla qualità dei prodotti e servizi offerti nell'ottica di migliorare costantemente la soddisfazione dei propri clienti, impegnandosi a rispettare tempi e modalità di esecuzione delle attività (livello di servizio e *performance*). In tale ottica, garantisce la riservatezza dei dati in suo possesso, la tutela della proprietà intellettuale e un efficace sistema di gestione della sicurezza informatica e *cybersecurity*.

L'Azienda effettua un duplice processo di monitoraggio, considerando sia la qualità erogata che la qualità percepita. Nello specifico, un sistema di KPI, costruito sulla base delle singole unità di *business*, rileva costantemente gli obiettivi e le *performance* dei servizi erogati e fornisce avanzamenti e *trend* al vertice attraverso reportistiche periodiche. Al fine di avviare la "connessione" tra le valutazioni dei clienti, le *performance* operative e i risultati dei *competitor*, Poste Italiane ha perseguito con maggiore intensità il percorso di sviluppo delle *connected experience*. Attraverso l'evoluzione della metodologia di *target setting*, Poste Italiane identifica le componenti rilevanti rispetto a ciascuna macroarea del Gruppo da considerare nelle misurazioni di *Customer Experience* al fine di coprire tutte le interazioni significative con i clienti. Inoltre, considerando il ruolo sempre più integrato e centrale del *Partner* di Poste Italiane nella definizione e sviluppo delle diverse componenti di servizio, è stato avviato un progetto strutturato di ascolto del *Partner* e dei clienti di reti terze, in coerenza con il modello di qualità percepita del Gruppo.

Per semplificare i processi, snellire l'iter amministrativo e velocizzare i tempi di ricezione delle pratiche presso la Pubblica Amministrazione, Poste Italiane ha sviluppato un nuovo servizio, "Poste in Pratica", rivolto alla Pubblica Amministrazione e ai cittadini per la consegna, il controllo, la digitalizzazione e l'invio di pratiche amministrative.

Inoltre, Poste Italiane utilizza un modello di ascolto per identificare le azioni prioritarie da realizzare, in ottica di miglioramento della *Customer Experience* e delle qualità del servizio offerto. Nello specifico, vengono analizzati i *verbatim*, risposte spontanee dei clienti sulle aree critiche riscontrate durante il *customer journey* con i prodotti e servizi offerti, le quali vengono successivamente tradotte in termini di *Net Promoter Score*, la misura in cui i clienti possano ritenersi soddisfatti tanto da raccomandare i prodotti o servizi dell'Azienda ad altri.

Il processo di ascolto continuo è garantito dal servizio di *Customer Feedback Management* che consente di inviare ai clienti sondaggi relativi alla qualità percepita, mettendo rapidamente a disposizione delle strutture competenti le risposte ottenute ed evidenziando le tematiche più ricorrenti sottolineate dalla clientela. Poste Italiane, inoltre, conferisce fondamentale importanza al confronto con le Associazioni dei Consumatori, adottando un approccio orientato a un confronto costruttivo e trasparente fra le parti. A tal fine, è stato istituito il "Cantiere Consumatori" (gruppo di lavoro e di consultazione permanente costituito da un singolo rappresentante di ogni Associazione e da esponenti del Gruppo). Nel corso dell'esperienza con il Cantiere sono nate molte iniziative di successo, come la *newsletter* "Dialogando con i consumatori", la quale fornisce informazioni sulle principali novità del mondo Poste Italiane e agisce da volano per ottenere nuovi spunti e segnalazioni.

Il Gruppo, oltre a contraddistinguersi per una struttura di *business* diversificata che consente di beneficiare di un costante effetto di fisiologico bilanciamento tra i *trend* che interessano i suoi *business*, ha storicamente dimostrato resilienza nei momenti di incertezza economica e turbolenza finanziaria, affermandosi anzi come un "porto sicuro" per i risparmiatori, grazie a un portafoglio di offerta finanziaria caratterizzato da prodotti con ridotta esposizione al rischio e volatilità.

Per rispondere ad una crescente sensibilità dei consumatori su tematiche ambientali è stata incrementata l'offerta di prodotti di investimento BancoPosta e Poste Vita i cui investimenti sono orientati verso *asset* con spiccate caratteristiche di sostenibilità.

Per quanto riguarda l'evoluzione della gamma, l'obiettivo di BancoPosta Fondi SGR è quello di effettuare nel tempo una progressiva trasformazione in ottica ESG anche dei fondi esistenti, integrando i criteri di sostenibilità ambientale, sociale e di *governance* nella politica di investimento di ciascuno.

Poste Italiane ha proseguito la sua azione di ampliamento della proposta di prodotti finanziari che promuovono caratteristiche ambientali o sociali, nell'ottica di convogliare un sempre crescente ammontare di capitali a favore dello sviluppo sostenibile e soddisfare le richieste di risparmiatori ed investitori attenti alla creazione di valore socio-ambientale positivo tramite i prodotti di investimento sottoscritti. Tale impegno è stato condiviso sia da BancoPosta Fondi SGR che da Poste Vita, la quale, con riferimento alla propria gamma di prodotti di investimento assicurativo, ha finalizzato la configurazione e il lancio di un prodotto con un profilo rafforzato dal punto di vista dell'integrazione ESG nelle attività di investimento

INSTABILITÀ GEOPOLITICA:

Possibili impatti negativi sul *business* di Poste Italiane dovuti a tensioni geopolitiche e conflitti internazionali e alle relative *escalation*

PRINCIPALI TREND

Il contesto geopolitico, caratterizzato da fenomeni quali il ritorno al protezionismo, i conflitti militari, le migrazioni su larga scala, l'aumentata percezione della disuguaglianza sociale e di fenomeni di populismo, sta provocando movimenti estremisti e mettendo potenzialmente a rischio la cooperazione internazionale, che potrebbero portare – secondo gli scenari più estremi – ad attacchi militari (anche alla luce del conflitto in Ucraina) biologici, chimici, informatici e/o fisici.

L'attuale contesto geopolitico ha avuto importanti impatti sul contesto macro-economico, esercitando pressioni sulle catene mondiali di approvvigionamento e sui mercati delle materie prime alimentando dinamiche inflazionistiche su scala globale. Nelle principali economie avanzate il rallentamento dell'attività economica è riconducibile all'indebolimento della domanda e all'avvio di un ciclo di inasprimento delle politiche monetarie restrittive adottate dalle principali banche centrali, per contrastare l'aumento delle pressioni inflazionistiche.

In particolare, nell'ambito del processo di *Compliance Integrata*, Poste Italiane esegue un monitoraggio nel continuo della normativa esterna rilevante per il Gruppo e nella traduzione dell'insieme dei principi normativi nel corpo di regole necessarie a garantirne l'applicazione, anche con riferimento alla normativa applicabile ai rapporti commerciali internazionali.

Inoltre, Poste Italiane svolge verifiche sulle controparti al fine di valutarne i requisiti legali, tecnico-professionali, la stabilità finanziaria e identificare le variabili con impatto su ricavi e costi, anche in considerazione degli scenari geopolitici.

7.2 Impatti derivanti dal conflitto russo-ucraino

A seguito delle raccomandazioni emanate dall'ESMA nel corso dell'anno⁸³ si riporta di seguito un aggiornamento al 31 dicembre 2022 dei principali effetti sul Gruppo della crisi in Ucraina; per una ricognizione completa si rimanda inoltre a quanto riportato nell'evoluzione prevedibile della gestione e nel capitolo 3 Eventi di rilievo intercorsi nell'esercizio, della sezione "I bilanci di Poste Italiane".

Il contesto macroeconomico nel corso del 2022 è stato caratterizzato da una combinazione di fattori che hanno comportato un rallentamento diffuso della crescita economica. In particolare, si evidenzia: la ripresa dei contagi da Covid-19, l'invasione dell'Ucraina da parte della Russia, una dinamica inflazionistica crescente, che ha generato un incremento dei prezzi delle materie prime (soprattutto energetiche), e interventi di normalizzazione della politica monetaria da parte delle principali banche centrali mondiali, che hanno rivisto al rialzo i tassi di interesse di riferimento, al fine di arginare il surriscaldamento dell'economia. Tali fattori hanno interrotto il percorso di consolidamento della ripresa post pandemica avviata nei primi mesi del 2022, con l'economia mondiale che anche nel quarto trimestre del 2022 ha continuato a risentire di ulteriori incrementi del tasso di inflazione, dell'andamento negativo dei mercati finanziari globali e dell'incertezza legata allo scenario macroeconomico.

Con riferimento agli impatti sul *business* del conflitto in corso, si evidenzia che l'ambito di operatività del Gruppo è principalmente domestico e lo stesso intrattiene limitati rapporti commerciali con i Paesi coinvolti nel conflitto; pertanto, il Gruppo non ha registrato impatti significativi sui propri *business* o ripercussioni rilevanti sulla redditività, né tantomeno timori sulla compromissione della continuità aziendale.

Ciò nonostante, l'elevata incertezza del contesto di riferimento e la dinamica inflazionistica acuita dal conflitto, hanno fatto osservare nel 2022 le seguenti evidenze:

- un incremento dei costi del carburante e delle materie prime in generale, e un incremento dei costi su tutti i servizi afferenti le tratte internazionali, anche al di fuori delle aree interessate dal conflitto; in merito a ciò, sono state messe in atto azioni da parte del Governo, atte a mitigare gli effetti di tali incrementi, quali a titolo esemplificativo la riduzione di accise e IVA imposte dallo Stato sul prezzo del carburante (prorogata fino al 31 dicembre 2022), il *bonus* sociale luce a gas e ulteriori agevolazioni per le imprese energivore⁸⁴;
- in coerenza con il ridimensionamento del mercato del comparto, si è assistito a un rallentamento della crescita del volume dei pacchi, registrato in particolare nel B2C conseguente agli effetti inflattivi e quindi a una ridotta capacità di acquisto anche nell'ambito dell'*e-commerce*. Il comparto dei pacchi, soprattutto nella prima parte del 2022, ha risentito inoltre dei ripetuti *lockdown* imposti in Cina (fino al mese di novembre) per arginare la diffusione del Covid-19;
- in ambito finanziario, nel primo semestre del 2022 il risparmio postale ha risentito negativamente del contesto socio-economico caratterizzato da una significativa crescita dei tassi di interesse, dall'aumento dell'inflazione, dal decremento della propensione al risparmio da parte delle famiglie e dalla riduzione delle prospettive di crescita del Paese. Relativamente all'offerta dei prodotti di Risparmio Postale, alla luce del contesto di mercato, sono stati adeguati i rendimenti dei Buoni Fruttiferi Postali per tre volte nel corso del 2022, e realizzati interventi nella gamma dei prodotti offerti, incluso il lancio di diverse offerte dedicate ai portatori di nuova liquidità. Inoltre, a seguito di una ricognizione relativamente alla base costi di BancoPosta, finalizzata a quantificare l'impatto delle dinamiche inflattive, è stata effettuata una modifica unilaterale delle condizioni contrattuali, correlata al giustificato motivo "inflazione".

Con riferimento al portafoglio finanziario, lo stesso ha beneficiato dello scenario di mercato mutato con tassi di interesse in crescita.

- in ambito assicurativo, non si rilevano evidenze significative in quanto le esposizioni indirette, nell'ambito dei fondi *multi asset*, verso i Paesi coinvolti nel conflitto rappresentano un ammontare irrilevante rispetto agli investimenti del gruppo assicurativo (0,03% del totale);
- l'aumento delle quotazioni di gas ed elettricità e la sensibile volatilità dei prezzi, legata anche al rischio di riduzioni e interruzioni delle forniture di gas russo all'Europa, non hanno comportato ripercussioni di rilievo per il nuovo *business* energia del Gruppo, la cui offerta è stata avviata nel corso del mese di giugno 2022 per un *target* ristretto (dipendenti, famigliari e pensionati) e dal mese di gennaio 2023 per tutti i clienti. Nelle politiche di approvvigionamento della materia prima, il Gruppo ha inoltre selezionato fornitori con una bassa o nulla esposizione al gas proveniente dal territorio russo.

Nello scenario descritto, le *performance* registrate nel periodo dal Gruppo risultano solide e superiori alle attese con un risultato operativo che, con 2,3 miliardi di euro, ha raggiunto un livello record nella storia del Gruppo.

La solidità finanziaria e la liquidità del Gruppo hanno consentito inoltre di finanziare investimenti per oltre 800 milioni di euro nel 2022, di pagare agli azionisti 526 milioni di euro come saldo del dividendo 2021 e 273 milioni di euro come acconto del dividendo 2022, di accelerare la crescita del Gruppo tramite investimenti in società strategiche per lo sviluppo del *business*, di finanziare con fondi propri, in esecuzione della delibera assembleare del 27 maggio 2022, operazioni di *buyback* per 25 milioni di euro (per quest'ultime si veda quanto riportato nel capitolo 3 – Eventi di rilievo Intercorsi nell'esercizio – della sezione "I bilanci di Poste Italiane").

Nel corso del 2022 le **masse gestite/amministrate**, che ammontano a 562 miliardi di euro, sono diminuite del 4,1% (-24 miliardi di euro) rispetto ai 586 miliardi di euro del 31 dicembre 2021, per effetto principalmente dell'andamento negativo dei mercati finanziari che ha inciso sul *fair market value* delle riserve tecniche Poste Vita (-26,8 miliardi di euro) e di una minore raccolta netta sul Risparmio Postale (-11,1 miliardi di euro), solo parzialmente mitigato da una raccolta netta positiva sul comparto dell'assicurazione vita (+7,6 miliardi di euro) e sui conti correnti (+2,8 miliardi di euro). La raccolta netta del risparmio postale (-11,1 miliardi di euro) è influenzata per -1,5 miliardi di euro dai minori accrediti dei ratei pensionistici rispetto al 2021 (undici ratei rispetto ai dodici del 2021) per effetto della fine delle disposizioni correlate all'emergenza sanitaria.

COSTI TOTALI
(dati in milioni di euro)

I costi totali si attestano a 9.598 milioni di euro in crescita rispetto ai 9.375 milioni di euro del 2021 (+223 milioni di euro), sostanzialmente per l'aumento della voce altri costi (+337 milioni di euro), dei costi per beni e servizi (+87 milioni di euro) e degli ammortamenti (+39 milioni di euro).

Il costo del lavoro si attesta a 5.226 milioni di euro e registra una variazione negativa di 241 milioni di euro rispetto al 2021. Per maggiori approfondimenti si veda quanto riportato nel prosieguo del paragrafo.

I costi per beni e servizi registrano un incremento di 87 milioni di euro passando da 2.873 del 2021 a 2.960 del 2022; la variazione è correlata principalmente all'ampliamento del perimetro societario (per 85 milioni di euro) avvenuto nel corso dell'esercizio e allo scenario inflattivo internazionale (per 62 milioni di euro) indotto dal conflitto russo-ucraino.

Gli ammortamenti si attestano a 830 milioni di euro e registrano una variazione positiva di 39 milioni di euro rispetto al 2021 per maggiori ammortamenti e minori riprese di valore sugli immobili, impianti e macchinari e sui diritti d'uso, principalmente per l'ampliamento del perimetro societario, nonché per maggiori ammortamenti su attività immateriali correlati agli investimenti su applicativi *software*.

Gli altri costi si attestano a 581 milioni di euro e registrano una crescita di 337 milioni di euro rispetto al 2021; la variazione è principalmente imputabile agli accantonamenti per rischi su crediti d'imposta (320 milioni di euro) in parte compensati da minori accantonamenti netti delle rimanenti voci degli altri fondi rischi e oneri.

Per maggiori dettagli, si rimanda a quanto riportato alle Note dei Bilanci di Poste Italiane al 31 dicembre 2022.

COSTO DEL LAVORO

(dati in milioni di euro)

Il costo complessivo del lavoro registra una diminuzione di 241 milioni di euro (-4,4%) rispetto all'esercizio 2021. Tale variazione è imputabile principalmente alla riduzione della componente straordinaria, che passa da 232 milioni di euro del 2021 a 70 milioni di euro del 2022 (-162 milioni di euro). Il costo del lavoro ordinario, che passa da 5.236 milioni di euro del 2021 a 5.157 milioni di euro del 2022, registra una diminuzione di 79 milioni di euro.

	2021	Riduzione FTE	Operazioni Societarie	Costo Unitario	2022
Costo del lavoro straordinario (B)	232		(162)		70
di cui esodi	235		(158)		77
di cui vertenza	(3)		(4)		(7)
TOTALE (A+B)	5.467		(241)		5.226
			-4,4%		

La variazione della componente ordinaria rispetto all'anno precedente deriva principalmente dalla riduzione dell'organico mediamente occupato nell'anno (circa 1.600 FTE in meno).

La riduzione della componente straordinaria è principalmente dovuta al minor accantonamento del piano esodi 2022 per sostenere le uscite degli anni 2023 e 2024 alla luce della disponibilità residua del fondo esodi dovuta al minore costo pro capite degli incentivi registrato nel corso dell'anno e correlato alle agevolazioni previste dalla normativa (c.d. "quota 102").

NUMERO DI RISORSE

(Full Time Equivalent medi in migliaia)

Sono proseguite nell'anno le attività di riorganizzazione e razionalizzazione dei processi interni; le risorse uscite dal Gruppo nel 2022, comprensive di esodi incentivati, sono 8,3 migliaia (FTE) a fronte di nuovi ingressi pari a 5,7 migliaia (FTE) a tempo indeterminato e circa 0,2 migliaia (FTE) a tempo determinato. Alla variazione dell'organico del periodo contribuisce, inoltre, l'ampliamento del perimetro del Gruppo con l'ingresso di Plurima, LIS, Agile e Sourcesense (+0,8 migliaia di FTE medi).

Sele

7.3.1 Strategic Business Unit Corrispondenza, Pacchi e Distribuzione

Le performance del 2022 della Strategic Business Unit evidenziano una flessione dei ricavi sia nel business della corrispondenza tradizionale sia nel business dei pacchi, nonostante il contributo positivo dei ricavi derivanti dall'acquisizione della società Plurima (45 milioni di euro nell'anno 2022). Il risultato operativo è penalizzato dai maggiori accantonamenti a fondi rischi come approfondito nel prosieguo del paragrafo, parzialmente mitigati dalla diminuzione del costo del lavoro.

RICAVI DA MERCATO

(dati in milioni di euro)

I Ricavi da mercato della *Strategic Business Unit* passano da 3.695 milioni di euro nel 2021 a 3.651 milioni di euro nel 2022 (-44 milioni di euro, pari al -1,2%), confermando anche nel quarto trimestre del 2022 l'andamento negativo registrato nei trimestri precedenti.

I ricavi della corrispondenza registrano una riduzione dei ricavi nell'anno (-17 milioni di euro; -0,8%), concentrata sul terzo trimestre (-14 milioni di euro, -2,9%); analogamente, anche i ricavi del comparto pacchi registrano una flessione (-8 milioni di euro; -0,5%), dovuta sia alla normalizzazione degli andamenti del mercato, sia agli effetti sull'economia derivanti dal conflitto russo-ucraino. La decrescita viene in parte mitigata dal contributo positivo derivante dal *business* della logistica ospedaliera svolta dalla società Plurima acquisita dal Gruppo nel corso del periodo (+45 milioni di euro).

Inoltre, si evidenzia una diminuzione della voce altri ricavi⁸⁵ pari a circa 19 milioni di euro (-9,3% rispetto al 2021) riconducibile prevalentemente al minor contributo dei ricavi del Consorzio PosteMotori le cui attività sono in corso di conclusione. Tale variazione è stata parzialmente mitigata dal contributo positivo legato al corrispettivo, applicato a partire dalla fine del 2021, per le attività di rilascio delle identità digitali ai cittadini (SPID  - Sistema Pubblico di Identità Digitale) per coloro che richiedono il servizio tramite identificazione in presenza o da remoto.

85. La voce "Altri Ricavi" include i ricavi delle società controllate Consorzio PosteMotori (gestione pratiche del Ministero delle Infrastrutture e dei Trasporti, conclusa il 31 marzo 2022), PatentiViaPoste (servizio di Recapito patenti), Europa Gestioni Immobiliari (gestione del patrimonio Immobiliare di Poste Italiane), Poste Air Cargo (trasporto aereo commerciale), Poste Welfare Servizi (gestione Fondi Sanitari Integrativi), Sourcesense e Agile Power (società che operano nel settore IT). La voce include, inoltre, i ricavi derivanti dalla vendita di prodotti filatelici (es. folder, cartoline, album), dall'attività di rilascio delle identità digitali ai cittadini (SPID - Sistema Pubblico di Identità Digitale), dai servizi della Piattaforma dedicata alla prenotazione dei vaccini, i ricavi da cessione del credito d'imposta e infine altri ricavi non strettamente correlati al *core business* di Poste Italiane (per esempio l'affitto di immobili).

Posta Indescritta: servizio *standard* di spedizioni con recapito in cassetta postale.

Posta Descritta: recapito alla persona con attestazione di avvenuta spedizione e tracciatura dell'invio per la clientela *retail* e *business*. Tale categoria comprende in particolare: la raccomandata, l'assicurata e l'atto giudiziario.

Direct Marketing: servizio per l'invio da parte delle aziende e delle Pubbliche Amministrazioni di comunicazioni a contenuto pubblicitario, promozionale o informativo.

Servizi Integrati: offerte integrate e personalizzate per specifici segmenti di clientela, in particolare la Pubblica Amministrazione, le grandi aziende e gli studi professionali. Il servizio integrato più rilevante è il Servizio Integrato Notifica, per la gestione dell'intero processo di notifica degli atti amministrativi e giudiziari (es. le violazioni al Codice della Strada).

Altro: servizi per l'editoria, servizi multicanale, stampa, gestione documentale, altri servizi di base. La voce include, inoltre, le integrazioni tariffarie relative a ricavi da mercato commercializzati a tariffe scontate ai sensi di legge e il Compenso per il Servizio Postale Universale (include anche le compensazioni relative al Pacco ordinario).

Le performance dei servizi di Corrispondenza registrate dal Gruppo nel 2022 evidenziano una flessione dei volumi pari al -4,7% (-119 milioni di invii), accompagnata da una riduzione dei ricavi pari al -0,8% (-17 milioni di euro) rispetto al 2021. Nonostante il diverso mix di prodotto registrato nell'arco dell'anno, la crescita dei volumi di alcuni prodotti a maggior valore, presenti nella famiglia dei Servizi Integrati e della Posta Descritta (Atto giudiziario), non compensa completamente la flessione dei prodotti a minor valore.

La Posta Indescritta evidenzia una riduzione sia dei volumi che dei ricavi rispettivamente del 10,2% (-131 milioni di invii) e del 9,9% (-61 milioni di euro) rispetto al 2021, attribuibile ad un calo fisiologico dei volumi a causa dell'e-substitution.

La Posta Descritta registra una riduzione dei volumi del 3,5% (-6 milioni di invii) accompagnata da una flessione dei ricavi pari all'1,6% (-12 milioni di euro) attribuibile prevalentemente sia a un calo dei volumi spediti dalla clientela retail che ad una diminuzione dei volumi provenienti dai paesi esteri.

Il Direct Marketing continua a manifestare un decremento di volumi del 15,8% (-48 milioni di invii), che determina una variazione negativa dei ricavi di circa 11 milioni di euro (-13,2%), attribuibile anche esso al fenomeno della e-substitution.

I Servizi integrati presentano volumi e ricavi in crescita rispetto al 2021 rispettivamente di 23 milioni di invii (+125,9%) e 73 milioni di euro (+58,6%), per via del contributo positivo generato dalla ripresa delle attività di notifica di prodotti quali atti amministrativi e giudiziari e dalla ripresa degli invii delle cartelle esattoriali, che nel corso del 2021 avevano risentito del protrarsi degli effetti generati dal blocco degli invii delle notifiche a causa della pandemia.

La voce Altro, che accoglie anche i servizi commercializzati da Postel, presenta volumi nel 2022 in crescita rispetto al 2021 (+43 milioni di invii, pari a +5,5%) accompagnati però da una diminuzione dei ricavi pari a 6 milioni di euro (-1,1%). Tale andamento è attribuibile prevalentemente alla crescita dei volumi commercializzati da Postel, che gestisce prodotti a minor tariffa media. Nella voce altro sono inclusi anche il compenso per l'Onere del Servizio Universale (262 milioni di euro), invariato rispetto al 2021, e le compensazioni sui prodotti editoriali a tariffa agevolata rientranti nel Servizio Universale, le quali registrano una crescita di 1 milione di euro (+2%) rispetto all'esercizio precedente, per effetto della Delibera AGCom 454/22/CONS che ha definito con decorrenza 1° settembre 2022 un progressivo incremento delle tariffe universali per i servizi editoriali. Per ulteriori dettagli si rinvia a quanto riportato nel "Contesto normativo ed evoluzione dello scenario regolatorio" della Strategic Business Unit Corrispondenza, Pacchi e Distribuzione.

La flessione del comparto della corrispondenza tradizionale rispetto sia all'esercizio 2021 che al quarto trimestre 2021 è attribuibile principalmente al secolare trend di riduzione dei volumi della corrispondenza indescritta correlato alla e-substitution.

VOLUMI (dati in milioni)

B2B: acronimo di *Business to Business*. Servizi per le spedizioni da azienda ad azienda. Offerta che punta su qualità e affidabilità, con opzioni di consegna con tempi definiti, spedizioni prevalentemente multicollo.

B2C: acronimo di *Business to Consumer*. Un'offerta modulare creata per l'e-commerce con scelta di servizi accessori.

C2X: individua i pacchi di tipo "Consumer-to-Consumer/Business", ovvero i pacchi inviati dai consumatori sia ad altri consumatori sia a imprese.

ALTRO: include ricavi e spedizioni internazionali e da *partnership* con operatori logistici. La voce include inoltre ricavi da servizi dedicati (servizi altamente customizzati e progettati su esigenze specifiche di Banche, Assicurazioni, Pubbliche amministrazioni o di clienti con le medesime caratteristiche tecnico operative), da servizi di logistica integrata (gestione magazzino) inclusivi anche del corrispettivo della commessa aggiudicata dal Ministero degli Interni per la distribuzione di dispositivi di protezione individuale. Include, infine, i ricavi del servizio di trasporto su gomma a lungo raggio, servizio operato dalla società controllata sender Italia ed i ricavi da logistica ospedaliera, servizio svolto dalla società Plurima.

Il comparto pacchi nel 2022 ha registrato una flessione complessiva sia in termini di volumi che di ricavi, rispettivamente del 3,6% (-9 milioni di invii) e dello 0,5% (-8 milioni di euro) rispetto all'anno precedente. Tuttavia, nel corso dell'anno, la decrescita registrata nella parte iniziale, generata da un mercato incerto, si è progressivamente attenuata con un *trend* in continuo miglioramento; in particolare, nell'ultimo trimestre dell'anno i ricavi e i volumi sono cresciuti rispettivamente del 5,0% (+19 milioni di euro) e del 4,2% (+3 milioni di invii) rispetto all'analogo trimestre del 2021. La flessione dei ricavi del 2022 è parzialmente compensata dall'ingresso nel *business* della logistica ospedaliera, tramite l'acquisizione della società Plurima (+45 milioni di euro).

La flessione dell'anno è principalmente concentrata sul segmento B2B, che ha realizzato ricavi per 224 milioni di euro, in diminuzione del 14,2% (-37 milioni di euro), a fronte di 36 milioni di spedizioni (-6 milioni di invii, -13,3%) rispetto al 2021. Questo segmento di *business*, legato significativamente all'evoluzione del PIL, è stato fortemente condizionato dalle tensioni geopolitiche internazionali che hanno messo in crisi nel corso dell'anno la produzione industriale, visti i rincari soprattutto nel comparto energetico.

Il segmento B2C mostra una *performance* positiva principalmente concentrata nella seconda parte dell'anno. In particolare, in tale comparto il terzo trimestre 2022 risulta in controtendenza rispetto alla prima metà dell'anno, con un quarto trimestre che ha confermato una crescita più netta (+6 milioni di invii, +11,5%). A riguardo, si evidenzia il consistente aumento delle spedizioni direttamente collegate all'*e-commerce* durante il picco natalizio e una ripresa dei flussi in ingresso dalla Cina che avevano subito un rallentamento a causa dell'entrata in vigore, a luglio 2021, della normativa *low value consignment*⁸⁶.

Il segmento C2X presenta ricavi e volumi in flessione, rispettivamente di 8 milioni di euro (-13,4%) e di un milione di invii (-16,4%) rispetto al 2021, per effetto soprattutto di una decisa contrazione del mercato.

La voce Altro, evidenzia un incremento dei ricavi di 6 milioni di euro (+1,7%), accompagnato però da una riduzione di volumi pari a 3 milioni di invii (-15,6%) rispetto al 2021. Tale *performance* positiva è imputabile al contributo positivo della società Plurima, nonostante il prevedibile effetto negativo correlato alla riduzione del volume di affari sui servizi di logistica integrata⁸⁷ a servizio della Pubblica Amministrazione.

Altro ritardo si registra nel *business* internazionale sia nei ricavi (-9 milioni di euro, pari al -10,2%) che nei volumi (-1 milione di invii, -24,6%) dove per tutto il corso dell'anno si è osservata una domanda in progressivo rallentamento.

86. La direttiva europea "Low Value Consignment" ha introdotto l'obbligo per i clienti finali di pagamento dell'IVA anche con riferimento all'acquisto di beni di modesto valore.

87. Poste Italiane si è aggiudicata la commessa di logistica Integrata nel mese di maggio 2020 per la consegna alle Pubbliche Amministrazioni dei dispositivi di protezione individuale.

COSTI TOTALI

(dati in milioni di euro)

I costi comprensivi di ammortamenti e svalutazioni dell'anno 2022 ammontano a 8.838 milioni di euro con un aumento di 146 milioni di euro (+1,7%) rispetto al 2021. Tale andamento è prevalentemente riconducibile all'incremento della voce Altri costi parzialmente mitigato dalla riduzione del costo del lavoro.

Il costo del lavoro si attesta a 5.114 milioni di euro, in diminuzione di 252 milioni di euro (-4,7%) rispetto al 2021, attribuibile sia ai minori accantonamenti per incentivi per esodi futuri (-157 milioni di euro), che alla riduzione dell'organico mediamente impiegato (circa 1.800 FTE in meno rispetto all'analogo periodo del 2021), nonostante l'ampliamento del perimetro societario che ha comportato l'ingresso nella SBU delle persone di Plurima, Agile e Sourcesense.

I costi per beni e servizi presentano un incremento di 21 milioni di euro (+0,9%), attestandosi a 2.371 milioni di euro nel 2022. Tale variazione è concentrata nell'ultimo trimestre dell'anno (+37 milioni di euro, +5,8%) ed è imputabile sia all'incremento dei costi variabili legati alla crescita dei volumi dei pacchi del periodo, che allo scenario inflattivo internazionale, che ha caratterizzato il 2022 ed è tuttora in corso.

La voce ammortamenti e svalutazioni registra un incremento di 34 milioni di euro (+4,5% rispetto al 2021), imputabile principalmente ai maggiori ammortamenti e a minori riprese di valore su Immobili, impianti e macchinari e agli ammortamenti su attività immateriali correlati agli investimenti su applicativi *software* divenuti disponibili all'uso nel corso dell'esercizio.

La voce altri costi accoglie nel 2022 prevalentemente l'accantonamento a fondi rischi sui crediti d'imposta (320 milioni di euro), in parte compensato da minori accantonamenti netti delle rimanenti voci degli altri fondi rischi e oneri dovuti sia all'aggiornamento delle passività stimate che al venir meno di quelle identificate in passato. Per approfondimenti si rinvia a quanto riportato nelle note della sezione "I Bilanci di Poste Italiane".

Alla luce di quanto rappresentato la *Strategic Business Unit* Corrispondenza, Pacchi e Distribuzione presenta un risultato operativo nell'anno 2022 negativo per 326 milioni di euro, in diminuzione rispetto al risultato operativo dell'analogo periodo dell'esercizio precedente che si attestava ad un valore negativo di 301 milioni di euro (-25 milioni di euro).

Qualità dei prodotti rientranti nel Servizio Universale

Di seguito, si riportano i risultati della qualità conseguiti in relazione ai prodotti rientranti nel Servizio Universale e i cui obiettivi sono definiti dall'AGCom. L'autorità ne verifica il rispetto e pubblica annualmente i risultati.

L'andamento della qualità per l'esercizio 2022 evidenzia complessivamente delle buone performance, mostrando il superamento dei target di riferimento dell'anno per la quasi totalità dei prodotti. Nel confronto con l'esercizio precedente l'andamento ha risentito pesantemente dell'impatto della quarta ondata di contagi da Covid-19 che ha riguardato il primo trimestre del 2022 e ha comportato un forte incremento del tasso di assenteismo su tutte le strutture operative della filiera logistica, inclusi i segmenti appaltati a terzi.

Gestione pro-attiva del portafoglio titoli: plusvalenze da vendita di titoli del Portafoglio BancoPosta al netto di minusvalenze.

Interessi attivi netti: ricavi da impiego della liquidità raccolta tramite conti correnti postali al netto di interessi passivi e altri oneri da operatività finanziaria. Sono inclusi i ricavi da crediti d'imposta.

Raccolta Risparmio postale: raccolta del risparmio tramite Buoni Fruttiferi Postali e Libretti Postali emessi da Cassa Depositi e Prestiti.

Gestione del risparmio: gestione collettiva del risparmio attraverso fondi comuni di investimento e gestione di portafogli individuali relativi a mandati istituzionali riferibili al Gruppo.

Distribuzione di prodotti terzi: distribuzione di prodotti erogati/emessi da *partner* terzi (finanziamenti, mutui, prestiti, cessioni del quinto, carte di credito, ecc.).

Servizi di incasso e pagamento: bollettini, incassi e pagamenti PP.AA., trasferimento fondi e servizi accessori conti correnti.

I Ricavi da mercato nel 2022 ammontano a 4.939 milioni di euro e registrano una crescita di 156 milioni di euro rispetto ai 4.783 milioni di euro realizzati nell'anno precedente (+3,3%).

Nel dettaglio, il periodo in esame mostra: (i) Interessi Attivi netti in crescita rispetto al 2021 (+425 milioni di euro; +28,6%), essenzialmente per effetto del maggiore rendimento dell'impiego della giacenza da conto corrente relativa al comparto della Pubblica Amministrazione (+218 milioni di euro) e per l'impiego in crediti di imposta (+215 milioni di euro); (ii) Plusvalenze nette realizzate nell'ambito della gestione pro-attiva del portafoglio pari a 335 milioni di euro, in diminuzione di 72 milioni di euro rispetto ai 407 milioni di euro del 2021.

I ricavi derivanti dal servizio di raccolta e gestione del Risparmio Postale si attestano a 1.600 milioni di euro, in diminuzione dell'8,7% (-153 milioni di euro) rispetto allo scorso anno, a fronte del mutato scenario macroeconomico che ha accelerato i rimborsi anticipati del BFP deprimendo la raccolta netta del risparmio postale, nonostante l'adeguamento dell'offerta e dei rendimenti intervenuta nella seconda parte dell'anno; la remunerazione prevista dalla Convenzione con CDP si è attestata nel 2022 al livello minimo (*floor*). I ricavi relativi ai servizi di incasso e pagamento risultano pari a 763 milioni di euro, in flessione del 4,2% (-33 milioni di euro) rispetto al 2021 prevalentemente a causa di minori volumi sui bollettini e per effetto del conferimento del ramo Carte di Debito alla società PostePay della SBU Pagamenti e Mobile avvenuto ad ottobre 2021; tale variazione negativa è solo parzialmente controbilanciata dalle maggiori spese di tenuta del conto corrente (+58 milioni di euro) sostenute dai titolari a seguito del *repricing* avvenuto nel mese di luglio 2022. I ricavi da distribuzione di prodotti di terzi si attestano a 213 milioni di euro, in diminuzione di 8 milioni di euro rispetto ai 221 milioni di euro del 2021, da ricondurre principalmente ai minori ricavi da prestiti personali.

I ricavi da altri settori, si attestano a 820 milioni di euro (+8,1% rispetto al 2021). La variazione positiva è imputabile principalmente all'aumento delle **commissioni di gestione** delle polizze assicurative e alla crescita dei ricavi derivanti dal collocamento dei prodotti della SBU Pagamenti e Mobile.

Il quarto trimestre 2022 mostra ricavi da mercato in crescita rispetto allo stesso periodo del 2021 di 106 milioni di euro (+9,7%), riconducibili principalmente ai maggiori interessi attivi netti (+153 milioni di euro) in parte compensati dai minori ricavi del servizio di raccolta e gestione del Risparmio Postale (-41 milioni di euro -9,3%).

GIACENZA MEDIA DEI CONTI CORRENTI (dati in miliardi di euro)

Nel 2022, la Giacenza Media dei conti correnti si è incrementata rispetto all'esercizio precedente, passando da 79,1 miliardi di euro a 86,5 miliardi di euro. Tale aumento, pari a 7,5 miliardi di euro, è da ricondurre alla crescita di tutti i segmenti di *business* e nello specifico al contributo positivo della Pubblica Amministrazione (+4,9 miliardi di euro, +52,4%) e della clientela *Retail* e *Postepay* (+2,3 miliardi di euro, +4,6%).

COMPOSIZIONE PORTAFOGLIO INVESTIMENTI

(giacenza media in miliardi di euro)

* Include liquidità sul **Buffer**, depositi presso altre istituzioni finanziarie, ulteriori Impieghi a breve termine (< 12 mesi) ed esclude la liquidità di Poste Italiane.

La **giacenza media del portafoglio investimenti** è costituita principalmente da Titoli di Stato Italiani e da titoli di debito emessi da Cassa Depositi e Prestiti e garantiti dallo Stato Italiano (oltre 64 miliardi di euro), in cui è impiegata la raccolta da clientela privata sui conti correnti postali, e dai Depositi presso il MEF (oltre 14 miliardi di euro) rappresentati dagli impieghi della raccolta da conti correnti postali appartenenti alla clientela pubblica.

Il portafoglio investimenti include inoltre la giacenza media impiegata da BancoPosta per l'acquisto dei crediti d'imposta che, al 31 dicembre 2022, ammonta a circa 7,3 miliardi di euro.

Nel corso del 2022, i movimenti di rialzo dei tassi e di allargamento dello *spread* creditizio del BTP, hanno costituito per il Gruppo delle occasioni di acquisto di titoli.

Contestualmente, il rialzo generalizzato dei tassi ha determinato un incremento del valore di mercato degli *interest rate swap* stipulati a copertura del *fair value* del portafoglio titoli, che trasformano il rendimento di quest'ultimo da fisso a variabile. Nei mesi di febbraio e maggio 2022 sono state effettuate operazioni di estinzione anticipata di parte di tale portafoglio di derivati (pari a un nozionale di circa 7 miliardi di euro). L'operazione nel suo complesso, non ha avuto significativi riflessi immediati sul conto economico, ma ha permesso di consolidare un rendimento fisso in linea con gli obiettivi di medio termine di rendimento del Gruppo, migliorando contestualmente il profilo reddituale di una porzione del portafoglio titoli anche per gli esercizi successivi.

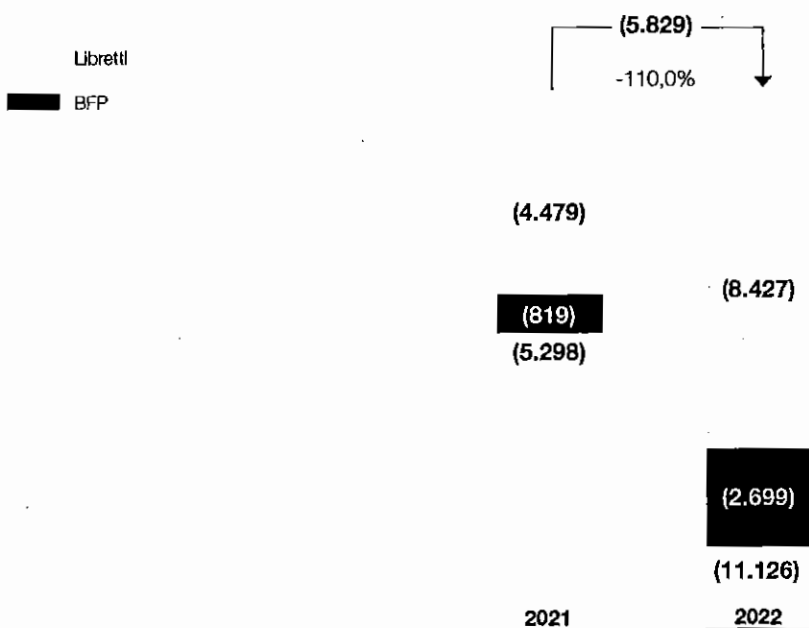

Nella prima parte dell'anno si è provveduto, inoltre, a stipulare:(i) operazioni di copertura gestionale del rendimento del deposito presso il MEF della raccolta da Pubblica Amministrazione, con la finalità di renderlo meno suscettibile alle variazioni dei rendimenti dei Titoli di Stato;(ii) contratti di vendita a termine con valuta 2023 al fine di avviare il programma di realizzazione delle plusvalenze nell'ambito della gestione pro-attiva del portafoglio per l'anno 2023.

Nel corso del terzo trimestre 2022, considerando la risalita dei tassi e lo *spread* in restringimento, sono state effettuate operazioni di vendita di titoli coperti con *asset swap* e i relativi derivati e operazioni di acquisto di titoli governativi domestici con scadenza a 10 anni.

Nel corso della seconda metà del 2022, in uno scenario di *spread* creditizio dell'Italia in allargamento e rendimenti dei titoli governativi dell'area Euro in ascesa, sono stati effettuati acquisti a termine di titoli, al fine di avviare il programma di rinnovo anticipato degli investimenti in scadenza nel 2023.

RACCOLTA NETTA RISPARMIO POSTALE

(dati in milioni di euro)

Al 31 dicembre 2022 si registra una Raccolta Netta del Risparmio Postale pari a circa -11,1 miliardi di euro, inferiore di circa 5,8 miliardi di euro rispetto al 2021. Tale variazione negativa ha riguardato entrambi i prodotti del comparto. Sui Libretti si è registrata una contrazione pari a circa 3,9 miliardi di euro rispetto al dato del 2021, dovuta in parte alla minore propensione al risparmio legata al particolare contesto economico nazionale e internazionale, alle spinte inflazionistiche e alla ripresa della spesa per consumi. Inoltre, la raccolta netta dell'anno risente dei flussi in uscita da parte dei clienti istituzionali correlati allo scenario economico generale (-1,7 miliardi di euro). Infine, il confronto rispetto all'anno precedente non è omogeneo: nel corso del 2021, infatti, sono stati accreditati, per effetto delle disposizioni correlate all'emergenza sanitaria, dodici ratei pensionistici rispetto agli undici del 2022 (il rateo pensionistico di marzo 2022, accreditato a fine febbraio, è stato l'ultimo rateo pagato anticipatamente) comportando una minore raccolta netta pari a 1,5 miliardi di euro.

Relativamente ai Buoni Fruttiferi Postali la variazione rispetto al dato del 2021 è negativa per circa 1,9 miliardi di euro; tale variazione è dovuta ai rimborsi anticipati per 33,6 miliardi di euro (+109% rispetto al 2021) e ai rimborsi di Buoni giunti a scadenza nell'anno (seppur inferiori rispetto al 2021 del 23%), verificatasi principalmente nel primo semestre del 2022 e in parte mitigata da nuove sottoscrizioni annue per 43 miliardi di euro, in aumento del 42% rispetto al dato del 2021, le quali hanno ripreso slancio a seguito dell'adeguamento dei rendimenti sui prodotti inclusi nell'offerta avviato il 6 luglio 2022.

GIACENZA MEDIA RISPARMIO POSTALE*
(dati in milioni di euro)

* Il computo degli interessi avviene a inizio anno relativamente agli interessi maturati nell'anno precedente. Il valore medio della giacenza esclude sia la capitalizzazione degli interessi del periodo che gli interessi maturati, ma non ancora esigibili, sui Buoni Fruttiferi Postali non scaduti alla data di reporting.

La Giacenza Media del Risparmio Postale registra una diminuzione di circa 2,6 miliardi di euro rispetto al dato del 2021; il valore dei Libretti è correlato alla minore preferenza per la liquidità e allo spostamento verso prodotti di investimento, mentre la crescita della Giacenza Media dei Buoni Fruttiferi Postali (BFP) è principalmente ascrivibile alla capitalizzazione degli interessi.

COSTI TOTALI
(dati in milioni di euro)

* La voce comprende costi per beni e servizi, rettifiche/riprese di valore, ammortamenti e altri costi e oneri.

