The Board of Directors of Ascopiave S.p.A. ("**Ascopiave**" or the "**Company**") has drafted the Explanatory Report herein pursuant to Article 125-ter, Legislative Decree No. 58/1998,

as subsequently amended and integrated (the "**Consolidated Law on Finance**") and Articles 73 and 84-ter of the regulation adopted by Consob resolution No. 11971/1999, as subsequently amended and integrated (the "**Issuers' Regulation**") and in accordance with Schedule No. 4 of Schedule 3A of the stated Issuers' Regulation (the "**Explanatory Report**"), in order to illustrate to the Ascopiave Shareholders' Meeting, pursuant to Articles 2357 and 2357-ter of the Italian Civil Code, Article 132 of the Consolidated Law on Finance, the applicable provisions of the Issuers' Regulation and Regulation (EU) no. 596 dated 16 April 2014 relating to market abuse ("**MAR Regulation**"), the proposed resolution under item 4 on the agenda in ordinary session relating to the authorisation of a plan for the purchase and disposal, on one or more occasions, on a revolving basis, of a maximum number of ordinary shares of Ascopiave representing a portion not exceeding 20% of the Company's share capital (corresponding, as at the date of the report herein, to a maximum no. 46,882,315 ordinary shares with a nominal unit value of Euro 1.00), replacing and revoking the previous authorisation to purchase treasury shares dated 18 April 2023, which was scheduled to expire on 18 October 2024.

The reasons behind the request for authorisation, as well as the terms and conditions under which the plan to purchase and dispose of treasury shares is to be implemented, are outlined below.

The Explanatory Report herein is made available to the public in the manner and within the terms envisaged by the applicable regulations and can be consulted on Ascopiave's website (www.gruppoascopiave.it).

1. REASONS WHY AUTHORISATION TO PURCHASE AND DISPOSE OF OWN SHARES IS REQUIRED

The share buy-back and disposal plan subject of this authorisation proposal replaces the previous share buy-back plan authorised by the Shareholders' Meeting on 18 April 2023, which was scheduled to expire on 18 October 2024.

Therefore, in order to avoid having to summon a Shareholders' Meeting close to the aforementioned deadline, the Board of Directors deems it appropriate to propose to the Shareholders' Meeting to revoke the current plan and authorise a new plan for the purchase and disposal of treasury shares.

The plan for the purchase and disposal of treasury shares for which you are being asked for authorisation provides, similarly to the current plan, for the Company to purchase treasury shares up to a maximum limit of 20% of the share capital, taking into account the treasury shares already held by the Company and its subsidiaries.

Due to the prohibition of subscription of the company's own shares pursuant to Article 2357-quater of the Civil Code, the option right pertaining to the company's own shares held by the company is attributed proportionally to the other shares, similarly to the right to profits, pursuant to Article 2357-ter, paragraph 2, of the Civil Code.

The Board of Directors intends to propose to the Shareholders' Meeting the authorisation, purchase and disposal of treasury shares in order to provide the Company with a valid instrument to carry out, among other things, in compliance with the provisions in force, investment transactions consistent

with the Company's strategic guidelines, including by means of exchange, contribution, assignment or other act of disposition of treasury shares, for the acquisition of shareholdings or share packages or for other capital transactions involving the assignment or disposition of treasury shares (such as, by way of example, mergers, demergers, issues of convertible bonds or warrants, etc.).).

Authorisation is also requested in order to enable the Company, in compliance with the legal provisions in force from time to time, to

- (i) intervene, also through authorised intermediaries, to facilitate the regular course of trading and prices, in the face of distorting phenomena linked to excessive volatility and/or poor trading liquidity;
- (ii) offer Shareholders an additional means of monetising their investment; and
- (iii) acquire treasury shares to be used, where appropriate, to service any share-based incentive plans reserved for the Directors and/or employees and/or collaborators of the Company or other subsidiaries controlled by it or its parent company.

It should be noted that the authorisation request also includes, in line with the previous plan, the power of the Board of Directors to carry out repeated and successive purchase and sale transactions (or other acts of disposition) of treasury shares on a revolving basis, even for fractions of the maximum authorised quantity, so that, at all times, the quantity of shares owned by the Company does not exceed the limits envisaged by law and by the authorisation of the Shareholders' Meeting. Therefore, the authorisation requested includes the possibility of carrying out, if deemed appropriate, transactions on the stock to allow for value maximisation opportunities that may arise from market trends, subject to strict compliance with the applicable provisions of the Issuers' Regulations and the MAR Regulation.

