Capital Markets Day 2024

November 18th Milan

Agenda

Flavio Cattaneo, CEO

2025-27 Strategic Plan

- > The Group in the energy context
- **▶** 2025-27 Strategic Plan
- > The Group in the next three years

Stefano De Angelis, CFO

2025-27 Strategic Plan

- Capital allocation and EBITDA growth
- > The financial plan
- Targets

Flavio Cattaneo, CEO

Closing remarks

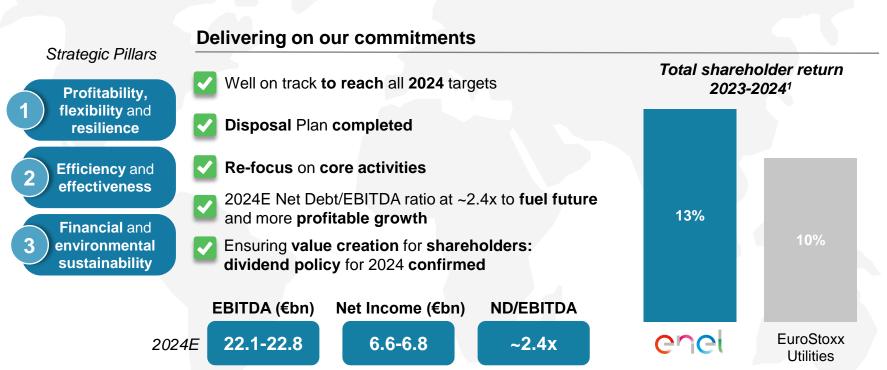

Flavio Cattaneo CEO

2024 results empower us to tackle the next chapter

EMARKE SDIR CERTIFIED

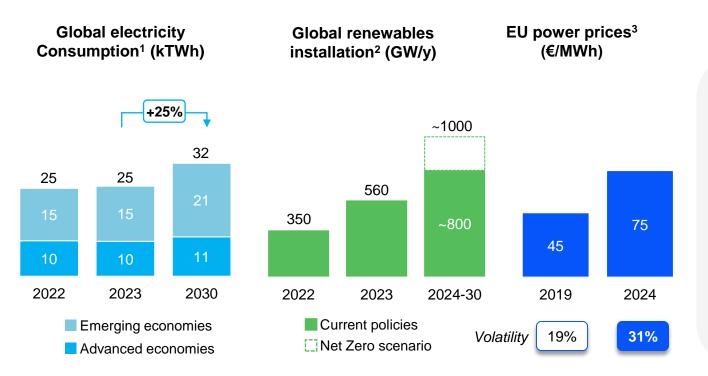

The Group in the energy context

Advancing energy transition calls for new regulations...

New market
design and
regulatory
mechanisms
needed for
sustainable
renewable
expansion and to
manage higher
volatility

IEA World Energy Outlook 2024 (STEPS scenario)

^{2.} IEA 2024, World Energy Outlook. Current policies: IEA STEPS scenario; Net Zero: NZE scenario

^{3.} Volatility: average standard deviation of day-ahead wholesale prices of EU countries

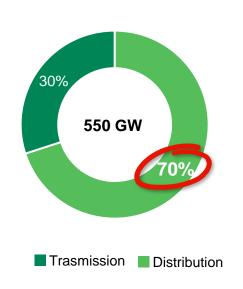

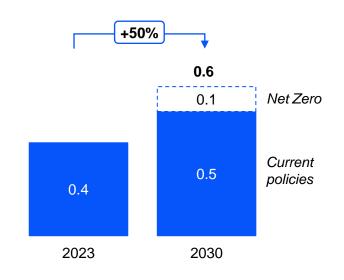

EMARKE

New RES EU connection 2023-301

Global Investments in grids² (k\$bn/y)

Energy system calls for increasing investments in distribution grids to host growing renewable capacity and enhance quality and resilience to climate events

IEA World Energy Outlook 2024 (STEPS scenario)

