The group revenues for the first half of 2024 decreased by 11.7% on the corresponding period of 2023 reacing €291,526 thousand (first half of 2023: €330,309 thousand); calculated at constant exchange rates, the decrease would have been the same.

The result was attributed to the contraction in demand for components for the Heat Pumps market, which particularly affected Europe. A breakdown of revenue by geographical segment is as follows:

\* The FX variation % is calculated as the percentage of change at constant exchange rates, i.e., using those at 30 June 2023.

The geographical segments reflect the geographical location of the countries in which the revenue is earned considering the group's marketing strategies.

The breakdown of revenue by market is as follows:

The drop in revenues was mainly concentrated in Europe and in the HVAC market due, essentially, to the reduction in sales in the residential sector (heat pumps) due to a series of elements, including the reshaping of European incentives (particularly in Germany and Italy), the high stock levels present throughout the supply-chain and the macroeconomic scenario characterised by high interest rates. Added to this is the comparison with the 2023 half-year revenues, which were particularly high also as a result of the disposal of the backlog accumulated during the previous quarters. This also affected the contraction of the Refrigeration segment, which was further penalised by the temporary deceleration of the investment cycle.

As far as APAC is concerned, there was a general contraction in demand mainly due to the slowdown in the Chinese economy and lower exports of heat pumps to Europe, only partly offset by good performances in other countries in the area.

On the other hand, the brilliant period in North and South America was confirmed in both markets, and particularly in applications related to computer centre cooling (HVAC), high-efficiency solutions and those using low-pollutant refrigerants

#### MAIN FINANCIAL INDICATOR

The main financial indicators for the first half of 2024 compared with the corresponding period of the previous year are set out below:

| (€'0000)                  | First Half 2024 | First Half 2023 | Variation | Variation % |
|---------------------------|-----------------|-----------------|-----------|-------------|
| EBITDA <sup>1</sup>       | 53,230          | 72,606          | (19,376)  | (26.7%)     |
| EBITDA % <sup>2</sup>     | 18.3%           | 22.0%           | n.a.      | (16.9%)     |
| EBITDA ADJ <sup>3</sup>   | 53,781          | 73,041          | (19,260)  | (26.4%)     |
| EBITDA ADJ % <sup>4</sup> | 18.4%           | 22.1%           | n.a.      | (16.6%)     |
| NET RESULT                | 28,338          | 42,450          | (14,112)  | (33.2%)     |

The group's EBITDA % for the first half of 2024 was 18.3%, down on the same period of the previous year (22.0%). In absolute terms, EBITDA amounted to 53,230 thousand (-26.7% compared the same period of previous year). The decrease of EBITDA is mainly due to the operating leverage only partially compensated by the acquisitions which took place in the second half of 2023 and became fully operative in the first half of 2024.

Costs of raw materials and goods and changes in inventories decreased in absolute terms as a result of the down in revenue and dropped as a percentage thereof (from 44.1%, to 41.0%).

Personnel expense increased in absolute terms due to the rise in the number of employees over the past 12 months, specifically following the acquisitions that took place in the second half of 2023. As a percentage of revenue, it came to 27.7% (first half of 2023: 22.0%).

<sup>1</sup> EBITDA is not identified as an accounting measure under the IFRS, but the group calculates EBITDA as the sum of the profit before tax, the share of profit (loss) of equity-accounted investees, exchange differences, net financial income (expense) and amortisation, depreciation and impairment losses. It uses EBITDA to assess its operating performance.

<sup>2</sup> The EBITDA % is the ratio of EBITDA to revenue.

<sup>3</sup> Adjusted EBITDA is not identified as an accounting measure under the IFRS, but is commonly used by both management and investors to evaluate the operating performance of the company and group. Adjusted EBITDA is EBITDA plus costs taken from the consolidated financial statements prepared in accordance with the IFRS integrated by the notes thereto.

<sup>4</sup> The adjusted EBITDA % is the ratio of adjusted EBITDA to revenue

Adjusted Ebitda amounted to 53,781 thousand, compared to 73,041 thousand for the first half of 2023; the adjusted costs chiefly refer to consultancy costs for M&A activities (551 thousand).

Amortisation and depreciation amounted to  $\leq 18,914$  thousand (first half of 2023:  $\leq 15,099$  thousand). Of this amount,  $\leq 5,750$  thousand (first half of 2023:  $\leq 3,593$  thousand) refers to the amortisation of purchase price allocation accounted for at consolidation level of the companies acquired in previous years.

