Chief Executive Officer and General Manager Gian Maria Mossa stated: *“This was one of the best months of 2024, propelling us towards the year's halfway mark with double-digit growth compared to the already robust result of the same period of the previous year. Our versatile and high-quality range of solutions is able to best meet diversification goals within the current market context, with advanced investment services exceeding €1.2 billion. The normalisation trend of a-la-carte funds is also continuing, with a rebalancing from third-party to in-house funds, driven by the growing interest for the new Luxembourg-based range of funds. We are expanding our FA network both through the recruitment of high-standing professionals thanks to our appealing holistic approach, and through a higher engagement of young talents who are attracted by our innovative and sustainability-oriented proposition. Our Financial Advisors' determination and motivation, following the recent network reorganisation and the ongoing tool innovation, along with clients' consistent demand allow us to look towards the development in the coming months with confidence and optimism.”*