^{2.} IEA 2024, World Energy Outlook. Current policies: IEA STEPS scenario; Net Zero: NZE scenario

2025-27 Strategic Plan

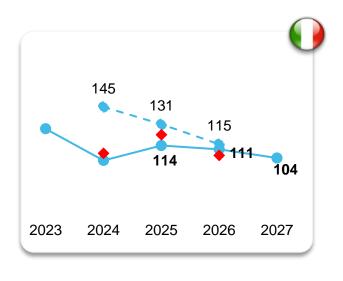

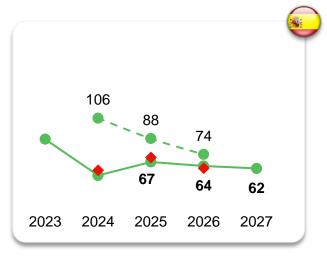

External context normalization leads to a re-set of plan assumptions

Power Price Italy (€/MWh)

A solid and conservative approach: power prices scenario fully aligned with current forward curves

— New Plan −− Old Plan ◆ Forward price¹

As of November 15th 2024

Pillars and key business drivers confirmed

EMARKE

- 1 Profitability, flexibility and resilience
- 2 Efficiency and effectiveness
- Financial and environmental sustainability

Grids

- Investments tailored according to returns
- Continued enhancement of grid resilience, operating efficiency and quality
- Leverage on digitalization and innovation to enable the energy transition

Generation

- Selective capital allocation driven by a weighted risk-reward matrix
- Greenfield and brownfield assets opportunities to enhance profitability
- Optimize LCOE by improving supply chain processes

Customers

- Focus on Customers to enhance value of portfolio through bundled offers
- Optimization of customer relations management channels and acquisitions
- Rationalization of product portfolio and geographic footprint

Risk-return profile optimization and innovative solutions to enhance value creation

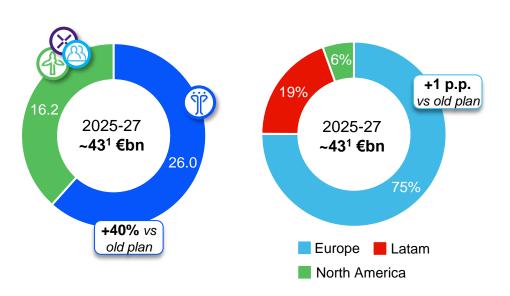

EMARKE SDIR CERTIFIED

Cumulated gross capex (€bn)

Boosting investments in **grids Investments sized** reflecting **EBITDA** contribution

Grids

7.2% Blended regulated return² over 2025-27+22% RAB growth +14 p.p. vs old plan

Renewables

300 bps average spread IRR-WACC

Customers

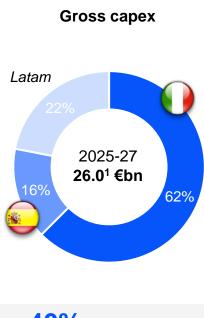

Leverage on bundled offerings and customers loyalty to expand customer base and marginality

[.] Split does not include "Other"

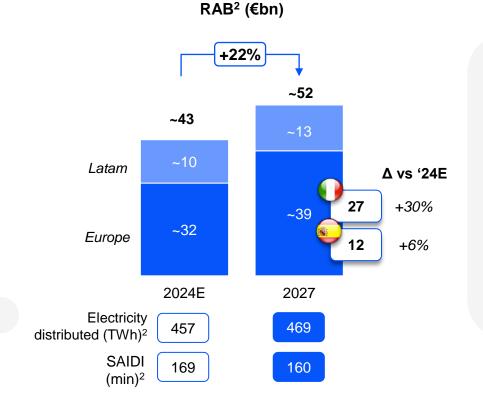

profitability

Investments focused on improving grids' quality and resilience and designed to **improve** Group's returns

Split does not include "Other"

Core countries

CERTIFIED

Regulatory period

2024 - 2028

Next regulatory period in 2026

Brazil and Chile: beyond 2027

Colombia and **Argentina** next regulatory period in 2025

Advocacy priorities

- Ongoing advocacy on concession renewal with enhanced grids quality
- Definition of incentive mechanisms for resilience and massive deployment of smart meters
- Revision of remuneration schemes for quality investments

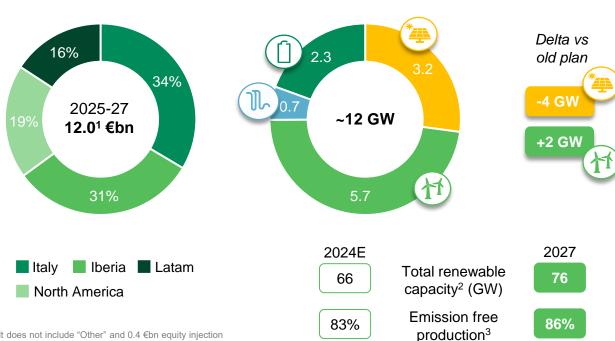

EMARKE^{*}

Additional capacity

Renewable development concentrated in **core** countries, streamlining of assets portfolio

It does not include "Other" and 0.4 €bn equity injection

It includes managed capacity and BESS

It includes renewable managed production and nuclear

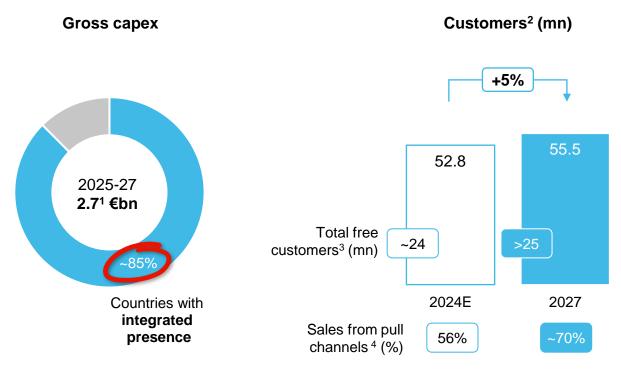

Investments focused on the most valuable initiatives and geographies

EMARKE SDIR CERTIFIED

Bundled offers
tailored on
customer needs
and geographies,
leveraging on
scale-up and
valorization of
new businesses

^{1.} Split does not include "Other"

^{2.} It includes power customers (liberalized and regulated markets) and gas customers. 2024E net of 'vulnerable' customers in Italy

^{3.} Power, gas and fiber customers

^{4.} Italy and Iberia

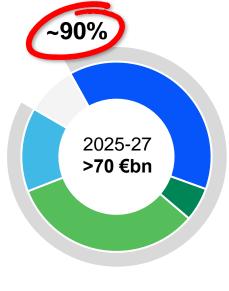

Reducing risk and increasing visibility

Grids

Contracted/ regulated (€bn)

~27

▶ 100% business regulated

Regulated generation

Generation capacity covered by regulatory schemes

Contracted generation

~23

Production **hedged/sold** to customers and covered by **PPAs** with an **avg. duration** of **8 years**

Customers

~10

Regulated customers and volumes already contracted

~90% of regulated and contracted EBITDA offers unprecedented visibility on future delivery

~64 €bn

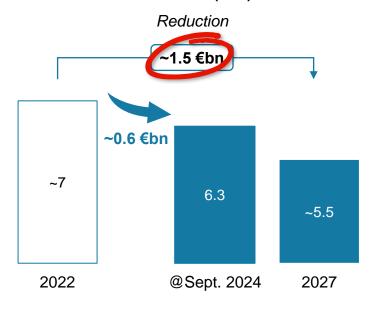

Raising the bar on efficiencies

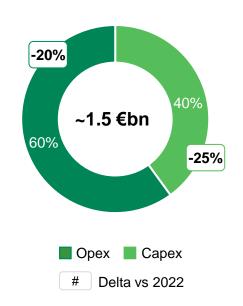

EMARKE

Evolution of addressable cash-cost baseline¹ (€bn)

Cash-cost reduction split²

Continued optimization effort on processes and activities also leveraging on insourcing

[.] Addressable cash-costs exclude new generation asset development, grids reguated totex and perimeter effect.

In real terms 2022

Efficiency and value creation enhanced through a new business model for connection assets

Connection assets

Creation of a NewCo focused on connection assets to unlock further value

O&M activities for existing connection assets

Construction and maintenance of new connection assets

Connection of existing and perspective consumers (Data Centers)

Connection of **producers**

Data Centers

Provide value-added solutions to Data centers operators leveraging on Enel's global scale and know-how

Solutions provided to Data Centers operators

A solid financial position to fund growth ambitions and shareholder remuneration

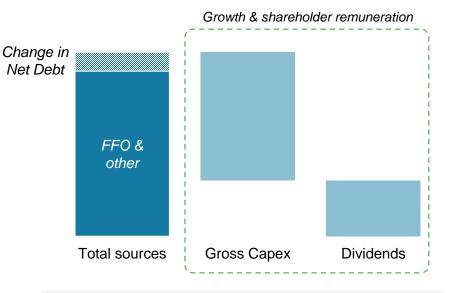

EMARKE SDIR CERTIFIED

Leverage evolution (ND/EBITDA)

3.1x Peers Average 3.1x 2.7x -2.4x -2.5x 2022 2023 2024 2027

2025-27 Funds allocation (€bn)

De-leverage achieved through **improvement of results** and **execution of reengineered M&A plan**

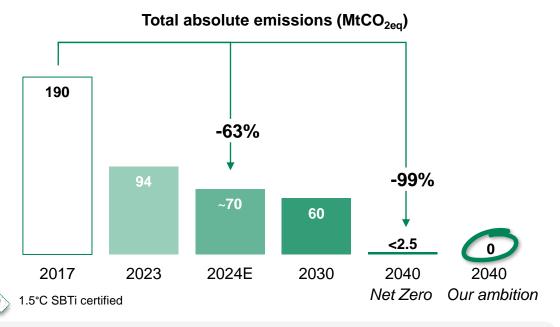

Delivery, cash generation and financial discipline enable growth and shareholder remuneration

Well on track to achieve Net Zero

EMARKE

2027

Exit coal power generation¹

2040

Zero GHG emissions from both generation and retail business

Just Transition

A plan that preserves the social and economic context

Net Zero - A roadmap aligned with the Paris Agreement (1.5°C pathway)

SBTi certification for 2030 and 2040 emission reduction targets across all scopes

