## TESMEC S.P.A.: CLARIFICATION ON THE PRESS RELEASE “TESMEC GROUP AWARDED THE TENDER FOR THE SUPPLY OF AN INNOVATIVE DIAGNOSTIC SYSTEM FOR THE SWISS FEDERAL RAILWAYS”

Grassobbio (Bergamo), 8 October 2024 – **At CONSOB request, Tesmec S.p.A.** (EURONEXT STAR MILAN: TES) (“**Tesmec**” or “**Company**”), at the head of a group leader in the market of technologies for infrastructures (overhead, underground and railway networks) related to the transport of energy, data and materials (oil and derivatives, gas and water), and of technologies in surface mining, provides further clarification regarding the commercial press release issued yesterday, 7 October 2024, in which the Tesmec Group announced the award of a tender for the supply of an innovative diagnostic system for the Swiss Federal Railways, with a total value of no more than CHF 6.5 million.

In this release, the Company announced that it had been awarded, through its subsidiary Tesmec Rail S.r.l, a tender by the Swiss Federal Railways, SBB CFF FFS, for the delivery, installation and commissioning of a peripheral system for an SBB towed diagnostic vehicle, with the aim of ensuring a high level of safety and availability of the Swiss railway network and making a significant contribution to the maintenance of the railway infrastructure.

This award is strategic for the Company as it marks Tesmec's entry into the Swiss market, which is characterized by high technological standards, although it should be noted that the economic value of the order does not significantly affect the consolidated results.

The award highlights Tesmec's commitment to technological innovation achieved through significant investments in digitalization and diagnostics to ensure the highest standards of safety and efficiency.

### **Tesmec Group**

Tesmec Group is active in the design, production and marketing of systems and integrated solutions for the construction, maintenance and diagnostics of infrastructures (overhead, underground and railway networks) for the transport of energy, data and materials (oil and derivatives, gas and water), as well as technologies for quarries and surface mining. The Group operates in the following sectors: - Energy. Tesmec Group designs, manufactures and markets machines and integrated systems for the construction

# TESMEC

and maintenance of overhead and underground power lines, fibre optic networks (Stringing segment), as well as advanced equipment and systems for the automation, efficiency, management and monitoring of high, medium and low voltage electrical networks and substations (Energy Automation Segment); - Trencher. Tesmec Group carries out the design, production, sale and rental of trencher machines functional to four types of activities (excavation and mines, excavations for the installation of pipelines, for the construction of telecommunication and optical fibre infrastructures, excavations for the construction of underground power networks), as well as the provision of specialized excavation services. The trencher machines are rented by the Group both with the operator (hot rental or wet rental) and without the operator (cold rental or dry rental); - Railway. The Group designs, manufactures and markets machines and integrated systems for the installation and maintenance of the railway catenary, devices for the diagnostics of the railway catenary and track, as well as customized machines for special operations on the line.

Born in Italy in 1951 and led by the Chairman and CEO Ambrogio Caccia Dominioni, the Group counts on more than 1000 employees and has its production sites in Grassobbio (Bergamo), Sirone (Lecco), Monopoli (Bari) and Bitetto (Bari) in Italy, Alvarado (Texas) in the USA and Durtal in France. It relies on three research and development units in Fidenza (Parma), Padua and Patrica (Frosinone). Listed on the EURONEXT STAR MILAN of the Euronext Milan market of the Italian Stock Exchange, the Group boasts a global commercial presence through foreign subsidiaries and sales offices in the USA, in South Africa, West Africa, Australia, New Zealand, Russia, Qatar and China.

In its development strategy, the Group intends to consolidate its position as a solution provider in the three abovementioned business areas, by exploiting the trends of energy transition, digitalization, and sustainability.