Net financial expense amounted to €3,500 thousand (first half of 2023: €2,647 thousand). The increase is mainly attributable to interest expenses recognized for options on non-controlling interests and earn out, financial expenses related to IFRS16 and bank loans.

The group tax rate is 22.9%, up from 22.5% at 30 June 2023. The increase is mainly due to the different contribution percentage of some countries.

Profit amounted to €28,338 thousand compared to €42,450 thousand in the corresponding period of the previous year.

#### MAIN STATEMENT OF FINANCIAL POSITION INDICATORS

The main statement of financial position indicators at 30 June 2024 compared with those at 31 December 2023 are set out below:

| STATEMENT OF FINANCIAL POSITION                        |            |            |             |  |

| Total  | 604,836    | 576,755    | 4.9%        |  |

Net invested capital is stable compared to the previous year, as investments in the period offset depreciations.

Investments in property, plant and equipment amounted to  $\in 8,891$  thousand, compared to  $\in 6,586$  thousand in the first half of 2023 mainly related to the expansion of the group's production capacity. Intangible assets increased by  $\in 4,154$  thousand ( $\in 1,338$  thousand in the first half of 2023).

The breakdown of investments by geographical segment, net of right-of-use assets and goodwill, is as follows:

| INVESTEMET                     |            |            |           |  |

<sup>5</sup> Net non-current assets is the sum of property, plant and equipment, intangible assets, equity-accounted investments and other non-current assets less other noncurrent liabilities.

<sup>6</sup> Net working capital is the sum of trade receivables, inventories, tax assets, other current assets, deferred tax assets, trade payables, current tax liabilities, other current liabilities, deferred tax liabilities and provisions for risks.

<sup>7</sup> Net invested capital is the sum of (i) net non-current assets, (ii) net working capital and (iii) defined benefit plans.

Net working capital increased from  $\notin$ 77,509 thousand at 31 December 2023 to  $\notin$ 103,411 thousand at 30 June 2024; this increase was mainly due to trade receivables which rose by  $\notin$ 3,185 thousand mainly due to seasonal effects, to higher stock (+ $\notin$ 4,797 thousand) and lower trade payables (-8,877 thousand).

Call options on non-controlling interests and earn-out decreased due to the acquisition of the remaining 49% of share capital of CFM; as of 31 December 2023, the liability amounted to €47,482 thousand. The difference between the amount paid and the amount estimated at 31 December 2023 is accounted for in the caption "Fair value gains (loss) on call options".

The net financial debt amounted to €101,553 thousand, compared to €35,664 thousand at 31 December 2023, as shown below:

The net financial debt is mainly comprised of:

- current and non-current bank loans and borrowings totalling €83.9 million (€90.7 million at 31 December 2023);
- current and non-current amounts due to bondholders totalling €59.8 million (€59.8 million at 31 December 2023);
- current and non-current other loans and borrowings totalling €1.8 million (€1.8 million at 31 December 2023);
- current and non-current financial liabilities related to acquisitions totaling €1.9 million (€7.1 million at 31 December 2023);
- current and non-current lease liabilities totaling €32.7 million (€33.6 million at 31 December 2023);
- cash and cash equivalents totalling €75.6 million;
- current financial assets totalling €3.7 million.

At 30 June 2024, 31% of cash and cash equivalents and current financial assets were held by Italian group companies and approximately 9% by the Chinese subsidiary. The remaining amount was split among the other group companies.

During the period, dividends of €21,428 thousand were also distributed (30 June 2023: €19,742 thousand).

#### MAIN RISKS AND UNCERTAINTIES TO WHICH THE GROUP IS EXPOSED

#### Risks connected to general economic conditions

The group's financial position, financial performance and cash flows may be influenced by a number of factors related to the general macroeconomic backdrop, such as changes in GDP, the cost of raw materials and the level of business confidence in the various countries in which the group operates.

Significant macroeconomic events, such as a generalised and significant increase in the price of the main raw materials, a considerable drop in demand in one of the group's main new markets, a lingering uncertainty and volatility on financial and capital markets, a negative interest rate trend and unfavourable exchange rate fluctuations in the group's main currencies, may negatively affect the group's outlook and operations, in addition to its performance figures and financial position.

The effects of such macroeconomic context may inevitably also have an impact on the other risks described below.

#### Risks connected to the performance of the reference market

The markets in which the group operates may be influenced to varying degrees by often unpredictable cyclical expansion and resizing. The ways in which the main customers absorb these fluctuations in demand and reflect them through the entire production chain may have a significant impact on procurement policies and inventories management and, as a result, on working capital needs and the ability to adequately absorb fixed costs.

In the first half of 2024, demand for Carel Group products decreased in particular in the European market. The dynamics of the different markets, in terms of both their geographical size and product families, including legislative measures, were closely monitored, both in order to adjust commercial, procurement and production policies and to identify opportunities to develop new products.

#### Liquidity risk

The group's debt partly bears floating interest rates. Given its ample liquidity, it has an immaterial liquidity risk with respect to its short-term deadlines and, therefore, this risk principally refers to its medium to long-term financing. When deemed significant, the group agrees hedging instruments to neutralise interest rate fluctuations.

The group still has a high level of liquidity.

#### Credit Risk

The group's credit risk management policy includes rating its customers, setting purchase limits and taking legal action. It prepares periodic reports to ensure tight control over credit collection. Each group company has a credit manager in charge of credit collection on sales made in their markets. Coordination between the companies is based on the electronic exchange of information about common customers and the coordination of delivery blocks or the commencement of legal action. The loss allowance is equal to the nominal amount of the uncollectible receivables after deducting the part secured with bank collateral. Impairment losses are recognised considering past due receivables from customers with financial difficulties and receivables for which legal action has commenced. The group mainly deals with well-known and reputable customers. Its policy is to constantly monitor those customers that request payment extensions.

As already mentioned, the group has not recorded significant changes in credit management and related risks.

#### Risks related to the supply chain

Inadequate management of the group's strategic suppliers with reference to quality controls, delivery times and requested production flexibility would result in the risk of potential operating inefficiencies and inability to satisfy customers' needs.

In order to tackle this risk, Carel subjects its suppliers to an initial evaluation, followed by regular subsequent evaluations, particularly strategic suppliers. This evaluation measures their suitability in terms of technological and production capacity, overall quality of processes and products, ISO standards quality certifications, business and financial situation and compliance with standards of ethical behaviour.

### OUTLOOK

The strong geopolitical instability already present in the previous quarters also characterised the period under review, mainly due to the conflict between Russia and Ukraine and the Israeli-Palestinian conflict. In macroeconomic terms, the scenario is not homogeneous in the geographical areas where the Group's presence is greatest: Europe, China and the United States. In Europe, while the inflation trajectory has broadly stabilised at around 2.5%, interest rates still remain at high levels (above 4%), although a first limited cut was made by the ECB in June. The signs coming out of China are not particularly positive: GDP growth in the second quarter was less than 5% and the lowest since Q1 2023, with significant signs of crisis in the real estate sector. Finally, as far as the US is concerned, despite high interest rates, the economy is still robust: GDP growth in the second quarter of 2.8% beat analysts' estimates.

In relation to the second part of 2024, expectations are for a gradual improvement of the scenario linked to a series of phenomena, including a progressive recovery of the investment cycle in the refrigeration sector (the first slight signs of which are already present) and the disposal of accumulated inventories in the supply chain. For these reasons, the Group expects consolidated revenue close to  $\in$  600 million by the end of the year.

# NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

CONTENT AND FORMAT OF THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Carel Industries S.p.A. (the "parent") heads the group of the same name and has its registered office in Via Dell'Industria 11, Brugine (PD). It is a company limited by shares and its tax code and VAT number is 04359090281. It is included in the Padua company register.

The group provides control instruments to the air-conditioning (HVAC) and commercial and industrial refrigeration (REF) markets and also produces air humidification systems. It has 47 commercial companies of which 15 produtions sites which serve the main markets.

The IFRS condensed interim consolidated financial statements at 30 June 2024 refer to the period from 1 January 2024 to 30 June 2024.

The Carel Group adopted the IFRS endorsed by the European Union for the first time on 1 January 2015.

The parent's board of directors approved the condensed interim consolidated financial statements at 30 June 2024 on 1 August 2024.

The condensed interim consolidated financial statements include the results of the parent and its subsidiaries, based on their updated accounting records.

### STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

The condensed interim consolidated financial statements at 30 June 2024 have been prepared in compliance with IAS 34 Interim financial reporting issued by the International Accounting Standard Board (IASB). Pursuant to IAS 34, these notes have been prepared in a condensed format and do not include all the disclosures required for annual financial statements. They solely provide information about those captions that, due to their size, content or changes therein during the period, are key to an understanding of the group's financial position, financial performance and cash flows. Therefore, these condensed interim consolidated financial statements shall be read in conjunction with the consolidated financial statements as at and for the year ended 31 December 2023. The condensed interim consolidated financial position, statement of profit or loss, statement of comprehensive income, statement of financial position, statement of changes in equity, statement of cash flows and these notes, which are an integral part thereof.

The condensed interim consolidated financial statements were prepared in thousands of Euro, which is the group's functional and presentation currency. There may be rounding differences when items are added together as the individual items are calculated in Euros.

The condensed interim consolidated financial statements have been prepared on a going concern basis, considering the group's financial soundness, performance for the period and outlook, in addition to its available resources, which are sufficient to cover any contractual commitments and strategic needs.

Preparation of condensed interim consolidated financial statements under the IFRS requires management to make judgements and estimates that affect the amounts presented therein and in the notes. Actual results may differ from these judgements.

### CONSOLIDATION SCOPE

The condensed interim consolidated financial statements include the financial statements at 30 June 2024 of the parent, Carel Industries S.p.A., and its Italian and foreign subsidiaries.

Subsidiaries are those entities over which the parent has control, as defined in IFRS 10 Consolidated financial statements. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The financial statements of the subsidiaries are consolidated starting from the date when control exists until when it ceases to exist.

Note [35] Other information lists the entities included in the consolidation scope at 30 June 2024.

### **BASIS OF CONSOLIDATION**

The condensed interim consolidated financial statements at 30 June 2024 include the financial statements of Carel Industries S.p.A. and the Italian and foreign entities over which it has direct or indirect control. Specifically, the consolidation scope includes:

- the subsidiaries, over which the parent has control as defined by IFRS 10 Consolidated financial statements; these companies are consolidated on a line-by-line basis;
- the associates, over which the parent has the power to exercise significant influence over their financial and operating policies despite not having control; investments in these companies are measured using the equity method.

The parent adopted the following consolidation criteria:

- assets, liabilities, revenue and expenses of the consolidated entities are consolidated using the lineby-line approach where the carrying amount of the parent's investments therein is eliminated against its share of the investee's equity. Any differences are treated in accordance with IFRS 10 Consolidated financial statements and IFRS 3 Business combinations. The portions attributable to non-controlling interests are recognised at the fair value of the assets acquired and liabilities assumed without recognising goodwill;
- the group companies are excluded from the consolidation scope when control thereover ceases to exist and any effects of exclusion are recognised as owner transactions in equity;
- intragroup receivables and payables, revenue and expenses and all significant transactions are eliminated, including intragroup dividends. Unrealised profits and gains and losses on intragroup transactions are also eliminated;
- equity attributable to non-controlling interests is presented separately under equity; their share of the profit or loss for the period is recognised in the statement of profit or loss:
- the financial statements of the consolidated foreign entities using a functional currency other than the Euro are translated into Euros using the average exchange rate for the six months for the statement of profit or loss captions and the closing rate for the statement of financial position captions. Any differences between these exchange rates or due to changes in the exchange rates at the start and end of the period are recognised under equity.

### ACCOUNTING POLICIES

In preparing these condensed interim consolidated financial statements, the group applied the same accounting policies as those adopted in drafting the consolidated financial statements at 31 December 2023, to which reference should be made, with the exception of that set out in the following paragraph with regard to new standards.

IFRS ACCOUNTING STANDARDS, AMENDMENTS AND INTERPRETATIONS APPLIED AS OF 1 **JANUARY 2024** 

The following IFRS accounting standards, amendments and interpretations have been applied for the first time by the Group as of 1 January 2024:

- On 23 January 2020, the IASB published an amendment entitled "Amendments to IAS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current" and on 31 October 2022,

CAREL

the IASB published an amendment entitled "Amendments to IAS 1 Presentation of Financial Statements: Non-Current Liabilities with Covenants". The purpose of these amendments is to clarify how to classify payables and other short-term or long-term liabilities. In addition, the amendments also improve the disclosures that an entity must provide when its right to defer settlement of a liability for at least twelve months is subject to compliance with certain parameters (i.e. covenants). The adoption of these amendments had no impact on the Group's consolidated financial statements.

- On 22 September 2022, the IASB published an amendment entitled 'Amendments to IFRS 16 Leases: Lease Liability in a Sale and Leaseback'. The document requires the seller-lessee to measure the lease liability arising from a sale and leaseback transaction so as not to recognise income or loss that relates to the retained right of use. The adoption of these amendments had no impact on the Group's consolidated financial statements.

- On 25 May 2023, the IASB issued an amendment entitled 'Amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures: Supplier Finance Arrangements'. The document requires an entity to provide additional disclosures about reverse factoring arrangements that enable users of financial statements to evaluate how supplier finance arrangements may affect the entity's liabilities and cash flows and to understand the effect of those arrangements on the entity's exposure to liquidity risk. The adoption of these amendments had no impact on the Group's consolidated financial statements.

### IFRS ACCOUNTING STANDARDS, AMENDMENTS AND INTERPRETATIONS NOT YET ENDORSED BY THE EUROPEAN UNION

At the date of this document, the competent bodies of the European Union had not yet completed the endorsement process necessary for the adoption of the amendments and standards described below.

- On 30 May 2024, the IASB published the document "Amendments to the Classification and Measurement of Financial Instruments-Amendments to IFRS 9 and IFRS 7". The document clarifies a number of problematic issues arising from the post-implementation review of IFRS 9, including the accounting treatment of financial assets whose returns vary when ESG objectives are met (i.e. green bonds). The amendments will apply to financial statements for financial years beginning on or after 1 January 2026. The directors do not expect a material effect in the Group's consolidated financial statements from the adoption of this amendment.

- On 9 April 2024, the IASB published a new standard IFRS 18 Presentation and Disclosure in Financial Statements that will replace IAS 1 Presentation of Financial Statements. The new standard aims to improve the presentation of key financial statement formats and introduces important changes with regard to the income statement format. In particular, the new standard requires:

o Classify revenues and expenses into three new categories (operating section, investment section and financial section), in addition to the tax and discontinued operations categories already present in the income statement;

o Present two new sub-totals, the operating result and earnings before interest and taxes (i.e. EBIT).

The new standard also:

o Requires more information on performance indicators defined by management;

o Introduces new criteria for aggregating and disaggregating information; and

o introduces certain changes to the format of the cash flow statement, including the requirement to use EBIT as the starting point for the presentation of the cash flow statement prepared using the indirect method and the elimination of certain classification options for some items that currently exist (such as interest paid, interest received, dividends paid and dividends received).

The new standard will come into effect on 1 January 2027, but earlier application is permitted. The directors are currently assessing the possible effects of the introduction of this new standard on the Group's consolidated financial statements.

- On 15 August 2023, the IASB published an amendment entitled 'Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability'. The document requires an entity to apply a consistent methodology for determining whether one currency can be translated into another and, when

this is not possible, how to determine the exchange rate to be used and the disclosures to be made in the notes to the financial statements. The amendment will apply from 1 January 2025, but earlier application is permitted. The directors do not expect a material effect on the Group's consolidated financial statements from the adoption of this amendment.

The industrial investments in the first half of 2024 were mostly dedicated to increase the Group's production capacity for specific products for the mechanical division.

Significant investments were made also to improve the Group's quality and traceability of processes and materials with regard to specific products for heat pump applications: inverters and programmable controllers, particularly in Croatia and Italy (machine vision systems, laser marking and automated warehouses for electronic component management) and in China (machine vision systems).

The group did not capitalise borrowing costs, in line with previous years.

#### [2] INTANGIBLE ASSETS

Investments amounted to €4,154 thousand. They were mainly concentrated at the parent and were related to the capitalisation of software and development projects, some of which are completed and others are under way ...

Amortisation amounted to €8,522 thousand, of which €5,750 thousand refers to the allocation of the gain generated by the first-time consolidation of the companies acquired.

At 30 June 2024, the process to determine the purchase price allocation of Eurotec and Kiona Group was completed, and confirmed the values already reported in the consolidated financial statements at 31 December 2023.

With reference to the recoverability of the goodwill recognised in the consolidated financial statements as of 30 June 2024, the management did not identify any trigger events that would require an impairment test to be performed.

#### [3] EQUITY-ACCOUNTED INVESTMENTS

At 30 June 2024, this caption amounts to €3,966 thousand, compared to €2,216 thousand at 31 December 2023. During the period, the investment in Free Polska s.p.z.o.o. increased by a total of €1,750 thousand.