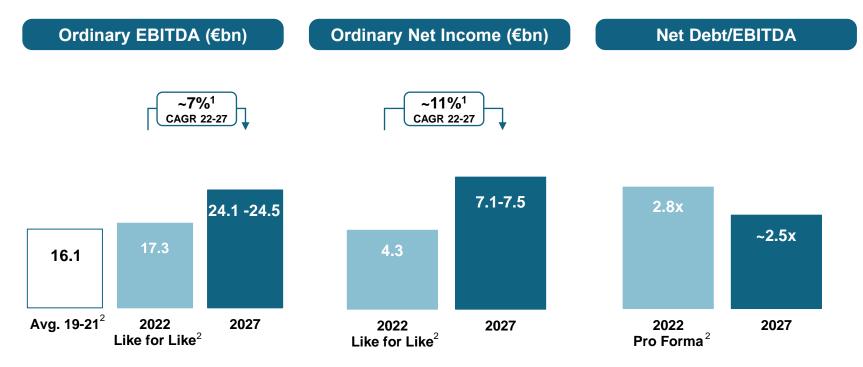

The Group in the next three years

Plan's targets

^{1.} Calculated on mid-point of the guidance range

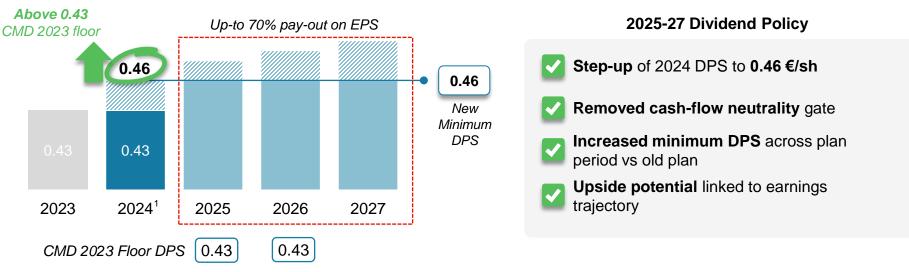

^{2.} Calculated excluding the impact from disposals and stewardship gains

A value-driven strategy promotes sustainable value creation for shareholders

EMARKE

Simple, visible and sustainable shareholder remuneration

Minimum DPS of 0.46 €/sh with upside payment up-to 70% pay-out on Net Ordinary Income

Stefano De Angelis CFO

Capital allocation and EBITDA growth

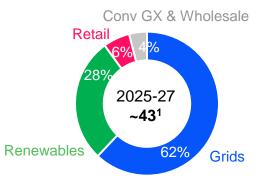

Capital allocation execution and core operation improvement drive to a more resilient business profile

EMARKE SDIR CERTIFIED

Gross Capex by business (€bn)

EBITDA coverage (€bn)

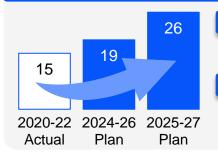

Regulated customers and volumes already contracted

Cumulated Gross Capex (€bn)

- Selective approach to renewables confirmed in light of persisting uncertainty
- Positive stance on new capacity backed by regulated schemes (CfD like)
- Focus on short position in integrated markets
- Shorter time-to-market and technology shift through brownfield opportunities

Grids

- Broad consensus of unprecedented need for investments to enable a sustainable energy transition and fair regulated returns
- Strategic update built on supportive and proactive attitude across geographies with reactive magnitude tailored coherently with fair and visible regulatory frameworks

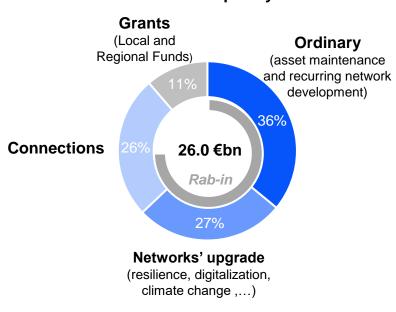

25

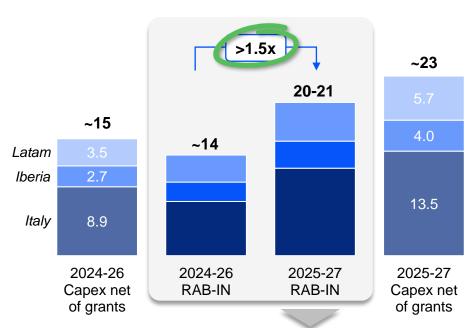

Proactive attitude across geographies to foster a sustainable network upgrade with fair visible returns

From Gross to "RAB-in" eligible Capex¹ (€bn)

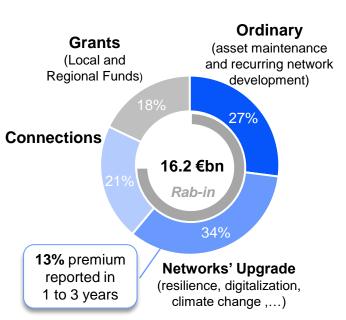

EMARKE

Grids' capex remuneration scheme: focus on Italy

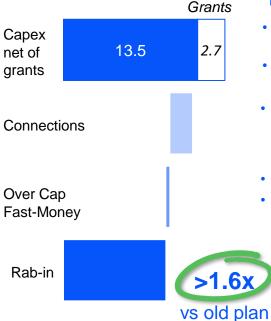

2025-27 Gross capex by nature

Capex break-down (€bn)

