BUSINESS OUTLOOK

Considering the short period of time historically covered by the Company's order book and the difficulties and uncertainties of the current global economic situation, it is not easy to formulate forecasts on the performance of the next financial year, which nevertheless appears very positive. The company will continue to pay particular attention to cost control and financial management, in order to maximize the generation of free cash flow to be allocated both to external organic growth and to shareholder remuneration. At the date of approval of this annual financial report, a conflict is still ongoing in Europe involving Russia and Ukraine and in the Middle East between Israel and Palestine. The ongoing conflicts and tensions on the Suez Canal cause a lot of uncertainty about the trend of the world economy.

These events have influenced and continue to influence the choices and commercial policies of the Company which is faced with a highly dynamic context in which it is difficult to predict to what extent the aforementioned events may have significant repercussions on the prospects for 2024, but the Directors believe , based on the information available at the date of preparation of this report, to reasonably exclude significant negative impacts.
