2.2 The reasons for the adoption of the plan

2.2.1 The targets which the parties intend to reach through the adoption of the plan

The 2024 Group Incentive System aims to attract, retain and motivate Group beneficiaries in compliance with national and international regulatory requirements with the aim to define - in the interest of all stakeholders - incentive systems in line with long term company strategies and goals, linked to Group results, adjusted in order to consider all risks, in coherence with capital and liquidity levels needed to cover the activities in place and, in any case, able to avoid misleading incentives that could drive to regulatory breaches or to assume excessive risks for the Bank and the system in its whole. The 2024 Group Incentive System is compliant with the Group Remuneration Policy and Report and with the most recent national and international regulatory requirements providing for:

- the definition of a bonus pool at Group level, with cascading at divisional level consistently with segment reporting disclosure, based on the actual divisional performance adjusted considering quality and risk indicators as well as cost of capital;
- allocation of a variable incentive defined on the basis of the determined bonus pool, individual performance evaluation, internal benchmark for specific roles/markets and maximum ratio between variable and fixed compensation as approved by the Annual General Meeting;
- a malus condition (Zero Factor or Reduced scenarios) which applies in case specific thresholds of profitability, capital and liquidity are not met at both Group and country/division level;

- risk adjusted metrics in order to guarantee long-term sustainability, regarding company financial position and to ensure compliance with regulations;
- definition of a balanced structure of upfront (following the moment of performance evaluation) and deferred payments, in cash and/or financial instruments for Group Material Risk Takers except for Group CEO, GEC members and Group CAE, whose variable remuneration is fully paid-out in financial instruments;
- deferred payments for selected beneficiaries¹ subject to additional long-term performance conditions;
- distribution of financial instruments payments which take into account the applicable regulatory requirements regarding the application of retention periods.

2.2.2 Principal factors of variation and performance indexes taken into account for the assignment of plans based on financial instruments

Individual bonuses will be allocated managerially based on available bonus pool, individual performance evaluation of the beneficiary and internal benchmarking for specific roles/markets. Individual performance appraisal is based on specific goals, defined starting from the business strategy and in compliance with the KPI Bluebook framework. Incentive payouts shall be made over a multi-year period, subject to continuous employment at each date of payment and as follows:

- for the CEO, GEC members and Group Chief Audit Executive (CAE) in 2026 the first instalment of the total incentive will be paid in free UniCredit ordinary shares subject to the evaluation of the individual adherence to compliance and conduct principles, considering also the gravity of any internal/external findings (i.e. Audit, Bank of Italy, Consob and/or analogous local authorities);
- for all other Group Material Risk Takers, the first installment of the overall incentive will be paid in cash in 2025 and shares in 2026, in absence of any individual values/compliance breach, considering also the gravity of any internal/ external findings (i.e. Audit, Bank of Italy, Consob and/or analogous local authorities);
- the remainder of the overall incentive will be paid in several installments in cash and/or equity instruments during the period:
 - 2029-2031 for Group CEO and GEC (excluding Control Functions and People & Culture);
 - 2029- 2030 for GEC-1 (excluding Control Functions and People & Culture and Manager in Charge of Drafting the Company Financial Reports);
 - 2027- 2031 for GEC belonging to Control Functions, People & Culture and Group CAE;
 - 2027- 2030 for GEC-1 belonging to Control Functions and People & Culture, Manager in Charge of Drafting the Company Financial Reports, Group CAE direct reports and other Senior Management;
 - 2027- 2029 for other Group Material Risk Takers.
- each tranche will be subject to the application of the Zero Factor for the year of allocation and in absence of any individual/values compliance breach, considering also the gravity of any internal/external findings (i.e. Audit, Bank of Italy, Consob and/or analogous local authorities).

