Bagno a Ripoli (Florence), 19 March 2024 – The **Board of Directors** of **B&C Speakers S.p.A.**, one of the foremost international players in the design, manufacture, distribution and marketing of professional electro-acoustic transducers, approved the 2023 draft financial statements prepared in accordance with IFRS international accounting standards.

Lorenzo Coppini, Chief Executive Officer of B&C Speakers, commented: "2023 was another year of excellent growth for the brands of the B&C Speakers Group, driven by the extremely rapid recovery of the entertainment market after the prolonged pause caused by the pandemic. The acquisition of Eminence Loudspeakers, a long-standing US company with sites in Kentucky and southern China, is an important step in our pursuit of a corporate strategy that aims to expand our presence to more key markets to confront the challenges - especially in terms of logistics - of growing international geopolitical tensions. Meanwhile, thanks to the recent development of new proprietary technologies that are attracting a lot of interest on the core market of Pro Audio as well as in the broader Consumer Electronics sector, we are approaching the future with profound optimism and determination."

#### Consolidated revenue

Group revenue reached the record figure of € 94 million (confirming the preliminary data released to the market on 23 January 2024), the highest value ever achieved in B&C Speakers' decades-long history. This marked an increase of +14.5% compared to the € 82.1 million recorded in 2022. Part of this increase (€ 2.5 million) was generated by the new subsidiaries Eminence Speakers LLC and B&C Speakers China, which only contributed to revenue for the final part of the year.

Specifically, this level of turnover was enabled by +6.5% increase in volumes compared to 2022, while the remainder of the growth was attributable to a better sales mix.

Thanks to the growth achieved during the last two years, the Group reported decadal CAGR of 11.27%, while the same data prior to the pandemic stood at 9.18%.

The increase in turnover is mainly concentrated in the European, South American, Asian and domestic markets, which all recorded double-figure growth.

Below is a breakdown of revenue by geographical area for 2023 (amounts in euro):

Geographical Area	2023	%	2022	%	Change	% Change
Latin America	8,116,000	9%	5,092,439	6%	3,023,561	59%

North America	18,312,350	19%	18,730,998	23%	(418,648)	-2%

Total revenues	94,018,328	100%	82,101,668	100%	11,916,660	15%

#### Cost of sales

The percentage impact of cost of sales at year-end 2023 was essentially in line with 2022, falling from 63.6% to 63.1%. Specifically, the impact of materials, components and external manufacturing costs increased slightly by +1.5 percentage points, while the impact of direct personnel costs remained unchanged. The easing of transport tensions brought this cost back to pre-pandemic levels, leading to an improvement in its percentage impact on revenue compared to 2022 (-2 percentage points of impact on revenue).

#### **Indirect Personnel**

Indirect personnel costs increased compared to 2022 but as a percentage of revenue remained generally stable, increasing from 5.0% to 5.6%, thanks to the increase in production and sales volumes during the year. The entry of the two new subsidiaries into the Group did not lead to any substantial changes in the trend of indirect personnel costs.

#### **Commercial expenses**

Commercial expenses remain broadly in line with the previous year. The entry of the two new subsidiaries into the Group did not lead to any substantial changes in the trend of commercial expenses.

#### **Administrative and General**

General and administrative costs rose compared to the corresponding figure for 2022, and as a percentage they also rose from 5.7% to 7.6%. The increase in general and administrative expenses is largely due to the increase in external consultancy costs (up by  $\[ \]$  976 thousand) associated with the business combination described above, the increase in energy costs (up  $\[ \]$  236 thousand), and the consolidation of structural costs, which increased by around  $\[ \]$  921 thousand (including the contribution of the new subsidiaries amounting to  $\[ \]$  281 thousand).

#### **EBITDA and EBITDA Margin**

Due to the trends illustrated above, EBITDA in 2023 was € 21.8 million, a new record in the Group's history, marking an increase of 7.7% compared to 2022.

The EBITDA Margin in 2023 was 23.2% of revenue, down slightly on 2022 when it stood at 24.7% of revenue.

As described above, the operation to acquire Eminence resulted in legal and business consultancy costs totalling € 1,016 thousand. EBITDA and EBITDA Margin before this effect is shown in the following table:

(€ thousands)	2023	Incidence	2022	Incidence
Ebitda	21,801	23.19%	20,250	24.66%
Acquisition costs for business combination	1,016	1.08%	-	0.00%
Ebitda adjusted	22,817	24.27%	20,250	24.66%

The consolidation of the two new subsidiaries also determined a negative contribution on EBITDA of € 269 thousand; this also impacted EBITDA Margin which would have been 26.1% on a like-for-like basis compared to 2022.

#### **Depreciation and amortisation**

Depreciation and amortisation of property, plant and equipment, intangible assets and rights of use were substantially in line with 2022.

#### **EBIT and EBIT Margin**

EBIT for 2023 amounted to € 19.5 million, up compared with 2022 when the figure was € 18.1 million. The EBIT Margin was at 20.8% of revenue (22.1% in 2022).

### **Group Profit**

The Group's profit in 2023 amounted to € 13.9 million and represents 14.9% of consolidated revenues, with a total increase of +14.3% compared to 2022.

Total *Net Financial Position* was negative and stands at € 0.6 million, compared with € 9.4 million at year-end 2022. Net Financial Position was impacted by the excellent cash generation, which reached a record € 18.5 million, the operational activities resulting from the increase in business volumes, and the efficient management of working capital.

#### SIGNIFICANT EVENTS SUBSEQUENT TO 31 DECEMBER 2023 AND OUTLOOK FOR THE YEAR

The start of 2024 was marked by continued confidence on the reference market with more stable and consolidated growth predicted compared to the last two financial years, which were particularly affected by the post-Covid recovery.

The year began with the launch of a number development projects involving the newly acquired subsidiaries, Eminence Speakers and B&C China, and it is reasonable to assume that the first benefits of these projects will be seen towards the end of 2024.

#### **SUSTAINABILITY**

The Group has continued its path towards sustainable and responsible growth and submitted its sustainability report 2022, produced on a voluntary basis, to be audited for the first time. Furthermore, the Parent Company approved its "Diversity & Inclusion" policy and published it in the Investors section of the company website. The policy promotes the principles of inclusion and diversity within the organisation and regulates the prevention and rejection of all forms of discrimination within the corporate community. These initiatives are aimed at ensuring equal treatment throughout the Group's activities. The Group's Management believes that this commitment, supported by the initiatives adopted

previously, represents an essential step in achieving sustainable growth within an increasingly complex and challenging social context.
