The Avio Group is the leader in the manufacturing and development of solid and liquid propulsion systems for launchers, acting as sub-contractor and prime contractor for the Ariane and Vega space programmes, both funded by the ESA. These space programs seek to develop and manufacture launchers to position useful loads in geostationary and low orbit respectively.

Avio intends to contribute to precise ESG - Environmental, Social and Governance - objectives through a progressive improvement of its performance - correlated to business objectives and in line with the SDGs.

In this regard, during the Board meeting of July 22, 2021, Avio approved the Sustainability Policy, initiating a concrete path to strengthen and implement the values of ethics, integrity and responsibility in respect of people, the environment and society as a whole, and in order to integrate sustainability in the strategy and management of its business, defining with the different Company departments, the Sustainability Committee and the Board of Directors, the objectives to be enhanced in a Sustainability Plan aligned to the Strategic Plan and the Audit Plan. Based on the aforementioned Sustainability Policy, the Sustainability Plan was prepared, founded upon qualitative and quantitative ESG indicators to be developed over a five-year timeframe, subject to monitoring by the relevant corporate owners, who report at least semi-annually to the Sustainability Committee.

Moreover, Avio is committed to managing dialogue with all its shareholders through fair, transparent and differentiated forms of engagement, believing that establishing and maintaining a constant and ongoing relationship with all the main stakeholders is in its own specific interest, as well as a duty towards the market.

In this sense, on March 3, 2022, Avio's Board of Directors approved an ad hoc policy in order to conform the rules of corporate governance and the management of the dialogue with the Shareholders to the principles established by the Corporate Governance Code. In fact, the Policy intends to pursue the objective of raising the level of transparency and involvement of investors, as promoted by the Shareholder Rights Directive II with reference to institutional investors and asset managers, as a functional instrument to guarantee the sustainable success of Avio, which is substantiated by the creation of long-term value to the benefit of Shareholders, taking into account the interests of all other stakeholders and the impacts that its operations may have at an environmental, social and economic level.

- Board of Directors, and
- Board of Statutory Auditors.

Avio's Governance also consists of the following internal committees of Avio's Board of Directors: (i) the Control and Risks Committee; (ii) the Sustainability Committee; and (iii) the Appointments and Remuneration Committee.

Avio intends to contribute to precise ESG - Environmental, Social and Governance - objectives through a progressive improvement of its performance, correlated to business objectives.

In this regard, during the year 2021, Avio started up a process for the definition of a sustainability policy with the objective of strengthening and implementing the values of ethics, integrity and responsibility in respect of people, the environment and society as a whole, in order to integrate sustainability into the strategy and management of its business, defining with the different company departments the objectives to be enhanced in a sustainability plan aligned to a Group business plan. Based on the aforementioned Sustainability Policy, the Sustainability Plan was prepared, founded upon qualitative and quantitative ESG indicators to be developed over a five-year timeframe, subject to monitoring by the relevant corporate owners, who report at least semi-annually to the Sustainability Committee.

Moreover, it is committed to managing dialogue with all its shareholders through fair, transparent and differentiated forms of engagement, believing that establishing and maintaining a constant and ongoing relationship with all the main stakeholders is in its own specific interest, as well as a duty towards the market.

In this sense, on March 3, 2022, Avio's Board of Directors approved an ad hoc policy in order to conform the rules of corporate governance and the management of the dialogue with the Shareholders to the principles established by the Corporate Governance Code. In fact, the Policy intends to pursue the objective of raising the level of transparency and involvement of investors, as promoted by the Shareholder Rights Directive II with reference to institutional investors and asset managers, as a functional instrument to guarantee the sustainable success of Avio, which is substantiated by the creation of long-term value to the benefit of Shareholders, taking into account the interests of all other stakeholders and the impacts that its operations may have at an environmental, social and economic level. Please refer to Chapter 16 of this Report for the management of communications with Shareholders.

Article 14 of By-Laws establishes that the Board shall have the widest powers of ordinary and extraordinary administration of the Company, with the power to carry out all acts it deems appropriate for attaining the corporate purpose, with the sole exception of those attributed exclusively by law to the Shareholders' Meeting. The Board of Directors, in accordance with

Article 2365, paragraph 2 of the Civil Code is also empowered to pass the following resolutions, without prejudice to the concurrent competence of the Shareholders' Meeting. (i) the opening and closing of secondary offices; (ii) the reduction of the share capital as a result of a return of shares; (iii) updating the By-Laws in accordance with the law; (iv) transfer of the registered office within Italy; (v) the indication of which Directors may represent the Company. (vi) the indication of which Directors may represent the Company.

As per Article 11.1 of the By-Laws, the Board of Directors shall appoint a Chairperson from its membership, if the Ordinary Shareholders' Meeting has not already done so. The Board is also entitled to appoint a Secretary, who may also be external to the Company, upon a proposal from the individual chairing the meeting.

Under Article 12.2 of the By-Laws, within the limits of the Law and the By-Laws, the Board of Directors may delegate part of its powers to an Executive Committee, determining the limits of such mandate as well as the number of members of the committee and its operating procedures. The Board may appoint one or more Chief Executive Officers, granting them the relevant powers. Moreover, the Board of Directors may also establish one or more committees with advisory, investigating, proposing or control functions, vested with the powers set out by the Board of Directors. The Board of Directors may also appoint General Managers, defining their powers and granting power of attorney to third parties for certain acts or categories of acts.

Pursuant to Article 12.1 of the By-Laws, the matters and strategic activities on which the Italian Government has a right to object pursuant to the Golden Power Regulation fall under the exclusive remit of the Board of Directors and may not be delegated, and the related Board of Directors' resolutions shall be adopted and executed in compliance with the provisions of the Golden Power Regulation.

4.2 Appointment and replacement (as per Article 123-bis, paragraph 2, letter l), CFA)

As per Article 11 of the By-Laws, Avio is managed by a Board of Directors consisting of nine members or 11 members, as decided by the Shareholders' Meeting. The Directors remain in office for three years, unless a lesser term is set out by the appointment motion, with the term concluding on the date of the Shareholders' Meeting called to approve the financial statements pertaining to the last financial year of their term, and may be reappointed.

All Directors shall possess the eligibility and standing requirements provided for by law and other applicable provisions, as well as the integrity requirements provided for by Italian Ministerial Decree No. 162 of March 30, 2000 and the applicable legislation in force. Pursuant to Article 147-ter, paragraph 4 of the CFA, at least two Directors must also possess the independence requirements set out therein.

As per applicable legislative and regulatory provisions for listed companies, Article 11 of the By-Laws establishes that the Shareholders' Meeting appoints the Board of Directors on the basis of slates presented by the outgoing Board of Directors or by the shareholders, in accordance with the procedure outlined below, except where otherwise established by obligatory laws or regulations.

Shareholders can present a slate for the appointment of Directors, in addition to the departing Board of Directors, who, alone or together with other presenting shareholders, have a shareholding at least equal to that determined by Consob in accordance with applicable provisions and regulations. Ownership of the minimum shareholding is determined according to the shares that are registered in favour of the shareholder on the day in which the slates are filed with the issuer; certification can also be made subsequent to the filing provided that it is within the deadline for the publication of the slates.

The slates are filed at the registered office, and subsequently published, in accordance with the methods and the deadlines provided for by applicable law.

The slates provide for a number of candidates of no fewer than two and not exceeding the number of Directors to be appointed, each linked to a progressive number. Each slate shall contain and expressly indicate at least two Directors considered as independent as per applicable laws and the Corporate Governance Code. The slates containing three or more candidates may not be composed of candidates only from the same gender (male or female); these slates should include a number of candidates of the under-represented gender to guarantee the composition of the Board of Directors in accordance with legal and regulatory provisions in relation to gender equality (male or female) rules, rounded upwards.

Each slate must include as an attachment, at the risk of ineligibility: (i) the curriculum vitae of the candidates; (ii) a declaration in which all the candidates accept the candidature, and attest, under their own responsibility, that no grounds for ineligibility and incompatibility exist, as well as the existence of the requirements prescribed by applicable law and the By-Laws for the office of Director of the Company and including the declaration on the possession of the independence requirements; (iii) the identity of the shareholders who have submitted the slates and the total percentage of shares held; (iv) any additional or differing declaration, information, and/or documents provided for by applicable law and regulations.

Each Shareholder may not - even through a nominee or a trust - submit, or contribute to submitting, more than one slate or vote upon different slates. Moreover, each candidate may be included only in one slate, under penalty of ineligibility.

At the end of the voting process, the candidates of the two slates that have obtained the highest number of votes shall be elected, on the basis of the following criteria: (i) from the slate obtaining the majority of votes cast (the “**Majority Slate**”), a number of Directors equal to the total number of the members to be appointed less three shall be taken; and (ii) from the slate obtaining the second highest number of votes cast (the “**Minority Slate**”) and not linked even indirectly with the Shareholders that submitted or voted the slate that achieved the highest number of votes, three Directors shall be taken, including at least one Independent Director, according to the progressive order of the candidates on the slate.

If the Majority Slate, or the Minority Slate, depending on the case, does not contain a sufficient number of candidates in order to appoint the number of Directors required for each of them based on the aforementioned criteria, the remaining Directors to be elected shall be taken from the other slate, i.e. either the Minority or the Majority Slate depending on the case - in the progressive order in which they appear.

Consideration is not taken of the slates which have not obtained at least half of the votes required for the presentation of slates.

Should two slates receive the same number of votes, a second vote of the Shareholders’ Meeting shall decide by considering only the slates receiving the same number of votes.

If, at the end of the vote, the legal and regulatory provisions applicable from time to time on (male and female) gender parity (including rounding up to the next whole number if the implementation of gender quotas does not result in a whole number), the replacement mechanisms detailed below shall apply.

A) The last of the candidates that would have been elected from the Majority Slate and belonging to the over-represented gender shall be replaced with the first of the non-elected candidates taken from the same slate and belonging to the under-represented gender;

B) Where the replacement under letter A) above does not allow the achievement of the minimum threshold set out by legal and regulatory provisions applicable from time to time to gender parity (including rounding up to the next whole number if the implementation of gender quotas does not result in a whole number), the last of the candidates that would have been elected in the Minority Slate and belonging to the over-represented gender shall be replaced with the first non-elected candidate taken from the same slate belonging to the under-represented gender;

C) Where the replacements under letters A) and B) above do not allow the achievement of the minimum threshold set out by legal and statutory regulations applicable from time to time on gender parity (including rounding up to the next whole number if the application of gender quotas does not result in a whole number), the second-last candidate that would have been elected from the Majority Slate and belonging to the over-represented gender shall also be replaced, and so on, from the bottom of the ranking, considering only the candidates that would have been elected taken from the aforementioned slate.

