Item 2 on the Agenda of the Extraordinary session

Proposal to vest the Board of Directors with the delegated powers, pursuant to Article 2443 of the Italian Civil Code, to carry out a divisible or not-divisible increase of the Company's share capital, against cash payment, on one or more occasions, including in one or more tranches, valid until December 31, 2025 and for a maximum amount of €40,000,000,00 including any share premium, without option rights pursuant to Article 2441, paragraphs 5 and 6, of the Italian Civil Code, in addition to powers to define the terms and conditions of the capital increase, in compliance with any applicable laws and regulatory provisions in force. Ensuing amendment of Article 5 of the By-laws. Relevant and ensuing resolutions.

Dear Shareholders,

With regard to **Item 2** on the Agenda of the Extraordinary session of the General Shareholders' Meeting, you have been convened to discuss and resolve upon, *inter alia*, the proposal to vest the Board of Directors with the delegated powers, pursuant to Article 2443 of the Italian Civil Code, to carry out a divisible and/or not-divisible increase of the Company's share capital, against cash payment, on one or more occasions, including in one or more tranches, valid until December 31, 2025 and for a maximum amount of €40,000,000, including any share premium, without option rights pursuant to Article 2441, paragraphs 5 and 6, of the Italian Civil Code, in addition to powers to define the terms and conditions of the capital increase, in compliance with any applicable laws and regulatory provisions in force ("**Delegated Powers**"), and the ensuing amendment of Article 5 of the By-laws.

This Report ("**Report**") is aimed at illustrating the above-mentioned proposal to the General Shareholders' Meeting.

1. Delegated Powers

Article 6.2 of the By-laws, in compliance with the provisions of Article 2443 of the Italian Civil Code, establishes that the General Shareholders' Meeting may authorize the Board of Directors to increase the share capital, on one or more occasion, up to a specific amount and over a period of no more than five years following the date of the related Shareholders' resolution, by exclusively issuing ordinary shares of the Company, pursuant to the provisions of the By-laws.

For the reasons and objectives illustrated hereunder, the Delegated Powers aim to vest the Board of Directors with the powers to carry out a divisible share capital increase, against cash payment, on one or more occasions, including in one or more tranches, valid until December 31, 2025 and for a maximum amount of €40,000,000, including any share premium, and with the additional quantitative limit indicated herein, without option rights pursuant to Article 2441, paragraphs 5 and 6, of the Italian Civil Code ("**Capital Increase**" or, in the plural form, "**Capital Increases**").

The Delegate Powers will enable the Board of Directors to avail of a tool that enables the Company, under favorable conditions, to enter into any agreements with partners and/or third-party investors that would contribute all or part of the resources for pursuing the Company's strategic objectives as set out in the 2024-2026 Industrial Plan approved by the Company's Board of Directors on August 29, 2024 (the "**Industrial Plan**"). In this regard, it should be noted that under the Industrial Plan, in order to implement the initiatives envisaged therein, in addition to the resources available and those generated by core operations, resources amounting to €40,000,000,00 will have to be raised by way of a capital increase.

In detail, it must be pointed out that:

- the exclusion or limitation of the option right pursuant to Article 2441, paragraph 5, of the Italian Civil Code may only be carried out if the Board of Directors deems it appropriate that the newly issued shares be offered for subscription to qualified/institutional investors (including foreign investors) and/or to parties and/or partners carrying out activities similar, related, synergistic and/or instrumental to those of the Company;
- on the occasion of each individual resolution passed by the Board of Directors in exercising its Delegated Powers, pursuant to Article 2441, paragraph 5, of the Italian Civil Code, the Board of Directors shall draw up the reports provided for therein and, pursuant to Article 158 of TUF, shall obtain the Independent Auditors' favorable opinion on the fairness of the issue price of the new shares.

Granting Delegated Powers is the most appropriate tool to ensure that the interests of the Company and of its shareholders are met, allowing the Board of Directors to determine: i) the amount of the capital increases; ii) the final value and issue price of the new shares, also on the basis of market performance and the Company's needs; iii) the most appropriate ways to seize the opportunities that may arise on the market.

Without prejudice to the limits imposed by the Delegated Powers and the applicable regulations, the Board of Directors shall determine the actual methods and timing for executing the Capital Increase with Option Rights, as well as the proportions of the various tranches of the said Capital Increase.

2. Reasons underlying the Delegated Powers and Capital Increase — Criteria for exercising the Delegated Powers

The Delegated Powers, as described above, and the Capital Increase are intended to provide the Board of Directors with a tool that can be activated in a not particularly complex manner, mainly in connection with capital transactions aimed at raising the financial resources needed to support the Industrial Plan. It is also worth noting the rapidity with which the Delegated Powers may be activated and become effective — a feature that may enable the Board of Directors to respond promptly and effectively to any opportunities that might arise in the contexts described above.

The exclusion of option rights may also make it possible to offer newly issued shares to third parties, broadening the Company's shareholding structure, with particular reference to institutional and/or qualified investors, both Italian and foreign, as well as to potential industrial partners interested in investing in Aquafil. In addition, it will also allow to increase the free float, thus ensuring not only greater stock liquidity, but also greater visibility and better positioning of the Company on the market.

Any funds raised through the exercise of the Delegated Powers will be used to meet the Company's future financial and growth needs, as set out in the Industrial Plan.