Non-RAB regulated Incentive schemes

- According to IFRS, Grants are deducted from related asset when cashed-in
- **10%premium** on gross investment to **EBITDA**
- Connection contribution paid by the customers is excluded from RAB-in and accounted at P&L
- New **ROSS** regulatory scheme introduced
- Fast-Money and efficiency premium (EBITDA) applied to Capex exceeding regulatory Cap

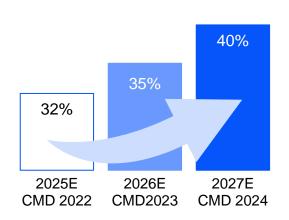

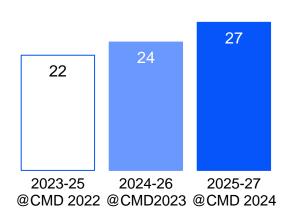

Networks' contribution to the Group has been restored with improved business and risk profile

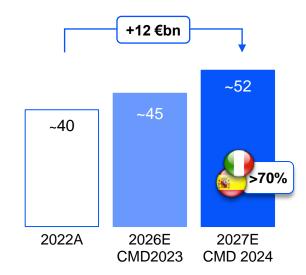

Grids share on Group EBITDA

Grids 3Y cumulated EBITDA (€bn)

RAB evolution¹ (€bn)

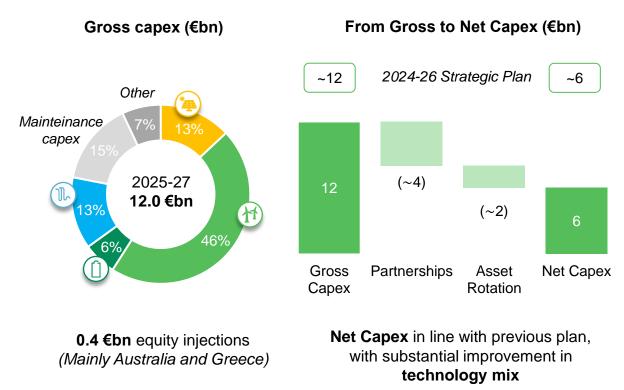

CMD 2024 cumulated EBITDA to exceed by more than 20% vs the target set in CMD 2022

New renewable capacity: shift in technology mix to further improve returns' risk profile

Key operational New capacity (GW) 5.7 >70% wind and 2.3 programmable technologies 0.7 3.2 +17% Total production¹ (TWh) 170 146 ~55% +1 p.p. vs 2024E 34 53 45 2024E 2027 North Am. Latam 29

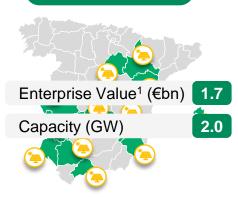

Brownfield deal in Spain proves the potential value creation upside of the new capital allocation strategy

July 2024

Sale of 49.99% of solar assets

- Partnership Model: improve financial flexibility retaining control in core integrated countries
- Improved project's IRR
- Hedging risk in the most volatile technologies

November 2024

Acquisition of 100% hydro assets

- Ownership Model: full control in core integrated markets and resilient technologies
- Fully funded by the partnerships and renewables industrial plan model
- IRR-WACC in line with plan's ambition