Where, as a result of the mechanism detailed above, no Independent Director is appointed from the Majority Slate, the last non-independent candidate elected from the Majority Slate shall be replaced by the first independent candidate not elected from the aforementioned slate, in progressive order, without prejudice in any case to the compliance with the gender parity provided for by legal and/or regulatory provisions as applicable. If, based on the aforementioned mechanism, no Independent Director is appointed from the Minority Slate, the same procedure shall be followed, *mutatis mutandis*.

Where only one slate is presented, the Shareholders' Meeting will vote on that slate and, where this slate receives the majority of the votes, all the members of the Board of Directors will be taken from this slate in accordance with applicable law and regulations, including gender equality regulations (rounded upwards where resulting in a fraction).

In the absence of slates, or if only one slate is presented and this does not obtain the majority of votes, or if the number of elected directors on the basis of slates presented is lower than the number of members to be elected, or if the entire Board of Directors is not to be renewed, or if it is not possible for any reason to elect the Board of Directors in the manner provided for in this Article, the members of the Board of Directors will be elected by the Shareholders' Meeting by statutory majority, without the application of slate voting, save for the obligation to maintain the minimum number of Independent Directors established by law and in accordance with the applicable law and regulations in terms of gender equality quotas.

In the event that, for whatever reason, one or more Directors are no longer sitting, the Board of Directors will proceed with co-option, where possible, from among the non-elected candidates from the slate from which the Director leaving office had been elected, according to the progressive numbering of the slate, while maintaining the obligation of a minimum number of Independent Directors as established by law and these By-Laws and in accordance with the applicable law and regulations on gender equality quotas.

In the event of termination of office, for any reason, of more than half of the Directors elected by the Shareholders' Meeting, the entire Board shall be deemed to lapse with effect from the moment in which the Board of Directors has been renewed and the Directors still in office will urgently call the Shareholders' Meeting for the election of the new Board of Directors.

On February 28, 2020, the Board of Directors, on the proposal of the Appointments and Remuneration Committee, approved a succession plan for the Executive Director.

Avio maintains that the succession plan is an instrument to ensure the consistent management of risk, business continuity and the long-term sustainability of the Company, by governing the process of replacing the Executive Director in the potential situation of early conclusion of office.

In addition, the existence of a succession plan ensures continuity and certainty in business operations as well as the selection of the best possible candidates for the office of Executive Director in order to avoid decisions being taken without the support of a structured process.

Recommendation No. 7, paragraph 1, of Article 2 of the Corporate Governance Code for listed companies adopted by the Corporate Governance Committee in January 2020 (the “Code”), in which Avio includes among the circumstances that compromise, or appear to compromise, the independence of a Director or Statutory Auditor the following:

- *“c) if, directly or indirectly (for example through subsidiary companies or where they are an Executive Director, or as partner of a professional advisory firm or a consultancy company), has, or has had in the three previous years, a significant commercial, financial or professional relationship:*
 - *with the Company or its subsidiaries, or its Executive Directors or Top Management;*
 - *with a party that, also together with others through a shareholder agreement, controls the Company; or if the Parent is a company or corporation, with the relevant Executive Directors or Senior Management; and*
- *“d) if he/ she receives, or has received in the previous three years, from the Company, one of its subsidiaries or the Parent Company, significant additional remuneration with respect to the fixed remuneration for the office and the remuneration provided for participation in the committees recommended by the Code or provided for by the applicable regulations”.*

In order to apply the aforementioned provisions, Recommendation No. 7, second paragraph, of the Code requires the Board of Directors to define, at least at the beginning of its term of office and, in any case, prior to the assessment of the independence of Directors and Statutory Auditors, the quantitative and qualitative criteria for assessing the significance of the relationships referred to in letters c) and d) of Recommendation 7, first paragraph, of the Code.

In relation to this, the Recommendation indicates that “In the case of a Director who is also a partner in a professional firm or consulting firm, the Board of Directors assesses the significance of any professional relationships that may affect his/her position and role within the firm or consulting firm, or that otherwise relate to significant transactions of the firm and its group, regardless of the quantitative parameters”.

On March 14, 2022, the Board of Directors, with the assistance of the Appointments and Remuneration Committee, approved, for the purposes of assessing the independence of Directors and Statutory Auditors, a Policy containing qualitative and quantitative criteria aimed at pre-determining the significance of the relationships referred to in Article 2, Rec. 7, letters c) and d), of the Corporate Governance Code.

The aforementioned document illustrates the quantitative and qualitative criteria approved by Avio's Board of Directors, with the assistance of the Appointments and Remuneration Committee, to assess the significance of relationships, including economic, that may compromise the independence of Directors/Statutory Auditors (the "**Quantitative and Qualitative Criteria**" or the "**Criteria**").

More specifically, with particular reference to quantitative criteria, any commercial, financial or professional relationship that the Director or Statutory Auditor - whose independence is subject to assessment - has or has had during the financial year in which the declaration of independence is made, or in the three financial years prior to the date on which the declaration is made, with the following significant parties are relevant:

- (i) the Company or its subsidiaries, or its Executive Directors or Top Management;
- (ii) the party that, also together with others through a shareholder agreement, controls the Company; or if the parent is a company or corporation, with the relevant Executive Directors or Senior Management.

For the purposes of Recommendation 7, paragraph one, letter c) of the Corporate Governance Code "significant" is to be deemed:

- a relationship of a commercial or financial nature of a professional nature with relevant persons if the total annual consideration for such relationships exceeds 50% of the total amount of the fixed annual remuneration received by the Relevant Person for the office or for participation in committees.

It should be underlined that, for the purposes of the above, also the relationships with the relevant persons held by close family members are taken into account, i.e.: (i) parents, (ii) children, (iii) the spouse who is not legally separated and (iv) cohabitants.

The "additional remuneration" to be considered in evaluating the independence of a member of the Board of Directors includes the sum of any additional remuneration paid by Avio, one of its subsidiaries or the parent company, even indirectly, with respect to the "fixed remuneration for the office" and "the remuneration for participation in the committees recommended by the Code or by the laws in force".

To this end, the remuneration received in the form of participation in incentive plans linked to company performance is also included.

Additional remuneration is normally to be considered significant - and therefore capable of compromising the independence of the Relevant Person concerned - if the total annual consideration for such relationships exceeds 50% of the total amount of the fixed annual remuneration received by the Relevant Person for the office or for participation in committees.

Even if these quantitative parameters are not exceeded, a relationship of a commercial, financial or professional nature shall be deemed "significant" for the purposes of Recommendation 7, first paragraph, letter c) of the Code if it is deemed by the Board of Directors to be capable of affecting the autonomy of judgement and independence of a Director of Avio in their duties.

Therefore, purely by way of example, in the event that the party is also a partner of a professional firm or consulting company, the Avio Board of Directors - independently of the aforementioned quantitative parameters - may consider as "significant" the professional relations of the firm and/or consulting company with the relevant persons who:

- (i) may have an effect on the Director's position and/or role in the firm; and/or

- (ii) pertain to important operations of the Company and the Group it heads.

The significance of the aforementioned relationships is assessed taking into account the overall professional activity normally carried out by the party, the tasks normally assigned to them, as well as the importance that these relationships may have for the party in terms of reputation within his own organisation.

The information required by Article 123-bis, paragraph 1, letter l) of the CFA) relating to the “*applicable regulations concerning the appointment and replacement of Directors (....), in addition to the amendment of the By-Laws if differing from applicable law and regulations*” is illustrated in the section of the Report concerning the Board of Directors (Section 4).

4.3.2. Diversity policies

National and European Law ensure and promote diversity in age, gender and nationality, and expertise among the members of company administrative boards.

Specifically, Directive 2014/95/EU enacting amendments to Directive 2013/34/EU as regards the communication of non-financial information and information on diversity, was implemented in Italy through Legislative Decree No. 254 of December 30, 2016. The Directive envisaged that the Corporate Governance and Ownership Structure Report referred to in Article 123-*bis* of the CFA provides information concerning the diversity policies adopted in accordance with the comply or explain principle.

In addition, pursuant to Article 147-*ter*, paragraph 1-*ter* of the CFA (introduced by Law No. 120 of July 12, 2011 and recently amended with Law No. 160 of December 27, 2019), the by-laws of listed companies must provide that, for six consecutive mandates, Directors are elected on the basis of a criterion which ensures gender balance.

Consequently, in accordance with the provisions of Principle VII of the Corporate Governance Code, Avio has applied diversity criteria, including gender criteria, to the composition of the Board of Directors, in line with the priority objective of ensuring sufficient skills and professionalism in its members.

Pursuant to Article 11.6 of the Avio By-Laws and Recommendation 8, Article 2 of the Corporate Governance Code, slates containing three or more candidates may not be composed of candidates only from the same gender (male or female); these slates should include a number of candidates of the under-represented gender to guarantee the composition of the Board of Directors in accordance with legal and regulatory provisions in relation to gender equality (male and female), provided that should the application of the gender equality quota not result in a full number, this should be rounded up to the next unit.

Recommendation 22 of the Corporate Governance Code recommends that a self-assessment of the functioning of the Board and its Committees be conducted at least every three years in preparation for the renewal of the Board, taking into account the following general principles regarding diversity with respect to its composition: (i) age, length of service and international experience; (ii) gender parity; (iii) diversity of professional and managerial skills and recommends, in large companies other than those with concentrated ownership that the self-assessment be conducted annually. Although Avio does not fall into the category of large companies, the self-assessment is conducted on an annual basis.

It should also be noted that, in order to implement the provisions of applicable law, the Board of Directors of March 15, 2018, approved the "Diversity Policies". These Policies were subsequently updated with Board of Directors' motion in the meetings of March 14, 2019, February 28, 2020, March 19, 2021 and latterly on March 14, 2022.

The Policies are targeted at (i) guaranteeing a better knowledge of the needs and requests of stakeholders; (ii) reducing the risk of homologation of the opinions of the members of the corporate bodies; (iii) making the decision-making process more effective and thorough; (iv) enriching the discussion within the corporate bodies thanks to expertise, of a general strategic or specific technical nature, formed outside Avio; (v) nurturing dialogue, a distinctive prerequisite for a well-considered and conscious decision; (vi) allowing the members of the corporate bodies to constructively question the decisions of management as well as (vii) encouraging turnover within the corporate bodies.