I Costi totali della *Strategic Business Unit* ammontano a 4.872 milioni di euro e registrano una crescita di 76 milioni di euro (+1,6%) rispetto ai 4.796 milioni di euro realizzati nel 2021, prevalentemente per effetto dei maggiori costi verso altri settori (+123 milioni di euro) correlati principalmente ai maggiori costi verso le reti commerciali a fronte di maggiori volumi di attività. Tale variazione è parzialmente mitigata da maggiori liberazioni dei fondi rischi principalmente per via della prescrizione di talune giacenze relative all'attività di trasferimento fondi di BancoPosta e all'adeguamento della stima di alcuni rischi legati alla distribuzione di prodotti del risparmio postale e vertenze giudiziali con terzi.

Il risultato della gestione operativa (EBIT) del settore nel 2022 si attesta a 887 milioni di euro, in aumento del 18,9% rispetto al 2021 (+141 milioni di euro).

La gestione finanziaria dell'anno è negativa per 22 milioni di euro (positiva per 10 milioni di euro nel 2021) e tiene conto della rettifica per *impairment* di 21 milioni di euro sul valore della partecipazione di Anima. Per maggiori approfondimenti si rinvia a quanto riportato nelle note allo stato patrimoniale del bilancio consolidato del Gruppo.

Tenuto conto delle imposte del periodo (243 milioni di euro), il risultato netto della *Strategic Business Unit* Servizi Finanziari nel 2022 si attesta a 622 milioni di euro, in aumento di 66 milioni di euro rispetto ai 556 milioni di euro del 2021 (+12%).

RICAVI DA MERCATO

(dati in milioni di euro)

* Include Poste Insurance Broker e altri ricavi.

** Include Previdenza (Piano individuale pensionistico).

Ricavi Vita: commissioni di collocamento derivanti dalla vendita di Polizze di Ramo I, III, e V; commissioni di gestione delle polizze di Ramo I e III; margine di protezione derivante dalla vendita dei prodotti di protezione (polizze *Credit Protection Insurance* c.d. CPI, *Temporanea Caso Morte* c.d. TMC e *Long Term Care* c.d. LTC) e variazione delle altre riserve tecniche sulle Polizze Vita.

Ricavi Danni: ricavi afferenti le polizze di protezione *retail* (Modulare e Pagamenti) e collettive (*Welfare*), nonché per la vendita delle polizze *motor* e altri ricavi.

I ricavi da mercato passano da 1.861 milioni di euro del 2021 a 2.153 milioni di euro del 2022 (+15,7%) e sono essenzialmente riconducibili al *business* Vita che ha contribuito con 2.002 milioni di euro, mentre la contribuzione del ramo Danni ammonta complessivamente a 151 milioni di euro.

In particolare, i ricavi netti Vita aumentano, rispetto al medesimo periodo del 2021, del 15% (+262 milioni di euro), prevalentemente per effetto: i) del contributo positivo del margine finanziario (che passa da 1.455 milioni di euro del 2021 a 1.670 milioni di euro dell'analogo periodo del 2022 con una crescita di 215 milioni di euro); quest'ultimo beneficia della crescita delle masse medie gestite (maggiori riserve medie complessive per 9 miliardi di euro, di cui 6,5 miliardi di euro di Ramo I e 2,5 miliardi di euro di Ramo III rispetto al 2021) e della maggiore redditività grazie ai rendimenti crescenti delle Gestioni Separate⁸⁹; ii) del contributo derivante dalla variazione positiva delle Altre riserve tecniche (+50,5 milioni di euro) in particolare riconducibile al contributo positivo della riserva spese.

I rendimenti conseguiti nell'anno dalle Gestioni Separate (2,68% per la gestione PostaPensione e 2,59% per la gestione PostaValorePiù) risultano influenzati positivamente, per un ammontare pari a 1.088 milioni di euro, dall'incremento del tasso di inflazione con riferimento ai titoli cosiddetti *Inflation Linked* detenuti nel portafoglio di Poste Vita (per un valore nominale di circa 8,9 miliardi di euro al 31 dicembre 2022). Tali proventi, realizzati dalla Compagnia, sono stati riconosciuti per gran parte agli assicurati tramite la rivalutazione degli impegni verso gli stessi rappresentati nel valore delle riserve tecniche.

I ricavi netti Danni si attestano a 151 milioni di euro in crescita rispetto al corrispondente periodo del 2021 (+30 milioni di euro, +25,1%). In particolare, i premi lordi contabilizzati crescono di 67 milioni di euro (+21,5%) rispetto al 2021, mentre gli oneri per sinistri registrano un aumento di 37 milioni di euro (+22%) correlato alle nuove garanzie dell'offerta modulare e alla crescita del *business Welfare*. Il *Combined Ratio*, al netto della riassicurazione, si è attestato a un valore pari all'87,7% in calo rispetto al corrispondente periodo del 2021 (91,1%).

89. Il Rendimento della gestione separata principale è quello di PostaValorePiù (31 dicembre 2022 pari a 2,59% rispetto al 2,35% del 31 dicembre 2021).

Il quarto trimestre evidenzia un incremento dei ricavi netti Vita di 155 milioni di euro (+39,9%) rispetto all'analogo periodo del precedente esercizio riconducibile all'andamento del margine finanziario (+77 milioni di euro rispetto al quarto trimestre del 2021), per maggiori ricavi correlati ai titoli *inflation linked* e al contributo positivo derivante dalla variazione delle altre riserve tecniche e altri proventi/oneri tecnici (+59 milioni di euro), attribuibile principalmente al contributo positivo della riserva spese.

Nel comparto Danni si evidenzia una crescita dei ricavi (+12 milioni di euro) rispetto al quarto trimestre del 2021, per effetto principalmente della crescita dei **premi di competenza** (+15 milioni di euro) solo parzialmente mitigata dall'incremento degli oneri per sinistri (+6 milioni di euro).

La raccolta lorda del *business* Vita ammonta a 17,2 miliardi di euro, in diminuzione del 2,2% (-0,4 miliardi di euro) rispetto all'esercizio 2021 per effetto del decremento della raccolta afferente ai prodotti Multiramo che registra nell'anno una diminuzione di 2,6 miliardi di euro, ma con un'incidenza, sulla raccolta lorda complessiva, che continua ad essere rilevante (44%). Tale andamento risulta parzialmente compensato dall'incremento della raccolta afferente ai prodotti rivalutabili tradizionali, che registrano nel periodo una crescita di 2,2 miliardi di euro.

I premi lordi contabilizzati del *business* Danni ammontano a 375 milioni di euro, in crescita di 67 milioni di euro (+21,5%) rispetto al 2021 (309 milioni di euro) trainata da tutti i comparti: i) la linea "Protezione Modulare"⁹⁰ +19,2%; ii) le polizze protezione pagamenti +11,2% e iii) il segmento "Welfare" i cui premi passano da 119 milioni di euro rilevati alla fine del 2021 a 152 milioni di euro nel 2022, supportati principalmente dai nuovi accordi distributivi sottoscritti con i clienti *corporate* (*Employee Benefit*).

RACCOLTA NETTA VITA AL 31 DICEMBRE 2022

(dati in milioni di euro)

La raccolta netta Vita si attesta a 7,6 miliardi di euro (8,1 miliardi di euro registrati alla fine del 2021) in flessione per effetto principalmente dell'andamento della raccolta lorda e si mantiene positiva sui portafogli di Gestione Separata e Fondi Interni⁹¹. Il **tasso di riscatto**  pari a 3,5% risulta in crescita rispetto all'analogo periodo del precedente esercizio (3,0%) ma sempre molto inferiore rispetto al dato medio di mercato pari, al 31 dicembre 2022, a 6,71%⁹².

Le riserve tecniche nette del *business* Vita si attestano a 139,6 miliardi di euro e diminuiscono di 19,2 miliardi di euro rispetto al 31 dicembre 2021 principalmente per effetto del decremento della **Deferred Policyholder Liabilities** (DPL) (-27,2 miliardi di euro) a fronte di dinamiche finanziarie rilevate nel periodo condizionate dall'evoluzione dei tassi di interesse e dello *spread* BTP-BUND. Tale variazione risulta solo parzialmente compensata dall'incremento delle riserve matematiche (+8 miliardi di euro) per effetto della raccolta netta positiva. Le riserve tecniche afferenti al ramo Danni, al netto delle cessioni in **riassicurazione**, ammontano alla fine del periodo a 347 milioni di euro in crescita rispetto ai 273 milioni di euro registrati al 31 dicembre 2021.

RIPARTIZIONE PORTAFOGLIO INVESTIMENTI
(dati in miliardi di euro)

Nel 2022, in coerenza con l'ultima **asset allocation** approvata della Compagnia, è continuato il processo di diversificazione del portafoglio, con l'obiettivo di ridurre la concentrazione del rischio Italia, a favore di **asset class** che presentano una minore correlazione al rischio associato a titoli governativi italiani⁹³, quali ad esempio i Titoli Governativi non Italiani⁹⁴.

All'interno dei fondi di investimento, la diversificazione si è manifestata con una riduzione della concentrazione del rischio legato ai titoli governativi.

93. All'interno dell'*asset class Italy Govies* è inclusa la liquidità finanziaria della Compagnia (liquidità in attesa di essere conferita ai Gestori delle varie *asset class*). Al 31 dicembre 2022 l'incidenza della liquidità finanziaria sull'intero portafoglio è stata di circa l'1,07%. Il valore del portafoglio investimenti al 31 dicembre 2022 differisce dal valore delle riserve tecniche vita rappresentato nel grafico precedente. La differenza è dovuta alla diversa valutazione delle singole voci (principio del "costo" nella rappresentazione del portafoglio investimenti, IFRS ("market value") nella rappresentazione delle riserve), nonché a un diverso perimetro di riferimento; in particolare il valore del portafoglio investimenti non include il valore degli investimenti di classe D (Ramo II) e considera altresì il saldo del patrimonio libero.

94. Titoli governativi emessi da stati diversi da quello Italiano, in quanto questi ultimi vengono rappresentati come voce a sé stante.

COSTI TOTALI
(dati in milioni di euro)

I costi totali al 31 dicembre 2022 ammontano a 805 milioni di euro in aumento di 60 milioni di euro rispetto al 31 dicembre 2021, principalmente per effetto dei maggiori costi verso altri settori riconducibili a: i) maggiori provvigioni corrisposte alla *Strategic Business Unit Servizi Finanziari* (+55 milioni di euro); nel dettaglio si evidenziano: maggiori provvigioni di mantenimento corrisposte nell'anno (+49 milioni di euro) a fronte della crescita delle masse medie gestite, solo parzialmente compensata dalle minori provvigioni corrisposte per l'attività di distribuzione e incasso a seguito della diminuzione della raccolta lorda afferente il comparto Vita (-4 milioni di euro); maggiori provvigioni corrisposte sul comparto danni (+7 milioni di euro); maggiori provvigioni di gestione verso BancoPosta Fondi S.p.A. SGR (+3 milioni di euro); ii) maggiori costi nei confronti della *Strategic Business Unit Corrispondenza, Pacchi e Distribuzione* (+8 milioni di euro), correlati principalmente all'attività di *call center* (+2 milioni di euro), *back office*, canone per servizi IT e Poste Welfare Servizi per la gestione delle liquidazioni (complessivamente +6 milioni di euro).

Alla luce dei risultati illustrati, l'andamento economico della *Strategic Business Unit Servizi Assicurativi* evidenzia nel corso del 2022 un EBIT che si attesta a 1.350 milioni di euro, in crescita del 20,7% (+232 milioni di euro) rispetto al 2021 (1.119 milioni di euro).

Tenuto conto della gestione finanziaria (positiva per 41 milioni di euro), che include 22 milioni di euro sostenuti per il trattato di copertura del rischio di riscatto anticipato di massa (*mass lapse*), e delle imposte del periodo (413 milioni di euro), la *Strategic Business Unit Servizi Assicurativi* consegue al 31 dicembre 2022 un risultato netto di 979 milioni di euro in crescita del 18,8% (+155 milioni di euro) rispetto al 2021.

ANDAMENTO SOLVENCY RATIO

Il **Solvency Ratio** del Gruppo Poste Vita si è attestato al 31 dicembre 2022 al 253%⁹⁵, in diminuzione rispetto al 261% rilevato a dicembre 2021 (-7 p.p.), mantenendosi ai livelli superiori rispetto ai vincoli regolamentari e all'aspirazione del *management* (200%).

La variazione del periodo è dovuta ad un incremento dei fondi propri disponibili (+24 p.p.) a seguito delle dinamiche dell'andamento dei tassi di interesse (+290 bps tasso Swap a 10 anni) e dello *spread BTP-Swap* (+64 bps *spread* a 10 anni) che provocano da un lato un incremento dei **Fondi Propri**, per via della diminuzione delle riserve tecniche parzialmente compensata dalla riduzione del valore di mercato degli investimenti, e dall'altro un incremento del requisito di capitale.

L'incremento del **Requisito di capitale** (-35 p.p.) è dovuto principalmente a maggiori rischi di sottoscrizione e nello specifico al **"rischio di riscatto"**. Quest'ultimo viene calcolato, come previsto dalla formula *standard*⁹⁶, prevedendo uno scenario di riscatto del 40% delle polizze. In un contesto economico di tassi d'interesse in crescita, come quello registrato nel corso dell'anno, è cresciuto il valore delle polizze che sono divenute maggiormente remunerative. Ne consegue che con l'aumento dei tassi di interesse lo scenario "riscatto di massa" previsto dalla citata formula si valorizza (ovvero incrementa la valorizzazione del relativo rischio), pur con un livello di riscatti effettivi che sono rimasti sostanzialmente stabili. L'aumento del rischio di riscatto non è stato compensato dalla riduzione degli altri rischi, principalmente rappresentati dal minore rischio di mercato per le condizioni dello scenario economico del periodo.

In data 29 luglio 2022 la Capogruppo ha incrementato la dotazione di capitale di Poste Vita, attraverso la sottoscrizione di uno strumento di capitale, subordinato per 500 milioni di euro, a termini e condizioni che ne consentano la computazione nei fondi propri di base ("*Restricted Tier 1*" o "*RT1*"). Tale rafforzamento patrimoniale è finalizzato a ottimizzare la struttura di capitale della compagnia e supportare la crescita e lo sviluppo futuro del *business* del Gruppo Poste Vita.

La Compagnia ha inoltre sottoscritto un trattato di copertura del rischio di riscatto anticipato di massa, riferito ai prodotti Ramo I e Multiramo che consente incrementare il valore del *Solvency Ratio* del 2022 (+30 p.p.). Nell'attuale contesto di incertezza economica, le prospettive attuali del mercato assicurativo italiano inducono a ritenere che i comportamenti di estinzione anticipata delle polizze da parte della clientela possano mostrare andamenti crescenti in futuro nonostante questo fenomeno non sia, ad oggi, evidente nel portafoglio della Compagnia.

95. Le **Misure Transitorie**, che tenno attestare il valore del *Solvency Ratio* al 31 dicembre 2021 a 285%, al 31 dicembre 2022 non possono adottarsi in quanto il valore delle riserve tecniche calcolato secondo il regime *Solvency II* risulta inferiore al valore delle riserve tecniche civilistiche. L'indicatore tiene conto dei dividendi previsti a favore della Capogruppo per l'anno 2022. Il valore del *Solvency Ratio* è in corso di revisione annuale e verrà comunicato ad IVASS entro il 19 maggio 2023.

96. Formula di calcolo prevista da IVASS per il calcolo del requisito di capitale delle Compagnie assicurative che non adottano il modello interno di calcolo.

I ricavi da mercato nell'anno 2022 si attestano a 1.147 milioni di euro e segnano una crescita di 265 milioni di euro rispetto a dicembre 2021 (+30%) grazie al contributo positivo di tutti i comparti. In particolare, il comparto Incassi e Pagamenti ha rafforzato le proprie *performance* a seguito dell'acquisizione, avvenuta nel mese di settembre 2022, della società LIS Holding S.p.A., che apporta sul 2022 ricavi incrementali pari a 93 milioni di euro ai ricavi della SBU (distribuiti tra i comparti Monetica e Incassi e Pagamenti), mentre il *business* Energia ha beneficiato del lancio dei servizi di vendita di energia elettrica e gas nel mese di giugno 2022 verso un target ristretto di dipendenti, familiari e pensionati del Gruppo.

Nel dettaglio, i ricavi del comparto Monetica segnano una crescita di 124 milioni di euro passando da 457 milioni di euro del 2021 a 582 milioni di euro del 2022, per via dei maggiori ricavi da operatività delle carte di pagamento, riconducibili anche al conferimento da Poste Italiane a PostePay del ramo d'azienda relativo alle carte di debito avvenuto il 1° ottobre 2021 e alla sopracitata acquisizione a settembre 2022 di LIS Holding S.p.A., nonché dei maggiori ricavi dei servizi di *acquiring*.

I ricavi dei servizi di Incassi e Pagamenti segnano una crescita di 118 milioni di euro (+102,7%), passando da 115 milioni di euro registrati nel 2021 a 233 milioni di euro del 2022, trainati dagli avvisi di pagamento PagoPA e dai bonifici *instant*⁹⁷ da Postepay Evolution.

Il comparto delle Telecomunicazioni registra una crescita di 10 milioni di euro, rispetto ai 309 milioni di euro di ricavi conseguiti nel 2021 (+3,2%). L'incremento è attribuibile ai maggiori ricavi del servizio di connettività in fibra ottica.

Nel mese di giugno 2022 è stata lanciata per dipendenti, pensionati e familiari del Gruppo Poste Italiane la nuova offerta energia che, al 31 dicembre 2022, ha registrato 12 milioni di euro di ricavi, di cui, 7 milioni di euro derivanti dalla vendita dei servizi energetici e 5 milioni di euro da attività di *energy wholesale management*. L'offerta energia lanciata a giugno, ha fatto registrare nel 2022 circa 47 mila sottoscrizioni (di cui 29 mila per la *commodity power* e 18 mila per quella del gas) a fronte di una *customer base* di 38 mila contratti attivi (di cui 23 mila per il *power* e 15 mila per il gas).

Le *performance* del quarto trimestre 2022 confermano la crescita sostenuta nei comparti Incassi e Pagamenti e Monetica. In particolare, l'elevata operatività delle carte di pagamento correlata all'aumento delle transazioni operate sia sui canali fisici che digitali e l'acquisizione di LIS Holding, hanno trainato i ricavi del comparto monetica a 178 milioni di euro nel quarto trimestre (+30,6% rispetto al quarto trimestre del 2021). I servizi di Incassi e Pagamenti hanno registrato nel quarto trimestre 2022 ricavi pari a 99 milioni di euro (+104,5% rispetto all'analogo periodo del 2021) per via principalmente del contributo positivo del servizio di pagamenti PagoPA verso la Pubblica Amministrazione. *Performance* positive anche per il comparto delle Telecomunicazioni, che consegue nell'ultimo trimestre dell'anno ricavi pari a 82 milioni di euro (+4 milioni di euro, +5,4% rispetto al quarto trimestre del 2021) sostenuti dalla crescita della base clienti del servizio fibra, e per il comparto energia che consegue ricavi per 9 milioni di euro.

Al 31 dicembre 2022 la percentuale dei bollettini accettati su reti terze e sui canali digitali è in lieve calo rispetto a dicembre 2021, mentre si conferma la prevalenza dei canali alternativi all'Ufficio Postale per le ricariche delle Postepay.

COSTI TOTALI
(dati in milioni di euro)

I costi totali della *Strategic Business Unit* ammontano a 1.031 milioni di euro con un incremento del 12,1% (+111 milioni di euro) rispetto ai 920 milioni sostenuti nel 2021.

L'incremento dei costi per beni e servizi è ascrivibile essenzialmente ai maggiori costi variabili legati all'operatività delle carte nell'ambito del comparto monetica, nonché all'ampliamento del perimetro operativo generato dall'acquisizione di LIS. Si rileva una crescita anche dei costi del comparto Energia a seguito dell'avvio dell'offerta commerciale nel corso dell'anno. Tali variazioni in aumento sono in parte mitigate dai minori costi da traffico telefonico in ambito telecomunicazioni, a seguito del cambio operatore di rete (*Mobile Host Operator - MHO*) avvenuto nel corso del 2021.

L'incremento dei costi verso altri settori (+23 milioni di euro) rispetto al 2021 è determinato prevalentemente dai maggiori costi di esternalizzazione verso la Capogruppo, con particolare riferimento alle attività di distribuzione dei servizi di pagamento oltre ai maggiori costi di esternalizzazione registrati nell'ambito dei sistemi informativi del comparto Energia.

Il costo del lavoro aumenta di 9 milioni di euro rispetto a dicembre 2021, a seguito dell'ampliamento dell'organico a fronte dell'acquisizione della società LIS e del nuovo *business* Energia.

Alla luce dei risultati descritti, l'andamento economico della *Strategic Business Unit* Pagamenti e Mobile nel 2022 evidenzia un risultato della gestione operativa (EBIT) che si attesta a 379 milioni di euro, in crescita del 34,8% rispetto all'esercizio precedente (282 milioni di euro).

La gestione finanziaria presenta una variazione negativa di 228 milioni di euro rispetto allo scorso esercizio ascrivibile principalmente al provento non ricorrente di 225 milioni di euro conseguito nell'esercizio 2021, riconducibile all'operazione di fusione che ha coinvolto le società Nexi, Nets e SIA.

Per maggiori informazioni si rinvia a quanto illustrato nel paragrafo "Principali operazioni societarie intervenute" della Relazione Finanziaria Annuale 2021.

L'utile conseguito nell'anno ammonta a 270 milioni di euro, in calo del 36,6% rispetto al valore del 2021 (425 milioni di euro). Al netto della suddetta operazione societaria del 2021 la variazione dell'utile netto risulterebbe positiva per +64 milioni di euro rispetto al 2021 (+30,8%).

POTENZIAMENTO DEI CANALI DIGITALI

Nel corso del 2022 il Gruppo ha proseguito l'evoluzione dei canali digitali nell'ottica di garantire un'esperienza fluida e omnicanale ai suoi clienti sulla base dei seguenti principali *driver* di evoluzione:

Introduzione nuove funzionalità sui canali digitali

- Sviluppate in app BancoPosta nuove modalità di pagamento quali il pagamento con **Codice Postepay**, l'invio di denaro mediante **P2P**¹⁰² e il servizio **Google Pay**, con il quale è possibile **effettuare pagamenti** direttamente da *smartphone* con sistema operativo Android nei negozi fisici e *online* abilitati.
- Prevista la possibilità di visualizzare le ricevute di bonifici, postagiro e pagamento dei bollettini **da app e da sito web** poste.it direttamente in bacheca o condividendone il contenuto via *mail*, nonché visualizzare in bacheca le ricevute dei pagamenti effettuati in Ufficio Postale per bonifico, postagiro e ricariche.
- È stato **evoluto il servizio dell'assistente digitale (BOT)**  al fine di monitorare lo stato delle spedizioni.
- Nell'ambito delle attività di **evoluzione dell'offerta fibra**, sono stati messi a disposizione nuovi servizi in app (es: la possibilità di definire la modalità di pagamento e di ricezione della fattura), nonché la possibilità di gestire in area self (app e web) la nuova offerta **PosteCasa Ultraveloce Start** con eventuale integrazione dell'**opzione voce**.

Potenziamento catalogo di offerta sui canali digitali

- È stata abilitata la possibilità di sottoscrizione dell'offerta **Fibra** anche in app BancoPosta ed in app Postepay ed è stata attivata la vendita da *contact center*.
- È stato completato il lancio dell'offerta finanziaria a distanza su tutti gli uffici postali, che prevede la possibilità di inviare nell'area riservata del cliente la **proposta di consulenza e la possibilità di finalizzare la stessa tramite funnel digitale**.
- Nel mese di settembre 2022, in **app Postepay** è stata integrata la funzionalità di **vendita dei prodotti Luce e Gas** per i dipendenti del gruppo Poste Italiane. La vendita è completamente omnicanale: i clienti possono avviare il processo di acquisto e concluderlo successivamente anche tramite un altro canale; è inoltre prevista la gestione completa e autonoma della fornitura da canale *web* e da app Postepay.
- Nel corso del terzo trimestre 2022 è stata lanciata, sia nella rete degli uffici postali che sul canale digitale, l'iniziativa di *cross selling* (vendita integrata) del **servizio Fibra** con la **polizza Poste Vivere Protetti**¹⁰³.

Ottimizzazione infrastruttura PosteBusiness

Nel corso dell'anno è stata resa disponibile la nuova versione dell'app **PosteBusiness** comprensiva di nuove funzionalità per la clientela (configurazione della Vetrina *Business*, gestione degli incassi tramite mobile POS e l'utilizzo della carta Postepay Evolution Business).

102. Il **peer to peer** è una tecnologia che permette l'interscambio di denaro: due diversi dispositivi (computer, *tablet* o telefoni cellulari) sono in grado di comunicare fra loro per il passaggio di una somma di denaro, senza che vengano visualizzati i dettagli di conti correnti o carte di credito di entrambi.

103. L'iniziativa è finalizzata a offrire ai Clienti che richiedono il servizio PosteCasa Ultraveloce uno sconto per la sottoscrizione del modulo della gamma PosteVivere Protetti per la copertura danni e l'assistenza all'abitazione. Per promuovere la soluzione assicurativa è previsto, a conclusione del funnel di acquisto *online* del servizio Fibra, un *banner* dedicato, attraverso il quale il Cliente potrà accedere direttamente al calcolo del preventivo della polizza e proseguire alla sottoscrizione della stessa direttamente da canale digitale.

Il **Capitale immobilizzato** del Gruppo Poste Italiane al 31 dicembre 2022 si attesta a 5.852 milioni di euro, segnando un incremento di 1.287 milioni di euro rispetto alla fine dell'esercizio 2021. Alla formazione del capitale immobilizzato hanno concorso investimenti per 810 milioni di euro e un incremento dei Diritti d'uso per nuove stipule, rinnovi e variazione contrattuali rientranti nel perimetro di applicazione dell'IFRS 16 pari a complessivi 358 milioni di euro. Inoltre, si segnala l'incremento derivante dal primo consolidamento dei gruppi LIS per 685 milioni di euro, Plurima per 239 milioni di euro, Sourcesense per 27 milioni di euro e Agile per 15 milioni di euro (di cui 630 milioni di euro relativi alla rilevazione degli avviamenti derivanti dalle acquisizioni). Tali variazioni sono state parzialmente compensate da ammortamenti per 830 milioni di euro. Concorrono inoltre, al saldo della voce, le partecipazioni valutate con il metodo del patrimonio netto per complessivi 263 milioni di euro, riferibili principalmente alla partecipazione detenute in Anima Holding, Financit e Replica SIM. Con riferimento alla partecipazione in Anima Holding, si segnala che nel corso dell'esercizio è stata effettuata una svalutazione di 21 milioni di euro a seguito dell'esecuzione del test di *impairment* effettuato sul valore della partecipazione.

Gli **investimenti** del Gruppo del 2022 ammontano a 810 milioni di euro ed evidenziano un incremento del 7,5% rispetto al 31 dicembre 2021 (+57 milioni di euro). Gli investimenti classificati come ESG, ovvero che rispettano i principi di riferimento degli 8 Pilastri di Sostenibilità del Gruppo, rappresentano circa il 70% del valore complessivo. Tra i principali progetti si evidenziano gli interventi di efficientamento energetico del patrimonio immobiliare, l'evoluzione dell'infrastruttura tecnologica su ambiente *Cloud*, il miglioramento della *customer experience* dei prodotti e servizi offerti ai clienti in un'ottica multicanale e digitale, l'adozione di sistemi di gestione, di attrezzature e infrastrutture in materia di salute e sicurezza.

(dati in milioni di euro)

In linea con quanto previsto nel programma di investimenti 2021-2024 a supporto degli obiettivi del Piano Strategico, circa il 77% degli Investimenti del Gruppo Poste Italiane (627 milioni di euro) è stato destinato all'automazione e modernizzazione della **Strategic Business Unit Corrispondenza, Pacchi e Distribuzione**. In particolare, nel corso dell'anno è proseguito il percorso di rinnovo della flotta dedicata al recapito, con l'inserimento di circa 15.000 nuovi mezzi, di cui circa 1.900 elettrici, circa 7.000 ibridi e la restante parte a basse emissioni. Inoltre, sono state installate circa 2.300 infrastrutture per la ricarica dei veicoli elettrici. Al 31 dicembre 2022 risultano installate circa 4.000 colonnine elettriche.

Nel corso dell'esercizio corrente sono state implementate anche nuove linee di recapito a zero emissioni su 13 centri città che si aggiungono ai 15 centri città già realizzati nel corso del 2021, per un complessivo di 28 centri città. Per quanto riguarda i Comuni invece, sono 110 quelli con recapito a zero emissioni.

~23 mila

mezzi a basse emissioni disponibili nella flotta, di cui circa 3.600 elettrici

>410 mila

In materia di contenimento degli impatti ambientali, sono proseguiti gli interventi volti alla sostituzione delle lampade tradizionali con quelle a tecnologia LED (più di 32.000 nel 2022), all'automazione e al controllo a distanza della gestione degli impianti (oltre 960 edifici coinvolti nel progetto *Smart Building* nel 2022) al fine di ridurre i consumi di energia elettrica e le emissioni di CO₂. Sono stati inoltre installati nel corso dell'anno oltre 120 impianti fotovoltaici.

Nel 2022 sono proseguiti gli interventi legati alla gestione ordinaria della sicurezza sui luoghi di lavoro in particolare con la distribuzione di attrezzature di sicurezza presso le articolazioni territoriali e della sicurezza informatica tramite attività di prevenzione delle minacce e contrasto agli attacchi informatici; è stato ulteriormente esteso il servizio di videosorveglianza di Poste Italiane ai siti non ancora serviti e migliorati gli impianti già esistenti, sostituendo progressivamente videoregistratori digitali (DVR) e centrali antintrusione obsoleti; in particolare, sono state installate nel corso dell'anno oltre 200 nuove telecamere sostituendone 500, nonché sostituite più di 500 Centrali Antintrusione.

Nell'ambito della Trasformazione e Ingegnerizzazione Tecnologica è proseguita la migrazione dei servizi digitali esistenti alla nuova infrastruttura basata su *Hybrid Cloud*, attraverso una procedura di "containerizzazione" delle componenti applicative. Inoltre, nel corso dell'anno è proseguita l'attività di consolidamento dei *Data Center*, che ha visto la chiusura del sito di Rozzano (MI).

Nella **Strategic Business Unit dei Servizi Finanziari** gli investimenti complessivamente realizzati ammontano a 60 milioni di euro e sono principalmente riferiti all'ampliamento della gamma dei prodotti del Risparmio Postale, Vita e Fondi, in ottica multicanalità e al miglioramento della *customer experience*.

Nella **Strategic Business Unit dei Servizi Assicurativi** nel 2022 sono proseguite le attività progettuali a sostegno dello sviluppo industriale e del continuo miglioramento funzionale/infrastrutturale dei più importanti sistemi di supporto al *business*, nonché gli interventi di adeguamento dei sistemi per ottemperare agli obblighi normativi. Gli investimenti complessivamente realizzati nell'anno ammontano a 26 milioni di euro.

Gli investimenti del periodo della **Strategic Business Unit Pagamenti e Mobile** ammontano a 97 milioni di euro e hanno riguardato gli sviluppi a supporto dell'offerta di rete fissa e mobile con l'obiettivo di accrescerne la competitività sul mercato, nonché gli investimenti IT per l'area Bollettino e PagoPA e quelli finalizzati a supportare il lancio dell'offerta di energia elettrica e gas sul mercato nazionale.

Per maggiori approfondimenti delle iniziative finalizzate all'accelerazione dei processi di digitalizzazione e di fruizione omnicanale delle offerte delle diverse *Strategic Business Unit*, si rimanda a quanto riportato nel paragrafo "Potenziamento dei canali digitali".

Il **Capitale circolante netto** al 31 dicembre 2022 ammonta a 1.396 milioni di euro e si decrementa di 889 milioni di euro rispetto a fine esercizio 2021. A tale variazione hanno concorso:

- minori Crediti commerciali per 329 milioni di euro e maggiori Debiti commerciali di 205 milioni di euro;
- decremento degli altri crediti e attività al netto delle altre passività per circa 355 milioni di euro (principalmente per la variazione delle partite di natura tributaria relative all'operatività delle *Strategic Business Unit* Servizi Assicurativi e Servizi Finanziari).

La riduzione del capitale circolante per 889 milioni di euro ha garantito un minore fabbisogno finanziario e una fonte interna di finanziamento consentendo la liberazione liquidità.

Con riferimento ai crediti commerciali, nel corso del 2022 ci si è concentrati sulle attività di monitoraggio delle situazioni di ritardo dei pagamenti e sul miglioramento delle attività di recupero del credito scaduto. Nello specifico le attività prevalenti si sono focalizzate sull'invio sistematico dei solleciti, sulla riduzione dei tempi per il blocco del servizio per i clienti morosi, sull'accelerazione dell'invio delle pratiche irrecuperabili alla funzione legale.

Nel corso dell'anno il Gruppo ha proseguito il suo impegno nell'attivare canali diretti con i clienti morosi al fine di comprenderne le motivazioni e attivare delle azioni per rendere più efficace il processo di incasso. Tali attività hanno garantito miglioramenti significativi nella riduzione dei tempi di incasso sia del credito pregresso che di quello corrente.

Con riferimento specifico ai crediti verso la Pubblica Amministrazione, si rileva una significativa riduzione dei crediti verso Cassa Depositi e Prestiti dovuta alle nuove tempistiche di fatturazione e incasso previste nella Convenzione in vigore.

Con riferimento invece all'incremento dei debiti commerciali lo stesso è prevalentemente imputabile alle modifiche di perimetro del gruppo dovute alle operazioni societarie dell'anno, all'aumento inflattivo e all'aumento degli investimenti.

nel progetto *Smart Building*
al 31 dicembre 2022

Il saldo dei **Fondi diversi e delle Altre attività/passività** al 31 dicembre 2022 ammonta a 716 milioni di euro e si decrementa di 1.182 milioni di euro rispetto al 31 dicembre 2021 principalmente per effetto dei maggiori crediti netti per imposte anticipate per 1.053 milioni di euro (in larga parte per effetto delle variazioni negative del *fair value* relative agli strumenti finanziari classificati nella categoria FVOCI) e della riduzione del trattamento di fine rapporto per 217 milioni di euro parzialmente compensata dall'incremento dei fondi per rischi e oneri per 88 milioni di euro (principalmente per l'accantonamento a fondo rischi per crediti di imposta Legge n. 77/2020, al netto del decremento del fondo per incentivazione all'esodo).

Il **Patrimonio netto** al 31 dicembre 2022 ammonta a 8.937 milioni di euro e si decrementa rispetto al 31 dicembre 2021 di 3.173 milioni di euro. Tale variazione è principalmente riconducibile all'effetto positivo dell'utile del periodo di 1.511 milioni di euro che è stato più che compensato dalla distribuzione di dividendi per 801 milioni di euro¹⁰⁵ e dal decremento della riserva di *fair value* derivante essenzialmente dalla variazione negativa del *fair value* degli strumenti finanziari classificati nella categoria FVTOCI per 3.865 milioni di euro.

POSIZIONE FINANZIARIA NETTA DEL GRUPPO

(dati in milioni di euro)

105. Il valore include circa 3 milioni di euro di dividendi distribuiti ai soci di minoranza dalle società controllate.

La **Posizione finanziaria netta** complessiva al 31 dicembre 2022 è in avanzo di 2.406 milioni di euro, in diminuzione di 4.752 milioni di euro rispetto ai valori al 31 dicembre 2021 (in cui presentava un avanzo di 7.158 milioni di euro). A tale variazione hanno concorso principalmente:

- una gestione operativa positiva per 2.387 milioni di euro (di cui 1.511 milioni di euro riferibili all'utile dell'esercizio, 830 milioni di euro agli ammortamenti e 47 milioni di euro ad altre partite residuali);
- l'effetto positivo riconducibile alla variazione del capitale circolante e delle imposte per circa 1.089 milioni di euro di cui:
 - decremento dei crediti commerciali lordi per circa 360 milioni di euro (escludendo l'apporto da operazioni societarie);
 - 91 milioni di euro di maggiori debiti commerciali (escludendo l'apporto da operazioni societarie);
 - un decremento degli Altri crediti e attività al netto delle Altre passività per circa 330 milioni di euro ascrivibile principalmente al decremento netto delle partite di natura tributaria relative prevalentemente all'operatività delle *Strategic Business Unit* Servizi Assicurativi e Servizi Finanziari;
 - variazione delle imposte per circa 307 milioni di euro;
- investimenti in immobilizzazioni per 810 milioni di euro;
- l'effetto negativo derivanti dalla distribuzione di dividendi per 801 milioni di euro (di cui 273 milioni di euro relativi all'acconto del dividendo ordinario previsto per l'esercizio 2022);
- investimenti in partecipazioni per 843 milioni di euro di cui 526 milioni di euro relativi all'acquisizione del gruppo LIS (di cui 700 milioni di euro per l'esborso), 248 milioni di euro relativi al gruppo Plurima (di cui 105 milioni di euro per l'esborso), 39 milioni di euro relativi al gruppo Sourcesense (di cui 30 milioni di euro per l'esborso), 27 milioni di euro relativi al gruppo Agile (di cui 18 milioni di euro relativi all'esborso) e 3 milioni di euro per l'investimento in Eurizon Capital Real Asset;
- gli effetti valutativi del periodo negativi per 5.353 milioni di euro riconducibili essenzialmente alle oscillazioni negative di valore degli investimenti classificati nella categoria FVTOCI, detenuti principalmente dalle *Strategic Business Unit* Servizi Finanziari, e in via residuale dalle altre SBU;

582

- altri decrementi per complessivi 422 milioni di euro, essenzialmente ascrivibili all'incremento delle passività finanziarie per *leasing* rientranti nel regime di applicazione dell'IFRS 16 per 381 milioni di euro.

Con riferimento agli strumenti finanziari detenuti dalla *Strategic Business Unit* Servizi Finanziari, l'oscillazione complessiva del *fair value* nell'esercizio è negativa per circa 15,5 miliardi di euro ed è rilevata nell'apposita riserva di Patrimonio netto per negativi 4,4 miliardi di euro per la parte non coperta da strumenti di *fair value hedge*, e a Conto economico per negativi 11,1 miliardi di euro per la parte coperta, compensata dalla variazione positiva di *fair value* degli strumenti derivati di *fair value hedging*.

Al 31 dicembre 2022 il saldo complessivo dei derivati in *fair value hedge* è positivo per 5,4 miliardi di euro (negativo per 4,4 miliardi di euro al 31 dicembre 2021). Inoltre, nell'ambito di tali operazioni di copertura, a seguito della variazione positiva degli strumenti derivati, la Capogruppo evidenzia una variazione complessiva netta dei Depositi a garanzia per circa 9 miliardi di euro (al 31 dicembre 2022 il saldo dei depositi a garanzia è a debito per 4,8 miliardi di euro mentre al 31 dicembre 2021 il saldo era a credito per 4,2 miliardi di euro).

Posizione finanziaria netta della *Strategic Business Unit* Corrispondenza, Pacchi e Distribuzione (dati in milioni di euro)

La **Posizione Finanziaria Netta della Strategic Business Unit Corrispondenza, Pacchi e Distribuzione** al 31 dicembre 2022 è in disavanzo di 2.839 milioni di euro (1.401 milioni di euro al netto delle passività per *leasing* e degli effetti valutativi), in peggioramento di 1.555 milioni di euro rispetto ai valori al 31 dicembre 2021, in cui presentava un disavanzo di 1.284 milioni di euro (160 milioni di euro al netto delle passività per *leasing* e degli effetti valutativi).

Escludendo gli effetti delle operazioni straordinarie intervenute nel corso del periodo e, al netto delle passività per *leasing* e degli effetti valutativi, la Posizione Finanziaria Netta è in disavanzo di 14 milioni di euro, in miglioramento di 146 milioni di euro rispetto ai valori al 31 dicembre 2021 (disavanzo di 160 milioni di euro). In dettaglio tale variazione riflette:

- una gestione operativa (FFO) positiva per 259 milioni di euro;
- un effetto positivo relativo alla variazione del capitale circolante netto per 625 milioni di euro;
- nuovi investimenti in immobilizzazioni per 788 milioni di euro;
- un flusso positivo da dividendi di 49 milioni di euro per l'effetto netto dei dividendi ricevuti dalle società (861 milioni di euro) e pagati agli azionisti (801 milioni di euro, di cui 273 milioni di euro relativi all'acconto del dividendo ordinario previsto per l'esercizio 2022).

Concorrono, inoltre, al saldo finale della Posizione Finanziaria Netta operazioni straordinarie per complessivi 1.387 milioni di euro, di cui:

- 700 milioni di euro relativi all'aumento di capitale sottoscritto in PostePay propedeutico all'acquisizione da parte di quest'ultima del gruppo LIS;
- 500 milioni di euro a fronte della sottoscrizione di uno strumento di capitale, subordinato e non convertibile, con durata perpetua, emesso da Poste Vita;
- 147 milioni di euro relativi all'effetto complessivo derivante dall'acquisizione del gruppo Plurima (al netto della passività finanziarie per *leasing* della società);
- 70 milioni di euro per l'acquisizione da parte di Poste Italiane della partecipazione in Poste Welfare Servizi, precedentemente detenuta da Poste Vita;
- 26 milioni di euro relativi all'effetto complessivo derivante dall'acquisizione del gruppo Agile (al netto della passività finanziarie per *leasing* della società);
- 37 milioni di euro relativi all'effetto complessivo derivante dall'acquisizione del gruppo Sourcesense (al netto della passività finanziarie per *leasing* della società);
- 93 milioni di euro di effetto positivo derivante dalla fusione della controllata PSIA, precedentemente allocata nel settore Pagamenti e Mobile.

I **ricavi totali** conseguiti da Poste Italiane S.p.A. nel 2022 ammontano a 10.053 milioni di euro in aumento del 3,7% rispetto all'esercizio precedente (9.691 milioni di euro nel 2021). La voce Ricavi e Proventi registra una crescita di 419 milioni di euro (+4,9%) rispetto al 2021, grazie al contributo dei **ricavi per servizi finanziari** che mostrano un incremento rispetto all'esercizio 2021 principalmente imputabile ai maggiori proventi degli impieghi della raccolta su conti correnti postali e delle disponibilità libere, in parte mitigato dal decremento dei proventi derivanti dall'attività di raccolta del risparmio postale, dovuto alla contrazione della raccolta condizionata dal contesto macroeconomico dell'esercizio.

Il decremento dei **Proventi diversi derivanti da operatività finanziaria**, rispetto all'esercizio precedente, è principalmente dovuto ai minori utili da realizzo da strumenti finanziari. L'incremento della voce **Altri ricavi e proventi** è dovuta principalmente ai maggiori dividendi distribuiti dalle società controllate nell'esercizio.

I **costi totali**, al netto degli Ammortamenti e svalutazioni, passano da 8.091 milioni di euro del 2021 a 8.233 milioni di euro del 2022, per via principalmente dell'aumento degli altri costi operativi (+390 milioni di euro rispetto al 2021) parzialmente controbilanciato dal decremento del costo del lavoro (-248 milioni di euro rispetto al 2021). L'aumento degli altri costi operativi è imputabile principalmente: i) ai maggiori accantonamenti per rischi e a perdite sui crediti d'imposta, solo in parte compensati da minori accantonamenti netti delle rimanenti voci degli altri fondi rischi e oneri; ii) all'aumento degli oneri da operatività finanziaria dovuto prevalentemente all'effetto dei maggiori interessi passivi riconosciuti alla clientela pubblica per i depositi su conti correnti postali, a seguito del rialzo della curva dei tassi di interesse, parzialmente compensati da minori perdite da realizzo da strumenti finanziari.

La voce **Ammortamenti e svalutazioni** aumenta di 29 milioni di euro rispetto all'esercizio precedente per via dei maggiori ammortamenti e a minori riprese di valore sia sugli immobili, impianti e macchinari (20 milioni di euro), che sui diritti d'uso (4

milioni di euro) principalmente per l'ampliamento della flotta in *leasing*, nonché per maggiori ammortamenti su attività immateriali (5 milioni di euro) correlati agli investimenti su applicativi *software* divenuti disponibili all'uso nel corso dell'esercizio.