For all the reasons outlined above, the Board of Directors deems it appropriate to ask the Shareholders' Meeting to revoke the previous plan adopted on 18 April 2023 and to authorise, pursuant to and in accordance with Articles 2357 and 2357-ter of the Italian Civil Code, the new plan for the purchase and disposal of treasury shares.

2. MAXIMUM NUMBER, CATEGORY AND NOMINAL VALUE OF SHARES RELATED TO THE AUTHORISATION

As of the date of the report herein, the Company's share capital amounted to EUR 234,411,575.00 and was represented by 234,411,575 ordinary shares with a par value of EUR 1.00 each.

The Board of Directors requests authorisation to purchase a number of treasury shares such that the Company will never hold over 46,882,315, or more than the different number representing in the aggregate the maximum limit of 20% of the share capital, also taking into consideration the treasury shares already held by the Company and its subsidiaries (as indicated in the following paragraph 4), in the event of resolutions and implementation of capital increases and/or reductions during the term of the authorisation referred to in the following paragraph 3.

3. DURATION FOR WHICH AUTHORISATION IS REQUIRED

The authorisation for the purchase is required for the maximum duration envisaged in Article 2357, Section 2, of the Civil Code and, therefore, for the period of 18 (eighteen) months from the date of the resolution of the Shareholders' Meeting authorising the granting of the authorisation.

Authorisation to dispose of treasury shares already in the portfolio and those that will eventually be purchased is requested without time limits, in light of the non-existence of regulatory constraints in this regard and the opportunity to have maximum flexibility also in terms of the timeframe necessary for the disposal.

4. INFORMATION ON COMPLIANCE WITH ARTICLE 2357(1) AND (3) OF THE CIVIL CODE

Pursuant to Article 2357(3) of the Civil Code, in no case may the nominal value of shares purchased by companies resorting to the risk capital market exceed one fifth of the share capital. It should be noted that the aforementioned limit refers to all treasury shares held by the Company, including purchases made in execution of previous resolutions, and to the Company's shares held by its subsidiaries.

For the purpose of calculating the maximum number of treasury shares that may be purchased by the Company in compliance with the aforementioned limit, it should be noted that the Company's share capital at the date of the report herein is EUR 234,411,575.00.

As of the same date, the Company held a number of treasury shares amounting to 17,701,578 - purchased in execution of the authorisations previously granted by the Shareholders' Meeting - for a nominal value of Euro 17,701,578 (equal to 7.551% of the share capital), which were recorded as a reduction of the available reserves recorded in the Company's shareholders' equity.

These shares may be disposed of in the same manner as the other treasury shares to be acquired by the Company pursuant to this authorisation proposal.

Pursuant to Article 2357(1) of the Italian Civil Code, the purchase of treasury shares is permitted within the limits of the distributable profits and available reserves resulting from the last duly approved financial statements. To this end, it is deemed appropriate to refer to the Company's draft financial statements for the year ending 31 December 2023, assuming its approval by the Shareholders' Meeting today. In this regard, it should be noted that the draft financial statements show (i) available reserves to the tune of €575,612,535.67 and (ii) a profit for the year to the tune of €35,778,670.04.

In light of the above, it is proposed that the Shareholders' Meeting authorise the purchase of the Company's treasury shares through the use of all available reserves and distributable profits, without prejudice to the Directors' obligation to verify that these reserves and profits are not affected by losses for the period.

It should be noted that the Board is required to verify compliance with the conditions required by Article 2357, Sections 1 and 3, of the Italian Civil Code for the purchase of treasury shares at the time of each authorised purchase.

When shares are purchased or disposed of, exchanged, transferred or written down, the appropriate accounting entries must be made, in accordance with the law and applicable accounting principles. In the event of a sale, exchange, contribution or write-down, the corresponding amount may be used for additional purchases, until the expiration of the term of the authorisation by the Shareholders' Meeting, subject to the quantity and expense limits, as well as the conditions established by the Shareholders' Meeting and compliance with the applicable legal and regulatory provisions in force from time to time.

5. MINIMUM AND MAXIMUM CONSIDERATION

The Board of Directors proposes that the unit price for the purchase of the shares be established on a case-by-case basis for each individual transaction, taking into account the method chosen to carry out the transaction and in compliance with the regulatory provisions and accepted market practices that may be applicable, it being understood that it may not be 10% higher or lower than the reference price recorded by the stock on the stock exchange session prior to each individual purchase transaction.