In any case it should be noted that Avio closely focuses on the issues of diversity and inclusion irrespective of that set out in the primary regulation.

Copies of the Codes are available on the website www.avio.com, “Corporate Governance” section.

Avio has obtained certification related to gender equality.

Gender equality certification attests to a company’s commitment to promoting policies and practices aimed at reducing the gender gap in the workplace.

The launch of this project marks the beginning of a company plan to consciously promote gender equality.

It assesses various aspects, including equal pay, access to leadership roles, work-life balance and professional development opportunities for both men and women.

In this regard, we note that Avio has appointed a Gender Equality Steering Committee, comprising: The Chairperson of the Board of Directors, members of the Sustainability Committee, the HR Director, General Counsel and the Sustainability Director, and has approved the Gender Equality Policy.

Avio S.p.A.’s Gender Equality Policy is based on the following fundamental principles: (i) impartiality, inclusivity and fairness (ii) ethics, integrity and transparency (iii) enhancement of human capital in line with the principle of equal opportunities (iv) protection of employees’ physical well-being and (v) zero tolerance of any form of violence or discrimination.

In addition, the company has implemented a management system dedicated to Gender Equality.

4.3.3. Maximum number of offices permitted in other companies

At the Report approval date, the Board of Directors has not defined the criteria relating to the maximum number of offices of administration and control in other companies that may be considered compatible with the proper carrying out of their duties as directors of Avio.

The Board’s self-assessment process for 2024 confirmed the positive assessment in terms of the functioning of the Board and its Committee, also with regards to this aspect.

The company intends to comply with the recommendations contained in Principle XII of the Corporate Governance Code, relating to the obligation of the members of the Board of Directors to accept the office of Director only when they believe they can dedicate the necessary time to diligently carry out their duties, also taking into account their work and professional commitments and offices held in financial, banking and insurance companies or companies of significant size listed on regulated markets (including abroad).

If Directors believe that they cannot devote the necessary time to the diligent performance of their duties, they shall promptly inform the Board of Directors, which shall evaluate the situation in light of the specific case and/or the Company's interest. As a result of these assessments, the Board of Directors calls upon the Director to take the ensuing decisions, subject to the power of this Board to agree to any justified waivers.

On these occasions, the items were still discussed preliminarily within the spheres of responsibility of the committees established by the Board and in any case, the Chairperson ensured that adequate insights were provided during the Board sessions.

In order to provide appropriate insights on the items on the Agenda, participants at Board meetings during 2024 included, among others: the Chief Financial Officer, the General Counsel, the Internal Audit Manager, the Chief Commercial Officer, the Strategy and Business Development Manager, the Chairperson of the Supervisory Board as well as those Departments identified in the minutes of the Board's meetings with reference to specific items on the Agenda.

Lastly, in the meeting of September 11, 2024, the Board discussed and approved the Company's 2024-2028 Business Plan, having received the favourable opinion of the Control and Risks Committee in its meeting of September 5, 2024, consistent with the provisions of the Corporate Governance Code Recommendations.

In this regard, as of 2023 and throughout 2024, the Chief Executive Officer punctually and regularly involved the Board of Directors in the preparation of the strategic content of the 2024-2028 Business Plan and on the developments involved in implementing the 2024-2028 Business Plan.

4.5 Self-assessment

On February 21, 2025, the Board concluded the periodic self-assessment process on the adequacy of the Board and that of its Committees in terms of composition and functioning. The self-assessment process was carried out on the BoardClic digital platform.

In order to comply with the provisions of Recommendations 21 and 22 of Article 4 of the Corporate Governance Code, the Board of Directors made a positive assessment on the activities carried out in 2024, on the size, composition and functioning of the Board and its Committees, based on the results of the report prepared by the external consulting firm BoardClic.

In addition to analysing the activities of the Board of Directors and of its Committees undertaken during the year 2024, the assessment also provided deeper insight into potential areas for improvement.

Among the significant aspects that emerged from the board evaluation was the positive picture regarding the qualitative-quantitative profile of the Board of Directors, and highlighted that the experience of the Directors and the relationship of trust and professional respect established among them appear to be strengths of the Board of Directors. A review of the self-assessment questionnaires also shows that the Board of Directors, as a whole, contributes to the Company's strategy. The results of the self-assessment also showed broad satisfaction among the Directors regarding (i) the figure of the Chairperson of the Board of Directors; (ii) the composition and functioning of the Committees; (iii) the efficiency of the internal financial control and risk management monitoring procedures and the whistleblowing procedure; and (iv) the timing with which the Company makes available to the Directors the material pertaining to Board of Directors meetings.

Regarding the Board's competencies, the report highlighted how to improve the Company's performance by paying more attention to: (i) the responsiveness with which the Board of Directors responds to changing business conditions; (ii) in the area of "Talent and Culture", the report highlighted the importance of the Board having more frequent dialogue with the Company's top management (with the exception of the Chief Executive Officer) and paying more attention to the succession plan for Executive Directors; (iii) the desirability of the Board of Directors spending more time reviewing new investment proposals; (iv) the desirability of increasing the time the Board of Directors spend on "business intelligence" (e.g. market trends, competitive intelligence).

It should be noted that Recommendation 22 of the Corporate Governance Code recommends that the self-assessment be conducted at least every three years in view of the renewal of the Board of Directors and recommends, in large companies other than those with concentrated ownership that the self-assessment be conducted annually. Although Avio does not fall into the category of large companies, the self-assessment is conducted on an annual basis.

The Inside Information Processing Policy governs, in compliance with the Regulation (EU) No. 596/2014 of the European Parliament and Council of April 16, 2014 concerning market abuse and the relative delegative and Executive regulations (the **MAR Regulation**): (i) the management and handling of inside information, as well as the procedures to be complied with, both inside and outside the Company, in order to disclose the aforementioned information; and (ii) the creation and management of the list of individuals who, due to their work or professional activities or duties performed, have access to inside information on an occasional or regular basis ("**Insider Register**").

Moreover, this incorporates certain Consob recommendations concerning the processing of inside information contained in the Guidelines published by Consob on October 13, 2018 and Legislative Decree No. 10/2018 introduced by Legislative Decree No. 107 of August 10, 2018, enacting the "*National Regulation Adjustment Rules to the MAR Regulation provisions*".

On July 14, 2022, the text of Implementing Regulation (EU) 2022/1210 was published in the Official Journal of the European Union. It lays down implementing technical standards for the application of the MAR Regulation with regard to insider lists, repealing and replacing Implementing Regulation (EU) 2016/347.

However, the substantive changes made by EU Regulation 2022/1210 affect only companies listed on SME Growth Markets and may be summarised as follows:

- companies listed on SME growth markets may only compile a list of persons who, due to the nature of their function or position within the issuer, have regular access to inside information (these include, by way of example, Executive Directors, members of management and supervisory bodies, the General Manager, the CFO, the head of the legal department and in-house counsel and related staff functions); thus, the companies do not have to maintain a register for each specific piece of inside information;
- if Member States intend to use the option of requiring issuers listed on SME growth markets to include all persons with access to inside information in their lists by providing a section specific to each piece of inside information, they cannot provide the same level of personal information as is required of companies that do not fall into this category.

As far as Avio is concerned, therefore, the changes made concerned the references to the repealed EU regulation and the new EU regulations, aligning the text of the Code adopted by Avio with the regulations currently in force and providing for a schedule of meetings of the Inside Information

Management Function (IIMF) “in line with needs, instead of quarterly”.

The Internal Dealing Policy regulates disclosure obligations in respect of Consob, the Issuer and the public, and the rules of conduct connected to the execution of transactions involving financial instruments issued by the Issuer, by persons who exercise administrative, control or management functions at the Issuer and by persons closely connected to them (as defined by Article 19 of the MAR Regulation).

The essential elements of the Inside Information Processing Policy and the Internal Dealing Policy, applicable at the Report approval date, are briefly illustrated below.

Inside information processing policy

Definition of inside information

Inside Information, as per Article 7, paragraph 1, letter a) of the MAR Regulation, is taken to mean information: (i) of a precise nature, namely that (a) such refers to a set of circumstances which exists or may reasonably be expected to come into existence or an event which has occurred or may reasonably be expected to occur, and (b) is specific enough to enable conclusions to be drawn on the possible effect of the set of circumstances or event referred to in subparagraph (a) on the prices of the financial instruments issued by the Company (as identified by the applicable regulation); (ii) that has not been made public; (iii) that directly or indirectly concerns the Issuer or the companies directly or indirectly controlled by the Issuer or the Financial Instruments of the Issuer; and (iv) that, if made public, may have a significant effect on the prices of the Financial Instruments of the Issuer or that a reasonable investor would use as one of the elements on which to base investment decisions.

In this regard, in the case of an extensive process undertaken to achieve, or which results in, a particular circumstance or a particular event, this future circumstance or future event, in addition to the interim steps taken as part of the process linked to the achievement or the occurrence of the circumstance or future event, may be considered as information of a precise nature.

Addressees of the Inside Information Processing Policy

Those required to comply with the procedures outlined in the Inside Information Processing Policy are: (i) the members of the administrative and control bodies, in addition to employees of the Company and the subsidiaries (ii) any natural or legal persons who, because of their work or professional activities or duties, have access on a regular or occasional basis to significant and/or inside information concerning the Company and its subsidiaries.

Processing of significant information and inside information

The Policy’s addressees - as identified above - must maintain the complete confidentiality of the significant and/or inside information of which they are aware. All inside information must be processed with the necessary care to ensure that its circulation within the Company does not threaten its confidential nature, unless such is announced to the market according to the means established by the Policy and the applicable regulation. The same obligation applies to the processing of significant information, until it is disclosed to the public according to the manner prescribed by the Policy and the applicable procedure (as becoming inside information or as considered by the competent bodies of the Company as necessary or appropriate), or until it no longer may be considered as significant. The addressees must also promptly inform the competent functions with regards to information within their respective scope concerning any act, event or omission which may constitute a violation of the Policy.

Subject to Article 184 and subsequent of the CFA, in addition to Articles 14 and 15 of the MAR

Regulation, the addressees may not: (a) acquire, sell or otherwise execute operations on Financial Instruments issued by the Company (including the cancellation or amendment of orders where the order has been sent before the interested party came into possession of Inside Information), on their own behalf or on behalf of third parties, directly or indirectly, utilizing Inside Information; (b) advise or induce others, on the basis of Inside Information, to carry out any operations at point (a); (c) communicate to third parties Inside Information outside of the normal exercise of their duties, profession, function or office; in particular it is absolutely prohibited to provide interviews to press organisations or declarations in general which contain inside information concerning the Company and its subsidiaries, not yet communicated to the market as per the Policy. The communication to third parties of advice or inducements as per letter (b) is considered as unlawful communication of Inside Information where the person communicating the advice or inducement knows or should know that such is based on Inside Information.

