PRESS RELEASE

EDIL SAN FELICE ACHIEVES SOA CERTIFICATION IN OG4, OG2 and OG12 CATEGORIES

Naples - 20th October 2023 – Edil San Felice S.p.A. Società Benefit ("the Company" or "Edil San Felice"), a leading integrated operator active in the maintenance of critical infrastructures in Italy, listed on the Euronext Growth Milan market - announces that it has obtained the **SOA** certification - categories **OG2** and **OG12** - as proof of the company's commitment to ensuring the highest quality and professionalism in its services.

The **OG2** category relates to the **restoration and maintenance of protected real estate**, a highly relevant category considering the value and importance of Italy's historical and cultural heritage and the ongoing need for public intervention in relation to protected real estate, which is also in response to the recent acquisition of Sogem S.r.l.

Category **OG12** covers **remediation and environmental protection works and installations**, a category that provides access to various types of interventions aimed at reducing the environmental impact of human activities.

These certifications are in addition to the SOA certificate, category **OG4**, already obtained by Edil San Felice in April 2023, with reference to **underground projects**, specifically concerning the **construction, maintenance or renovation of below-ground works** necessary to allow mobility on the surface.

In full compliance with Italian regulations on Public Works and Qualification, the certificates were issued in accordance with DPR 207/2010. The company is therefore qualified to participate in public tenders also within the sector of the restoration of protected assets, with a value threshold of up to €15 million, as well as being eligible for major private contracts, confirming Edil San Felice's consolidated reliability and competence in the sector.

The certifications obtained, which have been added to an already impressive list of 13 categories, are tangible evidence of the company's ongoing commitment to providing excellence in maintenance services in a variety of sectors, opening up new opportunities and consolidating the company as a trusted partner for public and private entities requiring top-quality services in the restoration and maintenance of assets and services.

The certifications are available on the Company's website <https://www.edilsanfelice.it/> with in the Certification section.

This press release is available on the Company's website <https://www.edilsanfelice.it/> in the Investor Relations - Press Releases section and at <https://www.emarketstorage.it/it>.
