#### ANALYSIS OF THE GROUP'S ECONOMIC PERFORMANCE

During 2023, GVS achieved **consolidated revenues of 424.7 million euro**, **up 9.6% compared to 387.6 million euro** recorded in 2022, thanks to the contribution of the Healthcare & Life Sciences division (which includes the acquisitions made during the previous year, the STT Group and the Haemotronic Group) and the Health & Safety division.

Revenues of the Healthcare & Life Sciences division show significant growth in the Healthcare Liquid business (+24.8%) compared to the same period last year, thanks to the acquisitions of STT

and Haemotronic, absorbing the contraction of the Healthcare Air & Gas and Laboratory businesses, which show a 1.9% and 7.2% decrease in turnover, settling at 29.5 million euro and 31.6 million euro, respectively.

The Energy & Mobility division recorded a 13.6% decrease in revenue compared to the same period of the previous year, as a result of the de-stocking policies applied by its customers, particularly in the Sport & Utility segment, which recorded sales down 31.9% year-on-year.

The Health & Safety division showed an increase in turnover of 8.9% year-on-year, driven by favourable sector dynamics and the realisation of business synergies with the RPB group, which was acquired in September 2021.

Adjusted EBITDA was up 20.3% compared to 2022, with a margin on revenue of 22.4%, a significant improvement on the margin achieved in 2022 of 20.4%. The growth in profit compared to the prior year benefited from the contribution of acquisitions completed during 2022 and the price increase introduced during 2023.

The EBITDA margin in fourth quarter 2023 stood at 23.3%, up sharply from the 19.4% recorded in fourth quarter 2022, due to the contribution of price increases and cost efficiencies implemented during the year.

Adjusted EBIT, with a margin on revenue of 15.9%, amounted to 67.4 million euro, +23.1% compared to 54.8 million euro in the same period of the previous year, and is in line with the growth seen at adjusted EBITDA level.

Adjusted net financial expenses, net of foreign exchange losses of 10.7 million euro recorded in 2023 and exchange gains of 14.4 million euro in 2022, increased in the period under review, from 6.2 million euro for the period ended 31 December 2022 to 16.0 million euro for the period ended 31 December 2023, mainly due to new borrowings related to the acquisitions completed in 2022 and the increase in market interest rates, to which some of the existing loans are linked.

Profit before tax from recurring activities reached 40.8 million euro in the period under review, a decrease of 22.1 million euro compared to 63 million euro in 2022, mainly due to the effect of the foreign exchange loss achieved in 2023 as compared with the foreign exchange gain recorded in 2022.

Adjusted net financial debt at 31 December 2023 was 252.1 million euro. The decrease compared to 31 December 2022, totalling 48.3 million euro, is mainly due to the contribution of cash generated from operations in the amount of 96.6 million euro, and liquidity generated by changes in working capital in the amount of 20.1 million euro, net of absorption by net investments (28.2 million euro), net financial expenses (18.3 million euro) and tax (10.5 million euro).

Adjusted net financial debt is calculated by excluding from financial payables the amount of 76.5 million euro equal to the shareholders' loan received by GVS Group Srl (75 million euro) and relative interest, in line with the provisions of the definition of net financial debt in the loan agreements in place, in relation to the method of calculating financial covenants.

#### **BUSINESS OUTLOOK**

GVS continues on its path of improving its economic and financial performance through the profitability recovery that began in Q4 2022 and was achieved despite the negative impact of destocking policies by its customers on revenue growth.

The Company expects to record turnover in the first quarter of 2024 substantially in line with the first quarter of 2023, linked to a residual effect of de-stocking, particularly in the Healthcare & Life Sciences and Energy & Mobility divisions; a gradual recovery in sales volumes growth is expected in the second half of 2024.

In terms of profitability, GVS will continue its improvement process, thanks to the contribution of ongoing efficiency measures.

In light of the actions described above, GVS expects to achieve the following results in 2024:

- a low-to-mid single-digit growth in consolidated turnover compared to financial year
- an increase in the adjusted EBITDA margin of between 100 and 200 basis points compared to 2023;
- an adjusted leverage ratio expected to be around 2.0x as at 31 December 2024.