The Company has set up the Inside Information Management Function (IIMF) in the form of a committee comprising the Chief Executive Officer, the CFO, the Investor Relator, the Head of the organisational function in which the information was generated, the Communications Manager and the Information Contact Person, identified in the person of the General Counsel, responsible for managing and applying the Code.

The Board of Directors, in addition, established the Insider Register and Relevant Information Register (RIL), setting out the policy for the maintenance of these lists and appointing the Information Contact Person as the person responsible for its maintenance and updating in order to ensure easy consultation and the simplified extraction of data.

The RIL is managed according to the means established for the Insider Register, with a number of adjustments (and remaining in the register until the significant information no longer qualifies as Confidential).

Internal Dealing Policy

In accordance with the provisions set forth in the MAR Regulation, and considering the repeal of Article 114, paragraph 7 of the CFA, enacted by Law No. 21 of March 5, 2024, on measures to support capital competitiveness, the Code was updated on March 10, 2025 by the Chief Executive Officer. He was authorised to make the changes determined by legislative and regulatory provisions pursuant to Article 8.1 of the Code approved on September 13, 2017 by Avio's Board of Directors and the relative executive regulations. The Internal Dealing Policy imposes upon Managers stringent communication obligations to the Issuer and Consob with regards to transactions concerning company shares (or other associated financial instruments (“**Significant Transactions**”), carried out by, or on behalf of, such persons and/or closely related persons, excluding transactions whose overall amount does not reach Euro 20,000.00 by year-end (the “**Significant Amount**”). Once the Significant Amount is exceeded: managers and closely related persons must report all subsequent transactions by the end of the year.

In accordance with the Internal Dealing Policy: _

- “**Managers**” are:
 - (a) the members of the Board of Directors and the Board of Statutory Auditors of the Issuer;
 - (b) all Senior Executives of the Company who, although not belonging to the bodies at letter (a) above, have regular access to inside information concerning directly or indirectly the Company and have the power to adopt management decisions which affect the future development and prospects of the Company;

The Managers and the closely related persons are required to communicate to Consob the Significant Transactions carried out by them or on their behalf within 3 working days from the execution of such transactions.

Where the Managers intend to utilise the Company to communicate to Consob the Significant Transactions, they should inform the Company of such within two working days from the execution date of the transaction. The Company communicates to the public the Significant Transactions communicated to them, respectively, within three working days from the transaction's execution.

Finally, the Internal Dealing Policy prohibits Managers from executing - on their own behalf or on behalf of third parties, directly or indirectly, transactions on Avio financial instruments and associated financial instruments in the 30 calendar days before the announcement ("black-out period"): (i) of the preliminary results (or, where the Company does not approve the preliminary results, the statutory financial statements and the consolidated financial statements); (ii) the half-year report; (iii) additional periodic financial disclosure to the annual and half-year financial report.

The Board of Directors approved the appointment of General Counsel Mr. Giorgio Martellino as the Internal Dealing Policy contact person.

6. INTERNAL COMMITTEES TO THE BOARD OF DIRECTORS

In accordance with the Corporate Governance Code, which recommends that listed companies appoint internal committees to the Board of Directors, with expertise regarding specific matters, Article 12.2 of the By-Laws assigns the Board of Directors the option to set up internal committees with consultation, proposal or control functions, in accordance with the applicable legislative and regulatory provisions.

At the Report approval date, a Control and Risks Committee was set up by the Issuer as per Article 6 of the Corporate Governance Code, whose functioning is governed by the regulation adopted with the Board of Directors resolution of June 20, 2023.

At the Report approval date, the Issuer had also set up a Sustainability Committee, with oversight of the activities related to sustainability, as well as an Appointments and Remuneration Committee, in compliance with the provisions of Articles 4 and 5 of the CG Code.

In addition, after assessing the Company's organisational needs, its operations and the size of the Board of Directors, the Company deemed it appropriate to set up, on a voluntary basis, the Planning and Scenarios Committee, even though the latter is not among the internal committees of the Board of Directors recommended by the CG Code.

The Board of Directors meeting of April 9, 2023 resolved:

- to appoint as members of the Appointments and Remuneration Committee, until the approval of the 2025 Annual Accounts, Donatella Isaia and Raffaele Cappiello, both Independent Directors, and Giovanni Soccodato, conferring the role of Chairperson to Donatella Isaia;

- to appoint as members of the Control and Risks Committee, until the approval of the 2025 Annual Accounts, Donatella Sciuto and Raffaele Cappiello, both Independent Directors, and Letizia Colucci, conferring the role of Chairperson to Donatella Sciuto;
- to appoint as members of the Sustainability Committee, until the approval of the 2025 Annual Accounts, Elena Pisonero and Marcella Logli, both Independent Directors, and Roberto Italia, conferring the role of Chairperson to Elena Pisonero.

Regulations for internal committees to the Board of Directors provide that meetings are to be minuted, that the committee's Chairperson is to provide information to the next appropriate Board meeting and that, in addition to the Board of Statutory Auditors, other external parties including other members of the Board of Directors or of the Avio structure, may participate in meetings by invitation and for individual items on the Agenda. It should be noted that the Board of Statutory Auditors takes part in the meetings of the Control and Risks Committee, the Appointments and Remuneration Committee and the Sustainability Committee.

At the Report approval date, none of the functions of one or more committees provided for by the Code had been reserved to the Board as a whole, under the co-ordination of the Chairperson (Recommendation 16, Article 3 of the Code).

The main features of the committees comprising Avio's governance structure at the Report approval date are described below.

7. APPOINTMENTS AND REMUNERATION COMMITTEE

11. INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The Board of Directors, having consulted the Control and Risks Committee:

- defined, in drafting the strategic, business and financial plans, the nature and level of the qualitative risk compatible with the strategic objectives of the issuer, including in their assessments all risks considered significant with regard to the sustainability of the medium/long-term operations of the Issuer;
- defined the guidelines of the Internal Control and Risk Management System, so that the main risks connected to the Issuer and its subsidiaries are correctly identified, as well as adequately measured, managed and monitored, in addition to determining the criteria of compatibility of these risks in line with the strategic objectives of the Company;
- evaluated, at least annually, the compliance of the Internal Control and Risk Management System with the particular characteristics of the Company and the risk profile assumed, as well as its efficacy.

For the purposes of the above evaluations, in the year 2024 the Control and Risks Committee particularly examined:

- the results of risk assessment activities performed by the Risk Management office;
- the outcomes of audit activities carried out by the internal audit office, based on a previously-examined Audit Plan, after consultation with the Board of Statutory Auditors and the Director in charge of the Internal Control and Risk Management System;

- the results of meetings with the independent audit firm;
- the Supervisory Board's reports on the Organisation, Management and Control Model in relation to the profiles as per Legislative Decree No. 231/2001.

Avio continued the redefinition of its integrated risk management system to provide management, the Board of Directors and corporate bodies in general with a better identification, classification, measurement, management and monitoring of corporate risks. Specifically, the Board of Directors approved the Enterprise Risk Management (hereafter ERM) Plan in the meeting of March 8, 2024, following the positive assessment of the Control and Risks Committee and after having consulted the Board of Statutory Auditors. During 2025, the update of the ERM was submitted to the approval of Avio's Board of Directors, subject to the opinion of the Control and Risks Committee.

The Internal Control and Risk Management System of the Avio Group concerns the set of rules, procedures and organisational structures which enable the identification, measurement, management and monitoring of the principal risks. This system is integrated into the more general organisational and corporate governance structures adopted by the issuer and gives due consideration to benchmark models and existing best practices at national and international level. The Internal Control and Risk Management System contributes to conducting business in line with the objectives defined by the Board of Directors, favouring the undertaking of fully knowledgeable decisions. This ensures the safeguarding of company assets, the efficiency and efficacy of the corporate processes, in addition to the reliability of disclosure to the corporate bodies and the market and compliance with law and regulations, in addition to the By-Laws and the internal procedures.

In creating its Internal Control and Risk Management System, the Avio Group focused extensively on best practice and in particular the "Enterprise Risk Management-Integrated Framework" ("ERM Integrated Framework") international standard, drawn up and updated by the US "Committee of Sponsoring Organizations of the Treadway Commission" (COSO) body; this framework is known also as the "COSO Report" or "COSO ERM".

The structural elements of the internal control and risk management environment are the Code of Ethics, which sets out the key values and principles of the Company's ethical approach, in addition to the conduct rules; the system of powers and duties through general and special powers of attorney, as per the assigned responsibilities; the Company operating procedures; the IT systems supporting both operating and production activities and the accounting and financial processes. In terms of compliance, the Company has adopted an Organisational Model as per Legislative Decree No. 231/2001, which has been continuously updated, and a control system as per Law 262/2005 for financial disclosure (for further details, reference should be made to that outlined in terms of the "Principal characteristics of the risk management and internal control system in relation to the financial disclosure process").

Principal characteristics of the risk management and internal control system in place in relation to financial disclosure (as per Article 123-bis, paragraph 2, letter b) of the CFA)

The Internal Control and Risk Management System of the Company on financial reporting is defined as the set of activities to identify and evaluate actions or events whose occurrence or absence could partially or totally compromise the achievement of the financial information's objectives of integrity, accuracy, reliability and timeliness. It forms part of the overall Internal Control and Risk Management System.

This system aims to guarantee that the administrative – accounting procedures adopted and their

application are adequate to ensure a process capable of producing timely and reliable accounting and financial information, in accordance with applicable accounting standards.

The Internal Control and Risk Management System on financial disclosure is created in line with the frameworks, as commonly accepted and issued by the *Committee of Sponsoring Organizations of the Treadway Commission* – COSO Report, integrated in terms of the IT aspects by the *Control Objectives for Information Technology* – COBIT, and is periodically assessed and reviewed in terms of the controls put in place to minimise risks to the Company.

The administrative-accounting procedures take into account that in the analysis of risk errors occur, whether intentional or not, in the processes for the drafting of financial disclosure. Therefore, for the creation of this system the risk areas which could arise in terms of compromising the reliability of the financial disclosure are identified and assessed.