With regard to the consideration for the sale of the treasury shares thus acquired, the Board of Directors proposes that the Shareholders' Meeting determine only the minimum consideration, granting the Board the power to determine, on a case-by-case basis, any additional conditions, terms and terms of the disposal. This minimum consideration may not be 10% lower than the reference price recorded by the stock on the stock exchange session prior to each individual disposal transaction (meaning the date on which the commitment to dispose is made, regardless of the date of its execution). The above limit to the sale price will not apply: (i) in the event of the execution of transactions in relation to which it may be appropriate to exchange or dispose of packages of shares, also by means of an exchange or contribution, or in the event of capital transactions involving the assignment or disposal of treasury shares (such as, purely by way of example, mergers, demergers, issues of convertible bonds or warrants); (ii) in the event of share incentive plans reserved for Directors and/or employees and/or collaborators of the Company and/or other subsidiaries controlled by it and/or the parent company. In these assumptions, different criteria may be used, possibly confirmed by estimates and reports carried out by independent third parties in the event of exchanges or extraordinary transactions involving the Company's capital, in line with the purposes pursued and in compliance with current regulations.

The terms and conditions for the disposal of treasury shares envisaged above will also apply to treasury shares held against purchases made on the basis of previous authorisations.

6. ARRANGEMENTS FOR PURCHASES AND DEEDS OF DISPOSAL

Purchase transactions will begin and end within the timeframe set by the Board of Directors or by the Director delegated for this purpose by the Board following any authorisation by the Shareholders' Meeting.

Purchase transactions will be carried out on the market, on one or more occasions, on a revolving basis, according to the operating methods established in the Regulation of Markets Organised and Managed by Borsa Italiana S.p.A. (the "**Market Regulation**"), which do not allow the direct matching of buy orders with predetermined sell orders, in compliance with article 132 of TUF and Article 144-bis of the Issuers' Regulation or, in any case, according to other methods envisaged by law, including regulatory provisions, in force at the time. In particular, purchases may be made through one of the following methods: (i) purchases made on regulated markets, in accordance with the operating procedures established by the Market Rules and the related Instructions of Borsa Italiana S.p.A, as well as in compliance with the provisions of the Regulation on Issuers; (ii) purchases and sales of derivative instruments traded on regulated markets that provide for the physical delivery of the underlying shares and under the conditions established by the Market Rules and related Instructions of Borsa Italiana S.p.A. as well as in compliance with the provisions of the Issuers' Regulation; (iii) proportional allocation to shareholders of put options at conditions that are consistent with what will be established by the Shareholders' Meeting of Ascopiave; (iv) purchases made in the manner established by market practices allowed by Consob pursuant to Article 13 of the MAR Regulation (v) purchases made under the conditions indicated in Article 5 of the MAR Regulation; as well as (vi) in the performance of systematic internalisation activities according to non-discriminatory methods that provide for the automatic and non-discretionary execution of transactions on the basis of pre-set parameters.

The acts of disposition may be carried out, in one or more instalments, by adopting any method which is appropriate in relation to the purposes which will be pursued, including: (i) the sale to be made on the market also for trading or so-called block sales (ii) transfer to Directors, employees and/or collaborators of the Company and/or subsidiaries controlled by it and/or the parent company in implementation of incentive plans; (iii) any other act of disposal, in the context of transactions in relation to which it may be appropriate to exchange or transfer share packages, also by means of an exchange or contribution, or, lastly, in the context of capital transactions involving the assignment or disposal of treasury shares (such as, by way of example, mergers, demergers, issues of convertible bonds or warrants).

Lastly, it should be noted that, pursuant to the exemption envisaged in Article 132, paragraph 3, of the Consolidated Law on Finance, the above operating procedures will not apply with regard to the purchase of treasury shares from employees of the Company, its subsidiaries or its parent company that have been assigned or subscribed to by them pursuant to Articles 2349 and 2441, paragraph 8, of the Italian Civil Code, or resulting from compensation plans that have already been approved, or that will be approved by the Shareholders' Meeting pursuant to Article 114-bis of the Consolidated Law on Finance.

7. ADDITIONAL INFORMATION

It is herein confirmed that the purchase of treasury shares is not instrumental to the reduction of the Company's share capital.

8. PROPOSED RESOLUTION ON THE 4TH ITEM OF THE AGENDA IN THE ORDINARY PART OF THE SHAREHOLDERS' MEETING

All the above being stated, the Board of Directors invites the Shareholders' Meeting to approve the following proposed resolution:
