Banca Mediolanum S.p.A. announces the business results for **July 2024: € 1.03 billion**, of which:

- Total net inflows: **€ 674 million, € 6.34 billion YTD**
- Net inflows into managed assets: **€ 1 billion, € 4.09 billion YTD**

Massimo Doris, CEO of Banca Mediolanum, comments: “With one billion in managed assets inflows registered in July, we are celebrating our best result ever and reinforcing the excellent commercial performance of recent months, with over 4 billion euro since the beginning of the year. The promotional initiatives launched in the first part of 2024 to attract new administered assets have proven successful, and we are now seeing strong customer demand to reallocate the liquidity that gradually becomes available to managed assets products. This is the strength of the Banca Mediolanum model, which provides each customer with a professional who helps them navigate every market condition with the appropriate investment strategy and time horizon”. Doris continues: “Mortgages and loans granted are also growing, thanks to our ongoing efforts to identify the best solutions for customers within the current interest rate environment, as well as customer acquisitions, which are progressing at a steady pace, with over 125,000 new customers in the first seven months”.