#### [4] OTHER NON-CURRENT ASSETS

At 30 June 2024, these amount to  $\in$ 6,905 thousand, compared to  $\in$ 6,868 thousand at 31 December 2023. They mainly refer to the payment of taxes on the amounts allocated to intangible assets and goodwill arising from the allocation of the acquisition price of Enginia, Recuperator and HygroMatik, totalling  $\in$  6,088 thousand.

The residual balance of this caption mainly relates to guarantee deposits.

#### [5] DEFERRED TAX ASSETS

At 30 June 2024, deferred tax assets amount to €13,723 thousand compared to €14,399 thousand at 31 December 2023. The group has recognised deferred tax assets and liabilities on temporary differences between the carrying amount of assets and liabilities and their tax base.

#### [6] TRADE RECEIVABLES

At 30 June 2024, this caption amounts to €104,475 thousand compared to €101,291 thousand at 31 December 2023. It may be analysed as follows:

| (€'000)                 | 30.06.2024 | 31.12.2023 |
|-------------------------|------------|------------|
| Gross trade receivables | 106,828    | 103,683    |

| Trade receivables       | 104,475    | 101,291    |

The next table breaks down gross trade receivables by geographical segment:

| (€'000)                        | 30.06.2024 | 31.12.2023 |
|--------------------------------|------------|------------|

| Total                         | 3,743      | 3,697      |

Available-for-sale securities refer to investments, with major counterparties, aimed at managing part of the group's liquidity. The objective of these financial assets is the collection of contractual cash flows comprising payments of principal and interest at fixed rates at specific maturities or the sales of the assets.

The derivatives are forwards and currency options agreed to hedge commercial transactions but which do not qualify for hedge accounting. Fair value gains and losses are recognised in profit or loss. More information is available in the paragraph on financial instruments in note [35] Other information.

#### [11] CASH AND CASH EQUIVALENTS

At 30 June 2024, this caption amounts to €75,563 thousand, compared to €154,010 thousand at 31 December 2023. The caption includes €8,787 thousands related to short-term time deposits held as a temporary liquidity investment. Reference should be made to the statement of cash flows for details of

changes in the group's cash and cash equivalents and to the directors' report for the geographical breakdown.

| (€'000)                                   | 30.06.2024 | 31.12.2023 |

At 30 June 2024, the covenants on certain current and non-current bank borrowings were complied with.

Amounts due to bondholders refer to the issue and placement of non-convertible bonds subscribed by funds managed by Prudential Insurance Company of America ("Pricoa"). They are guaranteed by the parent and certain subsidiaries

The bonds are unrated and will not be listed on regulated markets. Compliance with the following

covenants is checked every six months:

- net financial debt / gross operating profit (loss) < 3.5x;</li>
- net financial debt / equity < 1.5;
- gross operating profit (loss) / net financial expense > 5.

At 30 June 2024 such covenants were complied with.

Other current and non-current financial liabilities include amounts due to the non-controlling investors in Sauber and the residual amounts due the former investors in Senva as deferred consideration upon acquisition in accordance with the relevant acquisition contracts.

Lease liabilities refer to the lease liabilities recognised following the adoption of IFRS 16.

The derivatives included under current financial liabilities are forwards and currency options agreed to hedge commercial transactions but which do not qualify for hedge accounting. More information is available in the paragraph on financial instruments in note 35 Other information. The effective designated derivative hedges include the fair value of IRS agreed to hedge interest rate risk.

The provisions for product warranties and commercial complaints were set up to cover liabilities arising on product defects which entail the repair or replacement of the defective parts or payment of a cash compensation to the customer. The directors estimated the provisions based on available information and past experience.

#### [16] DEFINED BENEFIT PLANS

This caption mainly consists of the group's liability for post-employment benefits; post-term of office benefits for directors was paid during the first half 2024. Post-employment benefits qualify as defined benefit plans pursuant to IAS 19 and the related liability are calculated by an independent actuary. The remainder of the caption comprises employee benefits recognised by the foreign group companies which are immaterial both individually and collectively.

#### [17] DEFERRED TAX LIABILITIES

At 30 June 2024, deferred tax liabilities amount to €28,015 thousand, compared to €28,788 thousand at 31 December 2023. They mainly refer to the deferred taxes on the allocation of the gains arising upon the first-time consolidation of the companies acquired in prior years.

