# Leader in the high-growth distressed market segment

In the overall fast growing factoring market (turnover in Italy is expected to grow from € 289bn in 2024 up to €300bn in 2025) Generalfinance focuses on distressed sellers (UTP, forborne and past due) with a portfolio of performing debtors (in bonis)

### Addressable market

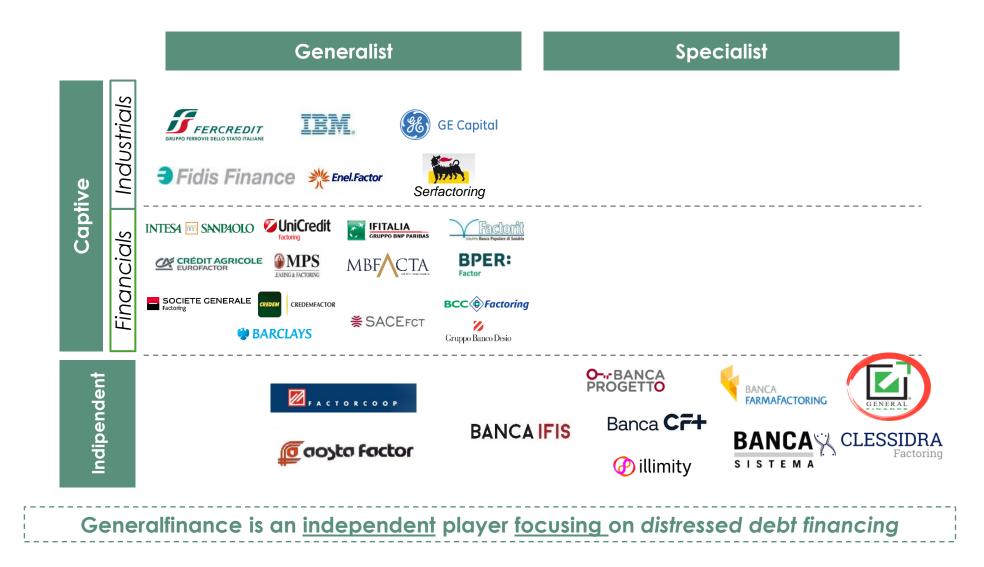

The worsening financial conditions of Italian companies expected in the next three-year period and the consequent increase in rates of deterioration could in fact drive a growth in the potential turnover of factoring to distressed companies by 8 percent annually, up to a market value of ca. 40 billion € by 2024

### **Competitive Positioning**

# Value proposition, distinctive features and value chain

#### Value proposition

Generalfinance offers its customers (mostly companies under financial stress) rapid and customized interventions for the financing of the working capital and trade receivables, covering the entire supply chain finance

"Revolving" relationship (LIR<sup>1</sup> at 24 months) in a predominantly "notification" mode and, where applicable, "acceptance" of the debt

#### Distinctive skills

- o Consolidated expertise throughout the entire process
- End-to-end in-house valuation process, tailored to customer specifications
- Strong risk reduction and diversification mechanisms
- In-house-developed proprietary factoring platform to support business specifications
- Fast operational processes and capability to provide
   bridge financing within turnaround processes

3

#### Generalfinance masters all the crossroads of the value chain

- o All operational steps and core activities are carried out internally by Generalfinance's dedicated structures
- Generalfinance does not relies on external consultants to assess the creditworthiness of sellers and debtors but owns all the skills
- The process is reinforced by credit insurance policies provided by Allianz Trade insurance company which, during the risk acquisition phase, performs an independent assessment of the assigned debtors, providing Generalfinance a feedback on the results of their assessment

# **Risk reduction in Distressed Factoring**

emarket sdir storage CERTIFIED

Given that the majority of Generalfinance's turnover is realized towards distressed Sellers, the Company can benefit from a reduction in risk, because of 3 main factors

#### Lower Credit Risk

- Effects of insolvency proceedings on financial position (ex. credit write-offs)
- o Recovery and relaunch plan
- Possible change in the Governance
- Possible capital injection or new financing
- Predeductibility (i.e., superpriority) of receivables arising from loans disbursed in execution of the plan and loans disbursed prior to the submission of the composition with creditors plan, respectively, if the conditions provided by the regulations are met

#### Lower Operating Risk

- Court approval (arrangement with creditors, restructuring agreement)
- Supervision by the court commissioner (arrangement with creditors)
- Presence of high standing Financial Advisors and Legal Counsels
- Management change

- Financial assistance for the implementation of the agreement / plan / arrangement with creditors with exemptions from clawback actions
- Authorization for bridge financing (in these cases, the risk of clawback actions is excluded on a de facto basis)
- Factoring law and related protections (clawback actions regarding collections from assigned debtors)

### **Closing Remarks**

#### **Closing Remarks**

#### 2024 first 9 months of the year confirm a growing trend, in line with full year budget:

- Profitability level showing significant growth: net profit up +27%
- Very good asset quality confirmed
- Further reduction of the cost income ratio, expected to drop further thanks to the very good operating leverage
- An updated organization oriented to risk control and business development
- Macroeconomic evolution and more difficult environment for SME lending support our strategy

#### New steps ahead to further support our numbers:

- New sellers pipeline set to push a stronger growth ahead
- Robust and diversified funding structure to support future growth
- Strong Capital ratios (TCR > 15%) allowing a sound capital buffer for growth even exceeding strategic plan horizon
- Expanding Generalfinance abroad: establishment of Spanish branch expected by year end, subject to Bol approval
- Net Income 2024 guidance confirmed: >20M

The offsetting mechanism is a specific technicality of the Factoring Agreement, which is elaborated consistently with the Assifact standard

#### ARTICLE 28 OF GENERALFINANCE FACTORING AGREEMENT

"The Factor will be entitled to retain sums and set off the debts (of every kind) due by the Factor to the Seller against the Receivables (of every kind) due from the Seller to the Factor, including the Receivables due from the Seller to third parties and assigned to/guaranteed by the Factor.

Should the Seller default on any of its payment obligations, the Factor will be able to treat its Receivables as liquid and payable, even if not already fallen due. Offsets by the Seller require the prior written consent of the Factor".

A PRACTICAL EXAMPLE:

<u>Seller A</u>