Il **costo complessivo del lavoro** registra un decremento di 248 milioni di euro (-4,7%) rispetto all'esercizio 2021. Tale variazione è principalmente imputabile alla riduzione della componente straordinaria ed in parte alla diminuzione della componente ordinaria.

La riduzione della componente straordinaria è principalmente dovuta ai minori incentivi all'esodo (-156 milioni di euro).

La variazione della componente ordinaria rispetto all'anno precedente deriva principalmente dalla riduzione dell'organico mediamente impiegato (circa 1.500 FTE in meno rispetto al 2021).

Le **imposte sul reddito** passano da 100 milioni di euro del 2021 a 253 milioni di euro nel 2022 in aumento di 153 milioni di euro. Il saldo dell'esercizio 2022 comprende l'effetto positivo per complessivi 6 milioni di euro relativi al beneficio fiscale connesso all'Aiuto alla Crescita Economica (ACE), riferito all'esercizio 2013, per il quale, nell'esercizio in commento, sono venute meno le incertezze connesse alla quantificazione.

Poste Italiane S.p.A. al 31 dicembre 2022 ha conseguito un Utile netto di 847 milioni di euro (797 milioni di euro nel 2021).

La struttura patrimoniale di Poste Italiane S.p.A. presenta al 31 dicembre 2022 un capitale investito netto di 7.187 milioni di euro (5.095 milioni di euro al 31 dicembre 2021).

Il **Capitale immobilizzato** si attesta a 7.895 milioni di euro ed evidenzia un incremento di 1.382 milioni di euro rispetto al 2021. Alla formazione del Capitale immobilizzato hanno altresì concorso investimenti in immobilizzazioni materiali e immateriali per 751 milioni di euro, in parte compensati da ammortamenti e svalutazioni per 538 milioni di euro. La voce Attività per diritti d'uso registra una variazione positiva di 95 milioni di euro che tiene principalmente conto delle acquisizioni dell'esercizio per nuovi contratti e rinnovo di contratti esistenti per 291 milioni di euro (principalmente riferiti al noleggio di veicoli aziendali adibiti all'attività di recapito di posta e pacchi), rettifiche positive di 37 milioni di euro per variazioni contrattuali intercorse nell'esercizio e degli ammortamenti del periodo pari a 208 milioni di euro. Il valore delle partecipazioni evidenzia un incremento di 1.078 milioni di euro rispetto al 31 dicembre 2021 principalmente imputabile all'effetto: i) della sottoscrizione in data 9 settembre 2022 dell'aumento di capitale sociale a pagamento di PostePay S.p.A. di complessivi 700 milioni di euro finalizzato a dotare la società delle risorse finanziarie necessarie al completamento dell'operazione di acquisizione della società LIS Holding S.p.A., perfezionatasi in data 14 settembre 2022; ii) della ricapitalizzazione, in data 3 agosto 2022, di Poste Vita S.p.A. attraverso la sottoscrizione di uno strumento di capitale subordinato e non convertibile, con durata perpetua e con periodo di *non-call* di 10 anni, per complessivi 500 milioni di euro, finalizzato a rafforzare il *Solvency Ratio*; iii) dell'acquisto in data 24 febbraio 2022 da Poste Vita S.p.A. del 100% del capitale sociale di Poste Welfare Servizi S.r.l. per complessivi 70 milioni di euro; iv) del versamento in conto capitale, in data 14 aprile 2022, a favore di Poste Welfare Servizi S.r.l. di complessivi 55 milioni di euro finalizzato a dotare la società delle risorse finanziarie necessarie all'acquisizione della società Plurima S.p.A.; v) dell'adesione, in data 28 ottobre 2022, da parte di Poste Italiane S.p.A. all'offerta pubblica di acquisto volontaria delle azioni e *warrant* emesse dalla società Sourcesense S.p.A. con un investimento complessivo di 30 milioni di euro; vi) dell'acquisto, in data 13 ottobre 2022, di una partecipazione azionaria pari al 70% della società Agile Power S.r.l. e indirettamente dell'intero Gruppo Agile Lab, di complessivi 18 milioni di euro, che ha previsto il versamento da parte di Poste Italiane a favore dei soci fondatori, che manterranno il restante 30%, di 13 milioni di euro e la sottoscrizione di un aumento di capitale sociale a pagamento a favore delle società di 5 milioni di euro; vii) della fusione per incorporazione in Poste Italiane S.p.A. della società controllata PSIA S.r.l., con efficacia a decorrere dal 1° novembre 2022, la quale ha generato un avanzo da fusione di complessivi 330 milioni di euro, rilevato nell'apposita riserva di Patrimonio netto. Inoltre, in data 29 settembre 2022 è stato ceduto il ramo d'azienda *Information Technology* di BancoPosta Fondi S.p.A. SGR in favore di Poste Italiane S.p.A. con efficacia a partire dal 1° ottobre 2022.

Il **Capitale circolante netto** al 31 dicembre 2022 si attesta a 3 milioni di euro e si decrementa di 644 milioni di euro rispetto alla fine dell'esercizio 2021 principalmente per l'effetto congiunto: i) della diminuzione dei crediti commerciali prevalentemente riconducibile alla diminuzione dei crediti verso Cassa Depositi e Prestiti (-365 milioni di euro) per via delle nuove modalità di fatturazione e pagamento su base mensile e non più trimestrale, introdotte dalla Convenzione del 23 dicembre 2021, in vigore dal 1° gennaio 2022; ii) dell'aumento dei risconti passivi principalmente per il contributo a fondo perduto (125 milioni di euro) ricevuto anticipatamente da Poste Italiane S.p.A. per la realizzazione del progetto "Polls - Casa dei servizi digitali"; iii) dell'aumento del debito complessivo che Poste Italiane S.p.A. vanta nei confronti delle controllate in qualità di consolidante fiscale (+113 milioni di euro).

Il saldo dei **Fondi per rischi e oneri** si attesta a 1.257 milioni di euro (1.169 milioni di euro a fine dicembre 2021) e tiene conto principalmente del Fondo di incentivazione agli esodi per 352 milioni di euro (515 milioni di euro al 31 dicembre 2021) che riflette la stima delle passività che la Società si è impegnata irrevocabilmente a sostenere per trattamenti di incentivazione all'esodo su base volontaria, secondo le prassi gestionali in atto con le Rappresentanza Sindacali per un definito numero di dipendenti che risolveranno il loro rapporto di lavoro entro il 31 dicembre 2024.

Il saldo accoglie altresì il Fondo rischi per crediti d'imposta Legge 77/2020 che include l'accantonamento di 320 milioni di euro per rischi su crediti d'imposta.

Il Fondo vertenze con terzi è costituito a copertura delle prevedibili passività, relative a contenziosi di varia natura con fornitori e terzi, giudiziali ed extragiudiziali, alle relative spese legali, nonché a sanzioni amministrative, penali e indennizzi nei confronti della clientela. Al 31 dicembre 2022 il fondo si attesta a 265 milioni di euro (265 milioni di euro al 31 dicembre 2021). Le variazioni intervenute nell'esercizio si riferiscono all'aggiornamento delle passività stimate e ad utilizzi per passività definite.

Il Fondo rischi operativi relativo a passività derivanti dall'operatività condotta in ambito BancoPosta di 109 milioni di euro al 31 dicembre 2022 registra una variazione in diminuzione rispetto al saldo al 31 dicembre 2021 (134 milioni di euro). Gli assorbimenti netti dell'esercizio, di complessivi 12 milioni di euro, riflettono principalmente la prescrizione di talune giacenze relative all'attività di trasferimento fondi e l'adeguamento delle stime dei rischi legati alla distribuzione di prodotti del risparmio postale nonché delle frodi.

Il Fondo oneri del personale si attesta a 101 milioni di euro (120 milioni di euro a fine dicembre 2021) ed è costituito a copertura di prevedibili passività afferenti al costo del lavoro, certe o probabili nel loro futuro manifestarsi ma suscettibili di variazioni di stima nella relativa quantificazione. Si incrementa nell'esercizio per il valore stimato di nuove passività (89 milioni di euro) e si decrementa per il venir meno di passività identificate in passato (33 milioni di euro) e per passività definite (75 milioni di euro).

Il saldo netto dei **Crediti (Debiti) per imposte anticipate/differite** al 31 dicembre 2022 è positivo per 1.223 milioni di euro (saldo non significativo al 31 dicembre 2021); la variazione del periodo è in larga parte ascrivibile all'effetto fiscale netto positivo sulla variazione negativa netta della riserva di *fair value* degli investimenti in titoli disponibili per la vendita.

Il **Patrimonio netto** ammonta a 3.808 milioni di euro e diminuisce di 3.227 milioni di euro rispetto all'esercizio precedente in relazione principalmente alla movimentazione della riserva di *fair value* (-3.326 milioni di euro) in cui sono riflesse sostanzialmente le oscillazioni (positive e/o negative) da valutazione degli investimenti classificati nella categoria FVTOCI, nonché al pagamento del saldo 2021 e dell'acconto 2022 dei dividendi agli azionisti (-799 milioni di euro) e alla movimentazione della riserva di *cash flow hedge* (-93 milioni di euro). Tali variazioni sono parzialmente mitigate dall'utile di esercizio di 847 milioni di euro.

7.7.3 Relazione sulla Gestione del Patrimonio BancoPosta

Governance del Patrimonio BancoPosta

Con riferimento alla *Governance* del Patrimonio BancoPosta, le regole di organizzazione, gestione e controllo che ne disciplinano il funzionamento sono contenute nel "**Regolamento del Patrimonio BancoPosta**" approvato dall'Assemblea straordinaria del 14 aprile 2011 e da ultimo modificato dall'Assemblea straordinaria del 29 maggio 2018. Per effetto dell'emanazione da parte della Banca d'Italia, il 27 maggio 2014, di un aggiornamento delle Disposizioni di Vigilanza prudenziali per le banche, al Patrimonio BancoPosta si applicano le disposizioni previste per gli istituti di credito sull'assetto organizzativo e di *governance*, sul sistema contabile e dei controlli e sugli istituti di adeguatezza patrimoniale e contenimento dei rischi.

Per ogni ulteriore approfondimento sugli assetti di *Corporate Governance* si rinvia alla "Relazione sul Governo Societario e gli assetti proprietari" di Poste Italiane approvata di tempo in tempo dal Consiglio di Amministrazione e pubblicata sul sito internet della Società nella sezione Governance.

BancoPosta è altresì dotato di un "**Regolamento Organizzativo e di Funzionamento**" approvato dal Consiglio di Amministrazione di Poste Italiane, il cui ultimo aggiornamento è del 24 giugno 2022, che descrive il modello di funzionamento di BancoPosta, il suo assetto organizzativo e le correlate responsabilità assegnate alle diverse funzioni, nonché i processi di affidamento di funzioni aziendali di BancoPosta a Poste Italiane e di esternalizzazione del Patrimonio BancoPosta.

Il processo di "Governo degli Affidamenti e delle Esternalizzazioni" del Patrimonio BancoPosta, già oggetto di rivisitazione nel 2018, è stato ulteriormente irrobustito, da ultimo nel mese di giugno 2022, relativamente agli ambiti di presidio delle attività affidate e/o esternalizzate, nell'ottica di un miglioramento della qualità dei processi.

Nel corso del secondo trimestre del 2022 sono state avviate le attività propedeutiche al **rinnovo dei Disciplinari**¹⁰⁶ in scadenza a dicembre 2022. Coerentemente con i termini previsti dalla normativa, i Disciplinari relativi a Funzioni Essenziali o Importanti (FEI) e a Funzioni di Controllo aggiornati per il periodo 1° gennaio 2023 – 31 dicembre 2025 sono stati inviati in data 28 ottobre a Banca d'Italia per le verifiche di competenza (c.d. "Comunicazione preventiva"). Il 2 gennaio 2023 l'Autorità ha risposto non rilevando elementi ostativi agli affidamenti in questione: BancoPosta sta quindi procedendo con la sottoscrizione dei Disciplinari, avendo incluso alcune modifiche previste nel cosiddetto "Piano degli Interventi" redatto in relazione alle osservazioni ricevute dall'Autorità di Vigilanza come esito dell'accertamento ispettivo svolto nel 2022.

Nel 2022, con l'obiettivo di presidiare e di rafforzare le modalità di interlocuzione sulle funzioni affidate ed esternalizzate, sono proseguiti i **Comitati Operativi** con le funzioni di Poste Italiane (Mercato Privati, Digital, Technology & Operations, Sicurezza Informatica, Movimento Fondi, Mercato Imprese e Pubblica Amministrazione) e sono stati avviati i comitati per gli ambiti di *Business Continuity Management* (BCM), CERT, *Fraud Management* e Risorse Umane e Organizzazione. Sono altresì proseguiti i Comitati Operativi con BancoPosta Fondi S.p.A. SGR, che presta il servizio di gestione finanziaria del Patrimonio BancoPosta, e con PostePay S.p.A., che gestisce per conto di BancoPosta diversi prodotti quali, a titolo esemplificativo, bollettini, bollo auto, RAV, bonifici, domiciliazioni, postagiro, vaglia, incassi domiciliati, eurogiro, carte libretto e la piattaforma dei pagamenti.

Nel corso del primo semestre del 2022 è stato sottoscritto il contratto di gestione su base individuale di portafogli di investimento per conto terzi con BancoPosta Fondi S.p.A. SGR. L'integrazione dei contenuti previsti, inerente al periodo di migrazione e al passaggio di consegne, alla specifica del luogo di erogazione del servizio, ai diritti di cessazione, alla disciplina della sub-esternalizzazione e alla continuità operativa, è efficace dal 1° gennaio 2022. Nel corso del secondo semestre 2022 sono state avviate le attività di rinnovo per il contratto tra BancoPosta e PostePay S.p.A. relativo ai servizi di incasso e pagamento, in scadenza al 31 dicembre 2022. La sottoscrizione del nuovo contratto, di durata annuale, è avvenuta nel mese di marzo 2023.

¹⁰⁶ Contratti con i quali il Patrimonio BancoPosta affida attività operative o di controllo a funzioni di Poste Italiane. I Disciplinari stabiliscono, tra l'altro, i livelli di servizio e i prezzi di trasferimento e acquisiscono efficacia dopo un processo autorizzativo che coinvolge le Funzioni Interessate, l'Amministratore Delegato, e quando previsto, il Consiglio di Amministrazione della Società. Si rinvia all'Informativa sul Patrimonio Destinato BancoPosta nel Rendiconto Separato del patrimonio BancoPosta al 31 dicembre 2022 della presente Relazione Finanziaria Annuale per maggiori dettagli.

Il **Margine di interesse** si attesta a 1.923 milioni di euro e segna un aumento del 33,4% (+481 milioni di euro).

In particolare, gli interessi attivi pari a 2.095 milioni di euro in aumento del 36,7% rispetto a 1.533 milioni di euro dell'anno precedente (+562 milioni di euro) accolgono i proventi derivanti dagli impieghi in titoli, dei depositi fruttiferi presso il MEF, dei crediti d'imposta, delle operazioni in pronti contro termine e delle collateralizzazioni su derivati. La variazione della voce è dovuta principalmente ai maggiori proventi degli impieghi in crediti d'imposta acquistati in riferimento al Decreto Rilancio n.34/2020 (successivamente convertito nella Legge n.77/2020) e degli impieghi presso il MEF della raccolta da conti correnti postali appartenenti alla clientela pubblica, il cui rendimento, è variabile ed è calcolato su un paniere di titoli di Stato.

Gli Interessi passivi che sono riconducibili sostanzialmente a rapporti di conto corrente, operazioni in pronti contro termine e collateralizzazioni di operazioni in derivati, ammontano a 172 milioni di euro e risultano in aumento rispetto ai 91 milioni del 2021 (+81 milioni di euro pari a +89%). La variazione della voce è dovuta principalmente all'aumento degli interessi riconosciuti alla clientela pubblica per le giacenze su conti correnti postali.

Le **Commissioni nette** si attestano a 3.238 milioni di euro ed evidenziano una diminuzione del 2,5% rispetto ai 3.321 milioni di euro dell'analogo periodo precedente (-83 milioni di euro). Le commissioni attive si attestano a 3.454 milioni di euro e registrano una flessione di 135 milioni di euro (-3,7%) rispetto al 2021; la variazione negativa riflette principalmente l'effetto di minori ricavi dall'attività di raccolta del risparmio postale e da commissioni su bollettini ed è mitigata da un miglioramento dei ricavi per intermediazione assicurativa, da maggiori commissioni percepite per l'attività di collocamento e promozione di prodotti emessi da PostePay e dal *repricing* delle commissioni di tenuta conto verso la clientela. Le commissioni passive ammontano a 216 milioni di euro, in diminuzione rispetto ai 267 milioni di euro registrati nel 2021 (-51 milioni di euro, pari a -19,1%). La variazione negativa è da ricondurre sostanzialmente a minori costi maturati nell'ambito del contratto di *service* sottoscritto con PostePay S.p.A.

Il Risultato netto dell'attività di negoziazione (negativo per 68 milioni di euro) e di copertura (positivo per 18 milioni di euro), è riconducibile rispettivamente all'effetto degli oneri generati da strumenti derivati stipulati a copertura gestionale della componente indicizzata a cui è legata la remunerazione della raccolta della Pubblica Amministrazione e all'effetto positivo della componente di inefficacia dei derivati di copertura in essere.

L'Utile netto da cessioni di Attività finanziarie si attesta a 335 milioni di euro, in diminuzione rispetto ai 407 milioni di euro del 2021 (-72 milioni di euro, -17,7%).

Il Risultato netto delle attività e passività finanziarie valutate al *fair value* con impatto a Conto Economico è positivo e pari a 1 milione di euro, principalmente per la variazione positiva del *fair value* delle azioni Visa Incorporated.

Gli **Oneri operativi netti**, che sono complessivamente pari a 4.633 milioni di euro, includono spese amministrative per 4.627 milioni di euro e altri proventi di gestione complessivamente negativi per 6 milioni di euro. Le Spese Amministrative risultano in aumento del 4,1% rispetto allo scorso anno e i proventi di gestione risultano in diminuzione rispetto al valore positivo di 8 milioni di euro registrato nel 2021.

La voce Accantonamenti netti a Fondi per rischi ed oneri presenta un saldo positivo di 21 milioni di euro, rispetto al saldo negativo di 48 milioni di euro del precedente esercizio. Tale variazione positiva risente della revisione di stima di alcuni rischi legati alla distribuzione del prodotto vaglia e alle vertenze giudiziali con terzi afferenti al Patrimonio destinato BancoPosta.

La voce Rettifiche e riprese di valore nette per rischio di credito, si attesta a -1 milione di euro (+4 milioni di euro al 31 dicembre 2021). La voce riflette l'effetto congiunto di maggiori oneri relativi a rettifiche di valore legate all'*Expected Credit Losses* sul portafoglio titoli e riprese di valore relative al rilascio di un fondo svalutazione a copertura di un credito deteriorato, incassato nei primi mesi del 2023.

Tenuto conto delle imposte del periodo, pari a 231 milioni di euro (189 milioni di euro al 31 dicembre 2021), l'utile netto dell'esercizio 2022 del patrimonio BancoPosta si attesta a 602 milioni di euro, in aumento di 94 milioni di euro (pari a +18,5%) rispetto al precedente esercizio (508 milioni di euro).

Le voci dell'Attivo dello Stato Patrimoniale sono rappresentate dalla Cassa e disponibilità liquide, dalle Attività finanziarie nonché dai Derivati di copertura, dalle Attività fiscali e dalle Altre Attività.

La voce **Cassa e disponibilità liquide** ammonta al 31 dicembre 2022 a 5.874 milioni di euro (7.680 milioni di euro al 31 dicembre 2021, -1.806 milioni di euro) e include, per un totale di 3.984 milioni di euro, la liquidità presso gli Uffici Postali e presso le società di trasporto valori, nonché le giacenze sul conto presso Banca d'Italia destinato ai regolamenti interbancari per 1.855 milioni di euro.

Le **Attività finanziarie valutate al fair value con impatto a Conto Economico** pari a 40 milioni di euro, sono riconducibili principalmente al *fair value* di 32.059 azioni convertibili *Visa Incorporated* (Serie C *Convertible Participating Preferred Stock*) e di 1.019 azioni privilegiate *Visa Incorporated* (Serie A *Preferred Stock*) e la cui variazione rispetto al 31 dicembre 2021 è rappresentata nel Risultato netto delle attività e passività finanziarie valutate al *fair value* con impatto a Conto Economico.

Le **Attività finanziarie valutate al fair value con impatto sulla Reddittività Complessiva** ammontano a 33.161 milioni di euro (37.626 milioni di euro al 31 dicembre 2021, -4.465 milioni di euro) e accolgono investimenti in titoli di Stato principalmente italiani. La riduzione della voce in esame è dovuta prevalentemente alla variazione di *fair value* dei titoli presenti in portafoglio, pari a 10.126 milioni di euro, solo parzialmente controbilanciata dal saldo attivo tra vendite/rimborsi e nuovi acquisti di titoli, pari a 5.405 milioni di euro.

Le **Attività finanziarie valutate al Costo Ammortizzato** si attestano a 46.576 milioni di euro (53.733 milioni di euro al 31 dicembre 2021, -7.157 milioni di euro) e sono riconducibili sia agli investimenti in titoli di Stato di emissione italiana e titoli garantiti dallo Stato Italiano per 27.699 milioni di euro (33.110 milioni di euro al 31 dicembre 2021, -5.411 milioni di euro) sia ai depositi e crediti diversi per 18.877 milioni di euro (20.624 milioni di euro al 31 dicembre 2021, -1.747 milioni di euro).

Con riferimento alle Attività finanziarie relative agli investimenti in titoli di Stato di emissione italiana e in titoli garantiti dallo Stato italiano, la riduzione dell'anno è il combinato disposto della riduzione del *fair value* dei titoli coperti con derivati di *fair value hedge* (-5.398 milioni di euro) e dal saldo negativo tra vendite/rimborsi di titoli e nuovi acquisti (per -42 milioni di euro). Con riferimento alle Attività Finanziarie riferibili a depositi e crediti diversi, la diminuzione di 1.743 rispetto al 2021 deriva principalmente dalla riduzione di: (i) impieghi e depositi presso il MEF per 804 milioni di euro (passati da 14.697 milioni di euro al 31 dicembre 2021, a 13.893 milioni di euro al 31 dicembre 2022); (ii) depositi a garanzia per 2.401 milioni di euro (passati da 4.858 milioni di euro al 31 dicembre 2021, a 2.457 milioni di euro al 31 dicembre 2022); (iii) crediti commerciali per 18 milioni di euro (passati da 818 milioni di euro al 31 dicembre 2021, a 800 milioni di euro al 31 dicembre del 2022); tali variazioni risultano parzialmente compensate dall'aumento di 171 milioni di euro dei crediti relativi al saldo dei rapporti di natura numeraria su cui sono regolati incassi e pagamenti con terzi per il tramite di Poste Italiane, passati da 178 milioni di euro al 31 dicembre 2021 a 349 milioni di euro al 31 dicembre 2022 e della variazione contabile in aumento dei pronti contro termine di impiego per 1.358 milioni di euro.

La variazione degli impieghi e depositi presso il MEF è riconducibile sostanzialmente a una minore raccolta effettuata presso la Pubblica Amministrazione; la riduzione dei depositi a garanzia è da ricondurre prevalentemente al miglioramento del *fair value* dei Derivati di copertura, iscritti sia nell'attivo che nel passivo dello Stato Patrimoniale compensato dai maggiori depositi versati come garanzia nelle operazioni di repo passivi, essendosi ridotto il *fair value* dei titoli impegnati.

I **Derivati di copertura**, con *fair value* positivo al 31 dicembre 2022, ammontano a 6.109 milioni di euro (873 milioni di euro al 31 dicembre 2021, +5.236 milioni di euro). La variazione è dovuta prevalentemente al rialzo generalizzato dei tassi di interesse, che influisce positivamente sul *fair value* del portafoglio derivati, essendo questi ultimi, per la gran parte, degli *interest rate swap* a copertura del portafoglio titoli che permettono di trasformare il rendimento di quest'ultimo da fisso a variabile.

La voce **Attività fiscali** risulta pari a 1.157 milioni di euro, in aumento di 874 milioni di euro rispetto ai 283 milioni di euro del 31 dicembre 2021, per effetto prevalentemente della movimentazione delle imposte anticipate di Patrimonio Netto ovvero alla dinamica delle Riserve da valutazione.

Le **Altre Attività**, pari a 11.521 milioni di euro (8.838 milioni di euro al 31 dicembre 2021, +2.683 milioni di euro) mostrano un incremento sostanzialmente riconducibile ai crediti di imposta acquisiti da Poste Italiane S.p.A. e allocati, al netto delle compensazioni, al Patrimonio BancoPosta, e iscritti in bilancio al 31 dicembre 2022 per un valore pari a 8,6 miliardi di euro (per un valore nominale di circa 9,7 miliardi di euro).

Le principali voci del Passivo dello Stato Patrimoniale sono rappresentate dalle Passività finanziarie, dai Derivati di copertura, dalle Passività fiscali, dalle Altre Passività e dai Fondi.

Le **Passività finanziarie valutate al costo ammortizzato**, si attestano a 98.944 milioni di euro (95.799 milioni di euro al 31 dicembre 2021, +3.145 milioni di euro) e accolgono: (i) debiti verso clientela per 86.094 milioni di euro (85.098 milioni di euro al 31 dicembre 2021, +996 milioni di euro) riconducibili alla raccolta effettuata mediante conti correnti, a operazioni in pronti contro termine e a debiti per depositi in garanzia versati dalle controparti; (ii) debiti verso banche per 12.850 milioni di euro (10.701 milioni di euro al 31 dicembre 2021, +2.149 milioni di euro) riferibili, anche in questo caso, a rapporti di conto corrente e a operazioni in pronti contro termine e a debiti per depositi in garanzia versati dalle controparti bancarie.

Le **passività finanziarie di negoziazione**, pari a 4 milioni di euro, rappresentano il *fair value* di strumenti derivati stipulati a copertura gestionale del *fair value* delle azioni Visa sopra richiamate.

I Derivati di copertura relativi a titoli in portafoglio, con *fair value* negativo, ammontano a 971 milioni di euro (5.461 milioni di euro al 31 dicembre 2021, -4.490 milioni di euro). Le motivazioni alla base della variazione sono commentate nell'ambito dei Derivati di copertura con *fair value* positivo.

La voce **Passività fiscali** si attesta a 225 milioni di euro, in diminuzione di 445 milioni di euro, rispetto ai 670 milioni di euro di fine esercizio 2021, per effetto delle movimentazioni delle imposte differite intervenute nell'esercizio 2022 correlate alle attività finanziarie valutate al *fair value* con impatto sulla redditività complessiva.

Le **Altre Passività**, pari 2.789 milioni di euro (2.535 milioni di euro al 31 dicembre 2021, +254 milioni di euro), sono prevalentemente imputabili a partite di natura tributaria a titolo di sostituto d'imposta e a partite in corso di lavorazione.

Il **Fondo Trattamento di fine rapporto del personale**, pari a circa 2 milioni di euro, risulta in linea rispetto al valore del 31 dicembre 2021.

I **Fondi per rischi e oneri**, che accolgono stanziamenti per far fronte a vertenze e oneri con il personale, clienti e terzi in genere, nonché a rischi di varia natura derivanti dall'operatività in ambito BancoPosta, ammontano a 188 milioni di euro, in diminuzione di 41 milioni di euro rispetto al 31 dicembre 2021. La variazione di tale voce risente delle attività di revisione di stima di alcuni rischi legati a vertenze giudiziali con terzi.

Il **Patrimonio Netto BancoPosta** al 31 dicembre 2022 si attesta a 1.314 milioni di euro (4.373 milioni di euro al 31 dicembre 2021, -3.059 milioni di euro). La variazione negativa è dovuta principalmente alla diminuzione di 3.341 milioni di euro delle Riserve da valutazione, passate da 1.118 milioni di euro al 31 dicembre 2021 a -2.223 milioni di euro al 31 dicembre 2022 per la diminuzione delle Riserve di *fair value* delle Attività finanziarie. Con riferimento alle altre componenti si evidenzia: (i) la Riserva per il Patrimonio BancoPosta, pari a 2.585 milioni di euro (incrementata di 188 milione rispetto al 31 dicembre 2021); (ii) la Riserva degli utili conseguiti negli esercizi precedenti, pari a 1.373 milioni di euro, variata in aumento di 200 milioni di euro a seguito della delibera assembleare del 27 maggio 2022 di destinazione dell'utile 2021 del patrimonio BancoPosta e in diminuzione di 12 milioni di euro per gli interessi passivi, al netto degli effetti fiscali, maturati sugli Strumenti di capitale; (iii) gli Strumenti di capitale, restano invariati a 350 milioni di euro e si riferiscono a un finanziamento subordinato perpetuo con periodo di non-call di 8 anni, concesso in data 30 giugno 2021 a termini e condizioni che ne consentono la computazione come capitale aggiuntivo di classe 1 ("Additional Tier 1"); (iv) il Risultato netto conseguito nell'esercizio 2022 pari a 602 milioni di euro (508 milioni di euro nell'esercizio 2021).

Controlli interni e gestione dei rischi del Patrimonio BancoPosta

Gli elementi che in BancoPosta caratterizzano l'Ambiente di controllo¹⁰⁷, inteso come il contesto generale nel quale le risorse aziendali svolgono le attività ed espletano le proprie responsabilità, sono principalmente rappresentati da:

- il **Codice Etico** di Gruppo;
- il **Modello Organizzativo ex D. Lgs. 231/2001** e le relative procedure aziendali predisposte;
- la **struttura organizzativa di BancoPosta**, costituita da organigrammi, ordini di servizio, comunicazioni e procedure organizzative, che attribuiscono alle funzioni compiti e responsabilità;
- il **Regolamento del processo di affidamento e di esternalizzazione del Patrimonio BancoPosta**, che disciplina rispettivamente l'affidamento di attività del Patrimonio a Funzioni di Poste Italiane in termini di processi decisionali, contenuto minimo dei Disciplinari esecutivi, livelli di servizio, flussi informativi e modalità di controllo, nonché l'esternalizzazione di funzioni aziendali di BancoPosta a soggetti terzi all'organizzazione di Poste Italiane identificando le fasi operative, i ruoli e le responsabilità degli Organi e delle funzioni aziendali a vario titolo coinvolte;
- la **Linea Guida sul Sistema di Controllo Interno e Gestione dei Rischi (SCIGR)** che descrive ruoli e attività delle Funzioni di controllo del Patrimonio BancoPosta, nonché le modalità di coordinamento e i flussi informativi tra queste e le Funzioni di controllo di Poste Italiane e i flussi informativi verso gli organi aziendali;
- il **sistema di deleghe** utilizzato, che prevede l'attribuzione di poteri ai responsabili di funzione in relazione alle attività svolte.

107. Rappresenta una delle componenti più rilevanti del sistema dei controlli interni, ovvero l'insieme organico di regole, procedure e strutture organizzative, finalizzato a prevenire o limitare le conseguenze di risultati inattesi e consentire il raggiungimento degli obiettivi strategici, operativi, di conformità alle leggi e ai regolamenti applicabili, di correttezza e trasparente Informativa Interna ed esterna.

586

Con riguardo all'assetto di BancoPosta il modello organizzativo in essere prevede funzioni di controllo fornite dei requisiti di autonomia e indipendenza, rispetto sia alle corrispondenti funzioni di Poste Italiane, che alle funzioni operative di BancoPosta, secondo quanto previsto dalla specifica normativa di Vigilanza della Banca d'Italia: **Risk Management e Governo Outsourcing, Compliance e Revisione Interna**. In un'ottica di ricerca di sinergie e valorizzazione delle specifiche competenze sono condivise tra le suddette funzioni di controllo le tecniche e le metodologie di valutazione dei rischi e dei controlli e, periodicamente, gli esiti delle verifiche effettuate. In linea con quanto previsto nel Regolamento del processo di affidamento e di esternalizzazione sopracitato, BancoPosta, anche nell'ambito dei controlli, si avvale dell'apporto delle altre funzioni di Poste Italiane.

La Revisione Interna BancoPosta, in coerenza con le previsioni normative contenute nelle Disposizioni di Vigilanza di Banca d'Italia e CONSOB cui BancoPosta è sottoposta, ha predisposto nei primi mesi del 2023 la **Relazione annuale 2022**, documento finalizzato a fornire periodica informativa agli Organi aziendali in merito alla completezza, adeguatezza, funzionalità e affidabilità del complessivo sistema dei controlli di BancoPosta.

La Relazione, sulla base dei risultati del lavoro complessivamente condotto dalla funzione e indicato nel **Piano di Audit 2022**, riporta inoltre gli esiti degli accertamenti effettuati sulle attività affidate da BancoPosta a funzioni di Poste Italiane tramite i Disciplinari Esecutivi, nonché sulle attività affidate in *outsourcing* a fornitori esterni all'Azienda. Dall'attività è emersa una situazione di complessiva adeguatezza con l'evidenziazione di taluni aspetti di attenzione indirizzati dal *management* con specifiche azioni di rafforzamento.

La Relazione annuale, presentata al Collegio Sindacale e al Consiglio di Amministrazione, è inviata alla Banca d'Italia. La specifica sezione relativa ai servizi di investimento è invece oggetto di invio alla CONSOB.

Tali attività di consuntivazione sono state svolte avvalendosi anche dei risultati della funzione Controllo Interno di Poste Italiane cui sono demandate, in base a uno specifico Disciplinare esecutivo, le attività di *IT audit* e l'esecuzione delle verifiche presso le strutture territoriali e canali di vendita di Poste Italiane connesse ai processi e prodotti di BancoPosta.

La Revisione Interna ha, inoltre, elaborato il **Piano di Audit annuale 2023 e pluriennale (2023-2025)**, basati su un processo di *risk assessment* orientato a garantire un'adeguata copertura del *Business Process Model* di BancoPosta, in relazione ai rischi, agli aspetti evolutivi del *business*, alle tematiche normative, agli assetti organizzativi del Patrimonio.

Tali Piani sono oggetto di illustrazione al Collegio Sindacale e posti all'attenzione del Consiglio di Amministrazione.

Sistema di gestione dei rischi

BancoPosta è dotato di un'autonoma funzione di *Risk Management* responsabile di garantire, tra l'altro, in raccordo con la funzione Sviluppo Sostenibile, *Risk e Compliance* di Gruppo di Poste Italiane S.p.A., una visione integrata, a consuntivo e in chiave prospettica, del contesto di rischiosità e dell'adeguatezza patrimoniale e organizzativa del Patrimonio destinato. La funzione assicura una puntuale **valutazione del profilo di rischio dei prodotti finanziari collocati**, fornendo adeguata consulenza e supporto alle unità operative e di *business* coinvolte nel processo di produzione e collocamento dei prodotti e predisponendo la necessaria informativa periodica. Nel corso del 2022 è stato aggiornato il *Risk Appetite Framework* (RAF)¹⁰⁸ e sono stati presentati al Collegio Sindacale, al Comitato Controllo e Rischi e al Consiglio di Amministrazione, la Relazione annuale sul 2021 e il Programma di attività per il 2022, nonché il Resoconto *Internal Capital Adequacy Assessment Process* (ICAAP)¹⁰⁹ e l'Informativa al pubblico sui rischi riferita all'esercizio 2021; trimestralmente, inoltre, gli organi sociali sono stati informati circa l'evoluzione del profilo di rischio effettivo, rispetto alla propensione definita. Le principali tipologie di rischi cui il Patrimonio è esposto nell'esercizio della propria attività tipica sono rappresentate da:

- **rischio di credito** (compreso rischio controparte);
- **rischio di mercato** (compreso il rischio di tasso sul portafoglio bancario);
- **rischio di liquidità**;
- **rischio operativo**.

Per quanto concerne l'evoluzione dei rischi rilevanti il 2022 è stato caratterizzato da un aumento dei rendimenti dei Titoli di Stato italiani (BTP decennale 4,72% al 31 dicembre 2022, +351 bps da inizio anno) e dello *spread BTP-Bund* decennale (214 bps a fine dicembre 2022, 82 bps in più rispetto a inizio anno).

108. Il RAF BancoPosta è il quadro di riferimento che definisce – in coerenza con il massimo rischio assumibile, il *business model* e il piano strategico – la propensione al rischio, le soglie di tolleranza, i limiti di rischio, le politiche di governo dei rischi, i processi di riferimento necessari per definirli e attuarli.

109. Banca d'Italia definisce i processi interni di determinazione dell'adeguatezza patrimoniale nelle Disposizioni Di Vigilanza per le Banche Parte Prima – Recepimento Direttiva CRD IV Titolo III – Processo Di Controllo Prudenziale Capitolo 1 – Processo Di Controllo Prudenziale.

L'evoluzione dei tassi e dello *spread* ha determinato una riduzione delle plusvalenze nette a livello di portafoglio, passando dagli oltre 2,1 miliardi di euro di plusvalenze di dicembre 2021 a circa 7,2 miliardi di euro di minusvalenze a fine dicembre 2022.

Con riferimento alla struttura patrimoniale BancoPosta, il *Leverage Ratio* si è posizionato a dicembre 2022 al 2,9%, il *CET 1 Ratio* al 20,3%, mentre il *Total Capital Ratio* è risultato pari al 23,1%, confermando la solidità patrimoniale di BancoPosta.

Per le informazioni di dettaglio sulle diverse aree di rischio e sulle metodologie utilizzate per la misurazione e la prevenzione dei rischi medesimi si fa rinvio ad altre sezioni della Relazione Finanziaria Annuale di Poste Italiane al 31 dicembre 2022.

Eventi di rilievo del Patrimonio BancoPosta successivi al 31 dicembre 2022

Non si segnalano fatti di rilievo avvenuti dopo la chiusura dell'esercizio tali da generare un impatto sul risultato conseguito.

Evoluzione prevedibile della gestione del Patrimonio BancoPosta

Nel comparto del Risparmio Postale continuerà il monitoraggio delle evoluzioni del contesto economico di riferimento, al fine di adeguare la gamma d'offerta alle condizioni di mercato e alle mutate esigenze della clientela, anche con l'introduzione di nuovi prodotti emessi da Cassa Depositi e Prestiti. Nel corso del 2023 proseguiranno le attività finalizzate allo sviluppo ed al rilascio di progetti supportati da un'adeguata attività di comunicazione e finalizzati all'espansione della digitalizzazione della clientela e a un miglioramento della *customer experience* su tutti i canali di vendita. Nello specifico è prevista un'evoluzione del Libretto Smart che permetterà un miglioramento delle funzionalità e dei servizi di cui potrà usufruire il cliente in ottica omnicanale.

Con riferimento agli Investimenti, continuerà l'ampliamento della gamma di offerta con il lancio di nuovi prodotti. Verrà inoltre avviata una nuova offerta combinata tra un conto corrente vincolato e un piano di versamenti programmati su fondi comuni di investimento: il meccanismo prevede il versamento di una somma iniziale sul conto corrente e successivi trasferimenti mensili dallo stesso ad un fondo comune gestito.

Per quanto concerne il segmento Protezione Privati è previsto il *restyling* dei prodotti relativi alla linea persona, che mira alla semplificazione delle coperture infortuni e salute, compresa la nuova copertura Temporanea Caso Morte. Nel primo trimestre 2023 è previsto l'avvio del rilascio della nuova copertura e del nuovo processo di sottoscrizione delle *Credit Protection Insurance*, la copertura facoltativa prevista per i clienti che sottoscrivono un prestito BancoPosta.

In ambito Protezione *Business*, nel secondo semestre 2023 è previsto il collocamento presso gli Uffici Postali, attraverso la rete degli Specialisti *Small Business*, della nuova polizza collettiva "Poste Welfare Infortuni", dedicata alla copertura dei rischi di infortuni professionali ed extraprofessionali dei dipendenti delle aziende contraenti.

Per quanto concerne la Previdenza sono previsti nuovi sviluppi riferiti alla piattaforma di consulenza utilizzata negli Uffici Postali relativi all'internalizzazione della scheda costi e degli affinamenti sul *target market*.

Nel comparto dei conti correnti, nell'ottica di migliorare la digitalizzazione del Conto BancoPosta, nei primi mesi del 2023 verrà resa disponibile la rivisitazione del servizio di richiesta di apertura del conto da *app* BancoPosta che introduce varie semplificazioni, tra cui l'identificazione del cliente tramite SPID e l'omnicanalità digitale, ovvero la possibilità di passare dal canale *app* al *web* e viceversa durante il processo di richiesta.

Dal 1° aprile 2023, a fronte del ritorno strutturale dei tassi di mercato in territorio positivo, diminuirà il canone per la tenuta del conto corrente grazie al ripristino delle condizioni antecedenti l'aumento del 1° luglio 2022. BancoPosta, infatti, si era impegnato a monitorare l'andamento della media mensile del tasso Euribor a 6 mesi al fine di verificare il venir meno delle condizioni che avevano determinato l'aumento delle suddette spese. Nel corso del 2023 sarà attivata la possibilità di aprire il Conto BancoPosta nei *corner* presenti in molti uffici postali al fine di aumentare la possibilità di accesso al servizio, e sarà migrato il *front end* di vendita del conto corrente sul *Front End Unico* al fine di semplificare il processo di vendita e uniformarlo a quello già operativo per altri prodotti.

Nell'ambito delle carte di credito, a fronte del mutato scenario di mercato che ha visto l'incremento dei costi di gestione sostenuti dall'emittente Deutsche Bank, nel corso del primo trimestre del 2023 il canone delle carte di credito Classica e Oro emesse dall'inizio del collocamento al 31 dicembre 2020 subirà un incremento. Sono escluse da tale variazione le carte riservate alle categorie dei Dipendenti e Pensionati del Gruppo Poste e di Cassa Depositi e Prestiti e dei Dipendenti e Pensionati delle Società soggette a direzione e coordinamento di Cassa Depositi e Prestiti per le quali, sempre nel corso del primo trimestre del 2023, Deutsche Bank provvederà alla sostituzione delle carte in essere, operanti sul circuito internazionale di pagamento Mastercard, con nuove carte aderenti al circuito internazionale di pagamento Visa.

Con riferimento ai finanziamenti alle imprese, nel primo semestre 2023 si procederà a potenziare ulteriormente l'offerta di finanziamenti alle imprese, avviando una nuova *partnership*. Nel primo trimestre 2023 è inoltre prevista l'estensione dell'offerta di Quinto BancoPosta ai dipendenti di altre aziende "parapubbliche".

Con riferimento al comparto dei conti correnti Business e Pubblica Amministrazione nel corso del 2023 saranno completati gli sviluppi per la migrazione da tutti i listini al "Conto BancoPosta Business Link". Inoltre, saranno sviluppati nuovi servizi digitali quale ad esempio il **SEPA Instant Credit Transfer**  (SCT instant – bonifico istantaneo).

Nel corso del 2023 continuerà l'erogazione in contanti, presso la rete degli Uffici Postali, del contributo di sostentamento in favore delle persone provenienti dall'Ucraina richiedenti la protezione temporanea e che abbiano trovato autonoma sistemazione, come previsto dalla Convenzione sottoscritta con il Dipartimento della Protezione Civile.

Poste Italiane riconosce l'etica e la trasparenza quali valori fondanti dell'identità aziendale, in quanto supportano l'Azienda nella guida di un *business* responsabile e nella gestione delle relazioni con gli *stakeholder* in maniera diretta e trasparente. L'osservanza delle normative, delle politiche e dei codici di condotta interni ed esterni, il rispetto delle regole e la più rigorosa correttezza sono elementi di rilevanza strategica per il Gruppo, e costituiscono le basi per prevenire una qualsiasi situazione di conflitto che può crearsi tra interessi aziendali e personali.

Poste Italiane firmataria dei principi del Global Compact.

Il Gruppo è membro del *UN Global Compact* e ha predisposto nel 2021 una *Communication on Progress* di livello "Advanced"

A partire dal 2003 Poste Italiane ha adottato un proprio Modello Organizzativo, oggetto di continui aggiornamenti, in coerenza con le evoluzioni normative, organizzative e di *business*, con lo scopo di costruire un sistema strutturato e organico di principi guida, procedure operative e altri presidi specifici, ispirato a criteri di sana gestione aziendale e volto, in linea con il *purpose* aziendale, a prevenire la commissione dei reati previsti dal Decreto, nonché a tutelare gli interessi degli *stakeholder* rilevanti per la società stessa.

