Massimo Ferretti, Executive Chairman of Aeffe Spa, commented: "The unsatisfactory results of the first half of the year are the reflection of an extremely complex market situation. The slowdown in consumption in key countries for us, such as Italy and the United States, has significantly impacted our group performance. Aware of the complexity of the moment we are experiencing, we are equipping ourselves to face the complex situation and we are confident that we will see a recovery of consumer interest in fashion goods in the short term. We are satisfied with the new stylistic course of the Moschino brand, which will allow us to reposition the brand with a new international appeal."
