PUBLIC DISCLOSURE REQUIREMENTS

Arco (Trento, Italy), May 29, 2024 – Aquafil announces that the By Laws updated by the Ordinary Shareholders' General Meeting, held on 23 April 2024, are available to the public on the Company's website <http://ir.aquafil.com/> - Corporate Governance section, as well as deposited at the Company's Registered Office and on eMarket Storage authorised storage system.

* * *

Aquafil is a pioneer in the circular economy also thanks to the ECONYL® regeneration system, an innovative and sustainable process able to create new products from waste and give life to an endless cycle. The nylon waste is collected in locations all over the world and includes industrial waste but also products – such as fishing nets and rugs – that have reached the end of their useful life. Such waste is processed to obtain a raw material – caprolactam – with the same chemical and performance characteristics as those from fossil sources. The polymers produced from ECONYL® caprolactam are distributed to the Group's production plants, where they are transformed into yarn for rugs carpet flooring and for clothing.

Founded in 1965, Aquafil is one of the main producers of nylon in Italy and worldwide. The Group is present on three different continents, employing about 2,650 people at 19 production sites located in Italy, Slovenia, Unites States, China, Croatia, Chile, Thailand and Japan.