Il Modello è costituito da una Parte Generale e da Parti Speciali, ciascuna delle quali relativa a una classe di reato rilevante per la Società. Nella Parte Generale vengono descritti, declinandoli nella specifica realtà aziendale di Poste Italiane, i contenuti esplicitamente richiesti dal D. Lgs. 231/2001, (es. la norma, la *governance* della Società, l'Organismo di Vigilanza, le attività di formazione/informazione, il sistema sanzionatorio, ecc.) nonché il sistema integrato di controllo interno e gestione dei rischi della società (es. processo di *risk management* integrato, Sistema Normativo Aziendale, Codice Etico e Politiche di Gruppo, Sistema di Governo Societario); nelle singole Parti Speciali vengono delineate, secondo una logica per processi, le diverse fattispecie di reato presupposto concretamente e potenzialmente rilevanti in Azienda, nonché i processi aziendali, le attività sensibili, le regole comportamentali e i principi di controllo specifici analizzati per singola classe di reato.

Nel Modello 231 di Poste Italiane assumono inoltre un rilievo significativo le tematiche della sostenibilità, in linea con l'attuale indirizzo strategico della Società e in considerazione delle correlazioni e sinergie presenti tra le stesse e il Decreto 231. Il Modello 231 costituisce uno strumento che, attraverso l'individuazione di specifici presidi di controllo che permettono di prevenire la commissione dei reati riconducibili al Decreto 231, contribuisce altresì a supportare la Società nella realizzazione dei temi materiali definiti dalla stessa nell'ambito degli 8 Pilastri di Sostenibilità che concorrono al raggiungimento degli Obiettivi di Sviluppo Sostenibile delle Nazioni Unite.

Poste Italiane, in ottica di rafforzamento e continuo miglioramento del Sistema di Controllo Interno e Gestione dei Rischi, si è prontamente adeguata alle recenti evoluzioni normative in materia di strumenti di pagamento diversi dal contante e patrimonio culturale, stante anche l'importante ruolo della società nell'intermediazione finanziaria, nonché la rilevanza dei beni mobili e immobili sottoposti a tutela culturale e nelle disponibilità della società stessa.

A seguito delle recenti evoluzioni normative afferenti prevalentemente agli strumenti di pagamento diversi dal contante, il patrimonio culturale e le erogazioni pubbliche, si è proceduto con l'aggiornamento del *Risk Assessment* e della *Gap Analysis* 231, attraverso la verifica di adeguatezza degli strumenti organizzativi e procedurali interni.

A valle delle suddette analisi sono state effettuate le attività di aggiornamento del Modello di Organizzazione, Gestione e Controllo ex D.Lgs. 231/2001, volte a garantire l'adeguatezza e l'idoneità dello stesso.

Il Modello 231

"I principi che guidano la nostra organizzazione nella gestione delle attività aziendali"

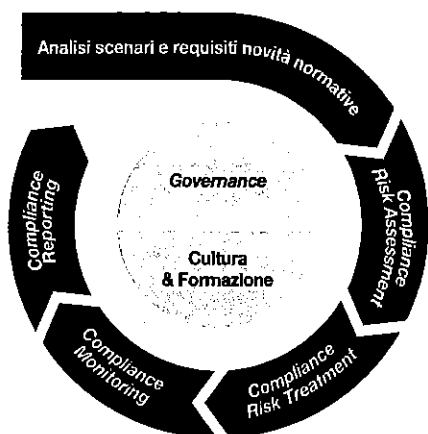

MODELLO DI ORGANIZZAZIONE, GESTIONE E CONTROLLO DI POSTE ITALIANE S.P.A. AI SENSI DEL DECRETO LEGISLATIVO N. 231/2001

Poste Italiane 4C

Al fine di definire con chiarezza i valori e il ruolo sociale con i quali l'Azienda contribuisce ai processi di coesione, inclusione e sostenibilità del Paese, nonché le regole di comportamento nell'espletamento delle attività professionali, il Gruppo Poste Italiane si è dotato di un Codice Etico destinato agli amministratori, agli organi di controllo, al *management*, a tutti i dipendenti e a coloro che operano, direttamente o indirettamente,

stabilmente o temporaneamente, per perseguire gli obiettivi di Poste Italiane. Il Codice viene divulgato a tutti i livelli dell'organizzazione con l'obiettivo di diffonderne i valori, anche attraverso iniziative di formazione e informazione. In quanto l'Azienda richiede che tutti i soggetti cui il documento viene destinato prendano conoscenza del suo contenuto.

Nel Codice sono sanciti i principi che ispirano la cultura, i comportamenti e la modalità di fare impresa dell'Azienda e dei suoi *stakeholder*, quali il principio di legalità, imparzialità ed equità, rispetto e valorizzazione delle persone, trasparenza e completezza, riservatezza, qualità, diligenza e professionalità. Nel documento Poste Italiane sancisce il proprio impegno verso l'adozione di criteri di condotta che escludano conflitti di interessi col Gruppo e che promuovano la capacità di assumere decisioni coerenti con gli obiettivi aziendali; criteri atti ad evitare corruzione, riciclaggio e terrorismo e che favoriscano comportamenti integri, nel rispetto della salute e della sicurezza dei lavoratori e nella tutela della *privacy* di tutti i destinatari del Codice.

A complemento del Codice Etico, l'Azienda si è dotata di una Politica Integrata di Gruppo, che rispecchia e documenta l'impegno assunto verso tutti i suoi *stakeholder*, per migliorare le proprie prestazioni e, allo stesso tempo, costruire e sviluppare relazioni di fiducia con gli stessi all'interno di un percorso di generazione e condivisione di valore per l'Azienda nonché per le comunità in cui opera, in un'ottica di continuità e di conciliazione dei relativi interessi. Al fine di sottolineare ulteriormente la centralità delle tematiche di Integrità e Trasparenza nei rapporti verso tutti gli *stakeholder* del Gruppo anche in linea con i requisiti previsti dalla norma ISO 37301 – *Compliance Management Systems*, la Politica Integrata è stata integrata con i principi e le attività relativi alla gestione della *compliance*.

Inoltre, Poste Italiane si è dotata di un sistema di segnalazione e di un Comitato Etico con il compito di gestire le segnalazioni e le violazioni. A tal proposito, il Gruppo ha introdotto la "Linea Guida-Sistema di segnalazione delle violazioni (*Whistleblowing*)", documento volto a disciplinare il sistema attraverso il quale possono essere effettuate delle segnalazioni da parte del personale e di soggetti terzi, con riferimento ad atti o fatti riferibili a violazioni di norme, interne e/o esterne, nonché di comportamenti illeciti o fraudolenti che possano determinare, in modo diretto o indiretto, un danno economico-patrimoniale o di immagine per l'Azienda. Il Gruppo ha messo a disposizione dei destinatari delle Linee Guida un Portale di riferimento, la cui gestione è affidata al Comitato *Whistleblowing*, che assolve, inoltre, alle funzioni di Comitato Etico e risulta incaricato di ricevere, esaminare e valutare le comunicazioni pervenute. Il Comitato *Whistleblowing* prevede l'attribuzione del ruolo di Presidente ad un professionista esterno dotato di elevati requisiti di professionalità, onorabilità e indipendenza e la presenza permanente, all'interno del Comitato, della struttura di Governo dei Rischi di Gruppo/ Presidio 231, al fine di garantire una costante valutazione della rilevanza delle segnalazioni pervenute.

Il sistema interno di segnalazione delle violazioni di Poste Italiane è ulteriormente rafforzato dalle disposizioni previste dal Modello di Organizzazione Gestione e Controllo, redatto ai sensi del D.Lgs. 231/01 e approvato dal Consiglio di Amministrazione a ottobre 2022. Con riferimento alla gestione e al monitoraggio dei rischi aziendali, l'Azienda nell'ambito del proprio Sistema di Controllo interno e Gestione dei Rischi (SCIGR), ha adottato e implementato un sistema di gestione che, attraverso una visione organica e integrata, è in grado di fornire una risposta univoca ed efficace ai rischi a cui il Gruppo è esposto, definendo in questo modo un processo di *risk management* integrato.

In questo contesto si inserisce inoltre il Modello di *compliance* integrata, adottato dall'Azienda, che consente di creare sinergie operative tra i diversi presidi specialistici dei rischi di *compliance* e di garantire una *Governance* unitaria nella gestione degli stessi, anche grazie ad una chiara definizione dei ruoli e delle responsabilità degli attori coinvolti nelle attività del processo. Tale Modello è stato formalizzato nella Linea Guida di *Compliance* Integrata, elaborata in linea con le *best practice* e in particolare con quanto previsto dalla nuova ISO 37301:2021 (*Compliance Management Systems*), inserendosi come ulteriore fondamentale pilastro per il potenziamento del SCIGR, con lo scopo specifico di presidiare i rischi di non conformità cui il Gruppo è esposto, così dando piena attuazione ai principi di integrità, trasparenza e legalità.

Inoltre, in coerenza con il Processo di *Compliance* Integrata di Gruppo e al fine di rispondere all'apertura al mercato internazionale da parte del Gruppo a seguito di accordi rilevanti e dell'acquisizione di Società Estere, Poste Italiane ha definito il Processo di *Compliance* Estera che disciplina gli aspetti di *governance* e i flussi di *reporting* da e verso la Capogruppo, nonché le modalità operative a livello di singola Società Estera del Gruppo per l'esecuzione delle diverse attività di *compliance*.

Il 28 novembre 2022 è stato inaugurato il primo *Compliance Day* di Poste Italiane con il titolo "La Compliance, una strategia per le sfide globali" avente lo scopo, da un lato, di riunire la Famiglia Professionale della *Compliance* di Poste in un format istituzionalizzato, con il contributo ai lavori dei responsabili di importanti funzioni di *Compliance* a livello centrale e nel Gruppo e, dall'altro, di mantenere il profilo formativo, allargando la partecipazione ai responsabili di funzioni e strutture aziendali interessate dall'applicazione diffusa delle normative e dalla gestione dei rischi di *Compliance*. L'evento, tenutosi nel Palazzo delle Poste in Piazza San Silvestro e in modalità virtuale tramite la piattaforma Microsoft Teams, ha coinvolto circa 1.400 partecipanti, di cui 40 in presenza (responsabili e componenti delle principali funzioni comprese nella famiglia professionale della *Compliance*) ed i restanti in collegamento (dirigenti e quadri responsabili fino al quinto livello del Gruppo). In linea con l'impegno di Poste Italiane nella diffusione della cultura della *Compliance* a tutti i livelli in un contesto – caratterizzato dall'emergenza sanitaria, dalla crisi economica e dall'instabilità geopolitica – che continua a mettere l'Azienda di fronte a sfide sempre più impegnative, l'evento è stato un'occasione di incontro e di confronto per tutte le persone e le professionalità della *Compliance* di Poste Italiane, che hanno visto ribadito l'impegno anche del Vertice aziendale nella gestione operativa e quotidiana dei rischi di non conformità quale essenziale componente della strategia per lo sviluppo sostenibile.

La *Compliance* allo standard UNI ISO 37001, relativa ai sistemi di gestione anticorruzione, rappresenta per Poste Italiane un'opportunità per rafforzare il proprio impegno nel contrasto ai fenomeni corruttivi e nel contribuire a consolidare il principio della legalità, con evidenti benefici per la tutela della reputazione e del patrimonio aziendale. Per quanto riguarda le Società del Gruppo, dopo l'ottenimento (a partire dal 2019) della certificazione da parte delle Società Poste Vita, PostePay, BancoPosta Fondi SGR, SDA Express Courier sede centrale e Poste Assicura, nel 2022 hanno ottenuto la certificazione in parola anche le società EGI e Postel e la stessa è stata estesa agli ambiti territoriali di SDA Express Courier.

La ISO 37301 "*Compliance management systems – Requirements with guidance for use*" disciplina gli elementi necessari ad un'organizzazione al fine di sviluppare, implementare, mantenere e migliorare un efficace Sistema di Gestione della *Compliance* ed è incentrata sull'importanza di diffondere all'interno dell'organizzazione una cultura della conformità che contribuisca al perseguimento del successo sostenibile. Poste italiane, ad aprile 2022, è stata la prima azienda in Italia ad ottenere da IMQ tale certificazione per la gestione della *Compliance* Integrata a presidio dei processi di progettazione, sviluppo ed erogazione dei Servizi Postali, Finanziari e Logistici negli ambiti di responsabilità amministrativa, contabile e fiscale. Inoltre, sempre nel 2022, Poste Italiane ha ottenuto la ISO 37002 "*Whistleblowing*", norma internazionale che ha l'obiettivo di fornire una guida completa per aiutare le organizzazioni a definire, sviluppare, implementare, mantenere efficacemente un Sistema di Gestione sul processo di ricezione e gestione delle segnalazioni.

A testimonianza dell'impegno di Poste Italiane in relazione alla diffusione dei principi di integrità, alla prevenzione della corruzione e alla *compliance* normativa, l'Azienda ha adottato un Programma di *Compliance* per la tutela della concorrenza e del consumatore a livello di Gruppo e ha redatto la "Linea Guida di *compliance* per la tutela della concorrenza e del consumatore" elemento fondante del Programma.

Il documento fornisce indicazioni sulla disciplina della tutela della concorrenza e del consumatore e definisce le regole di comportamento che tutti i membri degli organi sociali, i dirigenti, i dipendenti, nonché tutti coloro che operano per il conseguimento dello scopo e degli obiettivi del Gruppo, devono osservare. In particolare, gli obiettivi sanciti dal

documento riguardano: la garanzia del rispetto delle regole in materia di concorrenza e di tutela del consumatore, di cui non è tollerata alcuna violazione; il rafforzamento della consapevolezza e la diffusione della conoscenza circa l'importanza delle normative a tutela della concorrenza e del consumatore; il consolidamento di un ambiente operativo e di controllo che mitighi il rischio di commissione di illeciti *antitrust* e anticoncorrenziali nonché di violazione delle norme a tutela del consumatore; fornire una guida per prevenire azioni, comportamenti e omissioni che violino le normative in materia di tutela della concorrenza e di tutela dei consumatori, e delineare gli strumenti di monitoraggio che consentano di individuare eventuali violazioni.

Poste Italiane e Guardia di Finanza Insieme per garantire legalità e trasparenza

Posteitaliane

Guardia di Finanza

La storica collaborazione con la Guardia di Finanza e il protocollo siglato mettono a disposizione strumenti ancora più efficaci e aggiornati per contrastare ogni abuso e offrire un contributo concreto allo sviluppo del Paese.

Il Protocollo d'Intesa con la Guardia di Finanza consolida il radicamento delle norme e delle regole aziendali nei processi, attraverso la diffusione sempre più capillare dei principi di legalità e trasparenza nel mercato e la prevenzione degli illeciti finanziari. In particolare, nell'ambito del Protocollo, gli obiettivi condivisi sono la lotta all'evasione, all'elusione e alle frodi fiscali, agli illeciti in materia di spesa pubblica, alla criminalità economica e finanziaria, al riciclaggio, alla falsificazione e alle frodi concernenti i sistemi di pagamento. Il Protocollo stabilisce inoltre che Poste Italiane coadiuvi l'opera di prevenzione e contrasto condividendo con la Guardia di Finanza il proprio patrimonio informativo contro gli illeciti nei settori d'interesse Istituzionale compiuti anche sfruttando i mezzi tecnologici e informatici. In base all'accordo, Poste Italiane mette a disposizione della Guardia di Finanza i dati presenti nel sistema "Identity Check", utili alle investigazioni per prevenire e reprimere le frodi e ogni altro illecito di natura economico-finanziaria. Il Protocollo stabilisce, inoltre, incontri periodici per verificare l'avanzamento della collaborazione e condividere informazioni su nuovi scenari di frode e le iniziative da mettere in campo.

Poste Italiane e Arma dei Carabinieri

Posteitaliane

Attraverso il Protocollo di intesa con l'Arma dei Carabinieri, Poste Italiane consolida il radicamento delle norme e delle regole aziendali nei processi e ribadisce con forza – internamente ed esternamente – la posizione dell'organizzazione sulle tematiche di legalità, sicurezza sul lavoro e formazione. In base al Protocollo con l'Arma dei Carabinieri, Poste Italiane si avvale anche della competenza dell'Arma nel garantire il massimo rispetto delle normative in materia di collocamento di manodopera, previdenza e sicurezza sul lavoro nei cantieri aperti per interventi di edilizia nelle sedi di Poste Italiane.

Ulteriore tassello del percorso intrapreso da Poste Italiane per perseguire il successo sostenibile, anche attraverso le attività finalizzate all'evoluzione e all'efficientamento dei presidi di *governance* e al continuo rafforzamento del SCIGR nel rispetto dei principi di integrità, trasparenza e legalità, nonché per fare fronte in modo efficiente ed unitario alla crescente complessità dei diversi adempimenti legislativi e regolamentari, è rappresentato dal Sistema di Controllo Interno sull'Informativa Finanziaria.

In linea con gli indirizzi strategici definiti dalla Società, il sistema di controllo interno sull'informativa finanziaria, attraverso l'analisi dei rischi e l'individuazione di specifici presidi di controllo, rientra pertanto tra gli strumenti utili a contribuire alla realizzazione degli obiettivi connessi al tema materiale relativo al lavorare con integrità e trasparenza.

La Linea Guida "Sistema di Controllo Interno sull'Informativa Finanziaria" (di seguito anche SCIF) definisce le norme e le metodologie per l'istituzione e il mantenimento nel tempo del sistema di controllo interno sull'informativa finanziaria del Gruppo Poste Italiane, nonché per la valutazione della sua efficacia. Tali norme e metodologie sono coerenti con le previsioni normative e le principali *best practice* di mercato nonché con la Linea Guida del Sistema di Controllo Interno e Gestione dei Rischi adottata da Poste Italiane S.p.A. e con i processi di *Risk Management* e *Compliance Integrata* di Gruppo. Attraverso l'adozione di tale modello integrato è possibile garantire sinergie tra i presidi specialistici dei diversi ambiti di *compliance* ed

evitare ridondanze nelle attività operative dei modelli di gestione dei rischi e dei programmi di *compliance* specifici, razionalizzando i processi, ottimizzando l'efficacia ed efficienza delle attività di controllo, nonché facilitando la condivisione delle informazioni tra le diverse funzioni di secondo livello.

Al fine di prevenire e contrastare i fenomeni fraudolenti, Poste Italiane svolge attività di verifica, valutazione e monitoraggio di soggetti e controparti (analisi societarie, finanziarie e patrimoniali su società ed esponenti, analisi dei rapporti esistenti con Poste Italiane) mediante l'individuazione di tutti gli elementi di dettaglio operativi e reputazionali necessari alla verifica dell'affidabilità e onorabilità di soggetti o controparti.

Potenziare le attività di prevenzione di fenomeni illeciti, attraverso l'analisi integrata di informazioni interne ed esterne a Poste Italiane, consente di rilevare relazioni dirette e indirette che evidenzino possibili criticità. Il contrasto ai fenomeni fraudolenti viene quindi attuato attraverso un processo di monitoraggio continuo del grado di esposizione al rischio di frode e dei fattori di rischio, mediante la raccolta e l'analisi delle segnalazioni e degli indizi di potenziali illeciti, l'esame dei processi e l'adozione di adeguate misure di *governance* e controllo per la prevenzione delle frodi sempre più rigorose.

Nel corso del 2022 sono stati implementati progetti e attività nell'ambito del processo di gestione di prevenzione delle frodi attraverso un sistema antifrode integrato. Inoltre, è stata data continuità alle iniziative di evoluzione e adeguamento dei sistemi informatici di supporto, in particolare della Piattaforma Integrata Antifrode (PIAF), sistema di prevenzione antifrode innovativo sul quale confluiscono tutti i prodotti e servizi finanziari digitali di: monetica On US, e-commerce e digital banking, basato su modelli analitico predittivi e che consente - *real time* in modalità pre-autorizzativa (come richiesto dalla Normativa) - il monitoraggio delle operazioni disposte dalla clientela. Tale piattaforma prevede l'implementazione di una soluzione di *machine learning* comportamentale di *prevention/detection* unica per tutti i canali, e il conseguente avvio della migrazione di tutte le Carte di Pagamento sulla nuova Piattaforma Integrata Antifrode (PIAF).

La nuova Piattaforma Integrata Antifrode (PIAF)

Con l'obiettivo di diffondere i principi etici del Gruppo, Poste Italiane investe in attività di formazione e informazione per i propri dipendenti proponendo seminari e corsi in tema di trasparenza, integrità, anticorruzione e di tutela dei diritti umani, comunicando i propri principi agli *stakeholder* tramite la diffusione del Codice Etico, delle Politiche e delle Linee Guida. La formazione e la comunicazione costituiscono, infatti, un *continuum* di azioni coordinate volte a sostenere la diffusione della cultura della *compliance* e della legalità in coerenza con i ruoli, le responsabilità e i livelli di esposizione al rischio di ciascun individuo, anche attraverso un adeguato *commitment* del *top management*.

Rating di legalità

Nel 2022 Poste Italiane ha confermato il proprio **rating di legalità** ricevendo dall'AGCM il **massimo punteggio di tre stelle**, rientrando nel **8,7%** delle aziende che hanno ottenuto tale riconoscimento

Politiche di trasparenza in materia fiscale

A gennaio 2020, sia Poste Italiane che la controllata Poste Vita risultano ammesse al regime di Adempimento Collaborativo con l'Amministrazione finanziaria, riconoscimento assegnato previa valutazione positiva condotta dall'Agenzia delle Entrate, sul sistema di rilevazione, gestione, controllo e mitigazione del rischio fiscale. Tale istituto, previsto dalla Legge Delega per la riforma del sistema fiscale italiano (Legge 23/2014) ed introdotto in Italia con il D.Lgs. 128/2015, si pone l'obiettivo di instaurare un rapporto di fiducia e di collaborazione con l'Amministrazione Finanziaria con l'obiettivo di aumentare il livello di certezza sulle questioni fiscali rilevanti mediante un'interlocuzione costante e preventiva sulle situazioni suscettibili di generare rischi fiscali. L'ammissione di Poste Italiane all'Adempimento Collaborativo consolida il percorso ispirato ai valori di etica, integrità e trasparenza anche in campo finanziario e fiscale.

Il Tax Control Framework di Poste Italiane

Poste Italiane ha sviluppato il proprio sistema di gestione e controllo del rischio fiscale, che, inserito nel più ampio Sistema di Controllo Interno e Gestione dei Rischi (SCIGR), presenta, in linea con il dettato normativo e le *best practice* di riferimento, i seguenti requisiti:

- la Strategia Fiscale in cui il Gruppo ha definito i propri obiettivi e l'approccio adottato nella gestione della variabile fiscale. La Strategia Fiscale si configura quale insieme di principi e regole volti a promuovere la diffusione di valori di onestà, correttezza e di osservanza della normativa tributaria favorendo, in tal modo, lo sviluppo di comportamenti collaborativi e trasparenti nei confronti dell'Amministrazione Finanziaria e dei terzi, al fine di minimizzare ogni impatto sostanziale in termini di rischio sia esso fiscale o reputazionale;
- adeguati processi, procedure e strumenti per la rilevazione, misurazione e gestione dei rischi fiscali, nonché per il monitoraggio sul sistema di controllo del rischio fiscale;
- un sistema di deleghe; ruoli e responsabilità in merito ai processi di rilevazione, misurazione, gestione e monitoraggio del rischio fiscale, definiti all'interno di una specifica Linea Guida, nonché declinati dettagliatamente nelle relative procedure operative e nella mappa dei rischi fiscali (i.e. *Tax Risk Assessment*);
- l'adattamento ai principali cambiamenti che riguardano l'Azienda, comprese le modifiche della legislazione fiscale;
- l'invio con cadenza annuale, di una relazione agli organi di gestione contenente gli esiti dei controlli effettuati ed eventuali piani di azione da attuare per rimediare alle carenze emerse dal monitoraggio. Tale relazione, inoltre, viene inviata all'Agenzia delle Entrate ai fini della valutazione del *Tax Control Framework*.

Il Gruppo Poste Italiane, in linea con la propria strategia di sostenibilità e in linea con i valori enunciati all'interno del Codice Etico di Gruppo, ha da sempre gestito la variabile fiscale nel pieno rispetto dei principi di onestà, correttezza e osservanza della normativa tributaria, caratterizzata da comportamenti collaborativi e trasparenti nei confronti dell'Amministrazione Finanziaria

e dei terzi, al fine di minimizzare ogni impatto sostanziale in termini di rischio sia esso fiscale o reputazionale. A tal fine il Gruppo si è dotato di una Strategia Fiscale¹¹⁰ nell'ambito della quale l'Azienda ha definito i propri obiettivi:

- gestire la variabile fiscale tutelando gli interessi di tutti gli *stakeholder*, incluso il Governo, gli azionisti, i dipendenti e la comunità in cui si opera, anche a livello locale, essendo consapevole che il gettito derivante dai tributi costituisce una delle principali fonti di contribuzione allo sviluppo economico e sociale del Paese;
- operare sempre in conformità alla normativa tributaria con riguardo sia alla lettera delle norme sia alla *ratio* sottesa, monitorando e presidiando le novità normative, anche mediante continue interlocuzioni con le istituzioni a ciò preposte a livello nazionale e internazionale;
- assumere decisioni in materia tributaria in linea con le *best practice* a livello nazionale ed internazionale e con le linee guida dettate dagli organismi di settore, nonché in coerenza con i propri obiettivi strategici e con la propria propensione al rischio;
- promuovere la diligenza professionale nella gestione delle attività e dei processi a rilevanza fiscale, nonché garantire che le relative procedure siano appropriate;
- assicurare un'adeguata formazione tecnica a tutti i dipendenti coinvolti nella gestione degli adempimenti e delle attività a rilevanza fiscale;
- istituire flussi informativi completi e accurati verso gli organi di gestione e le Autorità Fiscali;
- favorire lo sviluppo di relazioni costruttive, professionali e trasparenti con le Autorità Fiscali, basate sui concetti di integrità, collaborazione e fiducia reciproca.

Il regime di Adempimento Collaborativo
ha ammesso Poste Italiane
e la controllata Poste Vita con
l'Amministrazione finanziaria

Il sistema di gestione e controllo del rischio fiscale implementato dal Gruppo prevede che il *top management* sia costantemente informato sulle conseguenze fiscali derivanti da tutte le operazioni strategiche e operative di *business*, pianificate e da realizzare, assicurando in questo modo che ogni decisione presa in materia fiscale sia coerente con la strategia fiscale di Poste Italiane e che la funzione Fiscale sia coinvolta nella valutazione preliminare dell'impatto fiscale delle suddette operazioni. La funzione Fiscale risulta articolata in otto aree alle quali vengono assegnati dei ruoli e delle responsabilità ben distinte e sono: Pianificazione Fiscale e *Business Support*, Gestione del Rischio Fiscale, Processi e Procedure, Normativa, Studi e Sostituzione d'Imposta, Reddito d'Impresa, Imposte Indirette, Tributi Locali e Contenzioso, IVA e Adempimenti Informatici e Presidio degli adempimenti di natura tributaria previsti in capo agli intermediari finanziari.

Il Consiglio di Amministrazione di Poste Italiane S.p.A., previo parere del Comitato Controllo e Rischi è responsabile della valutazione dell'adeguatezza e dell'efficacia del sistema di controllo interno e di gestione dei rischi. A tal fine, con specifico riferimento al sistema di gestione e controllo del rischio fiscale, il Consiglio di Amministrazione, supportato da un'adeguata attività istruttoria del Comitato Controllo e Rischi esamina con cadenza almeno annuale la relazione, predisposta dal responsabile della funzione Fiscale, contenente gli esiti dell'esame periodico del suddetto sistema.

Poste Italiane si coordina inoltre con le società del Gruppo al fine di garantire che le stesse operino in conformità con la normativa fiscale vigente e in coerenza con il sistema di gestione e controllo dei rischi di Gruppo.

Come già ribadito in occasione dell'ingresso nel regime di Adempimento Collaborativo, il Gruppo Poste Italiane si impegna ad instaurare con le Autorità Fiscali rapporti improntati alla massima trasparenza e collaborazione impegnandosi a:

- comunicare in maniera chiara e trasparente all'Agenzia delle Entrate le eventuali modifiche nella strategia fiscale, nella pianificazione fiscale di medio e lungo periodo e i possibili rischi connessi alle operazioni più rilevanti;
- fornire informazioni corrette, accurate e puntuali e rispondere tempestivamente alle domande e alle richieste di informazioni pervenute da parte dell'Agenzia delle Entrate;
- risolvere tempestivamente eventuali problemi prima della presentazione delle dichiarazioni fiscali, e, qualora successivamente emergano delle divergenze, definire con l'Agenzia delle Entrate un accordo per la risoluzione delle stesse.

Il Gruppo Poste Italiane a seguito dell'ingresso nel regime di Adempimento Collaborativo si è dotato di un corpo procedurale ben strutturato a presidio della tematica in modo da disciplinare le modalità di gestione del rischio fiscale ed includendo in tale *corpus* di procedure le attività, i controlli e i ruoli e le responsabilità definite all'interno dei processi.

Poste Italiane ha inoltre previsto tra le responsabilità della funzione Fiscale il monitoraggio degli aggiornamenti della normativa di riferimento. Nello specifico l'unità Normativa, Studi e Sostituzione d'Imposta (NSSI), facente parte della funzione Fiscale, ha come compito quello di: presidiare l'evoluzione del sistema tributario nazionale, comunitario e internazionale, al fine di proporre interventi atti a garantire gli interessi del Gruppo e l'ottimizzazione degli adempimenti operativi, garantire le attività di studio, interpretazione e diffusione della normativa a carattere fiscale valutandone, in collaborazione con le funzioni interne/Società del Gruppo, gli impatti sull'Azienda e sul Gruppo. A tal fine l'unità NSSI grazie allo scambio continuo con le strutture operative di riferimento riceve suggerimenti e *input* che vanno così a dare maggiore consistenza alle azioni poste in essere in materia. Nell'ambito del monitoraggio della normativa, l'unità Processi e Procedure assicura, in raccordo con le altre funzioni interne, l'analisi degli impatti sui processi e sui sistemi derivanti dall'evoluzione della normativa in materia fiscale,

definendo i connessi piani di adeguamento. L'unità Gestione del Rischio Fiscale infine monitora, con riferimento ai piani di adeguamento sviluppati dall'unità Processi e Procedure, la corretta esecuzione dei controlli e delle attività connesse.

Tax Risk Assessment

Nel corso dell'esercizio 2022 è stato effettuato l'aggiornamento del *Tax Risk Assessment*, che ha comportato una revisione dei rischi fiscali di Poste Italiane, sia in termini di rischi esistenti che di valutazione degli stessi, nonché un aggiornamento delle attività e dei relativi presidi di controllo, anche al fine di sfruttare potenziali sinergie con altri sistemi di controllo presenti in Azienda. In generale, la revisione del *Tax Risk Assessment* ha riguardato i seguenti punti:

- aggiornamento della mappa dei rischi fiscali dovuta all'evoluzione della normativa tributaria e alla revisione dei rischi in ottica di miglioramento continuo;

- aggiornamento della valutazione quali/quantitativa dei rischi fiscali, in linea con la metodologia di *risk assessment* sviluppata nel corso del 2020;
- aggiornamento delle attività e dei relativi presidi di controllo individuati a mitigazione dei rischi fiscali in funzione dell'evoluzione della normativa tributaria, delle variazioni organizzative e di processo intervenute nel periodo, di eventuali carenze nel disegno dei controlli rilevate nel corso delle attività di *testing* ovvero in ottica di miglioramento continuo al fine di garantire l'efficientamento e l'armonizzazione dei sistemi di controllo in essere in Poste Italiane, nonché aumentare la consapevolezza dei *control owner* circa le modalità di esecuzione del controllo.

Nel corso dell'esercizio 2022 è stato eseguito il monitoraggio dei controlli a presidio dei rischi previsti nell'ambito del sistema di gestione e controllo del rischio fiscale di Poste Italiane, in coerenza con quanto definito nel Piano di monitoraggio 2021-2023 e in linea con la metodologia adottata.

Comunicazione e formazione sulle tematiche fiscali

La funzione Fiscale, in accordo con quanto affermato nella Strategia Fiscale e conscia del ruolo fondamentale che riveste la formazione in una materia come quella fiscale caratterizzata dal rapido susseguirsi di mutamenti, forma e supporta tutto il personale coinvolto nella gestione di attività a rilevanza fiscale, non limitandosi alle sole risorse dedicate specificatamente alla materia tributaria, onde garantire che tutti gli addetti abbiano la giusta competenza ed esperienza per adempiere alle proprie responsabilità.

Legalità e integrazione ESG nel processo di approvvigionamento

DNF

PRINCIPALI CAPITALI COLLEGATI

Poste Italiane gestisce responsabilmente la propria catena di fornitura con l'obiettivo di certificare la sostenibilità, la funzionalità e la tracciabilità degli approvvigionamenti. A tal proposito, oltre ad assicurare il rispetto delle normative vigenti e delle direttive aziendali, il Gruppo si impegna ad improntare i propri processi di acquisto su rapporti precontrattuali e contrattuali fondati sui valori di legalità e trasparenza, ponendo al centro il rispetto degli accordi, delle modalità e dei tempi di pagamento. Pertanto, all'interno del proprio parco fornitori, l'Azienda include quelli che presentano caratteristiche di qualità adeguate e capaci di garantire la tutela dei lavoratori e il rispetto degli *standard* ambientali.

Il Gruppo Poste Italiane conferisce a ciascun fornitore la possibilità di competere nelle procedure di affidamento, garantendo pari opportunità ed escludendo trattamenti di favore. I fornitori partecipanti sono obbligati a rispettare la normativa in materia di concorrenza, sia comunitaria che nazionale, e devono astenersi da comportamenti anti-concorrenziali o comunque non etici e contrari alle regole a tutela della concorrenza. In aggiunta, l'Azienda richiede ai fornitori – compresi eventuali subappaltatori – e ai propri *partner* di accettare in modo formale i principi ispiratori e i criteri di condotta delineati all'interno del Codice Etico e delle Politiche di Gruppo.

Per selezionare i propri fornitori, il Gruppo è guidato da criteri oggettivi e documentabili, ivi inclusi i criteri ESG, con l'obiettivo di assicurare agli stessi lealtà, imparzialità, trasparenza e pari opportunità di collaborazione

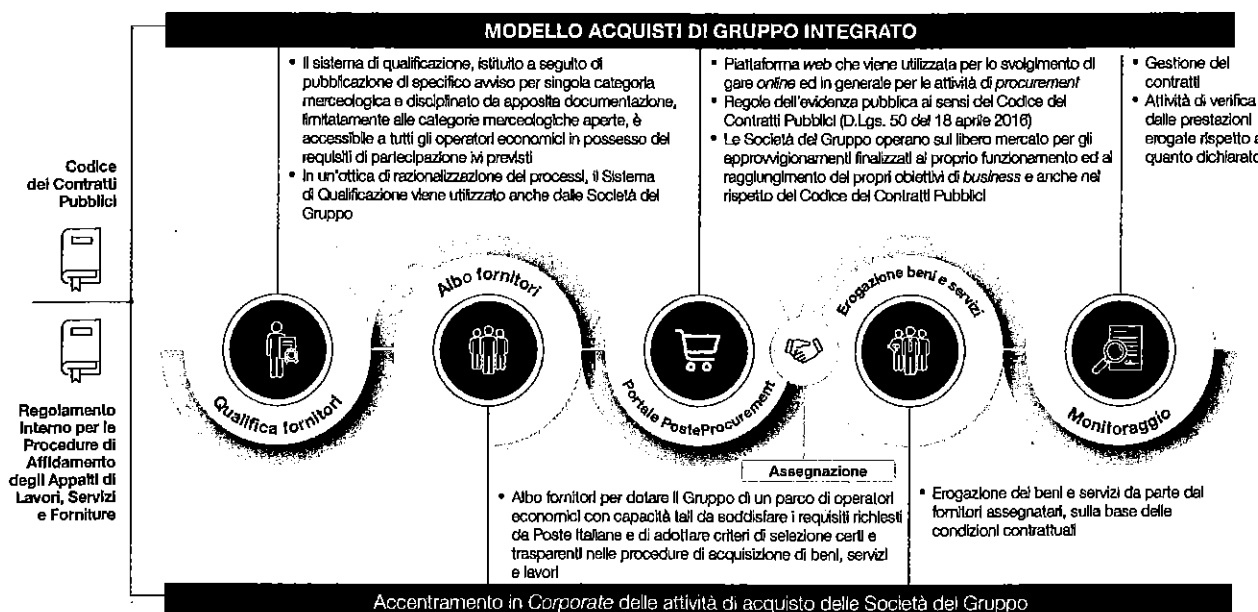

Attraverso regole interne, Poste Italiane disciplina il processo di acquisto sia degli appalti soggetti al Codice dei Contratti Pubblici, sia di quelli esclusi dall'ambito di applicazione del Codice stesso.

Al fine di incoraggiare e migliorare i rapporti con i fornitori e di assicurare una gestione efficiente e integrata della catena di fornitura nel pieno rispetto dei principi di riservatezza, autenticità, concorrenzialità, integrità e disponibilità nello scambio dei dati, gli acquisti vengono realizzati sul Portale Acquisti PosteProcurement, un sistema telematico dedicato alle attività di *procurement* e alla gestione dell'Albo fornitori.

Le procedure di acquisto del Gruppo risultano allineate al *trend* degli ultimi anni e registrano un massivo e costante ricorso a procedure competitive capaci di garantire vantaggi concorrenziali per l'Azienda.

Il processo di acquisto tiene conto delle tematiche ESG con l'obiettivo di perseguire acquisti sostenibili, configurandosi come veicolo di diffusione della cultura della sostenibilità – intesa come l'insieme delle politiche sostenibili del Gruppo integrate all'interno del sistema normativo aziendale e declinate nel processo di acquisto stesso.

Si evidenzia, infine, che l'attività di acquisto è regolamentata da un impianto normativo e procedurale che, congiuntamente al Regolamento Interno per le Procedure di Affidamento degli Appalti di Lavori, Servizi e Forniture (approvato a novembre 2017 e modificato a luglio 2019) e al Codice dei Contratti Pubblici, laddove applicabile, costituisce il principale presidio di *governance* e *compliance* normativa degli affidamenti di Poste Italiane. In proposito, per perseguire un miglioramento

Dal 2021 Poste Italiane si colloca tra le principali realtà economiche e produttive italiane qualificate in tema di gestione sostenibile dei processi di acquisto e nei rapporti con i fornitori. La certificazione ISO 20400 sugli Acquisti Sostenibili definisce le linee guida per Integrare la sostenibilità nei processi di approvvigionamento di un'organizzazione.

continuo, nel corso del 2022 è proseguito l'iter di revisione dell'impianto procedurale avviato nel 2021, che ha introdotto tra l'altro i principi ESG già in vigore, funzionali agli acquisti sostenibili e coerenti con le previsioni della certificazione ISO 20400, oltre al rafforzamento della centralità del *Business Process Management* (BPM) come strumento per la gestione, dematerializzazione e tracciatura del ciclo passivo.

La Funzione Sviluppo Sostenibile, *Risk* e *Compliance* di Gruppo in ambito *Corporate Affairs* ha l'obiettivo di riconoscere i possibili elementi di rischio per garantire il rispetto dei requisiti di affidabilità e onorabilità, tramite la valutazione dei profili societari, finanziari e patrimoniali delle società ed espo-

nenti dei relativi rapporti con l'Azienda. In particolare, le relazioni con i fornitori possono divenire fonti di rischi strategici e reputazionali. Il *risk management* si pone come obiettivo la limitazione dei rischi derivanti da operazioni con terzi, assicurando una rotazione dei fornitori adeguata e portando al minimo le perdite legate all'inesigibilità dei crediti, grazie al costante processo di monitoraggio. Per permettere l'identificazione delle relazioni dirette e indirette inclini a criticità, è necessario il potenziamento delle attività di prevenzione dei fenomeni illeciti attraverso un'analisi che considera informazioni interne ed esterne. Durante la pandemia da Covid-19 Poste Italiane ha ampliato il processo di valutazione con l'analisi legata al rischio pandemico.

L'impegno del Gruppo Poste Italiane è stato riconosciuto dall'UN Global Compact Network Italia, che ha inserito l'esempio del Gruppo all'interno del Position Paper "La gestione sostenibile delle catene di fornitura: tra responsabilità e opportunità per le imprese". Il documento, presentato nell'ambito del salone della CSR e dell'Innovazione Sociale, riconosce l'impegno di diverse aziende, tra cui Poste Italiane, nella gestione delle catene di fornitura in chiave sostenibile, e la loro capacità di individuare le opportunità correlate a questa sfida.

Principali tipologie di beni e servizi acquistati

Nell'ambito degli acquisti immobiliari, nel 2022 la totalità delle gare inerenti la fornitura degli arredi, i servizi di pulizia e i lavori hanno previsto il rispetto dei Criteri Ambientali Minimi (CAM). In particolare, nelle gare lavori, allo scopo di ridurre l'impatto ambientale sulle risorse naturali e aumentare l'uso di materiali riciclati, incrementando così il recupero dei rifiuti, sono stati adottati specifici criteri premianti per l'utilizzo di nuovi materiali prodotti con una determinata percentuale di contenuto riciclato e che, a fine vita, possono essere sottoposti a demolizione selettiva, riciclaggio o riutilizzo. Per ciascun prodotto oggetto di punteggio premiante è stata richiesta la produzione di un'apposita scheda che riporti la descrizione generale del prodotto e che indichi le caratteristiche fisiche, i marchi, le etichettature ambientali e le certificazioni attestanti che si tratti di materiali riciclati o ecocompatibili.

Anche gli affidamenti in concessione dei servizi di ristorazione presso i complessi immobiliari rispettano i principi del *Green Public Procurement* (GPP - Acquisti verdi della Pubblica Amministrazione), garantendo l'erogazione di un servizio di ristorazione aziendale a ridotto impatto ambientale caratterizzato, in termini di processi e contenuti, dal rispetto della sostenibilità ambientale, economica e sociale. Poste Italiane premia la fornitura di derrate alimentari, quali prodotti BIO, IGP, DOP, pesca sostenibile ecc., in percentuale superiore ai quantitativi minimi prescritti dai CAM. In

questo ambito, vengono potenzialmente coinvolti nella catena di fornitura dei prodotti alimentari destinati alla mensa e bar anche fornitori locali che garantiscano prodotti certificati.

Per quanto riguarda l'approvvigionamento di energia elettrica per il Gruppo, l'acquisto avviene dal mercato di riferimento con una percentuale pari al 100% da fonti rinnovabili certificate con garanzie d'origine. Una residuale quota del fabbisogno viene autoprodotta da impianti fotovoltaici di proprietà. Al fine di incrementare l'autoproduzione di energia, sono in fase di ultimazione i lavori per l'installazione di circa 600 impianti fotovoltaici sulle coperture degli edifici del Gruppo ed è in fase di contrattualizzazione la nuova gara per ulteriori 1.000 interventi sulle coperture degli Uffici Postali nell'ambito del Progetto Polls.

Rilevante è l'iniziativa progettuale che ha interessato Postel e che prevede la realizzazione di impianti fotovoltaici nei due siti produttivi dedicati principalmente ad attività di stampa massiva (*mass printing*) ed imbustamento industriale: il primo è stato installato ad ottobre 2022 ed è ubicato presso il centro produttivo di Melzo, mentre il secondo è stato installato a dicembre ed è ubicato presso il centro produttivo di Pomezia. L'installazione copre complessivamente una superficie di 5.100 mq aventi capacità di energia prodotta di 1.210.000 kWh/anno, corrispondente ad un *saving* di emissioni CO₂ di 560 ton/anno.

Il più grande impianto fotovoltaico del Lazio è di Poste Italiane

Il nuovo impianto fotovoltaico entrato in funzione presso lo stabilimento Postel di Pomezia accelera anche nel Lazio gli interventi di Poste Italiane che consentiranno all'Azienda di raggiungere entro il 2030 l'obiettivo di *carbon neutrality*.

Composto da 1.170 pannelli monocristallino sul tetto del Centro, per un totale di 1.900 mq che corrispondono a circa 7 campi da tennis, il più grande impianto fotovoltaico realizzato da Poste Italiane nel Lazio è fra i più grandi in Italia, ha una potenza di circa 400 kWp, una produzione media annuale di circa 490.000 kWh e un risparmio di emissioni CO₂ nell'ambiente di 260 tonnellate, pari all'emissione annua media di quasi 87 famiglie. Inoltre, lo stabilimento utilizza energia elettrica totalmente rinnovabile e l'illuminazione del sito è garantita al 100% da luci led.

Nell'ambito del progetto *Smart Building*, nel corso del 2022 sono state eseguite 965 installazioni di sistemi di monitoraggio microclima, portando così a 1.621 il numero delle sedi dotate di *screening* continuo dei parametri ottimali di *comfort* ambientale (temperatura e umidità), con una riduzione dei consumi energetici superiore al 15% rispetto ai siti che ne sono sprovvisti.

Prosegue anche l'impegno nella realizzazione dei punti di ricarica per i veicoli aziendali ibridi o interamente elettrici, con l'acquisto di 325 nuove colonnine che verranno installate presso le sedi aziendali. Analogamente, nell'ambito del Progetto Polis è stata avviata una gara comunitaria per la realizzazione di una infrastruttura di ricarica sull'intero territorio nazionale, con 5.000 colonnine fruibili dalla collettività tutti i giorni e a qualsiasi orario.

Relativamente agli acquisti di logistica, con riferimento alle attività di acquisto dei principali servizi di *Full rent* della flotta operativa e di trasporto, in sede di espletamento delle gare viene attribuito un punteggio premiante alle offerte che prevedono classi di emissioni di CO₂ più contenute, nonché il rispetto dei CAM di riferimento, ove previsti.

Per le calzature e i dispositivi di Protezione Individuale, nonché per la fornitura delle divise di lavoro, vengono osservati i CAM di riferimento e valorizzate le offerte mirate alla sostenibilità ambientale, anche in relazione alla riciclabilità degli imballaggi.

Negli acquisti di impianti tecnologici di smistamento pacchi e lettere, particolare attenzione viene posta alla valorizzazione delle offerte che presentano soluzioni a basso assorbimento energetico e alla riduzione del rumore nell'utilizzo degli stessi.

Inoltre, è in corso di esecuzione la gara per la fornitura di carburanti per automezzi a mezzo *Fuel Card* destinati ai veicoli del Gruppo Poste Italiane. L'offerta tecnica della gara, oltre a prevedere l'introduzione di nuove funzionalità della *card* e ad attribuire valore alla capillarità della rete, valorizza la sostenibilità attraverso la richiesta di certificazioni di gestione ambientale, di prevenzione della corruzione e di presidio della salute e sicurezza sul lavoro, unitamente alla realizzazione delle *Fuel Card* con materiali di origine vegetale/plastica riciclata.

Anche per gli acquisti ICT, il fabbisogno informatico relativo a stampanti, apparecchiature multifunzione, pc desktop e pc portatili è stato acquisito nel rispetto dei CAM di base e premianti previsti dal GPP. In particolare, per la gestione dei processi di stampa, è stata individuata per gli Uffici di Poste Italiane una nuova categoria di stampanti "a getto d'inchiostro" dotate di serbatoi di grande capacità e ricaricabili con appositi flaconi di

+965

sistemi di monitoraggio microclima

inchiostro che riducono sensibilmente la sostituzione di cartucce di ricarica, consentendo un risparmio sui consumabili e una significativa riduzione di rifiuti/scarti in plastica (imballi, ricambi, ecc). Oltre a contribuire a migliorare la qualità dell'ambiente di lavoro attraverso le zero emissioni di ozono, le nuove stampanti, basandosi sull'ottimizzazione elettronica nel processo di stampa, consentono il contenimento dei costi di gestione e una notevole diminuzione dell'assorbimento elettrico.

Infine, nell'ambito della verifica dell'obsolescenza tecnologica dei pc in dotazione al personale aziendale e per i quali è stato rilevato il superamento del sistema operativo, è stato avviato un progetto di "*no replacement*" finalizzato a effettuare un *upgrade* dei dispositivi, in alternativa alla sostituzione degli stessi. Tale intervento, oltre a consentire un importante *saving* economico, ha di fatto consentito l'allungamento della vita delle dotazioni e contenuto la generazione di RAEE.

Qualifica dei fornitori

In linea con quanto previsto dalla normativa vigente (art. 134 dell'attuale Codice dei Contratti Pubblici), il Gruppo Poste Italiane ha istituito nel 2006 un proprio Albo Fornitori per snellire le procedure di affidamento e assicurare omogeneità tra i soggetti selezionati, in ogni ambito merceologico, nonché trasparenza nei confronti del mercato.

Il Disciplinare dell'Albo dei Fornitori e il Regolamento del Sistema di Qualificazione, che disciplinano rispettivamente il Sistema di Qualificazione nell'Albo Fornitori e il sistema e il procedimento di qualificazione di ognuna delle categorie merceologiche, regolano la formazione e la gestione dell'Albo. Per ciascuna categoria merceologica, l'accesso all'Albo può avvenire in qualsiasi momento presentando l'istanza e la documentazione richiesta.

Tutti i fornitori, per poter essere qualificati all'Albo, devono possedere non solo dei requisiti generali, ovvero qualità morale e idoneità professionale, ma anche dei requisiti speciali, tra i quali si configurano quelli di natura economico-finanziaria e tecnico-organizzativa. Tali presupposti abilitanti mirano a consolidare la *Governance* del processo di acquisto del Gruppo.

Inoltre, nell'ambito dei rapporti con fornitori di lavori, servizi e forniture, le clausole contrattuali con cui opera Poste Italiane vengono aggiornate continuamente sulla base di eventuali nuove disposizioni normative e di particolari esigenze comunicate dal cliente interno. Questo contribuisce all'accelerazione dei tempi contrattuali e garantisce una *Governance* adeguata alle tematiche più significative.

Il Gruppo Poste Italiane assicura un elevato livello di *disclosure*

re del proprio processo di *procurement*, in linea con i principi di trasparenza. Difatti, ai sensi della legge n. 190/2012 intitolata "Disposizioni per la prevenzione e la repressione della corruzione e dell'illegalità nella pubblica amministrazione", pubblica regolarmente e in maniera del tutto volontaria le informazioni relative sia alle procedure di acquisto indicate dalla legge, che quelle non espressamente citate nella normativa. Per garantire tale flusso informativo è stato creato il portale "Contratti aperti e trasparenti" consultabile sul sito *web* dell'Azienda.

Selezione dei fornitori

L'integrazione degli aspetti ambientali, sociali e di *governance* nelle procedure di acquisto di Poste Italiane implica che i fornitori siano sottoposti ad *audit* di sostenibilità in modo da verificare il possesso di requisiti specifici.

+1,4%

di gare espletate sulla base di criteri ambientali rispetto al 2021

Il Gruppo pone particolare attenzione agli aspetti ESG relativi alla gestione della catena di fornitura, consapevole del fatto che sviluppare relazioni trasparenti e durevoli con i fornitori, nonché riporre massima attenzione alla qualità, al rispetto dell'ambiente, alla sicurezza e alle implicazioni di tipo sociale nel processo di approvvigionamento, possa contribuire all'interesse pubblico dell'intero Sistema Paese¹¹¹ e al costante miglioramento del servizio offerto alla propria clientela.

84,8%

dei fornitori dotati di un sistema di gestione ambientale certificato ISO 14001 o EMAS

Per questo motivo, sono previsti specifici criteri ambientali, sociali e di *governance* nel processo di selezione dei fornitori, nei requisiti di partecipazione, nei parametri di valutazione dell'offerta tecnica e/o nelle condizioni contrattuali delle procedure di gara espletate nell'anno. In particolare il Gruppo, in relazione ai rapporti che intrattiene con i propri fornitori, prevede specifiche clausole contrattuali legate a tematiche di sostenibilità (es. diritti umani, salute e sicurezza sul lavoro, etica, ecc.).

A dimostrazione dell'impegno del Gruppo nei confronti di queste tematiche, anche nel 2022 si segnalano incrementi rilevanti in relazione a gare espletate sulla base di criteri ambientali, sociali e di *governance*.

Nello specifico, l'88,3% dei fornitori, rispetto all'84,5% del 2021, è stato selezionato in coerenza con specifici *standard* sociali durante il 2022. Tale indicatore, se considerato al netto delle

gare sproviste dell'offerta tecnica (poiché aggiudicate al prezzo più basso), certifica che la quasi totalità delle gare avviate, esige criteri sociali (> 98%).

+3,8%

di gare espletate sulla base di criteri sociali rispetto al 2021

D'altra parte, l'84,8% delle gare espletate nel 2022, in confronto al 83,4% dell'anno precedente, rispetta determinate *performance* ambientali. Anche in questo caso, la percentuale di gare scelte sulla base di tali criteri diverrebbe maggiore del 99% qualora venissero escluse dal calcolo quelle sproviste dell'offerta tecnica.

Il Gruppo ha mantenuto l'indicatore di *governance*, introdotto nel 2021, richiedendo ai fornitori specifici principi di qualificazione e di valutazione nell'offerta tecnica, al fine di perfezionare il modello ESG nel processo di approvvigionamento. Analizzando le procedure di gara avviate con importo superiore alle soglie comunitarie, si ottiene il dato che rappresenta le iniziative che possiedono specifici criteri di *governance* nella qualificazione, nei criteri di valutazione (es. ISO 37001, *Rating* di Legalità, Codice Etico/di Condotta, *Policy* ecc.) e nelle clausole contrattuali.

Il 52,3% delle gare espletate nell'anno ha tenuto in considerazione aspetti di *governance*, in confronto al 33% dell'anno precedente. Il medesimo indicatore, se privato delle gare sproviste dell'offerta tecnica, certifica che la quasi totalità di gare avviate esige criteri di *governance* (>80%).

+19,2%

di gare espletate sulla base di criteri di *governance* rispetto al 2021

Il perimetro di rendicontazione si riferisce alle vigenti soglie di appalto per i settori speciali, convenzionalmente estesa alle gare fuori codice, per i criteri di aggiudicazione al prezzo più basso (PBB) ed economicamente più vantaggiosa (OEPV).

111. Nell'anno 2022, si registrano zero casi di non conformità dei fornitori alle politiche ambientali e alle politiche sui diritti del lavoro.

Nel 2019, il Gruppo ha introdotto la funzione *Green Procurement*, per rendicontare puntualmente le tematiche ESG all'interno della gestione della propria catena di fornitura. Tale funzione è in grado di assicurare la stabile integrazione dei temi di sostenibilità all'interno dei processi di gara e dei criteri ESG nella valutazione tecnica delle offerte. Tramite la definizione dei progetti con elevata rilevanza, come logistica, decarbonizzazione degli immobili, materiali di consumo, e promuovendo l'attenzione all'utilizzo delle risorse, ai piani di investimento e allo sviluppo tecnologico, unitamente all'implementazione in chiave *green* dei fabbisogni più tradizionali, è possibile il raggiungimento dell'obiettivo di cambiamento sostenibile.

Al *trend* crescente degli indicatori Ambientali, Sociali e di *Governance*, si associa il significativo incremento dell'incidenza ESG dell'offerta tecnica, rilevato in oltre 6 punti percentuali rispetto allo scorso anno, con la presenza stabile di criteri afferenti la Gestione Ambientale (65%), la Salute e Sicurezza sui luoghi di lavoro (64%), l'Attenzione alle Persone (53,3%) e l'Integrità e Trasparenza (52,3%). Poste Italiane, incentivando l'adozione di criteri ESG di selezione, valutazione e monitoraggio dei fornitori, nonché mitigando eventuali rischi ESG, persegue il fine di accrescere l'efficacia dei processi aziendali e la competitività. In continuità con i precedenti anni e con l'obiettivo di coniugare la sostenibilità in termini di riduzione degli impatti ambientali e di razionalizzazione dei costi, il Gruppo Poste Italiane ha recepito i criteri previsti dal *Green Public Procurement* attuando, dove previsto, le indicazioni sui Criteri Ambientali Minimi (CAM), stabiliti con appositi Decreti Ministeriali. Inoltre, il modello ESG nel processo di acquisto del Gruppo è stato attuato grazie all'introduzione di specifici criteri di Integrità e Trasparenza (*Governance*).

Nella fase di qualifica dei fornitori, per monitorare le loro *performance*, Poste Italiane ha implementato una metodologia di *rating* contraddistinta dall'adozione di un approccio personalizzato che si traduce nella definizione di un questionario *ad hoc* per ognuno di questi (100% dei fornitori qualificati). Tale modello si basa su un approccio *risk-based*, in quanto consente di valutare le modalità adottate da ciascun fornitore per gestire i rischi ESG identificati come rilevanti a seconda del settore di appartenenza dell'azienda e della dimensione della stessa. Per quanto riguarda il settore di appartenenza,

100%

dei fornitori classificati per settore ATECO e per dimensione

i fornitori vengono classificati dal Gruppo all'interno dei 99 settori ATECO riconosciuti. Poiché ogni settore è caratterizzato da rischi specifici a seconda della sua natura, anche le aziende che vi appartengono ne sono influenzate e, di conseguenza, vengono valutate in base a questi. Poste Italiane ha utilizzato riferimenti esterni riconosciuti a livello internazionale per identificare le varie tipologie di rischio, individuandone circa 40 principali (ambientali, sociali e socio-ambientali). Per ogni rischio ritenuto rilevante per il settore di riferimento, viene effettuata una valutazione delle aziende considerando gli specifici presidi adottati per mitigare l'impatto negativo dei singoli rischi presi in esame. Relativamente alla dimensione dell'organizzazione, invece, che secondo quanto disciplinato dalla Commissione europea può essere piccola media o grande, l'Azienda ha indicato 8 principali rischi di *Governance* potenzialmente rilevanti per i fornitori sottoposti ad *assessment*.

Specifici Rating ESG

assegnati per la selezione dei fornitori in base ai presidi impiegati per la gestione dei vari rischi rilevanti

Successivamente, le informazioni ottenute vengono analizzate ed elaborate attraverso la definizione di un processo di *scoring* ESG che prevede, per ogni dimensione analizzata, l'attribuzione di un *rating* per ciascun rischio rilevante e di un *rating* ESG totale.

Tali elementi dotano il modello dei seguenti punti di forza:

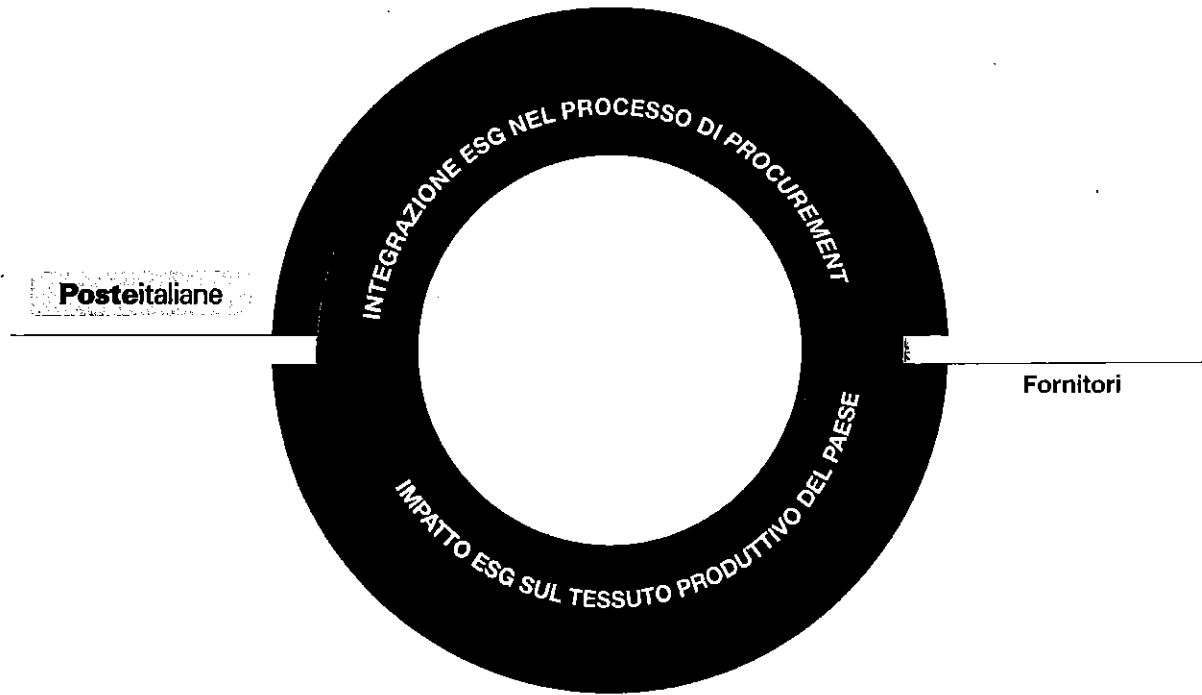

- valutazione concentrata sui rischi ESG rilevanti del fornitore, attraverso l'utilizzo di uno specifico questionario per ciascun settore economico (ottica *risk-based*);
- solidità dell'analisi, grazie all'utilizzo di un algoritmo quantitativo che garantisce l'attribuzione di un *rating* estremamente rappresentativo del livello di copertura del rischio garantito dal fornitore;
- visione del rischio su vari livelli, con l'opportunità di analizzare il rischio ESG a livello aggregato, a livello di una singola dimensione E/S/G, e a livello di singolo rischio;
- identificazione puntuale delle aree di miglioramento in base al *rating* attribuito alle modalità di gestione dei singoli rischi;
- compilazione agevolata del questionario, contraddistinto da risposte multiple chiuse al fine di facilitarne la compilazione;

Il sistema *Vendor Rating* (VR) di Poste Italiane, nasce dall'esigenza di dotare l'Azienda di un sistema di misurazione delle *performance* dei fornitori e di valutare gli stessi in ambito ESG. Tale sistema rappresenta un elemento essenziale della catena di fornitura, in quanto si prefigge come obiettivo la definizione e l'implementazione di un modello di *scoring* che consenta un'accurata valutazione dei fornitori in relazione a qualità, sicurezza, puntualità e rispetto ambientale dei servizi offerti, oltre che al comportamento commerciale e alla correttezza della fatturazione. Lo strumento consente quindi a Poste Italiane di effettuare scelte consapevoli sull'acquisto di beni e servizi. Attraverso il *Vendor Rating* sono stati valutati tutti i fornitori che hanno svolto attività nel periodo di riferimento, legati a Poste Italiane da tipologie di contratti come accordi quadro e appalti *spot*.

Il sistema Vendor Rating di Poste Italiane

- affidabilità e riconoscibilità della metodologia proposta, fondata su studi riconosciuti a livello internazionale che costituiscono affermate *best practice* nell'ambito oggetto di analisi;
- spendibilità del modello proposto da parte del Gruppo Poste Italiane, che può valutare di renderlo un modello proprietario e proporlo sul mercato una volta registrato con apposito marchio.

Con l'obiettivo di sensibilizzare i propri fornitori e accompagnarli in un percorso di crescita sostenibile, Poste Italiane si impegna nell'introduzione graduale, nel corso degli anni, di criteri ambientali, sociali e di *governance* nelle proprie procedure di gara. In questo modo, è in grado di assicurare un ampliamento progressivo degli ambiti richiesti, della copertura e del peso dei criteri ESG sul punteggio di gara.

Formazione e sviluppo del personale DNF

Per Poste Italiane il capitale umano assume un ruolo di estrema rilevanza, in quanto elemento distintivo per il raggiungimento degli obiettivi aziendali ed elemento essenziale per la creazione di vantaggio competitivo. Proprio per questo motivo, il Gruppo promuove ed investe in percorsi formativi per il personale che siano capaci di preparare le persone ad affrontare in maniera efficace le esigenze di un *business* in continua trasformazione. In particolare, il ruolo della formazione all'interno dell'Azienda è un aspetto fondamentale per il processo di sviluppo continuo di competenze personali e professionali, mirate ad ogni persona appartenente al Gruppo. In quest'ottica Poste Italiane, attraverso l'adozione di *format* innovativi e strumenti di *knowledge sharing*, si impegna costantemente a migliorare la *learning experience* per permettere di semplificare l'accesso ai contenuti formativi e garantire la continuità di apprendimento.

L'Azienda, in linea con quanto riportato nel Codice Etico, manifesta la volontà di riconoscere e valorizzare l'importanza dell'apporto individuale di ogni membro della popolazione aziendale, impegnandosi a garantire pari opportunità nei percorsi di carriera a tutti i dipendenti, senza distinzioni.

Il Gruppo considera la formazione una leva essenziale per il raggiungimento del vantaggio competitivo sul mercato, promuovendone costantemente la sua innovatività e continuità

Coerentemente al Piano Strategico, le attività formative trovano collocazione in un progetto ben più ampio, che, in accordo con i principi aziendali e le esigenze del mercato, dei clienti e delle normative, prevede l'erogazione di circa 25 milioni di ore di formazione nel quinquennio 2020-2024. Per la promozione di un regolare svolgimento delle attività di formazione, nel 2015 l'Azienda ha istituito la *Corporate University*, identificata come una funzione di Risorse Umane che, attraverso l'organizzazione in varie *Academy*, eroga formazione su diversi contenuti di *business*, a seconda delle competenze da sviluppare. La *Corporate University* si pone come obiettivo quello di definire e garantire lo svolgimento del processo di formazione nella sua interezza (incluso il *training* operativo). In particolare, la Procedura "Formazione e *Training Operativo*", indirizzata a tutte le funzioni aziendali e a tutto il personale, descrive il modello operativo di formazione del Gruppo esplicitando i meccanismi di funzionamento e le *ownership* organizzative sulle attività di formazione e di *training* operativo. Le logiche che indirizzano la Procedura sono orientate alla garanzia dell'efficacia, dell'efficienza e alla conformità dei risultati attesi, tramite l'introduzione di misure organizzative e di controllo rilevanti anche ai sensi del D.Lgs. 231/01. Inoltre, la procedura integra le altre *policy/procedure* più specifiche per ambiti di attività/funzioni organizzative in corso di aggiornamento (es. formazione finanziata, formazione in ambito BancoPosta, ecc.).

Nel 2022 il piano di formazione è stato incentrato su specifici *driver* individuati nell'ottica di promuovere e accelerare la realizzazione del Piano Strategico, in particolare:

PRINCIPALI CAPITALI COLLEGATI

- contenuti innovativi: spinta sullo sviluppo delle *digital skills*, multicanalità, *business development* e nuovi *business*;
- processi: riorientamento dei processi sul cliente, attraverso la progettazione di strumenti e soluzioni di semplificazione e *streamlining*;
- competenze e costi: continuo investimento sulle competenze del personale, in linea con gli obiettivi di Piano, e continua spinta sul recupero della formazione finanziata.

Nel 2022 la *learning experience* è migliorata attraverso l'introduzione di nuovi *format* innovativi, come la modalità di *learning game*, ma anche grazie al continuo aggiornamento della piattaforma *e-learning*, che consente un accesso semplificato a tutti i contenuti formativi, e all'adozione di strumenti di *digital learning* utilizzati per specifici obiettivi formativi.

Inoltre, si conferma l'utilizzo dei contenuti dell'*Open Learning Area*, accessibili liberamente da tutta la popolazione aziendale per una fruizione *on demand* dell'offerta formativa. L'area di apprendimento permette al personale di scegliere in maniera autonoma la propria formazione in un'ottica di autosviluppo.

Durante il 2022 sono state erogate complessivamente circa 6 milioni di ore di formazione. In risposta alle varie esigenze formative legate ai diversi *business* del Gruppo, sono stati sviluppati percorsi formativi dedicati a *target* specifici (ad es. sportellisti, portalettere, addetti assistenza clienti, venditori) per l'acquisizione, il consolidamento e lo sviluppo delle competenze tecnico specialistiche di ruolo. Sono stati erogati anche percorsi formativi trasversali relativi a tematiche orientate all'adozione di strumenti e modelli culturali indirizzati a tutto il personale dell'Azienda, indipendentemente dal ruolo specifico. Infine, attraverso percorsi formativi individuali, dedicati in particolare a risorse in sviluppo, sono state rafforzate le competenze utili per ruoli di maggiore complessità.

6 milioni
di ore di formazione nel 2022

Numerose sono state le iniziative a partecipazione libera dedicate all'aggiornamento e all'acquisizione di competenze digitali e di innovazione. Tra queste, il programma "Voci digitali" ha visto l'adesione volontaria ad un ricco ciclo di *webinar* e contenuti *online* con l'obiettivo di aprire una finestra di osservazione sul contesto esterno, analizzando l'influenza del digitale sui mercati, per accrescere la capacità predittiva necessaria allo sviluppo dei *business* del Gruppo.

Grazie al coinvolgimento di varie funzioni organizzative, la *Corporate University* rappresenta il fulcro del processo di formazione e assicura il governo dell'intero processo di formazione stesso. Questa è organizzata in 5 *Academy*, ciascuna

dedicata al presidio di specifiche competenze. Tre *Academy* sono focalizzate su ambiti di *business* verticali quali: l'*Academy* Finanziaria Commerciale e Supporto Clienti presidia lo sviluppo delle competenze finanziarie e assicurative delle reti dei consulenti finanziari e dei venditori sulla base della normativa di settore (ESMA/IVASS), nonché le capacità di relazione con il cliente; l'*Academy* Postale, Logistica e ICT presidia lo sviluppo delle competenze della rete di recapito e di logistica, oltre a quelle della famiglia professionale ICT; l'*Academy* Corporate e *Faculty*, invece, è dedicata allo sviluppo delle competenze legate alle professionalità delle funzioni *corporate*, oltre a gestire i docenti interni di Poste Italiane assicurandone la formazione e la certificazione delle competenze. Sempre in ambito *Faculty*, il corpo didattico interno si è arricchito di una nuova figura di *trainer* – il formatore istruttore – preparato per gestire la didattica in contesti operativi. Inoltre, la Scuola dei *Coach* di Poste Italiane nel 2022 ha ampliato il numero di nuovi *coach* impegnati nello sviluppo di personale ad alto potenziale e nel sostegno durante il rientro a lavoro delle risorse fragili, comprendendo anche le giovani mamme. Le altre due *Academy*, invece, sono focalizzate su competenze core trasversali. Nello specifico, l'*Academy* Manageriale presidia lo sviluppo delle competenze manageriali per i ruoli apicali, per i *professional* e i talenti che ricopriranno ruoli a maggiore complessità, mentre la *Digital Academy* e *Innovation* assicura la progettazione e lo sviluppo dei corsi *online* e la reingegnerizzazione dei processi e degli strumenti di apprendimento.

Infine, è presente una funzione di Pianificazione e *Governance* che si occupa del consolidamento del piano di formazione e del monitoraggio e controllo periodico degli avanzamenti.

Con l'obiettivo di valorizzare le sinergie di strumenti, metodologie e competenze, a maggio 2022 è confluita nella *Corporate University* l'iniziativa *Education* che ha l'obiettivo di promuovere campagne, iniziative e occasioni di confronto volte a incentivare il dialogo con i cittadini e ad accrescere la fiducia dei clienti sui prodotti e servizi.

Il processo di formazione prende avvio con il Piano di Formazione annuale, che recepisce i fabbisogni formativi espressi dalle linee in coerenza con gli obiettivi del Piano Strategico. L'ascolto e la raccolta dei fabbisogni formativi rappresentano, infatti, il primo passo per la creazione di percorsi e la progettazione di interventi di aggiornamento, abilitazione al ruolo e consolidamento di competenze per tutta la popolazione, dalle risorse neo inserite al *manager*.

Inoltre, sono coinvolte anche le funzioni *HR Business Partner* attraverso le figure dei referenti di formazione e le risorse operanti nei servizi trasversali nella macroarea Risorse Umane.

Per la verifica del raggiungimento degli obiettivi di formazione fissati, il Gruppo ha attuato un sistema di monitoraggio e controllo condiviso periodicamente con le linee di *business*, che comprende:

- un sistema di KPI generale monitorato mensilmente attraverso la verifica di:
 - ore di formazione erogate (per funzioni/ambito);
 - percentuale di *coverage*;
 - valore della qualità percepita;

- avanzamento costi esterni;
- avanzamento recupero da Fondi;

- un sistema di controllo specifico per le singole iniziative formative che valuta:
 - l'efficacia, ovvero la capacità di raggiungere gli obiettivi formativi del singolo corso attraverso il tasso di superamento del test di fine corso;
 - tasso di partecipazione;
- specificatamente per la formazione di *compliance* sono previsti dei sistemi di rendicontazione e monitoraggio periodici aggiuntivi per le funzioni di controllo. In particolare, sull'avanzamento del piano di formazione in termini di ore, partecipazioni, dorsali di intervento e *trend*, l'Azienda ha previsto monitoraggi di fruizione per specifiche campagne formative in erogazione.

Inoltre, l'Azienda ha previsto *audit* periodici da funzioni di controllo interne/esterne (*audit* interni/enti certificatori/autorità di vigilanza) che valutano il modello adottato.

Per supportare il sistema di monitoraggio, Poste Italiane utilizza una serie di strumenti aggiuntivi come *survey* o *focus group* al fine di migliorare la progettazione dell'iniziativa e valutare l'efficacia dei discenti. L'Azienda, inoltre dedica estrema attenzione al ruolo dei mezzi di comunicazione (il sito *internet* aziendale, *Poste News*, interviste al TG Poste) per sensibilizzare i potenziali dipendenti all'importanza dei corsi di formazione proposti. Infine, tramite *partnerships* pluriennali con le più rilevanti *Business School* e con i fornitori principali, il Gruppo ha messo a disposizione contenuti formativi sempre aggiornati che ottimizzano i tempi del processo di acquisto.

100%

di dipendenti coperti dalle pratiche di People Analytics

Per il miglioramento dei sistemi, dei processi e delle strategie Poste Italiane, proiettata al conseguimento del successo aziendale sostenibile, utilizza pratiche di *People Analytics*, detto anche *HR Talent* o *workforce analytics*, ovvero la pratica di raccolta e analisi dei dati organizzativi delle risorse umane attraverso l'applicazione di statistiche e altre tecniche dati. In particolare, il Gruppo nel 2022 ha utilizzato le pratiche di *People Analytics* per i seguenti scopi:

- a. pianificazione strategica della forza lavoro attraverso la raccolta delle esigenze delle varie linee di *business* coniugate alle leve gestionali agibili (assunzioni da mercato, trasformazioni da *part-time* a *full-time*, flussi di mobilità ecc.) con l'obiettivo di definire le cornici di organico di medio periodo coerentemente alle richieste. Il Gruppo anticipa e guida le dinamiche di organico attraverso strumenti di *People Analytics*, considerando in particolare l'utilizzo dell'esodo incentivato come leva a basso impatto sociale per il controllo delle eccedenze e per l'indirizzo dei *trend* prospettici di impiego delle risorse. *People Analytics* fornisce la possibilità di analizzare l'impatto dei progetti di *business* e di identificare e gestire le eccedenze tramite "WebPers

Pensionamento". Tale sistema permette di individuare i dipendenti esodabili e di gestire *end to end* il relativo processo di esodo, direttamente attraverso la politica espulsiva indirizzata agli ambiti organizzativi in eccedenza, creando al contempo in maniera indiretta spazi di reimpiego in ambiti organizzativi differenti, anche in base alle esigenze delle varie linee di *business* (es. sportelleria, *insourcing*, ecc.). Grazie all'utilizzo di questo strumento, il Gruppo ha gestito anticipatamente ed efficacemente la riorganizzazione aziendale ed è riuscito a guidare le dinamiche gestionali per il raggiungimento degli obiettivi di *business*;

- b. promuovere da parte della *Corporate University* un'offerta formativa diversificata anche attraverso l'analisi di una serie di dati (anagrafici, organizzativi, di formazione assegnata, fruita, completata e superata) al fine di definire, avviare e monitorare i percorsi formativi per lo sviluppo delle competenze di base (in ambito normativo e generale), di ruolo (competenze tecnico specialistiche in ambito di *compliance* bancaria, assicurativa, logistico-postale, commerciale e *corporate*), destinati a specifici segmenti di popolazione o anche a singoli individui, da risorse neo inserite ai *manager*. Tutti i dati risiedono in una piattaforma LMS e consentono di analizzare costantemente l'andamento della formazione in termini di volumi e popolazione impattata, fenomeni distinti per funzione e per altre dimensioni di analisi;
- c. *recruiting* e assunzioni (es. valutazione dei canali di *recruiting*, *screening* dei candidati, valutazione della domanda/offerta di talenti) i cui dati fanno riferimento alle candidature esterne e sono gestiti da numerosi sistemi, in particolare HCM Oracle che viene utilizzata per la raccolta delle informazioni necessarie all'avvio del processo di selezione dei candidati;
- d. *competitive Intelligence*: tramite il Centro Studi HR, che, nell'ambito della funzione Risorse Umane e Organizzazione, ha l'obiettivo di favorire l'allineamento dei professionisti ai *trend* e alle *best practice* del mercato relativamente ai processi principali che hanno un impatto sulle strategie delle risorse umane, attraverso lo studio, la condivisione e la socializzazione di esperienze e approcci nuovi. A titolo esemplificativo, è stato realizzato lo Spazio Studi *online*, per analizzare contenuti organizzati e soluzioni innovative del mondo HR, con un approccio multidisciplinare e *user friendly*, finalizzato alla contaminazione dei saperi e all'emersione di pratiche innovative da innestare nelle strategie funzionali; inoltre, vengono proposti contributi dalle diverse funzioni di *business* per la messa a fattor comune delle conoscenze e per l'agevolazione delle sinergie realizzative rispetto agli obiettivi aziendali, anche al fine di realizzare un'integrazione nei piani di *people strategy*;
- e. analisi della rete organizzativa attraverso la comprensione dei flussi di informazioni, delle reti di collaborazione e degli scambi informali tra i vari soggetti, per offrire un supporto al *reengineering* dei processi organizzativi tramite l'analisi delle dinamiche relazionali principali. L'analisi della rete organizzativa avviene anche attraverso la metodologia di

Organisational Network Analysis, che permette di rappresentare graficamente le reti di interazione tra le persone appartenenti alla realtà aziendale. Questa metodologia sviluppa modelli statistici e grafici (mappe) consentendo di studiare l'emersione delle reti informali presenti nell'organizzazione, abilitando contestualmente il ridisegno/riassetto della modellizzazione degli assetti organizzativi formalizzati.

Inoltre, sempre nell'ambito delle pratiche di *People Analytics* la funzione Sviluppo utilizza una serie di ulteriori dati (anagrafici, organizzativi, di *performance* e potenziale ecc.) per la definizione, il monitoraggio e l'inizio di percorsi di sviluppo e di valorizzazione delle persone in base agli obiettivi di *business*. L'integrazione e l'analisi di tali dati permette di avere un quadro chiaro sui dipendenti con capacità e *performance* distintive, da tenere in considerazione per il possibile accesso a programmi di valutazione per il potenziale o per la possibile attivazione di percorsi verso ruoli specifici. In particolare, POP (Processo di intercettazione di giovani potenziali) e MLAB (Processo di intercettazione di solidi professionisti e manager) sono i principali processi di *scouting* dell'Azienda che vengono gestiti con criteri di accesso predefiniti (es. prestazione, *seniority* aziendale) e permettono di identificare i soggetti *eligible*. In entrambe le iniziative, è possibile raccogliere un quantitativo di informazioni specifiche relative al potenziale emerso, con indicazioni sia qualitative che quantitative riferite al presidio delle capacità del Modello di *Leadership*. È stata, altresì, predisposta nell'ambito delle azioni di HR Digital, un'area della intranet denominata "Servizi per la Persona" nella quale trovare tutti i Servizi offerti dall'Azienda. L'obiettivo è quello di far evolvere il modello di relazione tra gli *Employee* e le Risorse Umane secondo criteri di usabilità, semplicità, trasparenza e personalizzazione. A tal fine, il Gruppo ha realizzato un progetto pilota per circa 400 dipendenti che riguarda uno strumento di assistenza disponibile nella medesima area, tramite cui le persone coinvolte hanno la possibilità di comunicare con le Risorse Umane in modo semplice, trasparente e veloce. Tale ulteriore innovazione, di cui si sta valutando l'estensione, abiliterà la raccolta sistematica e costante di dati utili non solo al tipo di richieste e problematiche pervenute, ma anche alla chiarezza dei servizi offerti e all'efficacia della comunicazione con le Risorse Umane.

2,893 milioni
di ore di formazione di *compliance*

Nell'ambito del proprio modello formativo, il Gruppo riserva sempre estrema attenzione alla formazione normativa obbligatoria che fa riferimento a tematiche trasversali e destinate a tutta la popolazione aziendale (Sicurezza sul Lavoro, D.Lgs. 231/01, GDPR, Sistema Integrato per la Qualità e Prevenzione della Corruzione, ecc.) e quella specifica indirizzata a specifiche figure professionali (es. formazione ESMA/IVASS e Sicurezza Aerea).

La formazione in materia di compliance

D.Lgs. 231/2001

È proseguita nel 2022 l'erogazione del corso *online* "Il Decreto 231 nell'etica di impresa", che descrive, attraverso le vicende dei suoi protagonisti, i contenuti generali del D.Lgs. 231/2001 e gli strumenti che Poste Italiane ha adottato per essere conforme ai principi e alle disposizioni previste dal Decreto stesso. Il corso rientra nell'ambito della formazione obbligatoria ed è pertanto destinato a tutto il personale del Gruppo Poste Italiane. L'iniziativa formativa illustra tematiche generali del Decreto 231 di interesse anche per le Società controllate; nonostante questo, resta comunque ferma la responsabilità di ciascuna Controllata di valutare eventuali ulteriori esigenze formative su tale materia, in considerazione delle specifiche attività svolte dal proprio personale dipendente e delle peculiarità operative e organizzative della Società stessa. Inoltre, si segnala nell'ambito delle iniziative di formazione promosse nei confronti delle figure manageriali del Gruppo Poste Italiane la realizzazione dei seguenti eventi formativi sui temi D.Lgs. 231/01 "Le tipologie dei reati di corruzione" e "La tutela del mercato e i reati societari".

GDPR

Dal 2019 il Gruppo eroga il corso *online* "Il GDPR – General Data Protection Regulation" che mira ad offrire una panoramica sulle novità introdotte e sugli adempimenti stabiliti dal *General Data Protection Regulation* EU 2016/679, focalizzandosi sul principio di responsabilizzazione e le misure di sicurezza che il titolare e il responsabile del trattamento devono adottare al fine di garantire la protezione dei dati personali. Il corso si conclude illustrando le autorità di controllo, i mezzi di ricorso e le sanzioni previste in caso di violazione del Regolamento. L'iniziativa formativa è destinata a tutto il personale del Gruppo Poste Italiane, in quanto parte del programma di formazione obbligatoria. Inoltre, per le risorse che hanno il ruolo di Delegato al trattamento dei dati, di Compilatore a supporto del delegato e dei propri collaboratori coinvolti nell'attività di tenuta del registro dei trattamenti, l'Azienda ha organizzato *workshop* formativi sul tema "Trattamento Dati" erogati in modalità *webinar* che offrono una panoramica sugli aspetti organizzativi e normativi del GDPR, focalizzandosi in particolare sulla gestione del trattamento dei dati, e hanno l'obiettivo di rafforzare l'*accountability* e le conoscenze specifiche in materia di trattamento dei dati personali.

Sicurezza informatica

In continuità con gli anni precedenti, il Gruppo ha continuato l'erogazione del corso *online* "Sicurezza informatica" che illustra il tema della sicurezza informatica, evidenziando la sua importanza relativamente ai numerosi aspetti della vita professionale su cui può avere impatto. L'iniziativa formativa è destinata a tutto il personale del Gruppo Poste Italiane.

Antitrust

A partire da maggio 2021 Poste Italiane eroga il *webinar* formativo "Nuovi Programmi di Compliance del Gruppo – Compliance Integrata e Compliance Antitrust" rivolto alle figure manageriali del Gruppo. Inoltre, da gennaio 2022, l'Azienda ha avviato l'erogazione del corso *online* "Compliance Integrata di Gruppo" che promuove la conoscenza dei principi guida del "Programma di Compliance Integrata" adottato da Poste Italiane.

Il corso presenta i principali strumenti normativi aziendali tramite l'analisi delle linee guida di riferimento e contribuisce alla creazione e diffusione di una cultura aziendale consapevole e attenta al tema della *compliance* quale obiettivo strategico e valore fondamentale dell'Azienda. L'iniziativa formativa è destinata alle risorse che operano nelle funzioni di *staff* centrali e territoriali del Gruppo. La formazione è proseguita con un ulteriore corso *online* denominato "Compliance per la tutela della concorrenza e del consumatore" erogato, per lo stesso *target*, dal mese di febbraio.

Anticorruzione

In continuità con il biennio precedente, è proseguita l'attività formativa destinata a tutto il personale del Gruppo Poste Italiane in materia di anticorruzione, che descrive il sistema di Gestione integrato Qualità e Anticorruzione di cui Poste Italiane si è dotata, soffermandosi su quanto prevede la normativa di riferimento in materia e focalizzando l'attenzione, attraverso la descrizione e l'analisi di casi concreti, sulle buone prassi da seguire per garantire la qualità e prevenire la corruzione.

Antiriciclaggio e antiterrorismo

Nell'anno 2022, in coerenza con le normative del settore finanziario e assicurativo, sono stati erogati i consueti programmi formativi di inserimento e aggiornamento ESMA/IVASS, con particolare *focus* sui temi di Antiriciclaggio ed Etica. Per la funzione Antiriciclaggio di Gruppo è stato erogato un percorso professionalizzante con l'obiettivo di approfondire ulteriormente le conoscenze dei *pillar* della regolamentazione in ambito AML.

Sostenibilità e policy aziendali

In tale ambito nel 2022 il Gruppo ha proseguito con l'erogazione di due corsi in continuità con il biennio precedente:

"Impresa e Tutela dei Diritti Umani", programma formativo *online* aperto a tutti i dipendenti e con lo scopo di promuovere la conoscenza e diffusione dei principi guida adottati dal Consiglio per i Diritti Umani delle Nazioni Unite. I contenuti del corso sono realizzati e certificati da SIOI (Società Italiana per l'Organizzazione Internazionale), fruibili tramite modalità di *digital learning*.

"Gestione Documentale", corso destinato a tutto il personale di Sede Centrale di Poste Italiane, fino ai terzi livelli organizzativi, che descrive la procedura "Gestione documenti", imprescindibile per far sì che il Sistema Normativo Aziendale di Poste Italiane raggiunga gli obiettivi che si propone. Il Sistema Normativo disciplina sia i principi di riferimento, l'architettura e il ciclo di vita dei documenti normativi, sia, i ruoli e le responsabilità dei diversi attori coinvolti nel processo di gestione dei documenti. È dunque fondamentale che questi attori, per la redazione o l'aggiornamento dei documenti aziendali, conoscano e applichino le regole definite dalla Procedura "Gestione documenti".

Sicurezza nei trasporti e merci pericolose

Il Gruppo ha organizzato percorsi Formativi di "Sicurezza Aerea" rivolti alle risorse coinvolte nel garantire – per la spedizione aerea – l'effettuazione di controlli di sicurezza sulle merci o sulla posta secondo quanto previsto dalla normativa ed in raccordo con l'ENAC. In particolare, sono composti da una "Formazione Iniziale" e da una "Formazione di Aggiornamento Periodico" distinte in base alle attività/ruolo svolto.

In aggiunta, al fine di garantire la sicurezza dei dipendenti adibiti alla guida dei mezzi pesanti, il Gruppo ha organizzato per quest'ultimi l'attività formativa Formazione "CQC – Carte Qualificazione Conducente". Anche in questo caso il corso si compone di una "Formazione Iniziale" (rilascio CQC) e di una successiva di "Aggiornamento Periodico".

Infine, nell'ottica di assicurare la *compliance* normativa dei servizi erogati da Poste Italiane relativamente al trasporto di merci pericolose, l'Azienda ha erogato corsi relativi alle "Merci pericolose". La formazione organizzata è distinta a seconda della modalità di trasporto. Per il trasporto via aerea è stato erogato il corso "*Dangerous Goods Regulation*", un'attività di formazione specifica per supportare le risorse nella corretta gestione delle merci pericolose. Relativamente al trasporto su strada, invece, è stato organizzato il corso "ADR: Accordo europeo relativo al trasporto internazionale su strada delle merci pericolose".

Il Gruppo ha promosso attività formative specifiche per la classe manageriale, seguendo nel 2022 tre direttrici di intervento:

- iniziative trasversali: corsi, percorsi e *format* per il rafforzamento delle competenze comuni a più famiglie professionali;
- iniziative per segmenti di *Target*: corsi e percorsi volti a sviluppare e a rafforzare le competenze manageriali di risorse appartenenti a uno stesso *cluster*;
- iniziative per segmenti di *business*: corsi e percorsi progettati verticalmente sulle specifiche funzioni aziendali per lo sviluppo di competenze manageriali legate alle *Business Unit*.