2.2.3 The factors assumed as basis for the determination of the compensation based upon financial instruments, or the criteria for the determination of the aforesaid compensation

In 2024 Group Incentive System the link between profitability, risk and reward is assured by linking directly the bonus pool with company results, cost of capital and risk profiles relevant for the Group as stated in the Group Risk Appetite Framework. At this stage, the 2024 Group Incentive System does not contain an exact indication of the value of equity instruments to be actually allocated to the beneficiaries, rather it merely fixes the maximum number of free shares to be issued with reference to the Plan. In any case, there is the indication of the criteria to be followed by the Board of Directors for the determination of the actual number of beneficiaries and the number of equity instruments to be granted in the resolutions that after the Annual Shareholders' Meeting approval will execute the Plans. The 2024 Group Incentive System provides that in 2025 it will be formulated the promise to pay the incentive in cash and equity instruments. The percentages of the payments in cash and equity instruments are linked to the beneficiaries' categories as described in the following points of this document. The final evaluation of sustainable performance

¹ members of Group Executive Committee ("GEC") and managers directly reporting to GEC members ("GEC-1"), excluding control functions, People & Culture and Manager in Charge of Drafting the Company Financial Reports.

parameters and risk-reward alignment will be reviewed by the Remuneration Committee and the Board of Directors of UniCredit.

2.2.4 The reasons justifying the decision to assign compensation plans based on financial instruments not issued by UniCredit, such as financial instruments issued by its subsidiaries, its parent companies or third parties; in the event the aforesaid financial instruments are not negotiated on regulated markets, the issuer shall provide information as to the criteria adopted for the calculation of the value attributable to such financial instruments

The 2024 Group Incentive System does not contemplate the allocation of similar financial instruments. Nevertheless, it is foreseen the possibility for the Countries to submit to the Holding Company non-binding opinion requests, in order to adapt the System on the bases of the local law and regulatory requirements that could imply the adoption of financial instruments issued by the single company and different from UniCredit shares.

2.2.5 The evaluations, with respect to the relevant tax and accounting implications, taken into account in the definition of the plans

The 2024 Group Incentive System definition has not been influenced by significant tax or accounting consideration. In particular, the tax and social securities regime applied to the free shares allocated will be consistent with legislation in place in the countries where the beneficiary is fiscally resident.

2.2.6 The indication as to whether the plan enjoys any support from the special fund for encouraging worker participation in the companies, as provided for under Article 4, paragraph 112, of Law December 24, 2003 n. 350

The 2024 Group Incentive System is not currently supported by the special fund for encouraging worker participation in the companies, as provided for under sect. 4, paragraph 112, of Law December 24, 2003 n. 350.

2.3 The procedure for the adoption of the plan and the timeframe for the assignment of the financial instruments

2.3.1 Powers delegated to the board of directors by the shareholders' meeting for the implementation of the plan

Consistently with the practices observed in the market and with the remuneration strategy for shareholders, starting from 2022 it was proposed to use own shares, also through dedicated Share Buy-Back, as alternative and preferred method to free capital increase for sourcing the shares under the new and previous Group incentive systems. For the 2024 System, in line with last year, no specific request to issue UniCredit free ordinary shares via free capital increase is submitted to 2024 Shareholders' Meeting. Any dedicated proposals of share buy-back or free capital increase relating to the 2024 System will be submitted to the shareholders' meeting from time to time on the basis of the actions necessary to serve the 2024 System, depending on the evaluation that, in light of the broader economic context, will be carried out by management and the Board of Directors and without prejudice to the need to obtain supervisory approvals. In case it will not be feasible to proceed with the allocation (full or partial) of UniCredit ordinary shares to serve the 2024 System, an equivalent amount in cash will be allocated to the beneficiaries, determined multiplying the number of shares to be assigned by the arithmetic mean of the official market price of ordinary shares during the month preceding each Board of Directors resolution executing the payment of each shares installment after the end of the mandatory retention period. The number of shares to be allocated in the respective instalments shall be defined in 2025, on the basis of the arithmetic mean of the official market closing price of UniCredit ordinary shares during the month prior the Board of Directors that approves 2024 results.. The allocation of a maximum number of 11,200,000 UniCredit ordinary shares is estimated, representing about 0.65% of UniCredit share capital. Over the period 2026-2031 each tranche of UniCredit equity instruments will be subject to the application of the Zero Factor for the year of allocation and in absence of any individual/values compliance breach, considering also the gravity of any internal/external findings (i.e. Audit, Bank of Italy, Consob and/or analogous local authorities). Payouts in shares comply with the applicable regulatory provisions in terms of holding period.

2.3.2 Indication of the individuals in charge of the management of the plan, their powers authority

The Organizational Unit “Group Performance & Rewards”, within the department “Group People succession, Analytics & Rewards” of the Holding is in charge for the management of the 2024 Group Incentive System.