On the basis of the identification and the assessment of the risk areas, the components of the internal control system with regards to financial disclosure were analysed through:

- an analysis at the level of the main Group companies in particular in terms of the control elements with regards to the reliability of financial disclosure;
- an analysis for each operating process, of the processes concerning the significant financial statement accounts for financial disclosure purposes, through a correlation matrix considering the objectives identified regarding the process activities and the associated controls.

In accordance with the applicable regulation, the features of the system adopted, with particular regard to (a) the risk management and internal control phases in relation to the financial disclosure process and (b) the roles and functions involved and the means for coordinating the relative parties, are outlined below.

Phases of risk management and internal control in relation to Financial Disclosure

The internal control system is divided into the following macro-phases:

- a) identification and assessment of risks on financial reporting;
- b) identification of the control of identified risks;
- c) check on the functioning of the internal control and risk management system;
- d) monitoring and development of the control system.

The breakdown of individual macro-phases is shown below:

a) Identification and assessment of risks on financial reporting

Risks are identified with regards to the financial statement declarations (existence and occurrence, completeness, rights and obligations, correctness, valuations and recording, presentation and disclosure) and other control objectives, such as - for example - compliance with the authorisation limits, the segregation of incompatible duties, controls on physical safety and the existence of assets, the controls on security; documentation and traceability of transactions. The identification of risks includes also the risk of fraudulent activities, i.e. intentional acts undertaken

to falsely represent the economic-equity-financial situation at financial statement level or to misappropriate company assets.

b) Identification of the control of identified risks

On the basis of the risk assessment, specific control activities were identified to mitigate risk, broken down into the following macro-categories:

- controls applicable to the entire organisation (Group/Company) which, as common and applicable across the entire organisation subject to assessment, are structural elements of the internal control system on financial disclosure (“Entity Level Controls”);
- specific process level controls (“Process Level Control”);
- controls on the functioning, management and security of the IT systems (“IT General Control”).

c) Check on the functioning of the internal control and risk management system

In order to verify and guarantee the operability of the internal control system on financial disclosure, specific monitoring activities on the operation of controls are in place, both by the “process owners” and by third parties independent of the operability of the processes (Internal Audit). Fraud prevention controls are among the controls monitored.

d) Monitoring and development of the control system

In order to ensure adequate monitoring of the system, the “design” of its components are subject to systematic assessment and, in any case, on the occurrence of significant events. The operability of the controls indicated by the administrative-accounting system procedures is assessed half-yearly through specific tests.

Any deficiencies both in the design and operability of the controls are reported to the process owners and to the Executive Officer for Financial Reporting to plan remedy actions - whose effective implementation is verified.

The Executive Officer for Financial Reporting, together with the Chief Executive Officer, issues the declaration required by Article 154-*bis*, paragraph 5 of the CFA.

Roles and Functions involved

The Internal Control and Risk Management System involves, each for their specific remit:

- 1) The Board of Directors, which directs and assesses the System’s adequacy, and has identified:
 - (i) the Director in charge of the creation and maintenance of an effective Internal Control and Risk Management System (the Director in charge of the Internal Control and Risk Management System), and
 - (ii) the Control and Risks Committee, with a duty to support, with appropriate investigative activities, the evaluations and decisions of the Board of Directors concerning the Internal Control and Risk Management System, in addition to those concerning the approval of the relative periodic financial reports;
- 2) the Internal Audit Manager, appointed to verify if the Internal Control and Risk Management

System is functional and adequate;

- 3) other roles and corporate functions with specific tasks in terms of internal control and risk management;
- 4) the Board of Statutory Auditors, which oversees the efficacy of the Internal Control and Risk Management System.

Article 154-*bis* of the CFA envisages the introduction of the “Executive Officer for Financial Reporting” within the corporate organisation of companies with listed shares. Appointed by the Board of Directors in agreement with the Chief Executive Officer, he is responsible for designing, implementing, and approving the Accounting and Administrative Control Model, as well as for assessing its application by issuing a statement concerning the interim, annual and consolidated financial statements.

The Executive Officer for Financial Reporting is also responsible for drawing up suitable administrative and accounting procedures for the preparation of the annual and consolidated financial statements and for providing subsidiaries, considered as relevant for the preparation of the Group’s consolidated report, with instructions for performing appropriate assessments of their own accounting control systems.

Principal characteristics of the risk management and internal control systems in relation to non-financial disclosure

Avio has adopted the Internal Control Model on Sustainability Reporting ("Model"), which applies to all organisational structures of Avio and its subsidiaries falling within the scope of the consolidated financial statements, as well as any additional companies deemed significant and otherwise falling within the consolidation scope of sustainability reporting, as defined by national and international best practices. The adoption of an effective Control Model aims to pursue with reasonable certainty the reliability of sustainability reporting and, most importantly, its compliance with relevant reporting standards. Therefore, this Model means the entire set of documents and individual disclosures communicated to the market and containing both quantitative and qualitative data regarding sustainability aspects prepared on the basis of the new reporting standards. The Model aims to define the principles, process and methodological approach for establishing, evaluating and maintaining an internal control system that oversees the preparation of sustainability reporting. Specifically, the document governs various aspects including the scope of the Avio Group's internal control system for sustainability reporting and the methodological framework, as well as the process of establishing and maintaining the Avio Group's internal control system.

In addition, the Model contains procedures for gathering data for sustainability reporting to ensure the completeness and accuracy of this information. This document also provides for the preparation of statements by certain process owners identified as part of the information gathering.

11.1 Executive Director responsible for the Internal Control and Risk Management System

In order to ensure compliance with recommendation 32 of the Corporate Governance Code, the Board of Directors appointed, on January 19, 2017, with effect from the Effective Merger Date, Giulio Ranzo as Chief Executive Officer in charge of the creation and maintenance of an effective Internal Control and Risk Management System (the “**Chief Executive Officer**”). On May 9, 2023, the Board of Directors renewed the concession to outsource the Internal Audit Function to the Company Protiviti S.r.l. for the three year period 2023-2025 (until approval of the 2025 Annual Accounts), considering it to suitably possess the requisites of professional standing, independence and organisation, and appointed Francesco Paolucci as Internal Audit Manager for the purposes of performing the activities set out in Recommendation 36 of the Corporate Governance Code, awarding him remuneration in line with corporate policies.

The Supervisory Boards are represented by (i) a single-member Supervisory Board in the person of Giuseppe Pedrizzi for Spacelab S.p.A, (ii) a single-member Supervisory Board in the person of Carlo Cerreta for Temis S.r.l. and (iii) for SE.CO.SV.IM. S.r.l. a Supervisory Board composed of Giuseppe Pedrizzi and Giovanni Valente;
- Avio's 231 Model was most recently updated with a resolution dated January 28, 2025, in order to adapt the latter to the new organisational provisions issued by the Company in relation to the ownership of business processes among the various functions as well as to recent case law pronouncements. It is recalled that the 231 Model was last updated on December 21, 2023 to enact, among others, the most recent regulatory changes, including Decree Law no. 105/2023, with conversion into law, with amendments, from Law no. 137, of October 9, 2023. This law contains *“Urgent provisions on criminal trials, civil trials, fighting forest fires, recovery from drug addiction, health and culture, as well as on matters of judiciary and public administration personnel”*, which (a) included in the catalogue of predicate offences: i) the crime of disturbing the freedom of tenders (Article 353 Penal Code), ii) the crime of disturbing the freedom of the procedure for choosing a contractor (353-*bis* penal code), iii) the crime of fraudulent transfer of valuables (Article 512-*bis* penal code); and (ii) made some amendments to the penalties established for the offences provided for under Articles 452-*bis* penal code (*“Environmental pollution”*) and 452-*quater* penal code (*“Environmental disaster”*) (both referred to under Article 25-*undecies* of Legislative Decree No. 231/2001), which, despite not intervening directly on the regulation of Legislative Decree No. 231/2001, amend certain material aspects relating to the regulation regarding environmental offences.

The 231 Model comprises a General Section and 12 Special Sections.

The General Section essentially concerns the Supervisory Board and the communication of information to this latter, in addition to the reporting of the Supervisory Board to the corporate boards; the training of personnel, circulation of the 231 Model within and outside the Company and the system governing non-compliance with the Model’s provisions.

The Special Sections relating to a similar number of offences envisaged in the decree and abstractly applicable to the corporate environment are: *“Offences in relations with Government Departments, Crimes against the Administration of Justice and Organised Crime”*; *“Corporate Offences”*; *“Corruption between private parties”*; *“Crimes for the Purpose of Terrorism or the Subversion of the Democratic Order”*; *“Crimes against Individuals and Crimes relating to Immigration and Alien Status”*; *“Transnational Offences”*; *“Crimes of Manslaughter or Serious Personal Injury or Grievous Bodily Harm committed in violation of the rules on occupational health and safety”*; *Environmental Offences”*; *“Crimes against Industry and Commerce and Copyright Infringement Offences”*; *“Computer Crimes and Unlawful Processing of Data”*; *“Self-laundering Crimes”* and *“Administrative market abuse offences and illicit acts”*; *“Fiscal Offences”*.

A presentation on the 231 Model adopted by the company may be viewed on the company’s website:

www.avio.com, (Corporate Governance section).

Furthermore, it should be noted that the Company has adopted a special Whistleblowing Policy within the framework of the application of the 231 Model. This policy incorporates legal provisions contained in Law No. 179 of November 30, 2017, implementing the “Provisions for the protection of whistleblowers reporting offences or irregularities that become known to them within the bounds of a private or public employment contract”.

Specifically, the policy focuses on the handling of reports through which company employees can report possible fraud, an offence, an unlawful act or any irregular conduct committed by other persons belonging to the Company. The aim of the reporting is to enable the Company to address the reported problem as soon as possible, disclosing risky or harmful situations and contributing toward preventing and counteracting any unlawful acts.

In order to guarantee the anonymity of the reporter, the Company has equipped itself with an IT tool for the transmission of the above mentioned reports.

11.4 Independent audit firm

On June 15, 2017, the Shareholders’ Meeting of the Company appointed, for financial years 2017-2025, the Independent Audit Firm Deloitte & Touche S.p.A.

During the year, the Board, having consulted the Board of Statutory Auditors, assessed the results set out by the Independent Auditors.

In order to (i) ensure compliance with the limits introduced by the European Regulation No. 537/2014 to guarantee the independence of the incoming statutory audit firm (the “cooling-in period” provided for under Article 5 of the aforementioned European Regulation and Article 17, paragraph 3-*bis* of Legislative Decree No. 39/2010, pursuant to which the auditor must refrain from providing certain services, other than the statutory audit, during the fiscal year immediately preceding the first year of the audit) and (ii) enable an efficient transition process between the outgoing auditor and the new appointee, the Company has shared with the Board of Statutory Auditors its decision - as is now common practice among listed companies - the begin in advance the selection procedure to assign the statutory audit engagement for the nine-year period 2026-2034. In this regard, on December 20, 2024, the Company's Shareholders' Meeting appointed the independent audit firm KPMG S.p.A. in advance for the fiscal years 2026-2034.