Inoltre, sono stati realizzati cicli di *webinar* per potenziare le capacità manageriali nel contesto delle linee guida del Piano Industriale di Poste Italiane e di confronto con le pratiche migliori di realtà eccellenti a livello nazionale e internazionale. Sono previsti sia percorsi istituzionali che accompagnano i dirigenti neominati nel nuovo ruolo per lo sviluppo delle competenze in un'ottica inter-funzionale, favorendo uno scambio di valore, personale e professionale, sia iniziative formative a supporto del Piano *Diversity & Inclusion* volte a sviluppare le competenze connesse con il Modello di *Leadership* aziendale. Inoltre, il Gruppo ha realizzato interventi formativi destinati in particolare ai Dirigenti, con l'utilizzo di *format* innovativi e immersivi, per il rafforzamento delle competenze manageriali in grado di generare un'accelerazione nella capacità di governare la complessità.

Lo sviluppo diversificato delle competenze nel Gruppo Poste Italiane

Corrispondenza Pacchi e Distribuzione

Le iniziative di formazione si concentrano, oltre che sui programmi di aggiornamento delle competenze e verifica delle stesse sulla base delle disposizioni normative IVASS e ESMA, nello sviluppo di competenze digitali, di innovazione e di gestione del cambiamento e della complessità. Il Gruppo ha investito, inoltre, in importanti progetti formativi, coinvolgendo le strutture commerciali di Mercato Privati e Mercato Imprese e Pubblica Amministrazione. Nell'anno 2022, in coerenza con le normative del settore finanziario e assicurativo che coinvolgono il *target* Commerciale, di Assistenza Clienti e *trainer* interni della funzione BP-Supporto Prodotti Canali, sono stati erogati i consueti programmi formativi di inserimento e aggiornamento ESMA/IVASS 60 e 30 ore; è stata svolta la mappatura delle esigenze di sviluppo e formazione (*assessment* annuale) sia per l'ambito finanziario sia per l'ambito assicurativo con particolare *focus* sui temi di Antiriciclaggio ed Etica. A dicembre si sono conclusi i test ESMA di 30 ore valevoli per il mantenimento della certificazione del servizio di consulenza in materia di investimenti ISO 22222 della rete commerciale di MP. È terminata nell'anno l'erogazione del percorso formativo di allineamento delle competenze specialistiche della funzione Gestione Reclami Finanziari in ambito SAC, che prevederà dal 2023 un percorso di aggiornamento annuale. Nel settore delle Customer Operations, in particolare in ambito Assistenza Clienti, sono state realizzate iniziative formative focalizzate sull'importanza della relazione con il cliente e sulla capacità di interpretare i suoi bisogni, nonché sull'evoluzione del modello di assistenza a valore omnicanale in ottica di proattività e di indirizzamento verso la rete commerciale di MP. In ambito Postale e Logistico, sono state realizzate, in continuità con lo scorso anno, iniziative formative volte a favorire l'orientamento alla trasformazione attraverso la diffusione della metodologia *Lean* come modello culturale e di approccio al lavoro, nonché progetti specifici che riguardano i portalettere e le altre figure professionali, rafforzando in questo modo anche l'efficacia gestionale ed operativa. In particolare, sono stati realizzati percorsi formativi rivolti ai responsabili Qualità e agli Specialisti Sicurezza, con l'obiettivo di potenziare l'integrazione, la proattività e le relazioni interfunzionali. Infine, con specifico riferimento agli operatori di sportello, si è conclusa l'attività formativa sulla proattività relazionale volta a comprendere i bisogni dei clienti e cogliere le opportunità di *business* in sinergia con la rete commerciale. Ad ulteriore sostegno delle competenze tecnico specialistiche e in ottica di miglioramento continuo, sono state realizzate iniziative formative sulla metodologia *Methods-Time Measurement* (MTM) e sulla progettazione dei flussi interni di micrologistica. In ambito *Information & Communication Technology* (ICT) sono state realizzate molteplici attività formative, per lo sviluppo, il rafforzamento e l'aggiornamento delle competenze specialistiche IT. Dato il contesto altamente specialistico e vasto dell'*Information Technology*, l'acquisizione di un Catalogo ICT di oltre 4.000 corsi ha consentito di coprire le macroaree tematiche di interesse, supportando la formazione di strutture specificamente qualificate. Per le Società del Gruppo, si evidenziano le iniziative formative messe in campo da SDA per il perseguimento di innovazione ed ottimizzazione per affrontare le sfide future relative ai nuovi *business* e le attività formative realizzate da Poste Air Cargo per il mantenimento e lo sviluppo delle conoscenze specifiche del personale navigante e manutentore.

Servizi finanziari

Il Gruppo ha garantito per la funzione BancoPosta diverse attività formative finalizzate all'apprendimento e consolidamento di competenze specialistiche e delle *digital skills*. Nel corso del 2022 per supportare le figure specialistiche dedicate alle funzioni di BancoPosta e BancoPosta Fondi SGR sono state realizzate diverse iniziative volte a supportare le competenze specifiche in ambito di scenario ed evoluzione di mercato; interventi formativi *ad hoc*, in coerenza con le disposizioni normative, sono stati inoltre realizzati sui temi di *Compliance* e Antiriciclaggio a fronte della mappatura delle competenze effettuata e finalizzata a indirizzare le azioni formative a supporto. Infine, in BancoPosta Fondi SGR nel 2022 sono state realizzate attività formative con l'obiettivo di rafforzare le competenze su vari ambiti quali:

- normativo obbligatorio: percorso "*Knowledge and Competence*", *workshop* "Operazioni personali soggetti rilevanti" (*Market Abuse*), formazione sul tema "*Business Continuity Management* di Gruppo" e formazione normativa antiriciclaggio;

- manageriale: erogazione di *webinar* realizzati con SDA Bocconi.

Servizi assicurativi

L'obiettivo della formazione per il Gruppo Poste Vita (Poste Vita, Poste Assicura) è stato quello di aggiornare le competenze delle diverse figure professionali. In particolare, l'aggiornamento delle competenze ha riguardato tematiche di adeguamento normativo e di *compliance* specifiche del settore assicurativo (normativa IVASS, D.Lgs.231/01, Antiriciclaggio e Antiterrorismo, Qualità e Anticorruzione, GDPR Privacy, Sicurezza Informatica, *Fraud Management*, Sicurezza sul Lavoro, Sostenibilità e *Policy* aziendali, ISO 9001 e 37001, *Data Quality*, Piano di Continuità Operativa, Sistema normativo aziendale, *Privacy-Registro* trattamenti). Inoltre, le iniziative formative sono state indirizzate sui temi di sviluppo delle conoscenze specialistiche (Formazione attuariale, aggiornamenti su prodotti assicurativi Vita/Danni, *Innovation*, *Finance*, ESG, *Fintech*, *Training standard SQL Server*, anti-frode assicurativo). Infine, in linea con l'anno precedente, è stato riservato ampio spazio allo sviluppo di *soft skills*, sviluppo nuovi talenti e competenze manageriali.

Pagamenti e Mobile

Continuano i percorsi formativi per PostePay indirizzati sull'approfondimento di temi trasversali, con *focus* su quelli digitali, finanziari e di efficacia professionale. Il Gruppo ha promosso il rafforzamento delle competenze in ambito bancario, di *service design* e ICT. Per sostenere lo sviluppo manageriale e l'acquisizione di *skills* su tematiche core per l'Azienda, sono stati erogati 24 corsi "Executive Lab" e *Master* annuali con contenuti strategici ed innovativi, organizzati dalle *Business School* della Luiss, di Fondazione CUOA e della Scuola Palo Alto. Infine, per la formazione specialistica di particolare rilevanza, sono stati erogati: il "*Master EU Telecoms Regulation*" organizzato dalla Scuola Cullen International SA, che ha l'obiettivo di fornire una panoramica completa delle questioni normative e gli sviluppi nelle telecomunicazioni del settore; il "*Master Program in Advanced Data Science and Quantitative Finance*" organizzato dalla Scuola ARPM, che affronta i temi relativi alla gestione quantitativa del rischio e costruzione del portafoglio. In ultimo, in ambito Energia, si vanta la partecipazione al SUMMIT di Milano organizzato da ARCHITECTA.

Il miglioramento continuo delle performance

Il Gruppo si impegna ad effettuare un monitoraggio periodico dell'efficacia, dell'efficienza e della qualità dei programmi di formazione erogati, in quanto costituiscono indicatori chiave della *performance* degli stessi. L'efficacia è misurata tramite test di apprendimento alla fine delle attività formative, mentre l'efficienza è individuata come capacità di raggiungimento dei suddetti obiettivi attraverso un uso coerente delle risorse economiche e organizzative a disposizione. La qualità, infine, è misurata attraverso la somministrazione di questionari in cui si indaga il grado di soddisfazione dei dipendenti relativamente alle varie dimensioni dell'offerta formativa.

Il sistema di sviluppo

La Funzione *Sviluppo*, *Change Management* e *Digital HR* garantisce la crescita del *business* tramite la valorizzazione delle persone, in un'ottica di *employee experience*, cogliendo le potenzialità e il talento, sostenendo la motivazione e valorizzando l'esperienza. Nello specifico, la funzione accompagna l'evoluzione della cultura dell'Azienda promuovendo il cambiamento di *mindset*, comportamenti e *modus operandi* dei dipendenti in una logica di *leadership* diffusa, che ha come *driver* principali la responsabilità, l'integrazione e la collaborazione. Inoltre, attraverso un sistema integrato di politiche, programmi e strumenti di sviluppo, processi di *People Review* ed *engagement*, il Gruppo privilegia una cultura organizzativa focalizzata sulla persona nella totalità della sua espressione, personale e professionale.

Ogni iniziativa viene dedicata a *target* eterogenei di popolazione appartenenti a tutte le funzioni aziendali e tutte le Società del Gruppo. Particolare attenzione viene prestata alla garanzia delle pari opportunità nella partecipazione in termini di età, genere, appartenenza funzionale e geografica, sempre però in considerazione dei criteri di ingresso peculiari di ciascuna iniziativa.

Il Sistema di Sviluppo è costituito sui seguenti 3 *pillar*, che integrano un insieme articolato di processi, strumenti e metodologie:

- 1. scouting:** che permette la differenziazione delle opportunità di crescita in base al *target* e al livello di maturità professionale. I programmi di *scouting* contribuiscono a valorizzare i talenti tramite attività di rilevazione e sviluppo del potenziale delle risorse;
- 2. pianificazione manageriale:** per individuare priorità di sviluppo in ottica di successione e di contenimento del "rischio manageriale";
- 3. sviluppo:** per affiancare le persone nella loro crescita e ampliare il potenziamento di competenze in relazione alle necessità aziendali e di *business*.

Coerentemente con l'obiettivo di potenziamento delle prestazioni di *business* attraendo e valorizzando talenti, il Sistema di Sviluppo del Gruppo può essere visto in un'ottica di *employee experience*, privilegiando una cultura che pone il *focus* sulla persona e le sue esigenze.

L'insieme delle iniziative di *Sviluppo*, *Talent* e *Change Management* sono periodicamente comunicate alla popolazione aziendale attraverso i principali canali di comunicazione.

ne interna (TG Poste, *newsletter*, *Intranet* aziendale, ecc.) ed esterna (*social media*, stampa specializzata).

Gli obiettivi perseguiti nel 2022, in continuità con gli anni precedenti, sono stati volti alla massimizzazione dell'efficacia dei programmi di *scouting* e sviluppo, ampliandone capillarità e impatto, anche numerico, con un *focus* prioritario sul business e sulle esigenze rilevate dai clienti interni. Inoltre, l'istituzione della funzione *Sviluppo, Change Management e Digital HR* ha consentito la massimizzazione dell'integrazione tra i processi di *scouting*, di sviluppo e di *People Review*, oltre che ad avviare un processo di digitalizzazione HR all'interno di una più ampia strategia di evoluzione dei servizi offerti da Risorse Umane e Organizzazione.

I principali *driver* che indirizzano le attività sono i seguenti:

- ampliare la conoscenza delle persone, delle loro competenze, potenzialità e motivazione, per supportare le funzioni di *business* nella definizione di *pipeline* di talenti a vari livelli di *seniority*;
- consolidare i processi di *People Review* volti all'individuazione condivisa dei talenti ed all'implementazione di percorsi di sviluppo a loro dedicati;
- impattare maggiormente sulla popolazione aziendale attraverso un utilizzo più capillare e diffuso degli strumenti di sviluppo e un consolidamento degli stessi in ottica di miglioramento continuo;
- promuovere e rendere sistematico il ricorso a programmi di sviluppo *relation based*, quali *mentoring* e *coaching*, come abilitatori del potenziamento delle competenze necessarie al *change management*;
- garantire pari opportunità nella partecipazione ai programmi di sviluppo, anche considerando l'ampliamento delle prospettive di carriera delle donne;
- migliorare il coinvolgimento e la motivazione delle persone, attraverso processi *bottom up* di partecipazione a iniziative con *focus* strategico;
- sperimentare strumenti innovativi per la promozione di nuovi modelli di lavoro, interazione e collaborazione;
- migliorare la conoscenza delle iniziative attivate e del loro impatto nell'organizzazione, attraverso l'attivazione di molteplici canali ed occasioni di comunicazione.

Piattaforma "INSIEME 24 SI"

Poste Italiane, al fine di consolidare la propria strategia di sviluppo sostenibile, ha lanciato a novembre 2021 "INSIEME 24 SI", la piattaforma per la raccolta di idee e contributi rivolta a tutta la popolazione del Gruppo. Essa coinvolge trasversalmente i diversi ambiti dell'organizzazione dell'Azienda, coerentemente con l'obiettivo di crescita responsabile e con il processo di digitalizzazione e di coesione sociale, favorendo la proattività, innovando e creando valore condiviso. Nel contesto del Piano Strategico di Poste Italiane, "INSIEME 24 SI" rappresenta uno spazio in cui tener conto dell'apporto di tutti gli *stakeholder*, in qualità di contributori, ai fini della realizzazione del Piano, inserendosi all'interno degli otto pilastri della strategia di sostenibilità. L'iniziativa è ciclica: la prima edizione, conclusasi a giugno 2022, ha visto tra le sue fasi principali la partecipazione di circa 100 *team*, composti complessivamente da 350 persone, ad una maratona di innovazione, il Bootcamp, durante la quale sono state meglio approfondite le idee proposte e presentati i relativi *pitch* alla giuria di *manager* interni. Dal Bootcamp sono state selezionate le 10 proposte che hanno seguito un percorso di incubazione tipico delle *startup*: i *team*, composti complessivamente da 56 persone, lavorando con la metodologia *agile/sprint* e grazie a *mentor* interni e *tutor* esterni, hanno prodotto un prototipo che è stato presentato ai vertici aziendali durante l'evento finale. Queste 10 soluzioni prototipali, grazie alla *sponsorship* delle funzioni di *business*, sono attualmente in fase di consolidamento ed implementazione, affinché possano diventare progetti concreti in grado di generare un impatto positivo dentro e fuori l'Azienda.

Le migliori tre idee hanno proseguito ulteriormente il percorso di sviluppo delle competenze legate all'innovazione e alla sostenibilità attraverso la partecipazione all'iniziativa formativa '*Entrepreneurial mindset & Launch your start-up*', sviluppata in collaborazione con LUISS Business School. L'esperienza, finalizzata a rafforzare l'approccio imprenditoriale, ha consentito ai partecipanti di interfacciarsi con l'eco-sistema delle *startup* in modalità immersiva, riflettendo sulle possibili barriere interne e favorendo il processo di cambiamento dei processi esistenti.

A settembre 2022 è stata lanciata la II edizione. Dall'inizio del programma ad oggi sono state proposte e valutate oltre 1.300 idee presentate dai dipendenti e a gennaio 2023 sono 2.000 le persone che risultano iscritte in piattaforma come contributori, mettendo a disposizione dell'Azienda e delle idee raccolte le proprie competenze.

Entrambe le edizioni hanno visto un'ampia partecipazione e ingaggio, testimoniata anche dagli accessi alla *intranet* e alle *news* di campagna (27mila nella I edizione, oltre 21 mila nella II edizione, fino a gennaio 2023) e dai *like* raccolti durante la votazione *social* delle idee delle due *wave* (circa 18mila sia nella I edizione, sia nella II).

Relativamente alla valorizzazione delle persone e alla promozione dello sviluppo professionale, il Gruppo, in linea con l'operato degli anni precedenti, ha erogato digitalmente programmi di *scouting* per intercettare potenziale e capacità che possano alimentare la *pipeline* di talenti nei vari livelli organizzativi. I programmi si innestano su una struttura digitale che attraversa e supporta tutte le fasi di processo. Le piattaforme *ad hoc* permettono di avere un accesso ottimale da tutti i dispositivi, sia fissi che mobili, efficientando sia i tempi di erogazione che l'impatto ambientale degli stessi in termini di emissioni di CO₂ e di azzeramento dell'uso di carta.

Tali iniziative restituiscono informazioni sia rispetto al livello di potenziale emerso, sia indicazioni quantitative e qualitative integrate relativamente al presidio delle capacità del Modello di *Leadership*, all'orientamento dei partecipanti e alla loro motivazione. Si tratta di:

- **POP:** il processo di intercettazione di giovani con elevato potenziale e con limitata *seniority* aziendale, che vengono inseriti, in base a criteri predefiniti, in un processo di *assessment* ed orientamento professionale, funzionale alla crescita verso ruoli manageriali. Il processo viene diretto da Assessor interni certificati alla conduzione digitale delle sessioni di *assessment* e di successivo sviluppo;
- **MLAB:** il processo di intercettazione di affermati professionisti e *manager*, con una consolidata esperienza nel ruolo di quadro da sviluppare su posizioni di maggiore complessità. Anche questo percorso è stato interamente rivisitato in chiave *digital*.

481

persone coinvolte nei programmi POP e MLAB nel 2022

A valle della valutazione del potenziale, entrambi i programmi prevedono specifici interventi di rafforzamento del profilo di competenze rilevato, che trovano nel *coaching* uno strumento di supporto privilegiato. Inoltre, i processi di *scouting* manageriali, rivolti al *target* dei quadri in crescita verso ruoli di maggiore responsabilità, si sono ulteriormente ampliati, prevedendo soluzioni individuali assieme a quelle di Gruppo. Entrambi i programmi hanno ricevuto una valutazione positiva dai partecipanti rispetto al livello di utilità, al grado di professionalità degli Assessor e di gradimento degli strumenti informatici messi a disposizione per la fruizione.

Al personale dirigenziale, oltre ai processi di *scouting*, è indirizzato il programma di *Leadership Assessment* che si propone di intercettare i *senior manager*, in un'ottica di supporto alle politiche di *Executive Development*, per la progettazione dei percorsi di carriera e dei piani di successione. In coerenza con gli obiettivi di *Diversity & Inclusion* che Poste Italiane ha definito per supportare la strategia 24SI, il programma 2022 ha previsto il coinvolgimento prioritario di donne manager, prevalentemente identificate come potenziali "successori" di posizioni a maggiore complessità. Con tale iniziativa, Poste

Italiane propone un ulteriore supporto alla crescita delle competenze per lo sviluppo della *leadership*.

Con l'obiettivo di aumentare il numero di risorse coinvolte nei processi di valutazione del potenziale, interessando anche popolazioni non riconducibili agli *eligible* dei programmi di *scouting* già in essere – POP, MLAB, *Leadership Assessment* – è proseguito l'importante investimento sull'utilizzo di strumenti di *smart assessment* del potenziale, fruibili *online* che, grazie ai tempi rapidi di somministrazione, hanno consentito il coinvolgimento del +397% di persone rispetto al 2021. In particolare, tale nuovo approccio è stato utilizzato nei processi di *People Review*, per la valorizzazione dei portalettere di PCL e, in MP, per l'identificazione dei Referenti di Gestione Operativa di Filiale.

+397% vs 2021

risorse coinvolte negli *scouting* massivi

I risultati del potenziale, assieme al *trend* prestazionale e alla *seniority* hanno orientato l'avvio strutturato della *People Review*, un processo di valorizzazione dei talenti di Gruppo che vede coinvolte le linee di *business* insieme a RUO in un confronto trasversale, volto a far emergere un concetto condiviso di talento all'interno dell'organizzazione.

Nel 2022 la *People Review* ha coinvolto PCL, DTO e Marketing. I *manager* di linea e i responsabili HR si sono confrontati su un *talent pool* di circa 700 risorse, per definire soluzioni di sviluppo accelerato ed ampliare la *pipeline* di candidati per la copertura di posizioni di *business*, anche in ottica trasversale al Gruppo. Nel 2022, per i talenti identificati è stato avviato il *Blooming Program*, un programma di iniziative di sviluppo dedicate alla "fioritura" personale.

+159%

presenza di *donne* nelle attività di *coachee* rispetto al 2021

Per quanto riguarda l'introduzione di strumenti innovativi, in ambito sviluppo competenze, è stata confermata l'iniziativa *SkillGym*, a valle della positiva sperimentazione pilota realizzata nel 2021. Nel 2022 oltre 1.000 dipendenti sono stati coinvolti nella pratica di "conversazioni critiche" per rafforzare le *soft skills* relative alla gestione del processo di *feedback*, attraverso l'utilizzo di una piattaforma digitale che fornisce ambienti simulati guidati da intelligenza artificiale.

Nel 2022, inoltre, sono state potenziate le attività di *coaching*, realizzate da *coach* sia Interni che esterni, che hanno coinvolto *manager* e giovani talenti in percorsi di rafforzamento delle *skills* trasversali. Il numero dei *coachee* è aumentato del +81% rispetto all'anno precedente, con una presenza significativa di donne (+159% rispetto al 2021). È stato avviato poi uno specifico programma – *Mums at Work* – che coinvolge dipen-

denti al rientro dalla maternità, accompagnandole nel realizzare con efficacia il loro reinserimento in Azienda attraverso percorsi di coaching dedicati. Si tratta di un'iniziativa coerente con la *Policy* di Sostegno della Genitorialità Attiva, varata nel 2022, che definisce la cornice di riferimento aziendale a supporto sia della condizione femminile prima e dopo la maternità, sia dell'evoluzione del concetto di genitorialità condivisa. Asset responsabilizzante nell'ambito della *Policy* è il ruolo dei capi e dei *manager* per la creazione di un ambiente sempre più improntato sulla fiducia e sull'ingaggio per l'espressione delle capacità personali e professionali di ogni dipendente. Per accompagnare il cambio di paradigma culturale e sociale, il dialogo continuo, attraverso piani anticipatori e momenti temporalmente strutturati, rappresenta una leva abilitante per diffondere una sempre maggiore sensibilità sul valore delle differenze e dell'inclusione. La *Policy* ha introdotto pertanto processi gestionali e di *caring* che offrono una risposta concreta ai lavoratori e alle lavoratrici secondo modalità, approcci e prospettive innovative.

Sempre nell'ottica di valorizzazione delle persone coerentemente al talento espresso, all'*expertise* e ai risultati raggiunti, si colloca il progetto "Percorsi di sviluppo sul territorio" che, in continuità con il 2021, ha definito percorsi specifici per ruoli chiave del territorio, attraverso una co-progettazione tra funzioni centrali e territoriali HR e Linea, in modalità agile e in grado di rafforzare, al contempo, le competenze di sviluppo delle funzioni interessate.

+47%

mentor donne rispetto al 2021

Le pressioni del mercato e la spinta continua al cambiamento richiedono alle persone crescente ingaggio e motivazione, mettendo in primo piano i concetti di responsabilità, autonomia e flessibilità. In questo contesto il programma *mentoring* di Poste Italiane si è evoluto affermandosi come processo stabile e diffuso in tutta l'Azienda come spazio di confronto tra le *best practice* manageriali e i diversi *role model*. Nel 2022 oltre 440 sono stati i *mentor* e i *mentee* in azione all'interno dell'Azienda con una rilevante presenza di donne (+72% *mentee* donne e +47% *mentor* donne rispetto

+72%

mentee donne rispetto al 2021

al 2021). Il *mentoring* garantisce l'ampliamento di una visione globale in quanto permette un confronto tra diversità di genere, di età e di esperienza. La *cross fertilization*, ovvero la trasversalità tra funzioni e integrazione tra centro e territorio, costituisce il *driver* principale del programma in quanto promuove relazioni di *mentorship* tra *manager* e professionisti di aree e funzioni diverse.

In relazione alla campagna di valutazione Quadri Impiegati, nel 2022, si sono consolidati ulteriormente gli strumenti di valutazione e di *feedback*, con riguardo ad un maggiore coinvolgimento dei capi sia nel fornire informazioni sulle potenzialità di sviluppo dei collaboratori, sia nell'essere responsabilizzati, attraverso un obiettivo specifico, sia ad esserne i principali *sponsor* nel loro sviluppo. Nel processo valutativo sono stati introdotti i ruoli del *team leader* e dei *team member* come ulteriori fornitori di *feedback* sulla prestazione di dipendenti coinvolti in progetti interfunzionali. Tale approccio consente al responsabile diretto di ampliare la visione sui propri collaboratori e tenerne conto nella valutazione complessiva della *performance*.

L'utilizzo della piattaforma *Cloud Oracle HCM* dal 2021 permette di gestire in maniera integrata processi di valutazione e sviluppo delle persone. La piattaforma ha permesso di ripensare il processo valutativo come processo cardine per lo sviluppo delle persone. Proprio per la rilevanza e la centralità dello sviluppo delle competenze individuali e della *performance*, il processo valutativo prende il nome di Piano di Sviluppo delle *Performance* (PSP).

Il PSP si fonda sull'*engagement* consapevole e sulla motivazione delle persone, combinato con la cultura del risultato e la collaborazione. Il raggiungimento degli obiettivi di coinvolgimento e partecipazione è subordinato al rendere più chiari e trasparenti i legami tra gli obiettivi organizzativi e quelli individuali, insieme al rafforzamento dei processi di comunicazione, per rendere le persone più consapevoli del proprio potenziale di sviluppo e crescita e del proprio ruolo.

Corporate Mentoring di Poste Italiane

In continuità con le attività positive intraprese nel corso degli ultimi tre anni, nel 2022 è stata attivata la nuova edizione di *Corporate Mentoring*, che ha coinvolto 81 aspiranti *mentor* in un percorso di *group coaching* orientato all'apprendimento. Il programma di *Corporate Mentoring*, coordinato dalla funzione Sviluppo e *Performance Management*, si colloca nell'ambito delle iniziative di sviluppo della persona e ha come obiettivo quello di assicurare una circolarità dell'esperienza e della *leadership* tra *manager* dell'azienda (*Mentor*) e dipendenti (*Mentee*), attraverso uno scambio di valori che è accresciuto dalla logica dell'inclusione e della diversità in tutte le sue sfaccettature (generazionale, di genere, territoriale, interfunzionale). La relazione di *Mentoring* contribuisce a rafforzare i valori e l'identità che il Gruppo Poste Italiane vuole esprimere, oltre che a garantire un proficuo accompagnamento allo sviluppo dei dipendenti più giovani.

Il *feedback* costituisce un elemento pivotale del PSP come strumento di crescita e di confronto costruttivo che assicura un continuo miglioramento che conduce ad una logica *feed-forward* basata sulle possibili azioni e soluzioni di miglioramento future.

La progettazione e la messa in opera dei programmi di sviluppo, gestione dei talenti e gestione del cambiamento sono gestiti dalla funzione centrale Sviluppo, Change Management e Digital HR, che eroga i processi operativi e li monitora trasversalmente a tutte le funzioni e a tutte le società, conferendo in maniera regolare informazioni, dati e riscontri a tutti gli HRBP coinvolti. Rispetto alla gestione, al monitoraggio e al governo dei dati ottenuti, vengono sfruttati sistemi informatici, e per alcuni programmi specifici sono utilizzate piattaforme digitali proprie dei fornitori *partner* HR (es. SAP, WEB PERS, MS Teams, Oracle HCM).

I consuntivi generati e i *feedback* raccolti permettono di valutare il livello di efficacia delle politiche di sviluppo e dei criteri delle varie iniziative. Uno dei *goal* della funzione Sviluppo, Change Management e Digital HR è quello di assicurare una partecipazione equa in termini di *diversity* tramite la sensibilizzazione e il monitoraggio attento.

A valle delle iniziative il Gruppo effettua regolari *survey* di gradimento per la valutazione dell'efficacia delle stesse.

Per fornire supporto ai *team* e accrescere il livello di *engagement*, Poste Italiane ha introdotto nel Piano di Sviluppo delle Performance la possibilità di coinvolgimento nella valutazione delle *performance* i *team* di progetto, sia durante l'assegnazione dei *goal* (*goal management*) che nella fase di valutazione effettiva. A concorrere al processo, secondo le modalità indicate nella metodologia sono i Responsabili di Progetto, i Referenti organizzativi e i membri del *team* interfunzionali.

Per permettere un maggior coinvolgimento delle persone, è stata portata avanti, per un primo *target* di popolazione, l'implementazione di un modello di lavoro che preveda maggiori responsabilità individuali e l'integrazione organizzativa e di partecipazione (*bottom up, team*) che vada oltre il modello di valutazione tradizionale (*top down, capo-collaboratore*). Questo prevede:

- autovalutazione, con cui dare un parere relativo al raggiungimento dei propri obiettivi e alle capacità implementate nell'anno anche ai fini di maggiore confronto durante il colloquio di *feedback*;
- autoassegnazione degli obiettivi, operativi e di sviluppo, con possibilità di effettuare il proprio diretto monitoraggio relativo all'avanzamento degli obiettivi assegnati;
- partecipazione alla valutazione di dipendenti e del capo progetto per i membri dei *team* interfunzionali.

Il resto della popolazione aziendale, dal 2021, ha visto l'introduzione nel PSP di questionari *ad hoc* per le informazioni utili ai progetti e processi di *scouting* e di *People Review*, che permettono ai singoli di esprimere i propri interessi, motivazioni, orientamento professionale e suggerimenti per il miglioramento dell'integrazione e l'inclusione nei *team* di lavoro.

Tenendo in considerazione l'esperienza dei cicli di valutazione della piattaforma, sono stati implementati tavoli di lavoro specifici per la progettazione e l'implementazione di pratiche evolutive e per la semplificazione del processo, degli strumenti e del sistema con l'obiettivo di aumentare la partecipazione del personale.

Un importante ruolo all'interno della formazione è certamente coperto dalle attività di formazione trasversale, le quali consentono di accrescere conoscenze su temi comuni a più famiglie professionali, andando a sviluppare competenze in un'ottica inter-funzionale e favorendo uno scambio di valore, personale e professionale.

Un'importante iniziativa in ambito trasversale, realizzata nel corso del 2022 insieme alla funzione di Tutela Aziendale, è stata dedicata al tema dell'Eco-Driving. Tale attività rientra nell'ambito delle azioni messe in atto da Poste Italiane per contribuire alla riduzione delle emissioni di CO₂ nell'aria e sensibilizzare le risorse coinvolte verso una guida eco-sostenibile.

Anche la *Corporate University* ha all'interno due *Academy* che si focalizzano su competenze core trasversali, ovvero l'*Academy* Manageriale che presidia lo sviluppo delle competenze manageriali per i ruoli apicali, e la *Digital Academy* e *Innovation* che assicura la progettazione e lo sviluppo dei corsi *online*, la reingegnerizzazione dei processi e degli strumenti di apprendimento facendo, inoltre, *scouting* di soluzioni innovative di formazione.

Il digitale è un contesto trasversale ma di vitale importanza per ogni attività in Azienda. Per questa ragione nel corso del 2022 sono state svolte numerose iniziative volte ad accrescere le competenze dei dipendenti in questo ambito, come il programma "Voci digitali".

Inoltre, tra le attività indirizzate allo sviluppo di competenze manageriali legate alle *Business Unit* in Posta, Comunicazione e Logistica (PCL) continua la formazione sulla metodologia *Lean* (*Lean Academy*), mentre in Mercato Privati sono stati sviluppati percorsi per i Responsabili Commerciali e Responsabili di Gestione Operativa volti al rafforzamento del ruolo a seguito della revisione del modello organizzativo territoriale. In BancoPosta e in Mercato Business e Pubblica Amministrazione sono stati erogati dei progetti di "*Team building*" volti a favorire la conoscenza e la collaborazione tra i componenti del *Top Management* delle rispettive funzioni.

Formazione trasversale a supporto dell'Azienda

I benefici derivanti dai programmi di sviluppo dei dipendenti

Insourcing e Reimpiego

Il progetto "Insourcing e Reimpiego" di Poste Italiane prevede il ricollocamento di personale precedentemente impiegato in altri settori produttivi in attività nuove o strategiche, svolgendo una funzione sociale di valorizzazione delle persone. Il programma, ideato per formare e fornire nuove competenze in un'ottica di crescita professionale e di flessibilità, è stato dedicato anche al reimpiego dei "lavoratori in condizione di fragilità" ai sensi delle vigenti disposizioni di legge che, non potendo effettuare attività presso le sedi aziendali in relazione all'emergenza sanitaria, hanno trovato differenti impieghi a tutela della salute e sicurezza sul luogo di lavoro. Il reimpiego di personale interno consente la gestione *in house* di attività precedentemente esternalizzate, con benefici sia in termini di massimizzazione della produttività che di *saving* a conto economico, abilitando la riduzione del ricorso a forniture esterne. Nel corso del 2022 sono state colloquate 1.900 persone, di cui 1.252 reimpiegate all'interno delle funzioni/ambiti di reimpiego *target* grazie un percorso di *reskilling* e formazione volto all'arricchimento e all'acquisizione di nuove conoscenze. Il programma ha avuto un ottimo grado di successo fra i dipendenti.

Programmi di sviluppo nel triennio 2020-2021-2022

I programmi di sviluppo messi in campo nel triennio 2020-2021-2022 hanno determinato benefici sia in termini di contenimento del tasso di assenteismo, sia di visibile impatto sul tasso di *turnover* per uscite volontarie dall'Azienda. L'analisi del *target* coinvolto ad almeno una iniziativa di sviluppo nell'ultimo triennio fa riferimento a programmi e azioni diversificate, come ad esempio:

- **processi di *scouting*** (MLAB; POP; *Smart assessment*, *Talent Review* ecc.) funzionali a far emergere risorse di talento;
- **iniziative di sviluppo delle competenze** (*Coaching*; *Mentoring*; *Counseling*, ecc.) funzionali ad accompagnare le persone nella loro crescita e accelerarne lo sviluppo in relazione alle necessità aziendali e di *business*;
- **attività di ingaggio** (INSIEME 24S) e di messa in gioco di un approccio autoimprenditoriale e innovativo per contribuire alla realizzazione degli obiettivi strategici dell'azienda.

In linea generale, i programmi di sviluppo, oltre a potenziare e consolidare le competenze dei partecipanti, offrono benefici anche in termini di ingaggio, motivazione e senso di appartenenza.

Per migliorare la condizione di vita lavorativa dei dipendenti, Poste Italiane pone una particolare attenzione al confronto attivo con la popolazione aziendale. Alla luce di ciò, il Gruppo ha sviluppato efficacemente un canale di comunicazione interna, la Community di NoidiPoste, che ha l'obiettivo di generare, promuovere e attuare la costante interazione tra tutti i membri

del Gruppo, agevolando la condivisione e la gestione di informazioni, permettendo una più ampia diffusione della cultura aziendale, fornendo sostegno alla *brand reputation* e incoraggiando la partecipazione attiva alle dinamiche aziendali da parte dei dipendenti.

Poste Italiane ottiene la certificazione ISO 29993

A conferma della validità dell'offerta formativa di Poste Italiane, il Gruppo ha conseguito, a novembre 2021 con validità fino al 2024, la certificazione dei processi di formazione del Gruppo Poste Italiane (UNI ISO 29993:2019). L'attestazione è avvenuta successivamente alla profonda trasformazione dei processi di formazione attraverso la revisione del modello organizzativo della *Corporate University per Academy*, l'implementazione di nuovi strumenti e sistemi di supporto, l'erogazione della formazione quasi esclusivamente da remoto. Tale certificazione assume un'importante valenza ai fini della robustezza e solidità del modello formativo implementato.

Ad ottobre 2022 è stato superato l'*audit* di sorveglianza annuale senza nessun rilievo che ha evidenziato elementi valutati positivamente come il costante adeguamento del processo di gestione della formazione e dei relativi processi di supporto con l'implementazione di indicatori di monitoraggio significativi, e la forte spinta all'innovazione dei processi digitali dall'analisi dei fabbisogni formativi alla soddisfazione dell'utente.

Welfare e benessere del personale

DNF

PRINCIPALI CAPITALI COLLEGATI

L'Azienda ritiene che il benessere dei propri dipendenti sia essenziale e per questa ragione si impegna costantemente a migliorare le loro condizioni e quelle dei loro cari. Nel 2022 il Gruppo ha considerato in maniera sempre maggiore le responsabilità legate alla cura e al benessere delle persone tramite azioni indirizzate al consolidamento del sistema *welfare* e alla diffusione della cultura aziendale con iniziative a favore dei dipendenti e delle rispettive famiglie. Inoltre, Poste Italiane rivolge una crescente attenzione ad aspetti come la personalizzazione del *caring*, la conciliazione, il sostegno e la crescita delle giovani generazioni, la tutela delle fragilità e il potenziamento del senso di appartenenza e identificazione aziendale.

I bisogni degli individui, così come il miglioramento delle condizioni dell'intera popolazione aziendale, sono il fulcro della strategia di *welfare* di Poste Italiane ed è attorno a queste tematiche che ogni anno si implementano iniziative volte a favorire il benessere di ogni singola persona

Poste Italiane si impegna nella promozione di attività che puntano al miglioramento del benessere dei suoi dipendenti, permettendo condizioni di vita più agevoli e favorendo contestualmente prestazioni lavorative migliori. Le iniziative vengono implementate nel processo di rafforzamento dell'*engagement* del personale, come condizione imprescindibile per la realizzazione di un clima aziendale positivo che assicuri il benessere sociale e livelli di produttività allineati agli obiettivi di *business*.

L'implementazione del sistema di *welfare* aziendale si connota per l'adozione di una visione integrale della persona, che va al di là della dimensione lavorativa, capace di prendersi carico del vissuto individuale, anche in ambito sociale, familiare, territoriale e da un'attenzione crescente all'ascolto e valorizzazione degli apporti individuali in una logica di maggiore coinvolgimento verso obiettivi comuni e condivisi.

Con l'obiettivo di mantenere le iniziative di *welfare* sempre aggiornate, il Gruppo adotta delle *policy* interne e delle procedure specifiche che puntano a riconoscere costantemente la nascita di nuove esigenze. A tal proposito, l'Azienda utilizza *network* aziendali e tavoli di lavoro dedicati per lo sviluppo di *benchmark*, mentre ricorre a questionari e *survey*, sia interni che esterni, per la rilevazione di gradimento dei dipendenti. Inoltre, nel processo di progettazione e sviluppo del piano di *welfare* viene adottata una visione intergenerazionale, associata ad analisi mirate a genere, età, caratteristiche professionali, situazione familiare e di eventuale vulnerabilità delle persone coinvolte nelle iniziative per sostenerle nel loro intero ciclo di vita.

Il percorso intrapreso dal Gruppo ha permesso di acquisire esperienza e di rafforzare modalità di lavoro collaborative ed interfunzionali connotate anche da modelli partecipati in logica *bottom up*, perché abilitanti ad un percorso virtuoso in termini di identificazione, fiducia e senso di appartenenza, che costituiscono un importante collante nell'adeguatezza delle politiche di *welfare*. Questo consente di massimizzare, da un lato, l'impatto qualitativo e quantitativo, relativamente alle opportunità offerte alle persone, e, dall'altro, permette di favorire una maggiore velocità nell'implementazione per la messa in comune di competenze e capacità diverse.

Grazie all'adozione di politiche di *welfare* sempre più puntuali, è stato possibile individuare alcuni comportamenti che favoriscono il benessere personale e organizzativo:

- *disclosure*: ciò che l'Azienda fa per le proprie persone deve essere portato a conoscenza di tutta l'organizzazione, senza intermediazioni o processi di *cascading* attraverso la gerarchia;
- *proattività*: i *manager*, la funzione Risorse Umane e i dipendenti devono concorrere ad una reciproca attivazione per favorire la disseminazione di valori e piani a sostegno del benessere delle persone;

Poste Italiane, nella visione strategica d'impresa, punta a favorire in maniera crescente e costante l'integrazione delle dimensioni sociali e relazionali per migliorare il posizionamento competitivo sul mercato. Questo ha portato l'Azienda a ricoprire un ruolo primario in un contesto più ampio rispetto al suo perimetro di *business*. La vocazione sociale verso modelli di crescita sostenibili, la prossimità con il territorio, la capacità di instaurare uno stretto legame con le persone ha, dunque, portato il Gruppo a delineare una nuova dorsale di intervento verso logiche di *welfare* comunitario, in sinergia con le comunità locali per servizi di *welfare* aziendale a sostegno delle vulnerabilità dei dipendenti e della cittadinanza.

L'Azienda punta a rendere disponibili le soluzioni e i servizi di *welfare* comunitario sia ai dipendenti e ai loro familiari, sia alla cittadinanza locale, attraverso forme di collaborazione con il Terzo Settore e gli enti locali. Il piano prevede, dunque, un riorientamento dei servizi di *welfare* per renderli fruibili anche alla collettività.

A tal fine, è stata avviata nel 2022 la progettazione e lo studio di fattibilità per la riqualificazione di un immobile aziendale situato a Bologna, allo scopo di realizzare luoghi di aggregazione e socializzazione per persone appartenenti a fasce deboli o vulnerabili, come disabili, anziani, giovani inoccupati, donne vittime di violenza.

**Poste Italiane

il welfare
aziendale e
comunitario**

- **prossimità:** vanno attivati negli ambienti di lavoro dei meccanismi solidaristici che facilitano la vicinanza e le relazioni di scambio tra le persone, anche attraverso modelli di collaborazione orizzontale;
- **personalizzazione:** l'individuazione delle leve, delle misure e delle soluzioni più adatte viene plasmata sul singolo individuo attraverso l'ascolto ed il coinvolgimento;
- **adattamento dinamico:** le soluzioni e le risposte individuate in un determinato momento potrebbero non essere quelle definitive, in quanto le persone cambiano e, spesso, cambia anche l'organizzazione. Per questa motivazione

è necessario attivare meccanismi di *work adjustment* per assicurare la rispondenza delle proposte e delle soluzioni rispetto all'evoluzione delle situazioni lavorative, del contesto relazionale e sociale e del mercato.

L'obiettivo di Poste Italiane è quello di introdurre un sistema di *welfare* aziendale capace di neutralizzare diseguaglianze e contrasti attraverso lo sviluppo di un sistema circolare, modulare, interconnesso ed equo che si prenda responsabilmente carico del benessere delle persone e degli equilibri collettivi.

Poste Italiane ascolta il personale

Survey "Poste Mondo Welfare": survey destinata ai dipendenti non dirigenti della Capogruppo e delle Società del Gruppo aderenti al programma per rilevare il gradimento dei partecipanti al piano di conversione del premio di risultato in *welfare* e per il recepimento dei fabbisogni di tutta la popolazione aziendale per il lancio dell'edizione riferita all'anno 2022. In particolare, l'attività si compone di una serie di indagini destinate agli aderenti al programma per la rilevazione del gradimento dell'esperienza sui diversi servizi e delle esigenze prospettiche, e a tutta la popolazione aziendale per aumentare il livello di ingaggio e di partecipazione sul valore del programma in relazione al lancio dell'edizione annuale nonché al miglior *setting* dell'offerta rispetto ai reali fabbisogni della popolazione aziendale. La scala di valutazione su cui si basa la survey ha previsto valori da 1 a 10.

Indagine sulla mobilità casa-lavoro 2022: indagine annuale che analizza le abitudini di spostamento casa-lavoro dei dipendenti, per individuare, nel medio e lungo termine, soluzioni di mobilità sostenibile per ridurre le emissioni di CO₂, nell'interesse dei dipendenti e della collettività. La rilevazione è stata condotta con metodologia CAWI. L'indagine presentava domande a risposta multipla, *radio button* e campi aperti.

Survey Nuova Intranet: survey finalizzata alla co-progettazione dei contenuti della nuova *intranet* "Noidi-Poste". La rilevazione è stata condotta con metodologia CAWI. L'indagine presentava domande a risposta multipla, *radio button* e campi aperti.

Survey "Posteln - Diversity & Inclusion secondo te": indagine su tutta la popolazione aziendale con l'obiettivo di comprendere come l'impegno di Poste Italiane sui temi di *Diversity & Inclusion* sia percepito dai dipendenti. La survey è stata realizzata in collaborazione con somministrazione *online* e diffusione attraverso *intranet* aziendale, *news* ufficiali, TG e *newsletter*.

Survey "Progetto di ricerca con Polimi": la survey, avviata a giugno 2022, si pone all'interno del progetto di ricerca condotto dal Politecnico di Milano per costruire un modello interpretativo sull'*engagement/disengagement* dei dipendenti rispetto a delle variabili stabilite. Il *target* di riferimento è stato di circa 11.000 persone rappresentative delle principali funzioni aziendali. Il progetto ha previsto la somministrazione della survey in due momenti differenti distanziati di circa un anno l'uno dall'altro.

Si è conclusa nel 2022 l'analisi dei risultati relativi alla prima survey somministrata e la seconda è prevista entro il primo semestre del 2023. L'indagine è stata strutturata con un set di domande riconducibili ai seguenti *cluster*:

- livello di benessere;
- lavorare in Poste Italiane;
- *leadership* in Poste Italiane.

Survey "DDay Poste Plurale, Universale": questionario di *feedback* somministrato in forma anonima ai dipendenti che hanno partecipato all'evento aziendale quale giornata dedicata alla *Diversity & Inclusion* con le testimonianze di dipendenti e ospiti esterni sui temi di genere, generazioni, vulnerabilità, interculturalità per raccogliere il gradimento e spunti programmatici per le prossime edizioni dell'iniziativa.

Il Gruppo Poste Italiane, intensificando le attività di comunicazione interne all'Azienda, attraverso progetti e metodologie innovative ha potuto rafforzare il dialogo con i propri dipendenti e ottenere molteplici riconoscimenti a livello internazionale. A tal proposito, nel 2022 l'Azienda ha continuato a pubblicare nell'innovativa app Postenews, lanciata lo scorso anno, con l'obiettivo di riportare notizie quotidiane con servizi e reportage video delle realtà interne ed esterne al Gruppo.

Il magazine di Poste Italiane, pertanto, offre aggiornamenti su tematiche relative alla logistica, al risparmio, all'economia, alle istituzioni, alla sicurezza, alla previdenza, all'ambiente e al digitale. Il TG Poste, invece, è nato per rispondere all'esigenza del Gruppo di proseguire la missione di vicinanza ai propri dipendenti anche nell'informazione, fornendo le notizie più importanti dell'attualità, e per raccontare all'esterno il business del Gruppo ispirato ai principi di sostenibilità e centralità del cliente. Il TG Poste va in onda ogni giorno, dal lunedì al venerdì, ed è trasmesso in diretta *streaming* sul sito Poste.it e sugli schermi degli Uffici Postali, oltre ad essere visibile *on demand* su tgposte.poste.it e per i dipendenti anche dalla *intranet* aziendale o dall'app NoidiPoste.

Conciliazione vita lavorativa e privata

Relativamente alla strategia di *welfare* di Gruppo, l'Azienda persegue il miglioramento del benessere dei propri dipendenti ricercando l'equilibrio tra la vita lavorativa e quella privata. In continuità con gli anni precedenti, Poste Italiane ha previsto percorsi di orientamento per i giovani e di sostegno a favore delle famiglie, rafforzando l'attenzione alla dimensione sociale e familiare dei lavoratori, anche per supportare il ruolo genitoriale.

Nell'ambito del *welfare* contrattuale è stato avviato, per il quarto anno consecutivo, il programma Poste Mondo Welfare in attuazione dell'accordo sindacale sul Premio di Risultato che consente ai dipendenti, su base volontaria, di convertire, in tutto o in parte, il Premio di Risultato in beni e servizi di *welfare* caratterizzati da specifiche finalità sociali, educative, ricrea-

tive e assistenziali. Il programma attribuisce vantaggi fiscali connessi alla normativa vigente e ai crediti *welfare* aggiuntivi aziendali, volti a incrementare il potere di acquisto dei dipendenti e delle loro famiglie. A tal proposito, la piattaforma di *welfare* è stata rinnovata per favorire un utilizzo più semplice e intuitivo ed ha accolto – anche avvalendosi della *survey* di ascolto pubblicata sulla *intranet* NoidiPoste – i *feedback* sia degli aderenti all'iniziativa dell'anno precedente, sia di coloro che non avevano ancora intrapreso questa esperienza. Nel 2022 Poste Mondo Welfare è stato connotato da un miglioramento della *employee experience*, da un piano di comunicazione interna capillare e multi-canale, da *workshop* informativi, da figure di *ambassador dedicate*, da *stand* promozionali itineranti nelle strutture organizzative a maggiore intensità di personale, nonché da un ampliamento del *network* di beni e servizi offerti per promuovere una maggiore consapevolezza delle opportunità connesse. Inoltre, sono stati valorizzati i vantaggi derivanti dalla normativa fiscale vigente, con misure premiali specifiche inerenti al riconoscimento di buoni carburante aggiuntivi – in base alla percentuale di adesione e fruizione al programma – e il rimborso delle bollette domiciliari per luce, acqua e gas. Nel corso dell'anno, gli aderenti alla piattaforma hanno potuto beneficiare di un valore economico maggiorato rispetto all'anno precedente. Il programma è stato talmente apprezzato dal personale dipendente che ha raggiunto una percentuale di adesioni più che raddoppiata rispetto alle passate edizioni.

L'Azienda individua, da anni, nel *part-time* un valido strumento di flessibilità lavorativa che consente di soddisfare gli interessi individuali di conciliazione vita-lavoro dei dipendenti con le esigenze organizzative dell'Impresa, e incentiva economicamente le richieste dei lavoratori di trasformazione del rapporto di lavoro *full-time* in *part-time*.

Inoltre, in occasione del rinnovo del CCNL di riferimento, siglato il 23 giugno 2021, è stata introdotta una regolamentazione per la presentazione delle istanze di trasformazione da tempo pieno a tempo parziale da parte dei lavoratori interessati, prevedendo la possibilità di formulare la richiesta con cadenza semestrale e con riferimento alle specifiche articolazioni orarie (c.d. *cluster*) rese note, di volta in volta, dall'Azienda.

Programmi di supporto ai dipendenti

Opzioni di lavoro *part-time*

Poste Italiane e il continuo sostegno ai genitori

Importante ruolo all'interno dell'Azienda è attribuito alle figure professionali che nella vita privata ricoprono il ruolo di genitori, per le quali vengono messe in atto iniziative, *policy* e servizi di supporto a sostegno e conciliazione tra vita privata e lavorativa.

Un esempio è rappresentato dalla decisione da parte dell'Azienda di varare nell'anno 2022 la *Policy* Sostegno della Genitorialità Attiva, al fine di supportare il ruolo genitoriale e valorizzare l'equilibrio di genere, superando stereotipi, discriminazioni e pregiudizi nei luoghi di lavoro.

Poste Italiane mette a disposizione degli asili nido presso le sedi di Roma e Bologna per i figli/nipoti dei dipendenti del Gruppo e, per una quota parte, agli utenti provenienti da enti comunali e terzi in risposta sussidiaria alle esigenze dell'utenza locale. Il servizio è esteso ad oltre 100 famiglie con figli dai 3 ai 36 mesi ed è previsto un contributo per i dipendenti da parte dell'Azienda pari al 55% del valore della retta mensile. L'obiettivo è quello di garantire un servizio educativo flessibile, in relazione ai ritmi di lavoro, per coniugare professionalità e qualità nel rispetto dei valori espressi dalle famiglie. La distintività del programma educativo è rappresentata da un approccio relazionale integrato da parte di tutti gli attori coinvolti nel processo, dall'attenzione ai valori dell'eco-sostenibilità (come l'utilizzo pari ad almeno il 50% di alimenti biologici, DOP e IGP e a Km 0), dall'interculturalità (bilinguismo) e dall'inclusione e alleanza educativa con le famiglie per favorire un dialogo strutturato, anche attraverso modalità di comunicazione innovative. Tra queste, sono state valorizzate nuove opportunità di scambio e partecipazione quali l'app interattiva, nuovi programmi seminariali di sostegno alla genitorialità, la realizzazione di *webinar* tematici estesi a tutti i dipendenti, un servizio di *counselling* come spazio di ascolto e di riflessione offerto ai genitori per esplorare eventuali difficoltà relative a processi evolutivi e alle fasi di transizione dei loro figli.

A rafforzamento delle iniziative a sostegno della natalità e della genitorialità attiva, in continuità con gli anni precedenti, l'Azienda ha proseguito il progetto Lifeed, piattaforma digitale attiva dal 2015 già conosciuta come MAAM, ed è stato attivato il programma MultiMe@Finder, al fine di migliorare la consapevolezza dei ruoli ricoperti nelle diverse esperienze di vita.

In occasione dell'anniversario dei 160 anni del Gruppo, Poste Italiane ha promosso il progetto "IlNostroXcorso", con l'obiettivo di riscoprire le località italiane spostandosi principalmente in bicicletta, il mezzo di trasporto simbolicamente legato al lavoro del postino. Attraverso un'applicazione disponibile sull'app e sulla *intranet* NoidiPoste, gli utenti hanno avuto l'opportunità di condividere la propria esperienza di viaggio intrapresa da soli o in compagnia, correndo, camminando, o con l'utilizzo di una bicicletta, partendo dalla propria abitazione, dal luogo di lavoro o da un posto ritenuto importante. Con questa iniziativa il Gruppo vuole far conoscere le persone di un'Azienda grande, diffusa in molte parti d'Italia, inclusiva, attenta alla sostenibilità ambientale e unita nel gioco di squadra per raggiungere obiettivi sempre più sfidanti, alla ricerca del benessere di tutti.

Salute e prevenzione

Con riferimento alle iniziative mirate a favorire la prevenzione primaria e la maturazione della coscienza sociale nei giovani, Poste Italiane ha realizzato, in collaborazione con la Fondazione Veronesi, un ciclo di incontri divulgativi rivolti ai dipendenti e ai loro familiari su tematiche legate all'etica, agli stili di vita salutari e alla divulgazione scientifica con contenuti proposti in chiave intergenerazionale.

In continuità con gli anni precedenti, al fine di garantire la salute del personale e la tutela dell'ambiente, ai portalettere sono state fornite divise che presentano la certificazione *green* OEKO – TEX Standard 100, la quale assicura l'attento controllo ecologico e salutare del prodotto. Poste Centro Medico La struttura sanitaria di Poste Italiane per le sue Persone

Con 11 mila prestazioni sanitarie in due anni, Poste Centro Medico consolida il proprio ruolo di presidio del benessere dei dipendenti e dei loro familiari.

Nel 2022 è proseguita l'attività di Poste Centro Medico, il polo di eccellenza dedicato alla cura e alla prevenzione dei dipendenti di Poste Italiane, dei loro familiari e dei pensionati con l'obiettivo di rafforzare il benessere dei dipendenti negli ambienti di lavoro, attraverso l'offerta di servizi medici e di prevenzione sanitaria. Il Poliambulatorio è coordinato da un Direttore Clinico e Sanitario e aggrega un significativo numero di professionisti operanti nelle più importanti strutture sanitarie nazionali.

Poste Centro Medico dispone di servizi qualificati ed eroga visite specialistiche, esami strumentali ed ecografici in 13 aree mediche, oltre al Presidio di diagnostica per immagini ed altre prestazioni mediche. Il Centro Medico, inoltre, è dotato di apparecchiature medico-strumentali all'avanguardia (ecografi di ultima generazione, videodermatoscopio, riunito ginecologico, attrezzatura oculistica, ecc.). In particolare, nel 2022 Poste Centro Medico ha ampliato la propria offerta di servizi: ne è un esempio l'introduzione a maggio 2022 di apparecchi per effettuare anche la mammografia per la diagnosi precoce del tumore al seno.

riguarda i palmari dati in dotazione ai portalettere, invece, nel corso degli anni Poste Italiane ha sviluppato una nuova funzionalità che consente di inviare una richiesta volontaria di soccorso in caso di necessità di intervento medico. In questo modo, il *device* utilizzato dai portalettere diventa anche uno strumento per aumentare la sicurezza sul lavoro tramite alcune funzionalità, come quella di SOS che consente, in caso di emergenza, di attivare una chiamata alla cosiddetta "Situation Room" dove un *team* di operatori è pronto a rispondere alle richieste di soccorso. Inoltre, prima dell'uscita per la consegna, sullo *smartphone* si attiva una funzione di promemoria che ricorda al portalettere i dispositivi di protezione che deve avere sempre in dotazione, come ad esempio il giaccone o il gilet ad alta visibilità. Infine, due volte al mese un *pop up* ricorda al portalettere di verificare lo stato di manutenzione del mezzo, andando a segnalare eventuali richieste di intervento.

Cultura e istruzione

Poste Italiane rafforza l'impegno aziendale per lo sviluppo delle nuove generazioni con la volontà di concorrere alla crescita dei giovani attraverso numerose iniziative di orientamento scolastico, professionale e di sviluppo delle *soft skills* per i figli dei dipendenti e per ragazzi provenienti anche da realtà sociali vulnerabili.

Il Gruppo, infatti, ha realizzato, in continuità con le passate edizioni, il progetto "Next Generation" dedicato ai figli dei dipendenti ed a ragazzi provenienti da scuole secondarie di secondo grado inserite in territori fragili. Il programma ha l'obiettivo di avvicinare i giovani a tematiche di innovazione, diversità ed inclusione sociale e ai mestieri del futuro. A tal proposito, sono stati realizzati laboratori di sviluppo delle competenze, incontri di orientamento nei quali i ragazzi hanno imparato anche a redigere un Curriculum efficace e a prepararsi con sempre maggiore consapevolezza ai colloqui di selezione, il "Digital Creathon" con il lancio della sfida aziendale e l'*Innovation hub*. Durante il "Digital Creathon" i ragazzi partecipanti - studenti delle scuole e figli di dipendenti di Poste Italiane - hanno potuto mettersi in gioco per rispondere alla sfida lanciata da Poste Italiane: "Oltre l'apparenza". La sfida è stata pensata anche in linea con l'Agenda 2030 dell'ONU e al 10° Obiettivo di Sviluppo Sostenibile (SDGs), in particolare, "ridurre le disuguaglianze" e dunque potenziare e promuovere l'inclusione sociale, economica e politica di tutti, a prescindere da ogni forma di diversità. Da qui, l'idea di chiedere loro la realizzazione di una presentazione e un video che, partendo dalle loro esperienze fami-

liari, scolastiche e sociali, raccontasse storie di emarginazione e di separazione indicando anche la via per superarle, andando "oltre le apparenze" e dando valore a ogni persona e percorso.

Poste Italiane ha partecipato al progetto biennale "School4Life 2.0", ampiamente trattato nei capitoli precedenti, e alle nuove edizioni dell'iniziativa STEAMcamp, dedicata ai figli dei dipendenti e alle loro famiglie nell'obiettivo di approfondire le tematiche relative alle discipline STEAM. I percorsi "STEAMcamp" sono in grado di promuovere l'innovazione e le competenze distintive necessarie per svolgere le future professioni attraverso un'esperienza di apprendimento e gioco che stimola il confronto con nuovi modelli che vanno dal *coding*, all'intelligenza artificiale, alla *gamification*, alla robotica e tanto altro, il cui unico confine è rappresentato dalla creatività. Nel 2022 sono state avviate nuove proposte di sensibilizzazione denominate "Social Media Lab" focalizzate sul linguaggio dell'innovazione digitale, per far comprendere l'evoluzione dell'identità in internet e per acquisire maggiore consapevolezza sulla socialità *online* da parte dei ragazzi.

Inoltre, è stato rafforzato con le nuove edizioni anche il programma "Future Lab" per i figli dei dipendenti con la finalità di favorire l'integrazione nel mondo del lavoro, stimolando la riflessione sul proprio piano di sviluppo personale sulla capacità di progettare un percorso di studio e professionale. Nello specifico, il programma mira ad avvicinare i ragazzi al mondo del lavoro in modo più consapevole, supportandoli nelle scelte affinché possano intraprendere percorsi in linea con le loro capacità e passioni e conoscere i principali orientamenti di mercato sui mestieri del futuro.

Infine, nell'ottica di promuovere lo scambio interculturale, sono state assegnate 19 borse di studio all'estero riservate ai figli meritevoli dei dipendenti, sostenute interamente dall'Azienda.

Senso di appartenenza

Nell'ambito delle iniziative mirate a consolidare il senso di appartenenza, nel 2022, 58 dipendenti del Gruppo hanno ottenuto il riconoscimento "Stella al merito del lavoro" per essersi distinti in ragione della particolare perizia e laboriosità nel loro operato in Azienda. Le Stelle al Merito sono concesse ogni anno alle lavoratrici e ai lavoratori dipendenti di aziende pubbliche e private, con età minima di 50 anni e anzianità lavorativa continuativa di almeno 25. La metà delle onorificenze è riservata a coloro che hanno iniziato l'attività dai livelli contrattuali più bassi e si sono distinti per il loro contributo umano e professionale in Azienda. Nello specifico, i dipendenti e le dipendenti sono stati individuati su tutto il territorio nazionale e sono rappresentativi della maggior parte dei mestieri presenti in Azienda. L'onorificenza comporta il titolo di "Maestro del lavoro" ed è conferita con Decreto del Presidente della Repubblica, su proposta del Ministero del Lavoro e della Previdenza Sociale.

Benefit finanziari e non finanziari per il personale

- **Assistenza sanitaria:** l'Azienda contribuisce al finanziamento del Fondo Sanitario FASI e ulteriori casse integrative al fine del riconoscimento di prestazioni aggiuntive al Servizio Sanitario Nazionale;

Di seguito l'elenco dei principali benefit finanziari spettanti al personale non dirigente.

Benefit non finanziari

A completamento del pacchetto remunerativo, il Gruppo Poste Italiane prevede, per i dirigenti e determinate tipologie di quadri, alcuni benefit non finanziari addizionali nel rispetto delle normative applicabili, tenendo conto delle prassi di mercato. Tali *benefit* sono disciplinati da specifiche linee guida, che dispongono l'applicazione di criteri comuni per segmenti di popolazione omogenei. Esempi di *benefit* non finanziari attribuiti ai dirigenti sono la *company car* ad uso promiscuo e il *check up* medico, previsto anche per i responsabili di struttura.

Relazioni con le parti sociali

DNF

Poste Italiane, attraverso incontri periodici con le Organizzazioni Sindacali (OO.SS.), mantiene un dialogo costante con i rappresentanti dei lavoratori, non solo per ciò che concerne la gestione ordinaria ma anche in caso di cambiamenti organizzativi rilevanti, con l'obiettivo di porre al centro il benessere e la tutela dei diritti dei lavoratori. Pertanto, stipula accordi regolati dal Contratto Collettivo Nazionale del Lavoro (CCNL) e dal Testo Unico sulla Rappresentanza per facilitare la creazione di un clima aziendale positivo e garantire il rispetto della normativa vigente. Il Gruppo implementa ogni attività prevista dal Sistema di Relazioni Industriali, descritto al Capitolo I del CCNL di Poste Italiane S.p.A. (Informazione, Consultazione, Partecipazione, Contrattazione), anche al fine di accompagnare le azioni previste dal Piano Strategico aziendale e di Gruppo. Con questo metodo, l'Azienda assicura soluzioni appropriate ed eque sui temi che possono avere impatti significativi non solo sull'organizzazione e sul *business*, ma anche e soprattutto sul capitale umano, considerato *asset* fondamentale.

Coerentemente alle richieste della normativa vigente, Poste Italiane assicura imparzialità e indipendenza per la promozione dei propri rapporti con le OO.SS., così come stabilito dal Codice Etico del Gruppo, e contestualmente si impegna ad assicurare il benessere e la tutela dei diritti dei suoi lavoratori e la loro libertà di associazione e contrattazione collettiva.

PRINCIPALI CAPITALI COLLEGATI

Poste Italiane si impegna a garantire il benessere e la tutela dei dipendenti, che sono al centro della sua strategia, e mantiene un dialogo costante con le parti sociali

Poste Italiane fa riferimento alla contrattazione collettiva nazionale, che prevede una specifica procedura di confronto tra l'Azienda e le Organizzazioni Sindacali nazionali stipulanti il CCNL nel caso in cui cambiamenti organizzativi significativi (come i processi di riorganizzazione e/o ristrutturazione e/o trasformazione aziendale) comportino conseguenze sul piano sociale, con ricadute sulle condizioni di lavoro.

A tal proposito, il Gruppo ha l'obbligo di fornire un'informazione preventiva alle OO.SS. nazionali stipulanti il CCNL, indicando la data dell'avvio del confronto, al fine di ricercare possibili soluzioni in grado di gestire gli effetti sociali. Il confronto negoziale si esaurisce entro e non oltre i 25 giorni lavorativi, comprensivi del sabato, successivi alla data fissata dall'Azienda per il primo incontro. Nel corso di questi giorni le OO.SS. devono astenersi da ogni azione diretta, mentre l'Azienda non può dare luogo all'attuazione dei progetti previsti. Decorso 25 giorni, se l'esito derivante dal confronto è negativo, le Parti possono assumere le proprie autonome determinazioni; in caso di esito positivo, invece, l'Azienda fornisce un'adeguata informativa alle competenti strutture territoriali delle OO.SS.. Prima di avviare il confronto a livello territoriale, è previsto che si svolga la consultazione delle RSU (Rappresentanza Sindacale Unitaria) che dovrà concludersi entro e non oltre 13 giorni lavorativi, comprensivi del sabato, dalla data di sottoscrizione dell'ipotesi di accordo. A

posteriori, le Parti si incontrano a livello territoriale (regionale) per effettuare un esame congiunto, da concludersi entro i 7 giorni lavorativi, comprensivi del sabato, successivi al termine della consultazione delle RSU.

Il dialogo continuo e la relazione fattiva e costruttiva tra Azienda e Parti Sociali rappresenta un elemento caratterizzante e significativo nella strategia di crescita ed evoluzione del Gruppo. Il dialogo continuo con le OO.SS. viene assicurato tramite un'importante attività di informazione e negoziazione con le Parti Sociali condotta dalla funzione di Relazioni Industriali. Gli *output* più significativi di tale attività sono rappresentati dalla sottoscrizione di specifiche intese con le Organizzazioni Sindacali sia sulle materie espressamente indicate dal Contratto Collettivo Nazionale di Lavoro del 23 giugno 2021 (CCNL), sia su ulteriori argomenti relativi alla realizzazione degli obiettivi di Piano che abbiano riflessi normativi e/o gestionali sul personale.

Il Contratto Collettivo Nazionale di Lavoro

Con l'obiettivo di perseguire il benessere dei dipendenti e di garantire la tutela dei loro diritti, sia durante la gestione ordinaria che nelle fasi di cambiamento dell'organizzazione aziendale, Poste Italiane considera il dialogo con i rappresentanti dei lavoratori un aspetto centrale nell'organizzazione e nella gestione del Gruppo. Pertanto, l'Azienda si impegna in un confronto costante con le Organizzazioni Sindacali (OO.SS.), garantendo imparzialità e indipendenza nella promozione dei rapporti in conformità con la normativa vigente e assicurando, al contempo, la tutela dei diritti, la libertà di associazione e la contrattazione collettiva.

A tal proposito, nel corso del 2021 il Gruppo ha rinnovato il Contratto Collettivo Nazionale di Lavoro (CCNL), valido fino al 31 dicembre 2023. L'Accordo, che ha introdotto importanti miglioramenti sia in ambito economico che nell'impianto normativo dell'organizzazione, copre l'intero personale non dirigente del Gruppo Poste Italiane e rafforza l'attenzione alla difesa dei diritti dei lavoratori, alla loro sicurezza e alla stabilità economica. Il concetto della Responsabilità Sociale di Impresa è un principio fondamentale per l'Azienda, attraverso cui è possibile coniugare gli obiettivi di sviluppo e i risultati economici del Gruppo con il rispetto dei valori sociali e ambientali, valorizzando il contributo continuo e costante delle risorse umane.

Politiche attive del lavoro

In continuità con gli anni precedenti, Poste Italiane ha sottoscritto accordi sulle politiche del lavoro, rendendo concreto il proprio impegno verso rapporti volti al benessere e alla tutela dei diritti dei lavoratori.

Con il Verbale di Accordo sottoscritto l'8 febbraio 2022, le Parti, prima di individuare i complessivi interventi di politiche attive da realizzare per l'anno 2022, hanno definito una manovra straordinaria, a carattere anticipatorio, per complessivi 1.100 FTE (*Full Time Equivalent*) tra sportellizzazioni ed inserimenti da mercato esterno, al fine di supportare le esigenze delle strutture di *front end* nei territori che presentano maggiori criticità. L'intesa sottoscritta il 12 maggio 2022, anche al fine di supportare le azioni di riorganizzazione già condivise e gli ulteriori interventi di revisione organizzativa approfonditi con le Organizzazioni Sindacali, prevede che, per il triennio 2021-2023 – in linea con quanto definito nell'Intesa del 13 giugno 2018 – l'Azienda assicuri un adeguato numero di azioni di Politiche Attive del Lavoro in rapporto agli esodi incentivati che si registreranno nel periodo. In particolare, per l'anno di riferimento, sono state realizzate azioni di Politiche Attive del Lavoro (stabilizzazioni, conversioni da *part-time* a *full-time*, assunzioni da mercato esterno, sportellizzazioni, *job posting*) per un totale di oltre 6.900 FTE.

Il 6 settembre 2022 le Parti hanno concordato che per l'anno 2022, in via eccezionale, il limite di ricorso al contratto a tempo determinato nelle regioni Emilia Romagna, Lombardia, Veneto, Piemonte, Liguria, Valle d'Aosta, Marche, Campania e Calabria è definito nella misura del 12%. Nell'Intesa del 21 novembre 2022, Azienda e Organizzazioni Sindacali hanno convenuto un anticipo della manovra di Politiche Attive del Lavoro 2023 per Posta, Comunicazione e Logistica (PCL) definendo azioni di potenziamento sia nel recapito (700 disponibilità *full-time*) che nello smistamento (60 conversioni da *part-time* a *full-time*). Analogamente, il 19 dicembre 2022 sono stati convenuti interventi di Politiche Attive del Lavoro, sempre in via anticipatoria, relativamente all'ambito di Mercato Privati che saranno realizzati a partire da gennaio 2023. In particolare: trasformazioni da *part-time* a *full-time* per 350 Operatori di Sportello (175 FTE), passaggio verso ruoli di *front end* di 225 portalettere idonei al *job posting* previsto dall'Accordo 12 maggio 2022 (sportellizzazioni) e 250 assunzioni da mercato esterno per la copertura di ruoli di carattere specialistico. Nell'Accordo del 1° febbraio 2023 le Parti hanno concordato sulla necessità di valutare, nell'ambito delle cornici e successive intese in materia di occupazione per l'anno 2023, interventi dedicati per la funzione Digital, Technology & Operations.

Il 2 marzo 2023 è stato sottoscritto un Verbale d'Accordo in tema di Mobilità Volontaria (trasferimenti a domanda) con il quale, in attesa di definire la nuova intesa che regolamenterà la materia per gli anni 2023/2024, le Parti si danno atto che eventuali trasferimenti – sia a livello nazionale che regionale e provinciale – verranno effettuati tenendo a riferimento le graduatorie 2022 redatte sulla base di quanto definito con l'Accordo del 4 maggio 2021, la cui validità è cessata il 31/12/2022.

Con l'Accordo del 1° febbraio 2023 Azienda e Organizzazioni Sindacali hanno definito, relativamente ai "Servizi di *Back Office*", una razionalizzazione e una nuova micro-organizzazione dei Depositi Territoriali attraverso una riduzione del numero dei siti (da 10 a 5) e il superamento, nel corso del 2023, dei Depositi di Bari, Bologna, Genova, Padova e Torino. Le relative ricadute occupazionali verranno gestite progressivamente alla chiusura dei singoli depositi. È stata, inoltre, introdotta la figura dello Specialista Programmazione e Controllo Operativo a supporto del Responsabile Deposito. È stato presentato un nuovo modello di *Credit Management*, caratterizzato da presidi dedicati e un'interfaccia unica col cliente, per ridurre lo scaduto ed efficientare l'intero processo. Il nuovo modello sarà soggetto ad una sperimentazione con l'impegno delle Parti di incontrarsi entro maggio 2023 per analizzare l'andamento della stessa. Sono state altresì definite diverse azioni di accorpamento e trasferimento sedi dei Centri Territoriali con l'obiettivo di ottimizzare le lavorazioni e consolidare il presidio dei servizi di gestione documentale attraverso la costituzione di un'unica sede dei siti che insistono in una stessa città. Le risorse interessate continueranno a svolgere le medesime attività e, laddove ne ricorrano i presupposti, alle stesse verrà riconosciuto quanto previsto nell'art. 38 del vigente CCNL. Relativamente ai servizi di "Assistenza Clienti", l'Azienda ha presentato il servizio di Assistenza a Valore che consentirà di fornire supporto nella fase di acquisto dei prodotti/servizi e di interagire col cliente attraverso iniziative di proposizione commerciale. L'introduzione di questo nuovo servizio di assistenza sarà accompagnata da percorsi formativi dedicati per il personale coinvolto. Relativamente ai servizi di *Information Technology* e in particolar modo con riferimento ai Poli Tecnologici, è stato ridefinito il modello operativo di funzionamento ed il modello di micro-organizzazione anche attraverso l'introduzione di specifiche figure di supporto alle strutture tecniche territoriali. Sono stati introdotti i servizi tecnici di prossimità (*Field Technical Services*) con l'obiettivo di garantire un miglior coordinamento degli interventi di supporto tecnico e offrire una risposta celere alle strutture di *business*. Infine, a partire dal mese di marzo 2023, entreranno in vigore gli orari rimodulati in base alla nuova organizzazione dei Poli Tecnologici caratterizzati da un'articolazione unica a livello nazionale con un presidio anche nella giornata del sabato. Le Parti hanno convenuto sulla necessità di prevedere specifici incontri a livello regionale e nazionale per accompagnare al meglio i processi riorganizzativi della funzione *Digital, Technology & Operations*.

Con il Verbale di Accordo sottoscritto tra l'Azienda e le Organizzazioni Sindacali il 12 maggio 2022, è proseguito il processo di revisione organizzativa della funzione Mercato Privati avviato con l'Accordo del 30 settembre 2021, che si era focalizzato sul rafforzamento del modello commerciale.

Con quest'ultima Intesa, l'Azienda e i Sindacati hanno posto in essere ulteriori azioni di revisione organizzativa sia del modello commerciale che della piattaforma operativa delle funzioni di supporto alla vendita. Nello specifico, è stato ampliato il dimensionamento dei Referenti Protezione e Finanziamenti ed è stata prevista un'evoluzione delle attività relazionali svolte dagli Operatori di Accoglienza. L'Accordo ha inoltre previsto il potenziamento della rete *Corner 2.0*, evoluta nel format "Punto Poste Casa e Famiglia". Si è provveduto ad aggiornare il modello di gestione operativa territoriale potenziando le attività di coordinamento, supporto e controllo a livello di Macro Area ed efficientando la struttura a livello di Filiale. Infine, è stato dato nuovo impulso al progetto Hub & Spoke, prevedendo, in via sperimentale, il rilascio del nuovo applicativo distacchi che verrà adottato dai DUP *Hub* sulle prime sei Filiali a partire dal mese di giugno. In data 19 dicembre 2022, Azienda e Organizzazioni Sindacali hanno sottoscritto un accordo avente ad oggetto tre macro temi: 1. Il Progetto Polis – Casa dei Servizi Digitali; 2. l'evoluzione del modello organizzativo Piccoli Operatori Economici (POE); 3. l'anticipo della manovra di Politiche Attive del Lavoro 2023. Il progetto Polis riguarda circa 7.000 Uffici Postali, situati in comuni con popolazione inferiore a 15.000 abitanti, che verranno riconfigurati per consentire l'erogazione di una vasta gamma di servizi della PA, oltre alla realizzazione di spazi di *co-working* in una rete nazionale interconnessa di 250 immobili. L'evoluzione del modello organizzativo POE, invece, prevede la riconfigurazione della filiera commerciale di Mercato Privati in ottica sinergica, affiancando al canale *retail* il canale POE. In particolare, a livello di Macro Area, è stata istituita la figura del Referente Vendite POE e superata quella del Responsabile Venditore Imprese, con ricollocazione delle risorse all'interno delle funzioni Mercato Privati o Mercato Imprese e Pubblica Amministrazione. A livello di Filiale, gli Specialisti Small Business (SSB) e Specialisti Posta e Pacchi (SPP) sono stati ricondotti gerarchicamente al Responsabile Commerciale di Filiale (RCF).

Il 1° marzo 2022 l'Azienda ha sottoscritto un Accordo con le Organizzazioni Sindacali, con vigenza fino al 31 marzo 2023, che regola l'applicazione del Lavoro Agile in Poste Italiane e nelle Società del Gruppo che applicano il Contratto Collettivo Nazionale del Lavoro (CCNL), rinnovato il 23 giugno 2021. L'Intesa, nel ricalcare l'impalcatura normativa del precedente Accordo del 2020 – che, tra le altre cose, prevedeva per tutti i dipendenti la possibilità di attivare il Lavoro Agile per massimo 3 giorni a settimana e 13 al mese – ha introdotto alcuni elementi di novità che la rendono coerente non solo con l'intervenuto Protocollo Nazionale sul Lavoro in Modalità Agile stipulato dalle Parti Sociali in data 7 dicembre 2021, ma anche con le evidenze organizzative e gestionali emerse dall'osservazione della fase di implementazione dell'Istituto in Azienda durante il periodo emergenziale. In particolare:

- sono stati ridotti alcuni ambiti/figure organizzative precedentemente interessate dal Lavoro Agile (es. Centri di Smistamento, Centri Operativi, Referenti *Premium*, ecc.);
- per i Responsabili e per specifiche figure professionali, è stata valorizzata la necessità di garantire in presenza il presidio delle attività ed il coordinamento delle risorse, prevedendo la possibilità di fruire dell'Istituto in maniera flessibile nel corso del mese, senza far riferimento alla singola settimana;

- è stata eliminata la previsione contenuta nell'Accordo del 2020 che prevedeva la sterilizzazione degli eventi di infortunio non riconosciuto ai fini della contabilizzazione del premio di risultato e della mobilità nazionale volontaria, riconducendo la fattispecie alla normale gestione delle assenze per infortunio/malattia;
- è stato istituito uno specifico Osservatorio Paritetico con il compito di seguire la fase di implementazione dell'Istituto.

L'8 giugno 2022, sulla base di quanto stabilito nel Verbale di Accordo del 1° marzo 2022, si è riunito l'Osservatorio Paritetico sul Lavoro Agile che ha effettuato una prima ricognizione sull'attuazione dello stesso in Azienda. Le Organizzazioni Sindacali hanno evidenziato la necessità di approfondire alcune tematiche tra le quali, a titolo esemplificativo, l'accomodamento ragionevole, i lavoratori fragili, ecc. È stata, inoltre, sottolineata l'esigenza di prevedere per tutti i lavoratori la cui prestazione di lavoro non sia remotizzabile, il lavoro agile per finalità formative. Il Verbale di Accordo sottoscritto il 3 agosto 2022, tenendo conto della crisi epidemiologica da Covid-19, ha esteso la possibilità di ricorrere allo *smart working* al personale di *staff* assunto a tempo determinato nonché, per le sole finalità formative, al personale CTD presso le strutture operative.

Il Lavoro Agile costituisce uno strumento utile per l'Azienda in grado di ottimizzare l'organizzazione e l'impiego delle risorse con modalità maggiormente rispettose della sostenibilità ambientale e del benessere collettivo, attraverso la limitazione degli spostamenti casa-lavoro, con conseguente riduzione del traffico e abbattimento delle emissioni. Inoltre, tale modalità di lavoro è considerata anche uno strumento di *welfare*, in quanto consente non solo di coniugare le esigenze personali e familiari con quelle professionali, ma anche di tutelare i dipendenti che si trovano in particolari condizioni di fragilità, salvaguardando gli *standard* produttivi e qualitativi aziendali. Il 2 marzo 2023 è stato sottoscritto il Verbale d'Accordo con il quale Le Parti hanno convenuto di prorogare fino al 30 settembre p.v. gli effetti degli accordi del 1° marzo e del 3 agosto 2022.

Il 29 luglio 2022 è stato sottoscritto per Poste Italiane S.p.A. e per le Aziende del Gruppo, l'Accordo sul Premio di Risultato per l'anno 2022. Con riferimento al valore unitario del Premio, l'accordo ha previsto un incremento del 5% consentendo un recupero del fenomeno inflattivo conseguente all'andamento economico/monetario complessivo. Rispetto agli indicatori a carattere nazionale cui è correlata l'erogazione del Premio, sono stati introdotti, per Poste Italiane, i Ricavi di Gruppo per

addetto. Inoltre, per valorizzare ulteriormente l'importanza del contributo professionale delle singole risorse al raggiungimento dei risultati aziendali, è stato introdotto un *bonus* (50 € aggiuntivi rispetto al valore individuale del Premio) per i dipendenti che non hanno effettuato alcun tipo di assenza nell'anno di riferimento, ed è stata altresì rivista l'incidenza degli eventi di malattia sulla determinazione della somma da erogare a titolo di Premio di Risultato a ciascun lavoratore nel mese di giugno 2023. Inoltre, è stata confermata la possibilità di convertire tutto o quota parte del premio in *welfare*, semplificando e rendendo al contempo maggiormente vantaggioso il meccanismo di riconoscimento dei crediti da parte dell'Azienda a fronte della cifra convertita.

Con l'Accordo del 2 agosto 2022 le Parti hanno delineato le direttrici organizzative e gestionali con le quali vengono attuati i processi di revisione organizzativa di alcuni importanti ambiti produttivi della funzione Posta, Comunicazione e Logistica (PCL). In particolare, l'Intesa prevede:

- l'evoluzione delle attività delle Lavorazioni Interne che vengono ricondotte nell'ambito organizzativo dello smistamento presso 150 Centri Accentranti;
- la definizione di nuovi orari di lavoro per le risorse impiegate nel settore;
- l'aggiornamento degli orari di ingresso dei portalettere per effetto delle nuove tempistiche e modalità di alimentazione dei Centri di Distribuzione (CD).

Gli addetti all'Articolazione Mercato, inoltre, sono stati chiamati ad effettuare anche le attività presso i Nodi Accentranti (c.d. attività residuali sui CD). Con tale manovra sono stati definiti i nuovi fabbisogni del settore e, rispetto alla gestione delle ricadute occupazionali generate dal progetto, sono state individuate le leve da azionare per tragguardare il corretto dimensionamento degli organici (riassegnazione c/o Nodi Accentranti, valorizzazione/mobilità professionale in diversi ambiti organizzativi, percorsi formativi di riqualificazione, reimpiego nell'ambito del progetto *Insourcing*, esodi volontari incentivati, eventuale attivazione del Fondo di Solidarietà). Le Parti, nel definire le macro-cornici di intervento, hanno convenuto di rimandare ad un ulteriore Accordo l'individuazione della disciplina di dettaglio finalizzata a regolamentare tutti gli aspetti applicativi di progetto, ivi inclusi i criteri di ricollocazione delle risorse. Il nuovo modello è stato applicato in via sperimentale su 18 Nodi Accentranti e su 25 CD collegati. La sperimentazione è stata avviata rispettivamente il 10 ottobre su 11 CD e il 24 ottobre su 14 CD.

Nel corso del 2022 è stata raggiunta l'intesa tra Poste Italiane e le Organizzazioni Sindacali in merito all'accentramento delle lavorazioni interne relativo alla divisione Posta Comunicazione e Logistica (PCL). Il nuovo accordo ha come obiettivo quello di esprimere una maggiore efficienza di servizio della comunicazione postale, valorizzando le risorse centrali nella strategia di crescita di Poste Italiane. In un contesto nel quale anche il settore dei servizi postali è in evoluzione, l'accordo riguarda la riconduzione delle attività di lavorazioni interne nell'ambito organizzativo dello smistamento, la concentrazione di tali attività nei nodi presso i quali il prodotto sarà lavorato e smistato e l'evoluzione della figura di addetto alle lavorazioni interne in addetto alla produzione. La firma dell'accordo conferma lo spirito di fiducia e di proficua collaborazione tra Poste Italiane e le organizzazioni sindacali.

**L'intesa tra
Poste Italiane e
le Organizzazioni
Sindacali**

In data 21 novembre 2022, completando il percorso relazionale delineato con l'intesa del 2 agosto 2022, Azienda ed Organizzazioni Sindacali hanno sottoscritto il Verbale di Accordo con il quale è stata individuata la specifica disciplina di implementazione del progetto di riorganizzazione della funzione Posta, Comunicazione e Logistica (PCL). Le Parti hanno definito la micro-organizzazione dei Centri Logistici, nonché le leve di gestione per circa 1.700 risorse in esubero che devono essere ricollocate in sportelleria, ovvero nelle lavorazioni in ambito Digital, Technology & Operations attraverso il progetto Insourcing. Per le risorse in possesso dei requisiti si è proceduto con l'attivazione degli esodi volontari incentivati. Le Parti hanno anche ridefinito il sistema di gestione del personale inadeguato al recapito, in relazione sia all'inidoneità temporanea che definitiva, adeguandolo alla nuova organizzazione dello smistamento. È stata, altresì, prevista la possibile attivazione della mobilità volontaria in deroga a livello territoriale con l'impegno di valutarla a conclusione del progetto di riorganizzazione. Il sistema di Relazioni Industriali che accompagna la riorganizzazione, il cui termine è previsto per il 2024, prevede un meccanismo di confronto tra Azienda e Organizzazioni Sindacali sia a livello centrale che territoriale.

In data 11 luglio 2022 Azienda e Organizzazioni Sindacali hanno fissato per il 28 e 29 marzo 2023 le elezioni generali delle Rappresentanze Sindacali Unitarie (RSU) e dei Rappresentanti dei Lavoratori per la Sicurezza delle Aziende Poste Italiane S.p.A., Postel S.p.A., Poste Vita S.p.A. Poste Assicura S.p.A., PostePay S.p.A. e Nexive Network S.r.l. Le Parti, in data 21 dicembre 2022, hanno sottoscritto il Verbale di Accordo modificativo del protocollo RSU del 27 febbraio 2023, in cui hanno confermato le date delle elezioni nelle giornate del 28 e 29 marzo 2023 e aggiornato il numero delle unità produttive in ragione del nuovo assetto aziendale, in particolar modo con riferimento alla funzione Digital, Technology & Operations. Il 17 gennaio 2023 le Parti, fermo restando le previsioni della Legge 300/70 e dall'Accordo Nazionale del 21 marzo 2000 per cui i dirigenti delle RSU – eletti nelle Unità Produttive che occupano oltre 200 dipendenti – hanno diritto a permessi retribuiti in misura pari a 96 ore all'anno, al fine di consentire a ciascun RSU di fruire dei suddetti permessi pro-capite, limitatamente all'anno 2023 e per le Unità Produttive che occupano oltre 200 dipendenti, hanno previsto che ciascun RSU attualmente in carica fruirà, fino alla data di assunzione dell'incarico da parte delle nuove rappresentanze, di 1/3 (32 ore) delle 96 ore di permesso a sua disposizione. Analogamente tale previsione si applicherà ai RRLS che, per il solo anno 2023 e fino alla data di assunzione dell'incarico delle nuove rappresentanze, potranno fruire di 1/3 (10 ore) delle 30 ore annue pro-capite di permesso retribuito. All'esito delle elezioni del 28 e 29 marzo 2023, i componenti delle RSU/RLS che risulteranno validamente eletti e nominati potranno fruire, per l'anno 2023, dei restanti 2/3 delle ore di permesso RSU e RLS. In ordine alle RSU elette nelle unità produttive che occupano fino a 200 dipendenti, è stato previsto che si applicheranno le previsioni di cui all'articolo 2 dell'Accordo del 21 marzo 2000 andando a riproporzionare la spettanza annua delle ore di permesso nella misura di 1/3 per le RSU in carica e 2/3 per le RSU che verranno elette.

Infine, in considerazione del perdurare dell'emergenza Covid-19, Azienda e Organizzazioni Sindacali hanno proseguito il confronto, nell'ambito del Comitato OPN (Organismo Paritetico Nazionale per la salute e la sicurezza sui luoghi di lavoro) finalizzato a garantire la sicurezza delle persone e il contenimento del virus favorendo il ricorso allo *smart working* e monitorando l'attività di *screening* preventivo messa in campo dall'Azienda. Il 6 luglio 2022 Azienda e OO.SS. hanno proseguito il confronto in ambito OPN al fine di dare continuità, secondo le nuove indicazioni contenute nel già menzionato Protocollo 30 giugno 2022, alle misure di contenimento del virus Covid-19.

Sempre nell'ambito dei lavori del Comitato OPN le Parti, in occasione delle riunioni del 30 novembre 2022, del 1 febbraio 2023 e del 20 marzo 2023, hanno definito l'impianto progettuale e la metodologia che verrà seguita per la nuova rilevazione del rischio Stress Lavoro Correlato, dando avvio allo stesso procedendo nella riunione del 20 marzo u.s. al sorteggio dei lavoratori che faranno parte dei Team Regionali di Valutazione che avranno il compito di procedere alla compilazione della *check list* INAIL. A livello regionale verranno convocate specifiche sessioni di OPR finalizzate ad illustrare la metodologia che verrà seguita per la nuova rilevazione che dovrà terminare entro il mese di luglio p.v. per dare poi avvio alla successiva attività di analisi dei risultati e verifica degli stessi ai fini della determinazione del livello di rischio.

Nell'ambito dei lavori dell'OPN del 20 marzo 2023, l'Azienda a fronte della positiva evoluzione della crisi pandemica da Covid-19 – che di fatto ha comportato il ripristino dei processi e delle procedure in atto nel periodo pre-pandemico pressoché in tutti i settori produttivi e sociali, ha comunicato all'OPN che – sempre nel rispetto del principio di precauzione e tutela finalizzato ad assicurare gli opportuni livelli e *standard* di sicurezza all'interno dei luoghi di lavoro – si darà avvio ad un graduale processo di revisione delle misure di prevenzione adottate in Azienda nella fase iniziale e durante l'evoluzione della crisi pandemica per contrastare la diffusione del virus.

Tutti gli Accordi e le Intese adottate hanno fatto registrare una sostanziale efficacia delle previsioni e delle regolamentazioni contenute negli stessi. Ne è prova il fatto che nessuna Intesa intervenuta tra le Parti è stata recentemente oggetto di disdetta e che la maggioranza degli Accordi Sindacali trova sempre il consenso (sottoscrizione) di tutte e sei le sigle firmatarie del CCNL. Dal punto di vista aziendale, le diverse Intese sottoscritte hanno contribuito in maniera importante alla realizzazione degli obiettivi di piano. A mero titolo di esempio, l'implementazione del nuovo modello organizzativo del recapito, il c.d. *Joint Delivery*, è stato possibile attraverso la sottoscrizione dell'Accordo dell'8 febbraio 2018 che ha ridisegnato l'organizzazione del recapito della corrispondenza di Poste Italiane S.p.A., così come con i recenti Accordi del 2/8/2022 e del 21/11/2022 hanno consentito di avviare il processo di efficientamento e razionalizzazione delle Lavorazioni Interne del recapito.

Organismi partecipativi a composizione mista Azienda e Organizzazioni Sindacali

Poste Italiane, insieme alle Organizzazioni Sindacali, ha costituito a livello nazionale organismi paritetici bilaterali su tematiche che hanno una rilevanza anche sul piano della sostenibilità, tra cui:

- **Comitato per l'attuazione dei principi di parità di trattamento e uguaglianza di opportunità**, con l'obiettivo di "implementare e rafforzare una cultura attenta alla diversità, anche di genere, tramite azioni positive tese a realizzare esempi di buone prassi nell'ambito del Gruppo e rimuovere gli ostacoli che di fatto impediscono la realizzazione delle pari opportunità". In tale contesto, il Comitato tratta tematiche afferenti all'integrazione ed inclusione delle persone con disabilità, nonché quelle relative agli altri fattori di discriminazione;
- **Ente Bilaterale per la Formazione e Riquilificazione Professionale**, attraverso il quale le Parti promuovono

congiuntamente attività in tema di formazione e di riqualificazione professionale, sia con riguardo a quanto previsto dal Testo Unico in materia di salute e sicurezza sul lavoro, sia con riferimento a eventuali processi di riorganizzazione/ristrutturazione/trasformazione aziendale, ovvero all'introduzione di innovazioni tecnologiche;

- **Organismi Paritetici per la Salute e la Sicurezza sui Luoghi di Lavoro**, è altresì continuata l'attività dell'Organismo in ordine all'uniforme e corretta applicazione degli orientamenti inerenti a salute e sicurezza dei lavoratori, con particolare riguardo ai temi relativi ai nuovi criteri per la valutazione del rischio da stress correlato al lavoro con il fine di "attuare misure volte a promuovere il miglioramento della salute e della sicurezza dei lavoratori". A fine 2018, si è insediato l'Osservatorio Paritetico sulla Sanità Integrativa che svolge un ruolo di proposta e monitoraggio delle prestazioni offerte dal Fondo di Assistenza Sanitaria Integrativa.

Salute e sicurezza sul lavoro

DNF

Il Gruppo Poste Italiane considera la tutela della salute e della sicurezza sul lavoro un valore fondamentale, al quale tutte le persone devono ispirarsi nello svolgimento delle proprie attività quotidiane. L'Azienda, oltre ad aver individuato le responsabilità organizzative e ad essersi dotata di *policy* specifiche in linea con la normativa, con la contrattazione collettiva e con gli standard nazionali e internazionali di riferimento (es. ILO) per assicurare un adeguato presidio di tutti gli aspetti relativi alla salute e alla sicurezza sul lavoro si impegna costantemente ad adottare tutte le misure necessarie per ridurre incidenti, infortuni sul lavoro e malattie professionali. Tali politiche trovano attuazione con riferimento a tutte le operazioni del Gruppo, comprese le attività relative ai partner e ai fornitori, e sono rivolte ad ogni individuo che opera per conto o sotto la supervisione di Poste Italiane. Inoltre, attraverso politiche e programmi di prevenzione e campagne di informazione e sensibilizzazione promuove il benessere psicofisico delle persone. L'Amministratore Delegato del Gruppo, in qualità di Datore di Lavoro, è la più alta figura responsabile e incaricata della supervisione sulle tematiche di salute e sicurezza in Azienda. Il CdA approva la Politica e attraverso i propri comitati endoconsiliari ne supervisiona l'adeguata gestione dei rischi annessi e il rispetto dei relativi principi.

PRINCIPALI CAPITALI COLLEGATI

La politica integrata e la *policy* della salute e sicurezza di Gruppo definiscono gli elementi cardine dei sistemi di gestione della salute e sicurezza sul lavoro adottati, tra cui:

- la continua valutazione dei rischi e la definizione/aggiornamento delle regole e procedure collegati;
- la garanzia che le innovazioni e le trasformazioni dei processi lavorativi si accompagnino sempre a obiettivi di salute e sicurezza dei lavoratori;
- l'adeguamento tempestivo a tutte le variazioni e agli aggiornamenti normativi;
- l'individuazione di ruoli e responsabilità all'interno dell'organizzazione e l'assegnazione delle risorse necessarie alla pianificazione e realizzazione dei programmi finalizzati al raggiungimento degli obiettivi;
- l'efficace e trasparente comunicazione che assicuri la diffusione di tutte le informazioni utili ai fini della prevenzione, comprese le misure di cooperazione e coordinamento con le imprese appaltatrici;
- il periodico riesame del sistema di gestione da parte dell'alta direzione per valutare la correttezza e l'efficacia in un'ottica di miglioramento continuo;
- la prioritizzazione degli interventi da mettere in campo al fine di gestire i rischi relativi alla salute e sicurezza sul lavoro, individuati in fase di assessment, e la conseguente integrazione dei piani d'azione con obiettivi quantitativi per affrontare i suddetti rischi.

A partire dalla politica integrata e dalla *policy* di Gruppo, ciascun datore di lavoro ha approvato la Politica per la propria unità produttiva, rendendola disponibile a tutti i lavoratori. Ai fini del Sistema di gestione della Salute e Sicurezza Sul Lavoro (SGSSL), la responsabilità di ciascuna unità produttiva della Capogruppo e delle principali Società del Gruppo è rappresentata dal proprio datore di lavoro. All'interno della Capogruppo, i datori di lavoro sono coadiuvati dalla funzione *Corporate Affairs/Tutela Aziendale*, che assicura, a livello di Gruppo, le attività di indirizzo, coordinamento e controllo inerenti alla Salute, la Sicurezza sul Lavoro e l'Ambiente, curando, in particolare per la Capogruppo, la progettazione, l'implementazione e la diffusione di sistemi di Gestione della Salute e Sicurezza sul Lavoro e della Tutela Ambientale, in linea con il quadro normativo vigente.

Per il Gruppo le tematiche relative alla salute e sicurezza sul lavoro hanno una rilevanza prioritaria. A tal proposito, Poste Italiane ha definito degli obiettivi quantificabili per i responsabili delle *Business Unit*, che vengono valutati su un *target* di riduzione degli infortuni. Infatti, l'AD, il vertice e tutti i responsabili fino al quinto livello organizzativo sono stati valutati su un *target* di riduzione degli infortuni. L'Azienda ha altresì costituito dei *team* dedicati che hanno lo specifico compito di monitorare giornalmente i dati rilevanti ai fini dei *target* quantitativi definiti.

Promuovere e sviluppare una cultura della sicurezza condivisa a tutti i livelli organizzativi di Poste Italiane è un fattore abilitante per ridurre gli infortuni e incoraggiare il costante miglioramento dei sistemi di gestione adottati

Fra gli obiettivi principali perseguiti da Poste Italiane, risulta fondamentale e prioritaria la continua sensibilizzazione e il coinvolgimento sul tema Salute e Sicurezza sul Lavoro di tutti coloro che operano all'interno del Gruppo. In particolare, rivestono particolare importanza la diffusione e il potenziamento della cultura della sicurezza all'interno dei centri operativi territoriali (centri di distribuzione e uffici postali) e delle relative strutture di coordinamento. Inoltre, l'Azienda si è impegnata nel miglioramento continuo dei Sistemi di Gestione, attraverso la pianificazione e l'esecuzione di iniziative mirate a dare concreta attuazione ai principi fissati con la Politica della Sicurezza sul Lavoro, e nel periodico riesame per la definizione di nuovi obiettivi sfidanti.

Poste Italiane persegue da anni l'obiettivo di ridurre il fenomeno infortunistico, in particolar modo nei settori maggiormente esposti al rischio da circolazione stradale quali quello della logistica e del recapito (centri di meccanizzazione postale e centri di distribuzione). Il costante monitoraggio e controllo di tale fenomeno ha contribuito, anche nel 2022, a realizzare diverse iniziative nel campo della prevenzione e sicurezza dei lavoratori e della tutela dell'ambiente in cui si svolge l'attività professionale. In quest'ottica, i Sistemi di Gestione della Sicurezza sul Lavoro, adottati già da tempo in armonia con la normativa vigente, confermano la convinzione che un efficace sistema di gestione consenta sia di gestire in modo organico e sistemático la sicurezza dei lavoratori, sia di implementare e sviluppare la politica di sicurezza aziendale, monitorando i rischi di tutti i processi operativi. Poste Italiane, consapevole del fatto che il miglioramento continuo dei SGSSL passi attraverso il contri-

buto e la partecipazione di tutti i lavoratori, diversi a seconda dei ruoli e delle responsabilità attribuiti, si impegna a diffondere e potenziare la cultura della sicurezza in ottica sistemica e partecipativa.

Tra le attività svolte per il raggiungimento degli obiettivi, si segnalano la continua formazione, sensibilizzazione e il coinvolgimento del personale sui temi della SSL, gli interventi di miglioramento impiantistico-strutturale dei siti, il miglioramento continuo e il mantenimento della certificazione dei Sistemi di Gestione, nonché la costante valutazione dei rischi in relazione ai processi e ai luoghi di lavoro, il monitoraggio della realizzazione dei Piani di Miglioramento di cui alla valutazione dei rischi e i costanti controlli del rispetto dei requisiti previsti dalla normativa vigente.

Il Gruppo Poste Italiane stanziava annualmente *budget* dedicati alla realizzazione dei piani di miglioramento per gli aspetti legati alla salute e sicurezza sul lavoro. In particolare, l'Azienda sostiene ingenti investimenti per la manutenzione del patrimonio immobiliare e per il miglioramento continuo degli aspetti impiantistici e strutturali dello stesso. Altrettanto rilievo assumono le risorse impiegate per la gestione e manutenzione della flotta aziendale, per la realizzazione delle campagne di formazione, informazione, addestramento, nonché quelle per le attività di verifica/controllo SSL, sorveglianza sanitaria, sviluppo e manutenzione dei sistemi/applicativi a supporto della gestione del tema.

Nel processo di valutazione dei rischi, il Gruppo analizza tutte le situazioni di potenziale pericolo correlate ai processi lavorativi e ai luoghi di lavoro e, dopo aver individuato il relativo potenziale di causare danni, ne valuta il livello di rischio associato. La valutazione prende in considerazione le effettive modalità di svolgimento del lavoro e dell'esposizione del personale, nonché le eventuali misure di tutela già erogate nel rispetto dei criteri definiti da norme tecniche vigenti, *standard* tecnici, norme di buona tecnica e linee guida aziendali. In particolare, l'Azienda considera tutti i pericoli prevedibili ed oggettivamente presenti connessi all'attività lavorativa, quelli derivanti dal corretto e normale uso delle attrezzature/macchine/impianti, quelli prevedibili per le condizioni d'eccezione e quelli dovuti ad eventuali malfunzionamenti o guasti. Il controllo sistematico di tutti i possibili pericoli applicabili e correlabili ai luoghi e processi di lavoro è garantito dalla preliminare compilazione di una *check list* allegata alla procedura aziendale "Gestione Documento di Valutazione dei Rischi". Il Datore di Lavoro si avvale delle competenze del Servizio di Prevenzione e Protezione per presidiare ed eseguire la valutazione dei rischi con conseguente redazione del Documento di Valutazione dei Rischi (DVR) nonché di tutte le relazioni tecniche specialistiche di riferimento.

In particolare, relativamente alla gestione del rischio di salute e sicurezza sul lavoro, questa è realizzata anche grazie al dialogo e lo scambio continuo di informazioni tra le risorse umane, i *manager* e le diverse *Business Unit*. Su base trimestrale, la funzione competente del controllo si coordina con i *risk specialist* e, tramite questi ultimi, anche con i *risk owner*, relativamente alle attività di monitoraggio sull'andamento indicatori di rischio e delle azioni di trattamento relative ai *Top Risk* relativi alla salute e sicurezza sul lavoro. Il risultato delle attività viene rappresentato nei report trimestrali di monitoraggio rischi integrato e presentato al vertice aziendale e al Comitato Controllo e Rischi (CCR).

Successivamente, segue una fase di rendicontazione annuale delle attività tramite il consolidamento dei contributi provenienti dalle diverse funzioni di controllo all'interno della "Relazione Rischi e Compliance". Questa viene presentata agli Organi e al Vertice aziendale e fornisce una vista sintetica e integrata delle iniziative promosse e/o introdotte nel corso dell'anno nelle diverse sfere di operatività aziendale, sotto il coordinamento del Condirettore Generale, nonché delle principali attività e interventi realizzati dalle strutture della funzione per assicurare l'implementazione di opportuni presidi, strumenti e strutture organizzative per il continuo rafforzamento del Sistema di Controllo Interno e Gestione dei Rischi e per la gestione delle tematiche di *compliance* e sostenibilità rilevanti.

Il Gruppo, oltre alla formazione obbligatoria impartita a tutte le Persone, trasmette in forma controllata le Istruzioni Operative di Sicurezza (IOS) in cui sono descritti i pericoli correlati ai processi di lavoro d'interesse, nonché le misure organizzative, preventive e protettive per la riduzione del livello di rischio corrispondente. Al loro interno, le IOS prevedono l'obbligo (derivante dal D. Lgs. 81/08) per i lavoratori di segnalare al Preposto e/o al Rappresentante dei Lavoratori per la Sicurezza competente la presenza di possibili pericoli o situazioni di pericolo sul lavoro, oltre a contenere una descrizione dettagliata dei ruoli e dei compiti dei principali attori della gestione della sicurezza. Analogamente, i Preposti e i Dirigenti sono tenuti a raccogliere tali segnalazioni e ad agire conformemente alle procedure aziendali individuate per la gestione delle criticità, rispettando i tempi e le modalità corrispondenti al livello di rischio ad esse associabili. Considerando la rilevanza di tale tematica, Poste Italiane ha adottato dei meccanismi di informazione, formazione e addestramento per tutti i dipendenti, in modo da gestire adeguatamente, secondo quanto dettato sia dalle misure di tutela riportate nel Documento di Valutazione dei Rischi che dalle procedure aziendali di riferimento, eventuali situazioni di lavoro dalle quali potrebbero derivare lesioni o malattie professionali.

L'Azienda, coerentemente con processi specifici codificati nell'ambito dei sistemi di gestione della salute e sicurezza adottati, effettua l'analisi dei *near-miss* e degli incidenti sul lavoro. In un'ottica di miglioramento continuo, ciascuna unità produttiva della Capogruppo e le Società del Gruppo svolgono costanti attività di monitoraggio degli incidenti, in particolare del fenomeno infortunistico, ai fini dell'individuazione - o della gestione - dei fattori scatenati.

Attraverso la media mobile triennale di passo annuale, che considera i dati degli infortuni a partire dal 2017 fino al 2022, al lordo e al netto del Covid-19, è possibile osservare l'evoluzione dell'andamento del numero di infortuni sul lavoro della Capogruppo. Tale metrica, oltre ad attenuare gli effetti distortivi causati da eventi eccezionali (come la pandemia) nel calcolo del *trend* relativo al fenomeno infortunistico, consente di valutare l'efficacia delle azioni del *management* volte a contenere i fattori di rischio controllabili dall'Azienda (come la progressiva adozione della metodologia *Lean* nei centri di smistamento), con orizzonte temporale di medio-lungo periodo.

La Sorveglianza Sanitaria viene espletata nel Gruppo da un *pool* di medici competenti che, nell'ambito di specifici perimetri territoriali, effettuano quanto previsto dall'art.41 del D.Lgs. 81/08 (visite, sopralluoghi, riunioni periodiche, consulenze *spot*). Il *network* viene coordinato da un medico competente coordinatore che supporta i Datori di Lavoro e il Servizio di Prevenzione e Protezione per gli aspetti di *governance* della sorveglianza sanitaria. Il Documento di Valutazione dei Rischi per i rischi tabellati, di cui al D. Lgs.81/2008 e s.m.i. e i cinque Protocolli sanitari del Gruppo riportano le attività soggette a misure di prevenzione sanitaria:

- il rischio specifico da movimentazione manuale dei carichi;
- il rischio specifico da esposizione ad attrezzature munite di videoterminale;
- il lavoro notturno;
- l'assenza di tossicodipendenza da sostanze stupefacenti e psicotrope, assenza di alcool dipendenza;
- rischio specifico da sopralluoghi presso i cantieri.

Relativamente ai lavoratori che si occupano di mansioni/attività che comportano un'esposizione ad un rischio specifico (tabellato o valutato), viene attivato un programma di sorveglianza sanitaria in cui sono previste visite mediche, accertamenti sanitari integrativi e tossicologici.

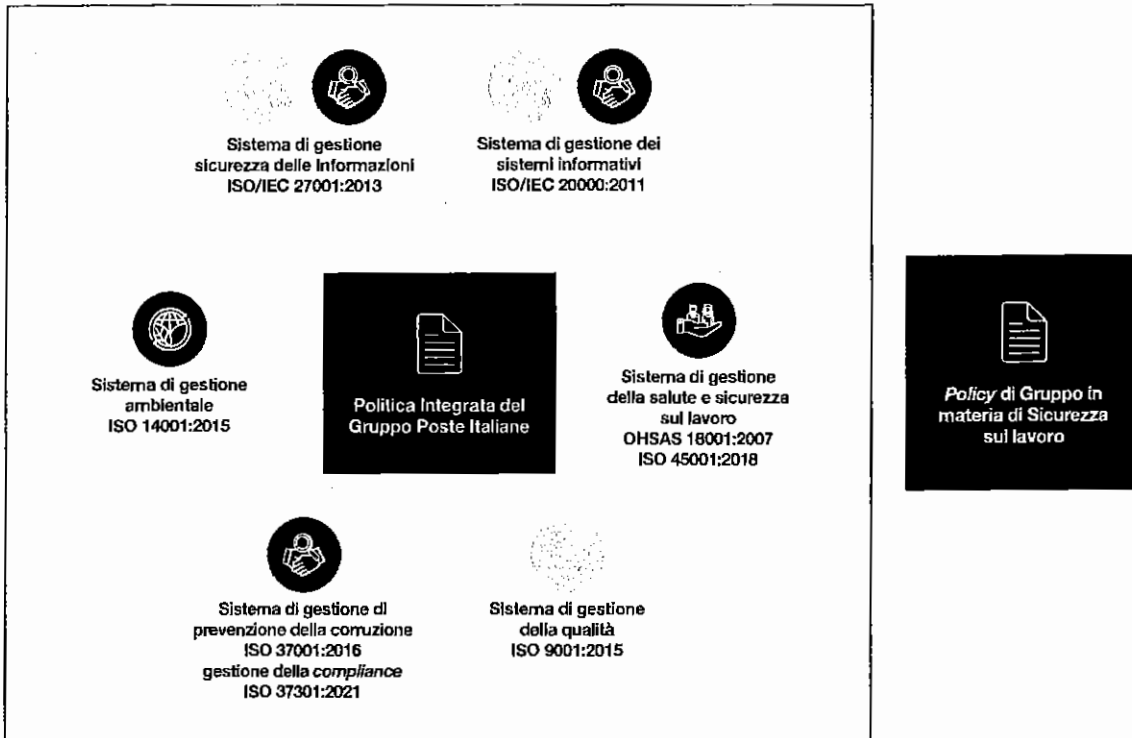

Nel corso del 2022, l'attività della Sorveglianza Sanitaria è stata portata avanti con continuità, su tutto il territorio nazionale, nel rispetto dei protocolli sanitari e della normativa vigente. Inoltre, fino al mese di settembre 2022, è stata assicurata la Sorveglianza Sanitaria eccezionale, per il personale con una condizione di "Fragilità", nonché la gestione del processo di rientro post malattia da Covid-19 con l'adozione di tutte le necessarie soluzioni maggiormente cautelative per la salute del lavoratore o della lavoratrice per fronteggiare il rischio da SARS-CoV-2.

I Rappresentanti dei Lavoratori per la Sicurezza (RLS), che rientrano fra gli attori principali della gestione della salute e sicurezza sul luogo di lavoro, sono stati scelti direttamente dai lavoratori nell'ambito delle rappresentanze sindacali aziendali, come previsto dal D.Lgs. 81/08. I RLS vengono periodicamente consultati non solo a seguito dell'introduzione di nuove metodologie di valutazione del rischio, ma anche in occasione di variazioni organizzative o di processo che possano determinare un impatto per la salute e sicurezza sul lavoro, nonché in fase di redazione del Documento di Valutazione dei Rischi. Adottare una consultazione adeguata, tempestiva e preventiva con i RLS consente di ottenere pareri utili per il puntuale adempimento degli obblighi legislativi e per il miglioramento continuo della salute e della sicurezza dei lavoratori. La consultazione può interessare tutti i Rappresentanti dei Lavoratori per la Sicurezza del territorio nazionale o solo quelli di un territorio specifico.

Il confronto tra parte datoriale e lavoratori, promosso dal Gruppo, avviene attraverso l'Osservatorio Paritetico Nazionale (OPN) e gli Organismi Paritetici Regionali (OPR). Grazie a questi comitati, a cui partecipano le rappresentanze a livello nazionale e territoriale, datoriali, sindacali e dei RLS, l'Azienda coinvolge tutte le parti interessate al fine di affrontare specifici temi di

salute e sicurezza emersi anche da segnalazioni da parte dei lavoratori, condividere iniziative in materia di salute e sicurezza sul lavoro e avviare il processo di consultazione dei RLS sulla valutazione del rischio. Pertanto, le sedute degli Organismi Paritetici sono convocate ogniqualvolta ne emerga la necessità e non secondo un calendario prestabilito.

Nel corso degli anni Poste Italiane ha definito un piano pluriennale di adozione su tutto il perimetro aziendale delle certificazioni in materia di salute e sicurezza, che nel 2021 ha portato al completamento dell'iter di certificazione di tutte le unità produttive della Capogruppo. Nel 2022 sono stati mantenuti attivi, con relative certificazioni, Sistemi di Gestione della Salute e Sicurezza sul lavoro conformi alla norma UNI ISO 45001 in tutte le unità produttive della Capogruppo, secondo i piani e gli obiettivi strategici fissati. Anche le Società del Gruppo adottano SGSSL certificati da Organismi di certificazione accreditati. Al 2022 le principali Società del Gruppo certificate secondo la norma UNI ISO 45001 sono: EGI S.p.A., Poste Vita S.p.A., Poste Assicura S.p.A., SDA S.p.A., Postel S.p.A., Poste Air Cargo S.r.l., BancoPosta Fondi S.p.A., Postepay S.p.A. L'obiettivo di Poste Italiane è mantenere tale certificazione in tutte le unità produttive di Poste Italiane S.p.A. e delle Società del Gruppo.

Le verifiche e controlli in materia Salute e Sicurezza sul Lavoro vengono sistematicamente effettuati non solo da ciascuna unità produttiva nell'ambito del proprio SGSSL, ma anche da Tutela Aziendale, trasversalmente, in ciascuna unità produttiva della Capogruppo e nelle Società del Gruppo. Nello specifico, le attività svolte nel 2022 da quest'ultima si compongono di:

- *audit* sui Sistemi di Gestione della Salute e Sicurezza sul Lavoro/Ambiente con l'obiettivo di verificare che i sistemi di gestione adottati in Azienda siano conformi ai requisiti delle norme di riferimento e che gli stessi siano correttamente attuati e mantenuti attivi;
- *technical audit*, attività di controllo che mira ad analizzare e valutare lo stato di conformità SSL dei siti, con particolare riferimento agli aspetti di carattere impiantistico/strutturale;
- verifiche operative e sensibilizzazione in ambito salute e sicurezza del personale operante nei siti, in particolare attività di verifica operativa nei Centri di Recapito e negli Uffici Postali mirata alla valutazione dello stato complessivo in termini di sicurezza infrastrutturale, impiantistica e di processo di lavoro.

Per monitorare e controllare l'efficacia delle politiche SSL adottate, Poste Italiane ricorre a diversi strumenti, tra cui:

- GISLA (Gestione Informatica Sicurezza sul Lavoro e Ambiente);
- Piattaforme per la gestione della formazione;
- GIW (Gestione Informatica Infortuni);
- SSA (*Safety Self Assessment*);

- *Real Gimm* (quota parte per la gestione delle manutenzioni che impattano la SSL);
- *File Maker* (quota parte per la gestione dei lavori immobiliari che impattano la SSL);
- EDVR (gestione elettronica dei Documenti di Valutazione dei Rischi);
- EPI (Gestione Emergenze Poste Italiane);
- *Green Pass* (Sistema Controllo GP).

Le *performance* e gli obiettivi stabiliti vengono costantemente monitorati e riesaminati in occasione del Riesame previsto di SGSSL adottati.

Infine, si segnala che con il termine dello stato di emergenza sanitaria, avvenuto il 31 marzo 2022, e il miglioramento dell'evoluzione epidemiologica, legato soprattutto alla notevole riduzione del danno atteso in caso di contagio, durante il 2022 è stata attuata una rimodulazione delle misure anti-contagio. In particolare, le misure di tutela adottate in funzione dell'effettivo livello di rischio, del quadro normativo di volta in

volta vigente e delle indicazioni dell'Autorità sanitaria, sono state le seguenti:

- informativa verso il personale esterno (manutentori, consulenti, clienti ecc.) e dipendenti circa le misure di contenimento del rischio adottate dall'Azienda e le relative regole comportamentali;
- distribuzione, con cadenza temporale tale da assicurarne sempre la disponibilità, di mascherine protettive delle vie respiratorie per tutti i lavoratori;
- pubblicazione di procedure ed istruzioni operative di sicurezza per la gestione dei casi sintomatici e dei casi Covid-19 presenti in Azienda;
- campagne di comunicazione volte alla continua sensibilizzazione del personale sull'adozione dei corretti comportamenti finalizzati alla prevenzione del rischio di contagio.

Resta comunque attivo il Comitato per il controllo sulla implementazione delle misure di tutela descritte, istituito con specifico accordo nell'ambito dell'Osservatorio Paritetico Nazionale.

Con specifico riferimento al settore della logistica e del recapito, settore maggiormente esposto in relazione ai rischi da circolazione stradale, Poste Italiane ha implementato diverse iniziative, tra cui la costante valutazione dei rischi e l'aggiornamento dei DVR a seguito delle riorganizzazioni nell'ambito del recapito e alle misure intraprese per contrastare il Covid-19.

È prevista la registrazione di qualsiasi tipologia di evento (dalla condizione insicura all'azione insicura, alla medicazione e al *near miss*) in un nuovo applicativo informatico, S-EWO, con un'analisi approfondita della dinamica degli infortuni, nonché l'incremento dell'utilizzo della leva sanzionatoria nei casi di non conformità alle procedure/istruzioni vigenti.

Al fine di condividere con il territorio informazioni sul fenomeno infortunistico, è stata realizzata a livello centrale una reportistica giornaliera, settimanale e mensile. Inoltre, per analizzare adeguatamente il fenomeno e condividere le *best practice*, si sottolinea la presenza di un Comitato di Sicurezza mensile con tutte le Macro Aree Logistiche (MAL) coordinato dalla struttura di Sicurezza e Infrastrutture centrale.

Per quanto riguarda la riduzione degli eventi infortunistici, il Gruppo ha provveduto alla sostituzione di tutte quelle attrezzature fonti di potenziali incidenti con nuove attrezzature, come l'*Automated guided vehicles* al posto dei carrelli uomo a bordo e/o *transpallet*.

Infine, grazie ad una costante innovazione, Poste Italiane utilizza moderne tipologie di impianti di smistamento (TOP2K, XMS, Solysort, Easy Sorter) ed ha introdotto la funzionalità "App Safety" per il palmare dei portalettere che consente di:

- autocertificare da parte dei lavoratori i DPI indossati prima dell'inizio della operatività all'esterno;
- aumentare la consapevolezza dei rischi da parte dei portalettere facendoli partecipi nella rilevazione di condizioni non sicure, *near miss* e infortuni;
- informare tempestivamente i portalettere di condizioni di pericolo imminente;
- velocizzare la diffusione di informazioni/notizie/procedure inerenti alla Sicurezza sul Lavoro e ambiente.

Tutela dei diritti umani DNF in Azienda

Poste Italiane è consapevole del ruolo chiave che può ricoprire nella promozione dei principi di sviluppo sostenibile, data la grande importanza che assume come Azienda all'interno del contesto economico e sociale italiano. Pertanto, il Gruppo si è dotato di un Codice Etico, affiancato da diverse *policy* e linee guida aziendali volte a proteggere e tutelare i Diritti Umani. Tra queste vi sono: la Politica Aziendale in materia di tutela e protezione dei Diritti Umani, la Politica in materia di Diversità degli Organi di Amministrazione e Controllo, la *Policy Diversity & Inclusion* e la più recente Politica di Sostegno della Genitorialità Attiva. Inoltre, nel rispetto dei principi internazionali riguardanti la tutela e la protezione dei Diritti Umani, oltre a seguire le politiche e le linee guida aziendali sopramenzionate, Poste Italiane si impegna a garantire il benessere di tutte le persone che lavorano in Azienda o che collaborano con essa, e a migliorare le condizioni della comunità in cui opera, svolgendo un ruolo attivo nella divulgazione dei principi previsti dalla normativa e dagli *standard* internazionali.

Poste Italiane si impegna ad assumere sempre maggiori responsabilità nella salvaguardia dei Diritti Umani, sia nell'interesse delle persone che collaborano con la Società che di quelle facenti parte della comunità in cui opera

La Politica Aziendale del Gruppo riguardante la tutela e la protezione dei Diritti Umani ribadisce le regole di condotta da rispettare nei rapporti con tutti gli *stakeholder* con cui l'Azienda interagisce, come già esplicitato all'interno del Codice Etico. Poste Italiane presta una particolare attenzione verso la tutela dei diritti di tutti coloro che sono ricompresi all'interno della catena del valore del Gruppo, e che appartengono a specifiche categorie quali: lavoratori propri, donne, bambini, persone indigene, migranti, lavoratori esterni, comunità locali, fornitori e *partner*, clienti, persone con disabilità, persone vittime di qualsiasi forma di discriminazione e violenza. La Politica espone l'impegno dell'Azienda nell'allineare i processi aziendali con i principali *standard* e *best practice* internazionali, e nel promuovere tali principi e rendicontare periodicamente l'andamento delle *performance* raggiunte, in termini di modalità di gestione e monitoraggio, rischi identificati e azioni di gestione e mitigazione. La Politica, inoltre, regola vari aspetti riguardanti la prevenzione e la condanna di tutte le forme di discriminazione o violenza, tra cui il lavoro forzato o minorile e il traffico di esseri umani, e promuove la libertà di associazione, il diritto alla contrattazione collettiva e una retribuzione equa, con l'obiettivo di sostenere il benessere della persona.

Poste Italiane considera fondamentale incentivare e sviluppare una cultura d'impresa fondata sul rispetto e sulla valorizzazione della diversità in tutte le sue forme e manifestazioni, a tutti i livelli dell'organizzazione. Gestire le diversità in modo inclusivo non solo consente di creare valore sociale condiviso, ma fornisce anche un vantaggio competitivo per l'intero Gruppo e intensifica l'*engagement* e il *commitment* delle persone rispetto agli obiettivi aziendali.

PRINCIPALI CAPITALI COLLEGATI

I progetti e le iniziative promosse da Poste Italiane al fine di garantire l'inclusione sociale e valorizzare la diversità si inseriscono all'interno di un più ampio quadro strategico, che è finalizzato allo sviluppo di modelli organizzativi equilibrati che favoriscano la comunicazione e l'emergere delle caratteristiche personali, tutelando allo stesso tempo la vulnerabilità individuale. Il percorso intrapreso dal Gruppo è orientato ad evolversi da un approccio focalizzato alla sola tutela e integrazione delle diversità, verso una strategia più proattiva che mira a superare le barriere e a risolvere i fattori che ostacolano l'inclusione lavorativa degli individui. La missione e la strategia in tema di diversità e inclusione sono infatti definite dall'Azienda al fine di creare un ambiente di lavoro collaborativo, solidale e aperto, che consenta al Gruppo di massimizzare le opportunità che ne derivano, sia per il benessere dell'Azienda che per il vantaggio competitivo nel *business*.

Il Gruppo ha sancito i propri principi e valori guida attraverso l'elaborazione e la formalizzazione da parte del Consiglio di Amministrazione di una *Policy Diversity & Inclusion*, attraverso la quale l'organo amministrativo definisce degli obiettivi misurabili e pluriennali. In particolare, la *Policy Diversity & Inclusion* si basa su quattro pilastri: Genere, Generazioni, Disabilità/Vulnerabilità e Interculturalità/Cultura inclusiva, ed è stata sviluppata attraverso un processo *bottom-up* che ha coinvolto l'ascolto delle idee e dei bisogni della popolazione aziendale. Grazie a questo processo sono stati proposti numerosi progetti su temi quali sviluppo e opportunità, comunicazione aperta, inclusione e cura, partecipazione e dialogo, cultura e consapevolezza. La Politica è disponibile *online* sul sito *web* aziendale, ed è comunicata a tutto il personale dipendente attraverso specifiche sessioni formative, sulla base dei ruoli e delle responsabilità. Con riferimento all'aggiornamento, la Politica viene valutata almeno una volta all'anno, in base alle evidenze emerse dagli *assessment* e dal monitoraggio delle tendenze nazionali e internazionali.

Genere

Il Gruppo ha intrapreso un percorso con oltre 10 progetti per supportare l'equità di genere e rimuovere gli ostacoli alla crescita professionale delle donne. In particolare, il Gruppo contempla il rafforzamento dei sistemi di *governance* per la progressione di carriera, la progettazione di *focus group* composti finalizzati alla valutazione dei principali pregiudizi consapevoli o inconsci che influenzano la *leadership* inclusiva, il miglioramento dei meccanismi di *work life adjustment* in termini di conciliazione e condivisione delle responsabilità familiari e l'adesione al percorso per la prestigiosa certificazione internazionale *Equal Salary*, conseguita nel mese di novembre 2022, come da piano ESG, sancendo e confermando ulteriormente l'impegno del Gruppo a favore dell'equità retributiva tra donna e uomo all'interno dell'organizzazione.

Il Gruppo ha ampliato la propria attenzione verso le tematiche riguardanti l'orientamento sessuale e la prevenzione delle molestie di genere sul posto di lavoro, estendendo un programma informativo al fine di sensibilizzare tutti i dipendenti. L'obiettivo è quello di fornire una panoramica del fenomeno delle molestie di genere e dei relativi impatti sulle persone e sulle organizzazioni, per promuovere una cultura del rispetto all'interno dell'ambiente lavorativo.

Generazioni

Poste Italiane promuove strategie integrate per favorire il dialogo e lo scambio tra le diverse generazioni all'interno dell'Azienda, considerando le prospettive demografiche e i loro effetti sul turnover. Il Gruppo promuove la contaminazione delle differenti esperienze sociali, culturali e professionali, così come delle diverse abilità, conoscenze e competenze tipiche di ciascuna generazione. Questa apertura alla complementarità e alla diversità favorisce l'interscambio di esperienze per supportare l'inclusione e le opportunità di impiego.

Disabilità/Vulnerabilità

L'Azienda ha intrapreso iniziative di sensibilizzazione a livello collettivo per riconoscere preventivamente situazioni di vulnerabilità e facilitare l'inserimento lavorativo e la qualità del lavoro per coloro che presentano disabilità di tipo sensoriale, motorio o cognitivo.

In tale contesto, Poste Italiane si impegna a sviluppare politiche di intervento volte a diffondere una cultura d'impresa inclusiva e a introdurre un'identità distintiva che tenga conto delle situazioni di fragilità.

Interculturalità/Cultura inclusiva

Poste Italiane ha progettato iniziative pluriennali mirate a promuovere l'interazione tra culture ed esperienze diverse attraverso programmi di *envisioning* e di diffusione della conoscenza negli ambienti organizzativi e manageriali, con l'obiettivo di promuovere una visione interculturale e aperta al confronto a più livelli improntata alla cooperazione organizzativa e sociale.

I programmi di *Diversity & Inclusion*, in linea con quanto previsto nella *Policy* aziendale, sono monitorati mediante indicatori elaborati annualmente in raccordo e collaborazione con la funzione Sviluppo Sostenibile, *Risk* e *Compliance* di Gruppo in ambito *Corporate Affairs*, in coerenza con le linee guida evolutive del piano di sostenibilità aziendale.

Poste Italiane mantiene, in continuità con l'anno precedente, il proprio Piano di *Diversity & Inclusion*, elaborato a seguito di un processo di partecipazione attiva che ha previsto la costituzione di gruppi di lavoro interfunzionali composti da *professionals* e *middle-manager* che hanno operato secondo una logica *bottom-up*, elaborando proposte progettuali che sono state valutate sulla base di due variabili, l'impatto quali-quantitativo sulla popolazione aziendale e la velocità di implementazione. Il Piano è finalizzato alla generazione di processi di cambiamento significativi che portino un valore aggiunto alle persone, ai comportamenti organizzativi, agli stili di *leadership* e alle relazioni all'interno del Gruppo. Attraverso l'implementazione di progetti e iniziative mirate, nonché di campagne di comunicazione e sensibilizzazione, il Gruppo promuove l'ingaggio, l'ascolto e la fiducia, la creazione di ambienti di lavoro inclusivi, e in generale il miglioramento dell'organizzazione aziendale attraverso la valorizzazione delle differenze.

Inoltre, per diffondere ulteriormente la conoscenza e la comprensione dell'importanza di ogni individuo all'interno dell'Azienda e delle iniziative a supporto della diversità, e, per promuovere la contaminazione di culture ed esperienze differenti per innescare processi partecipati connotati dalla presenza di un insieme di culture diverse tra le persone, sull'*intranet* aziendale NoidiPoste è disponibile un'apposita sezione "*Diversity & Inclusion*", contenente notizie, documenti e materiale multimediale. Infine, è stata lanciata la collana di *podcast* seriali dal titolo "In Altre Parole" che punta a porre l'attenzione all'ascolto nel racconto di storie di diversità e inclusione.

L'impegno dell'Azienda per promuovere una cultura inclusiva è un percorso culturale che può arricchire l'esperienza del personale durante tutta la sua carriera lavorativa, con benefici sia individuali che collettivi. A tal fine, l'Azienda lavora in modo costante e sistematico, implementando azioni sinergiche per sviluppare modelli di analisi e indicatori coerenti con i processi di *people management*. Questo sistema consente al *management* di valutare scenari, obiettivi e metriche in modo trasparente e visibile sia all'interno dell'organizzazione che per gli *stakeholder* esterni.

Smart Café Percorsi tematici sulla interculturalità

SMART CAFÉ

TI DO LA MIA PAROLA!

Per sottolineare l'impegno del Gruppo nel promuovere iniziative per lo sviluppo e l'integrazione della comunità manageriale, Poste Italiane sta portando avanti il progetto "Smart Café", che consiste in conversazioni dedicate ai *manager* con l'obiettivo di favorire un dialogo ad alto tasso interculturale sul lavoro e non solo.

Queste conversazioni sono incentrate su percorsi tematici che rendono visibili le diverse culture e i diversi saperi, considerando anche le differenze generazionali. Utilizzando una modalità innovativa di comunicazione e relazione, il progetto mira a creare uno spazio interculturale per lo scambio di contributi, punti di vista ed esperienze sociali, culturali e lavorative.

In particolare, con l'edizione speciale di "Smart Café" dedicata al confronto generazionale, si promuove la contaminazione delle differenti esperienze sociali, culturali e lavorative per potenziare l'alleanza al lavoro tra le diverse generazioni.

Nel 2022, l'Azienda è stata certificata secondo lo *standard* ISO 30415:2021 *Human resource management – Diversity and Inclusion* per la sua capacità di integrare i principi di diversità e inclusione in tutti i processi di progettazione, indirizzo, controllo, coordinamento e fornitura dei servizi postali, finanziari, assicurativi e digitali. Il Gruppo è la prima società di grandi dimensioni del FTSE MIB certificata secondo lo *standard* Uni ISO 30415:2021, riconoscimento che conferma ancora una volta il ruolo centrale che Poste Italiane assegna ai principi di sviluppo sostenibile.

La gestione consapevole delle diversità in chiave inclusiva, oltre a creare valore sociale condiviso, determina un vantaggio competitivo per l'intero Gruppo ed è funzionale alla promozione dell'*engagement* delle persone rispetto agli obiettivi aziendali. L'ottenimento dell'attestazione ISO 30415 rappresenta infatti un ulteriore merito dell'Azienda, che va ad aggiungersi ad altri importanti riconoscimenti ottenuti da Poste Italiane.

Nel corso del 2022, sono stati inoltre condotti i primi 8 laboratori di innovazione rivolti a capi operativi territoriali, che con la metodologia del *polarity thinking* hanno concretamente affrontato i temi relativi a una delle quattro dimensioni che costituiscono la *Policy Diversity & Inclusion*, mettendosi in gioco concretamente e redigendo un proprio personale piano di azione.

Durante l'anno, tutte le attività relative alla *Diversity & Inclusion* sono state attentamente monitorate e valutate tramite un sistema di raccolta *feedback* per garantire un continuo miglioramento e per permettere ai partecipanti di co-progettare le successive iniziative. L'Azienda ha riconosciuto l'importanza di integrare sempre di più le dimensioni sociali, relazionali e di processo della *Diversity & Inclusion* nella sua visione strategica. A tal fine, nel mese di novembre è stata lanciata un'indagine su tutta la popolazione aziendale tramite la *survey* "Poste IN *Diversity & Inclusion* secondo te", che ha lo scopo di raccogliere informazioni sulla conoscenza e sulla percezione individuale e collettiva delle tematiche legate alla *Diversity & Inclusion*, nonché sull'impegno aziendale in questo ambito. In particolare, è stata richiesta la percezione dei dipendenti sulle seguenti diverse aree:

- Conoscenza della *Diversity & Inclusion* dei rispondenti;
- Conoscenza delle quattro direttrici di *D&I*;
- Attitudini sulla *D&I*;
- Valutazioni ed opinioni su *D&I* in Azienda;
- Conoscenza e opinioni dei progetti e delle *policy D&I* in Poste Italiane.

La *survey* è stata realizzata in collaborazione con "Work Wide Women", ed è stata diffusa in modalità *online* attraverso l'*intranet* aziendale, le *news* ufficiali, il TGPoste e la *newsletter*.