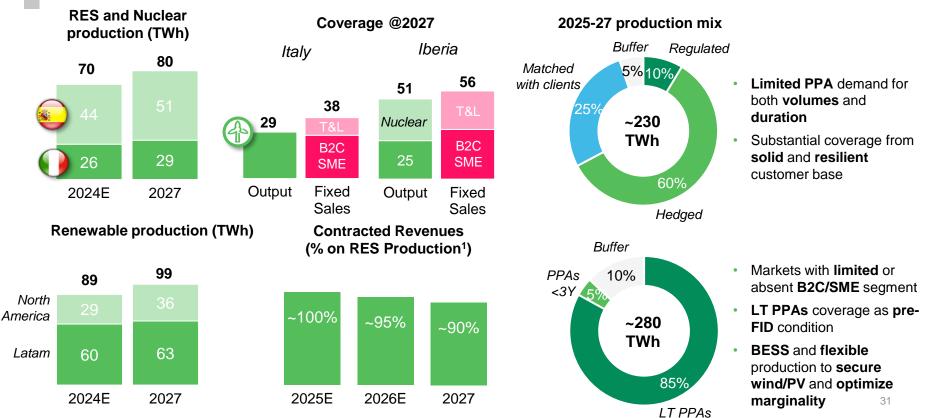

- Reduce portfolio exposure to most volatile assets while strengthening readily available resilient capacity
- Unique opportunity to add ready to go flexible resources to the asset base
- Exploit additional value generated by our solid integrated presence in the Country

(C&I and DSOs)

A strategy tailored to fit market and country specifics

EMARKET SDIR

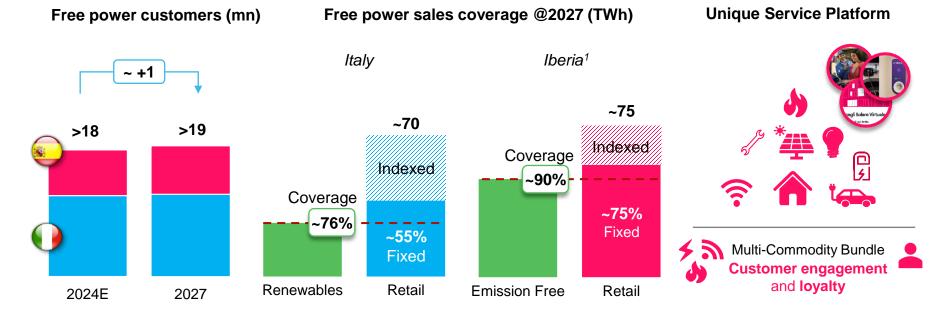

Do not include long-term Production buffer secured as protection from short positions due to low availability of resources (mainly hydro)

A strategy tailored to fit market and country specifics: focus on Europe

EMARKE SDIR

Leveraging on a **solid** and **resilient B2C/SMEs** customer base and distinctive offering portfolio

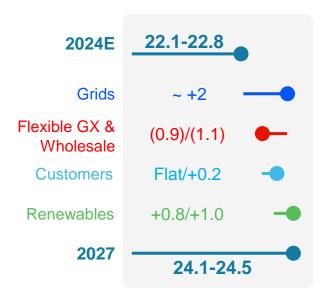

EMARKE

CERTIFIED

EBITDA evolution¹ (€bn)

Grids

- +7 €bn RAB and WACC updates drives EBITDA growth
- Extra remuneration on networks upgrade, resilience projects and grants compensation close the bridge to 2027 EBITDA

Generation

- EBITDA growth from added **renewable capacity** and further **optimization** of the **integrated energy management** is partially offset by pool price reduction
- Conservative scenario on **conventional capacity** progressively limited to **flexible** and **regulated services generation**
- Reduced exposure (economic and financial) to Long Term gas contracts

Customers

- Deployment of the multi-service bundled commercial strategy in a normalized commodity market leveraging on a fully repositioned customer base (Italy)
- Profitability supported by productivity gains in physical and digital channels

