2024 GUIDANCE CONFIRMED:

EBITDA Adj. expected between Euro 66 and 71 million compared to Euro 64.1 million last year

Vimercate (Monza Brianza), 13 November 2024 – The Board of Directors of ESPRINET, a leading Group in Southern Europe in advisory services, sale and rental of technological products and IT security today approved the Additional periodical disclosure as at 30 September 2024, drafted in compliance with the international accounting standards (IFRS).

Alessandro Cattani, ESPRINET's Chief Executive Officer: "We are satisfied with the results achieved by the Group in the third quarter of 2024. In all the countries of southern Europe, the market has finally returned to growth, and we have once again consolidated our leadership, with an increase in gross sales of 8%, moreover in a still uncertain macroeconomic scenario.

The focus on high value-added Solutions and Services allowed us to record a 24% growth in the third quarter, fully seizing the opportunities that are being generated in this high-margin segment, and to significantly increase our market share. Excellent results were also recorded in the Screens segment, which benefited from the recovery in demand for PCs, while the Devices segment remained under pressure in terms of sales as well as in margins in televisions, household appliances and accessories. With reference to the types of customers, the Retail channel has finally shown resilience while the IT Reseller channel has continued its strong growth.

Thanks to good cost control, we also recorded good income results in this quarter, even with gross profit margin still under pressure.

Looking to the future, we are confident that we can maintain this positive trend. We will continue to invest in innovation, strengthen our presence in key markets and optimize our operations. At the same time, we will maintain a constant focus on costs and cash generation to ensure the sustainability of our business model.

Based on the results obtained and the market outlook also validated by sector analysts, we confirm our guidance for the entire financial year of an EBITDA Adj. of between Euro 66 and 71 million compared to Euro 64.1 million last year".

Net Sales (€/million)	Q3 2024	Q3 2023	Var.	% Var.
Italy	597.3	545.9	51.4	9%

Looking at the performance of the **business lines** in which the Group operates, in the nine months of the year gross sales from Screens (PCs, Tablets and Smartphones) showed an essentially flat trend, almost entirely offsetting the delay measured in the January-March 2024 period, thanks to the growth of 5% recorded in the second guarter and 4% recorded in the third guarter.

Gross sales in the Devices segment show a slight delay in the nine months of 2024: -1%, with the third quarter falling by 2%.

In the Solutions and Services segments, the Group improved the result for the January-September 2023 period (gross sales +16%), with a growth of 24% in the third quarter of 2024. Following the application of the accounting standard IFRS 15, the sales of Solutions and Services amounted to Euro 696.5 million and their ratio to total sales rose to 25% (23% in the nine months of 2023).

Lastly, analysing the **customers segments**, as at 30 September 2024 the Group's gross sales show the following trends: Consumer Segment (Euro 946.5 million) essentially flat, Business Segment (Euro 2,063.9 million) + 6% compared to the same period last year. The results of the third quarter show a return to growth in the Consumer Segment (+4%) and an increase of 10% in gross sales in the Business Segment.

Gross Profit amounted to Euro 153.8 million euro, essentially unchanged compared to the nine months of 2023 (Euro 154.1 million). The increase in sales is sufficient to offset the slight reduction in the percentage margin (5.53% in January-September 2024 versus 5.61% in the same period in the previous year).

¹ Measured gross reconciliation adjustments, i.e. the application of IFRS 15 accounting and other minor adjustments.

EBITDA Adjusted, which coincides with EBITDA given that no non-recurring costs were recorded, amounted to Euro 36.3 million, compared to Euro 36.6 million as at 30 September 2023 (-1%). The incidence on sales stood at 1.31% compared to 1.33% in the same period of 2023, reflecting the reduction in the gross profit in percentage terms.

In fact, operating costs are in line with the nine months of last year, despite the entry into the scope of consolidation of Sifar Group S.r.l. in Italy and Lidera Network S.L. in Spain, acquired in August 2023. Their incidence on sales fell to 4.22% compared to 4.28% in the January-September 2024 period.