11.5 Executive Officer for Financial Reporting

In accordance with Article 16 of the By-Laws, the Board of Directors appoints, upon obligatory approval of the Board of Statutory Auditors, the Executive Officer for Financial Reporting pursuant to Article 154-*bis* of the CFA, providing him/her with adequate means and powers to carry out the role. The Executive Officer for Financial Reporting must be of a professional standard such as to have qualified experience of at least three years in the exercise of administration and control activities, or in Executive or consultancy functions, with listed companies and/or relative groups of companies, or companies, entities and enterprises of large and significant size, including the preparation and control of accounting and corporate documents. The Executive Officer for Financial Reporting must also meet the requirements of good standing as provided for Statutory Auditors by the applicable legal provisions.

On January 19, 2017, the Board of Directors of Avio appointed Alessandro Agosti as the Executive Officer for Financial Reporting in accordance with Article 154-*bis* of the CFA, with effect from the Effective Merger Date. This appointment, having verified the above-stated professional standing requirements, was confirmed by the Board of Directors of the Issuer on April 10, 2017, having received the opinion of the Board of Statutory Auditors.

The office was most recently renewed by the Board of Directors on April 28, 2023.

As per Article 154-*bis* of the CFA, the Executive Officer for Financial Reporting is required to: (i) declare that the deeds and communications of the Company communicated to the market and concerning accounting disclosure (including interim) of the Company corresponds to the underlying accounting records and entries; (ii) prepare appropriate administrative and accounting policies for the drafting of the statutory and consolidated financial statements, in addition to any other communications of a financial nature; and (iii) jointly with the Chief Executive Officer declare through a specific report attached to the statutory financial statements, the condensed half-year financial statements and the consolidated financial statements, among others, the adequacy and effective application of the procedures at point (ii), during the period to which the documents refer and declare, in addition, the correspondence of such to the accounting records and entries and their suitability to provide a true and fair view of the Company financial statements and any companies included in the consolidation, assigning for this purpose the following powers:

- (b) attend the meetings of the Board of Directors concerning matters within their scope;
- (c) faculty for dialogue with all administrative and control boards of the Company and the subsidiaries;
- (d) faculty to approve company policies with an impact on the financial statements, on the consolidated financial statements or on other documents requiring certification;
- (e) involvement in the design of IT systems impacting the Company financial statements;
- (f) the possibility to utilise IT systems.

In order to permit the Board of Directors to properly execute its supervisory powers, the Executive Officer for Financial Reporting, in addition, reports at least quarterly to the Board with regards to activities carried out, in addition to any emerging critical issues.

On September 10, 2024, Legislative Decree No. 125 of September 6, 2024 (the "**Decree**") was published in the Official Gazette, which transposes Directive 2022/2464/EU, known as the Corporate Sustainability Reporting Directive ("**CSRD**"), into Italian law. CSRD marks an advance toward greater corporate transparency by imposing reporting requirements on environmental, social and governance (ESG) issues.

Pursuant to Article 12, paragraph 1, letter d) of Legislative Decree No. 125/2024 of the Decree, Article 154-*bis* of the CFA relating to the Executive Officer for Financial Reporting was amended by the insertion of paragraph 5-*ter*, according to which "*If the issuer is subject to the sustainability reporting obligations set forth in the Legislative Decree adopted in implementation of Article 13 of Legislative Decree No. 21 of February 2024, no. 15, the delegated administrative bodies and the Executive Officer for Financial Reporting shall certify in an appropriate report that the sustainability statement included in the Directors' Report has been prepared in accordance with the reporting standards applied pursuant to Directive 2013/34/EU and the Legislative Decree No. 15 adopted in implementation of Article 13 of Law No. 15 of February 21, 2024, and with the specifications adopted pursuant to Article 8 paragraph 4 of Regulation (EU) 2020/852. The attestation may be made by a manager other than the Executive Officer for Financial Reporting, with specific skills in sustainability reporting, appointed, subject to the mandatory opinion of the supervisory body, in accordance with the procedures and in compliance with the professionalism requirements set out in the By-Laws. The attestation will be issued using the model laid down in the Consob Regulation*".

Avio has updated the Executive Officer for Financial Reporting Regulation so as to incorporate the changes made to Article 154 of the CFA, highlighting the integration between the duties and responsibilities under Legislative Decree No. 262/2006, concerning attestation of a financial nature, and those under Legislative Decree No. 125/2024, also maintaining the same requirements for the Executive Officer for Financial Reporting.

* * *

At the Report approval date, with reference to the Internal Control and Risk Management System, in addition to the Control and Risks Committee and the Director in charge of the Internal Control and Risk Management System and the Internal Audit Manager, there is also a Risk Manager with specific tasks relating to internal control and risk management.

11.6 Co-ordination of the parties involved in the Internal Control and Risk Management System

The Company specified in detail, in the Avio and Group Internal Control and Risk Management System Guidelines, the roles and duties of those involved in the Internal Control and Risk Management System, in addition to the means for the coordination of those involved.

In this regard, it should be noted that the Company promotes meetings between these different parties for the coordination and exchange of information. In particular, the entire Board of Statutory Auditors is consistently invited to participate at the Control and Risks Committee meetings, and moreover, the Director in charge of the Internal Control and Risk Management System, the Internal Audit Manager, the CFO, the General Counsel and Risk Manager as well as representatives of the Independent Audit Firm and members of the Legal and Corporate Affairs Department participated at some meetings for individual items on the Agenda, on the invitation of the Committee's Chairperson.

With the same purpose of coordination on matters of common interest, the Company's Board of Statutory Auditors, the Control and Risks Committee and the Supervisory Board, as per Legislative Decree No. 231/01, organised and held joint meetings during the financial year.

Finally, the Board of Statutory Auditors periodically meets with the Executive Officer for Financial Reporting, the Independent Audit Firm and the various company functions affected by the processes and procedures that must be specifically audited by the Board of Statutory Auditors, including those relating to the Internal Control and Risk Management System.

12. DIRECTORS' INTERESTS AND RELATED PARTY TRANSACTIONS

At the Report approval date, the Issuer has put in place a Related Parties Transactions Policy adopted, in compliance with Article 2391-*bis* of the Civil Code and the RPT Regulation, by the Board of Directors on January 19, 2017, subsequently updated with Board of Directors' motion of January 26, 2024, having received the favourable opinion of the Control and Risks Committee and the Appointments and Remuneration Committee.

The Related Parties Policy, the full text of which may be viewed on the Company's website www.avio.com in the "Corporate Governance" section, defines the guidelines and criteria for identifying Related Party Transactions and outlines roles, responsibilities and operating procedures aimed to ensure suitable reporting transparency and relative procedural and substantive correctness for these transactions.

In particular, the RPT Policy:

- governs transactions executed by Avio directly, or through subsidiaries, with counterparties defined as "Related Parties" in accordance with the RPT Regulation;
- defines "Related Party Transactions" as those involving the transfer of resources, services or obligations between Avio (or its subsidiaries) and Related Parties, regardless of whether a price is charged. This includes: (i) mergers, spin-offs for incorporation or non-proportional spin-offs, where carried out with Related Parties; (ii) all decisions relating to the allocation of remuneration or benefits, in any form, to members of the corporate boards and Senior Executives.
- distinguishes between "Minor Transactions", "Significant Transactions", "Less Significant Transactions" and "Ordinary Transactions" as follows:
 - (a) "Minor Transactions": Related Party Transactions with a maximum amount to be borne by the Issuer of not in excess, for each transaction, (i) Euro 100,000 where the Related Party is a physical person; or (ii) Euro 500,000 where the Related Party is a legal entity;
 - (b) "Significant Transactions": Transactions where at least one of the thresholds indicated at Annex 3 of the Related Parties Regulation, applicable according to the specific Transaction, is exceeded by more than 5%. Where Avio is controlled by a listed company, the above limit of 5% is reduced to 2.5% for transactions undertaken with a listed parent company or with related parties of this latter which in turn are related to Avio;
 - (c) "Less Significant Transactions": Related Party Transactions other than Significant Transactions and Minor Transactions.
 - (d) "Ordinary Transactions": Related Party Transactions that are part of the ordinary business or related financial activities of the Issuer and/or its subsidiaries. The Ordinary Transactions are concluded at market or standard conditions if they are concluded at terms similar to those usually charged to unrelated parties for transactions of a corresponding nature, extent and risk, or based on regulated rates or at fixed prices or those charged to parties with which Avio and/or its subsidiaries are obligated by law to contract at a certain price.

Article 13 of the RPT Policy establishes that it does not apply in the cases of the exemptions established under the RPT Regulation, subject to the conditions set out therein, and, in particular: (i) to the Shareholders' motions referred to in the first paragraph of Article 2389 of the Civil Code, concerning the remuneration of the members of the Board of Directors, or any decisions on the remuneration of the senior Directors included in the total amount previously determined by Avio's Shareholders' Meeting pursuant to Article 2389, third paragraph, of the Civil Code; (ii) to the Shareholders' motions referred to in Article 2402 of the Civil Code pertaining to the remuneration payable to members of the Company's Board of Statutory Auditors; (iii) to Minor Transactions. The provisions of the RPT Policy shall also not apply to transactions resolved by Avio and addressed to all shareholders on equal terms. In addition, subject to the disclosure obligations under the RPT Regulation and the relative circumstances, the Policy does not apply to (a) financial instrument-based remuneration plans approved by the Shareholders' Meeting of the Company in accordance with Article 114-*bis* of the CFA and the relative executory operations; (b) motions, other than those at paragraph (i) above considering the remuneration of Senior Directors, in addition to other Senior Executives (at the conditions established by the RPT Policy), (c) Ordinary Transactions concluded at Market or Standard conditions; and (d) Transactions with or between Subsidiaries, even jointly-held, by the Company, in addition to Transactions with associates of the Company, where other related parties of the Company do not have a significant interest (as defined by the RPT Policy) in the subsidiaries or associates acting as counterparties in the transaction.

With specific regards to the means for the approval and execution of individual categories of Related Party Transactions, the RPT Policy makes a distinction between:

- (a) Significant Transactions, in relation to which the RPT Policy establishes, among other issues, that:
 - (i) the approval of these transactions lies within the exclusive competence of the Board of Directors; (ii) the Chief Executive Officer ensures the involvement during negotiations and investigations of a Committee comprising at least 3 Independent Directors, possibly with the same membership of the Control and Risks Committee or the Appointments and Remuneration Committee, according to the type of Related Party Transaction; (iii) the Board of Directors considers the transaction having received a prior favourable reasoned opinion from the above Committee with regards to the interest of the Issuer in completion of the transaction, in addition to the benefit and substantial correctness of the relative conditions, subject to the option for the Board of Directors to approve the Significant Transaction also in the presence of a contrary opinion of the above-stated Committee, on condition that its completion is authorised by the Shareholders' Meeting through the "whitewash" mechanism set out in the RPT Regulation; and
- (b) Less Significant Transactions, in relation to which the RPT Policy establishes, among other issues, that (i) the Board of Directors or the Executive Bodies, depending on the case, approve these transactions following receipt of the reasoned and non-binding opinion of a Committee comprising Directors, the majority of whom independent (possibly with the same membership as the Control and Risks Committee or the Appointments and Remuneration Committee, according to the type of Related Party Transaction); and (ii) the Chief Executive Officer ensures that there is an adequate flow of information to this Committee.

Where, with regards to a certain transaction, the Control and Risks Committee (or, depending on the case, the Appointments and Remuneration Committee) does not satisfy the composition requirements under the RPT Regulation, the equivalent controls under the RPT Policy in line with the RPT Regulation are applied, including the replacement, on the basis of age, with other Directors on the Board and in possession of these requirements.

With regards to related party transactions carried out in 2023, reference should be made to the

Company's financial statements.

13. APPOINTMENT OF STATUTORY AUDITORS

As per Article 17 of the By-Laws, the Board of Statutory Auditors is composed of three Statutory Auditors and two Alternate Auditors, elected by the Shareholders' Meeting on the basis of slates presented by shareholders, in accordance with the procedures set out below, subject to any differing and additional provisions provided for by mandatory laws or regulations.

Slates for the election of Statutory Auditors may be presented by shareholders who, at the time of presentation of the slate, hold - alone or together with other shareholders - a shareholding that is at least equal to that determined by Consob in accordance with applicable laws and regulations (equal, at the Report approval date, to 4.5% of Avio's share capital).

Ownership of the minimum shareholding is determined according to the shares that are registered in favour of the shareholder on the day in which the slates are filed with the issuer; certification can also be made subsequent to the filing provided that it is within the deadline for the publication of the slates.

The slates are filed at the registered office and subsequently published in accordance with the methods and the deadlines provided for by applicable law.

The slates must include the names of one or more candidates for the position of Statutory Auditor and one or more candidates for the position of Alternate Auditor. The names of the candidates are divided between each section (Statutory Auditors section, Alternate Auditors section) by progressive numbering and in any event with a number not exceeding the Board members to be elected. The slates, if they contain, in both sections, a number of candidates equal to or greater than 3 (three), must contain a number of candidates in both sections to ensure that the composition of the Board of Statutory Auditors, both for Statutory Auditors and Alternate Auditors, complies with the legal and regulatory provisions that are in force in relation to gender equality (male and female).

The following documents must be attached to each slate, or else shall be considered as not presented:

(i) information on the identity of shareholders who have presented them, with an indication of the total percentage of shares held; (ii) a declaration by shareholders other than those who hold, even jointly, a controlling or majority shareholding, attesting to the absence of any relationship with these latter in accordance with applicable law; (iii) detailed information about the personal and professional characteristics of the candidates, as well as a declaration by the candidates certifying that they meet the statutory requirements, and acceptance of the candidature, accompanied by a list of administrative and control positions held with other companies; (iv) any additional or differing declaration, information, and/or documents provided for by applicable law and regulations.

Individual Shareholders, shareholders belonging to the same group or members of a shareholder agreement pursuant to Article 122 of the CFA, may not present or be involved in the presentation, even through nominees or trust companies, of more than one slate or vote on other slates; in addition, each candidate may only be present on one slate, at the risk of being declared ineligible.

In the case where only one slate is filed at the expiry date of the term for presentation of the slates, or slates are only presented by related shareholders pursuant to the applicable directives, slates can be presented up to the third day subsequent to such date. In this case, the percentage threshold established for the presentation of the slate is reduced by half.

The procedure for electing statutory auditors is as follows: (i) from the slate that obtained the largest number of votes (“**Majority Slate**”) taken in the progressive order in which they appear in the slate, two Statutory Auditors and one Alternate Auditor; (ii) from the slate that obtained the second largest number of votes and are not connected, even indirectly, with the shareholders who presented or voted for the Majority Slate in accordance with the applicable provisions and taken in the progressive order in which they appear on the slate, the third statutory auditor will be chosen (“**Minority Statutory Auditor**”), who will chair the Board of Statutory Auditors, and the second alternate auditor (“**Minority Alternate Auditor**”).

In the case of an equal number of votes between one or more slates from which the Board of Statutory Auditors is elected, a fresh ballot shall take place, considering only the slates receiving the same number of votes and, in any case, ensuring compliance with the gender parity regulation (including rounding up to the next full number where application of the gender parity rule does not produce a full number).

Where the result of voting does not satisfy the applicable gender equality law and regulations that are in force (including the rounding up to the next unit if the application of the criterion for the gender equality quota does not result in a full number), the candidate for the office of Statutory or Alternate Auditor from the over-represented gender elected as last in progressive order from the Majority Slate will be excluded and will be replaced by the next candidate for the office of Statutory or Alternate Auditor from the same slate belonging to the other gender.

Where only one slate is presented, the Shareholders’ Meeting will vote on that slate and, where this slate receives the majority of the votes, three Statutory Auditors and two Alternate Auditors will be taken from this slate in accordance with applicable law and regulations, including gender parity regulations, which includes rounding up where necessary in relation to the under-represented gender.

They are appointed for a period of three years (and may be re-elected), which concludes on the date of the Shareholders’ Meeting called for the approval of the financial statements relating to the final year in office.

Subject to compliance with the applicable law and regulations in force in relation to gender equality, in cases where, for whatever reason, (i) a statutory auditor from the Majority Slate leaves office, the alternate auditor elected from the Majority Slate will take their place, (ii) a Minority Statutory Auditor leaves office, they will be replaced by the Minority Alternate Auditor who will assume the Chair. Where the replacements made pursuant to this Article do not permit the formation of a Board of Statutory Auditors that complies with the applicable regulations on gender parity, he/she shall be replaced by the alternate auditor from the other slate, where this enables a composition in line with applicable gender parity regulations, provided that the Minority Statutory Auditor may only be replaced by the Minority Alternate Auditor.

In the absence of slates, or where it is not possible for whatever reason to appoint the Board of Statutory Auditors with the procedures provided for in this Article, the three Statutory Auditors and the two Alternate Auditors will be appointed by the Shareholders’ Meeting through the majority provided for by law, in accordance with the laws and regulations in force also in relation to the gender equality quota (including the rounding up to the next unit if the application of the criterion for the gender equality quota does not result in a full number).

14. COMPOSITION AND FUNCTIONING OF THE BOARD OF STATUTORY AUDITORS

As per Article 17 of the By-Laws, the Issuer's Board of Statutory Auditors is composed of three Statutory Auditors and two Alternate Auditors, elected by the Shareholders' Meeting on the basis of slates presented by shareholders, in accordance with the procedures set out in the By-Laws, subject to any differing and additional provisions provided for by mandatory laws or regulations.

The Avio S.p.A. Shareholders' Meeting of April 28, 2023 appointed the Board of Statutory Auditors and established the relative remuneration, until the Shareholders' Meeting to be called to approve the 2025 Annual Accounts.

The members of Avio's Board of Statutory Auditors in office at the Report approval date are listed in the table below.

Name	Office	Place and date of birth	Date of appointment
Vito Di Battista	Chairperson	Lecce, January 10, 1952	April 28, 2023

Roberto Cassader	Alternate Auditor	Milan, September 16, 1965	April 28, 2023

The Board of Statutory Auditors is composed of members with professional backgrounds that bring value to the Company's sustainability. The Board contributes to and actively participates in the meetings of the Sustainability Committee. Since, however, this is an increasingly complex and evolving subject, the meetings of the Sustainability Committee with the participation of the Board of Statutory Auditors also serve as a mutual enhancement of expertise on the subject, encompassing and seeking to apply best market practices, in addition to activities to bring the Company's operations in line with industry regulations, within their scope.

A brief *curriculum vitae* of each member of the Board of Statutory Auditors in office at the Report approval date outlining their business management expertise and experience is presented below.

The remuneration of the Statutory Auditors was established by the Shareholders' Meeting on appointment.

The remuneration matured in 2024 is, in any case, detailed in the Remuneration Policy and Report.

In 2024 and during 2025, until the approval of this report, the Board of Statutory Auditors met on 23 occasions, with an average meeting duration of approx. 3 hours.

The attendance of the Statutory Auditors at the meetings in 2024 is shown in the table above.

In accordance with the recommendations of the Corporate Governance Code, the Board of Statutory Auditors oversees the financial disclosure and auditing process, in particular with regards to the provision of non-audit services.

The Board of Statutory Auditors, in executing its activities, coordinated with the Internal Audit Manager and with the Control and Risks Committee through continuous attendance of the Committee's meetings, at which the Internal Audit Manager usually also attended. In addition, the Board of Statutory Auditors participated at all meetings of the Committees set up within the Board of Directors.

In addition, it worked with the Supervisory Board appointed in accordance with Legislative Decree No. 231/2001. The Board of Statutory Auditors liaised with the Director in charge of the Internal Control and Risk Management System.

The Board of Statutory Auditors, as part of the supervision of implementation of the corporate governance rules, verified the correct application of the assessment criteria and procedures adopted by the Board to evaluate the independence of its members. The outcome of these controls was communicated to the market.

Diversity policies

In accordance with the provisions of point 4.3.2. of this Report, the provisions of the Corporate Governance Code and Article 148, paragraph 1-*bis* of the CFA, Avio has applied the diversity and gender criteria to the composition of the Board of Statutory Auditors, in line with the priority objective of ensuring sufficient skills and levels of professional standing in its members.

In fact, pursuant to Article 17.4 of the By-Laws of Avio, the slates, if they contain, in both sections, a number of candidates equal to or greater than 3 (three), must contain a number of candidates in both sections to ensure that the composition of the Board of Statutory Auditors, both for Statutory Auditors and Alternate Auditors, complies with the legal and regulatory provisions

that are in force in relation to gender equality (male and female).

Self-assessment

The Board of Statutory Auditors complied with the provisions of Rule Q.1.7. "Self-assessment of the Board of Statutory Auditors" included in the document "Conduct rules for Boards of Statutory Auditors of listed companies" issued by the Italian Accounting Profession (*Consiglio Nazionale dei Dottori Commercialisti e degli Esperti Contabili*) in December 2023, carrying out an annual self-assessment. This sought to, among other matters, verify the suitability of its members and the adequate composition of the board, with reference to the requirements of professional standing, competence, good-standing and independence required by applicable regulations. This check indicated, among other matters, that for 2024, all the members of the Board of Statutory Auditors in office satisfy the necessary requisites for the performance of their office.

Among the relevant aspects of the Board of Statutory Auditors assessment, the Statutory Auditors expressed their satisfaction with: (i) the optimal organisation of the Board for the performance of its duties and activities; (ii) the fulfilment of the requirements of honourability and professionalism by the members of the Board; (iii) the Chairperson of the Board; (iv) the capabilities of the Board on the management of important issues, as well as the choice of external consultants in order to deal with these issues; and (v) the capabilities of the Board to request and acquire any information and data useful for the performance of its duties and activities.

Among the areas for improvement, the Statutory Auditors commented on the remuneration provided for the performance of their duties as well as the desirability of Statutory Auditors having more knowledge and experience in the IT field.

Chairperson of the Board of Statutory Auditors

In addition, we note that, in compliance with Article 144-*novies*, paragraph 1-*bis* of the Issuers' Regulation and the Rules of Conduct for the Board of Statutory Auditors of listed companies issued by the Italian Accounting Profession (*Consiglio Nazionale dei Dottori Commercialisti e degli Esperti Contabili*), the Board of Statutory Auditors has provided, based on its own experience, and on the positive results of the evaluation of the Board of Statutory Auditors conducted by the external consulting firm BoardClic, an outline of the skills and professional experience, in addition to those provided for by law, which may result in the efficient and effective functioning of the Board of Statutory Auditors, and forwarded the outcome of these verifications contained in the "Guidelines of the Board of Statutory Auditors of AVIO S.p.A. on the composition and remuneration of the new Board of Statutory Auditors to be appointed by the Shareholders' Meeting of April 28, 2023" (the "**Guidelines**") to the Board of Directors' meeting held, most recently, on March 8, 2023.

Specifically, with regard to the qualitative and quantitative composition of the Board of Statutory Auditors, the Guidelines show that the duties of the Board of Statutory Auditors require that the professionals selected have adequate previous experience in similar roles in large companies with a structured governance system, including listed companies. In addition, the Board of Statutory Auditors recognises the value of diversity in its composition, not only in terms of gender diversity but also in terms of professional diversity. The outgoing Board of Statutory Auditors stresses that it is important for the new control body to be composed of professionals with diverse expertise and, as far as possible, to include members with proven experience and knowledge of:

- corporate governance;
- internal control and risk management systems;
- accounting and auditing principles;

- primary and secondary legislation applicable to listed companies;
- ESG standards and regulations;
- cyber security, innovation and company IT systems;
- management remuneration policies.

In addition to the above requirements, the outgoing Board of Statutory Auditors recommends that personal characteristics and abilities ("soft skills") should also be duly considered when selecting candidates. These include the ability to manage conflicts constructively, work in a team, interact with management and assess the integration of sustainability issues into business activities, and a good knowledge of English.

With specific reference to the Chairperson, the outgoing Board of Statutory Auditors recommends that the Chairperson should have adequate experience, competence and authority to perform his or her duties of organising and coordinating the activities of the audit body.

Finally, the outgoing Board of Statutory Auditors hopes that the renewal will take into account the benefits of a structure that ensures continuity in the performance of the supervisory duties for which it is responsible, capitalising on the efforts already made and the experience gained.

With regards to the Diversity Policy applied to the Board of Statutory Auditors, reference should be made to paragraph 4.2.2.

* * *

The Statutory Auditors received an induction that enabled them to acquire adequate knowledge of the sector in which the Issuer operates, of corporate dynamics, of the principles of correct risk management, as well as of the regulatory and governance reference framework, in compliance with Recommendation 12, letter d) of the Corporate Governance Code.

During the Year, Avio's Board of Directors was kept constantly informed of the activities carried out with stakeholders, and was kept up to date with the most important issues that had been the subject of shareholder communication and any initiatives to be taken on the resulting feedback, in compliance with the provisions of the Shareholder Engagement Policy.

The proxy notification to the Company may be sent by Registered Letter or electronically by means of a message addressed to the certified email address indicated in the notice itself or by using the appropriate section of the Company's website, according to that indicated in the call notice.

For each Shareholders' Meeting (in both ordinary and extraordinary sessions), the Company may designate, through notification in the call notice, a person to whom shareholders can confer proxy, with voting instructions on all or some of the proposals on the Agenda, in the terms and manner provided by law and by the regulatory provisions that apply from time to time (the "**Designated Agent**"). Proxy conferred is valid only for the proposals on which voting instructions are provided. For each Shareholders' Meeting, pursuant to Article 135-*undecies*.1 of the CFA, the Company may also provide that attendance and exercise of voting rights at the Shareholders' Meeting by those entitled to do so may be made through the Designated Agent, as provided by the Board in the call notice. In the Extraordinary Shareholders' Meeting and, in any case, when the Chairperson considers it appropriate, the functions of the Secretary shall be carried out by a Notary appointed by the Chairperson.

The Company may provide that the Shareholders' Meeting (in both ordinary and extraordinary sessions) be held also or exclusively by means of remote telecommunications using audiovisual and/or telephonic connection systems, with no requirement that the chairperson and the secretary and/or notary be in the same location, on the condition that a collective approach is taken and the principles of good faith and of equal treatment of shareholders are upheld and, in particular, provided that: (a) the Chairperson of the Shareholders' Meeting, also through his/her office or by other appointed persons, may ascertain the identity and right to attend of all present and govern the business of the meeting, in addition to verify and declare the voting results; (b) the minutes-taker is able to adequately note all the matters pertaining to the shareholders' meeting; (c) attendees may participate in the discussions and vote simultaneously on the matters on the Agenda; (d) this mode is provided for and regulated by the Shareholders' Meeting call notice. Where the Shareholders' Meeting is held exclusively by telecommunication means, the Company may omit the indication in the call notice of the place of the meeting.

On June 17, 2015, the Shareholders' Meeting of Avio approved the adoption of a Shareholders' Meeting regulation governing the Shareholders' Meeting's business and permitting an orderly and efficient hosting of such meetings, guaranteeing at the same time each shareholder the right to take the floor on matters under discussion, as suggested by the Corporate Governance Code.

The Shareholders' Meeting regulation, among other matters, establishes that:

- (i) the Chairperson may adopt any measure considered necessary to guarantee the correct execution of Shareholders' Meeting's business and the exercise of voting rights by attendees;
- (ii) in the discussion of such matters and proposals, the Chairperson, where a majority of the share capital is not in opposition, may follow a different order of consideration from that stated in the call notice of the meeting and may call for some or all of the matters on the Agenda to be discussed together;
- (iii) the Chairperson conducts the discussion, giving the floor to Directors, to Statutory Auditors and any parties so requesting. The Chairperson, prior to initiating the discussion, outlines for each point any questions received before the Shareholders' Meeting and any responses provided. Those holding the right to vote and the bondholders' joint representative may request the floor on only one occasion for each matter on the agenda, making observations and requesting information. Those persons entitled to vote may also draw up proposals. Requests to contribute may be made from the constitution of the Shareholders' Meeting until the time at which the Chairperson declares the discussion of the matter closed. In order to ensure the orderly conduct of the Meeting, the Chairperson has the power to determine, at the opening of or during the discussion of individual matters, a deadline for the submission of requests to contribute. The Chairperson establishes the manner in which contribution requests are made and the order in which they are heard. The Chairperson and, on his invitation, those assisting him/her respond to speakers at the end of all contributions under discussion, or after each contribution, taking account also of any questions drawn up by shareholders before the Shareholders' Meeting, which have not been responded to by the Company. Those who have requested the floor have the right to a brief reply;
- (iv) before voting commences, the Chairperson readmits to the Shareholders' Meeting any persons excluded during the discussion in accordance with the regulation;
- (v) the Chairperson shall decide the order in which the proposals on the individual matters on the Agenda are put to the vote, generally giving priority to those formulated by the Board of Directors.

In 2024, the Shareholders' Meeting met twice.

Firstly, on April 23, 2024, in single call, with the attendance of approx. 63.002% of the share capital and in which, among other things, the following were resolved: (i) approval of the financial statements at December 31, 2023; (ii) a treasury share purchase plan. The Shareholders' Meeting also expressed its consultative vote on the first and second section of the Remuneration Report (today, the "Remuneration Policy and Report") as per Article 123-ter of the CFA.

In addition to the Chairperson, the following Directors were present at the above-mentioned Shareholders' Meeting: Giulio Ranzo, Elena Pisonero and Donatella Isaia and Statutory Auditors Vito Di Battista, (Chairperson) and Michela Zeme (Statutory Auditor). The document containing the statutory financial statements and consolidated financial statements, together with the accompanying reports, in addition to the reports of the Directors on the matters on the Agenda, were made available within the terms prescribed by law, in order to ensure Shareholders of adequate disclosure with regards to the matters necessary to take into consideration, with due consideration, for the decisions to be taken. This documentation, together with the results of voting, was also made available and may be accessed on the Company's website www.avio.com, in the section "Investors - Shareholders' Meetings - 2024". The Appointments and Remuneration Committee decided not to report to the Shareholders' Meeting upon the means of exercise of its functions, considering that this information has already been outlined in the Remuneration Policy

and Report made available to the shareholders before the Shareholders' Meeting.

A second meeting on December 20, 2024, in single call, with the attendance of approx. 35.755% of the share capital and in which, among other things, a resolution was passed (i) to amend the By-Laws and (ii) to appoint the legally-required auditors for the nine-year period 2026-2034.

This documentation, together with the results of voting, was also made available and may be accessed on the Company's website www.avio.com, in the section "Investors - Shareholders' Meetings - 2024".

In 2024, there were no significant changes in the market capitalisation of the shares of the Company or in the composition of its shareholders, such as to consider it necessary to assess the possibility to propose to the Shareholders' Meeting changes to the By-Laws in relation to the percentages established for the exercise of the shares and to the protection of minority shareholders.