The financial plan

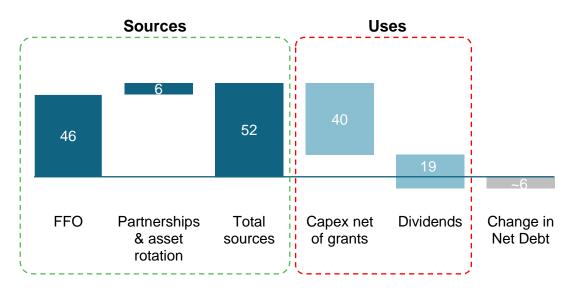

Industrial growth and shareholder remuneration fueled by a solid financial position

EMARKE SDIR

2025-27 Funds allocation (€bn)

Leveraging on financial flexibility and cash generation to fund growth ambitions

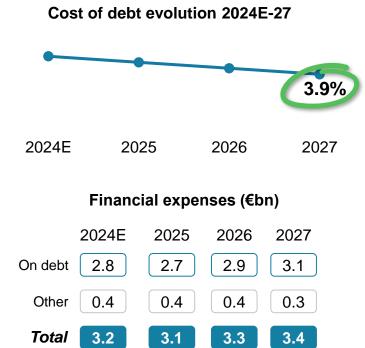

- > Average EBITDA conversion into FFO with an increasing trend reaching 65% at end of plan period
- > Grants contribution and partnership model to lower risk and optimize financial effort

CERTIFIED

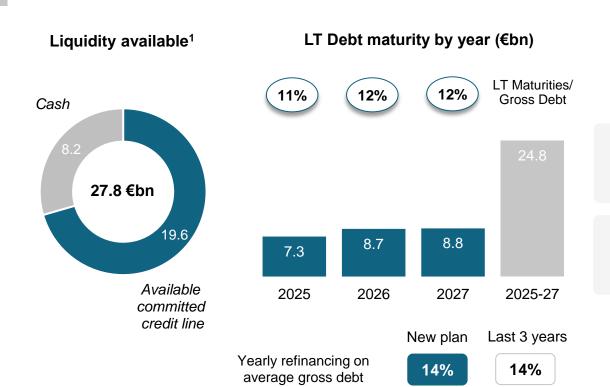

@ 2027

[.] Enel estimates on current cost associated with financial instruments

EMARKET SDIR

Ample liquidity available covers
> 100% debt maturities over the period 25-27

Average yearly refinancing on gross debt in line versus last three years

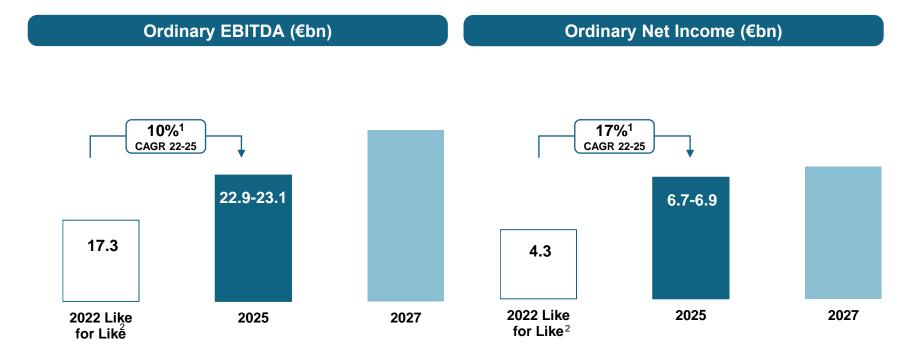

Targets

EMARKET SDIR CERTIFIED

Plan's targets for 2025

^{1.} Calculated on mid-point of the guidance range

Calculated excluding the impact from disposals and stewardship gains

Closing remarks

Closing remarks

EMARKE

A solid Strategic
Plan centered
on core activities,
open to innovation
to unlock further
value

Optimization of the risk-return profile of the Group, boosting investments on regulated assets with stable returns

Continued
maximization of
cash generation to
maintain a solid
financial position
while improving
shareholder
remuneration

Focus on core businesses and geographies to enhance visibility and value creation

Optimizing risk-return profile while maximizing total shareholder return