It should also be noted that the Board of Directors may exercise its Delegated Powers to raise the resources to support the Plan as a possible alternative and complementary strategic option to the execution of the share capital increase with option rights, which the General Shareholders' Meeting has been convened to resolve upon, as per item 1 (the "**Capital Increase with Option Rights**"), in order to provide the Company with maximum flexibility. In addition, it bears noting that on the basis of the Delegate Powers, capital increases may only be resolved for amounts that — added to the actual amount of the Capital Increase with Option Rights executed — do not exceed, in any way, the maximum total amount of €40 million provided for the implementation of the Industrial Plan.

3. Reasons for excluding options rights pursuant to Article 2441, paragraphs 4, 5 and 6 of the Italian Civil Code

The Board of Directors believes that the granting of the Delegated Powers with the exclusion of option rights provides the Company with a financing tool capable of raising funds from the non-bank capital market in a short time and at low cost, thereby increasing the Company's free float. The Board of Directors considers this transaction to be in the best interests of the Company for the following reasons:

- possibility to provide itself with a flexible tool that may be a possible alternative and complementary strategic option to the raising of funds to support the Industrial Plan by means of the Capital Increase with Option Rights;
- possibility to increase and diversify the number of shareholders by attracting new partners and investors, in addition to strategic operators and institutional investors, also with a view to guaranteeing greater liquidity and solidity of the Aquafil stock in the interest of the existing shareholders;
- possibility to offer the newly issued shares also to a single party selected by the Board of Directors, thus executing the capital increase required for this purpose to be carried out more quickly and at lower costs to the Company, thereby facilitating the successful raising of funds to service the Plan.

The Board of Directors believes that, for the reasons set out above, the execution of the Capital Increase represents a reasonably convenient solution in the interest of the Company, justifying the exclusion of the option rights pursuant to Article 2441, paragraph 5, of the Italian Civil Code.

4. Terms and conditions of the Capital Increase, including the criteria for determining the issue price of the new shares of the Capital Increase

In line with market practice for similar transactions, it is proposed that the Shareholders' Meeting grant the Board of Directors any and all broadest powers to determine the methods, terms and conditions of the Capital Increase, including the powers to:

- (i) establish the issue price of the new ordinary shares ("**Subscription Price**"), and in particular the portion to be allocated to the share capital and that to be allocated to the share premium reserve, it being understood that the Subscription Price shall not be lower than the implicit accounting value at the date of the resolution passed to grant the said Delegated Powers. The Subscription Price (and therefore the maximum number of shares in service of the capital

increase) shall be established in compliance with the provisions of Article 2441, paragraph 6, of the Italian Civil Code;

- (i) determine the size of the issue, it being understood that (i) without prejudice to the maximum limit of €40,000,000 envisaged by the Delegated Powers, Capital Increases may only be resolved for amounts that — added to the actual amount of the Capital Increase with Option Rights executed — do not exceed, in any way, the maximum total amount of €40,000,000 provided for by the Industrial Plan to implement the initiatives envisaged therein, and (ii) the ordinary shares resulting from the Capital Increase shall have the same characteristics and shall grant the same rights as the ordinary shares outstanding at the time of the issue;
- (iii) determine the proportions of any tranches of the Capital Increase within the time limit provided for the Delegated Powers;
- (iv) establish the timing for executing the Capital Increase resolution.

The criteria and reasons set out herein constitute the principles to be followed by the Board of Directors in exercising its Delegated Powers.

5. Term of the Delegated Powers and period set for the execution of the Capital Increase

Should this proposal be approved by the Extraordinary Shareholders' Meeting of the Company, the Delegate Powers may be exercised until December 31, 2025, after which they will automatically expire.

The timing for exercising the Delegated Powers pursuant to Article 2443 of the Italian Civil Code, as well as the conditions for the said exercise, will depend on the actual circumstances and concrete opportunities that will arise and will be disclosed to the market as soon as they are determined by the Board of Directors.

6. Amount for which Delegated Powers may be exercised

It is proposed that the total amount of the Capital Increase, including any share premium, to be carried out by exercising the Delegated Powers be set at a maximum of €40,000,000,00 it being understood that capital increases may only be resolved for amounts that — added to the actual amount of the Capital Increase with Option Rights executed — do not exceed, in any way, the maximum total amount of €40,000,000 provided for the implementation of the Industrial Plan.

7. Date of entitlement to the newly issued shares

The ordinary shares to be issued following execution of the Capital Increase will confer ordinary dividend entitlement and will grant their holders the same rights as the ordinary shares outstanding at the time of issue.

8. Economic and financial impact of the Capital Increase and dilution effects

The Company will duly disclose to the public, as part of the disclosure to be made available to the public at the time of the exercise of the Delegated Powers, any economic and capital effects of the Capital Increase, as well as the effects of the Capital Increase on the unit value of the shares and the dilution for the Company's shareholders.

9. Amendments to the By-laws

Should the proposal for granting the Delegated Powers be approved by the Extraordinary Shareholders' Meeting, it will be necessary to amend Article 5 of the Company's By-laws accordingly, by adding the new paragraph 5.11, which reports the resolution approved by the General Shareholders' Meeting.

A comparison of the above-mentioned Article 5 in its current and proposed text is given here below.