#### [18] OTHER NON-CURRENT LIABILITIES

This caption amounts to €100,449 thousand and is mainly related to the put and call options on the noncontrolling interest of Kiona (€72,115 thousand), Sauber (€1,295 thousand) and the earn our liabilities of Senva (€24,839 thousand) and Eurotec (€562 thousand).

#### [19] TRADE PAYABLES

At 30 June 2024, trade payables amount to €66,055 thousand, compared to €74,931 thousand at 31 December 2023. They included payables for materials and services.

Trade payables arise as a result of the different payment terms negotiated with the group's suppliers, which differ from country to country.

#### [20] TAX LIABILITIES

At 30 June 2024, this caption amounts to €4,227 thousand compared to €5,184 thousand at 31 December 2023. It entirely consists of direct income tax liabilities. The change during the period was mainly related to the calculation of current taxes for the period in accordance with IAS 34.

#### [21] OTHER CURRENT LIABILITIES

#### [35] OTHER INFORMATION

#### **SEGMENT REPORTING**

Under IFRS 8, an entity shall disclose information to enable users of its financial statements to evaluate the nature and financial effects of the business activities in which it engages and the economic environments in which it operates. Based on the group's internal reporting system, the business activities from which it earns revenue and incurs expenses and the operating results which are regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated and to assess its performance, the group has not identified individual operating segments but is an operating segment as a whole.

#### **Financial instruments**

The group is active on international markets and, hence, is exposed to currency and interest rate risks. Specifically, the currencies generating these risks are the US dollar, the Japanese yen, the Australian dollar and the Chinese renminbi.

The group has a hedging policy to mitigate the risks, which involves the use of derivatives, options and forwards, mostly with maturities of less than one year. Transactions in place at the reporting date involving currency hedging transactions are as follows:

### STATEMENT ON THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS PURSUANT TO ARTICLE 154-BIS OF LEGISLATIVE DECREE NO. 58/98 AND ARTICLE 81-TER OF CONSOB REGULATION NO. 11971 OF 14 MAY 1999 AS SUBSEQUENTLY AMENDED AND SUPPLEMENTED

- 1. The undersigned Francesco Nalini, as chief executive officer, and Nicola Biondo, as manager in charge of financial reporting of Carel Industries S.p.A., also considering the provisions of article 154bis.3/4 of Legislative decree no. 58 of 24 February 1998, state that the administrative and accounting policies adopted for the preparation of the condensed interim consolidated financial statements at 30 June 2024:
  - are adequate in relation to the group's characteristics and
  - have been effectively applied during the reporting period.
- 2. There is nothing to report in this respect.
- 3. Moreover, they state that:
  - 3.1 the condensed interim consolidated financial statements:
    - a) have been prepared in accordance with the International Financial Reporting Standards endorsed by the European Community pursuant to Regulation (EC) no. 1606/2002 of the European Parliament and of the Council of 19 July 2002;
    - b) are consistent with the accounting ledgers and records;
    - c) are suitable to give a true and fair view of the financial position, financial performance and cash flows of the issuer and the group of companies included in the consolidation scope.
  - 3.2 The directors' report includes a reliable analysis of the key events of the period and their impact on the condensed interim consolidated financial statements, as well as a description of the main risks and uncertainties for the second half of the year and information about significant related party transactions.

#### REPORT ON REVIEW OF THE HALF-YEARLY CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders of Carel Industries S.p.A.

#### Introduction

We have reviewed the accompanying half-yearly condensed consolidated financial statements of Carel Industries S.p.A. and subsidiaries (the "Carel Industries Group"), which comprise the statement of financial position as of June 30, 2024 and the statement of profit and loss, statement of comprehensive income, statement of changes in equity and statement of cash flows for the six month period then ended, and the related explanatory notes. The Directors are responsible for the preparation of the halfyearly condensed consolidated financial statements in accordance with the International Accounting Standard applicable to the interim financial reporting (IAS 34) as adopted by the European Union. Our responsibility is to express a conclusion on the half-yearly condensed consolidated financial statements based on our review.

#### Scope of Review

We conducted our review in accordance with the criteria recommended by the Italian Regulatory Commission for Companies and the Stock Exchange ("Consob") for the review of the half-yearly financial statements under Resolution n° 10867 of July 31, 1997. A review of half-yearly condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (ISA Italia) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying half-yearly condensed consolidated financial statements of the Carel Industries Group as at June 30, 2024 are not prepared, in all material respects, in accordance with the International Accounting Standard applicable to the interim financial reporting (IAS 34) as adopted by the European Union.