EBIT Adjusted, which coincides with EBIT as no non-recurring costs were recognized, amounted to Euro 19.3 million, -13% compared to Euro 22.2 million in the first three quarters of 2023 and in further decline compared to EBITDA Adjusted, as a result of the amortization of the automation systems of some Italian warehouse activities started at the end of 2023, the right to use the new Italian warehouse in Tortona and the activities that emerged with the acquisition of Sifar Group S.r.l..

Result before income taxes was Euro 8.1 million, compared to Euro -21.4 million in the nine months of 2023.

Net result amounted to Euro 6.6 million, compared to Euro -24.9 million in the first three quarters of 2023.

Earnings per ordinary share stood at Euro 0.13, compared to Euro -0.50 as at 30 September 2023.

CASH CONVERSION CYCLE

The Cash Conversion Cycle² closed at 22 days (unchanged compared to Q2 24 and -8 days compared to Q3 23).

NET FINANCIAL POSITION

The Net Financial Position was negative for Euro 344.3 million, compared to a negative balance of Euro 164.0 million as at 30 June 2024 and a negative balance of Euro 260.6 million as at 30 September 2023. The change compared to both 30 June 2024 and 30 September 2023 is due to the higher level of average net working capital invested and to the significant multi-year lease agreement for the Italian warehouse in Tortona starting from 01 August 2024. It is always to be considered that the value of the exact net financial position is influenced by technical factors like the seasonality of the business, the trend in "non-recourse" assignments of trade receivables (factoring, confirming and securitization) and the trend in the behavioral models of customers and suppliers in the different periods of the year. Therefore, it is not representative of the average levels of net financial indebtedness noted during the period. The aforementioned factoring and securitization programs, which define the complete transfer of risks and benefits to the assignees and therefore involve the derecognition of receivables from the statement of financial position assets in compliance with IFRS 9, determine an overall effect on the level of consolidated net financial payables as at 30 September 2024 of Euro 297.1 million (Euro 244.0 million as at 30 September 2023 and Euro 334.1 million as at 30 June 2024).

<u>ROCE</u>

The ROCE stands at 6.5%, compared to 7.3% as at 30 September 2023.

² Equal to the average number of days of turnover of Operating Net Working Capital of the last 4 quarters, calculated as the sum of trade receivables, inventories and trade payables.

OUTLOOK 2024

After the first positive signs recorded in the second quarter and supporting analysts' estimates, the ICT distribution sector in the period July-September 2024 recorded growth in all southern European countries. In this context, the Group once again outperformed the market, continuing to strengthen its share in Italy and Spain. Looking at the business lines, the focus on the high margin segment of Solutions and Services has contributed the most to this consolidation, but the Group also recorded significant results in the Screens area, outperforming its competitors in seizing the opportunities linked to the PC sector's return to the growth. The same positive dynamics can be observed by considering the customers segments served by the Group, both in the Retail area, but above all in the IT Reseller area.

In this scenario, the Group intends to continue to strengthen its strategic position in the countries in which it operates, exploiting the opportunities offered by the market, improving the dynamics linked to profit margins and optimizing invested capital levels, together with the constant control of operating costs.

Although remaining cautious with regard to the macroeconomic and geopolitical context, in light of the results as at 30 September 2024 and in the favorable context described above, validated by sector analysts' forecasts, the Group confirms its expectations for the current year, predicting an EBITDA Adjusted of between Euro 66 and 71 million, compared to Euro 64.1 million in the previous year.

The manager responsible for preparing the Company's accounting documents, Stefano Mattioli, declares that, in compliance with the provisions of paragraph 2 of art. 154-bis of Italian Legislative Decree No. 58/1998 (T.U.F. - Consolidated Law on Finance), the financial data shown in this press release correspond to the findings resulting from accounting documents, books and accounting records.

It should be noted that the values reported in this document are not audited by the independent auditors.