2.3.3 Procedures for the amendment of the plans, if any, also in connection with potential variation of the original targets

UniCredit reserves the right to amend and/or change the System and consequently the Rules as a result of any changes in the applicable laws or regulatory framework² in force (related, by way of example to labour, regulatory provisions, tax, corporate, accounting, capital market and/or securities) or in the interpretation or application by the competent authorities and/or in connection with any extraordinary and/or unpredictable circumstances that may affect the Group, the Company or the market in which it operates, (including, but not limited to, M&A or other extraordinary transactions or corporate events, changes in the macroeconomic scenarios, changes of the strategic plan and/or recasting to the strategic plan perimeters, etc.) consistently with the overall setup approved by the Annual General Meeting within the Group Remuneration Policy and to that extent as it is functional to keeping the essential contents of the System substantially unchanged, as much as possible, preserving its main incentive and loyalty-enhancing purposes

In case of change of control of the Company, the latter reserves the right to consider acceleration of the outstanding rights or pro-rata payment under the System or termination of the latter³.

2.3.4 Description of the modalities for the determination of the availability and assignment of the financial instruments contemplated by the plan

Consistently with the practices observed in the market and with the remuneration strategy for shareholders, starting from 2022 it was proposed to use own shares, also through dedicated Share Buy-Back, as alternative and preferred method to free capital increase for sourcing the shares under the new and previous Group incentive systems. For the 2024 System, in line with last year, no specific request to issue UniCredit free ordinary shares via free capital increase has been submitted to 2024 Shareholder’s Meeting.

Any dedicated proposals of share buy-back or free capital increase relating to the 2024 System will be submitted to the shareholders’ meeting from time to time on the basis of the actions necessary to serve the 2024 System, depending on the evaluation that, in light of the broader economic context, will be carried out by management and the Board of Directors and without prejudice to the need to obtain supervisory approvals. In case it will not be feasible to proceed with the allocation (full or partial) of UniCredit ordinary shares to serve the 2024 System, an equivalent amount in cash will be allocated to the beneficiaries, determined multiplying the number of shares to be assigned by the arithmetic mean of the official market price of ordinary shares during the month preceding each Board of Directors resolution executing the payment of each shares installment after the end of the mandatory retention period. The number of shares to be allocated in the respective instalments shall be defined in 2025, on the basis of the arithmetic mean of the official market closing price of UniCredit ordinary shares during the month prior the Board of Directors that approves 2024 results.. The allocation of a maximum number of 11,200,000 UniCredit ordinary shares is estimated, representing about 0.65% of UniCredit share capital. Over the period 2026-2031 each tranche of UniCredit equity instruments will be subject to the application of the Zero Factor for the year of allocation and in absence of any individual/values compliance breach, considering also the gravity of any internal/external findings (i.e. Audit, Bank of Italy, Consob and/or analogous local authorities). Payouts in shares comply with the applicable regulatory provisions in terms of holding period.

2.3.5 The influence exercised by each director in the determination of the characteristics of the plans; the potential conflict of interest which may trigger the obligation for the relevant director to abstain from exercising his vote in the relevant resolution

² Including in the interpretation or application by the competent authorities of such laws and regulatory framework.

³ Eg. Exchanging equity instruments under the System with new plans of acquiring company (reflecting equivalent value and methodology).

The market price of UniCredit ordinary shares, registered on the date of Board of Directors approval of 2024 Group Incentive Systems proposal (March 7, 2024) and on the date of the decision made by the Remuneration Committee of UniCredit (March 5, 2024), resulted equal to € 31.560 and to € 31.630.

 - b) already published and capable to negatively affect the market quotation

In relation to the foregoing, it is clarified that the resolution of the Board of Directors which approved the proposal to be submitted to the Shareholders' Meeting has been communicated to the markets, in compliance with the current regulations. It is also clarified that analogous information to the market, if required, will be made available upon any other following resolution adopted by the Board of Directors on the 2024 Group Incentive System. It is worthwhile clarifying that, although all the resolutions adopted by the Board of Directors are subject to the prior positive opinion of the Remuneration Committee of UniCredit, the information to the market - where due - is given only after the relevant resolution of the Board of Directors.
